Send Us Your Comments

Oracle Functional Testing Suite Advanced Pack for Oracle E-Business Suite – Property Manager Reference Guide, Release 12.1.3

Part No. E52497-03

Oracle welcomes customers' comments and suggestions on the quality and usefulness of this document. Your feedback is important, and helps us to best meet your needs as a user of our products. For example:

- Are the implementation steps correct and complete?
- Did you understand the context of the procedures?
- Did you find any errors in the information?
- Does the structure of the information help you with your tasks?
- Do you need different information or graphics? If so, where, and in what format?
- Are the examples correct? Do you need more examples?

If you find any errors or have any other suggestions for improvement, then please tell us your name, the name of the company who has licensed our products, the title and part number of the documentation and the chapter, section, and page number (if available).

Note: Before sending us your comments, you might like to check that you have the latest version of the document and if any concerns are already addressed. To do this, access the new Oracle E-Business Suite Release Online Documentation CD available on My Oracle Support and www.oracle.com. It contains the most current Documentation Library plus all documents revised or released recently.

Send your comments to us using the electronic mail address: appsdoc_us@oracle.com

Please give your name, address, electronic mail address, and telephone number (optional).

If you need assistance with Oracle software, then please contact your support representative or Oracle Support Services.

If you require training or instruction in using Oracle software, then please contact your Oracle local office and inquire about our Oracle University offerings. A list of Oracle offices is available on our Web site at www.oracle.com.

Preface

Intended Audience

Welcome to Release 12.1.3 of the *Oracle Functional Testing Suite Advanced Pack for Oracle E-Business Suite – Property Manager Reference Guide.*

This guide is meant for implementers and testers of Oracle E-Business Suite applications. The document can also be referenced by end users to get information about the test flows.

This guide assumes you have a working knowledge of the following:

*   The principles and customary practices of your business area.

*   Computer desktop application usage and terminology.

See Related Information Sources on page viii for more Oracle E-Business Suite product information.

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info or visit http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs if you are hearing impaired.

Structure

Related Information Sources

You can choose from many sources of information, including online documentation, training, and support services, to increase your knowledge and understanding of Oracle Application Testing Suite.

Online Documentation

All Oracle Application Testing Suite documentation is available online (HTML or PDF).

- **PDF** - See the Oracle E-Business Suite Documentation Library for current PDF documentation for your product with each release. The Oracle E-Business Suite Documentation Library is also available on My Oracle Support and is updated frequently

- **Release Notes** - For information about changes in this release, including new features, known issues, and other details, see the release notes for the relevant product, available on My Oracle Support.

Guides Related to This Product

Oracle Functional Testing Flow Builder Starter Pack Reference Guide for E-Business Suite Release 12.1.3

This guide describes each flow thereby providing an insight about the purpose of the flow and the core setups required to execute the flow. These test flows are built using Oracle E-Business Suite of applications on Release 12.1.3 with a sample database, which is required to run these flows.

Oracle Functional Testing Flow Builder User's Guide

Oracle Flow Builder (OFB) is a keyword-driven testing application that business analysts and Quality Assurance engineers use to build business test automation flows. The test automation flows can be translated into executable OpenScript scripts. Technical QA engineers or IT users define or update components by making use of the keywords for Oracle E-Business Suite of applications. Functional QA engineers or business analysts then assemble the components together to define a business process, or "flow" and generate OpenScript scripts to automate testing of the application

Training and Support

Training

Oracle offers a complete set of training courses to help you master your product and reach full productivity quickly. These courses are organized into functional learning paths, so you take only those courses appropriate to your job or area of responsibility.

You have a choice of educational environments. You can attend courses offered by Oracle University at any of our many Education Centers, you can arrange for our trainers to teach at your facility, or you can use Oracle Learning Network (OLN), Oracle University's online education utility. In addition, Oracle training professionals can tailor standard courses or develop custom courses to meet your needs. For example, you may want to use your organization structure, terminology, and data as examples in a customized training session delivered at your own facility.

Support

From on-site support to central support, our team of experienced professionals provides the help and information you need to keep your product working for you. This team includes your Technical Representative, Account Manager, and Oracle's large staff of consultants and support specialists with expertise in your business area, managing an Oracle server, and your hardware and software environment.

Do Not Use Database Tools to Modify Oracle E-Business Suite Data

Oracle STRONGLY RECOMMENDS that you never use SQL*Plus, Oracle Data Browser, database triggers, or any other tool to modify Oracle E-Business Suite data unless otherwise instructed.

Oracle provides powerful tools you can use to create, store, change, retrieve, and maintain information in an Oracle database. But if you use Oracle tools such as SQL*Plus to modify Oracle E-Business Suite data, you risk destroying the integrity of your data and you lose the ability to audit changes to your data.

Because Oracle E-Business Suite tables are interrelated, any change you make using an Oracle E-Business Suite form can update many tables at once. But when you modify Oracle E-Business Suite data using anything other than Oracle E-Business Suite, you may change a row in one table without making corresponding changes in related tables. If your tables get out of synchronization with each other, you risk retrieving erroneous information and you risk unpredictable results throughout Oracle E-Business Suite.

When you use Oracle E-Business Suite to modify your data, Oracle E-Business Suite automatically checks that your changes are valid. Oracle E-Business Suite also keeps track of who changes information. If you enter information into database tables using database tools, you may store invalid information. You also lose the ability to track who has changed your information because SQL*Plus and other database tools do not keep a

record of changes.

1

Introduction

Overview

The Oracle Functional Testing Suite Advanced Pack for Oracle E-Business Suite, referred to as advanced pack in this guide, provides components for testing features of different products delivered as part of Oracle E-Business Suite Release 12.1.3. The components delivered in the advanced pack for Oracle Property Manager are documented cumulatively in this guide. These flows are delivered over Oracle Flow Builder Starter Pack in Release 12.4.0.2 of Oracle Application Testing Suite for Oracle Applications.

For information about the components delivered in the Oracle Flow Builder Starter Pack, see the Oracle Functional Testing Flow Builder Starter Pack Reference Guide for E-Business Suite Release 12.1.3.

Oracle Property Manager Attributes

This section provides information on the common prerequisites, profile options, and data setups required for executing the Oracle Property Manager flows. Flow specific requirements are documented along with the flow in the subsequent chapter.

Prerequisites

None.

Profile Options

Not applicable.

Predefined Data

Not applicable.

Setup Data

Not applicable.

2

Oracle Property Manager Flows

Overview

Oracle Property Manager provides the ability to manage major real estate tasks, including creation and administration of property, lease administration and office space allocation.

The following sections describe the flows in the Oracle Property Manager advanced pack.

Property Manager Amend Lease Flow

Lease amendments are created to cover changes or additions to the terms of a lease. The amend lease feature is used to modify lease information when the approval status of the lease is Final.

The Property Manager Amend Lease Flow covers the different lease amendment scenarios and related normalization calculation verification for the amendment. The following amend scenarios are included in this flow:

- Lease Amendment with Extend Term

- Lease Amendment with Contract Term

- Lease Amendment with Status Rollover to Month-to-Month

- Lease Amendment with Renormalize as No and with Cut Off Date Entry

Attributes

This section provides information on prerequisites, profile options, and data setups required to execute the Property Manager Amend Lease flow.

Technical Name

PN_Amend_Lease

Prerequisites

None.

Profile Options

Not applicable.

Predefined Data

The following predefined data must be used:

Window Name	Field Name	Field Value
User	User Name	operations
	Password	welcome
Responsibilities	Responsibility Name	Property Manager, Vision Operations (USA)

Setup Data

The following data must be set up:

Window Name	Field Name	Field Value	Comments
Property	Tenure	Mixed	Lookup Type: PN_TENURE_TYPE
Billing	Tenure	Mixed	Lookup Type: PN_TENURE_TYPE
Lease	Type	Operating Lease	Lookup Type: PN_LEASE_TYPE

Window Name	Field Name	Field Value	Comments
Lease	Term Template	PN-Pay Norm TX NO	Payment term template should contain account distribution for Expense, Liability, and Accrued liability.
Lease	Usage	Office Space	Lookup Type: PN_TENANCY_USAGE_TYPE
Lease	Purpose	Rent	Lookup Type: PN_PAYMENT_PURPOSE_TYPE
Lease	Type	Base Rent	Lookup Type: PN_PAYMENT_TERM_TYPE
Lease	Supplier	PN-Supplier1	
Lease	Supplier Site	Main Site	
Term Details	GL Account	01-110-7440-0000-000	
Term Details	GL Account	01-000-2210-0000-000	
Term Details	GL Account	01-000-2225-0000-000	

Property Manager Rent Increase Flow

The rent increase feature helps to calculate rent increases based on fixed percentages or a specified index. The Property Manager Rent Increase flow covers the creation of rent increase agreement with the following parameters:

- Reference Period as Basis Year

- Negative Rent as Ignore

- Spread Frequency as Monthly

- Basis Type as Fixed

- Index Finder as Always Finder Date

- Increase On as Base Rent

- Relation Ship as Lessor of, Greater of and Index Only

The rent increase period is generated, and it calculates the rent increase term (billing term). This flow also covers the creation, approval, and verification of rent increase term.

Attributes

This section provides information on prerequisites, profile options, and data setups required to execute the Property Manager Rent Increase flow.

Technical Name

PN-01_Rent_Increase_05

Prerequisites

None.

Profile Options

The following profile options must be set:

Profile Option Name	Profile Option Value
PN: End Date for Base Year Reference Rent Increase Terms	Assessment Period End
PN: Rent Increase Term End Date	End of Lease
PN: Rent Increase Calculated after Assessment Date	Single Term

Predefined Data

The following predefined data must be used:

Window Name	Field Name	Field Value
User	User Name	operations
	Password	welcome
Responsibilities	Responsibility Name	Property Manager, Vision Operations (USA)

Setup Data

The following data must be set up:

Window Name	Field Name	Field Value	Comments
Lease	Office Location	PN-B1-1-107	Location should be available within the lease dates.
Lease	Term Template	PN-Pay-Norm TX NO	Payment term template should contain account distribution for Expense, Liability and Accrued liability.
Lease	Supplier Name	PN-Supplier-1	
Lease	Supplier Site	MAIN SITE	
Rent Increase	Index Type	PN Index 1	Index History contains monthly index defined for the entire period of Rent Increase.
Lease	Purpose	Rent, Insurance, Operating Expense	Lookup Type: PN_PAYMENT_PURPOSE_TYPE

Window Name	Field Name	Field Value	Comments
Lease	Type	Base Rent, Cleaning, Escalation	Lookup Type: PN_PAYMENT_TER M_TYPE

Property Manager Tenant Common Area Maintenance (TCAM) Flow

Operating expense feature helps tenants pay their landlord a prorata share of the tenant common area maintenance for the property on lease. The Property Manager Tenant Common Area Maintenance flow covers the following:

- Creation of Expense Lease

- Creation of Operating Expense Agreement with Prorata basis, Expense Group, and Caps Setup

- Calculation of Estimated Payment

- Calculation and Verification of Payment Term and Catch-up Term

- Creation and Verification of Reconciliation

- Reconciliation Term Creation

- Verification in Lease Payment for Estimated Payment Term, Catch-up Term and Reconciliation Term

Attributes

This section provides information on prerequisites, profile options, and data setups required to execute the Property Manager Tenant Common Area Maintenance flow.

Technical Name

PN-01_TCAM_07

Prerequisites

None.

Profile Options

Not applicable.

Predefined Data

The following predefined data must be used:

Window Name	Field Name	Field Value
User	User Name	operations
	Password	welcome
Responsibilities	Responsibility Name	Property Manager, Vision Operations (USA)

Setup Data

The following data must be set up:

Window Name	Field Name	Field Value	Comments
Lease	Term Template Name	PN-Pay-Norm TX NO	Payment Term template should contain account distribution for Expense, Liability and Accrued liability.
Lease	Office Location	PN-B1-1-109	Location should be available within the lease dates.
Lease	Supplier name	Capp Consulting	
Lease	Purpose	Rent	
Lease	Type	Base Rent	

Page Name	Field Name	Field Value	Comments
Operating Expense Agreement	Term Template Name	PN-Pay-Norm TX NO	Payment term template should contain account distribution for Expense, Liability and Accrued liability.
Operating Expense Agreement	Purpose	Rent	
Operating Expense Agreement	Type	Base Rent	
Operating Expense Agreement	Standard Group Name	Common Area Maintenance	
Operating Expense Agreement	Standard Group Name	Utilities	
Operating Expense Agreement	Standard Group Name	Tax	
Operating Expense Agreement	Standard Group Name	Security	

Property Manager Variable Rent Flow

The variable rent feature enables you to calculate rent based on a variety of factors such as sales volumes, utility consumption, hours, and services provided.

The Property Manager Variable Rent flow covers the creation of variable rent agreement with the following calculation methods:

1. Cumulative

2. Non-Cumulative

3. True Up

4. Year to Date

This flow also covers the following partial year method combinations:

1. Combined Sales without Break Point Proration

2. First Year and Last Year

3. Combined Sales with Breakpoint Proration

4. Standard

The flow also handles Constraints, Allowances and Abatements (both fix and recurring). With the above combinations in variable rent agreement, variable rent is calculated and approved.

Attributes

This section provides information on prerequisites, profile options, and data setups required to execute the Property Manager Variable Rent flow.

Technical Name

PN-01_Variable_Rent_04

Prerequisites

None.

Profile Options

The following profile options must be set:

Profile Option Name	Profile Option Value
PN: Volume status default	Approved
PN: Show Calculate and Calculate All Buttons for Variable Rent	Yes

Predefined Data

The following predefined data must be used:

Window Name	Field Name	Field Value
User	User Name	operations

Window Name	Field Name	Field Value
	Password	welcome
Responsibilities	Responsibility Name	Property Manager, Vision Operations (USA)

Setup Data

The following data must be set up:

Window Name	Field Name	Field Value	Comments
Lease, Variable Rent Agreement	Term Template Name	PN-Pay-Norm TX NO	Payment term template should contain account distribution for Expense, Liability and Accrued liability.
Lease, Variable Rent Agreement	Office Location	PN-B1-1-106	Location should be available within lease dates.
Lease	Supplier name	PN-Supplier-1	
Variable Rent Agreement	Break point Channel	Direct	
Variable Rent Agreement	Break Point Category	Clothing	
Lease, Variable Rent Agreement	Purpose	Rent, Insurance, Depreciation	Lookup Type: PN_PAYMENT_PURPOSE_TYPE
Lease, Variable Rent Agreement	Type	Base Rent, Cleaning, Insurance, Depreciation, Rent	Lookup Type: PN_PAYMENT_TERM_TYPE

Page Name	Field Name	Field Value
System Option	Variable Rent Auto Generation option	No

Property Manager Recovery Flow

The recovery feature helps landlords to calculate, recover, and reconcile expenses such as those of common area maintenance expenses from tenants. This feature is important to any landlord who has multiple tenants in a single property, and any tenant who shares a property with other tenants.

The Property Manager Recovery flow covers the recovery and verification of the following types of recoverable costs:

- Common area maintenance costs

- Insurance

Attributes

This section provides information on prerequisites, profile options, and data setups required to execute the Property Manager Recovery flow.

Technical Name

PN-01_Recovery_06

Prerequisites

None.

Profile Options

Not applicable.

Predefined Data

The following predefined data must be used:

Window Name	Field Name	Field Value
User	User Name	operations

Window Name	Field Name	Field Value
	Password	welcome
Responsibilities	Responsibility Name	Property Manager, Vision Operations (USA)

Setup Data

The following data must be set up:

Window Name	Field Name	Field Value	Comments
Lease	Office Location	PN-B1-1-108	Location should be available within lease dates.
Lease	Term Template	PN-Bill-Norm TX NO	Billing term template should contain account distribution for Revenue, Receivables and Accrued Revenue.
Lease	Customer Name	PN-Customer-1	
Lease	Purpose	Rent, Insurance, Depreciation	Lookup Type: PN_PAYMENT_PURPOSE_TYPE
Lease	Type	Base Rent, Cleaning, Insurance, Depreciation, Rent	Lookup Type: PN_PAYMENT_TERM_TYPE
Lease	Recovery Type	Major	Lookup Type: PN_RECOVERY_TYPE
Lease	Recovery Space Standard	Exterior	Lookup Type: PN_RECOVERY_SPACE_STD_TYPE

A

Components in Oracle Property Manager

Overview

This section contains components of Oracle Property Manager.

Components in Oracle Property Manager

Feature Name	Component Name	Search Tags	Description
Lease Management	Verify_Lease_TermDetail	Term Details	To verify the term details
Lease Management	View_Lease_Amend_History	Amend	To view amend lease history
Lease Management	View_Lease_History	Lease	To view the lease history
Lease Management	Edit_Lease_Amend_Lease	Amend	To amend existing lease by entering all required values
Lease Management	Edit_Lease_Location	Location	To edit the existing lease by adding new Location to it

Feature Name	Component Name	Search Tags	Description
Lease Management	View_Lease_SpaceAssignments	Space Assignment	To view customer space assignments for a location
Lease Management	Edit_Lease_Finalize_Lease	Lease	To edit lease to finalize it
Lease Management	Verify_Lease_Import_Paybl_Rece	Export Billings to Receivables	To verify the lease terms imported to payables or receivables
Lease Management	Verify_Lease_Expt_Payble_Recva	Export Billings to Receivables	To verify the lease terms exported to payables or receivables
Lease Management	Lease_Export_Payable_Receivabl	Export Billings to Receivables	To export the Terms to payables or receivables
Lease Management	Edit_Lease_Approve_Terms	Authorise Payments	To approve the payment terms
Lease Management	Verify_Lease_Status	Lease	To verify lease status
Lease Management	Edit_Lease_Status	Lease	To change lease status
Lease Management	Lease_Create_Terms	Billing	To create lease terms
Lease Management	Lease_Create_Location	Location	To create lease locations

Feature Name	Component Name	Search Tags	Description
Lease Management	Lease_Create	Lease	To create lease
Lease Management	Verify_Exp_Normalization_Calcs	Request Output	To verify expense lease normalization calculations
Lease Management	Verify_Rev_Normalization_Calcs	Request Output	To verify revenue lease normalization calculations
Lease Management	Edit_Lease_Payment	Payments	To edit the lease by adding the new payment
Recovery	Create_ExpenseClass	Expense Classes	To create expense class
Recovery	Create_AreaClass_Generate	Area Class Details	To generate area class
Recovery	Create_AreaClass	Area Classes	To create area classes
Recovery	Update_RecoveryExpense_Gen	Oracle Property Manager Recovery Module	To update recovery expense and generate class details
Recovery	Create_RecAgreement_AppTerm	Review Terms	To view recovery agreement terms and approve it
Recovery	Create_RecAgreement_CalTerm	Oracle Property Manager Recovery Module	To calculate recovery agreement terms
Recovery	Create_ExpenseClass_Inclusions	Oracle Property Manager Recovery Module	To create inclusions for expense class
Recovery	Create_RecAgreement_Lines	Oracle Property Manager Recovery Module	To enter and complete line details for recovery agreement
Recovery	Create_ExpenseClass_Generate	Generate Expense Class Details	To generate expense class details for recovery expense

Feature Name	Component Name	Search Tags	Description
Recovery	Create_Recovery Expense	Oracle Property Manager Recovery Module	To create recovery expense
Recovery	Create_Recovery Agreement	Oracle Property Manager Recovery Module	To create recovery agreement
Recovery	Create_RecAgreement_Finish	Oracle Property Manager Recovery Module	To finish the recovery agreement navigation
Recovery	Crt_RecAgre_lines_Abatements	Oracle Property Manager Recovery Module	To Create RecAgreement Lines Abatements
Recovery	Crt_RecAgre_lines_Constraints	Oracle Property Manager Recovery Module	To Create RecAgreement Lines Constraints
Recovery	Crt_Recovery_Exp_Class_Details	Oracle Property Manager Recovery Module	To Create Recovery Expense class details
Recovery	Crt_Recovery_Expense_Class	Oracle Property Manager Recovery Module	To Create Recovery Expense Class
Recovery	Crt_Recovery_Expense_Lines	Oracle Property Manager Recovery Module	To Create Recovery Expense Lines
Recovery	Crt_Tenants_WO_Agreement	Oracle Property Manager Recovery Module	To Create Tenants Without Agreement
Recovery	Dup_RecoveryExp_Class	Oracle Property Manager Recovery Module	To Duplicate recovery expense class
Recovery	Dup_RecoveryExp_Class_Incls	Oracle Property Manager Recovery Module	To Duplicate recovery expense class Inclusions
Recovery	Exp_CAD_Interface	Export from CAD	To Export location or space assignments
Recovery	Gen_Class_Details	Oracle Property Manager Recovery Module	To Generate Class Details

Feature Name	Component Name	Search Tags	Description
Recovery	Imp_CAD_Interface	Import from CAD	To Import location or space assignments from CAD
Recovery	Srch_Area_Class_Details	Area Class Details	To Search Area Class Details
Recovery	Srch_Recovery_Agr	Search for Recovery	To Search for Recovery Agreement
Recovery	Srch_Recovery_Expense	Oracle Property Manager Recovery Module	To Search Recovery Expense
Recovery	Srch_Recovery_Expense_Class	Oracle Property Manager Recovery Module	To Search Recovery Expense Class
Recovery	Srch_Setup_Area_Class	Oracle Property Manager Recovery Module	To Search Setup Area Class
Recovery	Upd_RecevoryExp_Class	Oracle Property Manager Recovery Module	To Update recovery expense class
Recovery	View_Recovery_Expense	Oracle Property Manager Recovery Module	To View Recovery Expense
Recovery	View_Recovery_Expense_Alloc	Oracle Property Manager Recovery Module	To View Recovery Expense Allocation
Recovery	View_Recovery_Expense_Class	Expense Class Details	To View Recovery Expense Class
Recovery	Vrf_Rec_Agr_Line_Details	Oracle Property Manager Recovery Module	To Verify Recovery Agreement Line Details.
Recovery	Vrf_Recovery_Agr_Details	Oracle Property Manager Recovery Module	To Verify Recovery Agreement Details.
Recovery	Rec_Bill_Terms_Details	Review Terms: Billing Information	To Review Terms Billing Information.
Recovery	Recovery_Agr_Review_Terms	Oracle Property Manaer Recovery Module	To Review Agreement Terms.

Feature Name	Component Name	Search Tags	Description
Recovery	Review_Terms_Bill_Info	Review Terms: Recovery Calculation	To Review Terms Billing Information.
Rent Increase	Edit_BasisPeriods_Terms	Basis Periods Terms	To edit basic period terms for rent increase
Rent Increase	Edit_BasisPeriods	Basis Periods	To generate basic period and edit all details or edit details
Rent Increase	Create_RentIncrease	Rent Increase	To create rent increase with entering values in agreement details tab
Rent Increase	Create_UndoPeriods	Basic Period	To remove periods lines from basic period tab
Rent Increase	Update_Constraints	Constraints	To update values in constraints tab of basic period for rent increase
Rent Increase	Update_RentIncrease	Agreement	To update values in agreement details tab for rent increase
Rent Increase	Update IndexHistory	Index History	To update index history of Index type for rent increase
Rent Increase	Verify_BasisPeriods	Basic Period	To verify basis periods and terms in basic period tab
Rent Increase	Edit_BasisTerms	Basis Terms	To edit basis terms values for rent increase
Setups	Create_Setup_Contact_Role	Contacts	To create contact role
Setups	Create_Setups_PaymentTemplate	Payment Term Template	To create payment term template
Setups	Create_Setups_PaymntBilingAcnt	Payment Term Template	To create account for payment term template

Feature Name	Component Name	Search Tags	Description
Setups	Create_Setups_BillingTemplate	Billing Term Template	To create billing term template
Setups	Edit_Setup_Systemoptions	Property Manager Setup	To edit system options setting
Setups	Edit_Setup_ProfileOptions	Profile Options	To edit profile options setting
Setups	Create_Setup_IndexType	Index History	To create Index Type
Setups	Create_Setup_Region_OfficePark	Regions and Office Parks	To create region or office park
Setups	Create_Setup_Property	Property	To create property
Setups	Create_Setup_Building	Building	To create Building
Setups	Create_Setup_Floor	List: Floor	To create of Floor
Setups	View_Setup_BuildingLocation	Locations Inquiry	To verify locations for building
Setups	View_Setup_FloorLocation	Locations Inquiry	To verify locations for floor
Setups	View_Setup_OfficeLocation	Locations Inquiry	To verify locations for office
Setups	Create_Setup_IndexValues	Index History	To create index date line for index type
Setups	Create_Object_Lookups	Lookups	To create object lookups

Feature Name	Component Name	Search Tags	Description
Setups	Create_Expense_Account_Mapping	Expense Account Mapping	To create expense account mapping
Setups	Create_Milestone_Templates	Milestone Templates	To create milestone templates
Setups	Enable_Reporting_Currencies	Reporting Currencies	To enable reporting currencies
Setups	Create_Invoice_Grouping_Rules	Invoice Grouping Rules	To create invoice grouping rule
Setups	Create_Setup_Section	List: Section	To define section for floor
Setups	Create_Setup_Land	Land	To define land values for building
Setups	Create_Setup_Parcel	List: Parcel	To define parcel for building land
Setups	Create_Setup_Contact_Name	Contacts	To create contact
Setups	Create_Setup_Office	List: Floor	To create an office
Setups	Add_Loc_To_Appointment	Bookable Locations	To Add Location for a Conference Room Appointment
Setups	Add_Moreinfo_To_Meeting	Create Appointment	To Add more information to appointment
Setups	Crt_Agents_Contacts	Contacts	To Creation of Contacts as vendors or service providers
Setups	Crt_Appointment_Header	Calendar Stock	To Create Appointment Header

Feature Name	Component Name	Search Tags	Description
Space Management	View_Space_AssignSpace	Space Assignment	To view employee space assignment for a location
Space Management	Create_Space_AssignSpace	Space Assignment	To create employee space assignment for a location
Space Management	Delete_Space_SpaceAssignment	Space Assignment	To delete employee space assignment for a location
TC Agreement	Create_Estimtd_Catchup_Term	View Payment Term	To estimated or catch-up term and verify them
TC Agreement	Create_Reconciliation	Create Reconciliation	To create reconciliation tenant common agreement
TC Agreement	Create_TCAgree_EstimdPayments	Property Manager Operating Expenses	To create estimated payments for tenant common agreement
TC Agreement	Create_TCAgrmt_ExpGrp	Property Manager Operating Expenses	To create expense group for tenant common agreement
TC Agreement	Create_TC_Agreement	Property Manager Operating Expenses	To create tenant common agreement
TC Agreement	Enter_TCA_Caps	Property Manager Operating Expenses	To define caps value for tenant common agreement
TC Agreement	Enter_TCA_CriticalDates	Property Manager Operating Expenses	To define critical dates for tenant common agreement
TC Agreement	Enter_TCA_ProRateBasis	Property Manager Operating Expenses	To define pro rate basis for tenant common agreement
TC Agreement	Crt_TCA_MethodDetails	Property Manager Operating Expenses	To create tenant common agreement define method details

Feature Name	Component Name	Search Tags	Description
TC Agreement	Enter_TCA_Add Note	Property Manager Operating Expenses	To enter values for add note section in tenant common agreement
TC Agreement	Verify_Dashboar d	Operating Expenses Dashboard	To verify all data for tenant common agreement
TC Agreement	Create_Recon_Ex pGrp	Property Manager Operating Expenses	To enter expense group values and recalculate it.
Variable Rent	Verify_VR_Invoic e_Review	Invoice Review	To verify data of invoice review and recurring abatements for annual periods of variable rent.
Variable Rent	Create_VR_Terms	Invoice Review	To create terms annual periods of variable rent
Variable Rent	Create_VR_Const raints_Hdr	Constraints	To create setup constraints header values for variable rent
Variable Rent	Create_VR_Const raints_Lin	Constraints	To create setup constraints lines values for variable rent
Variable Rent	Create_VR_Gene Constraints	Constraints	To create setup constraints lines values for variable rent
Variable Rent	Create_VR_SSVol umes	Create Volume History	To create volume in self services page for variable rent
Variable Rent	Create_VariableR ent	Variable Rent	To create variable rent and enter agreement tab details
Variable Rent	Create_VR_Volu mes	Volume	To create volume for annual periods in variable rent
Variable Rent	Verify_VR_Annu al_Periods	Annual Period	To verify annual periods of variable rent
Variable Rent	Create_VR_Recur rAbate	Recurring Abatements	To check setup recurring abatements for variable rent.

Feature Name	Component Name	Search Tags	Description
Variable Rent	Create_VR_Allow AndAbate	Allowances and Abatement	To define setup allowances and abatement tab values for variable rent
Variable Rent	Create_VR_Break points_Lin	Breakpoint	To define setup breakpoint line details for variable rent
Variable Rent	Create_VR_Break point_Hdr	Breakpoint	To define setup breakpoint header details for variable rent
Variable Rent	Run_Var_Rent_Tr ue_Up	Request	To run request for PN variable rent true up
Variable Rent	Ent_Variable_Ren t_Temp	Find Variable Rent Agreements	To Enter Variable Rent Template
Variable Rent	Find_Variable_Re nt_Temp	Find Variable Rent Agreements	To Search for a Variable Rent Template
Variable Rent	Import_Volume_ Hist_Batch	Volume History	To Import Volume History Batch
Variable Rent	Search_Volume_ History	Volume History	To Search for Volume History
Variable Rent	Srch_Variable_Re nt	Find Variable Rent Agreements	To Search Variable Rent
Variable Rent	Upd_Volume_His tory_Batch	Variable Rent	To Update Volume History Batch
Variable Rent	Verify_Variable_ Rent_Details	Variable Rent Details	To Verify Variable Rent details
