Sun Fire™ Cabinet Front Panel Installation Guide

Attach Cabinet Front Panels to the Sun Fire Cabinet

♦ **Place the cabinet front panels as close as possible next to the system chassis, and secure the panels by tightening the screws on the left and right front of the cabinet.**

Attach the cabinet front panels so that no gaps appear between the panels. If the panels cannot completely fill in the area above the system, make sure the gap appears at the top of the cabinet, away from the system.

Note – The cabinet front panels are not simply cosmetic, they prevent hot air expelled from the rear of the cabinet from reentering the system from the front.

Accessing Sun Documentation Online

The `docs.sun.com`^{SM} web site enables you to access a select group of Sun technical documentation on the Web. You can browse the `docs.sun.com` archive or search for a specific book title or subject at:

`http://docs.sun.com`

Ordering Sun Documentation

Fatbrain.com, an Internet professional bookstore, stocks select product documentation from Sun Microsystems, Inc. For a list of documents and how to order them, visit the Sun Documentation Center on Fatbrain.com at:

`http://www.fatbrain.com/documentation/sun`

Sun Welcomes Your Comments

Sun is interested in improving its documentation and welcomes your comments and suggestions. You can email your comments to Sun at:

`docfeedback@sun.com`

Please include the part number (816-0557-10) of the document in the subject line of your email.
