This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decomposition of this software, unless required by law for interpretability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this software or related documentation is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, the following notice is applicable:

U.S. GOVERNMENT RIGHTS Programs, software, databases, and related documentation and technical data delivered to U.S. Government customers are "commercial computer software" or "commercial technical data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, duplication, disclosure, modification, and adaptation shall be subject to the restrictions and license terms set forth in the applicable Government contract, and, to the extent applicable by the terms of the Government contract, the additional rights set forth in FAR 52.227-19, Commercial Computer Software License (December 2007). Oracle USA, Inc., 500 Oracle Parkway, Redwood City, CA 94065.

This software is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications which may create a risk of personal injury. If you use this software in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure the safe use of this software. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software in dangerous applications.

# Oracle Tuxedo 11g Release 1 (11.1.1.2.0) Release Notes

**Oracle Tuxedo 11g Release 1 (11.1.1.2.0)**  
**Date: May 2012**

**Table 1 Revision History**

<b>Revision Date</b>	<b>Summary of Change</b>
May 2012	Updated <a href="#">“Oracle Tuxedo 11gR1 Platform Data Sheets”</a> in Installing the Oracle Tuxedo System with: <ul style="list-style-type: none"><li>• Oracle Enterprise Linux 6.1 (32-bit) on x86-64</li><li>• Oracle Enterprise Linux 6.1 (64-bit) on x86-64</li><li>• Red Hat Linux Enterprise AS 6 (64-bit) on x86-64</li></ul>
December 2011	Updated <a href="#">“Oracle Tuxedo 11gR1 Platform Data Sheets”</a> in Installing the Oracle Tuxedo System with: <ul style="list-style-type: none"><li>• Oracle Solaris 11 (64-bit) on x86-64</li><li>• Oracle Solaris 11 (32-bit) on SPARC</li><li>• Oracle Solaris 11 (64-bit) on SPARC</li></ul>

## Table 1 Revision History

---

November 2011	Updated <a href="#">“Oracle Tuxedo 11gR1 Platform Data Sheets”</a> in Installing the Oracle Tuxedo System with: <ul style="list-style-type: none"><li>• Microsoft Windows 7 (32-bit) (Client Only) on x86_64 with MS Visual Studio 2010 Professional Edition</li><li>• Microsoft Windows 7 (64-bit) (Client Only) on x86_64 with MS Visual Studio 2010 Professional Edition</li><li>• Microsoft Windows 2008 Server (32-bit) on x86 with MS Visual Studio 2010 Professional Edition</li><li>• Microsoft Windows 2008 Server (64-bit) on x86-64 with MS Visual Studio 2010 Professional Edition</li><li>• Microsoft Windows XP on x86 with Visual Studio 2010 (Client Only)</li></ul>
October 2011	Updated <a href="#">“Oracle Tuxedo 11gR1 Platform Data Sheets”</a> in Installing the Oracle Tuxedo System with: <ul style="list-style-type: none"><li>• Novell SUSE Linux Enterprise Server 11 (64-bit) on 86-64</li></ul>
August 2011	Updated <a href="#">“Oracle Tuxedo 11gR1 Platform Data Sheets”</a> in Installing the Oracle Tuxedo System with: <ul style="list-style-type: none"><li>• IBM AIX 7.1 (32-bit) on IBM PowerPC</li><li>• IBM AIX 7.1 (64-bit) on IBM PowerPC</li><li>• Oracle Solaris 11 (64-bit) on x86-64</li><li>• Microsoft Windows 7 (64-bit) (Client Only) on x86_64 with MS Visual Studio 2008 Professional Edition</li></ul>
July 2011	Updated <a href="#">“Oracle Tuxedo 11gR1 Platform Data Sheets”</a> in Installing the Oracle Tuxedo System with: <ul style="list-style-type: none"><li>• HP OpenVMS V8.4 (64-bit) on IA64</li><li>• IBM i 7.1 on IBM PowerPC</li><li>• Microsoft Windows 7 (32-bit) (Client Only) on x86_64 with MS Visual Studio 2008 Professional Edition</li></ul>
June 2011	Updated <a href="#">“Oracle Tuxedo 11gR1 Platform Data Sheets”</a> in Installing the Oracle Tuxedo System with: <ul style="list-style-type: none"><li>• Red Hat Linux Enterprise AS 5 (64-bit) on x86-64</li></ul>

May 2011	Updated <a href="#">“Oracle Tuxedo 11gR1 Platform Data Sheets”</a> in Installing the Oracle Tuxedo System with: <ul style="list-style-type: none"> <li>• Microsoft Windows 2008 R2 Server (32-bit) on x86-64 with MS Visual Studio 2008 Professional Edition</li> <li>• Microsoft Windows 2008 R2 Server (64-bit) on x86-64 with MS Visual Studio 2008 Professional Edition</li> </ul>
April 2011	Updated <a href="#">“Oracle Tuxedo 11gR1 Platform Data Sheets”</a> in Installing the Oracle Tuxedo System with: <ul style="list-style-type: none"> <li>• HP-UX 11i v3 (32-bit) on Itanium</li> </ul>
February 2011	Updated <a href="#">“Oracle Tuxedo 11gR1 Platform Data Sheets”</a> in Installing the Oracle Tuxedo System with: <ul style="list-style-type: none"> <li>• Oracle Linux 5.5 (64-bit) on ExaLogic X2-2</li> <li>• Oracle Solaris 11 Express x86 (64-bit) on Exalogic</li> </ul>
January 2011	Updated <a href="#">“Oracle Tuxedo 11gR1 Platform Data Sheets”</a> in Installing the Oracle Tuxedo System with: <ul style="list-style-type: none"> <li>• HP-UX 11i v3 (64-bit) on Itanium</li> <li>• Novell SUSE Linux Enterprise Server 10 (64-bit) on s390x</li> <li>• Red Hat Linux Enterprise AS 5 (64-bit) on s390x</li> </ul>
August 2010	GA release

This document contains release notes for the Oracle Tuxedo 11g Release 1 (11.1.1.2.0) release. It includes the following topics:

- [About This Oracle Tuxedo Release](#)
- [Installation Upgrade Considerations](#)
- [Oracle Tuxedo Software Components](#)
- [Supported Platforms](#)

## About This Oracle Tuxedo Release

This topic includes the following sections:

- [What’s New and Improved](#)

- [Installation Upgrade Considerations](#)
- [Oracle Tuxedo Software Components](#)

## What's New and Improved

Oracle Tuxedo Release 11g Release 1 (11.1.1.2.0) includes the following new features and enhancements:

### Support Multiple Resource Managers in one Tuxedo Group

In this release, Oracle Tuxedo supports multiple Resource Managers (RMs) in one group. Every group application server has the ability to communicate with multiple RMs in one global transaction. For more information, see the [Oracle Tuxedo ATMI COBOL Function Reference](#), [Oracle Tuxedo ATMI C Function Reference](#), [Oracle Tuxedo File Formats, and Data Descriptions, MIBs, and System Processes Reference](#).

### Nested Views

Previous Oracle Tuxedo releases have supported views. In Release 11.1.1.2.0 view functionality has been extended to support nested views. For more information, see [Managing Typed Buffers in Programming an Oracle Tuxedo ATMI Application Using C](#).

### Domain-Level AUTOTRAN

Previous Oracle Tuxedo releases support AUTOTRAN for individual services. Domain-level AUTOTRAN configuration is added in this release.

## Installation Upgrade Considerations

For complete information on upgrading to Oracle Tuxedo 11g Release 1 (11.1.1.2.0), see [“Upgrading the Oracle Tuxedo System to Release 11g Release 1 \(11.1.1.2.0\)” in \*Installing the Oracle Tuxedo System\*](#).

## Oracle Tuxedo Software Components

The Oracle Tuxedo software consists of the following components:

- Oracle Tuxedo ATMI software

The ATMI software enables you to build scalable ATMI applications using either of two programming languages: C or COBOL. This software includes the following components:

- Oracle Tuxedo ATMI servers
- Oracle Tuxedo /WS clients
- Oracle Tuxedo Native clients
- Oracle Tuxedo .NET Workstation clients
- Oracle Tuxedo infrastructure
- Oracle Tuxedo CORBA software
  - The CORBA software enables you to build scalable CORBA applications in the C++ programming language. This software includes the following components:
    - CORBA C++ servers
    - C++ client and server Object Request Broker (ORB)
    - Oracle Tuxedo object infrastructure
- Oracle Jolt 11g Release 1 (11.1.1.2.0) software
  - Oracle Jolt is a Java-based interface to the Oracle Tuxedo system that extends the functionality of existing Oracle Tuxedo applications to include intranet- and Internet-wide availability.
- Oracle SNMP Agent software
  - Oracle SNMP Agent for Oracle Tuxedo and Oracle WebLogic Enterprise is a Simple Network Management Protocol (SNMP) agent that enables Oracle Tuxedo and Oracle WebLogic Enterprise applications to be managed from an Enterprise Management Console.

## Supported Platforms

Oracle Tuxedo software runs on the platforms listed in the following sections. Oracle has certified these platforms for development and production use with the Oracle Tuxedo 11g Release 1 (11.1.1.2.0) product. Oracle can provide customer support only for these platforms. Note that although Oracle has attempted to implement the Oracle Tuxedo software in a manner that conforms to industry-standards, it is not feasible for Oracle to certify its use with all third-party databases, ORBs, and other products.

Additional software ports and certifications will be made available after the initial release of 11g Release 1 (11.1.1.2.0). For information regarding subsequent ports and certifications, please refer to the Platform Support information on the Oracle Web site at the following link: [Oracle Tuxedo 11g Release 1 \(11.1.1.2.0\) Platform Data Sheets](#).

**Note:** The required stack size for an Oracle Tuxedo server thread has slightly increased, you may need to adjust the thread stack size accordingly in case of stack overflow issues (especially on AIX platform).
