Single Controller Replacement Notes  1
Sun Storagetek 2500 Series Single Controller Replacement Notes

**Note** – If this controller is a replacement for a dual controller environment, do not read further. Use the Service Advisor procedure to replace the unit. From the Sun StorageTek Common Array Manager application, click the Service Advisor button and follow the instructions.

If this controller is a replacement for another one in a single controller configuration, do the following:

1. **Verify your Common Array Management Software is at the 6.2. (baseline) level or later.**
   From http://www.sun.com/storagetek/management_software/resource_management/cam, click the “Get It” tab to obtain the latest information and version available.

2. **Reference the “Replacing a Simplex Controller” section in the current 2500 Array Release Notes.**

3. **Follow the steps in Service Advisor to replace the unit.**
   From the Sun StorageTek Common Array Manager application, click the Service Advisor button and follow the instructions. For more information, click Help.
