## OVERVIEW

Oracle Insurance Calculation Engine (OICE) is a next-generation, flexible, rules-based insurance solution for life and annuities that supports policy processing across multiple lines of business. OICE greatly enhances ease of use and speed for business analysts, actuaries and others involved in the product configuration process. Robust navigation also makes it easy for users, including CSRs, to locate policy information and drill down into a granular level of customer detail. This allows insurers to respond more rapidly to customer inquiries, reduce call times and improve customer service.

## CUSTOMER SUPPORT
