Target Property of Link Component	4
Setting a Background Color for a Page Layout	4
Restoring the Original Value of a Property	4
HTML Text Component Name Change	5
eVision Studio User's Guide Improvements	5

What's New in This Release

This chapter summarizes new features and changes in eVision Studio release 5.0.5.

What's in This Chapter

- [“Target Property of Link Component” on page 4](#)
- [“Setting a Background Color for a Page Layout” on page 4](#)
- [“Restoring the Original Value of a Property” on page 4](#)
- [“HTML Text Component Name Change” on page 5](#)
- [“eVision Studio User's Guide Improvements” on page 5](#)

1.1 Target Property of Link Component

The **Link** component has a new property called **target**. This property allows you to specify how the link opens (for example, in a new window or in the same frame).

1.2 Setting a Background Color for a Page Layout

The **page** property type has a new property called **bgcolor** property. This property allows you to set the background color of the Page Layout.

1.3 Restoring the Original Value of a Property

If you change the value of a GUI component property and then want to restore the original value, you can do so by clicking a blue, circular arrow in the right column of the **Properties** window.

1.4 HTML Text Component Name Change

The name of the **HTML Text** component has been changed to **Label**.

1.5 eVision Studio User's Guide Improvements

Chapter 4, "Using the Page Layout Designer" now includes a subsection for each GUI component (with the exception of the **Chart** component, which is described in Chapter 8).

Chapter 6, "Using the Page Flow Designer" provides more detail about using the **Event Based Decision** element.
