

Oracle Agile Engineering Data Management

- Bug Fixes for Agile e6.1.2.2

March 9, 2012

Part No. E28807-01

Agile e6.1.2.2 - Development

BUG ID	Product ID	Component	Subject
7108414	4436	BAS	11158 Office Suite version copy T_GDM_SYS.NAME 'UNKNOWN'
8606047	4436	CLI	Mask of multi-level structure explosion not displayed correctly in Java Client
9437166	4436	BAS	Increasing performance when using FMS with CAD connectors
9671013	4436	CLI	Java Client does not display button menu in view mode
9926671	4436	CLI	Userexit LNG_EDT_FLD not supported in the Java Client – functionality missing
9975892	4436	DOC	Slow performance file checkout server (XFILE_CHK_OUT /SERVER) Linux
10093064	4436	CLI	Umlauts in mail text sent by EXM_SND_EXT on client side are not correct
10129925	4436	CLI	Java Client: the language button of a multi-language field should be deactivated
10193342	4436	DOC	Property exchange over WAN should be done in one request to EDM server
10222034	4436	CLI	Inserting more than one line into a list: cursor jumps to the top
10273525	4436	CLI	Copy and paste from Excel field adds CR/LF
10274559	4436	BAS	Java Client does not suppress tab protected with task like Windows Client
10311521	4436	BAS	Java Client: float field can be left even if value is too big
10315644	4436	BAS	Cannot delete class – attribute assignment
10316165	4436	BAS	Logic error of value check on classes
10316519	4436	BAS	Constraint relation is not created if field is not left before record is stored
10331768	4436	CLI	Every line of a structure explosion list displays the same information
10339625	4436	BAS	Query form defect if mask contains field with recursive widget
10349735	4436	CLI	LogiView function FIELD_TOUCHED returns false in a date field
10354194	4436	CHG	Monster mask closes when check returns an error
10359041	4436	CLI	Reserved documents, internal browser

10377182	4436	CLI	FIELD_WRITE into several masks: Java Client does not display the value correctly
10389385	4436	BAS	Files with a single quote in their name cannot be viewed with XAPP_EXC
10405490	4436	CLI	Only 11 Java Clients can provide an ECI-Port
10406520	4436	INSTALL	Managed server not always available after reboot
10418369	4436	BAS	User not locked after entering a wrong password three times DTV-PWD-NUM-FAI-CNT
10622315	4436	DOC	PDF generation does not recover from file access error, needs restart
11063510	4436	ORG	MOA active for manager user after file check in
11063940	4436	CLI	Search in combined form executes selects for all previous opened tabs (sublists)
11653532	4436	CLI	Webstart warning: JNLP file not signed
11654359	4436	BAS	Opening a modal widget freezes the application
11656812	4436	DOC	Wrong version and copyright information while starting the fileserver
11660998	4436	CHG	System variables are not set after verifying CPS
11666933	4436	BAS	ECI callbacks not processed in correct order
11684543	4436	CLI	Exception in application server logfile (Function BRW_ENT) with the Web Client
11693439	4436	CLI	Check string A causes message ... Error at conversion of field .. for µ sign
11713842	4436	CHG	Actual flag at predecessor is deleted on release of successor with Change Management
11714339	4436	CHG	Server crash when solution space was opened for certain record(s)
11724978	4436	DOC	Fastload function ECI_CKO_FIL_LST error "Exception caught during bulk check-out"
11728260	4436	CLI	Java Client: The multi-language mask is not practicable
11733184	4436	CHG	Customer functions 'Strukturprüfung' and 'Kopfverprobung' cause server crash
11773859	4436	CLI	Hyperlinks in a list with blobs not located correctly
11779663	4436	VIEW	Java daemon high load and delays because of scan of public processes for viewer
11788663	4436	CLI	AutoCAD integration ECISERVERPLUGIN could not open ECI connection - refused
11793790	4436	DOC	VC suffix problem by calling FMS client on Unix
11794345	4436	BAS	Invalid ticket on high load external ECI connections
11801860	4436	CLI	Quick filter make query works incorrectly
11802965	4436	CLI	Java Client: XGROUP_LIS(/SUBLIS) not working when called from a button
11803763	4436	CLI	Configured list layout and auto filter do not work together
11812715	4436	BAS	Memory leak in encryption layer
11812758	4436	CLI	FILE_CHOOSE does not handle umlauts correctly with Java Client, Windows Client

11825789	4436	CLI	Java Client 6.1.1.46: certain masks cannot be updated anymore
11829992	4436	ORG	MOA: 'PROJECTS TO DISPLAY' shows organization from invalid / outdated jobs
11835555	4436	EXCH	Running EIP(2.2.1)/SAP-Connector with SAPJCO 2.1.9 as service is not working
11844653	4436	DOC	PDF generation cannot handle*.TXT files, "ERROR: PRINT-ERROR 1" appears
11867300	4436	CHG	Undo for BOM change operation - error "XCHG_LOG_OPR_UND" invalid row number
11868235	4436	CLI	Internal structure browser selects all records
11886113	4436	BAS	Invalid snapshot in database during blob creation by the EIP
11886645	4436	TEC	Change password hashing from SHA-0 to SHA-1
11886776	4436	CHG	Monster mask: visibility of a relation field influences setting of default or ***
11886820	4436	BAS	XDIFF_START_MMN leads to client crash if only one record is selected
11895992	4436	DOC	Error check-in original mindmanager files with 4-digit-extension in Office Suite
11929814	4436	BAS	Default EDB-VER-INCREMENT to 'A', initial value "-" not changed to "A"
11929835	4436	BAS	ECI_GET_Dfv returns function name ECI_GEA_Dfv
11932720	4436	BAS	ECI_INS_ENT leads to memory leak, DTV does not free mask memory
11933130	4436	BAS	Access not checked in Java Client when inserting into the history by ECI
11933432	4436	CLI	Userexit XFILE_SEL_FIL not working in Java Client when LVF mask was opened
11933608	4436	CLI	Wrong copyright and wrong browser version error message
12312575	4436	CLI	Opening masks by LogiView does not fill all fields in remote location
12317108	4436	VAR	Verify BOM position EP_CPS_VRF_COUNT not initialized if verification fails
12328647	4436	BAS	Purify reports memory leak in ECI_WDG_XSL
12333918	4436	DOC	Dragdrop of an Office file to the Office Suite form is no more working properly
12334982	4436	BAS	Correct PLM ticket verification
12346264	4436	BAS	Memory leak in ECI_LOA_CAX
12351233	4436	BSL	Parameter/refresh for FIELD_WRITE does not work outside of edit mode
12354044	4436	ORG	First insert into T_DOC_DAT with existing C_ID leads to index issue
12355778	4436	CLI	ECI_INS_ENT EDB-ART-CFR Java Client hangs, is blocked
12365311	4436	BAS	Integer values are rounded in the classification list if they are quite big
12365417	4436	BAS	Memory leak XFILE_SEL_FIL, MAS_COP_FLD, BSF_SET_ATT
12365522	4436	DOC	Fileserver blocks ports if FMS-CLI-DLL=FALSE

12369854	4436	CLI	Java Client: auto complete function behaves unexpectedly in classification list
12379721	4436	BAS	Server crash after FIELD_WRITE with large row number
12406508	4436	CLI	Store list layout feature broken if there are duplicate column titles
12406734	4436	CLI	ECI function ECI_ASE_LOA does not work
12424722	4436	BAS	Structure explosion ignores max number of records for mask
12529388	4436	DB	When loading an assembly using DB-PACKAGE CAX_STRUCTURE_PKG one file is missing
12543599	4436	EXCH	File check-in error no such callable: ECI_FMS_GET_CER communication error [ERR=53]
12550836	4436	BAS	LDAP encryption to Microsoft active directory not working correctly
12560330	4436	DOC	Fileserver is losing ports in RPC-LAYER
12565549	4436	CLI	Null pointer exception after updating all rows in a list
12571543	4436	CLI	Java Client connection pool needs to be configurable
12571550	4436	DOC	FMS Client crashes during fastload bulk checkout
12571854	4436	INS	Missing check for PLM.FMSJAVADAEMON.*
12575712	4436	BSL	LogiView function / userexit substituting TCL function LNG_RET_ACT_SYS missing
12576547	4436	WFL	Start userexit from sub-process not fired when starting main process
12576823	4436	CLI	With HF 54 Java Client DDE_COM and DDE_COM_WAI return without doing anything
12584917	4436	DOC	Wrong order of pre-action userexit in EDB-DOC-FIL-RLI-C in reference dump
12590044	4436	CLI	LogiView procedures not executed in query mode of a modal widget in Java Client
12594948	4436	DOC	File in vault not found if any pre-action trigger aborts
12599899	4436	BAS	Dragdrop adds BOM position to a released item as unprivileged user
12606884	4436	CLI	Scrolling in a combined head form allowed although a sub-mask is in edit mode
12620038	4436	BAS	XCPY_STR does not copy all aggregate relations when EDB-CRM-NULL=1 (global view)
12640785	4436	EXCH	Several sessions of the same user with blob creation (EIP loopback) not working
12641105	4436	CLI	Login mask of the Java Client does not display the given parameters correctly
12641422	4436	CLI	Message window does not always open when a new message is generated
12674698	4436	CLI	Starting via URL starts a new Java Client instead of using the running client
12677966	4436	ORG	Access rule is not executed from a status change directly after startup
12696392	4436	CLI	Auto complete (preselect) of drop down values does not work in query mode

12700326	4436	CLI	XUTIL_FRM_LIS: double click on list sets all records into update mode
12722963	4436	INSTALL	The Weblogic CONFIG.XML in the application domain is not valid
12754396	4436	CLI	DAL_WIDGETREFRESHONCLIENT does not work anymore
12755868	4436	INS	Admin tool should print warning on changes of the domain
12755873	4436	INS	10FF:12755868: admin tool should print warning on changes of the domain
12773260	4436	DOC	Cannot get file with web fileserver for Java webstart on DFM
12779500	4436	CHG	CM Module: function CMG_DEL not working properly
12800746	4436	EXCH	PLM connector file transfer PLM1 to PLM2 – connector exception
12839199	4436	UPG	Upgrade tool script CHECK_EDB_CRM_NULL.SQL does not filter out all necessary objects
12896546	4436	CLI	Insert more than one line in constraint sub-list stores only last record to DB
12896854	4436	BAS	TICKETLIFETIME="0" not working after installation of patch 6.1.2_12554672
12927666	4436	ORG	Weblogic permission manager LogiView system variable EP_ROL_PRO empty
12934615	4436	INS	VCREDIST is not automatically installed
12934839	4436	DB	'XASE_SHW_HIE' (SQLEXCEPTION EDB_ASE.EXPLODE_PROE ,DB-ERROR-CODE: -20008)
12939971	4436	BAS	EXM_SND_EXT does not write debug information to a file
12949059	4436	CLI	Pressing return key in an updated field changes first character into capital
12951441	4436	INS	Wrong options in the GUI installer
12956005	4436	BAS	HF62: procedure EP/INSERT_STR is called in status change for history records
12999207	4436	BAS	TPR_DOC_ART_POA parameter /INS=200100 does not create item with Java Client
13017535	4436	DOC	Server crash if document contains file with long file name (101 characters)
13023706	4436	WSI	CORE WS GETRELATIONS should support type relations
13035046	4436	DOC	Compressed files in FMS security area
13060660	4436	BAS	LDAP cannot handle special characters in password correctly
13063548	4436	BAS	Reserved document can be updated with ECI_DUP_TYP but no copy possible
13065129	4436	BAS	Selection menus (drop down) cannot handle leading blanks in the Java Client
13068066	4436	DOC	Office Suite: drapdrop of files to the files tab does not change file type
13071408	4436	DOC	Office Suite 2010 on Windows 7 / XP only running correct for installation user
13091814	4436	DOC	Office Suite, GDM_MSG_005 causes deletion of new picked file without check-in

13106817	4436	BSL	Missing include compile warning a value of type "INT" cannot be assigned to an "
13107503	4436	WFL	Business service stops sending mails – log file error unknown SMTP hosts
13107679	4436	WFL	Watchdog no mails error fatal: exception during processing urgent activities! Co
13242724	4436	CLI	Java Client auto complete has still some issues with SML (HF 65)
13248500	4436	DOC	Inconsistency between information in database and file vault
13256271	4436	CLI	Java Client: CCH_SKP_FLD not working in query and view mode
13260715	4436	UPG	Error when opening upgraded favorites/stored queries in the Java Client
13375827	4436	DOC	Office docs generated with files attached even if no template has been specified
13385976	4436	WFL	Work item activity description text missing in REMINDER2 mail process responsible
13386066	4436	WFL	New work item Workflow notification message mail text wrong languageE
13392628	4436	DOC	Office Suite MS Office save to PLM error creating ECI connection
13395390	4436	WSI	Metadata service should return multilanguage flag
13414040	4436	CLI	DAL_MDL_WDG_OPN allows update of record without access
13502495	4436	BAS	ECI_CRM_TYP check rule You do not have the permission for task "STD-DOC-110-120"
13523844	4436	BAS	Server crash while editing LogiView GDMLINK/OBJSELECT line 370
13575964	4436	BAS	Server side external mail EXM_SND_EXT /Mailer=Notifier corrupts attachment
13596250	4436	CLI	ECI_INS_ENT EDB-ART-CFR Java Client hangs, is blocked.
13621958	4436	EXCH	EIP 2.2.2 configuration not working with web service connector
13626461	4436	BAS	Memory usage of server process AXALANT.EXE raises when executing ECI_UPD_ENT

AutoVue Integration

BUG ID	Product ID	Component	Subject
11660231	5681	3DEMPRO	Cannot view file for a 3D assembly file if stored in EIFF vault
11700565	5681	3DEMPRO	No check-in of metafiles in defined vault while using DFM
12654998	5681	3DEMPRO	Do some markup and do not save, exit viewer mode, save markup follow MSG, failed
12655149	5681	3DEMPRO	Cannot save markup file when a document is in release status
12727080	5681	3DEMPRO	Viewer window in non-SDI mode only once usable
12741396	5681	3DEMPRO	XPVM_MRK_DOC works in combined forms only
12764347	5681	3DEMPRO	Java Client, select record via mouse not working correctly after close of viewing

12767938	5681	3DEMPRO	No error/ warning message if a user tries to open more than 5 AutoVue windows
13497026	5681	3DEMPRO	After close re-open a session a 2D file cannot be viewed – message: Null
13497091	5681	3DEMPRO	MDI mode with several viewer markup changes are lost in case session closes
