License Restrictions Warranty/Consequential Damages Disclaimer

This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

Warranty Disclaimer

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

Restricted Rights Notice

If this is software or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are "commercial computer software" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

Hazardous Applications Notice

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Third Party Content, Products, and Services Disclaimer

This software or hardware and documentation may provide access to or information on content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services.

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>

Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs>

Enabling the Help Link in PeopleSoft Applications

Each page in your PeopleSoft application includes a Help link that, when clicked, opens a new browser window displaying help topics related to that page.

Universal Linking enables the hosted PeopleSoft Online Help system to search through one or more PeopleSoft product lines and return context-sensitive help. This functionality makes it possible to retrieve help from PeopleTools and one or more applications, all using the Universal link that you configure in the web profile of your application.

To enable the Help link from application pages and implement Universal Linking:

1. In your PeopleSoft application, select PeopleTools, Web Profile, Web Profile Configuration.
2. Click Search and select the profile name that you specified during your PeopleSoft Pure Internet Architecture installation.
3. Change the value for the Help URL field by entering the following URL format:

http://www.oracle.com/pls/topic/lookup?id=%CONTEXT_ID%&ctx=UlinkID1&ctx=UlinkID2&ctx=etc.

Substitute the values of *UlinkID1* and *UlinkID2* with values from the following table.

You can add any number of iterations of &ctx=UlinkID to the URL.

Examples:

- Human Resources Management System 9.1 Feature Pack – December 2010 (HRMS) with PeopleTools Release 8.53 Online Help (PT) (Update List 10/28/2014):
http://www.oracle.com/pls/topic/lookup?id=%CONTEXT_ID%&ctx=hcm92pbr5&ctx=pt853pbh2
- PeopleTools Release 8.54 Online Help (PT)
http://www.oracle.com/pls/topic/lookup?id=%CONTEXT_ID%&ctx=pt854pbh1
- PeopleTools Release 8.53 (PT):
http://www.oracle.com/pls/topic/lookup?id=%CONTEXT_ID%&ctx=pt853pbr0
- PeopleTools Release 8.52 (PT):
http://www.oracle.com/pls/topic/lookup?id=%CONTEXT_ID%&ctx=pt852pbh1
- PeopleSoft Financials and Supply Chain Management 9.2 Online Help:
http://www.oracle.com/pls/topic/lookup?id=%CONTEXT_ID%&ctx=fscm92pbr4

The following example shows a help URL configured with Universal Linking:

4. Save and exit the Web Profile Configuration page.
5. Restart the web server for your application.
6. Test the help functionality by clicking the Help link on a PeopleSoft application page.

Note: If no help was written for the application page that you are viewing, when you click the Help link, the browser returns the following message: "We're sorry, the topic you requested was not found. We have recorded this error (404) to help us fix the problem. You may wish to try again using one of the tools below." This message indicates that Universal Linking is active, but no help is available for the specific page that was requested.

Enabling the Help Link in PeopleSoft Application Designer

PeopleSoft Application Designer also provides context-sensitive help when you press the F1 key on the keyboard. To enable this help functionality:

1. In your PeopleSoft application, select PeopleTools, Utilities, Administration, PeopleTools Options.
2. Select the Help Options group.

3. Change the value for the F1 URL field by entering the following URL format:
 - PeopleTools Release 8.53 Online Help (PT):
http://www.oracle.com/pls/topic/lookup?id=%CONTEXT_ID%&ctx=pt853pbh2
 - PeopleTools Release 8.52 (PT):
http://www.oracle.com/pls/topic/lookup?id=%CONTEXT_ID%&ctx=pt852pbh2
 - Human Resources Management System 9.1 Feature Pack with PeopleTools Release 8.53 Online Help (PT):
http://www.oracle.com/pls/topic/lookup?id=%CONTEXT_ID%&ctx=hcm92pbr5&ctx=pt853pbh2
4. Save and exit the PeopleTools Options page.
5. Open Application Designer.
6. Press F1 to display general information on using Application Designer, shown in below given screen shot.
7. To test context-sensitive help, open an object, such as a panel or PeopleCode, and press F1.
