Chapter 1
Preface

The *Oracle Tax Analytics Installation Guide* describes the requirements and steps necessary to install Oracle Tax Analytics.

**Audience**

Oracle Tax Analytics Installation Guide is intended for system administrators installing Oracle Tax Analytics. To use this document you should have:

- Experience installing and configuring application servers and other software
- Administrative privileges on the host where you are installing the software

**Documentation and Related Resources**

Oracle Tax Analytics Installation Overview

This guide provides a high-level overview of the installation steps for Oracle Tax Analytics version 2.0.0.0.0 and selected additional software. For more information, see the Oracle Tax Analytics Installation Guide.

Contacting Oracle Support

Visit My Oracle Support (http://support.oracle.com) for the most recent service packs and patches for this release.

Refer to Oracle Patch 14637277 for any updates to this document.
Chapter 3

Media Pack Contents

The Oracle Tax Analytics Media Pack contains the following documents:

- Oracle Tax Analytics Release 2.0.0 Release Notes
- Oracle Tax Analytics Release 2.0.0 Quick Install Guide
- Oracle Tax Analytics Release 2.0.0 Installation Guide
- Oracle Tax Analytics Release 2.0.0 Reference Guide
- Oracle Tax Analytics Release 2.0.0 Implementation Guide
- Oracle Tax Analytics V2.0.0.0.0 Installation Package

Chapter 4

Additional Software Requirements

The following software products are required to run Oracle Tax Analytics, but are not included in the media pack:

- Oracle Business Intelligence Enterprise Edition 11.1.1.6.0
- Oracle Data Integrator 11.1.1.6.0
- Oracle Database Server Enterprise Edition 11.2.0.2

You must separately license and install the software listed above. For more information on the content of each licensed Oracle Tax Analytics product, see the Licensing and Packaging Guide section of the *Oracle Tax Analytics Release Notes.*
Chapter 5
Components for Oracle Tax Analytics

The Oracle Tax Analytics V2.0.0.0.0 Installation Package includes the following components:

- Oracle Data Integrator master repository
- Oracle Data Integrator work repository
- Foundation schema
- Star Schema
- Data Mining schema
- System data
- OBIEE RPD file
- OBIEE Web catalog
- OBIEE Writeback file
- Documentation
Chapter 6

Architecture Overview

This section describes the recommended architecture of an Oracle Tax Analytics environment.

**Tier 1: Browser-Based Client/Oracle Data Integrator Java-Based Client**

Oracle Tax Analytics has a Web browser-based client and standalone Java client. The client that you choose depends on the user role or activity.

Business users can use a browser-based client to access Oracle Tax Analytics. Oracle Tax Analytics is deployed on Oracle Business Intelligence Enterprise Edition 11g, which supports various operating system and Web browser combinations.

Administrators and developers can use the browser-based client for managing Oracle Business Intelligence Enterprise Edition. To manage the Oracle Data Integrator, a standalone Java client is available in addition to the browser-based client.

Oracle Business Intelligence Enterprise Edition and Oracle Data Integrator support various operating systems and Java Development Kit combinations.

*Note:* For complete and up-to-date information on Oracle Business Intelligence Enterprise Edition 11g and Oracle Data Integrator 11g supported platforms, visit the Oracle Technology Network at [http://www.oracle.com/technetwork/middleware/ias/downloads/fusion-certification-100350.html](http://www.oracle.com/technetwork/middleware/ias/downloads/fusion-certification-100350.html)

**Tier 2: Middle Tier/Application Server**

Oracle Tax Analytics uses Oracle Data Integrator for EL-T and to build facts and dimensions. Please refer to Oracle Data Integrator 11g documentation for additional details.

Oracle Tax Analytics uses Oracle Business Intelligence Enterprise Edition for dashboards and reports. Please refer to Oracle Business Intelligence Enterprise Edition 11g documentation for additional details.

**Tier 3: Database Server**

Oracle Tax Analytics uses Oracle Database to store the Analytics Data. It supports Oracle Database Server Enterprise Edition 11gR2 (11.2.0.2).
**Recommended Architecture for Oracle Tax Analytics**

Per the Oracle Data Integrator recommendation, the ODI Master and Work repositories to be created in the same database as Oracle Tax Analytics warehouse.

The following diagram shows the recommended architecture for Oracle Tax Analytics:
Chapter 7

Supported Platforms

This section describes the supported environments under which Oracle Tax Analytics operates, as well as information about hardware and software requirements.

**Oracle Business Intelligence Enterprise Edition Requirements**

Oracle Tax Analytics supports Oracle Business Intelligence Enterprise Edition version 11.1.1.6.0. It supports the operating systems on which Oracle Business Intelligence Enterprise Edition is certified.

For complete and up-to-date information on Oracle Business Intelligence Enterprise Edition 11g supported platforms, visit the Oracle Technology Network at [http://www.oracle.com/technetwork/middleware/ias/downloads/fusion-certification-100350.html](http://www.oracle.com/technetwork/middleware/ias/downloads/fusion-certification-100350.html)

**Oracle Data Integrator Requirements**

Oracle Tax Analytics supports Oracle Data Integrator 11.1.1.6.0. It supports the operating systems on which Oracle Data Integrator is certified.

For complete and up-to-date information on Oracle Data Integrator 11g supported platforms, visit the Oracle Technology Network at [http://www.oracle.com/technetwork/middleware/ias/downloads/fusion-certification-100350.html](http://www.oracle.com/technetwork/middleware/ias/downloads/fusion-certification-100350.html)

**Oracle Database Requirements**

Oracle Tax Analytics supports Oracle Database Server Enterprise Edition 11gR2 (11.2.0.2). It supports the operating systems on which Oracle Database is certified.

For complete and up-to-date information on Oracle Database11g supported platforms, visit the Oracle Support website at [https://support.oracle.com/](https://support.oracle.com/) and click the Certifications tab.

**Oracle Tax Analytics Installer Requirements**

The Oracle Tax Analytics installer will run on any platform which is certified to run Java Runtime Environment (JRE) 1.6 or above. The JRE 1.6 or above must be installed on the same machine where the installer will be running. The installer also requires Oracle Data Integrator 11.1.1.6.0 Software Development Kit (SDK), which must be installed on the same machine where installer will be running.
Hardware Requirements

This section describes minimum Oracle Tax Analytics hardware requirements.

<table>
<thead>
<tr>
<th>Description</th>
<th>Requirements</th>
</tr>
</thead>
<tbody>
<tr>
<td>Oracle Tax Analytics Installer</td>
<td>• 1 or more 2GHZ CPUs</td>
</tr>
<tr>
<td></td>
<td>• 1 GB of RAM</td>
</tr>
<tr>
<td></td>
<td>• 500 MB of disk space</td>
</tr>
<tr>
<td>Oracle Data Integrator Java-Based Client</td>
<td>• 1 or more 2GHZ CPUs</td>
</tr>
<tr>
<td></td>
<td>• 1 GB or RAM</td>
</tr>
<tr>
<td></td>

</tr>
<tr>
<td>Oracle Business Intelligence EE</td>
<td>• 2 or more 2GHZ CPUs</td>
</tr>
<tr>
<td></td>
<td>• 4 GB of RAM</td>
</tr>
<tr>
<td></td>
<td>• 10 GB disk space</td>
</tr>
<tr>
<td>Oracle Database Enterprise Edition</td>
<td>• 2 or more 2GHZ CPUs</td>
</tr>
<tr>
<td></td>
<td>• 4 GB of RAM</td>
</tr>
<tr>
<td></td>
<td>• 10 GB disk space</td>
</tr>
</tbody>
</table>

See the Oracle Database Enterprise Edition, Oracle Data Integrator and OBIEE documentation for detailed hardware requirements.

Client Requirements

Oracle Tax Analytics administrators and developers must have either a Windows or Linux machine to run the Oracle Data Integrator Java client and a browser-based client for managing Oracle Business Intelligence Enterprise Edition environments. Though it is not mandatory to have Oracle client connectivity software for administrators and developers, Oracle 11g Client is the minimum required version to connect to the databases.

Business analysts accessing the Oracle Tax Analytics presentation layer must have a browser-based client. This is typically a Windows XP or higher machine with a supported Web browser. Please refer to the following table for details:

<table>
<thead>
<tr>
<th>Client Type</th>
<th>Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>Oracle Tax Analytics Installer</td>
<td>Windows or Linux/Unix OS with JRE 1.6 or above and ODI 11.1.1.6.0 SDK installed</td>
</tr>
<tr>

<tr>
<td>Oracle Business Intelligence Enterprise Edition</td>
<td>Refer to Oracle support site for complete list of supported platforms*</td>
</tr>
<tr>
<td>Oracle Client Software (optional)</td>
<td>Oracle 11g Client</td>
</tr>
</tbody>
</table>

Support for Virtualization and Virtual Machines

Oracle Tax Analytics may be used with VMware virtualized environments consistent with the policy for other Oracle products as stated in Support Note 475484.1 available on My Oracle Support (http://support.oracle.com). For information on Oracle VM, see Support Notes 464756.1 and 464754.1 on My Oracle Support.

Supported Databases for Oracle Tax Analytics

Oracle Tax Analytics supports only Oracle Database Enterprise Edition 11.2.0.2. The database may be hosted on any platform on which it is certified. For more detail on Oracle Database Enterprise Edition, visit the Oracle Technology Network at http://www.oracle.com/technetwork/database/enterprise-edition/downloads/index.html

The supported database character set is AL32UTF8.

Supported Databases for Oracle Data Integrator Repositories

Oracle Tax Analytics supports ODI repositories on Oracle Database Enterprise Edition 11.2.0.2. For more detail on Oracle Data Integrator supported platforms, visit the Oracle Technology Network at http://www.oracle.com/technetwork/middleware/ias/downloads/fusion-certification-100350.html

The supported database character set is AL32UTF8.
Chapter 8
Installing Oracle Tax Analytics

This section provides high level steps for installing Oracle Tax Analytics. For detailed installation information, see the Oracle Tax Analytics Installation Guide.

To install Oracle Tax Analytics V2.0.0.0.0:
1. Install database server software.
2. Create a database for Oracle Tax Data Model Schema, Data Mining Schema and Oracle Data Integrator repositories.
5. Import the Oracle Data Integrator Work repository using the Oracle Tax Analytics installer.
6. Install Oracle Tax Data Model and Data Mining schema objects using the Oracle Tax Analytics installer.
8. Install Oracle Business Intelligence Enterprise Edition software.
9. Deploy OBIEE RPD into OBIEE environment.
10. Deploy OBIEE Web catalog into OBIEE environment.
12. Setup OBIEE users.
13. Configure Map Viewer to support map views in OBIEE.
15. Configure agent.

The following diagram provides an overview of the steps that need to be taken to install and configure Oracle Tax Analytics:
1. Download Oracle Business Intelligence EE 11.1.6.0
2. Install Oracle Business Intelligence EE 11.1.6.0
3. Deploy Oracle Tax Analytics WebCatalog, RPD and Writeback file
4. Setup OSHBEE users
5. Configure Map Viewer
6. Download Oracle Data Integrator 11.1.6.0
7. Install Oracle Data Integrator 11.1.6.0
8. Configure Oracle Data Integrator Agent
9. Download Oracle Database EE 11.2.0.2
10. Install Oracle Database EE 11.2.0.2
11. Create Oracle Tax Analytics Database
12. Create Database Users and Tablespaces
13. Install Master and Work Repositories using Oracle Tax Analytics Installer
14. Install CTDM and Data Mining Schemas using Oracle Tax Analytics Installer
15. Install System Data using Oracle Tax Analytics Installer
16. Test the Application
