Grid Control List of Bugs Fixed for Solaris (SPARC)

10g Release 4 (10.2.0.4.0)

E12167-01

March 2008

---

The List of Bugs Fixed document is one of the documents that is bundled with 10.2.0.4.0 Grid Control Patch Set. The document provides a list of generic bugs that were fixed in Oracle Enterprise Manager Grid Control 10g Release 4 (10.2.0.4.0).

This document contains the following:

- [Patch Set Documentation](#)
- [Bugs Addressed in this Patch Set](#)
- [Documentation Accessibility](#)

## 1 Patch Set Documentation

There are two documents related to this release of Grid Control patch set:

- *Oracle Enterprise Manager Grid Control Release Notes, 10g Release 4 (10.2.0.4.0)*

This document provides:

- A list of new features included in this patch set
- Information about how to install or de-install the patch set
- A list of known issues relating to this release of Grid Control patch set
- *Oracle Enterprise Manager Grid Control List of Bugs Fixed, 10g Release 4 (10.2.0.4.0)* (this document)

This document provides a list of all generic bugs related to Grid Control that have been fixed in this release.

Both these documents are included with the 10.2.0.4.0 patch set. You can also find a consolidated document, which has the Document ID 457442.1, on *OracleMetaLink* at:

<http://metalink.oracle.com/>

To locate document 457442.1:

1. Click **Advanced** at the top of the *OracleMetaLink* page.
2. Enter 457442.1 in the **Document ID** field and click **Submit**.

## 2 Bugs Addressed in this Patch Set

This section describes the bugs addressed in this patch set:

---

**Note:** This list of fixed bugs was current at the time when the patch set was released. Information about these fixed bugs may be revised after release of the patch set. Refer to *OracleMetaLink* for Document ID 457442.1 for any post-release updates.

### **3 Documentation Accessibility**

Our goal is to make Oracle products, services, and supporting documentation accessible, with good usability, to the disabled community. To that end, our documentation includes features that make information available to users of assistive technology. This documentation is available in HTML format, and contains markup to facilitate access by the disabled community. Accessibility

standards will continue to evolve over time, and Oracle is actively engaged with other market-leading technology vendors to address technical obstacles so that our documentation can be accessible to all of our customers. For more information, visit the Oracle Accessibility Program Web site at <http://www.oracle.com/accessibility/>.

### **Accessibility of Code Examples in Documentation**

Screen readers may not always correctly read the code examples in this document. The conventions for writing code require that closing braces should appear on an otherwise empty line; however, some screen readers may not always read a line of text that consists solely of a bracket or brace.

### **Accessibility of Links to External Web Sites in Documentation**

This documentation may contain links to Web sites of other companies or organizations that Oracle does not own or control. Oracle neither evaluates nor makes any representations regarding the accessibility of these Web sites.

### **TTY Access to Oracle Support Services**

Oracle provides dedicated Text Telephone (TTY) access to Oracle Support Services within the United States of America 24 hours a day, seven days a week. For TTY support, call 800.446.2398.
