This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this software or related documentation is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, the following notice is applicable:

U.S. GOVERNMENT RIGHTS Programs, software, databases, and related documentation and technical data delivered to U.S. Government customers are "commercial computer software" or "commercial technical data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, duplication, disclosure, modification, and adaptation shall be subject to the restrictions and license terms set forth in the applicable Government contract, and, to the extent applicable by the terms of the Government contract, the additional rights set forth in FAR 52.227-19, Commercial Computer Software License (December 2007). Oracle USA, Inc., 500 Oracle Parkway, Redwood City, CA 94065.

This software is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications which may create a risk of personal injury. If you use this software in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure the safe use of this software. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software in dangerous applications.

Oracle is a registered trademark of Oracle Corporation and/or its affiliates. Other names may be trademarks of their respective owners.

This software and documentation may provide access to or information on content, products and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services.

Oracle Tuxedo 10g Release 3 (10.3) for IBM i 6.1 Release Notes

Oracle Tuxedo 10g Release 3 (10.3) for IBM i 6.1
Date: April 2010

Table 1 Revision History

Revision Date	Summary of Change
April 2010	GA Release

This document contains release notes for the Oracle Tuxedo 10g Release 3 (10.3) Release for IBM i 6.1. It includes the following topics:

Note: IBM i is formerly known as i5/OS or OS/400.

- [Installation](#)
- [Scope](#)
- [Known Issues](#)
- [Online Documentation](#)

Installation

Oracle Tuxedo 10g Release 3 (10.3) for IBM i 6.1 is distributed in a .ZIP file. Before installation, extract this file to any directory and then start the installation.

For more information, see the [Oracle Tuxedo 10g Release 3 \(10.3\) for IBM i 6.1 Users Guide](#).

Scope

This Oracle Tuxedo 10gR3 for IBM i 6.1 release supports all Oracle Tuxedo 10gR3 features generally available to all open systems, excluding the following:

- MQ Adapter is not supported on IBM i 6.1 (IBM MQSeries limitation)
- Cert-C PKI Plug-in security is not supported
- Kerberos authentication is not supported
- CORBA is not supported

Known Issues

- Message priority maybe unstable according to OS bug (PMR 55341(DAR) - `msgrcv()` not retrieving correct message type).
- SSL maybe unstable according to LDAP bug on IBM i 6.1 (PMR 59512 (JGA) - `ldap_url_parse`).

Online Documentation
