

Oracle® Retail Store Inventory Management

Release Notes

Release 13.1.2

February 2010

Oracle Retail Store Inventory Management (SIM) Release 13.1.2 is a patch release for SIM 13.1. SIM 13.1.2 includes selected defect fixes and enhancements for SIM 13.1 code.

Oracle Customer Support investigates submitted issues assuming that all released updates have been applied. It is the customer's decision when to apply a new release; however, delays in applying updates can complicate the support process.

About Patch Releases

Oracle Retail patch releases are periodic releases that can include the following:

- New defect fixes and product enhancements
- All of the defect fixes and enhancements that have been released through bundled hot fix releases since the last patch release

Note: Customers can choose whether to apply bundled hot fix releases, or wait for the next patch release. You must apply this patch release to upgrade your installation to the currently supported level:

- Customers who have applied all bundled hot fix releases must apply all new defect fixes and enhancements included in the patch release.
 - Customers who have not applied bundled hot fix releases can instead apply the patch release, which also includes the fixes and enhancements from the bundled hot fix releases.
-
-

Documentation for patch releases includes the following:

- New and updated guides (for example, operations and user guides) that apply to the patch release level. These documents include all updates made since the last patch release. See "[Related Documentation](#)" for a list of the documents published for SIM 13.1.2.
- Defect reports for new fixes and enhancements for the patch release.
- Defect reports for all bundled hot fix releases since the last patch release.
- All document versions that were released with bundled hot fix releases.

Note: Documentation is separated into folders that are identified by release numbers. Documents for bundled hot fix releases are provided again as a historical record of the changes made since the last patch release. Always refer to the most recent document versions that apply to the release level you have installed.

See the *Oracle Retail Store Inventory Management Installation Guide* for Release 13.1.2 for instructions about how to apply the defect fixes and enhancements that you have not already applied.

Hardware and Software Requirements

See the *Oracle Retail Store Inventory Management Installation Guide* for information about the following:

- Hardware and software requirements
- Oracle Retail application software compatibility

Applying Source Code

Before applying the fixes included in the SIM 13.1.2 release, be sure that:

- SIM 13.1 has been installed
- The SIM 13.1.1 patch release has been applied

Before applying the source files over your code:

- Note whether any modules have been customized. If so, the customizations must be reapplied to the new version of the module, or the fix may need to be applied to the custom version of the code.
- Copy the original files to a different directory before you copy over them, in case you need to refer to them at a later date.

Running Scripts

Back up data before running any script, because the scripts provided *do not* preserve data. See defect reports for details.

Check with your database administrator to determine whether your database should be analyzed after a script is run. In many cases, analysis of the database is necessary to take advantage of new or modified indexes intended to improve performance of the application.

Technical Enhancements

Oracle Retail Store Inventory Management Release 13.1.2 introduces support for new language translations. These enhancements are new for Release 13.1.2.

Language Enablement

New Translations

For Release 13.1.2, Oracle Retail Store Inventory Management is translated into the following languages, in addition to the language translations previously supported:

- Dutch (NL)
- Greek (EL)
- Hungarian (HU)
- Polish (PL)
- Swedish (SV)
- Turkish (TR)

Supported Translations

SIM is now translated into all of the following languages:

- Chinese (Simplified) (ZHS)
- Chinese (Traditional) (ZHT)
- Dutch (NL)
- English (EN)
- French (FR)
- German (DE)
- Greek (EL)
- Hungarian (HU)
- Italian (IT)
- Japanese (JP)
- Korean (KO)
- Polish (PL)
- Portuguese (Brazilian) (PTB)
- Russian (RU)
- Spanish (ES)
- Swedish (SV)
- Turkish (TR)

Defect Fixes and Documentation

A defect fix is a modification to the base Oracle Retail code (for example, a bug fix, a performance enhancement, or a functional enhancement). Each defect fix that is included in this release has a corresponding defect report titled `<defect-number>.PDF` (for example, 1234567.PDF).

In the same folder, the file named `DEFECT MODULE XREF SIM 13.1.2.XLS` lists every defect number and the modules and scripts that are included in the patch. Review each defect report carefully before implementing the defect fixes. Please note that scripts do not preserve data. Make sure that all data is backed up before you run any script.

Noteworthy Defect Fixes

The following topics highlight:

- Noteworthy defect fixes and enhancements that are new for Release 13.1.2
- Noteworthy defect fixes and enhancements for bundled hot fix releases 13.1.1.1 and 13.1.1.2

All defect fixes for releases 13.1.1.1 and 13.1.1.2 are also included in Release 13.1.2 and can be applied through the installation of this patch release. See the *Oracle Retail Store Inventory Management Installation Guide* for Release 13.1.2 for instructions to apply the defect fixes and enhancements that you have not already applied.

The following are not complete lists. See **DEFECT MODULE XREF SIM 13.1.2.XLS** for a complete list of defect fixes and enhancements included in this patch release and in all bundled hot fix releases since the last patch release.

Release 13.1.2

The following are noteworthy defect fixes and enhancements that have not been released previously through a bundled hot fix release.

Defect Number	Summary
9309638	Additions of the following languages to SIM: Turkish, Hungarian, Dutch, Greek, Polish, Swedish.

Release 13.1.1.2

The following are noteworthy defect fixes and enhancements that were provided with SIM 13.1.1.2 and are also included in SIM 13.1.2. See **DEFECT MODULE XREF SIM 13.1.1.2.XLS** for a complete list of SIM 13.1.1.2 defect fixes.

Defect Number	Summary
9027085	The <code>ExtractStockCount.sh</code> shell script was updated to capture the correct return code for each Java process it creates.
9131352	Updated RIB payloads; dependent on RIB bundled hot fix release 13.1.1.2.

Release 13.1.1.1

The following are noteworthy defect fixes and enhancements that were provided with SIM 13.1.1.1 and are also included in SIM 13.1.2. See **DEFECT MODULE XREF SIM 13.1.1.1.XLS** for a complete list of SIM 13.1.1.1 defect fixes.

Defect Number	Summary
8909805	Approved store orders are no longer editable.
8940314	Supplier data seeding corrected to fetch only the different Supplier Address with Primary Indicator set to Y from RMS.

Index of Noteworthy Oracle Retail Knowledge Base Articles (ID 989300.1)

Oracle Retail periodically publishes supplemental documents that provide details that add to the information provided in the standard documentation released with Oracle Retail products. These supplemental documents are available as Knowledge Base articles at My Oracle Support. They include materials such as white papers, instructional notes, lists of fixes, test cases, and support alerts. For each document, this index provides the Knowledge Base article title, ID, pertinent applications, publication date, and a description of content.

The Programs may provide links to Web sites and access to content, products, and services from third parties. Oracle is not responsible for the availability of, or any content provided on, third-party Web sites. You bear all risks associated with the use of such content. If you choose to purchase any products or services from a third party, the relationship is directly between you and the third party. Oracle is not responsible for: (a) the quality of third-party products or services; or (b) fulfilling any of the terms of the agreement with the third party, including delivery of products or services and warranty obligations related to purchased products or services. Oracle is not responsible for any loss or damage of any sort that you may incur from dealing with any third party.

Value-Added Reseller (VAR) Language

Oracle Retail VAR Applications

The following restrictions and provisions only apply to the programs referred to in this section and licensed to you. You acknowledge that the programs may contain third party software (VAR applications) licensed to Oracle. Depending upon your product and its version number, the VAR applications may include:

(i) the software component known as **ACUMATE** developed and licensed by Lucent Technologies Inc. of Murray Hill, New Jersey, to Oracle and imbedded in the Oracle Retail Predictive Application Server - Enterprise Engine, Oracle Retail Category Management, Oracle Retail Item Planning, Oracle Retail Merchandise Financial Planning, Oracle Retail Advanced Inventory Planning, Oracle Retail Demand Forecasting, Oracle Retail Regular Price Optimization, Oracle Retail Size Profile Optimization, Oracle Retail Replenishment Optimization applications.

(ii) the **MicroStrategy** Components developed and licensed by MicroStrategy Services Corporation (MicroStrategy) of McLean, Virginia to Oracle and imbedded in the MicroStrategy for Oracle Retail Data Warehouse and MicroStrategy for Oracle Retail Planning & Optimization applications.

(iii) the **SeeBeyond** component developed and licensed by Sun Microsystems, Inc. (Sun) of Santa Clara, California, to Oracle and imbedded in the Oracle Retail Integration Bus application.

(iv) the **Wavelink** component developed and licensed by Wavelink Corporation (Wavelink) of Kirkland, Washington, to Oracle and imbedded in Oracle Retail Mobile Store Inventory Management.

(v) the software component known as **Crystal Enterprise Professional and/or Crystal Reports Professional** licensed by SAP and imbedded in Oracle Retail Store Inventory Management.

(vi) the software component known as **Access Via™** licensed by Access Via of Seattle, Washington, and imbedded in Oracle Retail Signs and Oracle Retail Labels and Tags.

(vii) the software component known as **Adobe Flex™** licensed by Adobe Systems Incorporated of San Jose, California, and imbedded in Oracle Retail Promotion Planning & Optimization application.

(viii) the software component known as **Style Report™** developed and licensed by InetSoft Technology Corp. of Piscataway, New Jersey, to Oracle and imbedded in the Oracle Retail Value Chain Collaboration application.

(ix) the software component known as **DataBeacon™** developed and licensed by Cognos Incorporated of Ottawa, Ontario, Canada, to Oracle and imbedded in the Oracle Retail Value Chain Collaboration application.

You acknowledge and confirm that Oracle grants you use of only the object code of the VAR Applications. Oracle will not deliver source code to the VAR Applications to you. Notwithstanding any other term or condition of the agreement and this ordering document, you shall not cause or permit alteration of any VAR Applications. For purposes of this section, "alteration" refers to all alterations, translations, upgrades, enhancements, customizations or modifications of all or any portion of the VAR Applications including all reconfigurations, reassembly or reverse assembly, re-engineering or reverse engineering and recompilations or reverse compilations of the VAR Applications or any derivatives of the VAR Applications. You acknowledge that it shall be a breach of the agreement to utilize the relationship, and/or confidential information of the VAR Applications for purposes of competitive discovery.

The VAR Applications contain trade secrets of Oracle and Oracle's licensors and Customer shall not attempt, cause, or permit the alteration, decompilation, reverse engineering, disassembly or other reduction of the VAR Applications to a human perceivable form. Oracle reserves the right to replace, with functional equivalent software, any of the VAR Applications in future releases of the applicable program.
