

PeopleSoft ELM 9.1 Revision 2 Summary of Changes

PeopleBook	Chapter > Section	Description
Enterprise Learning Management	Managing Web-Based, Test, and Survey Learning Components	Removed out-of-date Offline Access to Content.
Enterprise Learning Management	Enrolling and Registering in Learning Activities and Programs > Managing Group Enrollment > Searching for Learners to Enroll or Register	Updated the Learner Group field definition to explain how the valid values are filtered according to the requester's learning environment.
Enterprise Learning Management	Defining Defaults > Understanding Manager View	Fixed note.
Enterprise Learning Management	Managing Person and Organization Data	Researched this issue during development of the training guide. Consultants confirm that the dms scripts are often used to import user IDs, but that they require customization. The other option is to run the USER_SYNC Application Engine process. I've updated the ELM PeopleBook to discuss both options and have noted that the dms scripts must be customized before being used to import user IDs.
Enterprise Learning Management	Managing Person and Organization Data > Full Sync and Incremental Sync EIPs	Renamed service operations and messages HR_PRG_ENROLL_FULLSYNC and HR_PRG_ENROLL_SYNC to HR_ENROLL_ELM_FULLSYNC and HR_ENROLL_ELM_SYNC.
Enterprise Learning Management	Enrolling and Registering in Learning Activities and Programs > Managing Mass Enrollment > Selecting Mass Enrollment Overrides and Notification Options	Updated definition for Notify Learner field.
Enterprise Learning Management	Maintaining Learning Records and Objectives through Self-Service Pages	Updated Maintaining Learning Records and Objectives through Self-Service Pages chapter to make it clear when learners can modify supplemental learning vs. when managers and
Enterprise Learning Management	Managing Attendance and Grading > Managing Attendance and Grading for Activities > Updating Learning Component Rosters	Added the following sentence to the description of the Print Roster link: This link appears only for session learning components.
Enterprise Learning Management	(FRA) Managing French Regulatory Requirements > Managing Learning Hours and DIF > Reviewing and Defining Learning Classifications	Replaced the screenshot for the Learning Classifications page and updated the warning associated with it.

PeopleBook	Chapter > Section	Description
Enterprise Learning Management	Defining Defaults > Defining Default Processing Rules and Options > Setting Up Installation Defaults for Enrollment	Removed references to surveys from the Launchable from History and Allow Completion from History fields.
Enterprise Learning Management	Managing Attendance and Grading > Managing Attendance and Grading for Activities > Updating Learning Component Rosters	It is currently documented in the Maintaining Learning Records and Objectives through Self-Service Pages chapter that learners can view their scores using the pages of the Activity Progress component. I added a note about this is the documentation for the Component Roster page where administrators can enter scores for learners.
Enterprise Learning Management	Enrolling and Registering in Learning Activities and Programs > Understanding Enrollment and Registration > Rules for Dropping Enrollments and Registrations	Added a note to clarify last drop dates.
Enterprise Learning Management	Managing Web-Based, Test, and Survey Learning Components > Understanding Web-Based, Test, and Survey Learning Components	Removed reference to Backweb.
Enterprise Learning Management	Defining Defaults > Defining Default Processing Rules and Options > Defining Installation Defaults for Programs Managing Programs > Defining Programs > Defining Program Details	Updated existing definition for Parent Status Based on Child field and added this definition to the Defining Program Details section.
Enterprise Learning Management	Managing Person and Organization Data	Added section titled (FRA) Defining Contract Types
Enterprise Learning Management	Managing Training Plans > Modeling Training Plan Budgets > Analyzing Training Plan Budgets	Added explanation about updating training demand using the Run button.
Enterprise Learning Management	Managing Session, Webcast, and Assignment Learning Components > Creating Session Learning Components > Viewing Sessions Conflicts	Updated note regarding Sessions Conflict page and recaptured screenshot.
Enterprise Learning Management	Various	Various updates and additions related to the consolidated DIF enhancements.
Enterprise Learning Management	Managing Learning Activities > Define Activity Details > Define Activity Details	Updated the Reason field definition to reflect its change from a drop-down field to a prompt field.
Enterprise Learning Management	Managing Session, Webcast, and Assignment Learning Components > Creating Session Learning Components > Defining Session Patterns	Added note for Add Instructor link.

PeopleBook	Chapter > Section	Description
