This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are "commercial computer software" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle and Java are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Xeon are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Opteron, the AMD logo, and the AMD Opteron logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

Index

Preface

This net change document describes additions to the JD Edwards EnterpriseOne Applications implementation guides due to software updates and documentation corrections for Release 9.1.

How to Use This Document

As changes are made to 9.1 implementation and reference guides, this net change document is updated to identify those changes, and to provide a reference to where the changes are available. When you access the updated guides in the JD Edwards EnterpriseOne Applications library, you will see release designation information on the updated content. For example, you will see (Release 9.1 Update) next to content that has changed due to changes in the software that are made after the general availability release of 9.1.

This net change document is updated periodically as new information becomes available. To ensure that you are reading the latest version of this document, check the JD Edward EnterpriseOne Applications Documentation Library. The most current version of the *JD Edwards EnterpriseOne Applications Net Change for the Documentation Library* is available on Oracle Technology Network at:

http://docs.oracle.com/cd/E16582_01/index.htm

Audience

This document is intended for all audiences of JD Edwards EnterpriseOne Applications documentation, including individuals responsible implementing and using the software.

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Net Change for Release 9.1

This chapter outlines revisions made to the JD Edwards EnterpriseOne Applications documentation library after the general availability of release 9.1. It contains the following topics:

- [Section 1.1, "Documentation for Software Updates"](#)
- [Section 1.2, "Documentation Corrections"](#)

1.1 Documentation for Software Updates

This section outlines updates made to the JD Edwards EnterpriseOne Applications implementation and reference guides due to updates to the software that occurred after the GA of JD Edwards EnterpriseOne Applications release 9.1.

1.1.1 Asset Lifecycle Management Updates

This table lists documentation updates that have been created due to software changes in Asset Lifecycle Management (ALM) software:

Enhancement	Publication Date	Description	Documentation
Condition-Based Maintenance Mobile Enterprise Applications for Smartphone and Tablet	January 2015	Two new mobile applications were created to enable users to review condition-based alert messages using a mobile device. A reference to the documentation for the mobile applications was added to the JD Edwards EnterpriseOne Applications Condition-Based Maintenance Applications Implementation Guide.	See this topic: <ul style="list-style-type: none"> ■ Working with Condition-Based Alerts

Enhancement	Publication Date	Description	Documentation
New features added to the JD Edwards EnterpriseOne Applications Rental Management system	January 2015	<p>The JD Edwards EnterpriseOne Applications Rental Management Guide has been updated to include several new features: rental contract ledger, unrecognized revenue report, fixed and variable exchange rate, support for partial receipts, closing rental contracts, cancelling item reservations, manual linking of related orders, and so on.</p> <p>These changes are associated with Bug Numbers 19775243 and 19775268.</p>	<p>See these topics:</p> <ul style="list-style-type: none"> ■ Reporting Unrecognized Revenue ■ Billing of Partial Receipts ■ Variations in Billing Calculation ■ Reviewing Rental Contract Receipts and Dispositions ■ Working With Rental Contract Ledger ■ Cancelling Reservations and Closing Rental Contracts ■ Invoice/Exchange
JD Edwards EnterpriseOne Applications Rental Management Guide	October 2014	<p>JD Edwards EnterpriseOne Rental Management system is a new product that has been created to enable users to manage the rental of equipment and items. A new guide has been created to support this new product.</p> <p>These changes are associated with Bug Numbers 17797448 and 17797458.</p>	<p>You can access the guide using this link:</p> <ul style="list-style-type: none"> ■ Rental Management
Manage Customer Equipment Mobile Applications	April 2014	<p>Two new mobile applications have been created to enable users to search for equipment based on site details from a mobile smartphone or tablet device. These applications include:</p> <ul style="list-style-type: none"> ■ Service Equip-Smartphone ■ Service Equip - Tablet <p>References to the detailed documentation for these mobile applications have been added to the related section in the Fixed Assets Implementation Guide.</p>	<p>See this topic:</p> <ul style="list-style-type: none"> ■ Mobile Application for Location Transfer ■ Mobile Applications for Equipment Master (Release 9.1 Update) ■ Mobile Applications for Managing Equipment (Release 9.1 Update)

Enhancement	Publication Date	Description	Documentation
Create Equipment Work Orders Mobile Enterprise Application	April 2014	A new mobile application has been created to enable users to create equipment work orders using a mobile device. A reference to the documentation for the mobile application was added to the JD Edwards EnterpriseOne Applications Capital Asset Management Implementation Guide and the JD Edwards EnterpriseOne Applications Work Orders Implementation Guide.	See these topics: <ul style="list-style-type: none"> Mobile Applications for Managing Work Orders (Release 9.1 Update) Mobile Applications for Managing Work Orders (Release 9.1 Update)
Tutorial Links	April 2014	Tutorial links have been added to the Advanced Real Estate Forecasting guide for certain features. You can now directly access tutorials from the HTML version of the documentation.	See this topic: <ul style="list-style-type: none"> Forecasting Expense Participation
Tutorial Links	April 2014	Tutorial links have been added to the Real Estate Management guide for certain features. You can now directly access tutorials from the HTML version of the documentation.	See this topic: <ul style="list-style-type: none"> Setting Up Expense Participation
Review Team Work Orders Mobile Application for Tablet and Smartphone	April 2014	Two new mobile applications have been created to enable users to manage team work orders. A reference to the documentation for the mobile application was added to the JD Edwards EnterpriseOne Capital Asset Management Implementation Guide.	See this topic: <ul style="list-style-type: none"> Mobile Applications for Managing Work Orders (Release 9.1 Update)

Enhancement	Publication Date	Description	Documentation
Equipment Work Order Time Entry Mobile Enterprise Applications for Tablet and Smartphone	April 2014	Two new mobile applications has been created to enable users to enter and review time entry for equipment work orders using a mobile device. A reference to the documentation for the mobile application was added to the JD Edwards EnterpriseOne Applications Capital Asset Management Implementation Guide.	See this topic: <ul style="list-style-type: none"> Mobile Enterprise Applications for Managing Equipment (Release 9.1 Update)
Meter Reading Mobile Enterprise Application for Tablet	February 2014	A new mobile application has been created to enable users to work with meter readings using a mobile device. References to the documentation for the mobile application were added to the JD Edwards EnterpriseOne Applications Capital Asset Management Implementation Guide.	See this topic: <ul style="list-style-type: none"> Entering Speed Meter Readings
Manage Equipment Mobile Enterprise Applications for Smartphone and Tablet	February 2014	Two new mobile applications have been created to enable users to manage equipment using a mobile device. These applications include Manage Equipment - Tablet and Manage Equipment-Smartphone. References to the detailed documentation for these mobile applications have been added to the JD Edwards EnterpriseOne Applications Capital Asset Management Implementation Guide.	See these topics: <ul style="list-style-type: none"> Working with Equipment Information Creating Equipment Master Records Manually Working with Role-Based Workspaces
Quick Case Entry Mobile Enterprise Application for Smartphone	February 2014	A new mobile application has been created to enable users to enter cases using a mobile device. A reference to the documentation for the mobile application was added to the JD Edwards EnterpriseOne Applications Capital Asset Management Implementation Guide.	See this topic: <ul style="list-style-type: none"> Mobile Enterprise Application for Entering Cases (Release 9.1 Update)

Enhancement	Publication Date	Description	Documentation
Alternate Tax Rate/ Area	December 2013	Updates have been made to the documentation to support the Alternate Tax Rate/Area feature.	<p>See these topics:</p> <ul style="list-style-type: none"> ■ Alternate Tax Rate/ Area Assignments for Real Estate Management (Release 9.1 Update) ■ Alternate Tax Rate/ Area Assignment for Tenants (Release 9.1 Update)) ■ Alternate Tax Rate/ Area Assignment Functionality for Manual Billing (Release 9.1 Update) ■ Setting Processing Options for Manual Billing Entry (P1511) ■ Alternate Tax Rate/ Area Assignments in Recurring Billing (Release 9.1 Update) ■ Alternate Tax Rate/ Area Assignment for Sales Overage Information (Release 9.1 Update) ■ Setting Processing Options for Sales Overage Information (P15013) ■ Alternate Tax Rate/ Area Assignment in Escalation Information (Release 9.1 Update) ■ Alternate Tax Rate/ Area Assignments in Global Updates (Release 9.1 Update)

Enhancement	Publication Date	Description	Documentation
Attributes - Real Estate Management	September 2013	<p>A new processing option, Unit Attribute Template Name, has been added to the Unit Information program (P15217).</p> <p>A new section, Setting Up Attributes, has been added to the Setting Up Facility Information chapter to elaborate on the steps required to work with attributes.</p> <p>These documentation changes are associated with software updates that were delivered with EnterpriseOne Applications Release 9.1, Update 2 (9.1.2).</p>	<p>See this topic:</p> <ul style="list-style-type: none">■ Setting Up Facility Information

Enhancement	Publication Date	Description	Documentation
AREF Gross Up Processing and Audit Programs	September 2013	<p>Three new processing options have been added to the AREF Budget Calculation program (R15L1091).</p> <p>A new section has been added to the Generating Budget and Forecast Amounts chapter to explain the AREF Share Factor Denominator Audit program (P15L401).</p> <p>A new section has been added to the Generating Budget and Forecast Amounts chapter to explain the AREF Tenant Exclusion Rule Audit program (P15L402).</p> <p>A new section has been added to the Generating Budget and Forecast Amounts chapter to explain the AREF Gross Up Adjustments Audit program (P15L403).</p> <p>A new section has been added that provides two detailed examples of the Gross Up Processing Area calculations the system performs, depending on the setting of the AREF Occupancy Option processing option.</p> <p>These documentation changes are associated with software updates that were delivered with EnterpriseOne Applications Release 9.1, Update 2 (9.1.2).</p>	<p>See this topic:</p> <ul style="list-style-type: none"> ■ Generating Budget and Forecast Amounts
Fields changes for the E.P. Calculation Revisions Program (P15382)	January 2013	<p>This update is to enable four fields in the E.P. Calculation Revisions program (P15382): group, group limit, subgroup, subgroup limit.</p> <p>These changes are associated with Bug Number 14798154.</p>	<p>See these topics:</p> <ul style="list-style-type: none"> ■ Processing Expense Participation ■ Revising Expense Participation Calculations

1.1.2 Cross-Product Solution Updates

This table lists documentation updates that have been created due to software changes in cross-product software.

Note that all mobile application updates have been moved to a new section, Mobile Applications.

Enhancement	Publication Date	Description	Documentation
Adding Print Selection Criteria and Maximum Records Warnings to One View Reports	December 2014	Additional transparency on how data is processed for One View Reports was added. The new functionality includes the ability to add data selection criteria to the report layout, a pop-up warning if the query has more records for the report but the output is limited due to either the system limit or the value of the Select Row Set field, the ability to add this warning to the report layout, and an automatic find performed when drilling back from a report to a Find/Browse form.	See these topics: <ul style="list-style-type: none"> Running One View Reports Modifying One View Reports
Certificate Invalid Error for One View Reporting	September 2014	The documentation has been updated to include a note instructing users to contact their system administrator if they receive a Certificate Invalid message when accessing Oracle BI Publisher server.	See this topic: <ul style="list-style-type: none"> Oracle BI Publisher and JD Edwards EnterpriseOne
New Sales To Date Inquiry Reports	July 2014	The Sales To Date Inquiry Report (P42272) has been updated to include the Sales By Opportunity Report and the Opportunity Trends Report.	See this topic: <ul style="list-style-type: none"> One View Sales To Date Inquiry (P42272)
CompletionProcessor Business Service (J3100030) Added	January 2014	The Business Interface guide was updated to include a new business service, CompletionProcessor ((J3100030)).	See this topic: <ul style="list-style-type: none"> Work Order - Manufacturing

Enhancement	Publication Date	Description	Documentation
Automatic Table Cache Refresh	October 2013	<p>The System Administration documentation has been updated to provide information for a new feature that will help limit the need for users to sign off the system and then sign back on before they are able to access updated data in various tables.</p> <p>These changes are associated with Bug Number 17275155.</p>	<p>See this topic in the System Administration Guide:</p> <ul style="list-style-type: none"> ▪ Understanding Dynamic JDB Table Cache Refresh (Release 9.1 Update 2)
One View Reporting for Warehouse Management	September 2013	<p>This chapter provides overview information, processing options, special process, and reports for the following applications:</p> <ul style="list-style-type: none"> ▪ One View Warehouse Request Inquiry (P46270) ▪ One View Warehouse Suggestion Inquiry (P46271) ▪ One View License Plate Quantity Inquiry (P46L272) ▪ One View Warehouse Location Inquiry (P46273) <p>These documentation changes are associated with software updates that were delivered with EnterpriseOne Applications Release 9.1, Update 2 (9.1.2).</p>	<p>See this topic:</p> <ul style="list-style-type: none"> ▪ One View Reporting for Warehouse Management
One View Attribute Inquiry program (P15270)	September 2013	<p>This new section provides overview information on the new report, lists processing options, and describes the reports delivered with the One View Attribute Inquiry application.</p> <p>These documentation changes are associated with software updates that were delivered with EnterpriseOne Applications Release 9.1, Update 2 (9.1.2).</p>	<p>See this topic:</p> <ul style="list-style-type: none"> ▪ One View Attribute Inquiry (P15270)

Enhancement	Publication Date	Description	Documentation
Business Interfaces	September 2013	<p>A business interface is a set of components that implementation teams can use to create an integration between JD Edwards EnterpriseOne and an external system. Business interfaces can include one or more of these business interface components:</p> <ul style="list-style-type: none"> ■ Business Services ■ Real-Time Events ■ Batch Import Programs ■ Batch Export Programs <p>A new guide has been created to list and describe all of the business interface components that are available in the EnterpriseOne system. This guide organizes these components by business object. A business object is a specific piece of business data, such as a customer, sales order, or business unit.</p> <p>These documentation changes are associated with software updates that were delivered with EnterpriseOne Applications Release 9.1, Update 2 (9.1.2).</p>	<p>You can access the new guide, JD Edwards EnterpriseOne Applications Business Interfaces Implementation Guide, using this link:</p> <ul style="list-style-type: none"> ■ Preface
Drill Back and Decimal Formatting in One View Reports	July 2013	<p>This guide has been updated to include the new Drill Back and Decimal Formatting features of One View Reports. In addition to instructions on how to implement these features, Drill Back information has been added to almost every product-specific chapter that contains reports with this functionality.</p> <p>These changes are associated with Bug Numbers 16700258 and 14553219.</p>	<p>See these topics:</p> <ul style="list-style-type: none"> ■ Preface ■ Finding Information about a One View Report ■ Enabling the Decimal Formatting Feature ■ Working With the Drill Back Feature

Enhancement	Publication Date	Description	Documentation
One View Watchlists	April 2013	<p>A new guide, JD Edwards EnterpriseOne Applications One View Watchlists Implementation Guide, was created.</p> <p>This guide is intended for end users for whom the One View Watchlist feature has been enabled, or administrators and users who are authorized to make One View Watchlists available to a group of users.</p>	<p>You can access the new guide using this link:</p> <ul style="list-style-type: none"> Understanding One View Watchlists
Real-Time Events References to WSG	November 2012	<p>The entire guide has been updated to reflect the current usage of WSG with Real-Time Events.</p>	<p>You can access the guide using this link:</p> <ul style="list-style-type: none"> Introduction to Real-Time Events
One View Reporting for Transportation Management	October 2012	<p>A new chapter was added to the One View Reporting guide to discuss setup and usage of Transportation Management reports.</p> <p>These changes are associated with Bug Numbers 14083588, 14083710, and 14083650.</p>	<p>See this topic:</p> <ul style="list-style-type: none"> One View Reporting for Transportation Management
Business Service Update with JAX-RPC	September 2012	<p>The EU Vat Tax ID update process and the RateWare XL integration doc have been updated with a note to tell users about changes to the business service implementation with the installation of JD Edwards EnterpriseOne Tools Release 9.1.2.</p>	<p>See these topics:</p> <ul style="list-style-type: none"> Understanding Web Services (WSC) Callout Understanding the VIES to Validate EU VAT ID
One View Reporting for Service Management	July 2012	<p>Added a new chapter to include information about setting up and using One View Reporting for Service Management applications and reports.</p>	<p>See this topic:</p> <ul style="list-style-type: none"> One View Reporting for Service Management

1.1.3 Customer Relationship Management Updates

This table lists documentation updates that have been created due to software changes in Customer Relationship Management (CRM) software:

Enhancement	Publication Date	Description	Documentation
Manage Cases Mobile Enterprise Application for Smartphone	April 2014	A new mobile application was created to enable users to manage cases using a mobile device. A reference to the documentation for the mobile application was added to the JD Edwards EnterpriseOne Applications Capital Asset Management Implementation Guide.	See this topic: <ul style="list-style-type: none"> Mobile Application for Reviewing Cases (Release 9.1 Update)
Review Cases Mobile Enterprise Application for Tablet	April 2014	A new mobile application was created to enable users to review cases using a mobile device. A reference to the documentation for the mobile application was added to the JD Edwards EnterpriseOne Applications Capital Asset Management Implementation Guide.	See this topic: <ul style="list-style-type: none"> Mobile Application for Reviewing Cases (Release 9.1 Update)
Manage My Service Orders Mobile Enterprise Applications for Tablet and Smartphone	April 2014	Two new mobile applications were created to enable users to manage service orders using a mobile device. A reference to the documentation for the mobile applications was added to the JD Edwards EnterpriseOne Applications Service Management Implementation Guide and the JD Edwards EnterpriseOne Applications Work Orders Implementation Guide.	See these topics: <ul style="list-style-type: none"> Mobile Applications for Work Orders (Release 9.1 Update) Mobile Applications for Managing Work Orders (Release 9.1 Update)
Review Team Work Orders Mobile Application for Tablet and Smartphone	April 2014	Two new mobile applications have been created to enable users to manage team work orders. A reference to the documentation for the mobile application was added to the JD Edwards EnterpriseOne Service Management Implementation Guide.	See this topic: <ul style="list-style-type: none"> Mobile Applications for Work Orders (Release 9.1 Update)

Enhancement	Publication Date	Description	Documentation
Contact Supplier Mobile Application for Smartphone	April 2014	A new mobile application has been created to enable users to access supplier information using a smartphone. A reference to the documentation for the mobile application was added to the JD Edwards EnterpriseOne Address Book Implementation Guide.	See this topic: <ul style="list-style-type: none"> Mobile Enterprise Applications for Address Book Information (Release 9.1 Update)
Service Order Time Entry Mobile Enterprise Applications for Tablet and Smartphone	April 2014	Two new mobile applications has been created to enable users to enter and review time entry for service work orders using a mobile device. A reference to the documentation for the mobile application was added to the JD Edwards EnterpriseOne Applications Service Management Implementation Guide.	See this topic: <ul style="list-style-type: none"> Mobile Enterprise Applications for Work Orders (Release 9.1 Update)
Create Service Orders Mobile Applications	April 2014	A new mobile tablet application, Create Service Orders, has been created to enable users to review and update existing service orders and to add service orders. Reference to the detailed documentation for this mobile application has been added to the related section in the Service Management Implementation Guide.	See this topic: <ul style="list-style-type: none"> Mobile Applications for Work Orders (Release 9.1 Update)

Enhancement	Publication Date	Description	Documentation
Mobile Applications for Customer Information	February 2014	<p>Four new mobile applications have been created to enable users to access customer information from a mobile smartphone or tablet device. These applications include:</p> <ul style="list-style-type: none"> ■ Customer Account Overview - Smartphone and Tablet ■ Contact Customer - Smartphone and Tablet <p>References to the detailed documentation for these mobile applications have been added to the related sections in the Address Book Implementation Guide.</p>	<p>See this topic:</p> <ul style="list-style-type: none"> ■ Mobile Enterprise Applications for Address Book Information (Release 9.1 Update)
Speed Case Entry	April 2013	<p>The guide has been updated to include the new Speed Case Entry application (P90CG601) that you can use to quickly enter and update cases. The application is discussed in detail in the section "Entering and Updating Cases Using the Speed Case Entry Program (P90CG601)", processing options to use the program are discussed in section "Setting Up Processing Options for Case Management" and the impact of the solution is mentioned in several places in the guide.</p> <p>These changes are associated with Bug Numbers 14336214 and 14482215.</p>	<p>See these topics:</p> <ul style="list-style-type: none"> ■ Case Management ■ Setting Up Processing Options for Case Management ■ Entering Cases ■ Entering and Updating Cases Using the Speed Case Entry Program (P90CG601) ■ Entering and Reviewing Related Actions for Speed Case Entry

Enhancement	Publication Date	Description	Documentation
Removed Apropos References	November 2012	<p>The third-party system Apropos is no longer supported. Therefore, all references to Apropos were removed from the CRM Fundamentals Application guide, specifically from the sections listed in the Documentation column.</p> <p>These changes are associated with Bug Number 14527513.</p>	<p>See these topics:</p> <ul style="list-style-type: none"> ▪ Entering Additional Customer Information ▪ Managing Contact Information

1.1.4 Financial Management Solutions Updates

This table lists documentation updates that have been created due to software changes in Financial Management Solutions (FMS) software:

Enhancement	Publication Date	Description	Documentation
Real-Time Summarization	January 2015	<p>In the following programs, you can use real-time summarization to quickly review aggregated totals, instead of scrolling to the end of the grid to review the totals.</p> <ul style="list-style-type: none"> ▪ Customer Ledger Inquiry ▪ Supplier Ledger Inquiry ▪ Account Ledger Inquiry ▪ Account Inquiry by Object Account ▪ Account Inquiry by Category Code 	<p>See these topics:</p> <ul style="list-style-type: none"> ▪ Working with Customer Ledger Information ▪ Processing Accounts Payable Vouchers ▪ Reviewing Balances and Transactions
Payment Batch Approvals Mobile Enterprise Applications for Smartphone and Tablet	January 2015	<p>Two new mobile applications have been created to enable users to review and approve payment batches using mobile devices. A reference to the documentation for the mobile applications was added to the JD Edwards EnterpriseOne Applications Financial Management Fundamentals Implementation Guide.</p>	<p>See this topic:</p> <ul style="list-style-type: none"> ▪ Mobile Applications to Review and Approve Payment Batches (Release 9.1 Update)

Enhancement	Publication Date	Description	Documentation
Interactive Integrity Programs	December 2014	<p>Interactive integrity checking programs enable you to instantly identify potential financial integrity issues instead of waiting to evaluate results from batch processes. After reviewing any issues, you can quickly resolve the integrity issues within the integrity checking programs. Also, you can set up watch lists for the interactive integrity checking programs to receive notification of potential integrity issues.</p> <p>These changes are associated with Bug Number 18483244.</p>	<p>See this topic:</p> <ul style="list-style-type: none"> ■ Verifying Data Integrity
Canada T5018	October 2014	<p>A processing option of the Write T5018 Media program has been modified to include description for printing multiple copies of the T5018 slip.</p> <p>These changes are associated with Bug Number 19497908.</p>	<p>See this topic:</p> <ul style="list-style-type: none"> ■ (Release 9.1 Update) Processing T5018 for Canada
Mobile Applications for G/L, Invoice, Receipt, and Voucher Batch Approvals	October 2014	<p>New mobile applications have been created to enable users to review and approve G/L, invoice, receipt, and voucher batches using mobile devices. Setup Program for Belgium	May 2012	<p>A new setup program is included in the Setting Up Localizations for Belgium chapter.</p> <p>The Generating VAT Reports for Belgium chapter is modified to describe how the new setup program is used.</p> <p>A new appendix describes the fields in the XML output file.</p> <p>These changes are associated with Bug Number 13849275.</p>	<p>See these topics:</p> <ul style="list-style-type: none"> ▪ Setting Up Localizations for Belgium ▪ Generating the Yearly Client List n° 725 Report in Belgium ▪ Fields for the Belgium Yearly Clients List N 725 XML File

1.1.9.3 Brazil

Enhancement	Publication Date	Description	Documentation
Brazil NFe XML layout change 3.10	September 2014	<p>The Brazilian Fiscal Authority published changes to the NFe (National Electronic Invoice) XML legal layout. XML Layout Versions 2.00 and 3.1 will co-exist until December, 2014. Several features and set up steps were updated to accommodate the changes.</p> <p>Also, users can now generate and manage end-consumer fiscal notes (NFC-e) with JD Edwards EnterpriseOne for Brazil Localizations.</p> <p>This update also introduces new contingency transmission methods for NF-e (EPEC Contingency) and NFC-e (FS, FS-DA, EPEC, Offline Contingencies).</p> <p>These changes are associated with Bug Number 18632673.</p>	<p>See these topics:</p> <ul style="list-style-type: none"> ▪ Setting Up UDCs for Notas Fiscais ▪ Understanding Deferred ICMS ▪ Working With Sales Order Processing for Brazil ▪ Understanding Nota Fiscal Numbering for Purchase Transactions

Enhancement	Publication Date	Description	Documentation
New Processing Option for SEPA Direct Debit Extractor (R743005)	August 2014	<p>A new processing option is added to the for SEPA Direct Debit Extractor program (R743005) to enable you to specify the level at which the system populates the <CrdrSchmeld> element in the XML file.</p> <p>These changes are associated with Bug Number 18935496.</p>	<p>See this topic:</p> <ul style="list-style-type: none"> ▪ Setting Processing Options for SEPA Direct Debit Extractor (R743005) (Release 9.1 Update)
NFe Contingency Environment SCAN is now Obsolete	July 2014	<p>The Contingency environment SCAN to transmit NFe information to the SEFAZ (Secretaria do Estado da Fazenda do Brasil, the State Revenue Department and fiscal authority) is no longer supported by the fiscal authority. Therefore, all references to SCAN Contingencies were removed from the Brazil Localizations guide, specifically from the sections listed in the Documentation column.</p> <p>These changes are associated with Bug Number 18168544.</p>	<p>See these topics:</p> <ul style="list-style-type: none"> ▪ Understanding Contingency Processes ▪ Emission Types and NFe Status Values ▪ Understanding Activity Rules ▪ Working With the NFe XML Statuses and Emission Types
SPED Contable 2013 Update	May 2014	<p>The system has been modified to comply with the latest update for SPED Accounting reporting that the Brazilian authorities published in 2013.</p> <p>Fields were added to existing registers 0000, I030, J100 and J930 and new registers were included: I157, J200, J210 and J215.</p> <p>Also users can now generate annual reports in one single file using a new feature included in the SPED Job Administrator Program P76B940 (formerly known as SPED Execution program).</p> <p>These changes are associated with Bug Number 18482969.</p>	<p>See this topic:</p> <ul style="list-style-type: none"> ▪ Setting Up UDC Values for SPED Account ▪ Forms Used to Define the Books for SPED Accounting ▪ Defining SPED Accounting Books ▪ Setting Up Legal Company Information ▪ Setting Processing Options for Block I R76B954 ▪ Block and Report Sequencing ▪ Setting Up and Running Jobs to Extract Data ▪ Appendix: Fields for Blocks and Registers for SPED Accounting ▪ Appendix: Registers, Book Types, and Rules for F76B0930

Enhancement	Publication Date	Description	Documentation
New Nfe Contingency Environment SVC (AN-RS)	April 2014	<p>Brazil's SEFAZ launched a new contingency virtual environment: SVC. There are two alternative sites for authorization on SVC contingency:</p> <ul style="list-style-type: none"> ▪ SVC-AN – SEFAZ Virtual do Ambiente Nacional ▪ SVRS – SEFAZ Virtual do Rio Grande do Sul. <p>These 2 emission types are added to the existing contingency emission types.</p> <p>These changes are associated with Bug Number 18168544.</p>	<p>See these topics:</p> <ul style="list-style-type: none"> ▪ Understanding Contingency Processes ▪ Emission Types and NFe Status Values ▪ Understanding Activity Rules ▪ Working With the NFe XML Statuses and Emission Types
Item and Tax Information Regulation Corrections (Law 12741 , SISCOSERV and ICMS Res. 13)	April 2014	<p>The JD Edwards EnterpriseOne Applications Customer Relationship Management for Support Implementation Guide is updated with additional details about ICMS tax processing and tax transparency.</p> <p>These changes are associated with Bug Number 17382586.</p>	<p>See these topics:</p> <ul style="list-style-type: none"> ▪ Item Origin (76/IO) ▪ ICMS and Item Origin ▪ Setting Up IBPT Taxes ▪ Working With Inventory Management ▪ ICMS and Item Setup ▪ Sales Order Additional Information ▪ Tax Transparency and Printed Notas Fiscais ▪ FCI by Item Supplier
Corresponding Versions - Receipt Reversals for Notas Fiscais with Applied Landed Costs	April 2014	<p>The Corresponding Versions section was updated to include a record for Receipt Reversals for Notas Fiscais with Applied Landed Costs, described in detail in its own section.</p> <p>These changes are associated with Bug Number 17436179.</p>	<p>See this topic:</p> <ul style="list-style-type: none"> ▪ Setting Up Corresponding Versions of Programs for Brazil

Enhancement	Publication Date	Description	Documentation
Receipt Reversals for Notas Fiscais with Applied Landed Costs	March 2014	<p>Users can now specify a version for the Nota Fiscal Maintenance program to retrieve the landed costs lines when reversing receipts if they use a different document type.</p> <p>These changes are associated with Bug Number 17436179.</p>	<p>See this topic:</p> <ul style="list-style-type: none"> ▪ Understanding Receipt Reversals for Notas Fiscais with Applied Landed Costs
Changes to Withholding for Services Sold	February 2014	<p>This guide was updated with information about how you specify the date of withholding calculations for PIS, COFINS, and CSLL withholdings on the sale of services; how you can modify the calculated amounts; and where the system uses the calculated withholding amounts in notas fiscais, fiscal books, and SPED reports.</p> <p>The guide also includes an appendix that describes the table conversion program that you must run before you use the Withholding Calculations by Date enhancement.</p> <p>These changes are associated with Bug Number 17890133.</p>	<p>See these topics:</p> <ul style="list-style-type: none"> ▪ Setting Up the Withholding Calculation Date for the Sale of Services ▪ Working with Sales Orders and Notas Fiscais with Withholding for Services Sold ▪ Reviewing EFD PIS COFINS Changes to Block A ▪ Appendix I: Table Conversion for Sale of Services Withholding

Enhancement	Publication Date	Description	Documentation
Item and Tax Information Regulation Updates (Law 12741 , SISCOSEV and ICMS Res. 13)	December 2013	<p>The Brazilian government amended tax regulations that require new programs and processes.</p> <p>Law 12741: Companies must inform approximate amount of taxes, per item or service sold in a specific field. New chapters describe changes to Sales Order processing, Procurement processing and Fiscal Notes.</p> <p>SISCOSEV: The Government monitors cross-border transactions involving items, services and intangibles with the SISCOSEV system, creating a database of records. These records must comply with the classification rules established by the Brazilian Nomenclature of Services, Intangibles and Others. New chapters describe new processes to capture and maintain these records.</p> <p>ICMS Resolution 13/2012: It reduced the tax rate of ICMS (Tax on circulation of Goods and Services) to 4% on interstate transactions involving imported goods and domestic goods with an "imported content" higher than 40%. New chapters describe how to specify imported content and the settings that need to change in order to comply with new regulations.</p> <p>These changes are associated with Bug Number 17436179.</p>	<p>See these topics:</p> <ul style="list-style-type: none"> ■ UDC Item Origin (76/IO) ■ Understanding Item Origins and ICMS on Imported Content Items (Release 9.1 Update) ■ Populating Data Tables for Import Content, FCI, and IBPT Codes ■ Obtaining the FCI Number from SEFAZ

Enhancement	Publication Date	Description	Documentation
New Processing Option for R7603B1	July 2013	<p>A new processing option was added to the R7603B1 program, that enables you to specify whether to obtain the duplicate number from the Dynamic Formatter G/L Bank Account table (F76B477).</p> <p>This change is associated with Bug Numbers 17068019, 16687913, and 16920840.</p>	<p>See this topic:</p> <ul style="list-style-type: none"> Setting Processing Options for Update F7603B1 Credit Groups - Brazil
Formatting change for UDC 76B/F1	July 2013	<p>The formatting of the description for code Z0067 in UDC 76B/F1 has been modified to indent the bullet points correctly.</p> <p>These changes are associated with Bug Number 17018347.</p>	<p>See these topics:</p> <ul style="list-style-type: none"> Dynamic Formatter Attributes (76B/F1) Automatic Receipts Process, Inbound, Line Type 2 (Detail)
Change to the NCM Code	July 2013	<p>The software was modified to retrieve the value for the NCM code in the I - NFe product and services section of the XML file for SEFAZ from the Fiscal Classification (data item BCLF) field of the F7611B table.</p> <p>These changes are associated with Bug Numbers 16796569 and 16920840.</p>	<p>See this topic:</p> <ul style="list-style-type: none"> Understanding Elements in the NFe XML File
Modifications to the Unused/Cancelled NF-e Numbers program (P76B22TE)	July 2013	<p>The Unused/Cancelled NF-e Numbers program (P76B22TE) is modified to enable you to change the status of a cancelled Nfe in F76B22TE to I (initial) so that you can correct the error and resubmit the file.</p> <p>Additionally, sections describing the cancNFe_v2 cancellation schema in the Working with Sales Order Processing for Brazil and in Appendix A were removed. That schema is obsolete.</p> <p>These changes are associated with Bug Numbers 16688200 and 16594653.</p>	<p>See these topics:</p> <ul style="list-style-type: none"> Working With Sales Order Processing for Brazil/Understanding Cancelled Notas Fiscais Working With Sales Order Processing for Brazil/Reviewing Unused or Cancelled NFe Legal Numbers

Mobile Applications - Mobile Menu	September 2013	A new chapter, Using the Mobile Menu, has been added to the guide. The new Mobile Menu feature enables users to sign in once, and access all of the mobile applications they are authorized to use. These documentation changes are associated with software updates that were delivered with EnterpriseOne Applications Release 9.1, Update 2 (9.1.2).	See this topic: <ul style="list-style-type: none"> Using the Mobile Menu
Real-Time Events References to WSG	November 2012	The entire guide has been updated to reflect the current usage of WSG with Real-Time Events.	You can access the guide using this link: <ul style="list-style-type: none"> Introduction to Real-Time Events

1.1.11 Project Management Updates

This table lists documentation updates that have been created due to software changes in Project Management software:

Enhancement	Publication Date	Description	Documentation
Project Status Review Mobile Enterprise Applications for Tablet and Smartphone	July 2014	The Project Status Review mobile applications have been created to enable users to inquire on job information using a mobile device. The Job Cost Guide has been updated with references to the mobile application documentation.	See this topic: <ul style="list-style-type: none"> Mobile Enterprise Applications for Inquiring Job Information (Release 9.1 Update)

Enhancement	Publication Date	Description	Documentation
New Mobile Applications for Change Request Entry and Approval	July 2014	<p>The Change Management guide has been updated to include references to four new mobile applications that have been created to enable users to enter and approve change requests. Those applications include:</p> <ul style="list-style-type: none"> ■ Change Request Entry - Smartphone ■ Change Request Entry - Tablet ■ Change Request Approval - Smartphone ■ Change Request Approval - Tablet 	<p>See this topic:</p> <ul style="list-style-type: none"> ■ Mobile Applications for Change Requests (Release 9.1 Update)
Added the Job Cost Discount AAIs PKJ and PKJL	February 2014	<p>The Job Cost guide was updated to include information about the Job Cost Discount AAIs (PKJ and PKJL).</p> <p>These changes are associated with Bug Number 14494777.</p>	<p>See this topic:</p> <ul style="list-style-type: none"> ■ Job Cost Discount AAIs (Release 9.1 Update)
Alternate Tax Rate/Area Assignment Functionality	December 2013	<p>This documentation update includes sections to describe how the system assigns the alternate tax rate/area for communities, lots, and suppliers. Additionally, text was added to describe how the alternate tax rate/area is assigned based on processing options for bid copy and item price copy.</p>	<p>See these topics:</p> <ul style="list-style-type: none"> ■ Understanding Alternate Tax Rate/Area Assignments for Bid Contracts and Takeoffs ■ Understanding Supplier TBD Assignment ■ Alternate Tax Rate/Area Assignments in Extra Purchase Orders ■ Alternate Tax Rate/ Areas for Supplier TBD Assignments (Release 9.1 Update) ■ Setting Processing Options for Bid Copy (R44H601C) ■ Setting Processing Options for Item Price Copy (R44H603C)

Enhancement	Publication Date	Description	Documentation
New Processing Options for R5111	October 2013	The Job Cost guide was updated to add documentation for the Source for Calendar and Default Business Unit for Calendar processing options. These changes are associated with Bug Number 17279662.	See this topic: <ul style="list-style-type: none"> Setting Up Processing Options for the Forecast Detail Creation Program (R5111)
Vertex Tax Rules for Billing Lines	October 2013	The Understanding Billing Lines chapter has been updated to include a section about new taxation rules that apply to specific billing lines on a contract. These changes are associated with Bug Number 17213673.	See this topic: <ul style="list-style-type: none"> Understanding Billing Types
Bid Copy Program (R44H601C)	June 2012	The Understanding Bid Copying chapter was updated to include a new processing option. These changes are associated with Bug Number 13932522.	See this topic: <ul style="list-style-type: none"> Setting Processing Options for Bid Copy (R44H601C)

1.1.12 Supply Chain Management and Manufacturing Updates

This table lists documentation updates that have been created due to software changes in Supply Chain Management (SCM) and Manufacturing software:

Enhancement	Publication Date	Description	Documentation
Sales Held Order Release Mobile Enterprise Applications for Smartphone and Tablet	January 2015	Two new mobile applications were created to enable users to review and release sales held orders using a mobile device. A reference to the documentation for the mobile applications was added to the JD Edwards EnterpriseOne Sales Order Management Applications Implementation Guide.	See this topic: <ul style="list-style-type: none"> Holding, Releasing, and Reviewing Orders

Enhancement	Publication Date	Description	Documentation
Sales Order Counts Mobile Enterprise Applications for Smartphone and Tablet	January 2015	Two new mobile applications were created to enable users to view outstanding sales order counts by status using a mobile device. A reference to the documentation for the mobile applications was added to the JD Edwards EnterpriseOne Applications Sales Order Management Implementation Guide.	See this topic: <ul style="list-style-type: none"> ▪ Sales Order Information
Real-Time Summarization	January 2015	In the Forecast Revisions and Sales Order Management programs, you can use real-time summarization to quickly review aggregated totals, instead of scrolling to the end of the grid to review the totals.	See these topics: <ul style="list-style-type: none"> ▪ Working with Sales Order History ▪ Entering Sales Orders for Customer Service Representatives
Quote Review and Release Enterprise Applications for Smartphone and Tablet	January 2015	Two new mobile applications were created to enable users to review and release sales order quotes using a mobile device. Invoice Line-Level Processing	July 2012	<p>Added a note about invoice line-level processing.</p> <p>This change is associated with Bug Number 14275088.</p>	<p>See this topic:</p> <ul style="list-style-type: none"> ▪ Understanding the Voucher Match Automation Process

Enhancement	Publication Date	Description	Documentation
Voucher Match Automation	April 2012	<p>The JD Edwards EnterpriseOne Applications Procurement Management Implementation Guide was update to provide information about the voucher match automation process. Additionally, new sections for the voucher match automation process were added to the Setting Up the Procurement System and the Setting Up Supplier Information chapters.</p> <p>These changes are associated with Bug Numbers 13768657, 13902131, and 13933563.</p>	<p>See this topic:</p> <ul style="list-style-type: none"> ▪ Understanding the Voucher Match Automation Process

1.2 Documentation Corrections

This section describes revisions made to the JD Edwards EnterpriseOne Applications guides due to reported documentation issues.

1.2.1 Asset Lifecycle Management Updates

This table lists updates that have been made to the EnterpriseOne ALM documentation:

Correction or Update	Publication Date	Description	Documentation
Vouchers with Supplier Invoice Number	January 2015	The JD Edwards EnterpriseOne Real Estate Management guide has been updated to reflect the change that, for payable leases, the system creates vouchers with a Supplier Invoice Number (VINV) as a combination of doc type, doc number (for the voucher) and company.	<p>See these topics:</p> <ul style="list-style-type: none"> ▪ Processing Manual Billings ▪ Processing Recurring Billings
Replace XPI with Business Service	December 2014	The JD Edwards EnterpriseOne Applications Condition-Based Maintenance Implementation Guide has been updated to replace the use of XPI with the business service for condition-based alerts.	<p>See this topic:</p> <ul style="list-style-type: none"> ▪ Understanding Condition-Based Alert Entry

1.2.2 CRM Updates

This table lists updates that have been made to the EnterpriseOne CRM documentation:

Correction or Update	Publication Date	Description	Documentation
Using the Alternate Tax Rate/Area Assignment Functionality in Case Management (CRM For Support)	March 2014	The JD Edwards EnterpriseOne Applications Customer Relationship Management for Support Implementation Guide is updated with additional details about the alternate tax rate/area assignment functionality for purchase order processing.	See this topic: <ul style="list-style-type: none"> Entering Billing Information - Pricing Info
Description of the Alternate Tax Rate/Area Assignment Functionality in the Shipment Confirmation Process	March 2014	A new section is added to the overview for the shipment confirmation process to describe how the system retrieves the alternate tax rate/area assignment when you work with shipment confirmations.	See this topic: <ul style="list-style-type: none"> Alternate Tax Rate/Area Assignment Functionality in the Shipment Confirmation Process (Release 9.1 Update)
Additional Details for the Alternative Tax Rate/Area Assignment Functionality	February 2014	The Service Management guide was updated to include detailed information about how the system retrieves the alternate tax rate/area assignment for service contracts.	See these topics: <ul style="list-style-type: none"> Alternate Tax Rate/Area Assignments for Service Contracts Understanding Alternate Tax Rate/Area Assignments for the Service Contract Renewal Report
Using Geographic Information for Sales Territory Setup	March 2013	The Understanding Sales Territories and Industry Groupings section was updated to clarify how to set up sales territories. The documentation now provides examples regarding how to enter geographic information when assigning country, state, city, and postal code information to a sales territory.	See this topic: <ul style="list-style-type: none"> Understanding Sales Territories and Industry Groupings

Correction or Update	Publication Date	Description	Documentation
PIM Synchronization Removed	June 2012	References to PIM Synchronization and customer and contact subscriptions have been removed from the JD Edwards EnterpriseOne Customer Relationship Management Fundamentals Implementation guide, as the functionality is not available as of release 9.1.	See this topic: <ul style="list-style-type: none"> Introduction to EnterpriseOne CRM

1.2.3 Cross Product Updates

This table lists updates that have been made to cross-product documentation:

Correction or Update	Publication Date	Description	Documentation
Updates to Business Services for Pre-Built Integrations	October 2014	The Business Interfaces Guide was updated to include new business services, and to update existing business services to run on WLS, WAS, and OAS. These changes are associated with Bug Number 17852883.	See these topics: <ul style="list-style-type: none"> Order Promising Integration Using Web Service Callout Rate Shopping Integration Using Web Service Callout RateWare® XL Integration to JD Edwards EnterpriseOne EU VAT ID Validation with VIES Using Web Service
One View Reporting for Rental Management	October 2014	Added a new chapter "One View Reporting for Rental Management" to include information about setting up and using One View Reporting for Rental Management applications and reports. These changes are associated with Bug Number 18752604.	See this topic: <ul style="list-style-type: none"> One View Reporting for Rental Management
Table List Update for Receiving Advice into Sales (861/RECADV)	February 2014	This is an update to the list of tables that the system updates when you run the Inbound Edit/Update program (R47091) for receiving advice into sales. These changes are associated with Bug Number 14378379.	See this topic: <ul style="list-style-type: none"> Updating Application Tables (Release 9.1 Update)

Correction or Update	Publication Date	Description	Documentation
InteroperabilityManager (JPH90O00) and AuthenticationManager (JPH90I01) Added	January 2014	The Business Interfaces guide was updated to include the InteroperabilityManager (JPH90O00) and the AuthenticationManager (JPH90I01). These published business services were previously not included in the documentation. These changes are associated with Bug Number 17923730.	See this topic: <ul style="list-style-type: none"> Business Services for Pre-Built Integrations
Tutorial Links in One View Watchlists and Reports	December 2013	Tutorial links have been added to the guide for certain features. You can now directly access tutorials from the HTML version of the documentation.	See these topics: <ul style="list-style-type: none"> Understanding One View Watchlists Running One View Reports
Commitment Report	April 2012	The One View Reporting for Sales Order Management chapter was updated to include an overview paragraph and list of report components for the Commitment Report. This chapter was also updated to include a list of components for the Total Historical Sales Report.	See this topic: <ul style="list-style-type: none"> One View Reporting for Sales Order Management

1.2.4 Financial Management Solutions Updates

This table lists updates that have been made to the Financial Management Solutions (FMS) documentation:

Correction or Update	Publication Date	Description	Documentation
Updated Description of the Intracommunity VAT Processing Option	January 2015	The text describing the processing option was modified for clarity.	See this topic: <ul style="list-style-type: none"> European Union (Release 9.1 Update)
Modification to the Setting Processing Options for Work With Payment Groups section	May 2014	Setting Processing Options for Work With Payment Groups section was modified to update the description for the Currency option and to include a new processing option. These changes are associated with Bug Number 12674317.	See this topic: <ul style="list-style-type: none"> Setting Processing Options for Work With Payment Groups

Correction or Update	Publication Date	Description	Documentation
Update to documentation for GFL4 during the update process	May 2014	<p>Understanding the Update Process section was modified to include description for GFL4 field to lock records while running the update process.</p> <p>These changes are associated with Bug Number 16364088.</p>	<p>See this topic:</p> <ul style="list-style-type: none"> ▪ Understanding the Update Process
Update to documentation of VR01 field	May 2014	<p>VR01 field was moved from Optional fields to Ignored Fields section.</p> <p>These changes are associated with Bug Number 17696194.</p>	<p>See this topic:</p> <ul style="list-style-type: none"> ▪ Mapping Voucher Transactions to Batch Input Tables
Updates to documentation for R04602	May 2014	<p>The description of R04602 was modified to include gross amounts instead of taxable amounts while running the report.</p> <p>These changes are associated with Bug Number 13589621.</p>	<p>See this topic:</p> <ul style="list-style-type: none"> ▪ R04602 - Supplier Analysis
FinancialManager Published Business Service	May 2014	<p>The Financial Management Solutions - Other Interfaces chapter was updated to include the FinancialManager published business service (JP090000) and the two operations that are managed by this service.</p> <p>These changes are associated with Bug Number 18467441.</p>	<p>See this topic:</p> <ul style="list-style-type: none"> ▪ Financial Management Solutions - Other Interfaces
Alternate Tax Rate/ Area Assignment Functionality in Invoices	April 2014	<p>The JD Edwards EnterpriseOne Applications Accounts Receivable Implementation Guide is updated to provide additional details about using the alternate tax rate/area assignment functionality when you work with invoices.</p>	<p>See these topics:</p> <ul style="list-style-type: none"> ▪ Alternate Tax Rate/ Area Assignment Functionality in the Speed Status Change Program ▪ Alternate Tax Rate/ Area Assignment Functionality in the Batch Invoice Revisions Program ▪ Alternate Tax Rate/ Area Assignment Functionality in Batch Invoice Processing

Correction or Update	Publication Date	Description	Documentation
Initial Term Apportionment Codes	February 2014	Added the U Mid-Quarter Non-Calendar Date Code in the list of Initial Term Apportionment Codes. These changes are associated with Bug Number 13693509.	See this topic: <ul style="list-style-type: none"> Initial Term Apportionment Codes
MACRS First Year Bonus Rule for HR 3090	February 2014	Correction of the formula values were made in this section of the Fixed Assets guide. These changes are associated with Bug Number 11864511.	See this topic: <ul style="list-style-type: none"> MACRS First Year Bonus Rule for HR 3090
Correction to Method 12, MACRS Standard Depreciation	February 2014	The Method 12, MACRS Standard Depreciation section was updated to change half-year to mid-year. This change is associated with Bug Number 12810259.	See this topic: <ul style="list-style-type: none"> Method 12, MACRS Standard Depreciation
Processing Options in the Statistics History Update Program (R03B16A)	February 2014	The Accounts Receivable guide has been updated to provide additional details for the following three processing option descriptions in the Statistics History Update program (R03B16A): Calculate High Balance, Number of Days for Summary, and Thru Date. These changes are associated with Bug Number 17818627.	See this topic: <ul style="list-style-type: none"> Setting Processing Options for Statistics History Update (R03B16A)
Clarification to Draft Number Processing Option in the R03B671 Program	October 2013	The Accounts Receivable guide was updated to add clarifying information for the Draft Number processing option.	See this topic: <ul style="list-style-type: none"> Setting Processing Options for Pre-Authorized Drafts (R03B671)
Clarification to Policy Type Field Definition in the P03B2901 Program	October 2013	The Accounts Receivable guide was updated to add clarifying information for the Policy Type processing option.	See this topic: <ul style="list-style-type: none"> Setting Up a Credit Insurance Policy
Processing T5018 for Canada	May 2013	The Processing T5018 for Canada chapter has been updated to refer to T5018 workfiles instead of 1099 Build workfiles. This change is associated with Bug Number 16218938.	See this topic: <ul style="list-style-type: none"> (Release 9.1 Update) Processing T5018 for Canada

Correction or Update	Publication Date	Description	Documentation
Advanced Cost Accounting - Store and Forward	July 2012	<p>Removed the chapter "Using Store and Forward in Cost Object Tracking" from the Advanced Cost Accounting guide, as the store and forward process is no longer supported. Also removed reports that support the store and forward process from the JD Edwards EnterpriseOne Applications Financial Management Reports Guide.</p> <p>Note that the programs and tables that were used for the store and forward process are still available in the software.</p> <p>Also made changes to the Interoperability guide, the Sales Order Management guide, Tax Processing guide, the Configurator guide, and the Multicurrency Processing guide, and removed the Store and Forward glossary item from the CRM for Support guide.</p> <p>These changes are associated with Bug Number 14169168.</p>	<p>See these topics:</p> <ul style="list-style-type: none"> ■ Processing Interoperability for Sales Order Management ■ Entering Sales Orders ■ Working with Tax Information on Orders and Transactions ■ Entering and Processing Foreign Currency Journal Entries ■ Working with Configured Item Revisions ■ Entering Orders for Configured Items
GeoCode Clarification	June 2012	<p>Text in Appendix A of the JD Edwards EnterpriseOne Tax Processing Implementation Guide was modified to clarify that the software uses the GeoCode or tax rate area for the business unit master, customer master, or supplier master record.</p>	<p>See this topic:</p> <ul style="list-style-type: none"> ■ Mapping Fields from Vertex Sales Tax Q Series System to JD Edwards EnterpriseOne
Base Currency Conversion	June 2012	<p>The Understanding the Base Currency Conversion chapter was updated to provide corrected information regarding the Euro conversion in the Account Ledger table (F0911).</p>	<p>See this topic:</p> <ul style="list-style-type: none"> ■ Understanding the Base Currency Conversion

1.2.5 Foundational Updates

This table lists updates that have been made to the EnterpriseOne Foundation documentation:

Correction or Update	Publication Date	Description	Documentation
Direct Debits	March 2013	It was incorrectly written that the output mode of payment in the XML is controlled by the processing options of the R743005 program. Correction is made to include the four versions of the program that user can use to choose the output mode. This change is associated with Bug Number 16317089.	See this topic: <ul style="list-style-type: none"> Working with Direct Debits for SEPA

1.2.6 Human Capital Management Updates

This table lists the updates that have been made to the Human Capital Management documentation:

Correction or Update	Publication Date	Description	Documentation
eRecruit SES Search	January 2015	JD Edwards EnterpriseOne Applications Human Capital Management Self-Service Implementation Guide has been updated with a note for eRecruit SES search functionality. These changes are associated with Bug Number 19982211.	See these topics: <ul style="list-style-type: none"> The eRecruit System Understanding eRecruit Searches
Integrating with ADP	July 2014	The JD Edwards EnterpriseOne Applications US Payroll Implementation Guide has been updated with information for integrating ADP. These changes are associated with Bug Number 19137526.	See this topic: <ul style="list-style-type: none"> Integrating with ADP

1.2.7 Localizations - Argentina

This table lists updates that have been made to the EnterpriseOne documentation for Argentina:

Correction or Update	Publication Date	Description	Documentation
Added clarifying notes to 6 UDCs	October 2014	<p>Added a clarifying note to the following UDCs:</p> <ul style="list-style-type: none"> ARG - VAT Withholding Concept (76/02) ARG - Profit WH Concept (76/04) ARG - G.I. Correction or Update	Publication Date	Description	Documentation
Clarification for Yearly Client List (P76B200) Report Output	March 2014	<p>The description of the output for the Yearly Client List report was clarified to state that the report output is a PDF document.</p> <p>These changes are associated with Bug Number 18181983.</p>	<p>See this topic:</p> <ul style="list-style-type: none"> ■ Understanding the Yearly VAT Report Program

1.2.9 Localizations - Brazil

This table lists updates that have been made to the EnterpriseOne documentation for Brazil:

Correction or Update	Publication Date	Description	Documentation
Table value correction	January 2015	Corrected a value in the table that explains how the system calculate the ICMS tributary situation code when you use the Nota Fiscal Receipts Brazil Program (P4312BR). This change is associated with Bug Number 19904096.	See this topic: <ul style="list-style-type: none"> Understanding Tributary Situation Codes in the Nota Fiscal Receipts Brazil Program
Inaccurate information on BSSV was deleted	July 2014		
Modified Text for XML Generation for Cancelled NFEs	July 2013	The text regarding the generation of the XML file for cancelled NFEs has been modified for clarity. These changes are associated with Bug Number 17068019.	See this topic: <ul style="list-style-type: none"> Understanding Cancelled Notas Fiscais

1.2.10 Localizations - Europe

This table lists updates that have been made to the EnterpriseOne documentation for Europe:

Correction or Update	Publication Date	Description	Documentation
Deleted R744002 and added 70/RS UDC table	May 2014	The JD Edwards EnterpriseOne Applications Localizations for European Reporting and SEPA Processing Implementation Guide has been updated to include UDC table (70/RS) and to delete mention of R744002 from two places in the guide. These changes are associated with Bug Number 18644805.	See this topic: <ul style="list-style-type: none"> Setting Up UDCs for SEPA
Link to ISO Country Codes	May 2013	Added a link to the official ISO (International Organization for Standardization) country codes in the JD Edwards EnterpriseOne Applications Localizations for European Reporting and SEPA Processing Implementation Guide.	See this topic: <ul style="list-style-type: none"> Setting Up European Union (EU) and SEPA Functionality, European Community Members (74/EC)

Correction or Update	Publication Date	Description	Documentation
PIM Synchronization Removed	June 2012	References to PIM Synchronization have been removed from the JD Edwards EnterpriseOne Address Book Implementation guide, as the functionality is not available as of release 9.1.	See this topic: <ul style="list-style-type: none"> Introduction to EnterpriseOne Address Book

1.2.11 Localizations - France

Correction or Update	Publication Date	Description	Documentation
FEC Reports for France	January 2014	The Processing FEC Reports for France section has been modified to include the information on using the Oracle Business Intelligence Publisher (BIP) for the FEC Extractor of Statutory Accounting Audit File program (R74F210). These changes are associated with Bug Number 18019443.	See this topic: <ul style="list-style-type: none"> Processing FEC Reports for France (Release 9.1 Update)

1.2.12 Localizations - Germany

Correction or Update	Publication Date	Description	Documentation
Removal of References to Z4 Form	June 2013	The Localizations for Germany guide was updated to remove references to the Z4 form. The form is obsolete. These changes are associated with Bug Numbers 16716727 and 16716770.	See these topics: <ul style="list-style-type: none"> Setting Up Localizations for Germany/Understanding Payment Formats for Germany Working with Other German Functionality/Understanding Z1 Payments

1.2.13 Localizations - Italy

Correction or Update	Publication Date	Description	Documentation
Modello 770 W/T Commission - Free Format Report	June 2013	The Setting Up Localizations for Italy chapter has been updated to include the Generating Modello 770 for Italy section. This section describes the Modello 770 W/T Commission - Free Format report and also discusses its processing options. This update is associated with Bug Number 16843624.	See this topic: <ul style="list-style-type: none"> Generating Modello 770 for Italy

1.2.14 Localizations - Japan

This table lists updates that have been made to the EnterpriseOne documentation for Japan:

Correction or Update	Publication Date	Description	Documentation
Income Statement by Company	November 2014	The introductory paragraph was modifying for clarifying purposes on how to process the Income Statement by Company and by Branch. These changes are associated with Bug Number 18248331.	See this topic: <ul style="list-style-type: none"> Understanding the Income Statement by Company for Japan

1.2.15 Localizations - Spain

Correction or Update	Publication Date	Description	Documentation
Updates to Documentation for the VAT Modelo 340 Report	May 2014	The guide was updated to add additional information about setting up the UDC value for leased properties. Additionally, the appendix that described the fields in the XML file for the VAT Modelo 340 report was removed from the guide because it was outdated. These changes are associated with Bug Number 18594183.	See this topic: <ul style="list-style-type: none"> Relation DCT/Operation Type (74S/RL)

Correction or Update	Publication Date	Description	Documentation
Clarifying note on Processing Options for R74S200 and R74S210	February 2014	The Processing Options for batch applications R74S200 and R74S210 include sections for Declaration Year and Declaration Period. The system does not use this value for data selection purposes. Users must identify the records that should be included in the report for the specific declaration year using Data selection. These updates are associated with Bug Number 18049149.	See these topics: <ul style="list-style-type: none"> Setting Processing Options for 349 - Generate Acquisitions (R74S200) Setting Processing Options for 349 - Generate Sales (R74S210)

1.2.16 Localizations - Switzerland

Correction or Update	Publication Date	Description	Documentation
Upload ESR Payments Program (R03B803)	May 2014	A note was added to the documentation describing the version number used when you run the Upload ESR Payments Program. These changes are associated with Bug Number 18711028.	See this topic: <ul style="list-style-type: none"> Understanding the Upload ESR Payments Program

1.2.17 Project Management Updates

This table lists updates that have been made to the Project Management documentation:

Correction or Update	Publication Date	Description	Documentation
Tax Deferral on Retainage is not Supported for Service Billing	November 2014	The guide was updated to remove information about the Retainage Control Flag. Use of the flag for deferred taxes on retainage for service billing is not supported. These changes are associated with Bug Number 19865870.	See this topic: <ul style="list-style-type: none"> Setting Up G/L Offset and Retainage Rules for JD Edwards EnterpriseOne Service Billing

Correction or Update	Publication Date	Description	Documentation
Updates to the Method of Computation E	August 2014	Content corrections have been made to the Method of Computation E in the Tracking Job Progress chapter. This change is associated with Bug Number 18601436.	See this topic: <ul style="list-style-type: none"> Method E
Correction to Text for the % Sched Field	July 2014	The documentation is modified to correct the text describing the % Sched field. These changes are associated with Bug Number 18718664.	See this topic: <ul style="list-style-type: none"> Defining Billing Events for Progress Billing
Alternate Tax Rate/ Area Assignment Functionality in Government Contracts	April 2014	The JD Edwards EnterpriseOne Applications Project and Government Contract Accounting Implementation Guide is updated to provide additional details about using the alternate tax rate/area assignment functionality when you work with government contracts.	See this topic: <ul style="list-style-type: none"> Alternate Tax Rate/ Area Assignment Functionality in Government Contracts
Alternate Tax Rate/ Area Assignment Functionality in Contracts	April 2014	The JD Edwards EnterpriseOne Applications Contract and Service Billing Implementation Guide is updated to provide additional details about using the alternate tax rate/area assignment functionality when you work with contracts.	See these topics: <ul style="list-style-type: none"> Alternate Tax Rate/ Area Assignment Functionality in Contracts Alternate Tax Rate/ Area Assignment Functionality in Contract Billing Lines Alternate Tax Rate/ Area Assignment Functionality in the Contract Workfile
Addition of Method of Computation X	January 2014	The Tracking Job Progress chapter was updated to include a description of the Method of Computation X. These changes are associated with Bug Number 17940080.	See this topic: <ul style="list-style-type: none"> Method X (Release 9.1 Update)

Correction or Update	Publication Date	Description	Documentation
Updates to P512000	January 2014	The Job Cost guide was updated to delete references to push buttons in the P512000 Options tab. Additionally, the screen of the P512000 in the Inquiring on Job Information chapter was updated. These changes are associated with Bug Number 16504044.	See this topic: <ul style="list-style-type: none"> Reviewing Job Information with User-Defined Columns
Provision for Loss and Exclude Invalid Work Order	June 2013	The Job Cost guide was updated to add documentation for the Provision for Loss and Exclude Invalid WO processing options. Also, documentation for Method of Computation G when no projected final values are entered was updated. This update is associated with Bug Number 16901016 and 11809480.	See this topic: <ul style="list-style-type: none"> Recognizing Profit Tracking Job Progress

1.2.18 Supply Chain Management and Manufacturing Updates

This table lists updates that have been made to the Supply Chain Management (SCM) and Manufacturing documentation:

Correction or Update	Publication Date	Description	Documentation
Obsolete table: F41092	December 2014	The JD Edwards EnterpriseOne Applications Configurator Implementation Guide has been updated to remove references to the F41092 table.	See this topic: <ul style="list-style-type: none"> External Field References
Update to Mapping Guidelines	July 2014	Update to EDI lockbox mapping structure for receipt routing.	See this topic: <ul style="list-style-type: none"> Mapping Guidelines (Release 9.1 Update)

Correction or Update	Publication Date	Description	Documentation
Updates to Receipt Quantity Calculation	May 2014	The JD Edwards EnterpriseOne Applications Grower Management Implementation Guide has been updated with additional information about how the system calculates the receipt quantity based on the gross weight and the secondary quantity that a user enters during a weigh tag operation. These changes are associated with Bug Number 18504308.	See this topic: <ul style="list-style-type: none"> ▪ Entering Weigh Tag Receipt Operations
Updates to descriptions of R31410 and P3111 processing options	May 2014	The JD Edwards EnterpriseOne Applications Shop Floor Management Implementation Guide has been updated with corrected descriptions for the R31410 processing option, Prior Revision Level, and P3111 processing option, Parts List at Prior Revision Levels. These changes are associated with Bug Number 17157550.	See these topics: <ul style="list-style-type: none"> ▪ Setting Processing Options for the Order Processing Program (R31410) ▪ Setting Processing Options for the Work Order Parts List Program (P3111)
Updates to description of R3482 and R3483 processing option	May 2014	The JD Edwards EnterpriseOne Applications Requirements Planning Implementation Guide has been updated with corrected description for the R3482 and R3483 processing option, Include Lot Expiration Dates. These changes are associated with Bug Number 13689936.	See these topics: <ul style="list-style-type: none"> ▪ Setting Processing Options for MRP/MPS Requirements Planning (R3482) ▪ Setting Processing Options for Master Planning Schedule - Multiple Plant (R3483)

Correction or Update	Publication Date	Description	Documentation
Updates to description of R3482 processing option	May 2014	The JD Edwards EnterpriseOne Applications Forecast Management Implementation Guide has been updated with corrected description for the R3482 processing option, Include Lot Expiration Dates. These changes are associated with Bug Number 13689936.	See this topic: <ul style="list-style-type: none"> Setting Processing Options for MRP/MPS Requirements Planning (R3482)
Alternate Tax Rate Area/Assignment Functionality for Transportation Management	April 2014	The JD Edwards EnterpriseOne Applications Transportation Management Implementation Guide is updated to include additional details about how the system uses the alternate tax rate/area assignment functionality in Transportation Management.	See these topics: <ul style="list-style-type: none"> Alternate Tax Rate/Area Assignment in the Shipment/Load Charges Revision Program Shipment Confirmation Alternate Tax Rate/Area Assignment Functionality in the Freight Update and Report Program
Alternate Tax Rate/Area Assignment Functionality	April 2014	The JD Edwards EnterpriseOne Applications Business Interfaces Implementation Guide is updated to state that the alternate tax rate/area assignment functionality is supported for sales orders and purchase orders.	See these topics: <ul style="list-style-type: none"> Supported Functionality (Sales Order) Supported Functionality (Procurement)
Releasing Sales Quote to Sales Order	March 2014	The JD Edwards EnterpriseOne Applications Configurator Implementation Guide has been updated to indicate that releasing a sales quote to a sales order is supported. These changes are associated with Bug Number 16940430.	See this topic: <ul style="list-style-type: none"> Understanding Conversion of a Sales Quote to a Sales Order for a Configured Item

Correction or Update	Publication Date	Description	Documentation
Updates to Lead Time Per Unit	February 2014	Updated the formula that the system uses to calculate the lead time per unit for an item. These changes are associated with Bug Number 18080486.	See this topic: <ul style="list-style-type: none"> Lead Time Per Unit
Updates to the Repost Open Work Orders Program	February 2014	Updated the tasks that the system performs when a user runs the Repost Open Work Orders program (R3190). These changes are associated with Bug Number 17354271.	See this topic: <ul style="list-style-type: none"> Understanding the Repost Open Work Orders Program
Updates to description of R31410 processing options	February 2014	Updated the description of the R31410 processing option 1. Generate Parts List and Routing Instructions to indicate that the processing option is used in combination with processing option 2. Update Parts List and Routing Instructions. These changes are associated with Bug Number 16958626.	See this topic: <ul style="list-style-type: none"> Setting Processing Options for the Order Processing Program (R31410)
Additional Details for the Alternate Tax Rate/Area Assignment Functionality	February 2014	The Work Order Management guide was updated to include detailed information about how the system retrieves the alternate tax rate/area assignment when you use the Work Order Mass Update program.	See this topic: <ul style="list-style-type: none"> Alternate Tax Rate/Area Assignment Functionality in Work Order Mass Updates (Release 9.1 Update)
Added Links for the Alternate Tax Rate/Area Assignment Functionality	February 2014	These new sections include links from the JD Edwards EnterpriseOne Applications Grower Pricing and Payments Implementation Guide to the description of the alternate tax rate/area assignment functionality for Grower Management described in the JD Edwards EnterpriseOne Applications Tax Processing Implementation Guide.	See these topics: <ul style="list-style-type: none"> Alternate Tax Rate/Area Assignment Functionality for Final Settlement Vouchers Alternate Tax Rate/Area Assignment Functionality for Advance Payment Vouchers

Correction or Update	Publication Date	Description	Documentation
Filters for Location Capacity Revisions form	February 2014	<p>The Defining Location Capacity section was modified to describe filters that can be applied to narrow down search results for a location dimension group.</p> <p>These changes are associated with Bug Number 18063717.</p>	<p>See this topic:</p> <ul style="list-style-type: none"> ■ Defining Location Capacity
