

Oracle8i

Windows Documentation Master Index

Release 2 (8.1.6)

January 2000

Part No. A77477-01

USAGE NOTES:

You can use the bookmark list for this document to jump directly to a particular letter of the alphabet.

The entries in this master index do not function as hyperlinks to the files they reference. To jump to a particular book, use the bookmarks under the heading "Links to Other Books", and then use the bookmark list for that book to navigate to a particular topic. The bookmarks are named after the book codes used in this index.

Oracle8i Windows Documentation Master Index, Release 2 (8.1.6)

Copyright © 2000 Oracle Corporation. All rights reserved.

Compiled by: Eric Belden, Tamar S. Rothenberg

The Programs (which include both the software and documentation) contain proprietary information of Oracle Corporation; they are provided under a license agreement containing restrictions on use and disclosure and are also protected by copyright, patent, and other intellectual and industrial property laws. Reverse engineering, disassembly, or decompilation of the Programs is prohibited.

The information contained in this document is subject to change without notice. If you find any problems in the documentation, please report them to us in writing. Oracle Corporation does not warrant that this document is error free. Except as may be expressly permitted in your license agreement for these Programs, no part of these Programs may be reproduced or transmitted in any form or by any means, electronic or mechanical, for any purpose, without the express written permission of Oracle Corporation.

If the Programs are delivered to the U.S. Government or anyone licensing or using the programs on behalf of the U.S. Government, the following notice is applicable:

Restricted Rights Notice Programs delivered subject to the DOD FAR Supplement are "commercial computer software" and use, duplication, and disclosure of the Programs, including documentation, shall be subject to the licensing restrictions set forth in the applicable Oracle license agreement. Otherwise, Programs delivered subject to the Federal Acquisition Regulations are "restricted computer software" and use, duplication, and disclosure of the Programs shall be subject to the restrictions in FAR 52.227-19, Commercial Computer Software - Restricted Rights (June, 1987). Oracle Corporation, 500 Oracle Parkway, Redwood City, CA 94065.

The Programs are not intended for use in any nuclear, aviation, mass transit, medical, or other inherently dangerous applications. It shall be the licensee's responsibility to take all appropriate fail-safe, backup, redundancy, and other measures to ensure the safe use of such applications if the Programs are used for such purposes, and Oracle Corporation disclaims liability for any damages caused by such use of the Programs.

Oracle is a registered trademark, and Net8, Oracle Call Interface, Oracle7, Oracle8, Oracle8i, Oracle Designer, Oracle Enterprise Manager, Oracle Forms, Oracle Parallel Server, Oracle Server Manager, Oracle SQL*Loader, LogMiner, PL/SQL, Pro*C, SQL*Net and SQL*Plus, and Trusted Oracle are trademarks or registered trademarks of Oracle Corporation. All other company or product names mentioned are used for identification purposes only and may be trademarks of their respective owners.

Send Us Your Comments

Oracle8i Windows Documentation Master Index, Release 2 (8.1.6)

Part No. A77477-01

How to Contact Oracle Technical Publications

Oracle Corporation welcomes your comments and suggestions on the quality and usefulness of this publication. Your input is an important part of the information used for revision.

- Did you find any errors?
- Is the information clearly presented?
- Do you need more information? If so, where?
- Do you have suggestions for improvement? Please indicate the chapter, section, and page number (if available).

You can send comments regarding documentation in the following ways:

- Electronic mail - ntdoc@us.oracle.com
- FAX - (650) 506-7370 Attn: Oracle Windows Platforms Server Documentation
- Postal service:
Oracle Corporation
Windows Platforms Server Documentation Manager
500 Oracle Parkway, MS 10P8,
Redwood Shores, CA 94065
USA

If you would like a reply, please provide your name, address, and telephone number.

If you have problems with the software, please contact your local Oracle Support Services.

Preface

This guide provides an alphabetical compilation of the index entries from the Oracle8i on Windows documentation set, Release 2 (8.1.6).

Conventions

Each index entry lists page numbers in one or more books in the Oracle8i on Windows documentation set. For example, this index entry:

Optimal Flexible Architecture, DBA 2-17, COM 2-13, MTS 1-16

indicates that there is information on OFA on page 2-17 in *Oracle8i Administrator's Guide for Windows NT*, on page 2-13 in *Oracle COM Automation Developer's Guide*, and on page 1-16 in *Using Microsoft Transaction Server With Oracle8*.

The index uses a separate three-letter code for each book in the Oracle8i on Windows documentation set. The following table lists the codes for the books that have been included in this master index. These codes are also listed in a legend at the bottom of each page in this index.

Code	Book Title	Part Number
COB	<i>Pro*COBOL Precompiler Getting Started for Windows</i>	A73024-01
COM	<i>Oracle COM Automation Developer's Guide</i>	A73027-01
CPP	<i>Pro*C/C++ Precompiler Getting Started for Windows</i>	A73023-01
DBA	<i>Oracle8i Administrator's Guide for Windows NT</i>	A73008-01
MTS	<i>Using Microsoft Transaction Server With Oracle8</i>	A73029-01
MVC	<i>Oracle AppWizard for Microsoft Visual C++ User's Guide</i>	A73028-01
OCI	<i>Oracle Call Interface Getting Started for Windows</i>	A73022-01
OLE	<i>Oracle Provider for OLE DB User's Guide</i>	A75235-01
OPS	<i>Oracle Parallel Server Administrator's Guide for Windows NT</i>	A73025-01
WEB	<i>Oracle Web Publishing Assistant Getting Started for Windows NT</i>	A73026-01

Note: The following documents are not included in the Oracle8i on Windows master index:

- *Oracle8i Installation Guide for Windows NT*
 - *Oracle8i Release Notes for Windows NT*
 - *Oracle8i Client Installation Guide for Windows NT*
 - *Oracle8i Client Administrator's Guide for Windows NT*
 - *Oracle8i Client Release Notes for Windows NT*
 - *Oracle Enterprise Manager Documentation Set*
 - *Oracle Migration Workbench Documentation Set*
 - *SQL*Plus Getting Started for Windows NT*
 - *Oracle8i Database Server Documentation Set*. Refer to the *Oracle8i Documentation Generic Master Index* for the index entries for these books.

Master Index

Symbols

"", SQL*Loader parameter, DBA 2-18
"FIX n", SQL*Loader parameter, DBA 2-18
"RECSIZE", SQL*Loader parameter, DBA 2-18
"VAR xxxx", SQL*Loader parameter, DBA 2-19
\\.\PhysicalDriveX, DBA D-4, OPS 3-5

Numerics

1521 port, DBA E-11
1526 port, DBA E-11
1575 port, DBA E-11
1610 port, DBA E-11
1620 port, DBA E-11
16-bit code, not supported, CPP 1-2
4GB RAM Tuning, DBA 10-3

A

AboutDlg.cpp
 defined, MVC 4-13
AboutDlg.h
 defined, MVC 4-13
Access Control Lists
 accessing security groups, DBA 4-21
 adding or removing users in security groups, DBA 4-23
 available security groups, DBA 4-20
 changing user permissions in security groups, DBA 4-24
ACCOUNT table
 using with Microsoft application demo, MTS 4-3, MTS A-2, MTS A-5

ACCOUNT.IDI, MTS 4-5
accounts, domain shared and OPSS, WEB 3-2
Active Directory
 accessing security groups, DBA 4-21
 adding or removing users in security groups, DBA 4-23
 automatic discovery of directory servers, DBA 4-6
 changing permissions in security groups, DBA 4-24
 connecting to a database, DBA 4-16, DBA 4-17
 creating security domains, DBA 4-25
 defined, DBA 4-2
 enhancement of directory object type descriptions, DBA 4-8
 how Oracle directory objects appear, DBA 4-9
 installation requirements, DBA 8-10
 integration with directory servers, DBA 4-6
 integration with Microsoft tools, DBA 4-7
 integration with Windows login credentials, DBA 4-8
 managing Access Control Lists, DBA 4-20
 managing security groups directory server
 managing Access Control Lists, DBA 4-20
 procedures for installing Oracle into, DBA 4-14
 required Oracle configuration tools, DBA 4-14
 requirements for creating an Oracle Context, DBA 4-11
 requirements for creating an Oracle schema, DBA 4-10
 requirements for creating enterprise user security, DBA 4-13
 requirements for creating Net8 directory naming, DBA 4-12

A

- requirements for using Oracle, DBA 4-10
- testing connectivity from client
 - computers, DBA 4-16
- testing connectivity with Microsoft tools, DBA 4-17
- testing connectivity with SQL*Plus, DBA 4-7, DBA 4-19
- testing database connectivity, DBA 4-7, DBA 4-18
- user interface extensions, DBA 4-7
- Active Directory Users and Computers
 - accessing directory server objects, DBA 4-17
 - integration with Oracle objects in Active Directory, DBA 4-7
 - testing database connectivity from, DBA 4-18
- add_newl.bat, CPP 2-13
- adding files, CPP 2-7
- ADMIN directory, explained, DBA 3-22
- administration tasks
 - deleting scheduled web pages, WEB 3-12
 - editing query syntax, WEB 3-15
 - editing templates, WEB 3-14
 - generating web pages, WEB 3-12
 - opening a scheduled web page query, WEB 3-11
 - refreshing the file listing of web pages, WEB 3-14
 - viewing properties of a web page, WEB 3-12
- administration tools
 - for enterprise users, DBA 8-9
 - for external users, DBA 8-6
- Administrator privileges
 - for creating an Oracle Service for MTS, MTS 3-7
- Advanced Replication support
 - additional documentation, DBA 5-24
 - configuration tasks, DBA 5-22
 - creating a SPOOL file, DBA 5-23, DBA 5-24
 - data dictionary
 - tables, DBA 5-24
 - initialization parameter requirements, DBA 5-21
 - tablescape requirements, DBA 5-21, DBA 5-24
- alert files, DBA 9-13
 - for monitoring a database, DBA 9-2
 - using, DBA 9-13
- alert view, DBA 9-4
- alias, database, WEB 3-5
- ALL_HOMES, registry subkey for multiple Oracle homes, DBA C-8
- ALTER DATABASE ARCHIVELOG
 - command, DBA 7-24
- ALTER DATABASE CONVERT statement, OPS 2-27
- ALTER DATABASE OPEN RESETLOGS statement, OPS 2-27
- ALTER PACKAGE command, DBA 5-23
- Animator, COB 2-6
- ANSI compliance, COB 1-4, CPP 1-2
- ANSI dynamic SQL, COB 2-10, CPP 3-4
- application development
 - finding information, DBA 12-2
- application programming interfaces
 - PL/SQL, COM 4-6
- application types
 - master-detail display form, MVC 1-4
 - multiple-record display form, MVC 1-4
 - single-record display form, MVC 1-4
- applications
 - created with Oracle AppWizard for Microsoft Visual C++, MVC 1-4
 - creating, MVC 2-1
 - creating a master-detail display application, MVC 2-15
 - creating a multiple-record display application, MVC 2-5
 - creating a single-record display application, MVC 2-5
 - customizing, MVC 3-1
 - understanding code, MVC 3-1, MVC 3-2
 - understanding the generated files, MVC 3-3
- architecture
 - models 1 and 2, COM 1-7
 - Oracle COM Automation, COM 1-4
- ARCHIVE LOG LIST command, DBA 7-24
- ARCHIVELOG mode, DBA 7-24

KEY: COB *Pro*COBOL Precompiler Getting Started for Windows*; COM *Oracle COM Automation Developer's Guide*; CPP *Pro*C/C++ Precompiler Getting Started for Windows*; DBA *Oracle8i Administrator's Guide for Windows NT*; MTS *Using Microsoft Transaction Server With Oracle8*; MVC *Oracle AppWizard for Microsoft Visual C++ User's Guide*; OCI *Oracle Call Interface Getting Started for Windows*; OLE *Oracle Provider for OLE DB User's Guide*; OPS *Oracle Parallel Server Administrator's Guide for Windows NT*; WEB *Oracle Web Publishing Assistant Getting Started for Windows NT*

- archiving mode
 - custom database, DBA 7-23
 - starter database, DBA 7-23
 - archiving procedures, DBA 7-25
 - for redo log files, DBA 7-23
 - specifying an archive destination, DBA 7-25
 - UNC not allowed, DBA 6-3, DBA 7-23
 - asynchronous processing, WEB 1-5
 - attributes
 - connection string, OLE 2-3
 - audit trail
 - managing, DBA 9-13
 - operating system, DBA 2-22
 - AUDIT_FILE_DEST parameter, DBA 9-13, DBA B-4
 - AUDIT_TRAIL parameter, DBA 9-11
 - auditing, DBA 9-11
 - authentication
 - automatically enabling during installation, DBA 8-13
 - connecting as INTERNAL without a password, DBA 8-50
 - creating an operating system-authenticated user, DBA 8-43
 - enhancements, DBA 8-4
 - in Windows 2000 domains, DBA 8-8
 - of enterprise users, DBA 8-8
 - of external users, DBA 8-6
 - overview, DBA 8-2
 - setting OS_AUTHENT_PREFIX, DBA 8-41
 - setting OSAUTH_PREFIX_DOMAIN, DBA 8-41
 - using a password file, DBA 7-16
 - using Windows native authentication methods, DBA 8-2
 - when to use enterprise users, DBA 8-5
 - when to use external users, DBA 8-5
 - authentication adapters
 - using, DBA E-6
 - authentication parameter settings
 - viewing, DBA 8-24
 - authentication protocols
 - default protocol used, DBA 8-3
 - with Windows 2000, DBA 8-2
 - with Windows NT 4.0, DBA 8-2
 - authorization
 - of external roles, DBA 8-7, DBA 8-9
 - when to use enterprise roles, DBA 8-5
 - when to use external roles, DBA 8-5
 - automatic startup/shutdown
 - on Windows NT and UNIX, DBA 1-7
 - Oracle Services, DBA 7-9
-
- B**
- BACKGROUND_DUMP_DEST parameter, DBA 6-16
 - using with trace files, DBA 9-13
 - backup and recovery tools
 - OCOPY, DBA 11-3
 - Recovery Manager (RMAN.EXE), DBA 11-2
 - selecting, DBA 11-2
 - third-party backup and recovery vendors, DBA 11-3
 - backups
 - before migration, OPS 2-20
 - databases, DBA 6-25
 - OCOPY file types, DBA 11-4
 - raw partitions, OPS 2-34, OPS 3-29
 - stopping services to perform cold backups, DBA 11-3
 - batch files, for sample programs, COB 2-9
 - begindetail and enddetail, keywords, WEB 2-3
 - benefits
 - of Oracle AppWizard for Microsoft Visual C++, MVC 1-2
 - Oracle COM Automation, COM 1-3
 - bin directory, OCI 1-4
 - block size, maximum, DBA B-5
 - blocks per file, maximum, DBA B-5
 - BUILD_DB.SQL script, DBA 6-11, DBA 6-17
 - location of, DBA 6-4
 - BUILDALL.SQL script, DBA 6-17
 - creating MTSSYS user name, MTS 3-4, MTS 4-3
