# TABLE OF CONTENTS

## CHAPTER 1 : LOGGING ON

Logging on . . . . .	1-1
Changing passwords . . . . .	1-4
Resetting passwords . . . . .	1-5
Logging off . . . . .	1-6

## CHAPTER 2 : ENTERING AN APPLICATION

Entering a credit application (an overview). . . . .	2-2
Viewing an application in Oracle Daybreak . . . . .	2-3
Entering an application without an image. . . . .	2-5
Completing the Application Entry form's master block . . . . .	2-6
Entering primary applicant information . . . . .	2-8
Entering other applicant information. . . . .	2-16
Entering business applications (SME Lending) . . . . .	2-17
Entering credit request details . . . . .	2-25
Entering the collateral information . . . . .	2-30
Validating a credit application. . . . .	2-34
Processing a credit application. . . . .	2-35
Returning to an unfinished application . . . . .	2-35

## CHAPTER 3 : SEARCHING FOR APPLICATIONS

Loading applications using queues . . . . .	3-1
Using the Search page . . . . .	3-2
Search criteria . . . . .	3-4
Copying an application . . . . .	3-14
Archive / Purge feature. . . . .	3-17

## CHAPTER 4 : UNDERWRITING

Underwriting with Oracle Daybreak (an overview) . . . . .	4-2
Loading an application on the Underwriting form . . . . .	4-3
Underwriting form's master block . . . . .	4-5
Verifying applicant information . . . . .	4-6
Verifying business information . . . . .	4-12
Verifying credit bureau data . . . . .	4-18
Verifying collateral information . . . . .	4-25
Calculating debt ratios . . . . .	4-29
Manually requesting a credit bureau report . . . . .	4-31
Manually rescoring a credit bureau report . . . . .	4-33
Entering comments. . . . .	4-34

Entering tracking attributes . . . . .	4-35
Viewing an image . . . . .	4-36
Making a decision about an application . . . . .	4-38
Completing the Stipulations sub page . . . . .	4-40
Copying stipulations . . . . .	4-41
Loading stipulations . . . . .	4-41
Completing the Itemization sub page . . . . .	4-42
Completing the Checklist sub page . . . . .	4-43
Completing the Trade-In sub page . . . . .	4-43
Completing the Subvention sub page . . . . .	4-45
Completing the Multiple Offers sub page . . . . .	4-46
Changing the status of the application . . . . .	4-47
Verifying edits . . . . .	4-47
Viewing audits . . . . .	4-49
Viewing Status History . . . . .	4-50
Rehashing an application . . . . .	4-51
Aging an application . . . . .	4-52

## **CHAPTER 5 : ORACLE DAYBREAK TOOLS**

Using the Lease Calculator page (Tools master tab) . . . . .	5-2
Using the Calculator Tools form's Lease Calculator page . . . . .	5-6

## **CHAPTER 6 : FUNDING**

Funding with Oracle Daybreak (an overview) . . . . .	6-2
Loading an application on the Funding form . . . . .	6-2
Funding form's master block . . . . .	6-3
Changing the status to begin the funding process . . . . .	6-4
Verifying applicant information . . . . .	6-5
Viewing underwriting information . . . . .	6-10
Verifying the collateral . . . . .	6-14
Adding comments . . . . .	6-17
Entering tracking attributes . . . . .	6-18
Viewing an image . . . . .	6-19
Completing the Contract (5) (truth-in-lending details) pages . . . . .	6-21
Completing the Contract (5) (truth-in-lending details) sub pages . . . . .	6-23
Itemization sub page . . . . .	6-25
Trade-In sub page . . . . .	6-27
Insurance sub page . . . . .	6-28
ESC sub page . . . . .	6-30
Compensation (lease) sub page . . . . .	6-31
Subvention sub page . . . . .	6-32
Proceeds sub page . . . . .	6-34
Fee sub page . . . . .	6-35
ACH sub page . . . . .	6-36
References sub page . . . . .	6-37
Checklist sub page . . . . .	6-38
Verifying an application's contract edits . . . . .	6-39
Viewing audits . . . . .	6-40

Viewing Status History . . . . .	6-41
Funding of an application . . . . .	6-42
 <b>CHAPTER 7 : SALES LEAD FORM</b>	
Completing the Sales Lead page . . . . .	7-1
Completing the Telecoms sub page . . . . .	7-2
Completing the Comments sub page . . . . .	7-3
Completing the Documents sub page . . . . .	7-4
Completing the Requests sub page . . . . .	7-5
Completing the Follow-up page . . . . .	7-6
Completing the Maintenance page . . . . .	7-8
 <b>CHAPTER 8 : IMAGE MAINTENANCE / DOCUMENT TRACKING</b>	
Application Image Maintenance page (Image Maintenance form) . . . . .	8-2
Splitting an image . . . . .	8-4
Changing the status of an image . . . . .	8-4
Attaching an image to an existing image . . . . .	8-5
Attaching an image to an existing credit application . . . . .	8-5
Printing an image . . . . .	8-6
Application Document Maintenance page (Image Maintenance form) . . . . .	8-7
Copy Document . . . . .	8-9
Move Document . . . . .	8-10
 <b>CHAPTER 9 : CORRESPONDENCE</b>	
Request page . . . . .	9-2
Samples of Oracle Daybreak LS predefined correspondence . . . . .	9-4
Origination: Decision fax/email . . . . .	9-4
Origination: Contract Funding fax/email . . . . .	9-5
 <b>CHAPTER 10 : USER PRODUCTIVITY</b>	
Viewing the Underwriting/Funding tasks . . . . .	10-2
Application Entry page . . . . .	10-2
Underwriting page . . . . .	10-3
Funding page . . . . .	10-4
Queues Status page . . . . .	10-5
 <b>APPENDIX A : ORACLE DAYBREAK INTERFACE</b>	
Oracle Daybreak's graphical user interface . . . . .	A-1
Windows and forms . . . . .	A-1
Form components . . . . .	A-9
Using colors as a guide . . . . .	A-14
Understanding parent-child relationships . . . . .	A-15
 <b>APPENDIX B : NAVIGATING AND QUERYING IN ORACLE DAYBREAK</b>	
Navigating within a form . . . . .	B-2
Navigating between forms . . . . .	B-3
Common Oracle Daybreak tasks . . . . .	B-3
Printing a form . . . . .	B-3
Saving your entry . . . . .	B-4
Editing data . . . . .	B-4

Creating and deleting records .....	B-7

Enter-Query mode .....	B-17
Query/where .....	B-18
Query count .....	B-19
Hot keys .....	B-20

## **APPENDIX C : PAYMENT AMOUNT CONVERSIONS**

\_\_\_\_\_

This chapter explains how to:

- Log on to the Oracle Daybreak system
- Change a password
- Reset a password
- Log off from the Oracle Daybreak system.

████████████████████

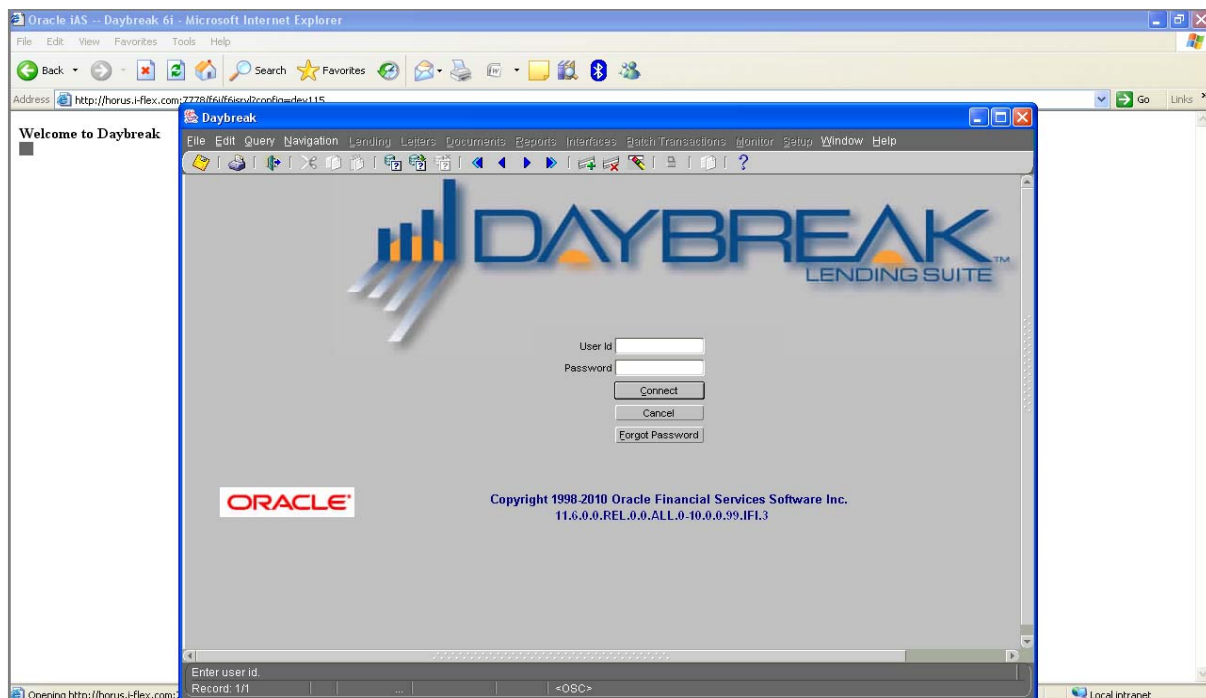

At the beginning of each Oracle Daybreak session and prior to working with any application, you must log on at your workstation. Oracle Daybreak then allows you to “enter” the system and open the programs available according to your level of responsibility. To log on to Oracle Daybreak, you need to have your own user id and password. Each user id is attached to a responsibility level, or “profile,” that controls the user’s access to various areas of the system. Your user id is associated to all the applications you process.

The ability to log on is automatically disabled after a specified number of days of inactivity. The user id and password required to log on to Oracle Daybreak may be different from the user id and password used to log on to your computer or network. If you are unsure of your user id and password for Oracle Daybreak, contact your system administrator.

## To log on to the Oracle Daybreak system

- 1 Follow the guidelines for your business to launch the iAS window and begin a Oracle Daybreak session.

After starting Oracle Daybreak, the Login form appears.

- 2 In the **User Id** field, type your user identification name.

- 3 Press **TAB** to move to the **Password** field.  
-or-  
Click the **Password** field.
- 4 In the **Password** field, type your password.
- 5 Choose **Connect**.  
-or-  
Press **ENTER**.

**Note:** If you choose **Cancel**, Oracle Daybreak closes the Login form.

If your user id or password is inaccurate, Oracle Daybreak displays the following dialog box:

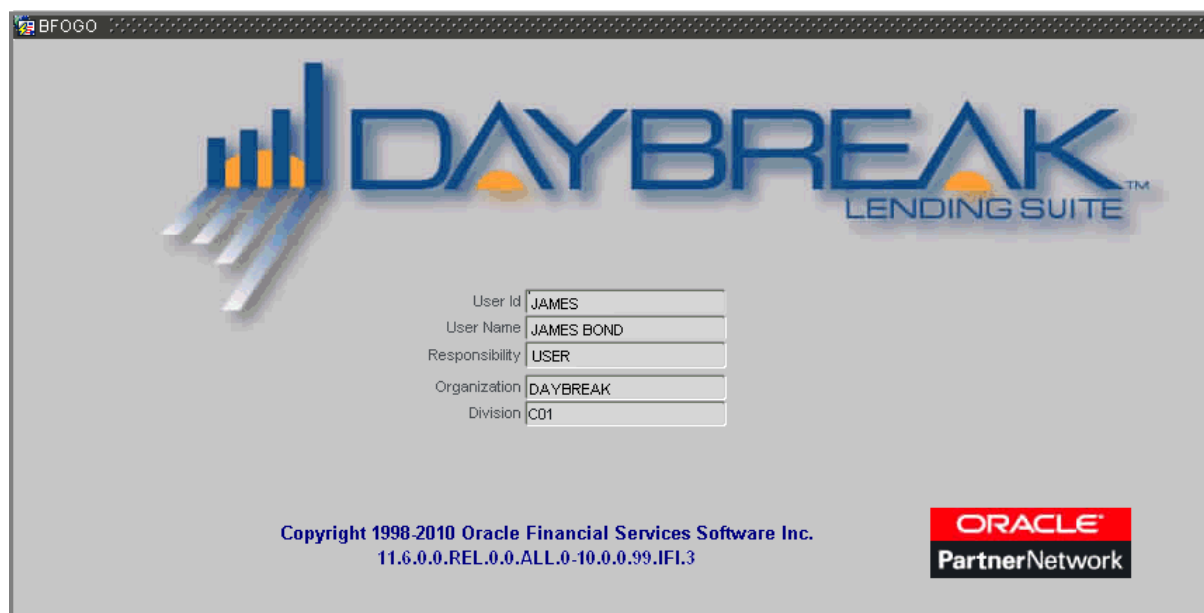

- Choose **OK** and retype your user id and password. If problems logging on persist, contact your system administrator.

**IMPORTANT:**

The length of a password is established during system setup. Special characters (&, @, #, \$, %, ^, &, \*, and so on) cannot be used to create a password. To prevent others from seeing your password, your password does not appear in the Password field as you type it. Instead, your keystrokes appear as asterisks (\*). Keep your password confidential to prevent access to Oracle Daybreak by unauthorized users.

If Oracle Daybreak recognizes your user id and password, the login form updates to display and automatically complete the User Id, User Name, Responsibility, Organization, and Division fields. Your user id appears as the title of the form.

When you successfully log on to Oracle Daybreak, the menu items available to your responsibility are available. (Whatever menu items are “unavailable” are visible, but dimmed.)

If you have not logged out of Oracle Daybreak, have an old Oracle Daybreak session open, or you did not correctly exit your previous Oracle Daybreak session, when you attempt to log in again, the following dialog box appears:

- Choose **Yes** to close your existing sessions.

**Note:** The majority of the time, you will choose **Yes**. Choose **No** only if you want to work with multiple Oracle Daybreak sessions.

## Changing passwords

Passwords will automatically expire after a period of time set by your system administrator. Oracle Daybreak notifies you of approaching password expiration dates with a message dialog box that appears after you log on.

### To change your password

- 1 Close all open Oracle Daybreak forms and return to the **User Id** form.
- 2 On the **File** menu, choose **Change Password**.

The Old Password, New Password, and Confirm New Password fields appear on the form, along with the Change Password and Cancel buttons.

The screenshot shows the Oracle Daybreak Lending Suite application window. The 'File' menu is open, and the 'Change Password' option is highlighted. A red arrow points from this menu item to the 'Old Password' field in the form. The form contains the following fields: User Id (JAMES), User Name (JAMES BOND), Responsibility (USER), Organization (DAYBREAK), and Division (C01). Below these are three password fields: Old Password, New Password, and Confirm New Password. At the bottom of the form are 'Change Password' and 'Cancel' buttons. The Oracle logo and 'PartnerNetwork' text are visible in the bottom right corner. Copyright information for Oracle Financial Services Software Inc. is at the bottom center.

- 3 In the **Old Password** field, type your old password and press **TAB**.
- 4 In the **New Password** field, type your new password and press **TAB**.
- 5 In the **Confirm New Password** field, retype your new password and choose **Change Password**.

Oracle Daybreak displays the following dialog box:

- 6 Choose **Ok**.

## Resetting passwords

Oracle Daybreak allows you to reset your password from the Login form by choosing the Forgot Password button. This command button can be used when:

- You forget your password
- You discover that your password is not working (as another user might have disabled or changed it)
- Oracle Daybreak disables your password after you entered the wrong password multiple times.

### To reset your password with the Forgot Password button

- 1 Close all open Oracle Daybreak forms and return to the **User Id** form.
- 2 In the **User Id** field, enter your user identification.
- 3 Choose **Forgot Password**.

Oracle Daybreak generates a random alphanumeric password and sends this new password to the email address listed in your record on the Administration form's Users page. Oracle Daybreak then displays a Forms dialog box with the message "Password Reset Successfully. You should receive the new password in your email shortly." You should receive the new password in your email shortly."

---

## Logging off

When exiting Oracle Daybreak, always use one of the following procedures:

- On the **File** menu, choose **Exit** or **Re-Logon**  
-or-  
On the **Oracle Daybreak** menu bar, choose **Exit**.  
-or-  
On the **Login** form, press **CTRL+Q**.

Oracle Daybreak closes the session and releases any applications you may have been working on.

**IMPORTANT:**

Do not choose the Close button on the Oracle Daybreak menu bar to end a Oracle Daybreak session.

## CHAPTER 2 : ENTERING AN APPLICATION

The first step in the lease origination process is entering credit application data into Oracle Daybreak. The Application Entry form allows you to enter information from the credit application into the Oracle Daybreak system and request a credit bureau report.

Credit applications are mailed or faxed to financial institutions indirectly through producers (or “dealers”) on behalf of the customer. These credit applications, if received as a fax, can be stored in Oracle Daybreak as images. The Application Entry form’s split screen allows you to view the application as an image in the upper list box while you enter the lease application on the form in the lower master block, pages, and sub pages.

Applications can be entered with images, or without.

This chapter explains how to use the Application Entry form to:

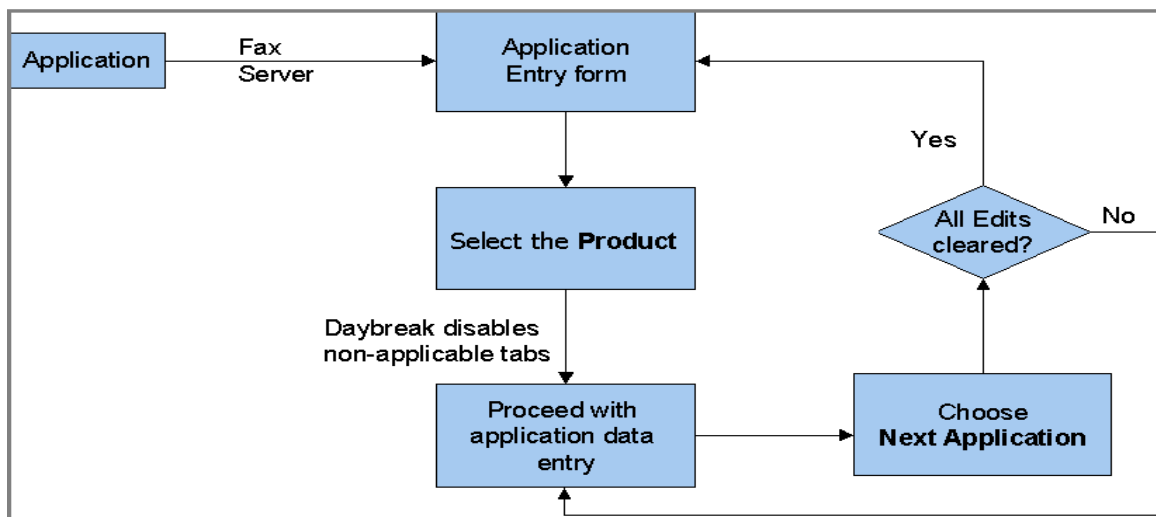

- View a credit application image
- Enter an credit application either with or without an image
- Validate a credit application
- Process a credit application.

### IMPORTANT:

In completing the Application Entry form, as well as all other forms in the Oracle Daybreak system, type your entry (or select it from an LOV when available), then press **TAB** to move to the next field. Pressing **TAB** will guide the cursor to the next appropriate field. (Pressing **SHIFT + TAB** moves the cursor back to the previous field). Pressing **ENTER** may not move the cursor, and using the mouse to do so may upset the logical order of entry process.

## Entering a credit application (an overview)

The following diagram depicts the workflow of entering applications into Oracle Daybreak:

There are four main steps in completing the Application Entry form:

- 1 Select the product type and producer in the Application Entry form's master block. The *product* defines the type of credit application: lease, as well as any collateral, such as vehicles or homes, associated with the lease. When you save the application, Oracle Daybreak dims the tabs on the Application Entry form that are not associated with the product, streamlining the application process. The *producer* is the dealer supplying the application.
- 2 Enter information regarding the primary applicant, such as name, social security number, address, place of employment, and financial assets and liabilities. Enter this same information for any other applicants, such as co-signers or joint applicants, if they exist.
- 3 Enter information about the requested credit for the line of lease, such as lease amount and number of terms.
- 4 Enter information about the collateral, if this is a secured credit request.

When finished, Oracle Daybreak checks the application for completeness using a pre-defined set of edits. These edits search for errors and warnings based on your system setup. These edits can be defined to check that specific fields are completed, as well as automatically change the status of the application based on its contents. For example, edits can be set up to automatically approve or reject an application based on a minimum salary of the applicant, or maximum age of asset. The prescreening checks ensure that automatic credit bureau reports are pulled only for applications which meet set criteria, thus saving cost.

After an application clears the edits check, choose Next Application. Oracle Daybreak begins the processes of prescreening the application and pulling a credit bureau while you can begin entering the next application in your queue.

## Viewing an application in Oracle Daybreak

If your company is using a fax server to receive applications, the first step is to open the application image with the Application Entry form.

### To view a credit application image

- 1 On the **Lending** menu, choose **Application Entry**.

An untitled Application Entry form appears.

- 2 Choose **Next Application**.

Oracle Daybreak displays the next application in the application queue. The image appears in the upper portion of the Application Entry form and the default information appears in the master block.

UNDEFINED E-14-1998 11:22PM FROM SUPER SOLUTIONS 8129428451 P. 1

If you choose **Next Application** and no images are available, Oracle Daybreak displays the following dialog box:

- Choose **Ok**.

The Application Entry form master block contains the following command buttons:

<b>If you choose:</b>	<b>Oracle Daybreak will:</b>
<b>Next Application</b>	Display the next application image.
<b>Pr</b>	Display the previous page of the image (if one exists).
<b>Nx</b>	Display the next page of the image (if one exists).
<b>Up</b>	Scroll up through the selected image.
<b>Dn</b>	Scroll down through the selected image.
<b>Flip Image</b>	Rotate the selected image.
<b>Print Image</b>	Send the selected image to a predefined printer.

Depending on the position of the application when it was faxed to the Oracle Daybreak, the image may be inverted on the Application Entry form.

- 3 To rotate an upside-down image, choose **Flip Image** on the Application Entry form master block.
- 4 To navigate through the application:
  - Use the scroll bar
  - or-
  - Choose **Dn** and **Up** on the Application Entry form master block.

The **Page #** and **Of** fields display what page is currently displayed in the Application Entry form and the total page length of the image.

- 5 To view other pages of the application, if they exist, choose **Nx** and **Pr** on the Application Entry form master block.

## Entering an application without an image

In some cases, an application may not have an image associated with it. The application might be faxed directly to you, or the information might be supplied over the phone.

### To complete an application that doesn't have an image

- 1 On the **Lending** menu, choose **Application Entry**.
- 2 Choose **No Image** in the master block and begin entering the application data.

Oracle Daybreak leaves the Fax Header, Status, Company, Page # and Of fields blank and moves the cursor to the App # field.

The screenshot displays the Oracle Daybreak application entry form. At the top, there is a large grey rectangular area. Below this, the form is organized into several sections. The first section contains fields for 'Next Application', 'Fax Header', 'No Image' (checkbox), 'Status', 'Company', 'Page #', 'Of', 'Pr', 'Ng', 'Up', and 'Dn'. The second section includes 'App #', 'Dt' (03/10/2008), 'App Company', 'Priority', 'CRB Pull' (checkbox), 'Joint' (checkbox), 'Cos' (checkbox), 'Underwriter', 'Flip Image', 'Purpose', 'Contact', 'Channel', 'Product', 'Lead #', 'Producer', and 'Print Image'. The third section is a tabbed interface with tabs for 'Primary Applicant', 'Other Applicants', 'Loan', 'Line of Credit', 'Lease', 'Vehicle', 'Home', 'Other', 'Business', and 'Edits'. The 'Primary Applicant' tab is active, showing fields for 'First Name', 'MI', 'Last Name', 'Suffix', 'SSN', 'Birth Dt', 'Disability', 'Prior Bkrp', 'Bkrp Discharge Dt', 'Bureau', 'Bureau Reorder #', 'Gender', 'Language', 'License # & State', 'Email', 'Class', 'Marital St', 'Dependents', 'Mother's Maiden Nm', 'EOA', 'Ethnicity', 'Race', 'Privacy Opt-Out', and 'Time Zone'. The fourth section is another tabbed interface with tabs for 'Address', 'Employments', 'Telecoms', 'Financials', 'Liabilities', and 'Other Incomes'. The 'Address' tab is active, showing fields for 'Type', 'Postal Type', '#', 'Pre', 'Street Name', 'Street Type', 'Post', 'Apt No', 'Own / Rent', 'Yrs', 'Mths', 'Amt', 'Freq', 'Mailing' (checkbox), 'Address', 'Current' (checkbox), 'City', 'St', 'Zip', 'Country', 'Ph', 'Census Tract/BNA Code', 'Landlord', 'MSA Code', and 'Comment'.

## Completing the Application Entry form's master block

You can enter a credit application either with or without an image. In either case, when using the Application Entry form, you must complete the Product and Producer fields in the master block before you can begin entering information about the applicant and lease request. The contents of the Product and Producer fields will determine which tabs will be made unavailable on the Application Entry form and elsewhere in the Oracle Daybreak system.

Oracle recommends that you save your work periodically as you enter the application. The first time you save an application, Oracle Daybreak assigns it an application number.

### To complete the Application Entry form's master block

- 1 On the **Lending** menu, choose **Application Entry**.
- 2 Choose **Next Application** to load an application in the upper list box.  
- or -  
Select **No Image** if there is no image in the upper list box.
- 3 In the Application Entry master block, enter or view the following information. Press the **TAB** key to move between fields:

In this field:	Do this:
Fax Header	View the fax header, the subject line data of the e-mail sent to Oracle Daybreak by the fax server. This data is dependent on the configuration of the fax server (display only).
<b>Status</b>	Select the image status (required).
Company	View the company (display only).
Branch (unlabeled)	View the branch (display only).
Page #	View the page number of the application image on display (display only).
Of	View the total number of pages in the application image (display only).
<b>Dt</b>	Enter the application date (required).
<b>App Company</b>	View the company (required).
App Branch (unlabeled)	View the branch (display only).
<b>Priority</b>	Select the priority of the application (required).
CRB Pull	If this box is selected, Oracle Daybreak will perform an initial credit bureau report pull after the application passes the prescreen edits. Clear the check box if you want to enter an application without pulling a credit report. To use a previously pulled credit bureau report, clear this box and complete the Bureau and Bureau Reorder # fields on the Primary Applicant page).

Joint

Cos

Underwriter

Purpose

Contact

Channel

Product

Lead #

Producer

If this is a joint application, select **Joint**. A joint applicant is equally liable for the lease.

If this is a co-signed application, select **Cos**. The primary applicant is the purchaser/recipient of the lease. If that person defaults, then the cosigner is responsible

**A note about Joint and Cos (co-sign):**

When pulling credit bureaus, a joint pull can only occur for married couples. The pull will contain complete credit histories for both individuals in one report.

In a co-signed application, the credit bureau will be pulled twice, once for each applicant.

View the underwriter's name (display only).

Select the purpose for lending (optional).

Enter the contact of the application. This is a free form field that can be used to indicate who supplied the application being entered into Oracle Daybreak (optional).

Select how the application was received; for example, fax, web entry, or phone (required).

Select the type of product you are entering (required).

Select the sales lead number (optional).

Select the producer associated with the product (required).

4 Save your application.

When you save the application for the first time, Oracle Daybreak assigns it an application number and, based on the contents of the Product field, dims the non-applicable tabs.

The screenshot displays the Oracle Daybreak application form. At the top, there are fields for 'App #', 'App Company', 'Priority', 'CRB Pull', 'Joint', 'Cos', 'Underwriter', 'Lead #', and 'Producer'. The 'Product' field is set to 'LEASE VEHICLE'. Below this, there are tabs for 'Purpose', 'Channel', 'Product', 'Lease', 'Vehicle', 'Home', 'Other', 'Business', and 'Edits'. The 'Purpose' tab is selected, showing 'VEHICLE LEASE'. The 'Product' tab is also selected, showing 'LEASE VEHICLE'. Red arrows point from the 'Product' field to the 'VEHICLE' tab, and from the 'Purpose' field to the 'VEHICLE LEASE' tab. The form also shows fields for 'First Name', 'Last Name', 'MI', 'Suffix', 'SSN', 'Birth Dt', 'Disability', 'Prior Bktp', 'Bktp Discharge Dt', 'Bureau', 'Bureau Recorder #', 'Gender', 'Language', 'License # & State', 'Email', 'Class', 'Marital St', 'Dependents', 'Mother's Maiden Nm', 'EOCA', 'Ethnicity', 'Race', 'Privacy Opt-Out', and 'Time Zone'. The 'Address' section includes 'Postal Type', '#', 'Pre', 'Street Name', 'Street Type', 'Post', 'Apt No', 'Own / Rent', 'Yrs', 'Mths', 'Amt', 'Freq', 'Mailing', 'Address', 'Current', 'Confirmed', 'City', 'St', 'Zip', 'Country', 'Ph', 'Census Tract/ENA Code', and 'MSA Code'. The 'Employments', 'Telecoms', 'Financials', 'Liabilities', and 'Other Incomes' sections are also visible.

## Entering primary applicant information

Using the information supplied on the application, complete the Primary Applicant page and sub pages (Address, Employments, Telecoms, Financials, Liabilities, and Other Incomes sub pages). Oracle Daybreak uses the information on the Financial and Liabilities sub pages in determining the applicant's net worth. Oracle Daybreak uses information on the Employments page and Other Incomes sub page to calculate the applicant's debt-to-income ratio.

This section explains how to complete each page and sub pages.

### IMPORTANT:

While the following fields are marked *required*, *display only*, and *optional*, these are Oracle Daybreak's default settings. The actual status for a field might differ on your system, depending on how it is configured.

### NOTE:

When completing Frequency fields, please note the following:

- *Biweekly* in Oracle Daybreak means "once every two weeks" and **not** "twice a week."
- *Bimonthly* in Oracle Daybreak means "once every two months" and **not** "twice a month."

For more information, see **Appendix D: Payment Amount Conversion**.

### To complete the Primary Applicant page

- 1 Choose the **Primary Applicant** tab.

The screenshot shows the Oracle Daybreak Primary Applicant page. The form is titled "UNDEFINED". It contains various fields for applicant information. The "Primary Applicant" tab is selected. Fields include: App # (0000162176), Dt (11/17/2007), App Company (SSFC), Priority (NORMAL), CRB Pull (checked), Joint (unchecked), Cos (unchecked), Underwriter (BJORN1), Purpose (VEHICLE LEASE), Contact, Channel (WEB ENTRY), Product (LEASE VEHICLE), Lead #, Producer (DEALER), MN-00007: TEST, Print Image, First Name, MI, Last Name, Suffix, SSN, Birth Dt, Disability, Prior Bktp, Bktp Discharge Dt, Bureau, Bureau Reorder#, Gender (FEMALE), Language (ENGLISH), License # & State, Email, Class (NORMAL), Marital St (SINGLE), Dependents (0), Mother's Maiden Nm, ECOA (INDIVIDUA), Ethnicity, Race (WHITE), Privacy Opt-Out (checked), Time Zone, Address, Employments, Telecoms, Financials, Liabilities, Other Incomes, Type (HOME), Postal Type (NORMAL ADC), #, Pre, Street Name, Street Type, Post, Apt No, Own / Rent (OWNS HOME), Stated (0), Mths (0), Amt (\$0.00), Freq (MONTHLY), Mailing (checked), Address, Current (checked), Confirmed (unchecked), City, St, Zip, Country (US), Ph, Census Tract/INA Code, MSA Code, Comment.

- 2 Use the application to enter the following information on the **Primary Applicant** page:

#### In this field:

**First Name**

**MI**

**Last Name**

**Suffix**

**SSN**

#### Do this:

Enter the applicant's first name (required).

Enter the applicant's middle name or initial (optional).

Enter the applicant's last name (required).

Select the name suffix/generation (optional).

Enter the applicant's social security number (required).

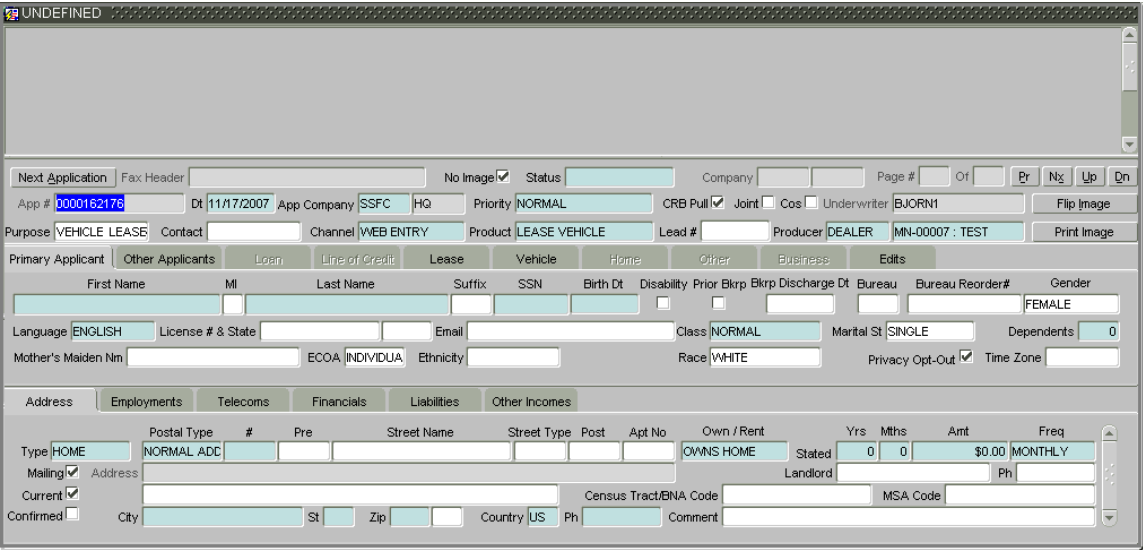

<b>Birth Dt</b>	Enter the applicant's date of birth (required).
Disability	Select if the application has a disability (optional).
Prior Bkrp	Select if prior bankruptcy exists (optional).
Bkrp Discharge Dt	Enter the discharge date of prior bankruptcy (if one exists) (optional).
Bureau	If you want to receive a copy of a previously pulled credit bureau report, select the previously pulled credit bureau. This field is used in conjunction with the Bureau Reorder # and the CRB Pull check box in the master block. <b>Note:</b> Currently, First American Credco (Credco) is the only bureau that offers the reorder feature (optional).
Bureau Reorder #	If you want to receive a copy of a previously pulled credit bureau report, enter the credit bureau reorder number. This allows you to receive a previously pulled credit report from Credco (currently other bureaus do not provide a copy). <b>Note:</b> You can view the credit bureau reorder number from a previously pulled report on the Underwriting form's Bureau (4) master tab in the Bureau Details block (optional).
Gender	Select the gender of the applicant (optional).
<b>Language</b>	Select the applicant's native language (required).
License #	Enter the applicant's license number (optional).
License State	Select the state of the applicant's license (optional).
Email	Enter the applicant's email address (optional).
<b>Class</b>	Select the applicant's classification; for example, NORMAL or EMPLOYEE. Oracle Daybreak uses this information to restrict access to the database by recognizing employees as "secured applications." You can create a SME (Small Medium Enterprise) application by selecting SMALL BUSINESS. When you select SMALL BUSINESS and save your entry, the Business tab on the Application Entry form is available.(required).
Marital St	Select the marital status of the applicant (optional).
Dependents	Enter the number of dependents (optional).
Mother's Maiden Nm	Enter the mother's maiden name (optional).
ECOA	Select the ECOA (Equal Credit Opportunity Act) code. This defines the various possibilities on who is liable; individual, joint, cosigner, and so on (optional).
Ethnicity	Select the applicant's ethnicity. This is information the Home Mortgage Disclosure Act requires to be reported (optional).
Race	Select the applicant's race or national origin (optional).
Privacy Opt-Out	If necessary, select the check box to indicate that the applicant has elected to refrain from the non-public sharing of information (optional).
Time zone	View the time zone for the applicant. This information appears when you enter and save the zip code for the primary applicant's current home address on the Address sub page. You can also manually complete this field (optional).

3 Save your entry.

**To complete the Address sub page**

You can enter more than one address for each applicant, such as a home address, second home address, and vacation home address. However, at least one must be marked as current. Also, only one address can be selected as the mailing address, and that address must be marked as current. Finally, while you can have more than one Home type address, only one can be marked as current.

- 1 Choose the **Address** sub tab.

- 2 Use the application to enter the following information on the **Address** sub page:

In this field:	Do this:
<b>Type</b>	Select the address type (required).
<b>Mailing</b>	Select if this is the mailing address. Only one address entry can be marked as the mailing address (required).
<b>Current</b>	Select if this is a current address. <b>Note:</b> The mailing address must be marked as current (required).
<b>Postal Type</b>	Select the postal address type (required).
<b>#</b>	Enter the building number (required).
<b>Pre</b>	Select the street prefix (directional) (optional).
<b>Street Name</b>	Enter street name (optional).
<b>Street Type</b>	Select the street type (optional).
<b>Post</b>	Select the street postfix (directional) (optional).
<b>Apt No</b>	Enter the apartment number (optional).
<b>Own / Rent</b>	Select the ownership type (required).
<b>Address 2 (unlabeled)</b>	Enter the address line 2 (optional).
<b>Zip</b>	Select the zip code (required).
<b>City</b>	Enter the city (required).
<b>St</b>	Select the state (required).
<b>Zip Extension (unlabeled)</b>	Enter the zip extension (optional).
<b>Country</b>	Select the country code (required).
<b>Ph</b>	Enter the phone number (required).
<b>Stated (Yrs)</b>	Enter the stated number of years at residence (required).
<b>Stated (Mths)</b>	Enter the stated number of months at residence (required).

<b>Stated (Amt)</b>	Enter the stated payment amount (required).
<b>Sated (Freq)</b>	Enter the stated payment frequency (required).
Landlord	Enter the landlord's name (optional).
Ph	Enter the landlord's phone number (optional).
Census Tract/BNA Code	Enter census tract/BNA (block numbering area). These are defined by the US Census Bureau code (optional).
MSA Code	Enter the metropolitan statistical area (MSA) code. These are similar in concept to a zip code, but used mostly on government reports (optional).
Comment	Enter a comment (optional).

- 3 Save your entry.
- 4 If there are more than one addresses associated with the applicant, press **F6** to clear the **Address** sub page and repeat steps 1-3.

### To complete the Employments sub page

- 1 Choose the **Employments** sub tab.

The screenshot shows a software application window titled 'UNDEFINED'. The interface includes a top navigation bar with tabs: 'Next Application', 'Fax Header', 'No Image', 'Status', 'Company', 'Page #', 'Or', 'Pr', 'Ng', 'Up', 'Dn'. Below this is a section for application details with fields for 'App #', 'Dt', 'App Company', 'SSFC', 'HQ', 'Priority', 'CRB Pull', 'Joint', 'Cos', 'Underwriter', 'BJORN1', 'Flip Image', 'Print Image', 'Purpose', 'Contact', 'Channel', 'WEB ENTRY', 'Product', 'LEASE VEHICLE', 'Lead #', 'Producer', 'DEALER', 'MN-00007', 'TEST'. A central section contains tabs for 'Primary Applicant', 'Other Applicants', 'Loan', 'Line of Credit', 'Lease', 'Vehicle', 'Home', 'Other', 'Business', and 'Edits'. The 'Primary Applicant' tab is active, showing fields for 'First Name', 'MI', 'Last Name', 'Suffix', 'SSN', 'Birth Dt', 'Disability', 'Prior Bkrp', 'Bkrp Discharge Dt', 'Bureau', 'Bureau Reorder #', 'Gender', 'Language', 'License # & State', 'Email', 'Class', 'Marital St', 'Dependents', 'Mother's Maiden Nm', 'ECOA', 'INDIVIDUA', 'Ethnicity', 'Race', 'WHITE', 'Privacy Opt-Out', and 'Time Zone'. At the bottom, there are tabs for 'Address', 'Employments', 'Telecoms', 'Financials', 'Liabilities', and 'Other Incomes'. The 'Employments' tab is selected, displaying fields for 'Current', 'Type', 'FULL TIME', 'Employer', 'Occupation', 'PROFESSIONAL', 'Yrs', 'Mths', 'Income', 'Stated', '0', '0', '\$0.00', 'MONTHLY', 'Freq', 'Address', 'City', 'St', 'Zip', 'Country', 'US', 'Comment', and 'Extn'.

- 2 Use the application to enter the following information on the **Employments** sub page:

#### In this field:

Current  
**Type**  
**Employer**  
Address  
Address 1 (unlabeled)  
Address 2 (unlabeled)  
Zip  
City  
St  
Zip Extension (unlabeled)  
**Country**  
Occupation

#### Do this:

Select if this is the current employment (optional).  
Select the address type (required).  
Enter the employer's name (required).  
Enter the building number (optional).  
Enter the address line 1 (optional).  
Enter the address line 2 (optional).  
Select the zip code (optional).  
Enter the city (optional).  
Select the state (optional).  
Enter the zip code extension (optional).  
Select the country (required).  
Select the occupation (optional).

Title	Enter the title (optional).
<b>Ph</b>	Enter the work phone number (required).
Extn	Enter phone extension (optional).
Comment	Enter a comment (optional).
<b>Stated (Yrs)</b>	Enter the stated number of years with the employer (required).
<b>Stated (Mths)</b>	Enter the stated number of months with the employer (required).
<b>Stated (Income)</b>	Enter the stated income (required).
<b>Stated (Freq)</b>	Enter the stated income frequency (required).

- 3 Save your entry.
- 4 If there are more than one sources of employment associated with applicant, press **F6** to clear the **Employments** sub page and repeat steps 1-3.

### To complete the Telecoms sub page

The Telecoms sub page only needs to be completed if additional phone numbers exist. If not, this sub page can be left blank.

- 1 Choose the **Telecoms** sub tab.

The screenshot shows a software application window titled 'UNDEFINED'. The 'Telecoms' sub-page is active, displaying a table for entering phone numbers. The table has columns for 'Telecom Type', 'Phone', 'Extn', 'Start Time', 'End Time', 'Time Zone', and 'Current'. The first row is highlighted with a blue selection bar. Above the table, there are various input fields for applicant information, including 'App #', 'Dt', 'App Company', 'Priority', 'CRB Pull', 'Joint', 'Cos', 'Underwriter', 'Bureau', 'Bureau Reorder#', 'Gender', 'Language', 'License # & State', 'Email', 'Class', 'Marital St', 'Dependents', 'Mother's Maiden Nm', 'ECO A', 'INDIVIDUA', 'Ethnicity', 'Race', 'Privacy Opt-Out', and 'Time Zone'.

- 2 Use the application to enter the following information on the **Telecoms** sub page:

In this field:	Do this:
<b>Telecom Type</b>	Select the telecommunication type (required).
<b>Phone</b>	Enter the phone number (required).
Extn	Enter the phone extension (optional).
Start Time	Enter the best time to call start time (optional).
Time Period (unlabeled)	Select the time period for the best time to call start time, AM or PM (optional).
End Time	Enter the best time to call end time (optional).

- |                         |   |
|-------------------------|---|
| Time Period (unlabeled) | Select the time period for the best time to call end time, AM or PM (optional). |
| Time Zone               | Select the applicant's time zone (optional).                                    |
| Current                 | Select if this telecom number is current (optional).                            |
- Save your entry.
  - If there are more than one sources of telecom numbers associated with the applicant, repeat steps 2 and 3.

### To complete the Financials sub page

The Financials sub page only needs to be completed if financial assets exist on the application. If not, this sub page can be left blank.

- Choose the **Financials** sub tab.

The screenshot shows a web application interface with a top navigation bar and a main content area. The 'Financials' sub-tab is selected. The form contains various input fields for personal and contact information, and a table for entering financial assets.

Type	Source	Amt	Comment

- Use the application to enter the following information on the **Financials** sub page:

#### In this field:

#### Do this:

##### Type

Select financial type; for example, liquid assets, retirement assets, and so on (required).

##### Source

Enter source; for example, stocks, 401K, rent received, and so on (optional).

##### Amt

Enter amount (required).

##### Comment

Enter a comment (optional).

- Save your entry.
- If there are more than one financial assets associated with the applicant, repeat steps 2 and 3.

**To complete the Liabilities sub page**

The Liabilities sub page only needs to be completed if financial liabilities exist on the application. If not, this sub page can be left blank.

- 1 Choose the **Liabilities** sub tab.

**To complete the Other Incomes sub page**

The Other Incomes sub page only needs to be completed if other incomes exist on the application. If not, this sub page can be left blank.

- 1 Choose the **Other Incomes** sub tab.

The screenshot shows a software application window titled 'UNDEFINED'. The interface includes a top navigation bar with buttons like 'Next Application', 'Fax Header', 'No Image', 'Status', 'Company', 'Page #', 'Of', 'Pr', 'Ng', 'Up', and 'Dn'. Below this is a form area with various input fields. The 'Other Incomes' sub-tab is selected, displaying a table with columns 'Type', 'Amount', and 'Freq'. The table contains one entry: 'EMPLOYMENT' with an amount of '\$0.00' and frequency of 'MONTHLY'. Other tabs visible include 'Primary Applicant', 'Other Applicants', 'Loan', 'Line of Credit', 'Lease', 'Vehicle', 'Home', 'Other', 'Business', and 'Edits'. The 'Primary Applicant' tab shows fields for First Name, MI, Last Name, Suffix, SSN, Birth Dt, Disability, Prior Bkrp, Bkrp Discharge Dt, Bureau, Bureau Reorder#, Gender, Language, License # & State, Email, Class, Marital St, Dependents, Mother's Maiden Nm, ECOA, INDIVIDUA, Ethnicity, Race, Privacy Opt-Out, and Time Zone.

- 2 Use the application to enter the following required information on the **Other Incomes** sub page:

**In this field:**

**Do this:**

**Type**

Select the income type (required).

**Amt**

Enter the income (required).

**Freq**

Select the income frequency (required).

- 3 Save your entry.
- 4 If there is more than one other income associated with the applicant, repeat steps 2 and 3.

## Entering other applicant information

The **Other Applicants** page only needs to be completed if a secondary or joint applicant exists. If not, this page can be left blank. The Other Applicants sub pages are the same as the Primary Applicant sub pages, with the addition of the **Copy Prim Address** box on the **Address** sub page.

### To enter other applicant information

- 1 If other applicants are included on the application, choose the **Other Applicant** tab.

The Other Applicants page contains the same fields as the Primary Applicant fields, with the addition of the **Type** field. Use this field to select the relationship type; for example, spouse, secondary, or cosigner.

The screenshot shows a web-based application form for a consumer lease origination. The 'Other Applicants' tab is selected, and the 'Type' field is highlighted in blue. The form includes various fields for personal and financial information, such as App #, Dt, App Company, Priority, CRB Pull, Joint, Cos, Underwriter, Purpose, Contact, Channel, Product, Lead #, Producer, and various personal and financial details. The 'Type' field is highlighted in blue, indicating it is the primary field for this section.

- 2 Complete the **Other Applicant** page and sub pages (**Address**, **Employments**, **Telecoms**, **Financials**, **Liabilities**, and **Other Incomes** sub pages).

**Note:** If the other applicant shares the same address information as the primary applicant, on the Address sub page, select **Copy Prim Address** to copy the primary applicant's current mailing address to this sub page.

- 3 Save your entry after you complete each page and sub page.

**Note:** If there is more than one other applicant, press F6 to refresh the Other Applicant page and repeat steps 2 and 3. Each other applicant must have a unique entry in the Type field.

## Entering business applications (SME Lending)

Oracle Daybreak can record SME business related financial information and business partners on the Business page to assist in approving the lease application during under-writing. The Business page is available for leases and contains the following sub pages:

- Address
- Telecoms
- Financials
- Liabilities
- Partners
- Affiliates
- Other Details

### To enter business information

- 1 If SME business information is included on the application, select SMALL BUSINESS in the **Class** field on the **Primary Applicant** page and save your entry.

The Business tab on the Application Entry form is available.

The screenshot shows the Oracle Daybreak Application Entry form, specifically the Business tab. The form is divided into several sections. At the top, there are fields for 'Next Application', 'Fax Header', 'No Image', 'Status', 'Company', 'Page #', 'Of', 'Pr', 'Nz', 'Up', and 'On'. Below these are fields for 'App #', 'Dt' (03/03/2008), 'App Company', 'Priority', 'CRB Pull' (checked), 'Joint', 'Cos', 'Underwriter', 'Flip Image', 'Purpose', 'Contact', 'Channel', 'Product', 'Lead #', 'Producer', and 'Print Image'. The 'Primary Applicant' tab is selected, and the 'Business' sub-tab is active. The 'Business' section contains fields for 'Organization Type', 'Type of Business', 'Name of the Business', 'Legal Name', 'Tax ID #', 'Start Date', '# of Employees (Curr)', and '# of Employees'. Below these are fields for 'Contact Person', 'Business Checking Bank', 'Bank Account Number', 'Avg Checking Balance', '# of Locations', and 'Management Since'. The 'Address' section is expanded, showing fields for 'Postal Type', '#', 'Pre', 'Street Name', 'Street Type', 'Post', 'Apt No', 'Own / Lease', and 'Comment'. At the bottom, there are fields for 'City', 'St', 'Zip', 'Country', and 'Ph'.

- 2 Use the application to enter the following information on the **Business** page:

In this field:	Do this:
<b>Organization Type</b>	Select the organization type (required).
<b>Type of Business</b>	Select the type of the business (required).
<b>Name of the Business</b>	Enter the name of the business (required).
<b>Legal Name</b>	Enter the legal name of the business (required).
<b>Tax Id #</b>	Enter the tax identification number (required).
<b>Start Date</b>	Enter the business start date (required).
<b># of Employees (Curr)</b>	Enter the current number of employees at the business (required).
<b># of Employees</b>	Enter the number of employees at the business after financing (required).
<b>Contact person</b>	Enter the contact person at the business (optional).

<b>Business Checking Bank</b>	Enter the bank name of the business’s checking account (required).
<b>Bank Account Number</b>	Enter the bank account number (required).
<b>Average Checking Balance</b>	Enter the average checking balance (required).
<b># of Locations</b>	Enter the number of locations of the business (required).
<b>Management Since</b>	Enter the year the current management was established (required).

3 Save your entry.

### To complete the Business tab’s Address sub page

You can enter more than one address for the business.

1 Choose the Business tab’s **Address** sub tab.

2 Use the application to enter the following information on the Business tab’s **Address** sub tab:

In this field:	Do this:
<b>Postal Type</b>	Select the postal address type (required).
<b>#</b>	Enter the building number (required).
<b>Pre</b>	Select the street prefix (directional) (optional).
<b>Street Name</b>	Enter street name (optional).
<b>Street Type</b>	Select the street type (optional).
<b>Post</b>	Select the street postfix (directional) (optional).
<b>Apt No</b>	Enter the apartment number (optional).
<b>Address 2 (unlabeled)</b>	Enter the address line 2 (optional).
<b>Zip</b>	Select the zip code (required).
<b>City</b>	Enter the city (required).
<b>St</b>	Select the state (required).
<b>Zip Extension (unlabeled)</b>	Enter the zip extension (optional).
<b>Country</b>	Select the country code (required).
<b>Ph</b>	Enter the phone number (required).
<b>Ph</b>	Enter the landlord’s phone number (optional).
<b>Own / Rent</b>	Select the ownership type (required).

**To complete Business tab’s Financials sub page**

The Business tab’s Financials sub page only needs to be completed if financial assets exist on the application for the business. If not, this sub page can be left blank.

- 1 Choose the Business tab’s **Financials** sub tab.

Type	Source	Amt	Comment

- 2 Use the application to enter the following information on the Business tab’s **Financials** sub page:

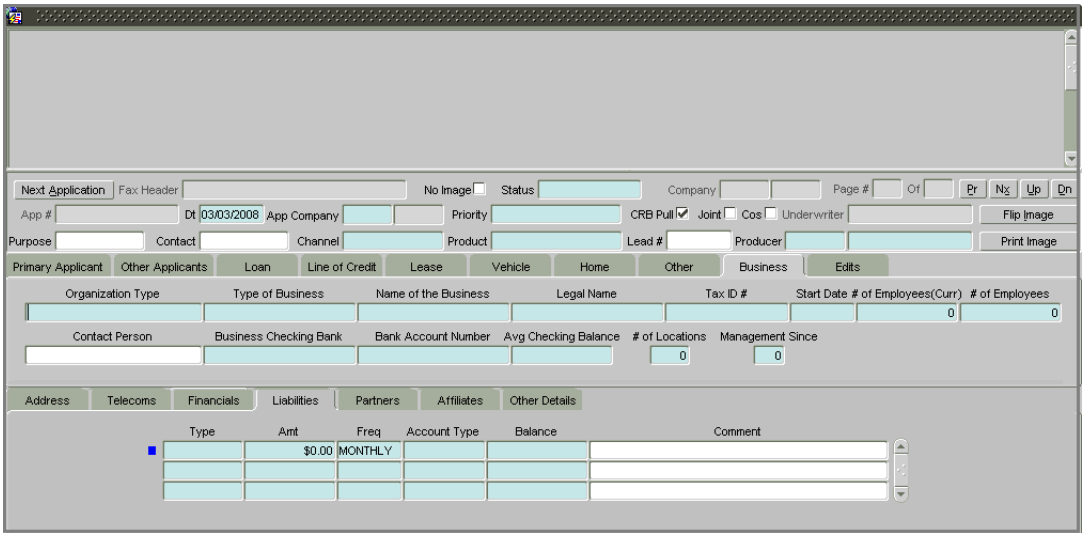

In this field:	Do this:
Type	Select financial type; for example, liquid assets, retirement assets, and so on (required).
Source	Enter source; for example, stocks, 401K, rent received, and so on (optional).

## Entering credit request details

Depending on the type of product you selected, one of three following lending tabs will be available: **Lease**. Complete the available page. The **Lease** pages all share the following sub pages: **Itemization**, **Trade-In**, **Subvention**, and **Comments**. Complete these sub pages, if information exists.

### To complete the Lease page

- 1 Choose the **Lease** tab.

The screenshot shows a web application interface for entering credit request details. The top section contains various input fields for application information, including App #, Dt, App Company, Priority, CRB Pull, Joint, Cos, Underwriter, and Producer. Below this, there are tabs for Itemization, Trade-In, Subvention, and Comments. The Itemization tab is currently selected, displaying a table with columns for Itemization, +/-, Requested Amt, and Comment. The table contains three rows of data: ITM CASH SALES, ITM SERVICE CONTRACT EXTENDED, and ITM DOWN PAYMENT TRADEIN, each with a Requested Amt of \$0.00. A Total row at the bottom shows a Requested Amt of \$0.00.

Itemization	+/-	Requested Amt	Comment
ITM CASH SALES	+	\$0.00	
ITM SERVICE CONTRACT EXTENDED	+	\$0.00	
ITM DOWN PAYMENT TRADEIN	-	\$0.00	
Total		\$0.00	

- 2 Use the application to supply the following information on the **Lease** page:

#### In this field:

#### Requested Term

#### Payment

#### Capitalized Cost

#### Do this:

Enter the requested term; that is, number of payments in months (months is the default) (required).

Enter the requested payment amount, per term (required).

Enter the requested cap cost amount; that is, the cost of the asset (required).

- 3 Save your entry.

**To complete the Itemization sub page**

The Itemization sub page lists the particulars regarding the payment of the lease. This pre-defined list is configured during setup and linked to the type of product you selected in this form's master block.

- 1 If there are itemizations in the application, choose the **Itemization** sub tab.

- 2 Use the application to supply the following information on the **Itemization** sub page:

In this field:	Do this:
Itemization	Select the itemization code you want to use (display only).
+/-	View the sign. <b>Note:</b> A positive itemization increases the amount of the loan, a negative itemization decreases the amount of the loan (display only).
<b>Requested Amt</b>	Enter amount (required).
Comment	Enter a comment relating to the itemization entry; for example, if a fee is abnormally high or low, this field might be used to record the reason (optional).
Total	View the total (display only).

- 3 Save your entry.
- 4 If there is more than one itemization associated with the loan, repeat steps 2 and 3.

## To complete the Trade-In sub page

- 1 If there is a trade-in associated with the application, choose the **Trade-In** sub tab.

The screenshot shows a software application window titled 'UNDEFINED'. It contains a form for entering trade-in information. The form is divided into several sections:

- Application Header:** Includes fields for 'Next Application', 'Fax Header', 'No Image' (checked), 'Status', 'Company', 'Page #', 'Of', 'Pr', 'Ng', 'Up', and 'Dn'.
- Application Details:** Includes fields for 'App #', 'Dt', 'App Company', 'Priority', 'CRB Pull' (checked), 'Joint', 'Cos', 'Underwriter', and 'Flip Image'.
- Purpose and Channel:** Includes fields for 'Purpose', 'Contact', 'Channel', 'Product', 'Lead #', 'Producer', and 'Print Image'.
- Primary Applicant:** Includes tabs for 'Primary Applicant', 'Other Applicants', 'Loan', 'Line of Credit', 'Lease', 'Vehicle', 'Home', 'Other', 'Business', and 'Edits'.
- Requested Term, Payment, Capitalized Cost:** Includes input fields for these values.
- Itemizations:** Includes tabs for 'Itemizations', 'Trade-In', 'Subvention', and 'Comments'.
- Asset Information:** Includes fields for 'Asset Type', 'Sub Type', 'Year', 'Make', 'Model', 'Body', 'Identification Number', 'Wholesale', 'Retail', 'Desc', 'Valuation Dt', 'Source', 'Supplement', 'Edition', 'Addons +', 'Payoff Amt -', and 'Total Value ='.

- 2 Use the application to supply the following information on the **Trade-In** sub page:

### In this field:

### Do this:

#### Asset Type

Select the asset class (required).

#### Sub Type

Select the asset sub type (optional).

#### Year

Enter the year of the asset (required).

#### Make

Enter the make of the asset (required).

#### Model

Enter the model of the asset (required).

#### Body

Enter the body of the asset (optional).

#### Identification Number

Enter the asset identification number (optional).

#### Wholesale

Enter the wholesale value (required).

#### Desc

View the asset description (display only).

#### Valuation Dt\*

Enter the valuation date for the asset (optional).

#### Source\*

Select the valuation source (optional).

#### Supplement\*

Enter the valuation supplement (optional).

#### Edition\*

Enter the valuation edition (optional).

\* These fields are related to the source of the valuation of the asset and are dependent on the type of asset; for example, an auto loan might use Kelly or NADA, while a home loan might use an appraisal or a tax assessment.

#### Retail

Enter the retail value (required).

#### Addons +

Enter the addons value (required).

#### Payoff Amt -

Enter the payoff amount (required).

#### Total Value =

View the total value (display only).

- 3 Save your entry.

## To complete the Subvention sub page

- 1 If there is a subvention associated with the application, choose the **Subvention** sub tab.

The screenshot shows a software interface with a top navigation bar containing tabs: Itemizations, Trade-In, Subvention, and Comments. The 'Subvention' tab is selected. Below the tabs is a table with columns: Code, Description, and Include. The table contains one row with a blue square icon in the 'Code' column, a text field in the 'Description' column, and a checked checkbox in the 'Include' column. Above the table, there are various input fields and buttons for application details, including 'App #', 'Dt', 'App Company', 'Priority', 'CRB Pull', 'Joint', 'Cos', 'Underwriter', 'Purpose', 'Channel', 'Product', 'Lead #', 'Producer', and 'Print Image'. There are also buttons for 'Next Application', 'Fax Header', 'No Image', 'Status', 'Company', 'Page #', 'Of', 'Pr', 'Ng', 'Up', and 'Dn'.

- 2 Use the application to supply the following information on the **Subvention** sub page:  

In this field:	Do this:
Code	Select the subvention plan (required).
Description	View the subvention plan description (display only).
Include	Select to include the subvention entry in the application.
- 3 Save your entry.

## To complete the Comments sub page

- 1 If you want to add a comment to the application, choose the **Comments** sub tab.

The screenshot shows the same software interface as the previous one, but with the 'Comments' tab selected. Below the tabs is a table with columns: Alert, Type, Sub Type, and Comment. The table contains one row with a blue square icon in the 'Alert' column, the text 'REGULAR' in the 'Type' column, 'SSC' in the 'Sub Type' column, and a text field in the 'Comment' column. Above the table, there are various input fields and buttons for application details, including 'App #', 'Dt', 'App Company', 'Priority', 'CRB Pull', 'Joint', 'Cos', 'Underwriter', 'Purpose', 'Channel', 'Product', 'Lead #', 'Producer', and 'Print Image'. There are also buttons for 'Next Application', 'Fax Header', 'No Image', 'Status', 'Company', 'Page #', 'Of', 'Pr', 'Ng', 'Up', and 'Dn'.

- 2 Use the application to supply the following information on the **Comments** sub page:

<b>In this field:</b>	<b>Do this:</b>
Alert	Select box if the comment is an alert (optional).
<b>Type</b>	Select the comment type (required).
<b>Sub Type</b>	Select the comment sub type (required).
<b>Comment</b>	Enter a comment (required).
User (unlabeled)	View the user who entered or created the comment (display only).
Date (unlabeled)	View the comment date time (display only).

- 3 Save your entry.
- 4 If you want to add additional comments, repeat steps 2 and 3.

## Entering the collateral information

Depending on the type of product or producer you selected, one of the three following collateral tabs will be available: **Vehicle**, **Home**, or **Other**. Complete the page that is available on your Application Entry form. After that, complete the **Valuations** sub page, which the Vehicle, Home, and Other pages all share.

(Note: If you are entering an unsecured line of credit, none of these three tabs is available; in which case, skip this step.)

### To complete the Vehicle page

- 1 Choose the **Vehicle** tab.

The screenshot shows a software application window titled 'UNDEFINED'. It contains a form for entering collateral information. The 'Vehicle' tab is selected. The form is divided into several sections: Application details (App #, Dt, App Company, Priority, CRB Pull, Joint, Cos, Underwriter, Producer), Primary Applicant information (Name, Address, City, St, Zip, Country), Vehicle details (Class, Type, Sub Type, Status, Year, Make, Model, Body, Id #, Registration #, Desc), and a Valuations section. The Valuations section includes a table for Wholesale and Retail values, and a table for Addons/Attributes. The Total Value is calculated as \$1,400.00.

- 2 Select **Primary** if this is the main asset on the application.
- 3 Use the application to supply the following information on the **Vehicle** page:

In this field:	Do this:
<b>Class</b>	Select the asset class (required).
<b>Type</b>	Select the asset type (required).
<b>Sub Type</b>	Select the asset sub type (required).
<b>Status</b>	Select the asset status (required).
<b>Year</b>	Enter the year of the vehicle (required).
<b>Make</b>	Enter the make of the vehicle (optional).
<b>Model</b>	Enter the model of the vehicle (optional).
<b>Body</b>	Enter the body of the vehicle (optional).
<b>Id #</b>	Enter the vehicle identification number (optional).
<b>Registration #</b>	Enter the vehicle registration number (required).
<b>Desc</b>	View the vehicle description (display only).
<b>Address</b>	Enter the building number (optional).
<b>Address 1 (unlabeled)</b>	Enter the address line 1 (optional).
<b>Address 2 (unlabeled)</b>	Enter the address line 2 (optional).
<b>Zip</b>	Select the zip code (optional).
<b>City</b>	Enter the city (optional).
<b>St</b>	Select the state (optional).
<b>Zip Extension (unlabeled)</b>	Enter the zip extension (optional).

**Country** Select the country (required).  
**County** Select the county (optional).

- Save your entry.
- If there are additional vehicles associated with the application, press **F6** to refresh the **Vehicle** page and complete steps 3 and 4.

**To complete the Home page**

- Choose the **Home** tab.

- Select **Primary** if this is the main asset on the application.
- Use the application to supply the following required information on the **Home** page:

In this field:	Do this:
<b>Class</b>	Select the asset class (required).
<b>Type</b>	Select the asset type (required).
<b>Sub Type</b>	Select the asset sub type (required).
<b>Occupancy</b>	Select owner occupancy type (optional).
<b>Year</b>	Enter the year when the property was built (required).
<b>Make</b>	Enter the make of the home (optional).
<b>Model</b>	Enter the model of the home (optional).
<b>PO#</b>	Enter the asset purchase order number (optional).
<b>W</b>	Enter the asset width (optional).
<b>L</b>	Enter the asset length (optional).
<b>Id #</b>	Enter the home identification number (optional).
<b>Geo</b>	Enter the geographical code for the property (optional).
<b>BNA</b>	Enter census tract/BNA (block numbering area) code (optional).
<b>MSA</b>	Enter the metropolitan statistical area (MSA) code (optional).
<b>Desc</b>	Enter a description of the home (optional).
<b>Address</b>	Enter the building number (required).
<b>Address 1</b> (unlabeled)	Enter the address line 1 (required).
<b>Address 2</b> (unlabeled)	Enter the address line 2 (optional).
<b>Zip</b>	Select the zip code (required).

<b>City</b>	Enter the city (required).
<b>St</b>	Select the state (required).
Zip Extension (unlabeled)	Enter the zip extension (optional).
<b>Country</b>	Select the country (required).
County	Select the county (optional).

- 4 Save your entry.
- 5 If there are additional homes associated with the application, press **F6** to refresh the **Home** page and complete steps 3 and 4.

## To complete the Other page

- 1 Choose the **Other** tab.

- 2 Select **Primary** if this is the main asset on the application.
- 3 Use the application to supply the following required information on the **Other** page:

In this field:	Do this:
<b>Class</b>	Select the asset class (required).
<b>Type</b>	Select the asset type (required).
<b>Sub Type</b>	Select the asset sub-type (required).
<b>Status</b>	Select the asset status (required).
<b>Year</b>	Enter the year of the asset (required).
<b>Make</b>	Enter the make of the asset (optional).
<b>Model</b>	Enter the model of the asset (optional).
<b>Body</b>	Enter the body of the asset (optional).
<b>Id #</b>	Enter the asset identification number (optional).
<b>Registration #</b>	Enter the asset registration number (required).
<b>Desc</b>	View the asset description (display only).
<b>Address</b>	Enter the building number (optional).
<b>Address 1 (unlabeled)</b>	Enter the address line 1 (optional).
<b>Address 2 (unlabeled)</b>	Enter the address line 2 (optional).
<b>Zip</b>	Select the zip code (optional).
<b>City</b>	Enter the city (optional).
<b>St</b>	Select the state (optional).

Zip Extension (unlabeled)	Enter the zip extension (optional).
<b>Country</b>	Select the country (required).
County	Select the county (optional).

- 4 Save your entry.
- 5 If there are additional other assets associated with the application, press **F6** to refresh the **Other** page and complete steps 3 and 4.

## To complete the Valuations sub page

- 1 Choose the **Valuations** sub tab.

- 2 Use the application to supply the following information on the **Valuations** sub page:

### In this field:

### Do this:

Current	Select if this is the current valuation (optional).
<b>Valuation Dt</b>	Enter the valuation date (required).
<b>Source</b>	Select the valuation source (required).
Supplement	Enter the valuation supplement (optional).
Edition	Enter the valuation edition (optional).
<b>Wholesale</b>	Enter the wholesale value (required).
<b>Usage</b>	Enter the usage.
<b>Retail</b>	Enter the retail value (required).
<b>Usage Value +</b>	Enter the usage value; that is, the monetary effect that the current mileage has on the value of the vehicle (required).
Addons +	View the add-ons value (display only).
Total Value =	View the total value (display only).
<b>Addons/Attributes</b>	Select the add-on/attribute (required).
Value	Enter the value of the attribute (optional).
<b>Amt</b>	Enter the add-on amount (required).

**Note:** Complete the Addons/Attributes, Value, and Amt fields for each of the asset's add-ons and attributes on the application.

- 3 Save your entry.

## Validating a credit application

When you first save the information on the Application Entry form, Oracle Daybreak assigns the application an application number in the App # field. When you have finished entering data on the Application Entry form, choose **Next Application** in the master block. Oracle Daybreak then performs the Application Entry Edits check of the application, looking for errors and warnings.

**If Oracle Daybreak finds an error**, a dialog box appears instructing you to review the **Edits** page and **Edit Details** sub page. You must correct all the listed errors before Oracle Daybreak changes the status of the application.

**If Oracle Daybreak finds a warning**, it should be addressed, but Oracle Daybreak allows you to complete the application and change its status without doing so.

### IMPORTANT:

The Edit Details sub page's errors and warnings are created during the setup process.

### To validate a credit application

- 1 Enter all the information associated with the application on the Application Entry form (see the **Entering Credit Applications** section for more details.)

- 2 When you are finished entering data, choose **Next Application**.

Oracle Daybreak checks information on the form using guidelines (edits) established during implementation.

- 3 On the Application Entry form, select the **Edits** tab.

The screenshot shows the Oracle Daybreak Application Entry form with the **Edits** tab selected. The form displays various fields for application details, including App #, Dt, App Company, Priority, CRB Pull, Joint, Cos, Underwriter, Purpose, Contact, Channel, Product, Lead #, and Producer. Below these fields, there are tabs for **Primary Applicant**, **Other Applicants**, **Loan**, **Line of Credit**, **Lease**, **Vehicle**, **Home**, **Other**, **Business**, and **Edits**. The **Edits** tab is active, showing a table with columns for **Edit Name**, **Result**, **Expected Value**, and **Actual Value**. The table contains one row with a blue square icon in the **Edit Name** column, indicating an error or warning.

- 4 On the **Edits Detail** sub page is a list of errors. Complete the tasks or missing information listed in the **Edit Name** column labeled ERROR in the **Results** column.
- 5 When you are finished correcting errors, use the master block, choose **Next Application**.
- 6 On the **Edits Detail** sub tab is a list of warnings. Complete the tasks or missing information listed in the **Edit Name** column labeled WARNING in the **Results** column.

- When you are finished correcting warnings, use the master block choose **Next Application**.

Oracle Daybreak begins processing the credit application.

If there are other applications waiting to be entered, the next application in your queue appears on the Application Entry form. You can close the form without making or saving any entries.

## Processing a credit application

If Oracle Daybreak succeeds in validating the data on the Application Entry form, it begins the background processes of completing the Application Prescreening Edits check, sending a credit report request to the credit bureau, and auto decisioning the application with the Oracle Daybreak credit score.

## Returning to an unfinished application

You can return to any unfinished application, both those that are entered with images and those without, provided the unfinished application has been saved and received an application number.

An unfinished application - one that has been saved and has received an application number, yet has not completed the edits check - will appear on the Underwriting form with a status of NEW - BLANK.

Click on the application to load it and continue with application entry.

The screenshot shows the Oracle Daybreak Underwriting form. At the top, there is a header bar with the text "(Underwriting)(Pending Request: 0)". Below this is a form section titled "Application" with various input fields for App #, Dt (11/04/2005), Joint, Cos, Purpose, Priority, Status, Company, Product, Existing Customer, Dup, Contact, Channel, Producer, and Sales Agent. Below the form section is a tabbed interface with tabs for Search (1), Applicants (2), Decision (3), Bureau (4), Collateral (6), Comments (7), Image (8), Verification (9), and Tools (10). The "Results" tab is selected, showing a table of applications. The table has columns for Company, Branch, Priority, App #, Date, Title, Product, Status, and Producer. A red box highlights the "Status" column, which contains the value "NEW-BLANK" for all four rows. Below the table is a "Queue Name" input field and a "Secured Application" checkbox. At the bottom right are buttons for "Copy Application" and "Next Application".

Company	Branch	Priority	App #	Date	Title	Product	Status	Producer
SSFC	HQ	NORMAL	0000069141	06/08/2004	UNDEFINED	LEASE VEHICLE	NEW-BLANK	GA-00001 : AUTO SOURCE OF M...
SSFC	HQ	NORMAL	0000078135	06/16/2004	UNDEFINED	LEASE VEHICLE	NEW-BLANK	CA-00003 : ACE HEADQUARTERS
SSFC	HQ	NORMAL	0000083135	06/23/2004	MEHDI JERRY	LEASE VEHICLE	NEW-BLANK	HI-00001 : KAUAI MITSUBISHI
SSFC	HQ	NORMAL	0000097135	06/29/2004	CICERO JERRY	LEASE VEHICLE	NEW-BLANK	CA-00003 : ACE HEADQUARTERS

## CHAPTER 3 : SEARCHING FOR APPLICATIONS

This chapter explains how to use the Search page found on the Underwriting, Funding, and Customer Service forms to search for and retrieve applications.

### Loading applications using queues

Oracle Daybreak can be configured so that when you open the Underwriting or Funding form, the applications in your work queue automatically appear on the Results page. You can be assigned to work more than one queue. The queue to which each application is assigned appears in the Queue Name field.

Company	Branch	Priority	App #	Date	Title	Product	Status	Producer
SSFC	HQ	HIGH	0000168234	03/01/2001	CINQUEFOIL EVE / CINQUEFOIL DALE	LEASE VEHICLE	NEW-REVIEW REQUIRED	HI-00003 : HAWAII MITSUBISHI-PE
SSFC	HQ	NORMAL	0000058135	06/04/2004	BRENNER PETER / TAMMY	LEASE VEHICLE	NEW-REVIEW REQUIRED	CA-00005 : AUTO JUNGLE
SSFC	HQ	NORMAL	0000062135	06/04/2004	HUNTINGTON CHRIS / KIM	LEASE VEHICLE	NEW-REVIEW REQUIRED	CA-00003 : ACE HEADQUARTERS
SSFC	HQ	NORMAL	0000062136	06/04/2004	CARRUTHERS CHAD	LEASE VEHICLE	NEW-REVIEW REQUIRED	FL-00005 : TEXAS AUTO MART IN
SSFC	HQ	NORMAL	0000065136	06/04/2004	TRACY SUSAN	LEASE VEHICLE	NEW-RECOMMEND REJECT	FL-00001 : FL AUTO CENTER, INC
SSFC	HQ	NORMAL	0000065138	06/04/2004	BROWN JOHN / CATE	LEASE VEHICLE	NEW-RECOMMEND REJECT	CA-00003 : ACE HEADQUARTERS
SSFC	HQ	NORMAL	0000066140	06/04/2004	PETERSON PETER / DEBORAH	LEASE VEHICLE	NEW-RECOMMEND REJECT	CA-00003 : ACE HEADQUARTERS
SSFC	HQ	NORMAL	0000066142	06/04/2004	GREAT PETER / CATHERINE	LEASE VEHICLE	NEW-RECOMMEND APPRO	FL-00004 : USA AUTO CENTER, IN
SSFC	HQ	NORMAL	0000067135	06/04/2004	BROWN JOHN	LEASE VEHICLE	NEW-RECOMMEND REJECT	CO-00001 : PHIL LONG MITSUBISHI
SSFC	HQ	NORMAL	0000068136	06/04/2004	DITMAN BRAD	LEASE VEHICLE	NEW-RECOMMEND APPRO	CA-00003 : ACE HEADQUARTERS

You can begin processing the applications in the order of which they are listed, double-clicking on the application at the top of the list to load it.

## Using the Search page

When using the Underwriting, Funding, or Customer Service forms, you may need to search for and retrieve a particular application. These three forms all contain the Search page that allows you to locate an application using a broad range of search criteria.

### To view the Search page on the Underwriting form

- 1 On the **Lending** menu, choose **Underwriting**.

The Underwriting form appears, opened at the Results page.

The screenshot shows the Underwriting form with the Results page selected. The form includes a search bar at the top with fields for App #, Dt, Joint, Cos, Purpose, Priority, Status, Company, Product, Existing Customer, Dup, Contact, Channel, Producer, and Sales Agent. Below the search bar are tabs for Search (1), Applicants (2), Decision (3), Bureau (4), Collateral (5), Comments (7), Image (8), Verification (9), and Tools (10). The Results page displays a table of results with columns for Company, Branch, Priority, App #, Date, Title, Product, Status, and Producer. The table contains 10 rows of data. At the bottom of the form, there are buttons for Queue Name, Secured Application, Copy Application, and Next Application.

Company	Branch	Priority	App #	Date	Title	Product	Status	Producer
SSFC	HQ	HIGH	0000168234	03/01/2001	CINQUEFOIL EVE / CINQUEFOIL DALE	LEASE VEHICLE	NEW-REVIEW REQUIRED	HI-00003 : HAWAII MITSUBISHI-PE
SSFC	HQ	NORMAL	0000058135	06/04/2004	BRENNER PETER / TAMMY	LEASE VEHICLE	NEW-REVIEW REQUIRED	CA-00005 : AUTO JUNGLE
SSFC	HQ	NORMAL	0000062135	06/04/2004	HUNTINGTON CHRIS / KIM	LEASE VEHICLE	NEW-REVIEW REQUIRED	CA-00003 : ACE HEADQUARTERS
SSFC	HQ	NORMAL	0000062136	06/04/2004	CARRUTHERS CHAD	LEASE VEHICLE	NEW-REVIEW REQUIRED	FL-00005 : TEXAS AUTO MART IN
SSFC	HQ	NORMAL	0000065136	06/04/2004	TRACY SUSAN	LEASE VEHICLE	NEW-RECOMMEND REJECT	FL-00001 : FL AUTO CENTER, INC
SSFC	HQ	NORMAL	0000065138	06/04/2004	BROWN JOHN / CATE	LEASE VEHICLE	NEW-RECOMMEND REJECT	CA-00003 : ACE HEADQUARTERS
SSFC	HQ	NORMAL	0000066140	06/04/2004	PETERSON PETER / DEBORAH	LEASE VEHICLE	NEW-RECOMMEND REJECT	CA-00003 : ACE HEADQUARTERS
SSFC	HQ	NORMAL	0000066142	06/04/2004	GREAT PETER / CATHERINE	LEASE VEHICLE	NEW-RECOMMEND APPRO	FL-00004 : USA AUTO CENTER, IN
SSFC	HQ	NORMAL	0000067135	06/04/2004	BROWN JOHN	LEASE VEHICLE	NEW-RECOMMEND REJECT	CO-00001 : PHIL LONG MITSUBISHI
SSFC	HQ	NORMAL	0000068136	06/04/2004	DITMAN BRAD	LEASE VEHICLE	NEW-RECOMMEND APPRO	CA-00003 : ACE HEADQUARTERS

- 2 Choose the **Search** tab.

The screenshot shows the Underwriting form with the Search page selected. The form includes a search bar at the top with fields for App #, Dt, Joint, Cos, Purpose, Priority, Status, Company, Product, Existing Customer, Dup, Contact, Channel, Producer, and Sales Agent. Below the search bar are tabs for Search (1), Applicants (2), Decision (3), Bureau (4), Collateral (6), Comments (7), Image (8), Verification (9), and Tools (10). The Search page displays a table of search criteria with columns for Criteria, Comparison Operator, and Value. The table contains 18 rows of data. At the bottom of the form, there are buttons for Search, Reset Criteria, and Search.

Criteria	Comparison Operator	Value
APPLICATION #	LIKE	
APPLICATION DT	>=	
APPLICATION STATUS	LIKE	
APPLICATION SUB STATUS	LIKE	
UNDERWRITER	LIKE	
PRODUCT	LIKE	
APPLICANT LAST NAME	LIKE	
APPLICANT SSN	=	
VIN	LIKE	
YEAR	=	
MAKE	LIKE	
MODEL	LIKE	
ASSET TYPE	LIKE	
PRODUCER #	LIKE	
PRODUCER NAME	LIKE	

## To view the Search page on the Funding form

- 1 On the **Lending** menu, choose **Funding**.

The Funding form appears, opened at the Results page.

The screenshot shows the 'Funding' form with the 'Results' tab selected. The 'Application' section at the top contains various input fields: App #, Dt (11/07/2005), Joint, Cos, Purpose, Priority, Status, Company, Product, Existing Customer, Dup, Contact, Channel, Producer, and Sales Agent. Below this is a navigation bar with tabs: Search (1), Applicants (2), Decision (3), Contract (5), Collateral (6), Comments (7), Image (8), Verification (9), and Tools (10). The 'Results' tab is active, showing a table with columns: Company, Branch, Priority, App #, Date, Title, Product, Status, and Producer. The table is currently empty. Above the table, there are 'Sort' options for Primary and Secondary Sort Order, both set to 'NONE', with radio buttons for 'A' and 'D'. A 'Srt' button is next to the Secondary Sort Order. A 'View All' link is also present. At the bottom, there is a 'Queue Name' field, a 'Secured Application' checkbox, and 'Copy Application' and 'Next Application' buttons.

- 2 Choose the **Search** tab.

The screenshot shows the 'Funding' form with the 'Search' tab selected. The 'Application' section at the top is the same as in the previous screenshot. The navigation bar is the same, but the 'Search' tab is active. The 'Search Criteria' section is displayed, showing a list of criteria with comparison operators and value fields. The criteria listed are: APPLICATION #, APPLICATION DT, APPLICATION STATUS, APPLICATION SUB STATUS, UNDERWRITER, PRODUCT, APPLICANT LAST NAME, APPLICANT SSN, VIN, YEAR, MAKE, MODEL, ASSET TYPE, PRODUCER #, and PRODUCER NAME. The comparison operators are: LIKE, >=, LIKE, LIKE, LIKE, LIKE, LIKE, =, LIKE, =, LIKE, LIKE, LIKE, LIKE, LIKE, and LIKE. The value fields are empty. Below the search criteria is a 'Search' button, and below that are 'Reset Criteria' and 'Search' buttons.

## Search criteria

In querying the Oracle Daybreak database, search criteria allows you to locate applications. Search criteria is a filter consisting of *criteria* (such as an account number, account status, customer social security number, and so on), comparison *operators*, or “codes” (see below), and *values* (the data to search for). Oracle Daybreak uses the following comparison operators in creating search criteria:

Code	Description	Example Expression
<	less than	APPLICATION DATE < 01/22/2002 <b>Result:</b> Oracle Daybreak searches for all applications created before Jan. 22, 2002.
< =	less than or equal to	APPLICATION DATE <= 01/22/2002 <b>Result:</b> Oracle Daybreak searches for all applications created on or before Jan. 22, 2002.
=	equal	APPLICANT SSN = 111-22-3333 <b>Result:</b> Oracle Daybreak searches for all applications with an applicant whose social security number is 111-22-3333.
< >	not equal	APPLICANT SSN <> 111-22-3333 <b>Result:</b> Oracle Daybreak searches for all applications except those with an applicant whose social security number is 111-22-3333.
>	greater than	APPLICATION DATE > 01/22/2002 <b>Result:</b> Oracle Daybreak searches for all applications created after Jan. 22, 2002.
> =	greater than or equal to	APPLICATION DATE >= 01/22/2002 <b>Result:</b> Oracle Daybreak searches for all applications created on or after Jan. 22, 2002.
IN	in	ACCOUNT NUMBER IN (20001000012512, 20010100012645, 20010300012817) <b>Note:</b> IN is used with values that are within parenthesis. <b>Result:</b> Oracle Daybreak searches for the applications with the account numbers of 20001000012512, 20010100012645, and 20010300012817.)
NOT IN	not in	ACCOUNT NUMBER NOT IN (20001000012512, 20010100012645, 20010300012817) <b>Note:</b> NOT IN is used with values that are within parenthesis. <b>Result:</b> Oracle Daybreak searches for all applications except those with the account numbers of 20001000012512, 20010100012645, and 20010300012817.)

IS	is	VIN IS NULL <b>Note:</b> IS is only used with a value of “NULL.” It allows you to search for criteria that has no value; that is, fields where no information is present. <b>Result:</b> Oracle Daybreak searches for all applications without a vehicle identification number.
IS NOT	is not	VIN IS NOT NULL <b>Note:</b> IS NOT is only used with a value of “NULL.” It allows you to search for criteria that has any value; that is, fields where information is present. <b>Result:</b> Oracle Daybreak searches for all accounts with a VIN, vehicle identification number.
LIKE	like	ASSET TYPE LIKE VEH% <b>Note:</b> LIKE allows you to search for close matches using wildcard characters. <b>Result:</b> Oracle Daybreak searches for all applications with an asset type beginning with the characters “veh” such as “vehicle car” or “vehicle van.”
NOT LIKE	not like	ASSET TYPE NOT LIKE VEH% <b>Note:</b> NOT LIKE allows you to search for close matches using wildcard characters. <b>Result:</b> Oracle Daybreak searches for all applications with an asset type other than those starting with the characters “veh.”

**Note:** Choose **Reset Criteria** at any time to clear the **Comparison Operator** and **Values** columns on the **Search** page.

## A note about wildcard characters

- Wildcard characters can only be used with the operator LIKE and NOT LIKE.
- % (percent) represents any number of characters, including no characters.
- \_ (underline) represents any single character.

### Criteria value examples

Search criteria values of **1234%** will locate character strings of any length that *begin* with “1234”

- **1234**ACB
- **1234**5678
- **1234**
- **1234**8
- **1234**0980988234ABIL230498098

Search criteria values of **1234\_** will locate character strings of five characters that *begin* with “1234”

- **1234**5
- **1234**A
- **1234**0

Search criteria values of **%1234** will locate character strings of any length that *end* with “1234”

- **1234**
- 0**1234**
- 098908LKJLJLKJ00098807**1234**

Search criteria values of **\_1234** will locate five character strings that *end* in “1234”

- A**1234**
- 1**1234**

Search criteria values of **%1234%** will locate character strings of any length that *contain* “1234”

- **1234**
- 0**1234**
- **1234**0
- AKJLKJ**1234**128424

Search criteria values of **\_1234\_** will locate character strings of 6 characters that *contain* “1234”

- A**1234**B
- 0**1234**1
- A**1234**1

## Search criteria examples

Criteria	Comparison Operator	Value
APPLICATION DATE	=	05/01/2001

**Result:** Oracle Daybreak searches for all applications with an application date of May 1, 2001.

Criteria	Comparison Operator	Value
APPLICATION DATE	=	05/01/2001
APPLICATION NUMBER	>=	0000000278

**Result:** Oracle Daybreak searches for all applications with an application date of May 1, 2001 and an application number greater than or equal to 0000000278.

Criteria	Comparison Operator	Value
FIRST NAME	=	JAN

**Result:** Oracle Daybreak searches for all applications with an applicant with a first name of “JAN”

JAN ARBOR  
JAN FISHER

Criteria	Comparison Operator	Value
FIRST NAME	LIKE	JAN%

**Result:** Oracle Daybreak searches for all applications with an applicant with a first name of starting with “JAN”

JAN ARBOR  
JAN FISHER  
JANE MEYERS  
JANETTE NORDSTROM

## To use the Search page

- 1 In the **Search Criteria** block on the **Search** page, use the **Comparison Operator** and **Values** columns to create the search criteria you want to use to find an application.
- 2 Choose the **Search** button.

Oracle Daybreak locates and displays on the Results page all the applications that meet your search criteria in the Search Criteria block.

- On the **Underwriting** and **Funding** forms, the results are sorted according to 1) priority of application and 2) application identification number.

The Underwriting form's Results page.

You are now ready to begin work on the application.

## Using the Sort block

The Sort block allows you to sort the search results using one or two different fields. The **Primary Sort Order** and **Secondary Sort Order** fields have the following sort order entries:

- COMPANY
- BRANCH
- PRIORITY
- APP #
- DATE
- TITLE
- PRODUCT
- STATUS
- PRODUCER
- NONE

This list can be viewed as a drop down list for each field.

The screenshot shows the 'Sort' block in a software interface. A dropdown menu is open, displaying the following options: COMPANY, BRANCH, PRIORITY, APP\_NO, DATE, TITLE, PRODUCT, STATUS, and NONE. The 'DATE' option is currently selected. Below the dropdown, there are radio buttons for 'A' (Ascending) and 'D' (Descending), with 'A' being selected. To the right of these is a 'Sort' button. The background shows a table with columns: Company, Branch, Priority, App #, Date, Title, Product, Status, and Producer. The table is currently empty.

You can sort the search criteria using either the **Primary Sort Order** field or a combination of the **Primary Sort Order** field and the **Secondary Sort Order** field. You can also choose to view the results in an ascending or descending order by selecting the corresponding option button (**A** for ascending, **D** for descending) next to either field.

The following screen shot displays the unsorted results of a “View All” search.

The screenshot shows the search results interface. The 'View All' button is highlighted with a red box. The table displays the following data:

Company	Branch	Priority	App #	Date	Title	Product	Status	Producer
SSFC	HQ	HIGH	0000168234	03/01/2001	CINQUEFOIL EVE / CINQUEFOIL DALE	LEASE VEHICLE	NEW-REVIEW REQUIRED	HI-00003 : HAWAII MITSUBISHI-PE
SSFC	HQ	NORMAL	0000058135	06/04/2004	BRENNER PETER / TAMMY	LEASE VEHICLE	NEW-REVIEW REQUIRED	CA-00005 : AUTO JUNGLE

SSFC	HQ	NORMAL	0000067135	06/04/2004	BROWN JOHN	LEASE VEHICLE	NEW-RECOMMEND REJECT	CO-00001 : PHIL LONG MITSUBISHI
SSFC	HQ	NORMAL	0000068136	06/04/2004	DITMAN BRAD	LEASE VEHICLE	NEW-RECOMMEND APPRO	CA-00003 : ACE HEADQUARTERS

### To use the Search block

- 1 Follow steps 1 and 2 in **To use the Search page** section above.
- 2 In the **Sort** block, use the **Primary Sort Order** field to choose how you want to sort the search results. (Press the arrow keys or click the down arrow to view the fields contents).
- 3 Choose **A** to sort the results in ascending order  
or  
Choose **D** to sort the results in descending order.
- 4 To further sort your results, repeat steps 2 and 3 using the **Secondary Sort Order** field.
- 5 Choose **Sort**.  
Oracle Daybreak sorts the results on display.

## Other features on the Results page (Underwriting and Funding forms)

The Results page on the Underwriting form and Funding form share these common features (these features are not present on the Result page on the Customer Service form):

### What is it?

### What does it do?

#### View All box

If you choose View All, all applications in the Oracle Daybreak system accessible with your user id defined responsibility appear in the Results page list box.

#### Queue Name field

This display only field indicates which queue the selected application is currently in. (This is normally related to one or more of the following, based on setup: producer, state, or status.)

#### Secured Application box

Indicates that the selected application is secured (that is, that the applicant is an employee of the organization) and may only be loaded by authorized users.

#### Copy Application button

Creates a copy of the selected application. This feature is usually used when an applicant has submitted a previous application or when an applicant submits a second application and you don't want to retype the information.

#### Next Application button

Loads the next available unlocked application from the search results currently displayed. (**Note:** An unlocked application is one that is not currently opened by another Oracle Daybreak LS user).

If the Oracle Daybreak LS user that initially opened the Funding form and selected View All had attempted at that time to open either application 0000112227 and 0000120229, Oracle Daybreak LS would have identified the user who has opened (or "locked") on the Underwriting and Funding forms. In such cases, Oracle Daybreak displays a dialog box with the name and phone number of the user who has opened the application and offers the option of sending an email to request that person closes the application.

The screenshot shows the Oracle Daybreak Results page. At the top, there is a header bar with the text "(Underwriting)(Pending Request: 0)". Below this is a form for application details, including fields for App #, Product, Existing Customer, Dup, Contact, Channel, Producer, Sales Agent, and Company. Below the form is a tabbed interface with tabs for Search (1), Applicants (2), Decision (3), Bureau (4), Collateral (5), Comments (7), Image (8), Verification (9), and Tools (10). The Search tab is selected, and the Results section is active. The Results section shows a table with columns for Company, Branch, Priority, App #, Date, Title, Product, Status, and Producer. The first row of data is: SSFC, C01, NORMAL, 0000274182, 01/01/2001, CCARNATION GRAHAM / LISA, LEASE VEHICLE, NEW-REVIEW REQUIRED, NY-00004 : DENOVER MITSUBIS. A dialog box titled "Forms" is overlaid on the table, displaying a warning icon and the text: "Application is locked by: BFOGO Phone: 2223334444 Do you want to send a mail to the Locked User?". The dialog box has "Yes" and "No" buttons. At the bottom of the page, there is a Queue Name field set to "FUNDED APPLICATIONS QUEUE", a Secured Application checkbox, and buttons for Copy Application and Next Application.

The email is sent to the user's email address recorded on the Administration form's User page.

**Note:** Valid email address should be set up for each user in order to use this and other email functions efficiently.

If there are no applications available, Oracle Daybreak LS displays a Forms dialog box with the message "No Unlocked Application Found."

The screenshot displays the Oracle Daybreak LS application interface. At the top, there is a header bar with the text "Funding(Pending Request: 0)". Below this is a search and filter section with various input fields for "App #", "Date", "Joint", "Cos", "Purpose", "Priority", "Status", "Company", "Product", "Existing Customer", "Dup", "Contact", "Channel", "Producer", and "Sales Agent". A navigation bar below the search section contains tabs for "Search (1)", "Applicants (2)", "Decision (3)", "Contract (5)", "Collateral (6)", "Comments (7)", "Image (8)", "Verification (9)", and "Tools (10)". The main content area is divided into a "Results" section and a "Review Requests" section. The "Results" section shows a table of applications with columns for Company, Branch, Priority, App #, Date, Title, Product, Status, and Producer. A dialog box titled "Forms" is overlaid on the table, displaying the message "No Unlocked Application Found" with a red circular icon and an "OK" button. The table lists various applications, including those for "APPLICANT\_LIN FIRST / APPLICANT AC", "KRIST XYZ", "BLACKMAN HUNTER", "MATT", "LOC ACTUAL/360", "LOC ACC/360", "ROBBINS TIM", and "LOC ACC/360". The "Status" column shows various states like "APPROVED-BACK TO DEA", "CONDITIONED-BACK TO DE", "APPROVED-AGED CONTR", "APPROVED-FUNDED", "APPROVED-VERIFYING", and "APPROVED-FUNDED". The "Producer" column lists various companies like "AJS AUTO IMPORTS", "RANDYS AUTO SALE", "JENKINS INVESTMENT", "GRAND TRAVERSE AL", and "ACE HEADQUARTERS". At the bottom of the interface, there is a "Queue Name" field set to "CONTRACT VERIFICATION QUEUE", a "Secured Application" checkbox, and buttons for "Copy Application" and "Next Application".

## Copying an application

Using the Results page on the Underwriting or Funding forms, you can copy the information of an existing application into a new application. The new application will contain duplicated data of the application information, the requested loan information, credit bureau data, and collateral information. The new application will have a status/sub status of NEW - REVIEW REQUIRED.

### To copy an application

- 1 Open the **Underwriting** or **Funding** form and use the **Search** page to locate the application you want to copy.
- 2 Select the application you want to copy on the **Results** page.
- 3 Choose **Copy Application**.

YELLOWWOOD LOUISE / YELLOWWOOD MARTY (Underwriting)(Pending Request : 0)

**Application**

App # 0000237243 Dt 03/01/2001 Joint ☒ Cos ☐ Purpose  Priority NORMAL Status **NEW** REVIEW REQUIRED Company DCC HQ

Product LEASE VEHICLE Existing Customer ☐ Dup ☐ Contact  Channel WEB ENTRY Producer DEALER MN-00001 : IN HOUSE (DIREC Sales Agent

A Forms dialog box appears with the message “Do you want to copy application (number of application you selected)?”

- 4 Choose **Yes**.

A Forms dialog box appears with the message: “Application copy successful. New application # (new application number).”

- 5 Choose Ok.

Oracle Daybreak creates a new application with the new application number and the information from the duplicated application. The new application has a status of NEW - REVIEW REQUIRED and can be opened on the Underwriting form. Oracle Daybreak also notes that this is a copied application with a system generated comment.

## Archive / Purge feature

Oracle Daybreak includes a purge / archive feature that provides you with the capability to archive old data and store it in a different table. A Oracle Daybreak batch process runs the purge / archive feature based on the system parameter setup. Oracle Daybreak archives the following items:

- Applications and related data
- General ledger data
- Securitization related data
- Producers
- Producer transactions
- Vendor assignments
- Vendor invoices.

Oracle Daybreak purges the following items:

- Job request data
- User logins
- Output data dump related data.

In Oracle Daybreak, archiving is a two-way process:

- 1 All the archived data is moved and stored in O tables.
- 2 The archived data in the O tables is then moved and stored into OO tables.

You may set the “default days” for the archive feature by setting the following system parameters on the Administration form. The parameters marked with \_O are the items moved from O to OO tables. The other parameters are the items moved to O tables.

Parameter	Default Days	Description
PAP_ARCHIVE_DAYS	999	PURGE DAYS FOR APPLICATIONS LEVEL 1: PUR_APP_STATUS_CD IS USED TO DECIDE APPLICATIONS WITH WHAT STATUS ARE PURGED
PAP_OARCHIVE_DAYS	999	PURGE DAYS FOR APPLICATIONS LEVEL 2
PGL_ARCHIVE_DAYS	999	PURGE DAYS FOR GL LEVEL 1: NO OF DAYS AFTER THE GL TXN WAS CREATED
PGL_OARCHIVE_DAYS	999	PURGE DAYS FOR GL LEVEL 2
PJR_PURGE_DAYS	999	PURGE DAYS FOR JOB REQUEST LEVEL 1: NO OF DAYS AFTER JOB REQUEST COMPLETION DATE
POD_PURGE_DAYS	999	PURGE DAYS FOR OUTPUT DATA DUMP LEVEL 1: NO OF DAYS AFTER PROCESS RUN DATE
PPR_OARCHIVE_DAYS	999	PURGE DAYS FOR PRODUCERS LEVEL 2:

PPX_ARCHIVE_DAYS	999	PURGE DAYS FOR PRODUCER TXNS LEVEL 1: NO OF DAYS AFTER THE PRODUCER TXN WAS CREATED
PPX_OARCHIVE_DAYS	999	PURGE DAYS FOR PRODUCER TXNS LEVEL 2:
PST_ARCHIVE_DAYS	999	PURGE DAYS FOR STATEMENTS LEVEL 1: NO OF DAYS AFTER THE STATEMENT WAS GENERATED
PST_OARCHIVE_DAYS	999	PURGE DAYS FOR STATEMENTS LEVEL 2
PUL_PURGE_DAYS	999	PURGE DAYS FOR USER LOGINS LEVEL 1: NO OF DAYS AFTER THE LOGIN END DATE
PVA_ARCHIVE_DAYS	999	PURGE DAYS FOR VENDOR ASSIGN- MENTS LEVEL 1: NO OF DAYS AFTER THE ASSIGNMENT DATE AND ASSIGNMENT CODE IN COM- PLETED, VOID, CLOSE
PVA_OARCHIVE_DAYS	999	PURGE DAYS FOR VENDOR ASSIGN- MENTS LEVEL 2:
PVI_ARCHIVE_DAYS	999	PURGE DAYS FOR VENDOR INVOICE LEVEL 1: NO OF DAYS AFTER THE ASSIGNMENT DATE AND ASSIGN- MENT CODE IN VOID, CLOSE
PVI_OARCHIVE_DAYS	999	PURGE DAYS FOR VENDOR INVOICE LEVEL 2:

You can retrieve archived applications with the Application Retrieve form (**Lending** menu > **Application Retrieval** command). As of this release, you can only retrieve archived applications.

## To retrieve an archived application

- 1 On the **Lending** menu, choose **Application Retrieval**.

The Application Retrieve form appears.

The screenshot shows the 'Application Retrieve' window with the 'Search' tab selected. The 'Archive Applications Search' section contains a table with three columns: 'Criteria', 'Comparison Operator', and 'Value'. The 'Criteria' column lists various application attributes, and the 'Comparison Operator' column has 'LIKE' selected for the first row. The 'Value' column is empty. At the bottom, there are 'Reset Criteria' and 'Search' buttons.

Criteria	Comparison Operator	Value
APPLICATION #	LIKE	
APPLICATION DT	>=	
APPLICATION STATUS	LIKE	
APPLICATION SUB STATUS	LIKE	
UNDERWRITER	LIKE	
PRODUCT	LIKE	
APPLICANT LAST NAME	LIKE	
APPLICANT SSN	=	
VIN	LIKE	
YEAR	=	
MAKE	LIKE	
MODEL	LIKE	
ASSET TYPE	LIKE	
PRODUCER #	LIKE	
PRODUCER NAME	LIKE	

- 2 In the **Archive Applications Search** block on the **Search** page, use the **Comparison Operator** and **Values** columns to create the search criteria you want to use to find an application.
- 3 Choose the **Search** button.

Oracle Daybreak locates and displays on the Results page all the applications that meet your search criteria in the Search Criteria block.

The screenshot shows the 'Application Retrieve' window with the 'Results' tab selected. The 'Archive Applications' section displays a table with columns: 'Company', 'Branch', 'App #', 'Date', 'Title', 'Product', 'Status', and 'Producer'. The table is currently empty. Above the table, there are 'Sort' options for 'Primary' and 'Secondary' (both set to 'NONE') and a 'Retrieve' button.

Company	Branch	App #	Date	Title	Product	Status	Producer

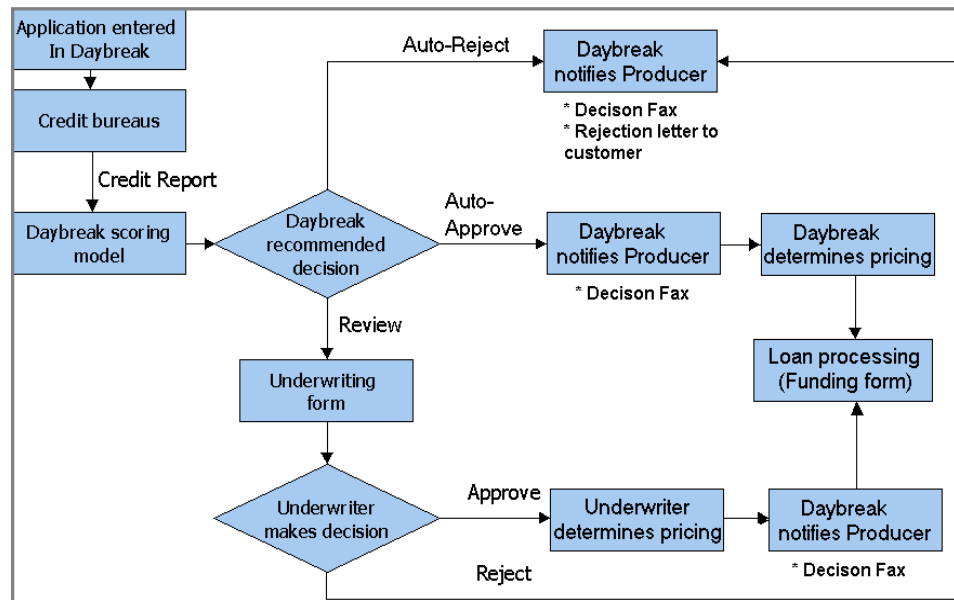

## CHAPTER 4 : UNDERWRITING

Underwriting is the next step after application entry in the lease origination cycle. At the beginning of the underwriting process, the application has been entered into Oracle Daybreak, received an application number, and passed through the initial prescreening checks and received a credit bureau report. (Credit bureau pulls are based upon zip code setup.) Oracle Daybreak has assigned it a custom credit score and based on this, automatically updated its status, and sent the application to the appropriate queue. In doing so, one of three things has happened to the application:

- 1) The application passed all the prescreening requirements and was automatically approved based on the auto-decisioning process. Oracle Daybreak then automatically notifies the producer with a decision fax.
- or-
- 2) The application failed the prescreening requirements and was automatically rejected based on the auto-decisioning process. Again, Oracle Daybreak then automatically notifies the producer with a decision fax.
- or-
- 3) The application received a status requiring a manual review and was sent to the underwriting queue. It's now up to the underwriter to verify the data and manually change the status of the application.

The following flowchart depicts this process:

This chapter explains how to use Oracle Daybreak's Underwriting form to complete the following tasks:

- Load an application on the Underwriting form
- Verify the applicant information
- Verify the credit bureau data
- Calculate and validate the debt-to-income ratios
- Manually request a credit bureau report
- Add comments and tracking attributes
- Make a decision about an application
- Verify the edits
- Rehash an application
- Copy an application.

---

## **Underwriting with Oracle Daybreak (an overview)**

In Oracle Daybreak, the underwriting process follows these basic steps:

- 1 Open the Underwriting form and load the application you want to work with.
- 2 View and verify information about the applicant (and business, if present) supplied from the Application Entry form.
- 3 View information from the credit bureau report. This is display only information and cannot be edited.
- 4 View and verify information regarding the collateral.
- 5 Calculate and validate the debt-to-income ratios.
- 6 On the Lease page of the Decision (3) master tab, select the pricing for the application.
- 7 Complete the Stipulations, Itemizations, Checklist, Trade-In, Subvention sub pages, if necessary. (The Checklist sub page can be configured to display a list of tasks to follow when using the Underwriting form.)
- 8 If you are approving the lease, complete the Approved block on the Lease page of the Decision (3) master tab.

If you are rejecting the lease, complete the Stipulations sub page of the Decision (3) master tab with the Adverse Action Reasons.

- 9 Change the status of the application on the master block of the Underwriting form.
- 10 On the Verification (9) master tab, view any errors and warnings that prevent the status change.
- 11 Make changes to the application data that correct the errors until you can change the status of the application.

## Loading an application on the Underwriting form

The first step in the Underwriting process is to load the application you want to work with. This can be done either manually or automatically. You can manually select an application using the Search (1) master tab. If your system is configured to automatically load applications based on work queues, applications appear on the Results page when you open the Underwriting form.

The screenshot shows the Oracle Daybreak Underwriting form. The 'Search (1)' tab is active, displaying a table of applications. The 'Queue Name' field at the bottom is highlighted with a red box and contains the text 'NEW APPLICATIONS QUEUE'.

Company	Branch	Priority	App #	Date	Title	Product	Status	Producer

**Note:** Work queues can be set up to allocate applications to different underwriters or teams based on product type, funding type, underwriter, application status, application sub status, state, channel, dealer type, and dealer.

### To manually load an application

- 1 On the **Lending** menu, choose **Underwriting**.

The Underwriting form appears.

- 2 Use the **Search** and **Results** pages under the **Search (1)** tab to find and load the application you want to work with. (See the **Searching for Applications** chapter for more information on this process.)

Oracle Daybreak opens the Applicant (2) master tab, loaded with information about the application you selected.

## To automatically load an application

- 1 On the **Lending** menu, choose **Underwriting**.

The Underwriting form appears at the Results page. Applications automatically appear in the list box.

Queue Name: NEW APPLICATIONS QUEUE Secured Application ☒

- 2 Begin the underwriting process by selecting the first application on the list.

Oracle Daybreak opens the Applicant (2) master tab, loaded with information about the application you selected.

## Underwriting form's master block

The Underwriting form's master block displays information from the Application Entry form's master block, such as the application number, product, and producer.

In this field:	Do this:
App #	View the application number (display only).
Dt	View the application number (display only)
Joint	Joint application indicator. If selected, indicates this is a joint application.
Cos	Co-singed application indicator. If selected, indicates this is a co-signed application.
Purpose	Select or view the purpose of the application (optional).
<b>Priority</b>	Select or view the priority of the application (required).
<b>Status</b>	Select or view the status of the application (required).
Sub Status (unlabeled)	View the sub status of the application (display only).
<b>Company</b>	Select or view the company of the application (required).
Branch (unlabeled)	View the branch of the application (display only).
<b>Product</b>	Select or view the product of the application (required).
Existing Customer	Existing customer indicator. If selected, indicates this applicant has a previous account.
Dup	Duplicate application indicator. If selected, indicates this is a duplicate application.
Contact	Select or view the contact of the application (optional).
Channel	Select or view how the application was received (optional).
<b>Producer</b>	Select or view the producer type of the application (required).
<b>Producer (unlabeled)</b>	Select or view the producer of the application (required).
Sales Agent	Select or view the sales agent of the application (required).

## Verifying applicant information

Having selected and loaded an application, you can view the information about the applicant (s). This is information that was recorded on the Application Entry form or gathered during the credit pull. You can edit the data from the Application Entry form at anytime in the following steps. Remember to save your work with each change. Information from the credit bureau pull is available to view only.

(For more information about the individual fields on the pages and sub pages in this section, see the **Entering an Application** chapter.)

**Note:** If the actual application was attached as an image, you can view it by choosing the Image (8) master tab. This can be used to double-check data.

### To verify applicant information from the Applicants (2) master tab

- 1 Open the Underwriting form and load the application you want to verify.
- 2 Choose the **Applicants (2)** master tab, then choose the **Primary** tab.

12 Use the **Others** page to verify personal information about other applicants, including name, license, e-mail address, and the relationship (Type) to the primary applicant

**Note:** The **Others** page and sub pages only need to be verified if a secondary or joint applicant exists.

The **Others** sub pages are the same as the **Primary** sub pages, but contain information regarding the other applicant(s).

You can also complete the Other page and sub pages if you are adding an additional applicant to application before completing the Underwriting process.

13 Save any changes you made to the application.

## Verifying business information

If this application is an SME loan (defined in the Applicant (2) master tab Primary page's Class field as SMALL BUSINESS), the Applicants (2) master tab's Business tab is available. The Business pages displays the small business information recorded on the Application Entry form. You can edit the data from the Application Entry form at anytime in the following steps. Remember to save your work with each change.

**Note:** If there is no business information associated with the application, the Business tab is unavailable.

(For more information about the individual fields on the pages and sub pages in this section, see the **Entering an Application** chapter.)

### To verify business information from the Applicants (2) master tab

- 1 Open the Underwriting form and load the application you want to verify.
- 2 Choose the **Applicants (2)** master tab, then choose the **Business** tab.

The screenshot displays the JEFF HOOVER (Underwriting) application form. The top section contains application details: App # 0000551279, Dt 03/06/2008, Joint, Cos, Purpose PERSONAL LOAN, Priority HIGH, Status REJECTED, REHASHING, Company SSFC, C01, Product LEASE VEHICLE, Existing Customer, Dupl, Contact, Channel PHONE, Producer DEALER, CD-00001 : PHIL LONG MITSL, Sales Agent ABHINAV.

Below the application details is a tabbed interface with the following tabs: Search (1), Applicants (2), Decision (3), Bureau (4), Collateral (6), Comments (7), Image (8), Verification (9), and Tools (10). The Applicants (2) tab is selected, and within it, the Business tab is active.

The Business tab displays the following information:

Organization Type	Type of Business	Name of the Business	Legal Name	Tax ID #	Start Date	# of Employees (Curr)	# of Employees
GENERAL PARTNERSHIP	WHOLESALE	FERGONS	FERGONS, INC.	1231231233331	01/01/2001	45	60

Contact Person	Business Checking Bank	Bank Account Number	Avg Checking Balance	# of Locations	Management Since
JANET HEXUM	TCF FEDERAL	2342134234234	\$50,000.00	4	2003

Below the business information is a tabbed interface with the following tabs: Address, Telecoms, Financials, Liabilities, Partners, Affiliates, and Other Details. The Address tab is selected.

The Address Information section displays the following fields:

Type	Postal Type	#	Pre	Street Name	Street Type	Post	Apt No
BUSINESS	NORMAL ADC	4324		AHSLAND	WAY		

Address

City HOPKINS St MN Zip 55345 Country US Ph 444-555-1212

## Verifying credit bureau data

The Bureau (4) page on the Underwriting form displays the complete details of the credit report (if pulled) for an applicant. The data can be viewed as a text report or parsed into categorized sub pages. If there is a need for another pull for any applicant, it can be done here manually using the New Request block.

### To verify the credit bureau data using the Bureau (4) master tab sub pages

- 1 Open the **Underwriting** form and load the application with the credit bureau data you want to verify.
- 2 Choose the **Bureau (4)** master tab.

**Application**

**In this block:**

**View:**

**Trades**

Records of extended installment payments, mortgage, and revolving credit, as detailed in the credit bureau report.

**Statistical Trade Ages**

Ages of the oldest and newest trades, as well as the average age of the open and total trades.

**Bankruptcy**

The total number of times the applicant has applied for Chapter 7, Chapter 11, and Chapter 13 bankruptcies, recently and throughout life.

**Past Due**

The total number of times the applicant has been past due on payments by 30, 60, or 90 days in the last year, two years, and throughout life.

**Derogatory Trades**

Tradelines that an action other than being late was reported; this includes collections, repossessions, charge offs, and bankruptcies.

**Public Records**

Number of legal actions, including liens, public records, and judgments over the course of the applicant's life, as well as any that are currently open.

**Collection**

Trades referred to an outside vendor for collection.

**Scores**

View the FICO and bankruptcy scores.

8 Open the **Summary 2** sub page to view the following information:

### To view the credit bureau data on the **Bureau (4)** master tab as a text report

- 1 Open the **Underwriting** form and load the application with the credit bureau data you want to view.
- 2 Choose the **Bureau (4)** master tab.
- 3 Choose **Text Report**.  
Oracle Daybreak displays an ASCII text file of the information regarding the applicant from the credit bureau pull.
- 4 Use the scroll bar to view more information.

### To print the credit bureau data as a text report

- 1 Open the **Underwriting** form and load the application with the credit bureau data you want to print.
- 2 Choose the **Bureau (4)** master tab.
- 3 Choose **Text Report**.  
Oracle Daybreak displays an ASCII text file of the information regarding the applicant from the credit bureau pull.
- 4 Choose **Print Report** to send the information to the default printer.

## Verifying collateral information

Having selected and loaded an application, you can view the information about the collateral of the lease.

### To verify information about the collateral

- 1 Open the **Underwriting** form and load the application with the collateral you want to verify.
- 2 Choose the **Collateral (6)** master tab.

Depending on the type of collateral, the Vehicle, Home, or Other page appears.

The screenshot displays the Oracle Daybreak application interface for verifying collateral information. The top section shows the application details, including App # 0000183176, Dt 11/14/2007, Joint, Cos, Purpose VEHICLE, Priority NORMAL, Status APPROVED, BLANK, Company SSFC, HQ, Product LEASE, Existing Customer, Dup, Contact, Channel PHONE, Producer DEALER, MN-00007 : TEST, and Sales Agent TEST. The middle section shows the Collateral (6) master tab with tabs for Vehicle, Home, and Other. The Vehicle tab is active, showing details for a 2009 ASDF ASDF DUMMY vehicle. The bottom section shows the Valuation and Tracking tabs, with the Valuation tab active. The Valuation tab displays the current value of \$12,000.00, base value of \$15,000.00, and total value of \$15,000.00. The Addons table shows a single row with a value of \$15,000.00 and an amount of \$15,000.00.

Value	Wholesale	Retail
Base	\$12,000.00	\$15,000.00
Usage	0	\$0.00
Total Value =		\$15,000.00

Addon/Attribute	Value	Amt

- 3 Verify the information on the collateral page and its sub pages. (This is information that was recorded on the Application Entry form or gathered during the credit pull.)
- The **Vehicle** page and verify information about vehicles as collateral.

Oracle Daybreak validates the VIN if you add or modify the Identification Number field on the Customer Service form's Vehicle page.

## Interface with VINTEK (If interface is installed)

Using the Vintek interface, Oracle Daybreak retrieves the year, make, model, and body of the vehicle on the Vehicle page of the Underwriting, Funding, Customer Service, and Conversion App/Acc forms' Collateral master tab when you choose Vehicle Details. This time saving feature reduces data entry errors. Using the VIN entered in the Identification Number field, Oracle Daybreak populates the following fields in the Vehicle block:

- Year
- Make
- Model
- Body

If the Vintek interface is unable to retrieve information based on the VIN entered in the Identification Number field, Oracle Daybreak displays an error message.

If available, complete the **Usage Details** block with the following additional and required information. **Note:** Information in this block pertains only to leases. The Usage Details block records details about the allowed and extra mileage covered as part of the lease agreement:

- 7 Complete the **Tracking Item Details** block by entering information about a parameter in the corresponding the **Value** field.
- 8 Save any changes you made to the application.

## Calculating debt ratios

Oracle Daybreak offers powerful tools to the underwriter for analyzing an applicant's debt-to-income ratios (total of an applicant's debt obligation divided by that person's regular income). Oracle Daybreak calculates debt ratios in the Ratios block on the Summary sub page using the data in the Income and Liability blocks. Information in the Income block comes from the Application Entry form. The information in the Liability block comes from either the Application Entry form or the credit bureau pull.

An underwriter may also add information to the Income and Liability blocks during the underwriting process.

The debt-to-income ratios in the Ratios block can be recalculated by including or excluding information from the of the Income block, Liability block, and Financials sub page.

The Dedup Liabilities button removes duplicate ("de-dupes") liabilities that may be present from subsequent (manual) credit bureau pulls for nonspousal joint applications

### To calculate debt ratios

- 1 Open the **Underwriting** form and load the application with the ratios you want to validate.
- 2 Choose the **Applicants (2)** master tab.
- 3 Choose the **Primary** or **Others** tab, then choose the **Summary** sub tab.

- 3 In the **New Request** block, use the LOV to complete the following fields:

**In this field:**

**Do this:**

Applicant  
Spouse  
Bureau  
Report

Select the applicant (optional).  
Select the applicant's spouse (if applicable) (optional).  
Select the credit bureau (optional).  
Select the credit bureau report type (optional).

- 4 Choose **Create Request**.

Oracle Daybreak displays this information in the Bureau Details block to the right of the New Request block.

- 5 On the **Bureau (4)** page, select **Include Debt** and **Populate Debt** in the **Applicant/Customer Detail** block to populate the **Liability** block on the Applicants (2) page's Summary sub page with data from the credit bureau pull.
- 6 If you want to receive a copy of a previously pulled credit bureau report, enter the credit bureau reorder number in the **Credit Bureau Reorder #** field on the **Bureau Details** block. This allows you to receive a previously pulled credit report from Credco (currently other bureaus do not provide a copy) (optional).
- 7 Choose **Submit Request**.
- 8 Press **F8** to refresh the status of the credit request until the credit pull is completed.

Oracle Daybreak displays the latest status of the currently requested bureau report in the Bureau Details block. When the report pull process is complete, the Status field in the Applicant/Customer Detail block changes from PENDING to COMPLETED.

---

## Manually rescoring a credit bureau report

The Credit Score sub page on the Applicant (2) master tab displays the credit scores as configured within the Oracle Daybreak system. It also allows you to manually rescore a credit report.

### To manually rescore a credit bureau report

- 1 Open the **Underwriting** form and load the application for which you want to view Oracle Daybreak's credit scores.
- 2 Choose the **Applicant (2)** master tab, then choose the **Primary** tab.
- 3 Choose the **Credit Scores** sub tab.
- 4 In the **Rescore Applicant** block, select in the **Credit Report Id** field the bureau report you want to use to rescore the applicant.
- 5 Choose **Rescore**.

Oracle Daybreak displays the new information in the Credit Scores and Parameters blocks. This new score automatically appears in the System Recommendation block on the Decision (3) master tab.

## Entering comments

When using the Underwriting form, you can add comments to an application at any time in the underwriting process by using the Comments page.

### To add comments to an application

- 1 Open the **Underwriting** form and load the application to which you want to add comments.
- 2 Choose the **Comments (7)** master tab, then choose the **Comments** tab.

- 3 In the **Comments** page, enter the comments you want to attach to the application in the next available empty Command field. If the Comments page is filled, press **F6** to insert a new record.
- 4 Save the comments you added to the application.

## Entering tracking attributes

When using the Underwriting form, you can add tracking attribute information to an application at any time in the underwriting process by using the Tracking Attributes page.

### To add tracking attributes to an application

- 1 Open the **Underwriting** form and load the application to which you want to add tracking attributes.
- 2 Choose the **Comments (7)** master tab, then choose the **Tracking Attributes** page.

The screenshot shows the Oracle Daybreak Underwriting form, specifically the Tracking Attributes page. The form is titled "KARTHIK KARTHIK (Underwriting)(Pending Request: 0)". The top section contains application details: App # 0000293178, Dt 02/15/2009, Joint, Cos, Purpose, Priority NORMAL, Status NEW, RECOMMEND APP, Company SSFC, HQ, Product LEASE VEHICLE, Existing Customer, Dup, Contact, Channel WEB ENTRY, Producer DEALER, MI-00003: CAR COUNTRY (N) Sales Agent. Below this is a navigation bar with tabs: Search (1), Applicants (2), Decision (3), Bureau (4), Collateral (6), Comments (7), Image (8), Verification (9), Tools (10). The Comments (7) tab is selected, and the Tracking Attributes sub-tab is active. The Tracking section displays a table with columns "Parameter" and "Value". The "Sub Attribute" dropdown is set to "ALL". The table lists parameters such as SIC CODE, REVIEW DATE, and various APPLICATION LOAN ATTRIBUTE values (003 through 017), all of which are currently set to "NA". A "Create Tracking" button is located to the right of the table.

Parameter	Value
SIC CODE	NA
REVIEW DATE	NA
APPLICATION LOAN ATTRIBUTE 003	NA
APPLICATION LOAN ATTRIBUTE 004	NA
APPLICATION LOAN ATTRIBUTE 005	NA
APPLICATION LOAN ATTRIBUTE 006	NA
APPLICATION LOAN ATTRIBUTE 007	NA
APPLICATION LOAN ATTRIBUTE 008	NA
APPLICATION LOAN ATTRIBUTE 009	NA
APPLICATION LOAN ATTRIBUTE 010	NA
APPLICATION LOAN ATTRIBUTE 011	NA
APPLICATION LOAN ATTRIBUTE 012	NA
APPLICATION LOAN ATTRIBUTE 013	NA
APPLICATION LOAN ATTRIBUTE 014	NA
APPLICATION LOAN ATTRIBUTE 015	NA
APPLICATION LOAN ATTRIBUTE 016	NA
APPLICATION LOAN ATTRIBUTE 017	NA

- 3 Choose **Create Tracking**.  
Oracle Daybreak loads the tracking parameters.
- 4 If you want to reduce the list of parameters, select a sub-attribute in the **Sub Attribute** box.  
  
If your system has been configured to use the Sub Attribute field, only attributes in a particular group appear in the Parameter display.
- 5 Complete the **Tracking** block by entering the requested parameter in the **Value** field.
- 6 Save any changes you made to the application.

## Viewing an image

When using the Underwriting form, you can view any images attached to the application at any time by using the Image (8) master page.

### To view an image associated with an application

- 1 Open the **Underwriting** form and load the application with the image you want to view.
- 2 Choose the **Image (8)** master tab.

The **Fax Image** block contains the following display only fields:

#### In this field:

Fax Header  
 Image Id  
 Image Status  
 Page #  
 Of

#### View:

The fax header.  
 The image id.  
 The image status.  
 The page number.  
 The total number of pages.

The **Fax Image** block contains the following command buttons:

#### If you choose:

**Flip Image**  
**Print Image**  
**Pr**  
**Nx**  
**Up**  
**Dn**

#### Oracle Daybreak will:

Rotate the selected image.  
 Send the selected image to a predefined printer.  
 Display the previous page of the image (if one exists).  
 Display the next page of the image (if one exists).  
 Scroll up through the selected image.  
 Scroll down through the selected image.

Depending on the position of the application when it was faxed to Oracle Daybreak, the image may be inverted on the Underwriting form.

3 To rotate an upside-down image, choose **Flip Image** on the Underwriting form master block.

4 To navigate through the application:

- Use the scroll bar
- or-
- Choose **Dn** and **Up** on the Underwriting form.

The **Page #** and **Of** fields display what page is currently displayed in the Underwriting form and the total page length of the image.

5 To view other pages of the application, if they exist, choose **Nx** and **Pr** on the Underwriting form master block.

## Making a decision about an application

If the application was initially automatically approved, Oracle Daybreak displays its recommendations on the Decision (3) master tab.

If the application was initially automatically rejected, Oracle Daybreak displays its reasons on the Stipulation sub page.

If you choose to approve or reject the loan manually, you must manually select the pricing (rule) set by the portfolio company for a specific product. Oracle Daybreak validates this pricing against the information in the Requested and System Recommendation blocks. The information in the Requested block comes from the Application Entry form and can be edited.

- If the data meets your approval, change the status of the application to either APPROVED or REJECTED and enter any stipulations.
- If you choose to reject the application, change the status to REJECTED and enter the reasons for the adverse action on the Stipulations sub page.

**Note:** The Tools (10) master tab can be helpful when completing this section. For more information on its use, see the **Oracle Daybreak Tools** chapter.

### To verify the application decision data

- 1 Open the **Underwriting** form and load the application you want to verify.
  - 2 Choose the **Decision (3)** master tab.
- If you are underwriting a lease, use the **Lease** page appears to record the following information:

The screenshot displays the Oracle Daybreak application underwriting form for a lease vehicle. The form is titled "YYELLOWWOOD LOUISE / MARTY (Underwriting)(Pending Request: 0)". It features several tabs: Search (1), Applicants (2), Decision (3), Bureau (4), Collateral (6), Comments (7), Image (8), Verification (9), and Tools (10). The Decision (3) tab is currently selected, showing the "Requested" and "Approved" sections. The "Requested" section includes fields for Term (36), Pmt Amt (\$500.00), Capitalized Cost (\$30,000.00), and Subvention Plan. The "Approved" section includes fields for Approved Term (36), Rate (2.0000), Rent Factor (0.000833), Pmt Amt (\$500.00), Capitalized Cost (\$30,000.00), Residual % (20.000000), Grade (A GRADE), Buy Rate (0.0000), Buy Rent Factor (0.000000), Score (858), Bureau 1 (EFX), and Bureau 2. The "System Recommendation" section shows Decision (AUTO APPROVED), Grade (A GRADE), and Score (858). The "Stipulations" section is at the bottom, with a table for recording stipulations. The table has columns for Type, Code, Comment, Stips Satisfied (Yes, No, N/A), Verify By, and Verify Dt. A stipulation is listed with Type "STIPULATION REASONS", Code "APP-00111", and Comment "ID PROOF DOCUMENT".

Type	Code	Comment	Stips Satisfied	Verify By	Verify Dt
STIPULATION REASONS	APP-00111	ID PROOF DOCUMENT	Yes No N/A		

In this field:	Do this:
----------------	----------

Requested block

(**Note:** The Requested block displays information from the Application Entry form, though you may change these entries.)

<b>Term</b>	Enter the requested term (required).
<b>Pmt Amt</b>	Enter the requested payment amount (required).
<b>Capitalized Cost</b>	Enter the approximate cap cost (required).
Subvention Plan	View the requested subvention plan (display only).

System Recommendation block

(**Note:** This information is based on Oracle Daybreak's scoring model.)

Decision	View the system recommended decision (display only).
Grade	View the system recommended grade (display only).
Score	View the system recommended score (display only).

- 3 On the Underwriting form's **Lease** page, choose **Select Pricing**.

Oracle Daybreak determines the best pricing match of all enabled loan pricing strings in the Setup menu and displays the results in the Pricing and Approved blocks.

- If you are underwriting a **lease**, record the following information on the **Lease** page:

In this field:	Do this:
----------------	----------

Pricing block

Current	If selected, indicates that this is the current decision (display only).
Pricing	View the pricing (display only).
Decision Dt	View the decision date (display only).
Status	View the application status (display only).
Sub Status	View the application sub-status (display only).
Underwriter	View the underwriter id (display only).

Approved block

<b>Approved Term</b>	Enter the approved term (required).
<b>Rate</b>	Enter the approved rate (required).
Rent Factor	Enter the approved rent factor (display only).
<b>Pmt Amt</b>	Enter the approved payment amount (required).
<b>Capitalized Cost</b>	Enter the approved cap cost amount (required).
<b>Residual %</b>	Enter the approved residual percentage (required).
Buy Rate	View the buy rate (display only).
Buy Rent Factor	View the buy rent factor (display only).
<b>Grade</b>	Select the credit grade (required).
<b>Score</b>	Enter the credit score (required).
Bureau 1	Select the bureau 1 (optional).
Bureau 2	Select the bureau 2 (optional).
Bureau 3	Select the bureau 3 (optional).

- 4 If you are approving the application, complete the **Approved** block with the values you want to approve as an underwriter. You can update the default values that appeared when you selected the pricing string in step 3. (The Oracle Daybreak calculator may be of use when completing this block. For more information, see the **Oracle Daybreak Tools** chapter.)

The Underwriting form's **Lease** pages all share the **Stipulations**, **Itemizations**, **Checklist**, **Trade-In**, and **Multiple Offers** sub pages.

## Completing the Stipulations sub page

The Stipulations sub page allows to add any stipulations or reasons for adverse action you want to attach to the application. Stipulations are items that need to be addressed before the lease can be funded. If the application was automatically rejected during the application entry edits, Oracle Daybreak displays the automatically generated adverse action codes in this sub page.

### To add or view stipulations or reasons for adverse action

- 1 Open the **Underwriting** form and load the application you want to verify.
- 2 Choose the **Decision (3)** master tab, then choose the **Stipulations** sub tab.

The screenshot shows the Oracle Daybreak application form for 'YYELLOWWOOD LOUISE / MARTY (Underwriting)(Pending Request: 0)'. The 'Decision (3)' master tab is selected, and the 'Stipulations' sub tab is active. The form displays various fields for application details, pricing, and system recommendations. The 'Stipulations' section features a table with the following columns: Type, Code, Comment, Stips Satisfied (Yes, No, N/A), Verify By, and Verify Dt. A 'Load Stipulations' button is visible above the table.

- 3 Complete the **Stipulations** block with information about the stipulations you want to add to the application or reasons for adverse action.

#### In this field:

#### Do this:

##### Type

Select the reason type (required).

##### Code

Select the reason (required).

##### Comment

Enter the comment (required).

- If your Oracle Daybreak system is set up to manually load predefined stipulations, choose the **Load Stipulations** button (For more information, see the following section, **Loading Stipulations**.)
- 4 Use the **Yes/No/NA** buttons in the Stips Satisfied column to indicate if you verified the stipulation(s) in the Type field.
  - 5 Save the record.

After you save your entry, Oracle Daybreak updates the Verified By field with the user id of the person who selected Yes or No in the Stips Satisfied column and enters the date the change was made in the Verify Dt field.

## Copying stipulations

Oracle Daybreak allows you to automatically transfer stipulations from previous decisions on the Stipulations sub page with the Copy Stipulations button. This is particularly useful when you are rehashing an application and want to use the same stipulations as those in place for the previous decision.

## Loading stipulations

Oracle Daybreak supports the automatic generation of default stipulations on the Underwriting form's Stipulations sub page. The default stipulations can be maintained by company, branch, product, state, application status and application sub-status. When the application status changes (either manually and automatically), Oracle Daybreak populates the maintained stipulations with a Stips Satisfied indicator of "No." You can review and update the stipulations accordingly.

You have the option to manually load predefined stipulations by choosing the Load Stipulations button on the Stipulation page.

### To load predefined stipulations

- 1 Open the **Underwriting** form and load the application you want to verify.
- 2 Choose the **Decision (3)** master tab, then choose the **Stipulations** sub tab.
- 3 Choose **Load Stipulations**.

Oracle Daybreak loads the default stipulations in the Stipulations block.

- 4 Use the **Yes/No/NA** buttons in the Stips Satisfied column to indicate if you verified the stipulation(s) in the Type field.
- 5 Save the record.

## Completing the Itemization sub page

The Itemizations sub page allows you to add or verify any itemized amounts associated with the application. The list of itemizations is determined by the product you selected in the master block on the Application Entry form. The Itemizations sub page displays an itemization record of the amount financed, such as the cash price, cash down payment, trade-in, unpaid cash price balance and so on. Information that was entered on the Itemization sub page on the Application Entry form will appear in the Requested Amt column. Information that you enter as an underwriter in the Approved Amt column will appear in the Itemizations sub page on the Funding form.

### To add or view itemizations

- 1 Open the **Underwriting** form and load the application you want to verify.
- 2 Choose the **Decision (3)** master tab, then choose the **Itemizations** sub tab.

The screenshot shows the 'Yellowwood Louise / Marty (Underwriting)' form, specifically the 'Decision (3)' master tab and 'Itemizations' sub tab. The form is divided into several sections:

- Application:** Contains fields for App # (0000210175), Dt (11/01/2006), Joint (checked), Cos (checked), Purpose (Lease Vehicle), Priority (NORMAL), Status (NEW), REVIEW REQUIRED, Company (SSFC), and HQ.
- Search (1) Applicants (2) Decision (3) Bureau (4) Collateral (6) Comments (7) Image (8) Verification (9) Tools (10):** A row of tabs for navigating between different sections of the form.
- Requested:** Includes Term (36), Subvention Plan, Pmt Amt (\$500.00), and Capitalized Cost (\$30,000.00).
- Pricing:** Includes Current (checked), LEASE DEFAULT PRICING, Pricing, Decision Dt (02/04/2010), Status, Sub Status, and Underwriter (SSC).
- System Recommendation:** Includes Decision (AUTO APPROVED), Grade (A GRADE), and Score (858).
- Approved:** Includes Approved Term (36), Rate (2.0000), Rent Factor (0.000833), Pmt Amt (\$500.00), Capitalized Cost (\$30,000.00), Residual % (20.000000), Buy Rate (0.0000), Grade (A GRADE), Bureau 1 (EFX), Bureau 2, Bureau 3, Buy Rent Factor (0.000000), and Score (858).
- Itemizations:** A table with columns: Itemization, +/-, Requested Amt, Approved Amt, Discount Rate, and Comment. The table lists several itemizations with their respective amounts and rates.

Itemization	+/-	Requested Amt	Approved Amt	Discount Rate	Comment
ITM CASH SALES	+	\$0.00	\$0.00		
ITM SERVICE CONTRACT EXTENDED	+	\$0.00	\$0.00		
ITM DOWN PAYMENT TRADEIN	-	\$0.00	\$0.00		
ITM CREDIT INSURANCE LIFE	+	\$0.00	\$0.00		
ITM CREDIT INSURANCE DISABILITY	+	\$0.00	\$0.00		
ITM INSURANCE GAP	+	\$0.00	\$0.00		
ITM FILING FEE	+	\$0.00	\$0.00		
<b>Total</b>		<b>\$0.00</b>	<b>\$0.00</b>	<b>0.0000</b>	

- 3 Complete the **Itemizations** block with information:

#### In this field:

Itemization  
+/-

**Requested Amt**  
**Approved Amt**  
Discount Rate  
Comment

#### Do this:

View the itemization (display only).  
View whether the itemized amount is added or subtracted from the loan amount (display only).  
Enter the requested amount (required).  
Enter the approved amount (required).  
Enter the discount rate (optional).  
Enter a comment (optional).

- 4 Save your entry.

---

## Completing the Checklist sub page

Use the Checklist sub page to complete any remaining tasks in the decisioning process. The Checklist helps ensure the proper procedures are followed when approving the application by providing a list of required steps.

### To complete the Underwriting checklist

- 1 Open the **Underwriting** form and load the application you want to verify.
- 2 Choose the **Decision (3)** master tab, then choose the **Checklist** sub tab.

The screenshot displays the Oracle Daybreak application interface for the Checklist sub page. The top navigation bar includes tabs for Search (1), Applicants (2), Decision (3), Bureau (4), Collateral (6), Comments (7), Image (8), Verification (9), and Tools (10). The Decision (3) tab is selected, and the Checklist sub tab is active. The Checklist Actions section lists tasks such as 'DEBT RATIO CALCULATED?', 'NECESSARY CREDIT RATINGS OBTAINED?', and 'STIPULATE FOR TRADE?'. The 'Complete' checkbox is checked, and the 'Decision Checklist' button is visible.

- 3 If the Checklist sub page is empty, choose **Decision Checklist**.
- 4 Complete the tasks listed in the **Action** column of the **Checklist Actions** block.
- 5 Use the **Yes/No/NA** buttons to indicate whether or not you completed the task. You can use the **Comment** field to add remarks regarding any of the tasks.
- 6 When you are finished completing the tasks, choose **Complete** in the **Checklist** box.
- 7 Save the record.

---

## Completing the Trade-In sub page

The Trade-In sub page allows you to add or verify any trade-ins associated with the application. If there is any information regarding an itemized trade-in, use the Trade-In sub page to enter the details in Oracle Daybreak. (This sub page might already contain information supplied during the application entry process.)

### To complete the Trade-In sub page

- 1 Open the **Underwriting** form and load the application you want to work with.
- 2 Choose the **Decision (3)** master tab, then choose the **Trade-In** sub tab.

Select the asset type (required).

Select the asset sub-type (optional).

Enter the year of the asset (required).

Enter the make of the asset (required).

Enter the model of the asset (required).

Enter the body of the asset (optional).

Enter the identification number (optional).

View the asset description (display only).

Enter the wholesale value (required).

Enter the retail value (required).

Enter the addons value (required).

Enter the payoff amount (required).

View the total value (display only).

Enter the valuation date (optional).

Select the valuation source (optional).

Enter the valuation supplement (optional).

Enter the valuation edition (optional).

- 4 Save any changes you made on the application.

## Completing the Subvention sub page

With the Subvention page, you can review the subvention information from the Application Entry form and calculate the subvention amount, as well as override the calculated subvention amount. The participant's information is automatically populated based on the selected subvention plan.

### To complete the Subvention sub page

- 1 Open the **Underwriting** form and load the application you want to work with.
- 2 Choose the **Decision (3)** master tab, then choose the **Subvention** sub tab.

The screenshot shows the 'Subvention' sub page. At the top, there's an 'Application' section with fields for App #, Dt, Joint, Cos, Purpose, Priority, Status, REVIEW REQUIRED, Company, and Product. Below this is a navigation bar with tabs: Search (1), Applicants (2), Decision (3), Bureau (4), Collateral (6), Comments (7), Image (8), Verification (9), and Tools (10). The 'Decision (3)' tab is active, and the 'Subvention' sub tab is selected. The 'Subvention' section contains a table with columns: Plan, Description, Sub Plan Description, Subvention Type, Subvention Amt, and Include. Below this is a 'Participants' table with columns: Participant, Participant Type, Collection Method, Rate, Rent Factor, Calculation Method, Factor, Calculated Amount, Subvention Amt, and Include. The 'Subvention' table has one row with a plan ID of 1. The 'Participants' table has one row with a participant ID of 1. The 'Subvention' table has a 'Total Subvention Rate' and 'Total Subvention Amt' at the bottom.

- 3 On the **Subvention** sub page, view or complete the following fields:

#### In this field:

#### Do this:

##### Subvention block:

##### **Plan**

Description

##### **Sub Plan Description**

Subvention Type

##### **Subvention Amount**

Include

Select the subvention plan (required).

View the subvention plan description (display only).

Select the subvention sub plan. (required).

View the subvention type (display only).

View the subvention amount for the plan (required).

Select to indicate as an active record.

##### Participants block:

View the calculated subvention amount (display only).

<b>Subvention Amount</b>	Enter the subvention amount (required).
Total Subvention Rate	View the total subvention rate (display only).
Total Subvention Amount	View the total subvention amount (display only).

- 4 Select the **Initialize** button to reset the subvention amount to zero.
- 5 Select the **Calculate** button to calculate the subvention amount.
- 6 Save your entry.

## Completing the Multiple Offers sub page

When you choose Select Pricing on the Underwriting form's Decision (3) master tab pages, multiple offers appear on the new Multiple Offers sub page. Use the Multiple Offer sub page to select the offer you want to use.

### To view multiple pricing offers

- 1 Open the **Underwriting** form and load the application you want to verify.
- 2 Choose the **Decision (3)** master tab, then choose the **Multiple Offers** sub tab.

**Application**

Current	If selected, indicates that the pricing is current. <b>Note:</b> All the available pricings are selected as current.
Accepted	If selected, indicates that the pricing is accepted. Only one of the current pricings can be accepted.

## Changing the status of the application

- 1 On the Underwriting form's **Application** block, change the status of the application to either APPROVED, CONDITIONED, or REJECTED in the **Status** box.  
  
Oracle Daybreak checks the information on the Underwriting form using guidelines established during implementation.  
  
If Oracle Daybreak finds an error based on these guidelines, the following dialog box appears.
- 2 Choose **OK** to close the dialog box and begin verifying edits. (For more information, see the **Verifying edits** section in this chapter.)

## Verifying edits

Oracle Daybreak can be configured to automatically validate portions of an application when you attempt to change its status. The results of this data check appear on the **Verification (9)** tab's Edit page as an *Error*, a *Warning*, or an *Override*.

If it is an **Error**, Oracle Daybreak will not allow you change the application's status and approve the loan until you fix all the errors.

If it is a **Warning**, Oracle Daybreak allows you to change an application's status without correcting the matter. While you should still investigate the problem, Warning messages are of a lesser importance than Error messages.

If it is an **Override**, Oracle Daybreak displays a dialog box informing you that an override is needed; your responsibility level does not have the authority required to process this step. (Choose **Yes** on the dialog box to move the application to the queue of the user with the required authority.)

Oracle Daybreak can be configured to verify different sets of information; for example, Oracle Daybreak could check one set of data when checking application entries for completeness and another when approving auto loans. Each one of these "edit types" has its own set of "edit details."

**To verify the data required for decisioning the application**

- 1 Open the **Underwriting** form and load the application you want to validate.
- 2 Choose the **Verification (9)** master tab, then choose the **Edits** tab.

The screenshot shows the Oracle Daybreak Underwriting form. At the top, the 'Application' block contains fields for App # (0000293178), Dt (02/15/2009), Joint, Cos, Purpose, Priority (NORMAL), Status (NEW), RECOMMEND APPF, Company (SSFC), and HQ. Below this is a navigation bar with tabs: Search (1), Applicants (2), Decision (3), Bureau (4), Collateral (6), Comments (7), Image (8), Verification (9), and Tools (10). The 'Verification (9)' tab is selected, and the 'Edits' sub-tab is active. The 'Edit Type' block shows a list of edit types: 'APPLICATION PRESCREENING EDITS' and 'APPLICATION ENTRY EDITS'. The 'Edit Details' block contains a table with columns: Edit Name, Result, Expected Value, Actual Value, and Override Responsibility. The table is currently empty.

- 3 In the **Edit Type** block, select the type of edit you want to verify.  
**Note:** If the verification process you want to perform doesn't appear in the **Edit Type** block, use the **Edit Type** field's LOV to select it
- 4 Choose **Check Edits**.  
Oracle Daybreak checks the data for the verification process selected in the Edit Type block and displays the results in the Edit Details block.  
The Edit Details block contains the following display only information:  

In this field:	View this:
Edit Name	The edit.
Result	The result.
Expected Value	The expected value.
Actual Value	The actual value.
Override Responsibility	The override responsibility, if an override is required.
- 5 In the **Edit Details** block, view the verification results and begin making corrections on the Underwriting form.
- 6 When you are finished correcting errors, change the status of the application in the Underwriting form's master block **Status** field.  
After making a decision and successfully changing the status of the application, the Underwriting process is over.

## Viewing audits

The Audits page is a display only page that allows you track changes to the contents of predetermined fields (which fields are determined during set up). For example, the Audits page can be configured to monitor when the contents of the Status and Sub Status is changed. The Audits page lists the field that was changed, who made the change, when the change was made, and the old and new values in the field.

### To view the Audits page

- 1 Open the **Underwriting** form and load the application you want to validate.
- 2 Choose the **Verification (9)** master tab, then choose the **Audits** tab.

Record Id	Field	Old Value	New Value	Changed By	Changed Date
APPLICATION # : 0000293178				SSC	02/04/2010 06:56:33 AM
APPLICATION # : 0000293178				SSC	12/02/2009 02:03:47 AM
APPLICATION # : 0000293178				SSC	12/02/2009 12:58:42 AM
APPLICATION # : 0000293178				SSC	12/02/2009 12:38:27 AM

- 3 In the **Audit Details** block, view the following display only information:

#### In this field:

Record Id  
Field  
Old Value  
New Value  
Changed By  
Changed Date

#### View:

The record identifier for the record changed.  
The field which was changed.  
The old value of the column which was changed.  
The new value of the column which was changed.  
The user code who made the change.  
The date and time when the change was made.

## Viewing Status History

You can track the time it took a user to complete each stage of the application process with the History page. It displays:

- The date and time when an application changed status / sub status
- The user who changed the status / sub status
- The elapsed time of how long an application was in a particular status / sub status.

### To view the History page

- 1 Open the **Underwriting** form and load the application you want to validate.
- 2 Choose the **Verification (9)** master tab, then choose the **History** tab.

The screenshot shows the 'Application Status History' page. At the top, there's a header bar with the user 'KARTHIK KARTHIK (Underwriting)' and 'Pending Request: 0'. Below this is a form with various fields: App # (0000293178), Dt (02/15/2009), Joint (checkbox), Cos (checkbox), Purpose (text), Priority (NORMAL), Status (NEW), RECOMMEND APPF, Company (SSFC), HQ, Product (LEASE VEHICLE), Existing Customer (checkbox), Dup (checkbox), Contact (text), Channel (WEB ENTRY), Producer (DEALER), MI-00003 : CAR COUNTRY (IV), Sales Agent (text). Below the form is a navigation bar with tabs: Search (1), Applicants (2), Decision (3), Bureau (4), Collateral (6), Comments (7), Image (8), Verification (9), Tools (10). The 'Verification (9)' tab is selected. Below the navigation bar is a sub-tab bar with 'Edits', 'Audits', and 'History'. The 'History' sub-tab is selected. The main area is titled 'Application Status History' and contains a table with the following columns: Status, Sub Status, User Code, User Name, Start Date, End Date, and Elapsed Time. The table is currently empty.

- 3 In the **Application Status History** block, view the following display only information:

#### In this field:

Status  
Sub Status  
User Code

User Name

Start Date

End Date

Elapsed

#### View this:

The application status.

The application sub status.

The user code of the person who changed the status / sub status of the application.

The user name of the person who changed the status / sub status of the application.

The date and time when the application moved *to* that status.

The date and time when the application moved *from* that status.

The elapsed time between the status change.

## Rehashing an application

Once the application receives a status of APPROVED, REJECTED, or CONDITIONED you cannot change the information on the Underwriting form's Decision (3) pages. If you need to update or change the information, you must change the sub status of the application to REHASHING. This allows you to edit the Decision (3) pages and rework the application when new information is available.

### To rehash the application

- 1 Open the Underwriting form and load the application with the status of APPROVED, REJECTED, or CONDITIONED you want to change.
- 2 In the **Application** master block, select REHASHING in the **Sub Status** field.

The image displays two screenshots of a software application form titled 'LESSING CARTER / MIA (Underwriting)(Pending Request : 0)'. The form contains various fields for application details. In the top screenshot, the 'Status' field is set to 'REJECTED' and the 'Sub Status' field is set to 'AUTO REJECTED'. A red box highlights these two fields, and a red arrow points from this box to the bottom screenshot. In the bottom screenshot, the 'Status' field remains 'REJECTED', but the 'Sub Status' field has been changed to 'REHASHING', which is also highlighted with a red box.

										Sub Status	REHASHING
Company SSFC HQ											

- 3 Save the application.
- 4 After you enter the information required to decision the application, you can change the status to APPROVED, REJECTED, CONDITIONED, or WITHDRAWN. (For more information, see the section **Making a decision about an application** in this chapter.)

**Note:** Once the status is changed to APPROVED, REJECTED, CONDITIONED, or WITHDRAWN no further changes to the information on the Decision (3) page are possible.

## Aging an application

The Underwriting form can be configured so that applications will be moved to a separate queue after a certain amount of time. (This time frame is determined in setup). This applications receive a sub status of AGED APPLICATION. This housekeeping function allows you to keep your Oracle Daybreak system free of stagnant application by moving them into an archive.

## CHAPTER 5 : ORACLE DAYBREAK TOOLS

The Underwriting and the Funding forms both contain a Tools (10) master tab with a Lease calculator tab. When processing a lease, you can calculate either a payment or an interest rate. You can also view the amortization schedule. When you are processing a lease, you can calculate a payment, a rate/rent factor, a residual percent, or a gross capitalized cost. This information can then be used to complete blocks on the Decision (3) and Contract (5) master tabs.

On the Lending menu, the Tools command leads to the Lease Calculator sub commands. Both open the Calculator Tools form. This is similar to the calculator on the Underwriting and Funding form. However, the Calculator Tools form is a stand-alone page; it does not link calculations or loan information to any specific application at this time.

If you are processing a vehicle loan, the Vehicle Evaluator tab is available. This allows you to calculate the value of a vehicle with the NADA interface.

---

## Using the Lease Calculator page (Tools master tab)

The lease calculator works in one of four modes, depending on which of the following options you select in the Action block:

- Calculate Payment
- Calculate Rate/Rent Factor
- Calculate Residual Percent
- Calculate Gross Capitalized Cost.

The **Calculate Payment** mode calculates the base monthly payment using the information provided: the gross capitalized cost, capitalized cost reduction, residual percentage, rate, and lease term.

The **Calculate Rate/Rent Factor** mode calculates the rate and the rent factor using the gross capitalized cost, capitalized cost reduction, residual percent, lease term, and base monthly payment.

The **Residual Percent** mode calculates the residual percent using the gross capitalized cost, capitalized cost reduction, rate, lease term, and base monthly payment.

The **Gross Capitalized Cost** mode calculates the gross capitalized cost using the capitalized cost reduction, residual percent, rate, lease term, and base monthly payment.

**Note:** If you want to clear (or “refresh”) the lease calculator at any time, choose **Initialize** in the **Action** block.

**To calculate a lease payment (Tools master tab)**

- 1 On the **Lending** menu, choose **Underwriting** or **Funding** and load the lease application you want to work with. (See the chapter **Searching for Applications** for more information.)
- 2 Choose the **Tools (10)** master tab, then choose the **Lease Calculator** tab.

- 3 In the **Action** block, choose **Calculate Payment**.
- 4 In the **Lease Details** block, complete the following fields:

In this field:	Do this:
<b>Contract Dt</b>	Enter the contract date (required).
<b>First Pmt Dt</b>	Enter the first payment date (required).
Maturity Dt	View the maturity date (display only).
<b>Gross Capitalized Cost</b>	Enter the gross capitalized cost (required).
<b>Capitalized Cost Reduction</b>	Enter the capitalized cost reduction (required).
Adjusted Capitalized Cost	View the adjusted cap cost (display only).
Residual Value (-)	View the residual value (display only).
<b>Residual %</b>	Enter the residual percentage (required).
Depreciation Value (=)	View the depreciation (display only).
Rent Charge (+)	View the rent (display only).
<b>Rate</b>	Enter the rate (required).
Rent Factor	View the rent factor (display only).
Total of Base Monthly Pmts (=)	View the total of payments (display only).
<b>Lease Term (/)</b>	Enter the term (required).

- 5 In the **Action** block, choose **Calculate**.  
Oracle Daybreak completes the Base Monthly Payment (=) field on the Lease Details block.

### To calculate a rate/rent factor (Tools master tab)

- 1 On the **Lending** menu, choose **Underwriting** or **Funding** and load the lease application you want to work with.
- 2 Choose the **Tools (10)** master tab, then choose the **Lease Calculator** tab.
- 3 In the **Action** block on the **Lease** page, choose **Calculate Rate/Rent Factor**.
- 4 In the **Lease Details** block, complete the following fields:

In this field:	Do this:
<b>Contract Dt</b>	Enter the contract date (required).
<b>First Pmt Dt</b>	Enter the first payment date (required).
Maturity Dt	View the maturity date (display only).
<b>Gross Capitalized Cost</b>	Enter the gross capitalized cost (required).
<b>Capitalized Cost Reduction</b>	Enter the capitalized cost reduction (required).
Adjusted Capitalized Cost	View the adjusted cap cost (display only).
Residual Value (-)	View the residual value (display only).
<b>Residual %</b>	Enter the residual percentage (required).
Depreciation Value (=)	View the depreciation (display only).
Rent Charge (+)	View the rent (display only).
Total of Base Monthly Pmts (=)	View the total of payments (display only).
<b>Lease Term (/)</b>	Enter the term (required).
<b>Base Monthly Payment (=)</b>	Enter the payment amount (required).

- 5 In the **Action** block, choose **Calculate**.

Oracle Daybreak completes the Rate and Rent Factor fields on the Lease Details block.

### To calculate a residual percent (Tools master tab)

- 1 On the **Lending** menu, choose **Underwriting** or **Funding** and load the lease application you want to work with.
- 2 Choose the **Tools (10)** master tab, then choose the **Lease Calculator** tab.
- 3 In the **Action** block, choose **Calculate Residual Percent**.
- 4 In the **Lease Details** block, complete the following fields:

In this field:	Do this:
<b>Contract Dt</b>	Enter the contract date (required).
<b>First Pmt Dt</b>	Enter the first payment date (required).
Maturity Dt	View the maturity date (display only).
<b>Gross Capitalized Cost</b>	Enter the gross capitalized cost (required).
<b>Capitalized Cost Reduction</b>	Enter the capitalized cost reduction (required).
Adjusted Capitalized Cost	View the adjusted cap cost (display only).
Residual Value (-)	View the residual value (display only).
Depreciation Value (=)	View the depreciation (display only).
Rent Charge (+)	View the rent (display only).
<b>Rate</b>	Enter the rate (required).
Rent Factor	View the rent factor (display only).
Total of Base Monthly Pmts (=)	View the total of payments (display only).
<b>Lease Term (/)</b>	Enter the term (required).
<b>Base Monthly Payment (=)</b>	Enter the payment amount (required).

- 5 In the **Action** block, choose **Calculate**.

Oracle Daybreak completes the Residual % field on the Lease Details block.

### To calculate a gross capitalized cost (Tools master tab)

- 1 On the **Lending** menu, choose **Underwriting** or **Funding** and load the lease application you want to work with.
- 2 Choose the **Tools (10)** master tab, then choose the **Lease Calculator** tab.
- 3 In the **Action** block, choose **Calculate Gross Capitalized Cost**.
- 4 In the **Lease Details** block, complete the following fields:

In this field:	Do this:
<b>Contract Dt</b>	Enter the contract date (required).
<b>First Pmt Dt</b>	Enter the first payment date (required).
Maturity Dt	View the maturity date (display only).
<b>Capitalized Cost Reduction</b>	Enter the capitalized cost reduction (required).
Adjusted Capitalized Cost	View the adjusted cap cost (display only).
Residual Value (-)	View the residual value (display only).
<b>Residual %</b>	Enter the residual percentage (required).
<b>Depreciation Value (=)</b>	View the depreciation (display only).
Rent Charge (+)	View the rent (display only).
<b>Rate</b>	Enter the rate (required).
Rent Factor	View the rent factor (display only).
Total of Base Monthly Pmts (=)	View the total of payments (display only).
<b>Lease Term (/)</b>	Enter the term (required).
<b>Base Monthly Payment (=)</b>	Enter the payment amount (required).

- 5 In the **Action** block, choose **Calculate**.

Oracle Daybreak completes the Gross Capitalized Cost field on the Lease Details block.

## Using the Calculator Tools form's Lease Calculator page

The lease calculator works in one of four modes, depending on which of the following options you select in the Action block:

- Calculate Payment
- Calculate Rate/Rent Factor
- Calculate Residual Percent
- Calculate Gross Capitalized Cost.

The **Calculate Payment** mode calculates the base monthly payment using the information provided: the gross capitalized cost, capitalized cost reduction, residual percentage, rate, and lease term.

The **Calculate Rate/Rent Factor** mode calculates the rate and the rent factor using the gross capitalized cost, capitalized cost reduction, residual percent, lease term, and base monthly payment.

The **Residual Percent** mode calculates the residual percent using the gross capitalized cost, capitalized cost reduction, rate, lease term, and base monthly payment.

The **Gross Capitalized Cost** mode calculates the gross capitalized cost using the capitalized cost reduction, residual percent, rate, lease term, and base monthly payment.

**Note:** If you want to clear (or “refresh”) the lease calculator at any time, choose **Initialize** in the **Action** block.

### To calculate a lease payment (Calculator Tools form)

- 1 On the **Lending** menu, choose **Tools** then choose **Lease Calculator**.
- 2 In the **Action** block, choose **Calculate Payment**.
- 3 In the **Lease Details** block, complete the following fields:

In this field:	Do this:
<b>Contract Dt</b>	Enter the contract date (required).
<b>First Pmt Dt</b>	Enter the first payment date (required).
Maturity Dt	View the maturity date (display only).
<b>Gross Capitalized Cost</b>	Enter the gross capitalized cost (required).
<b>Capitalized Cost Reduction</b>	Enter the capitalized cost reduction (required).
Adjusted Capitalized Cost	View the adjusted cap cost (display only).
Residual Value (-)	View the residual value (display only).
<b>Residual %</b>	Enter the residual percentage (required).
Depreciation Value (=)	View the depreciation (display only).
Rent Charge (+)	View the rent (display only).
<b>Rate</b>	Enter the rate (required).
Rent Factor	View the rent factor (display only).
Total of Base Monthly Pmts (=)	View the total of payments (display only).
<b>Lease Term (/)</b>	Enter the term (required).

- 4 In the **Action** block, choose **Calculate**.

Oracle Daybreak completes the Base Monthly Payment (=) field on the Lease Details block.

### To calculate a rate/rent factor (Calculator Tools form)

- 1 On the **Lending** menu, choose **Tools** then choose **Lease Calculator**.
- 2 In the **Action** block on the **Lease** page, choose **Calculate Rate/Rent Factor**.
- 3 In the **Lease Details** block, complete the following fields:

In this field:	Do this:
<b>Contract Dt</b>	Enter the contract date (required).
<b>First Pmt Dt</b>	Enter the first payment date (required).
Maturity Dt	View the maturity date (display only).
<b>Gross Capitalized Cost</b>	Enter the gross capitalized cost (required).
<b>Capitalized Cost Reduction</b>	Enter the capitalized cost reduction (required).
Adjusted Capitalized Cost	View the adjusted cap cost (display only).
Residual Value (-)	View the residual value (display only).
<b>Residual %</b>	Enter the residual percentage (required).
Depreciation Value (=)	View the depreciation (display only).
Rent Charge (+)	View the rent (display only).
Total of Base Monthly Pmts (=)	View the total of payments (display only).
<b>Lease Term (/)</b>	Enter the term (required).
<b>Base Monthly Payment (=)</b>	Enter the payment amount (required).

- 4 In the **Action** block, choose **Calculate**.

Oracle Daybreak completes the Rate and Rent Factor fields on the Lease Details block.

### To calculate a residual percent (Calculator Tools form)

- 1 On the **Lending** menu, choose **Tools** then choose **Lease Calculator**.
- 2 In the **Action** block, choose **Calculate Residual Percent**.
- 3 In the **Lease Details** block, complete the following fields:

In this field:	Do this:
<b>Contract Dt</b>	Enter the contract date (required).
<b>First Pmt Dt</b>	Enter the first payment date (required).
Maturity Dt	View the maturity date (display only).
<b>Gross Capitalized Cost</b>	Enter the gross capitalized cost (required).
<b>Capitalized Cost Reduction</b>	Enter the capitalized cost reduction (required).
Adjusted Capitalized Cost	View the adjusted cap cost (display only).
Residual Value (-)	View the residual value (display only).
Depreciation Value (=)	View the depreciation (display only).
Rent Charge (+)	View the rent (display only).
<b>Rate</b>	Enter the rate (required).
Rent Factor	View the rent factor (display only).
Total of Base Monthly Pmts (=)	View the total of payments (display only).
<b>Lease Term (/)</b>	Enter the term (required).
<b>Base Monthly Payment (=)</b>	Enter the payment amount (required).

- 4 In the **Action** block, choose **Calculate**.

Oracle Daybreak completes the Residual % field on the Lease Details block.

### To calculate a gross capitalized cost (Calculator Tools form)

- 1 On the **Lending** menu, choose **Tools** then choose **Lease Calculator**.
- 2 In the **Action** block, choose **Calculate Gross Capitalized Cost**.
- 3 In the **Lease Details** block, complete the following fields:

In this field:	Do this:
<b>Contract Dt</b>	Enter the contract date (required).
<b>First Pmt Dt</b>	Enter the first payment date (required).
Maturity Dt	View the maturity date (display only).
<b>Capitalized Cost Reduction</b>	Enter the capitalized cost reduction (required).
Adjusted Capitalized Cost	View the adjusted cap cost (display only).
Residual Value (-)	View the residual value (display only).
<b>Residual %</b>	Enter the residual percentage (required).
<b>Depreciation Value (=)</b>	View the depreciation (display only).
Rent Charge (+)	View the rent (display only).
<b>Rate</b>	Enter the rate (required).
Rent Factor	View the rent factor (display only).
Total of Base Monthly Pmts (=)	View the total of payments (display only).
<b>Lease Term (/)</b>	Enter the term (required).
<b>Base Monthly Payment (=)</b>	Enter the payment amount (required).

- 4 In the **Action** block, choose **Calculate**.

Oracle Daybreak completes the Gross Capitalized Cost field on the Lease Details block.

---

## CHAPTER 6 : FUNDING

At this stage of the lease origination process, the application has been entered into Oracle Daybreak and approved manually by an underwriter or automatically by Oracle Daybreak. The next step is to view and complete the contract information and make a funding decision to finance or reject the application. This is accomplished by using the Funding form.

This chapter explains how to:

- Load an application on the Funding form
- Change the status of the application to begin the funding process
- Verify the applicant information
- View the credit pull and underwriting information
- Verify the collateral
- Add comments and tracking attributes
- Complete the Contract (5) (truth-in-lending details) pages and sub pages
- View an application's contract edits
- Audit changed fields and status history.
- Change the status at the end of the funding process.

---

## Funding with Oracle Daybreak (an overview)

In Oracle Daybreak, the funding process follows these basic steps:

- 1 Open the Funding form and load the application you want to work with.
- 2 Change the status of the application to APPROVED - VERIFYING.
- 3 Using the Applicants (2) master tab, view and verify information about the applicant (data recorded from the Application Entry form). This includes verifying the applicant's actual address and employment information.
- 4 Using the Decision (3) master tab, view and verify information supplied during the credit bureau pull and underwriting process. This is display only information and cannot be edited.
- 5 Using the Collateral (6) master tab, view and verify information regarding the collateral for the application.
- 6 Using the Contract (5) master tab, complete the truth-in-lending information.
- 7 In the Funding form's master block, change the status to FINAL DOCUMENT CHECK.
- 8 On the Verification (9) master tab, view any errors and warnings that prevent the status change.
- 9 Make changes to the application data that correct the errors until you can change the status.

When Oracle Daybreak changes the status of the application to FINAL DOCUMENT CHECK, it sends the application to a supervisor or loan officer queue where it is viewed and verified. After this, the application's status is changed to APPROVED - VERIFIED. If the supervisor/loan officer decides to fund the loan, he or she will change the status of the application to APPROVED - FUNDED. The application then becomes an account, and accounts are funded either manually or automatically.

---

## Loading an application on the Funding form

The first step in the funding process is to open the Funding form and manually or automatically load the application you want to work with. You can manually select an application using the Search (1) master tab. If your Oracle Daybreak system is configured to load applications based on work queues, applications automatically appear on the Results page when you open the Funding form.

### To manually load an application

- 1 On the **Lending** menu, choose **Funding**.  
The Funding form appears.
- 2 Use the **Search** and **Results** pages under the **Search (1)** master tab to find and load the application you want to work with. (See the **Searching for Applications** chapter for more information on this process.)

Oracle Daybreak opens the Applicant (2) master tab and loads the information about the selected application.

## To automatically load an application

- 1 On the **Lending** menu, choose **Funding**.  
The Funding form appears and opens at the Results page. Applications automatically appear in the list box.
- 2 Begin the funding process by selecting the first application on the list.  
Oracle Daybreak opens the Applicant (2) master tab and loads the information about the selected application.

---

## Funding form's master block

The Funding form's master block displays information from the Application Entry and Underwriting forms' master blocks, such as the application number, product, and producer.

In this field:	Do this:
App #	View the application number (display only).
Dt	View the application number (display only)
Joint	Joint application indicator. If selected, indicates this is a joint application.
Cos	Co-signed application indicator. If selected, indicates this is a co-signed application.
Purpose	Select or view the purpose of the application (optional).
<b>Priority</b>	Select or view the priority of the application (required).
<b>Status</b>	Select or view the status of the application (required).
Sub Status (unlabeled)	View the sub status of the application (display only).
<b>Company</b>	Select or view the company of the application (required).
Branch (unlabeled)	View the branch of the application (display only).
<b>Product</b>	Select or view the product of the application (required).
Existing Customer	Existing customer indicator. If selected, indicates this applicant has a previous account.
Dup	Duplicate application indicator. If selected, indicates this is a duplicate application.
Contact	Select or view the contact of the application (optional).
Channel	Select or view how the application was received (optional).
<b>Producer</b>	Select or view the producer type of the application (required).
<b>Producer (unlabeled)</b>	Select or view the producer of the application (required).
Sales Agent	Select or view the sales agent of the application (required).

---

## Changing the status to begin the funding process

After opening the Funding form and loading the application you want to work with, you must change its status to APPROVED - VERIFYING before you can begin the funding process. This allows you to begin working with the application.

### To change the status and begin work on the application

- 1 Open the **Funding** form and load application you want to verify.
- 2 In the Funding form's master block, use the Status field's LOV to select APPROVED - VERIFYING.
- 3 Save your entry.

You can now begin making changes to the application.

## Verifying applicant information

Having selected and loaded an application, you can use the Applicant (2) master tab to view information about the applicant (s). This is information that was recorded on the Application Entry form or gathered during the credit pull. You can edit the data from the Application Entry form at anytime in the following steps. Remember to save your work with each change. Information from the credit bureau pull is available to view only.

For more information about the fields on the pages and sub pages in this section, see the **Entering an Application** chapter.

**Note:** If the actual application was attached as an image, you can view it by choosing the Image (8) master tab. This can be used to double-check data.

### To verify information on the Applicants (2) master tab

- 1 Open the **Funding** form and load the application you want to verify.
- 2 Choose the **Applicants (2)** master tab.

Comment

**Note:** The **Business** sub pages on the Funding form are the same as the **Business** sub pages on the Underwriting form.

- 11 Save any changes you made to the application.

## Viewing underwriting information

On the Decision (3) master tab, Oracle Daybreak displays information gathered during the underwriting process. Depending on the type application you are working with, Oracle Daybreak will display either the Lease page. Each of these pages all share the following sub pages: Stipulations, Itemization, and Checklist. They are all view only pages; you cannot edit the contents.

**Note:** The fields on the Decision (3) master tab's pages and sub pages are described in detail in the **Underwriting** chapter.

### To verify the underwriting decision data

- 1 Open the **Funding** form and load the application you want to verify.
- 2 Choose the **Decision (3)** master tab.
  - If you are funding a lease, the **Lease** page appears.

The screenshot shows the Oracle Daybreak Decision (3) master tab, Lease page. The page is divided into several sections:

- Application:** Displays application details such as App # (0000373178), Dt (05/01/2009), Joint, Cos, Purpose (VEHICLE LOAN OR), Priority (NORMAL), Status (APPROVED), Company (SSFC), and Product (LEASE VEHICLE).
- Search (1), Applicants (2), Decision (3), Contract (5), Collateral (6), Comments (7), Image (8), Verification (9), Tools (10):** A navigation bar with tabs for different sections.
- Requested:** Displays requested details such as Term (24), Subvention Plan, Pmt Amt (\$15,000.00), and Capitalized Cost (\$135,000.00).
- Pricing:** Displays pricing details such as Current (LEASE DEFAULT PRICING), Pricing, Decision Dt (01/27/2010), Status (APPROVED), Sub Status (BLANK), and Underwriter (SSC).
- System Recommendation:** Displays system recommendation details such as Decision (BLANK), Grade, and Score (0).
- Approved:** Displays approved details such as Approved Term (24), Rate (2.0000), Rent Factor (0.000833), Pmt Amt (\$15,000.00), Capitalized Cost (\$135,000.00), Residual % (20.000000), Buy Rate (0.0000), Grade (G GRADE), Score (0), and Buy Rent Factor (0.000000).
- Stipulations:** A table with columns for Type, Code, Comment, Stips Satisfied (Yes, No, N/A), Verify By, and Verify Dt. The table contains several rows of data.

The Funding form's Lease pages all share the **Stipulations**, **Itemizations**, **Checklist**, and **Subvention** sub pages.

- Open the **Stipulations** sub page to view any stipulations or reasons for adverse action attached to the application. If a stipulation entry was verified on the Underwriting form, the Verified By field notes who verified the entry and the Verify Dt notes when the entry was verified.

The screenshot shows the 'Stipulations' sub page of the application system. The top section contains application details: App # 0000373178, Dt 05/01/2009, Joint, Cos, Purpose VEHICLE LOAN OR, Priority NORMAL, Status APPROVED, VERIFYING, Company SSFC, C01, Product LEASE VEHICLE, Existing Customer, Dup, Contact, Channel WEB ENTRY, Producer DEALER, NC-00004: BUDGET CAR SA, Sales Agent. Below this are tabs for Search (1), Applicants (2), Decision (3), Contract (5), Collateral (6), Comments (7), Image (8), Verification (9), and Tools (10). The 'Requested' section shows Term 24, Subvention Plan, Pmt Amt \$15,000.00, and Capitalized Cost \$135,000.00. The 'Pricing' section shows Current, LEASE DEFAULT PRICING, Status, Sub Status, Underwriter, and Decision Dt 01/27/2010. The 'System Recommendation' section shows Decision BLANK, Grade, and Score 0. The 'Approved' section shows Approved Term 24, Rate 2.0000, Rent Factor 0.000833, Pmt Amt \$15,000.00, Capitalized Cost \$135,000.00, Residual % 20.000000, Buy Rate 0.0000, Grade G GRADE, Bureau 1, Bureau 3, Buy Rent Factor 0.000000, Score 0, and Bureau 2. The 'Stipulations' section has tabs for Stipulations, Itemizations, Checklist, Subvention, and Multiple Offers. The 'Stipulations' table has columns for Type, Code, Comment, Stips Satisfied (Yes, No, N/A), Verify By, and Verify Dt.

- Open the **Itemizations** sub page to view any itemized amounts associated with the application, such as the cash price, cash down payment, trade-in, unpaid cash price balance, and so on.

The screenshot shows the 'Itemizations' sub page of the application system. The top section contains application details: App # 0000373178, Dt 05/01/2009, Joint, Cos, Purpose VEHICLE LOAN OR, Priority NORMAL, Status APPROVED, VERIFYING, Company SSFC, C01, Product LEASE VEHICLE, Existing Customer, Dup, Contact, Channel WEB ENTRY, Producer DEALER, NC-00004: BUDGET CAR SA, Sales Agent. ## Verifying the collateral

The Collateral (6) master tab contains pages with information regarding any collateral associated with an application. Depending on the type of lease, collateral can be a vehicle, home, or something else, such as major household appliances.

**Note:** A detailed explanation of the fields found on the **Collateral (6)** master tab's pages and sub pages can be found in the **Entering an Application** and **Underwriting** chapters.

### To verify information about the collateral

- 1 Open the **Funding** form and load the application with the collateral you want to verify.
- 2 Choose the **Collateral (6)** master tab, if it is available.

The screenshot shows the Oracle Daybreak software interface for the 'Collateral (6)' master tab. The window title is 'COTONEASTER MARIE / COTONEASTER HANK (Funding)(Pending Request : 0)'. The 'Application' section at the top contains fields for App # (0000000490), Dt (02/01/2001), Joint (checked), Cos, Purpose, Priority (NORMAL), Status (APPROVED), REHASHING, Company (SSFC), and HQ. Below this are fields for Product (LEASE VEHICLE), Existing Customer, Dup, Contact, Channel (FAX IN), Producer (DEALER), NC-00001 : AJS AUTO IMPOR, and Underwriter (TEDD). A navigation bar includes tabs for Search (1), Applicants (2), Decision (3), Contract (5), Collateral (6), Comments (7), Image (8), Verification (9), and Calculator (10). The 'Vehicle' sub-tab is active, showing fields for Primary Asset Class (NEW VEHICLE), Asset Type (VEHICLE), Sub Type (CAR), Identification Number (1234502899659089), Registration # (UNDEFINED), and Status (NOT DEFINED). It also includes fields for Year (2000), Make (MERCEDES), Model (E300), Body (4DR), Desc (2000 MERCEDES E300 4DR), Condition (GOOD CONDITIONED), Address (85202 TICE ST), City (CHASKA), St (MN), Zip (55321), and Country (US). A 'Usage Details' section on the right shows Start (0), Base (0), Extra (0), Total (0), and Charge (\$0.00). The 'Valuation' section at the bottom left shows 'Current' checked, Valuation Dt (02/02/2001), Source (BLACK BOOK), and a 'Get Value' button. It displays Wholesale and Retail values, with Base at \$10,000.00 and Total Value at \$11,000.00. The 'Addons' section on the bottom right is a table with columns for Addon/Attribute, Value, and Amt, showing a list of addons with empty value and amount fields.

- 3 Verify the information regarding the collateral and its sub pages. (This is information that was recorded on the Application Entry form or gathered during the credit pull.)

### Interface with VINTEK (If interface is installed)

Using the Vintek interface, Oracle Daybreak retrieves the year, make, model, and body of the vehicle on the Vehicle page of the Underwriting, Funding, Customer Service, and Conversion App/Acc forms' Collateral master tab when you choose Vehicle Details. This time saving feature reduces data entry errors. Using the VIN entered in the Identification Number field, Oracle Daybreak populates the following fields in the Vehicle block:

- Year
- Make
- Model
- Body

If the Vintek interface is unable to retrieve information based on the VIN entered in the Identification Number field, Oracle Daybreak displays an error message.

- The **Home** page contains information about homes used as collateral.

## Adding comments

Using the Funding form, you can add any number of comments pertaining to an application. Comments can be added at any time during the funding process.

### To add comments to an application

- 1 On the **Funding** form, choose the **Comments (7)** master tab.

Alert	Type	Sub Type	Comment
<input checked="" type="checkbox"/>	SYSTEM GENERATED	SYSTEM GENERATED	DECISION, MULTI-OFFER LETTER GENERATED. (CORRESPONDENCE: CNLNCE_DEC_MULTIOFFER_FAX JOB REQUEST ID: 1707660)

<input type="checkbox"/>			
<input type="checkbox"/>			
<input type="checkbox"/>			

- 2 In the **Type** block, use the LOV to select the type of comment you are adding.
- 3 In the **Sub Type** block, use the LOV to select the sub type of comment you are adding.
- 4 In the **Comments** block, type your comment.
- 5 If you want Oracle Daybreak to recognize this comment as an alert, selected **Alert**.
- 6 Save your entry.

## Entering tracking attributes

When using the Funding form, you can add tracking attribute information to an application at any time in the underwriting process by using the Comments page.

### To enter the comments for an application

- 1 Open the **Funding** form and load the application to which you want to add tracking attributes.
- 2 Choose the **Comments (7)** master tab, then choose the **Tracking Attributes** page.

The screenshot displays the Oracle Daybreak application interface. At the top, the title bar reads "MEHDI PETER / TAMMY (Funding) (Pending Request : 0)". Below this is the "Application" section with various fields: App # (0000098136), Dt (06/29/2004), Joint (checked), Cos (unchecked), Purpose (VEHICLE LOAN OR), Priority (NORMAL), Status (APPROVED / VERIFYING), Company (SSFC / HQ), Product (LEASE VEHICLE), Existing Customer (unchecked), Dup (unchecked), Contact (HEATHER BLIX), Channel (DEALER TR), Producer (DEALER), CA-00005 : AUTO JUNGLE, and Sales Agent. Below the application section is a navigation bar with tabs: Search (1), Applicants (2), Decision (3), Contract (5), Collateral (6), Comments (7), Image (8), Verification (9), and Tools (10). The "Comments (7)" tab is selected, and within it, the "Tracking Attributes" sub-tab is active. The main area shows a "Tracking" section with a "Sub Attribute" dropdown set to "ALL" and a "Create Tracking" button. Below this is a table with two columns: "Parameter" and "Value". The "Parameter" column is currently empty, and the "Value" column has several empty rows for data entry.

- 3 Choose **Create Tracking**.  
Oracle Daybreak loads the tracking parameters.
- 4 If you want to reduce the list of parameters, select a sub-attribute in the **Sub Attribute** box.  
If your system has been configured to use the Sub Attribute field, only attributes in a particular group appear in the Parameter display.
- 5 Complete the **Tracking** block by entering the requested parameter in the **Value** field.
- 6 Save any changes you made to the application.

## Viewing an image

When using the Funding form, you can view any images attached to the application at any time by using the Image (8) master page.

### To view an image associated with an application

- 1 Open the **Funding** form and load the application with the image you want to view.
- 2 Choose the **Image (8)** master tab.

The **Fax Image** block contains the following command buttons:

#### If you choose:

**Flip Image**  
**Print Image**  
**Pr**  
**Nx**  
**Up**  
**Dn**

#### Oracle Daybreak will:

Rotate the selected image.  
Send the selected image to a predefined printer.  
Display the previous page of the image (if one exists).  
Display the next page of the image (if one exists).  
Scroll up through the selected image.  
Scroll down through the selected image.

Depending on the position of the application when it was faxed to the Oracle Daybreak, the image may be inverted on the Funding form.

- 3 To rotate an upside-down image, choose **Flip Image** on the **Fax Image** block.
- 4 To navigate through the application:
  - Use the scroll bar
  - or-
  - Choose **Dn** and **Up** on the Funding form.

The **Page #** and **Of** fields display what page is currently displayed in the Funding form and the total page length of the image.

- 5 To view other pages of the application, if they exist, choose **Nx** and **Pr** on the Funding form master block.

## Completing the Contract (5) (truth-in-lending details) pages

The pages associated with the Contract (5) master tab are the core of the funding process. They allow you to perform the important task of completing the truth-in-lending details. These pages include information mandated by Regulation Z; information about the financed amount, the payment schedule, the total of these payments, the finance charge, and the resulting annual percentage rate (calculated according to Federal guidelines; that is, within .125% of the Treasury OCC calculated APR). Use the lease packet to supply the required information.

In completing the truth-in-lending details on the Contract (5) master tab, you will complete the Lease page. The truth-in-lending details must be completed before a loan can be funded.

**Note:** The Tools (10) master tab can be helpful when completing this section. For more information on its use, see the **Oracle Daybreak Tools** chapter.

### To complete the contract truth-in-lending details

- 1 Open the **Funding** form and load the application with the contract truth-in-lending details you must complete.
- 2 Choose the **Contract (5)** master tab.

- 3 Using the information in the contract packet, complete the **Contract** block. (The Oracle Daybreak calculator may be used when completing this block. For more information, see the **Oracle Daybreak Tools** chapter.)

**In this field:**

**Do this:**

**Contract Dt**

Enter the contract date (required).

**Amt Due at Signing**

Enter the prepaid amount (required).

**Total of Payments (Estimated)**

Enter the estimated total of payments (required).

**Due Day**

Enter the due day (required).

<b>1st Pmt Dt</b>	Enter the first payment date (required).
<b>Maturity Dt</b>	Enter the contract maturity date (required).
<b>Security Deposit</b>	Enter the security deposit amount (required).
<b>Rcvd Dt</b>	Enter the contract received date (required).
Verify Dt	Enter the contract verification date (optional).
Verified By	View the user id who verified the contract (display only).
<b>Gross Capitalized Cost</b>	Enter the gross capitalized cost (required).
<b>Capitalized Cost Reduction (-)</b>	Enter the cap cost reduction (required).
<b>Adjusted Cap Cost (=)</b>	Enter the adjusted cap cost (required).
<b>Residual Value (-)</b>	Enter the residual value (required).
Residual %	View the residual percentage (display only).
<b>Depreciation Value (=)</b>	Enter the depreciation (required).
<b>Rent Charge (+)</b>	Enter the rent (required).
Rate	View the rate (display only).
Rent Factor	View the rent factor (display only).
<b>Total of Base Monthly Pmts (=)</b>	Enter the total of payments (required).
<b>Lease Term (/)</b>	Enter the term (required).
<b>Base Monthly Payment (=)</b>	Enter the payment amount (required).
<b>Estimated Monthly Sales Tax (+)</b>	Enter the sales tax amount (Estimated) (required).
Sales Tax %	View the sales tax percentage (Estimated) (display only).
<b>Estimated Monthly Pmt (=)</b>	Enter the payment amount percentage (Estimated) (required).

- Choose **Select Instrument** and use the LOV to select the predefined pricing instrument you want use to fund this application.

<b>In this field:</b>	<b>Do this:</b>
Instrument	View the instrument (display only).
Accrual Mthd	View the lease type (display only).
Bill Mthd	View the billing method (display only).
Bill Type	View the billing type (display only).
Sales Tax Mode	View the sales tax mode (display only).
Mthd	View the sales tax method (display only).
Lease Type	View the sales tax method (display only).

You are now ready to complete the Contract (5) master tab's sub pages.

Oracle Daybreak loads all the rules established by the company that are required at the time of funding; for example, the accrual method, billing method, type of billing, tolerance, due dates, extensions, and so on.

## Completing the Contract (5) (truth-in-lending details) sub pages

The Lease page share the following sub pages:

- Contract
- Itemizati... (Itemization)
- Trade-In
- Insurance
- ESC
- Compe... (Compensation - lease)
- Subven... (Subvention)
- Proceeds
- Fee
- ACH
- Refere... (References)
- Checklist

This section describes how to complete each one.

### Contract sub page

The Contract sub page records the application's servicing branch and collector. It also displays additional information regarding the contract not covered on the Lease page, such as the tolerance, delinquencies, due dates, billings, and extensions.

#### To complete the Contract sub page

- 1 Open the **Funding** form and load the application you want to work with.
- 2 Choose the **Contract (5)** master tab, then choose the **Contract** sub tab.

**Application**

## Itemization sub page

Oracle Daybreak lists the distribution of the loan proceeds on the Itemization sub page when you choose Select Instrument on the Lease page. It lists amounts paid to the borrower directly, amount paid to the borrower's account, and amount's given on the borrower's behalf to third parties. Itemizations are categorized according to advances, finance fees, prepaid fees, producers, or escrows. If you entered itemization amounts during on the Application Entry or Underwriting forms, you will see these values in the Amount or Approved Amt columns.

The Itemization sub page on the Funding form offers the option of computing the values for itemization according to a itemization formula associated with the selected instrument based on system setup.

### To complete the Itemization sub page

- 1 Open the **Funding** form and load the application you want to work with.
- 2 Choose the **Contract (5)** master tab, then choose the **Itemization** sub tab (Itemizati...).

Total		\$135,000.00		0.0000				

- 3 On the **Itemization** sub page, view the following information:

#### In this field:

Itemization

+/-

#### Approved

Discount Rate

Tax

#### Do this:

View the itemization (display only).

View whether the itemization is added or subtracted (display only).

View the approved amount. This is information recorded on the Underwriting form (required).

Enter the discount rate (optional).

View whether the itemization is taxable (Sales) if box is selected.

- 4 Choose the option button for the type of itemization you want to use: **Advance**, **Financed Fees**, **Pre-Paid Fees**, **Producer**, or **Escrow**.
- 5 In the **Amount** column, enter the amount corresponding with what is listed in the **Itemization** column.
- 6 If the **Itemization Formula** field contains an entry other than UNDEFINED, you can choose **Compute** to auto-compute the value in the **Amount** field using a predefined itemization formula.

Itemization formulas are created on the Product Setup form's Origination Fees pages. (For more information, see the **Org. Fees tab** section of the **Products** chapter in the **i-flex solutions Oracle Daybreak Setup Guide**.)

To ensure you create the correct computed value, choose **Compute** after entering values for all base itemizations; that is, values of all such itemizations with an Itemization Formula of UNDEFINED.

You can also manually enter amounts for auto-computed itemizations.

**Note:** If you choose **Initialize**, Oracle Daybreak sets the values of auto-computed itemizations to 0 (zero).

- 7 If you choose, use the **Comment** field to add remarks.
- 8 Save any changes you made on the application.

## Trade-In sub page

If there is any information regarding an itemized trade-in, use the Trade-In sub page to enter the details in Oracle Daybreak. (This sub page might already contain information supplied during the underwriting process.)

### To complete the Trade-In sub page

- 1 Open the **Funding** form and load the application you want to work with.
- 2 Choose the **Contract (5)** master tab, then choose the **Trade-In** sub tab.

The screenshot displays the Oracle Daybreak interface for the Trade-In sub page. The top navigation bar shows the application name 'JONES STEVEN / JENNIFER (Funding)(Pending Request: 0)'. Below this, the 'Application' section contains fields for App # (0000373178), Dt (05/01/2009), Joint, Cos, Purpose (VEHICLE LOAN OR), Priority (NORMAL), Status (APPROVED), Verifying, Company (SSFC), and C01. The 'Product' is 'LEASE VEHICLE'. The 'Contract (5)' master tab is selected, and the 'Trade-In' sub tab is active. The 'Contract' section shows financial details: Gross Capitalized Cost (\$50,000.00), Capitalized Cost Reduction (-) (\$3,600.00), Adjusted Cap Cost (+) (\$0.00), Residual Value (-) (\$0.00), Depreciation Value (+) (\$0.00), Rent Charge (+) (\$0.00), Total of Base Monthly Pmts (+) (\$0.00), Lease Term (0), Base Monthly Payment (+) (\$0.00), Estimated Monthly Sales Tax (+) (\$0.00), and Estimated Monthly Pmt (+) (\$0.00). The 'Trade-In' section shows asset details: Asset Type, Asset Sub Type, Year, Make, Model, Body, Identification Number, and Desc. It also includes a 'Value' block with Wholesale and Retail values, Addons (+), Payoff Amt (-), Total Value =, Valuation Dt, Source, Supplement, and Edition.

- 3 On the **Trade-In** sub page, view or complete the following fields:

#### In this field:

#### Do this:

#### Asset block

##### **Asset Type**

Select the asset type (required).

##### **Asset Sub Type**

Select the asset sub-type (optional).

## Insurance sub page

If there is any information regarding an itemized insurance amount, enter the details on the Insurance sub page. The Insurance sub page also allows you to calculate the commission if there is a commission rule defined during Contract setup.

### To complete the Insurance sub page

- 1 Open the **Funding** form and load the application you want to work with.
- 2 Choose the **Contract (5)** master tab, then choose the **Insurance** sub tab.

- 3 On the **Insurance** sub page, view or complete the following information in the **Policy Information** block:

#### In this field:

Insurance Plan

Insurance Type

#### Sub Type

Insurance Company

#### Policy Number

Phone No

Ext

#### Effective Dt

Expiration Dt

Phone No

#### Do this:

Select the insurance plan associated with the financed insurance product (optional).

View the insurance type associated with the insurance plan (display only).

Select the insurance sub type offered under the insurance plan (required).

Enter the insurance company associated with the insurance plan. Oracle Daybreak populates the default insurance plan defined during product setup. (optional).

Enter the insurance policy number (required).

Enter the insurance company's primary phone number (optional).

Enter the insurance company's primary phone extension (optional).

Enter the insurance effective date (required).

Enter the insurance expiry date (optional).

Enter the insurance company's alternate phone number (optional).

Ext	Enter the insurance company's alternate phone extension (optional).
Premium Amt	Enter the insurance premium amount (optional).
<b>Term</b>	Enter the insurance term (required).
Commission Rule	View the insurance premium amount (display only).
Commission Amt	View the insurance commission amount (display only).
Primary	Enter the primary beneficiary of the insurance (optional).
Secondary	Enter the secondary beneficiary of the insurance (optional).
Comment	Enter a comment (optional).

- 4 In the **Cancellation/Refund** block, view the following display only information:

In this field:	Do this:
Allowed	If selected, a refund is allowed. A selected box indicates that the insurance premium can be rebated to the customer in case of early payoff.
Grace Days	View the number of grace days allowed for cancellation without charging a cancellation fee.
Calculation Method	View the insurance premium refund/rebate calculation method to be used when insurance is cancelled.
Grace Day's Cancellation Fee Allowed	If selected, indicates that cancellation fees during grace period is allowed.
Cancellation Fee	View the amount of the cancellation fee to be charged when the insurance is cancelled.

- 5 If you choose the **Calculate** button, Oracle Daybreak computes the commission based on the commission method in the **Cancellation/Refund** block.

The commission appears in the **Commission Rule** and **Commission Amt** fields of the Policy Information block. It also appears on the **Itemization** sub page.

**Note:** You can overwrite the suggested value if you choose.

- 6 Save any changes you made to the application.

## ESC sub page

If there is information regarding an itemized extended service contract or warranty amount, enter the details on the ESC sub page.

### To complete the ESC (extended service contracts) sub page

- 1 Open the **Funding** form and load the application you want to work with.
- 2 Choose the **Contract (5)** master tab, then choose the **ESC** sub tab.

**Application**

- 4 In the **Cancellation/Refund** block, view the following information.

- If the **Allowed** box is selected, a refund is allowed. A selected box indicates that the ESC premium can be rebated to the customer in case of early payoff.  
The **Method** field displays the refund method.
- 5 If you choose the **Calculate** button, Oracle Daybreak computes the commission based on the commission method in the **Cancellation/Refund** block.  
  
The commission appears in the **Commission Rule** and **Commission Amt** fields of the Policy Information block. It also appears on the **Itemization** sub page  
  
**Note:** You can overwrite the suggested value if you choose.
- 6 Save any changes you made to the application.

## Compensation (lease) sub page

The Compensation (lease) sub page records and displays the terms of compensation for lease transactions between the finance company and the dealer.

### To complete the Compensation (lease) sub page

- 1 Open the **Funding** form and load the application you want to work with.
- 2 Choose the **Contract (5)** master tab, then choose the **Compensation (lease)** sub tab (**Compe...**).

- 3 Choose **Load**.  
  
The Compensation Plan LOV dialog box appears.
- 4 Use the LOV to select the compensation plan you want to load and choose **OK**.  
  
Oracle Daybreak loads the following information on the Compensation sub page:

Oracle Daybreaks displays the details and amounts for this compensation plan.

7 Save the changes on the application.

## Subvention sub page

With the Subvention sub page, you can enter the subvention information and calculate the subvention amount, as well as override the calculated subvention amount. The participant's information is automatically populated based on the selected subvention plan.

### To use the Subventions sub page

- 1 Open the **Funding** form and load the application you want to work with.
- 2 Choose the **Contract (5)** master tab, then choose the **Subventions** sub tab (**Subven...**).

The screenshot displays the Oracle Daybreaks Subventions sub page. The top section shows the 'Contract' tab with various financial details. The 'Subvention' sub-tab is active, showing a table for Subvention Plan, Description, Sub Plan Description, Subvention Type, Subvention Amt, and Include. The table has columns for Participant, Participant Type, Collection Method, Rate, Rent Factor, Calculation Method, Factor, Calculated Amount, Subvention Amt, and Include. The bottom of the page shows Total Subvention Rate and Total Subvention Amt.

- 3 On the **Subvention** sub page, view or enter the following information:

**In this field:**

**Do this:**

## ACH sub page

The ACH sub page records details about automatic clearinghouse, if this is a direct deposit payment account; otherwise, it remains empty. This information is used to receive payments, primarily when working with the Consumer Lending (Advance and Payment) form.

### To complete the ACH sub page

- 1 Open the **Funding** form and load the application you want to work with.
- 2 Choose the **Contract (5)** master tab, then choose the **ACH** sub tab.

- 3 On the **ACH** sub page, enter the following information:

#### In this field:

#### Do this:

#### Bank Information block

**ACH**

If selected, the ACH is enabled.

**Bank**

Enter the bank name (required).

**Start Dt**

Enter the ACH start date (required).

**Routing #**

Enter the routing number (required).

**Account Type**

Select the account type (required).

**Account #**

Enter the account number. **Note:** If the organizational parameter `UIX_HIDE_RESTRICTED_DATA` is set to Y, this appears as a masked number; for example, XXXXX1234 (required).

**ACH Debit Amt**

Enter the payment amount (required).

**Debit Freq**

Select the payment frequency (required).

**Debit Day**

Enter the payment day (required).

- 4 Save any changes you made to the application.

## References sub page

The References sub page allows you to enter any number of people as a reference on the application.

### To enter references for an application

- 1 Open the **Funding** form and load the application you want to work with.
- 2 Choose the **Contract (5)** master tab, then choose the **References** sub tab (**Refere...**).

The screenshot shows the 'Contract (5)' master tab selected. The 'References' sub tab is active, displaying a form for adding a reference. The form includes fields for Relationship (AUTHORIZED THIRD PARTY), Name (JOHNSON), Yrs (45), Mths (2), Address, City, St, Zip, Country (US), and Phone (Ext). Below the reference form, there are tabs for Contract, Contract..., Itemizati..., Trade-In, Insurance, ESC, Escrow, Conda..., Compe..., Subven..., Proceeds, Disburs..., Fee, ACH, Coupon, Refere..., Checklist, and Real Est.

- 3 On the **References** sub page, complete the following fields with information about the reference:

#### In this field:

**Relationship**

**Name**

**Yrs**

**Mths**

**Address**

**Address 2 (unlabeled)**

**Zip**

**City**

**St**

**Zip Extension (unlabeled)**

**Country**

**Phone**

**Ext**

**Phone**

**Ext**

**Comment**

#### Do this:

Select the reference type (required).

Enter the reference name (required).

Enter the number of years (required).

Enter the number of months (required).

Enter the address line 1 (optional).

Enter the address line 2 (optional).

Select the zip code (optional).

Enter the city (optional).

Select the state (optional).

Enter the zip extension (optional).

Select the country (required).

Enter the reference's primary phone number (optional).

Enter the reference's primary phone extension (optional).

Enter the reference's secondary phone number (optional).

Enter the reference's secondary phone extension (optional).

Enter a comment (optional).

- 4 Save the reference information.

**Note:** If you want to add another reference, insert a new record (press **F6**) and repeat steps 3 and 4.

## Checklist sub page

The Funding form checklist helps ensure you follow the necessary procedures when funding an application. Complete this sub page if your business work flow requires you to use a checklist in the funding process.

### To complete the Checklist sub page

- 1 Open the **Funding** form and load the application you want to work with.
- 2 Choose the **Contract (5)** master tab, then choose the **Checklist** sub tab.
- 3 If nothing appears on the **Checklist** sub page, choose **Contract Checklist**.

- 4 Complete the **Checklist** sub page with the following information:

#### In this field:

#### Do this:

##### Checklist block

Checklist

Comment

Complete

View the contract checklist (display only).

Enter a comment (optional).

Select box to indicate that the checklist is complete (optional).

##### Contract Checklist block

Action

Action Type

Comment

View the checklist action (display only).

Select the response (Yes/No/NA).

Enter a comment (optional).

- 5 Read the tasks in the **Checklist Actions** block and use the **Yes**, **No**, or **NA** buttons to indicate if you completed the task.
- 6 If necessary, add comments in the **Comment** column.
- 7 When you finish, select **Complete** and save the application.

## Verifying an application's contract edits

Oracle Daybreak can be configured to automatically validate portions of an application when you attempt to change its status. The results of this data check appear on the **Verification (9)** tab's Edit page as an *Error*, a *Warning*, or an *Override*.

If the edit is an **Error**, Oracle Daybreak will not allow you change the application's status until you fix all the errors.

If the edit is a **Warning**, Oracle Daybreak allows you to change an application's status without correcting the matter. While you should still investigate the problem, Warning messages are of a lesser importance than Error messages.

If the edit is an **Override**, Oracle Daybreak displays a dialog box informing you that an override is needed; your responsibility level does not have the authority required to process this step. (Choose **Yes** on the dialog box to move the application to the queue of the user with the required authority.)

Oracle Daybreak can be configured to verify different sets of information; for example, Oracle Daybreak could check one set of data when checking application entries for completeness and another when approving auto loans. Each one of these "edit types" has its own set of "edit details."

### To verify the data required for decisioning the application

- 1 Open the **Funding** form and load the application you want to work with.
- 2 Choose the **Verification (9)** master tab, then choose the **Edits** tab.

**Application**

- 3 In the **Edit Type** block, select the type of edit you want to verify. (For the funding process, choose APPLICATIONS CONTRACT EDITS.)

**Note:** If the verification process you want to perform doesn't appear in the **Edit Type** block, use the **Edit Type** field's LOV to select and load it.

- 4 Choose **Check Edits**.

Oracle Daybreak checks the data for the verification process selected in the Edit Type block and displays the results in the Edit Details block.

- 5 In the **Edit Details** block, view the verification results and begin making corrections on the Funding form.
- 6 When you are finished correcting errors, change the status of the application in the Funding form's master block **Status** field.

## Viewing audits

The Audits page is a display only page that allows you track changes to the contents of predetermined fields (which fields are determined during set up). For example, the Audits page can be configured to monitor when the contents of the Status and Sub Status is changed. The Audits page lists the field that was changed, who made the change, when the change was made, and the old and new values in the field.

### To view the Audits page

- 1 Open the **Funding** form and load the application you want to validate.
- 2 Choose the **Verification (9)** master tab, then choose the **Audits** tab.

## Viewing Status History

You can track the time it took a user to complete each stage of the application process with the History page. It displays:

- The date and time when an application changed status / sub status
- The user who changed the status / sub status
- The elapsed time of how long an application was in a particular status / sub status.

### To view the History page

- 1 Open the **Funding** form and load the application you want to validate.
- 2 Choose the **Verification (9)** master tab, then choose the **History** tab.

The screenshot shows the SAFSDAF SDF (Funding) application form. The top section contains application details: App # 0000373178, Dt 05/01/2009, Joint, Cos, Purpose VEHICLE LOAN OR, Priority NORMAL, Status APPROVED, Company SSFC, C01, Product LEASE VEHICLE, Existing Customer, Dup, Contact, Channel WEB ENTRY, Producer DEALER, NC-00004 : BUDGET CAR SA, Sales Agent. Below this is a navigation bar with tabs: Search (1), Applicants (2), Decision (3), Contract (5), Collateral (6), Comments (7), Image (8), Verification (9), and Tools (10). The Verification (9) tab is selected, and the History sub-tab is active. The Application Status History table is displayed below the tabs.

The date and time when the application moved *to* that status.

The date and time when the application moved *from* that status.

The elapsed time between the status change.

---

## Funding of an application

After you have verified the application, entered the contract information, and completed the contract edits, the application is ready to be funded. Applications can be approved automatically or manually. To manually fund an application, change the status to APPROVED - FUNDED.

After an application is funded, the lease origination cycle is over. Oracle Daybreak moves the application to the lease servicing module (Customer Service form) where it receives an account number. Oracle Daybreak also automatically creates a check requisition for the funded account.

### To fund an application

- 1 Using the **Funding** form, verify the information on the application.
- 2 To complete the verification process, choose APPROVED - VERIFIED in the **Status** field on the **Application** block at the top of the Funding form

**Note:** After you approve the application, the information on the Decision (3) master tab is unavailable. The application remains in this status of APPROVED - VERIFIED until a user (usually a supervisor) changes the status to APPROVED - FUNDED. When the status is changed to APPROVED - FUNDED, the account is created.

## CHAPTER 7 : SALES LEAD FORM

The Sales Lead form allows you to record information gathered during a sales query or a call from a potential borrower. A sales representative can then use the Sales Lead form to follow-up with the borrower.

**Note:** This is not a mandatory form. You can always begin the lease origination process directly using the Application Entry form.

Information on the Sales Lead form can be attached to the Application Entry form as optional information. Attaching a lead to an application can help the sales department analyze the effectiveness of following-up with prospective borrowers. Once a lead is attached to an application from the Sales Lead form, Oracle Daybreak changes its status to COMPLETED.

### Completing the Sales Lead page

The Sale Lead page enables you to record information regarding prospective borrowers from a sales query or a call to be used in a follow-up call. The initial status for the lead can be set as NEW or FOLLOW-UP.

#### To complete the Sales Lead page

- 1 On the **Lending** menu, choose **Sales Lead**, then choose **Entry Details**.

The screenshot shows the 'Sales Lead' form with the following sections:

- Lead Entry** (selected), Follow-up, Maintenance
- Applicant Information**: Lead #, Lead Date (05/17/2007), Company, Branch, View All, First Name, Last Name, Source, Channel.
- Address**: Type, Postal Type, #, Pre, Street Name, Street Type, Post, Apt #, City, St, Zip, Country (US), Email, Mobile Email, Status (NEW), Assigned By (BFOGO), Status Dt (05/17/2007), Followup Dt.
- Telecoms**: Comments, Documents, Requests. A table with columns: Telecom Type, Phone, Current.

- 2 On the **Sales Lead** page, enter or view the following information:

**In this field:**

**Do this:**

Customer Information block

Lead #

View the sales lead number (display only).

- |                       |   |
|-----------------------|---|
| Lead Date             | View the sales lead date. The default value is the current date (display only). |
| <b>Company</b>        | Select the company name (required).   |
| Branch                | View the branch name (display only).  |
| <b>First Name</b>     | Enter the applicant's first name (required).                                    |
| <b>Last Name</b>      | Enter the applicant's last name (required).                                     |
| <b>Source</b>         | Select the source of the sales lead (required).                                 |
| <b>Channel</b>        | Select the channel of the sales lead (required).                                |
| View All              | Select to view all leads.   |
| <u>Address block</u>  |   |
| <b>Type</b>           | Select the address type (required).   |
| <b>Postal Type</b>    | Select the postal address type (required).                                      |
| <b>#</b>              | Enter the building number (required).   |
| Pre                   | Select the street prefix (directional) (optional).                              |
| Street Name           | Enter the street name (optional).   |
| Street Type           | Select the street type (optional).  |
| Post                  | Select the street postfix (directional) (optional).                             |
| Apt #                 | Enter the apartment number (optional).  |
| Address 2 (unlabeled) | Enter the address line 2 (optional).  |
| <b>Zip</b>            | Select the zip code (required).   |
| <b>City</b>           | Enter the city (required).  |
| <b>St</b>             | Select the state (required).  |
| <b>Country</b>        | Select the country code (required).   |
| Email                 | Enter the email address (optional).   |
| Mobile Email          | Enter the mobile email address (optional).                                      |
| <b>Status</b>         | Select the status for the sale lead (required).                                 |
| Assigned By           | View the user code creating the sale lead (display only).                       |
| Status Dt             | View the last sales lead status change date (display only).                     |
| <b>Follow-up Dt</b>   | Enter the sales lead follow-up date (required).                                 |
- 3 Save your entry.

## Completing the Telecoms sub page

The Telecoms sub page records additional phone numbers for the sales lead.

### To complete the Telecoms sub page

- 1 On the **Lending** menu, choose **Sales Lead**, then choose **Entry Details**.
- 2 Choose the **Telecoms** sub tab.
- 3 On the **Telecoms** sub page, enter the following information:

In this field:	Do this:
<u>Telecoms block</u>	
<b>Telecom Type</b>	Select the type of telecommunications device (required)
<b>Phone</b>	Enter the phone number (required)
Current	Select the Current check box to indicate the phone number is in service.

- 4 Save your entry.

## Completing the Comments sub page

The Comments sub page records any comments regarding the sales lead.

### To complete the Comments sub page

- 1 On the **Lending** menu, choose **Sales Lead**, then choose **Entry Details**.
- 2 Choose the **Comments** sub tab.

The screenshot shows the 'Sales Lead' application window with the 'Comments' sub-page selected. The form is divided into several sections: 'Applicant Information' with fields for Lead #, Lead Date (05/17/2007), Company, Branch, View All, First Name, Last Name, Source, and Channel; 'Address' with fields for Type, Postal Type, #, Pre, Street Name, Street Type, Post, Apt #, City, St, Zip, Country (US), Email, Mobile Email, Status (NEW), Assigned By (BFOGO), Status Dt (05/17/2007), and Followup Dt; and a 'Comments' table with columns for Type, Sub Type, and Comment. The table has a scrollable list of comment entries, with the first entry showing a timestamp of 03/30/2007 02:58:36 PM and a sub type of BFOGO.

- 3 On the **Comments** sub page, enter the following information:

**In this field:**

Comments block

**Type**

**Sub Type**

**Comment**

**Do this:**

Select the comment type (required)

Select the comment sub type (required)

Enter the comment (required)

- 4 Save your entry.

## Completing the Documents sub page

The Documents sub page needs to be completed if:

- The customer had requested any documents
- Any document has been sent to the customer during sales lead entry.

### To complete the Documents sub page

- 1 On the **Lending** menu, choose **Sales Lead**, then choose **Entry Details**.
- 2 Choose the **Documents** sub tab.

The screenshot shows the 'Sales Lead' application window with the 'Lead Entry' tab selected. The 'Documents' sub-tab is active, displaying a table with columns for 'Type', 'Sub Type', and 'Documents'. The table contains one row with the following data: Type: 03/30/2007 02:59:42 PM, Sub Type: BFOGO, Documents: (empty). The form also includes sections for 'Applicant Information' (Lead #, Lead Date, Company, Branch, View All, First Name, Last Name, Source, Channel) and 'Address' (Type, Postal Type, #, Pre, Street Name, Street Type, Post, Apt #, City, St, Zip, Country, US, Email, Mobile Email, Status, Assigned By, Status Dt, Followup Dt).

- 3 On the **Documents** sub page, enter the following information:

**In this field:**

**Do this:**

Documents block

**Type**

**Sub Type**

**Documents**

Select the document type (required).

Select the document sub type (required).

Enter the document (required).

- 4 Save your entry.

## Completing the Requests sub page

The Requests sub page records the product the customer is interested in and the requested amount for each product.

### To complete the Requests sub page

- 1 On the **Lending** menu, choose **Sales Lead**, then choose **Entry Details**.
- 2 Choose the **Requests** sub tab.

The screenshot shows the 'Sales Lead' application window. At the top, there are tabs for 'Lead Entry', 'Follow-up', and 'Maintenance'. Below these is the 'Sale Lead' section. The 'Applicant Information' section contains fields for Lead #, Lead Date (05/17/2007), Company, Branch, View All, First Name, Last Name, Source, and Channel. The 'Address' section contains fields for Type, Postal Type, #, Pre, Street Name, Street Type, Post, Apt #, City, St, Zip, and Country (US). Below the address section are fields for Email, Mobile Email, Status (NEW), Assigned By (BFOGO), Status Dt (05/17/2007), and Followup Dt. At the bottom, there are tabs for 'Telecons', 'Comments', 'Documents', and 'Requests'. The 'Requests' tab is selected, showing a table with columns 'Product' and 'Requested Amount'.

Product	Requested Amount

- 3 On the **Requests** sub page, enter the following information:

**In this field:**

**Do this:**

Requests block

**Product**

Enter the requested product (required).

**Requested Amount**

Enter the requested amount (required).

- 4 Save your entry.

## Completing the Follow-up page

The Sales Lead form's Follow-up page enables you to update customer information based on sales lead follow-ups with the customer. The Sort block allows you to sort the search results using one or two different fields. The Primary and Secondary fields have the following sort order entries:

COMPANY  
BRANCH  
FOLLOW-UP DATE  
LEAD #  
LEAD DATE  
NAME  
ASSIGNED BY  
STATUS  
STATUS DATE  
NONE

### To use the Follow-up page

- 1 On the **Lending** menu, choose **Sales Lead**, then choose **Follow Up**.

The screenshot shows the 'Sales Lead' window with the 'Follow-up' tab selected. The 'Sort' block has 'Primary' set to 'NONE' and 'Secondary' set to 'NONE'. The 'View Status' block has 'New' selected. The 'View Assigned' block has 'Assigned By' selected. Below these is a table titled 'Sales Lead Follow-up' with columns: Company, Branch, Followup Dt, Lead #, Lead Date, Name, Assigned By, Status, and Status Dt. The first row shows a lead with 'Lead Date' 03/30/2007, 'Name' BFOGO, and 'Assigned By' BFOGO. The 'Status' column is highlighted in light blue.

Company	Branch	Followup Dt	Lead #	Lead Date	Name	Assigned By	Status	Status Dt
				03/30/2007	BFOGO	BFOGO		

- 2 In the **Sort** block, use the **Primary Sort Order** field to choose how you want to sort the search results. (Press the arrow keys or click the down arrow to view the fields contents).
- 3 Choose **A** to sort the results in ascending order  
or  
Choose **D** to sort the results in descending order.
- 4 To further sort your results, repeat steps 2 and 3 using the **Secondary Sort Order** field.
- 5 In the **View Status** block, choose:
  - **New** to view all leads in the Sales Lead Follow-up block with the status of NEW.
  - or-
  - **Follow Up** to view all leads in the Sales Lead Follow-up block with the status of FOLLOW UP.
  - or-
  - **All** to view all leads in the Sales Lead Follow-up block with the status of NEW or FOLLOW UP.

6 In the **View Assigned** block, choose:

- **All** to view all leads in the Sales Lead Follow-up block assigned to any user.  
-or-
- **Assigned By** to view all leads in the Sales Lead Follow-up block assigned to the current user.

7 In the **Sort** block, choose **Sort**.

Oracle Daybreak displays all leads with a status of FOLLOW UP or NEW in the Sales Lead Follow-up block.

In the **Sales Lead Follow-up** block, view the following information

In this field:	Do this:
Company	View the company name of the sales lead (display only).
Branch	View the branch name of the sales lead (display only).
<b>Follow-up Dt</b>	Enter the follow-up date of the sales lead (required).
Lead #	View the sales lead number (display only).
Lead Date	View the creation date of the sales lead (display only).
Name	View the applicant's name (display only).
Assigned by	View the user assigned to the sales lead (display only).
<b>Status</b>	Enter the status of the sales lead (required).
Status Dt	View the last sales lead status change date (display only).
All	Choose this to view all leads in the Sales Lead Follow-up block assigned to any user.
Assigned By	Choose this to view all leads in the Sales Lead Follow-up block assigned to the current user.

8 Double-click on the entry you want to view.

Oracle Daybreak displays the record on the Sale Lead page.

## Completing the Maintenance page

The Maintenance page enables you to attach a sales lead to a different or missed application or change a lead's status to NEW.

### To attach a sales lead to an application

- 1 On the **Lending** menu, choose **Sales Lead**, then choose **Maintenance**.

**Sales Lead**

Lead Entry Follow-up Maintenance

Lead Maintenance

**Lead Details**

Lead #	Last Name	First Name	Status	Company Branch	Days of Inactivity
L-00004001	RAM	KRISHNA	CONVERTED	SSFC C01	1
L-00004002	LUTHER	BOB	NEW	SSFC HQ	0
L-00004003	REBBAKA	WHITE	CLOSED	SSFC HQ	0

**Application**

Priority	Application #	Date	Title	Product	Status	Producer

**Action**

☒ Attach to an Application ☐ Change to New Status

App #

Post

- 2 In the **Lead Details** block, view the following display only information:

#### In this field:

#### Do this:

Lead #	View the sales lead number.
Last Name	View the last name of the sales lead.
First Name	View the first name of the sales lead.
Status	View the status of the sales lead.
Company	View the company of the sales lead.
Branch	View the branch of the sales lead.
Days of Inactivity	View the number of days of inactivity regarding the sales lead.

- 3 In the **Lead Details** block, select the sales lead you want to attach to the application.
- 4 In the **Action** block, select **Attach to an Application**.
- 5 In the **Action** block, enter the application number to which you want to attach the sales lead in the **App #** field.
- 6 Save your entry.
- 7 In the **Application** block, view the following display only information:

#### In this field:

#### View this:

Priority	The priority of the sales lead.
Application #	The application number of the sales lead.
Date	The date of the application.
Title	The title of the application.
Product	The product of the application.

Status	The status of the application.
Producer	The producer of the application.

- 8 In the **Action** block, choose **Post**.

**Note:** If the wrong sales lead was attached to an application, detach it from the existing application by choosing Change to New Status in the Action block, then attach it to the correct application using Attach to an Application, App # field, and Post.

---

## CHAPTER 8 : IMAGE MAINTENANCE / DOCUMENT TRACKING

The Documents menu opens the Image Maintenance form. Both allow for the paperless storage of documents within Oracle Daybreak, the first with applications during the lease origination cycle.

### **Image Maintenance form**

The Image Maintenance form contains two pages: the Application Image Maintenance page and the Application Document Maintenance page.

Credit applications are often sent or faxed to financial institutions from producers (or “dealers”) on behalf of the customer. These credit applications, if received as fax, can be stored in Oracle Daybreak as images. Frequently, more than one application is received in a single fax or a single application is received across multiple faxes. In such cases, the Application Image Maintenance form can help you organize and maintain your image collection.

The Application Document Maintenance page allows you to attach documents to an application in the form of GIF files, PDF files, DOC files, XLS files, and TXT files.

## Application Image Maintenance page (Image Maintenance form)

You can view any image in the Oracle Daybreak system in the upper list box of the Image Maintenance form.

### To view an image

- 1 On the **Documents** menu, choose **Application > Image Maintenance**.

**Image Maintenance**

Application Image Maintenance | Application Document Maintenance

### To view all images

- 1 On the **Documents** menu, choose **Application > Image Maintenance**.
- 2 In the **Image Header** block, select **View All Images**.

All images entered in Oracle Daybreak appear in the Image Header block, including those that are attached to applications. Images attached to applications have a status of PRO-CESSED.

- 3 In the **Image Header** block, select the image you want to view.

### To search for an image

- 1 On the **Documents** menu, choose **Application > Image Maintenance**.

The Image Maintenance form appears.

- 2 On the **Oracle Daybreak** toolbar, choose **Enter Query**.

-or-

Press **F7** to move to Enter-Query mode.

The Image Maintenance form clears.

- 3 In the **Image Header** block, complete the field(s) you want to use as search criteria (**Image Id**, **Fax Header**, **Status**, or **Company**) to find and load an image.

- 4 On the **Oracle Daybreak** toolbar, choose **Execute Query**.

-or-

Press **F8** to perform the query.

Oracle Daybreak displays the images that match your search criteria in the Image Header block.

- 5 In the **Image Header** block, select the image you want to open.

The selected image appears in the upper list box of the Image Maintenance form.

### Image Maintenance command buttons

The Image Maintenance command buttons are located to the right of the Image Header block. They allow you to change the appearance of the image in the list box, as well as send it to a printer.

<b>If you choose:</b>	<b>Oracle Daybreak will:</b>
Flip Image	Rotate the selected image.
Print Image	Send the selected image to a predefined printer.
Up	Scroll up through the selected image.
Dn	Scroll down through the selected image.

## Splitting an image

If an image is more than one page long, you can split it into two separate images using the Split Image button. This option button is only available when an image contains more than one page. Also, you cannot split images with a status of “PROCESSED” or “SKIP.”

### To split an image

- 1 On the **Image Maintenance** form, open the multiple page image you want to split.

- 2 In the **Action** block, select **Split Image**.

The Pages and New Image Id fields appear in the Action block.

- 3 In the **Pages** block, select the **Select Page(s)** boxes for the pages where you want to split the image.

The selected pages appear in the Pages field on the Actions block.

**Note:** You can select more than one page; however, you cannot select page # 1.

- 4 In the **Actions** block, choose **Post**.

Oracle Daybreak removes the selected pages and completes the New Image Id field with the image id of the new image.

**Note:** The new image does not appear in the Image Header block after you choose Post. However, if you refresh the Image Maintenance form by closing and opening the form or selecting View All Images, the new image id appears in the Image Header block and the change of page length in the original image is displayed.

## Changing the status of an image

The Action block on the Image Maintenance form allows you to change the status of the image.

The Image Maintenance form uses the following statuses:

Status:	What is does:
RUSH	Moves the image to the front of the queue of images to be processed.
NEW	Places an image in a queue in the order of which it was received and allows you to process it as an application.
SKIP	Makes the image unavailable for processing until the status is changed.
BAD	Notes that the image is illegible and should be deleted.
PROCESSED	Notes that the information on the image has been entered and is attached to an application.

**Note:** Only images with a status of RUSH or NEW can be attached to an application

### To change the status of an image

- 1 On the **Image Maintenance** form, open the image whose status you want to change.
- 2 In the **Action** block, select **Change Status**.  
The Status field appears.
- 3 Select the **Status** field and use the LOV to select the new status for the image.
- 4 Choose **Post**.  
Oracle Daybreak changes the status of the image.

---

## Attaching an image to an existing image

You can combine two images to make one image. This is the reverse of splitting an image.

### To combine images

- 1 On the **Image Maintenance** form, open the image to which you want to attach an existing image.
- 2 In the **Action** block, select **Attach to an Image**.  
The Image Id field appears.
- 3 Use the **Image Id** field's LOV to select the image id of the image to which you want to attach the selected image.
- 4 Choose **Post**.  
Oracle Daybreak joins the two images: the id of the image you selected in step 3 remains on the Image Header block. The image you selected in step 1 now appear as part of the remaining image.

---

## Attaching an image to an existing credit application

You can attach one or more images to an existing credit application.

**Note:** Attaching specific pages from a multiple page image to an application requires that you split the image to isolate the pages you want to attach, attach those pages, and, if necessary, link pages of the original image back together.

### To attach an image to an existing application image

- 1 On the **Image Maintenance** form, open the image you want to attach to an existing application.
- 2 In the **Action** block, select **Attach to an Application**.  
The App# field appears.
- 3 In the **App #** field, use the LOV to select the application number of the application to which you want to attach the image. (This involves using the Oracle Daybreak LOV long-list feature.)
- 4 Choose **Post**.

Oracle Daybreak attaches the image to the application. You can view the image in the Image (8) master tab on the Underwriting and Funding forms.

---

## Printing an image

The Print Image button sends the selected image to a predefined printer.

### To print an image

- 1 On the **Image Maintenance** form, open the image you want to print.
- 2 Choose **Print Image**.

## Application Document Maintenance page (Image Maintenance form)

Oracle Daybreak supports the online attachment of document images to an application with the Image Maintenance form's Application Document Maintenance page. You can attach the documents from either a client machine or server. A default image directory can be maintained in Oracle Daybreak using the system parameter:

UIX\_DEFAULT\_IMAGE\_PATH.

When you choose List File in the New Document block on the Document Maintenance page, Oracle Daybreak displays all available files in the selected directory in the Document Details block. You can use the Document Maintenance and Action blocks to attach selected documents to a particular account.

### To attach a document to an application from a server

- 1 On the **Documents** menu, choose **Application > Document Maintenance**.

The Image Maintenance form's Application Document Maintenance page appears.

The screenshot shows the 'Image Maintenance' window with the 'Application Document Maintenance' tab selected. The 'Select Document' section has a 'Directory Path' field with the value '/home/strain/images' and buttons for 'Reset Path', 'List File', and 'Upload From Client'. The 'Document Maintenance' section has an 'App #' field and a 'Search' button. The 'Action' section has radio buttons for 'None', 'Copy Document', 'Move Document', 'Attach Document (Server)' (which is selected), and 'Attach Document (Client)', along with 'Post' and 'View Document' buttons. The 'Upload Status' section shows fields for 'Total File(s)', 'Last File', 'Bytes Uploaded', 'File Upload Status', and 'Overall Upload Status'. The 'Document Details' section is a table with columns: File Name, Document Type, Document Sub Type, Comments, App #, Attach, Copy / Move, App #, and Status. The table contains several rows of document information.

File Name	Document Type	Document Sub Type	Comments	App #	Attach	Copy / Move	App #	Status
0981.11309.TIF					<input type="checkbox"/>			NONE
ERROR_690046.DOC					<input type="checkbox"/>			NONE
QUEUE_ASSIGNMENT_1714703					<input type="checkbox"/>			NONE
1-1_1720683.TIF					<input type="checkbox"/>			NONE
CONTRACT INFORMATION 11.DI					<input type="checkbox"/>			NONE
					<input type="checkbox"/>			
					<input type="checkbox"/>			
					<input type="checkbox"/>			

- 2 In the **Action** block, choose **Attach Document (Server)**.
- 3 In the **Select Document** block, use the default image directory in the **Directory Path** field. (The default path is the value for the system parameter UIX\_DEFAULT\_IMAGE\_PATH).

-or-

In the **Directory Path** field, enter the full path name to the document on the server that you want to attach to an account.

**Note:** You can choose **Reset Path** at any time to return to the default image directory.

- 4 In the **Select Document** block, choose **List File**.

Oracle Daybreak displays the files from the entry in the Select Document block's Directory Path in the Document Details block.

- 5 In the **Document Details** block, enter the following information:

**In this field:**

**Do this:**

File Name

View the file name for the document (display only).

**Document Type**

Select the type for the document (required).

<b>Document Sub Type</b>	Select the sub type for the document (required).
Comments	Enter any comments regarding the document (optional).
App #	Select the application number to attach/copy/move the document image (optional).

6 Select the **Attach** indicator to attach the file to the account.

7 Save your entry.

8 In the **Action** block, choose **Post**.

Oracle Daybreak attaches the document to the application.

You can view the document in a browser by choosing **View Document** in the Action block.

### To attach a document to an application from a client machine

1 On the **Documents** menu, choose **Application > Document Maintenance**.

2 In the **Action** block, choose **Attach Document (Client)**.

3 In the **Select Document** block, choose **Upload From Client**.

An Open dialog box appears.

5 In the **Open** dialog box, use the **Look in:** list box to locate the document you want to attach to the account.

**Note:** You can select multiple files by holding the **CTRL** or **SHIFT** key on your keyboard.

6 When you have located the document you want to attach to the account in the **Open** dialog box's **File name:** field, choose **Open**.

7 Oracle Daybreak uploads the selected file to the Document Maintenance page and displays the progress in the **Upload Status** block.

In this field:	View this:
Total File(s)	The total files uploaded from client.
Last File	The last uploaded file name.
Bytes Uploaded	The file upload status in bytes.
File Upload Status (%)	The file upload status in percentage.
Overall Upload Status (%)	The overall upload status in percentage.

8 In the **Document Details** block, enter the following information:

In this field:	Do this:
File Name	View the file name for the document (display only).
<b>Document Type</b>	Select the type for the document (required).
<b>Document Sub Type</b>	Select the sub type for the document (required).
Comments	Enter any comments regarding the document (optional).
App #	Select the application number to attach/copy/move the document image (optional).

**Note:** If a document is attached to an application, and the application is loaded on the Underwriting or Funding form, when you open the Image Maintenance form's Application Document Maintenance page, the application number appears in the Document Maintenance block's App # field. You can then select the document you want to work with in the Document Details block.

You can also view the document in a browser by choosing **View Document** in the Action block.

- 9 Select the **Attach** indicator to attach the file to the application.
- 10 Save your entry.
- 11 In the **Action** block, choose **Post**.

Oracle Daybreak attaches the document to the application.

## Copy Document

The Action block's Copy Document command copies the document image from one application to another application. This command has no impact on the source application or the source application's document image.

### To copy a document to an application from another application

- 1 On the **Documents** menu, choose **Application > Document Maintenance**.
- 2 In the **Action** block, choose **Copy Document**.
- 3 In the **Document Maintenance** block, use the **App#** field to locate the account with the image you want to copy.
- 4 In the **Document Maintenance** block, choose **Search**.  
Oracle Daybreak displays the files attached to that application in the Document Details block.
- 5 In the **Document Details** block, select the document you want to copy.
- 6 In the **Copy/Move App #** field, enter the application number of the application to which you want to copy the document.
- 7 Save your entry.
- 8 In the **Action** block, choose **Post**.

## Move Document

The Action block's Move Document command moves an existing document image from one application to another application. This command detaches the document image from the source application and attach to second application.

### To move a document to an application from another application

- 1 On the **Documents** menu, choose **Application > Document Maintenance**.
- 2 In the **Action** block, choose **Copy Document**.
- 3 In the **Document Details** block, use the **App #** field to locate the application with the image you want to move.
- 4 In the **Document Maintenance** block, choose **Search**.  
Oracle Daybreak displays the files attached to that application in the Document Details block.
- 5 In the **Document Details** block, select the document you want to move.
- 6 In the **Copy/Move Acc #** field, enter the application number of the application to which you want to move the document.
- 7 Save your entry.
- 8 In the **Action** block, choose **Post**.

## CHAPTER 9 : CORRESPONDENCE

Oracle Daybreak features two types of correspondence: predefined correspondence templates for leases included in the baseline system and ad-hoc correspondence that you create yourself. The predefined correspondence address matters regarding lease origination for applications. They also enable financial organizations to manage bulk mailings.

Origination:

- DECISION FAX/EMAIL
- ADVERSE ACTION LETTER
- CONDITIONAL ADVERSE ACTION LETTER
- CONTRACT FUNDING FAX/EMAIL
- CUSTOM LETTER 1
- CUSTOM LETTER 2

Ad-hoc correspondence allows you to include information from applications in documents templates you create yourself without manually transferring the data. Ad-hoc documents can be generated as either Microsoft Word or PDF files.

**Note:** Predefined correspondence templates are stored on the Product Setup form's Letters tab's pages (**Setup > Products > Lease > Letters**).

The screenshot shows the 'Product Setup' window with the 'Lease' tab selected. The 'Letters' sub-tab is active, displaying a table titled 'Letter Definition'. The table has columns for Letter Code, File Name, Batch Printer, Batch User, Letter Type, Company, Branch, Product, State, Channel, and Enabled. The first seven rows are predefined templates, each with a blue selection icon in the first column and a checkmark in the Enabled column. The last two rows are empty for custom letters.

Letter Code	File Name	Batch Printer	Batch User	Letter Type	Company	Branch	Product	State	Channel	Enabled
<input checked="" type="checkbox"/> CNLSCE_ADV_LTR	LORADV_EM_100_01	archive	BATCH	ADVERSE ACTION LETTER	ALL	ALL	ALL	ALL	ALL	<input checked="" type="checkbox"/>

<input type="checkbox"/> CNLSCE_COL_LTR2	LCOLT2_EM_100_01	archive	BATCH	COLLECTION LETTER 2	ALL	ALL	ALL	ALL	ALL	<input checked="" type="checkbox"/>
<input type="checkbox"/> CNLSCE_COL_LTR3	LCOLT3_EM_100_01	archive	BATCH	COLLECTION LETTER 3	ALL	ALL	ALL	ALL	ALL	<input checked="" type="checkbox"/>
<input type="checkbox"/> CNLSCE_CON_LTR	LORCON_EM_100_01	archive	BATCH	CONTRACT FUNDING FAX/EMAIL	ALL	ALL	ALL	ALL	ALL	<input checked="" type="checkbox"/>
<input type="checkbox"/> CNLSCE_DEC_FAX	LORDEC_EM_121_01	archive	BATCH	DECISION FAX/EMAIL	ALL	ALL	ALL	ALL	ALL	<input checked="" type="checkbox"/>
<input type="checkbox"/> CNLSCE_STM_LTR	LCSSTM_EM_121_01	archive	BATCH	ACCOUNT STATEMENT	ALL	ALL	ALL	ALL	ALL	<input checked="" type="checkbox"/>
<input type="checkbox"/>										<input type="checkbox"/>
<input type="checkbox"/>										<input type="checkbox"/>

## Request page

Ad-hoc correspondence can be viewed on the Request page when you have opened an application. The page allows you to generate a new letter or view a previously generated letter.

### To generate an ad hoc correspondence

- 1 On the **Lending** menu, choose **Funding**, **Underwriting**, or **Customer Service** and load the application for which you want to generate the ad hoc correspondence.
- 2 On the **Letters** menu, choose **Ad-hoc**.

**Correspondence Request**

- 3 In the **Correspondence Request** block, the following information appears regarding the application currently loaded:

#### In this field:

Level  
Number/Title  
Company  
Branch

#### View this:

The correspondence type.  
The entity number and title.  
The entity company.  
The entity branch.

- 4 In the **Correspondence** block, use the Correspondence field's LOV to select the type of correspondence you want to generate.

Oracle Daybreak displays the following information in the Correspondence block for the selected type of correspondence:

#### In this field:

Id  
**Correspondence**  
Date

#### View this:

View the correspondence id (display only).  
Select the correspondence you want to generated (required).  
View the correspondence generation date (display only).

- 5 Press **F10** to save your entry.

The **Documents** block displays all the types of documents available for the type of correspondence you selected.

- 6 In the **Documents** block, view the following information for each document:

In this field:	View this:
Document Id	The document Id.
Document	The document description.
Recipient	The recipient description.
E-Form Source	The e-form source.
Source Type	The source type.
Generated	If selected then Oracle Daybreak generated the document.

- 7 In the **Documents** block, select the correspondence you want to view.

The **Elements** block displays the elements Oracle Daybreak used to generate the correspondence.

- If you choose **All**, Oracle Daybreak displays all elements in the correspondence.
- If you choose **User Defined**, Oracle Daybreak displays user-defined elements in the correspondence.

- 8 In the **Elements** block, view the following information:

In this field:	Do this:
Element	View the element description.
Content	Enter/view the value of the element.

- 9 Choose **User Defined** and complete the **Content** fields for the **Element** fields you want to include in the correspondence.

- 10 Choose **Generate**.

Oracle Daybreak “locks” the information included in the correspondence and prevents it from being changed.

- 11 Choose **View**.

Oracle Daybreak displays a PDF of the ad hoc correspondence.

## Samples of Oracle Daybreak LS predefined correspondence

### Origination: Decision fax/email

The predefined Decision fax/email is automatically sent after an application receives a status of APPROVED, REJECTED, or CONDITIONED on the Underwriting form.

#### To generate the Decision fax/email

- 1 On the **Funding** or **Underwriting** form, load the application you want to receive the Decision fax/email.
- 2 On the **Letters** menu, choose **Pre-defined**.
- 3 On the **Run** submenu, choose how you want to view the correspondence (**Print** or **Preview**).
- 4 On the **Origination** sub menu choose **Decision Fax**.

Fax Date: 01/13/2004 11:54:45

## Origination: Contract Funding fax/email

The predefined Contract Funding fax/email can be automatically sent to a producer after an application receives a status of APPROVED or CONDITIONED on the Funding form.

### To generate the Contract Funding fax/email

- 1 On the **Funding** form, load the application you want to receive the Contract Funding fax/email.
- 2 On the **Letters** menu, choose **Pre-defined**.
- 3 On the **Run** submenu, choose how you want to view the correspondence (**Print** or **Pre-view**).
- 4 On the **Origination** sub menu, choose **Contract/Funding Fax**.

## CHAPTER 10 : USER PRODUCTIVITY

The User Productivity form is a supervisor feature that allows you to monitor the daily performances of Oracle Daybreak users completing lease origination and lease servicing tasks. These tasks are categorized as either underwriting/funding tasks (lease origination).

**Note:** Oracle Daybreak updates this display only form every day.

Using the User Productivity form, you can review the following daily tallies:

- Number of applications entered, by user
- Number of underwriting decisions (approved, rejected, conditioned, or withdrawn), by user
- Number of funding decisions (verified or funded), by user
- Number of applications entered, by queue

This chapter explains how to use the User Productivity form to view this information.

\_\_\_\_\_

Daily tallies from the lease origination module appear on the following pages:

- Application Entry
- Underwriting
- Funding
- Queues Status

\_\_\_\_\_

The Application Entry page displays the number of applications each Oracle Daybreak user entered that day.

**To view the Application Entry page**

- 1 On the **Monitor** menu, choose **Users > Productivity > Underwriting/Funding**.
- 2 Choose the **Application Entry** tab.

[illegible]

- 3 In the **Application Entry by User** block, view the following information:

In this field:	View this:
User	User code.
Name	User name.
Applications	Number of applications entered.

## Underwriting page

The Underwriting page displays the number of applications that were approved, rejected, conditioned, or withdrawn by each Oracle Daybreak user that day.

### To view the Underwriting page

- 1 On the **Monitor** menu, choose **Users > Productivity > Underwriting/Funding**.
- 2 Choose the **Underwriting** tab.

User	Name	Approved	Rejected	Conditioned	Withdrawn
BFOGO	BRIAN A FOGO	1	0	0	0
DROEHL	DALE ROEHL	7	4	4	6
KRIDD	KRISTINA R RUDD	3	2	9	1
TEDD	TEDD S SHEPARD	5	6	6	5
DRUDD	DAIN RUDD	9	11	9	1
JJANICKI	JILL R JANICKI	0	3	4	3
SSWAPNIL	SWAPNIL SALUNKE	4	10	7	6

- 3 In the **Underwriting Entry by User** block, view the following information:

#### In this field:

User  
Name  
Approved  
Rejected  
Conditioned  
Withdrawn

#### View this:

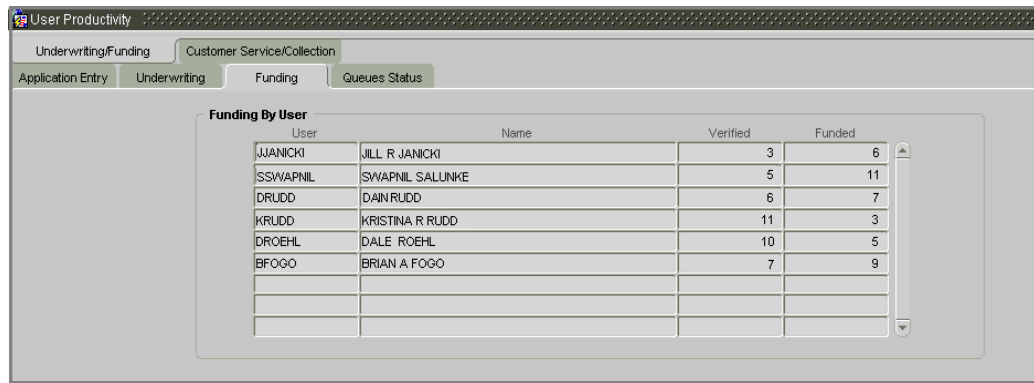

User code.  
User name.  
Number of applications approved.  
Number of applications rejected.  
Number of applications conditioned.  
Number of applications withdrawn.

## Funding page

The Funding page displays the number of applications that each Oracle Daybreak user either verified or funded that day.

### To view the Funding page

- 1 On the **Monitor** menu, choose **Users > Productivity > Underwriting/Funding**.
- 2 Choose the **Funding** tab.

The screenshot shows a software window titled "User Productivity". It has a tabbed interface with "Underwriting/Funding" selected. Below the tabs, there's a "Funding By User" block containing a table with columns: User, Name, Verified, and Funded. The table lists several users and their corresponding counts.

User	Name	Verified	Funded
JJANICKI	JILL R JANICKI	3	6
SSWAPNIL	SWAPNIL SALLUNKE	5	11
DRUDD	DAIN RUDD	6	7
KRUDD	KRISTINA R RUDD	11	3
DROEHL	DALE ROEHL	10	5
BFOGO	BRIAN A FOGO	7	9

- 3 In the **Funding By User** block, view the following information:

#### In this field:

User  
Name  
Verified  
Funded

#### View this:

User code.  
User name.  
Number of applications verified.  
Number of applications funded.

## Queues Status page

The Queues Status page displays the number of applications worked by queue that day, as well as the users who worked the queue.

### To view the Queues Status page

- 1 On the **Monitor** menu, choose **Users > Productivity > Underwriting/Funding**.
- 2 Choose the **Queues Status** tab.

**Queues**

Company	Branch	Queue Name	Applications
SSFC	C01	NEW APPLICATIONS QUEUE	1
SSFC	HQ	NEW APPLICATIONS QUEUE	27
SSFC	HQ	APPROVED / CONDITIONED APPLICATIONS QUEUE	4
SSFC	C01	REJECTED APPLICATIONS QUEUE	3
DCC	HQ	REJECTED APPLICATIONS QUEUE	1

**Users**

User	Name
BFOGO	BRIAN A FOGO
DROEHL	DALE ROEHL
KRUDD	KRISTINA R RUDD
TEDD	TEDD S SHEPARD

- 3 In the **Queues** block, view the following information:

#### In this field:

Company  
Branch  
Queue Name  
Applications

#### View this:

Company.  
Branch.  
Queue name.  
Number of applications in the queue.

- 4 In the **Users** block, view the following information for the selected queue:

#### In this field:

User  
Name

#### View this:

User code.  
User name.

# APPENDIX A : ORACLE DAYBREAK INTERFACE

This appendix explains the Oracle Daybreak's graphical user interface (GUI). It defines the components commonly found on a GUI, provides an overview of their functions, and explains how to:

- Use Oracle Daybreak's windows and forms
- Work with the parent-child relationships between blocks
- Navigate within the Oracle Daybreak system.

## Oracle Daybreak's graphical user interface

All the forms in Oracle Daybreak appear as graphical user interfaces (GUIs). To use Oracle Daybreak, you need to understand the components found on a GUI, as well as their functions.

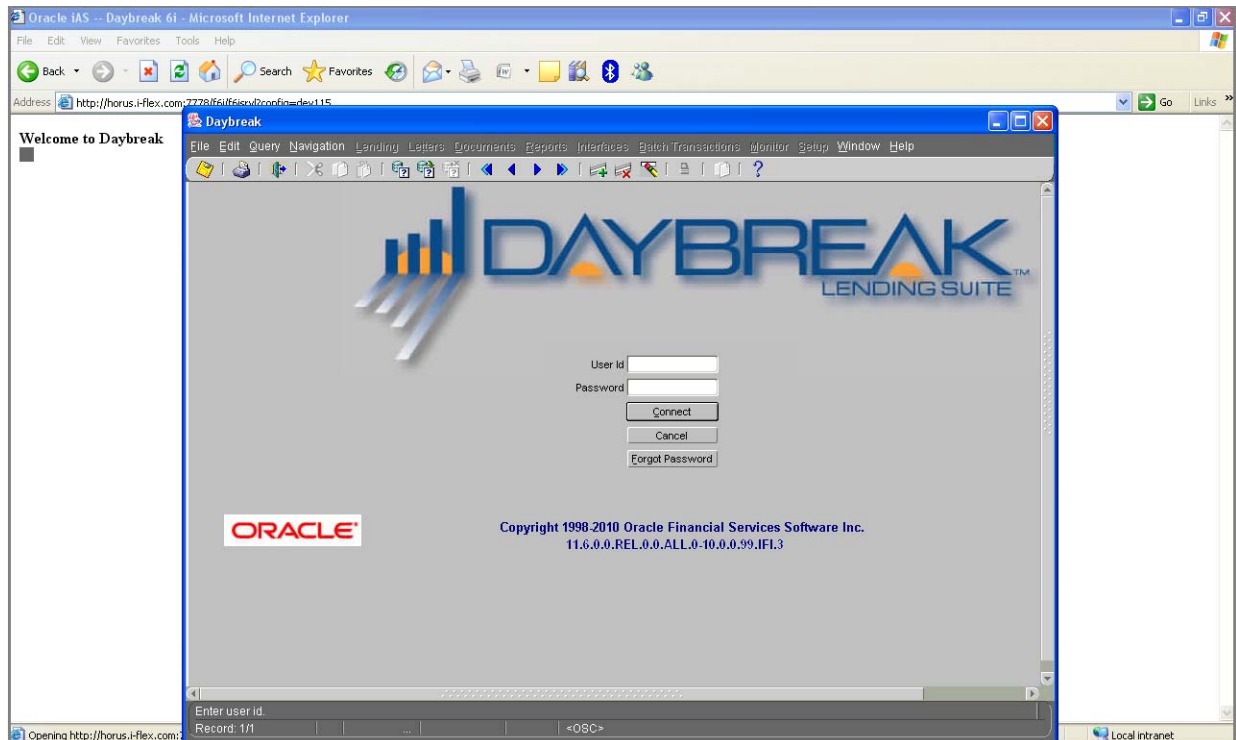

## Windows and forms

Oracle Daybreak uses two basic GUIs in completing tasks: windows and forms.

The screenshot displays the Oracle Daybreak GUI. At the top is a menu bar with options: File, Edit, Query, Navigation, Lending, Letters, Documents, Reports, Interfaces, Batch Transactions, Monitor, Setup, Window, and Help. Below the menu bar is a toolbar with various icons. The main window title is "Daybreak". The main form area is titled "(Customer Service)(Pending Request: 0)". It contains several sections: "Search" with fields for Queue, Auto Run, and Acc #; "Accounts" with fields for Acc #, Status, Product, Payoff Amt, Amt Due, Oldest Due Dt, Company, and Branch; "Customers" with fields for Customer #, SSN, Birth Dt, Gender, Email, Language, Marital St, Disability, Skip, Stop Correspondence, Privacy Opt-Out, Time Zone, and Active Military Duty; "Dues" with fields for Today's Payoff, Oldest Due Dt, Due Dt, Amt, Delq Due, LC Due, NSF Due, Other Due, and Total Due; "Conditions" with fields for Condition, Start Dt, Followup Dt, and Alert; "Activity" with fields for Effective Dt, Active Dt, Paid Off Dt, Chargeoff Dt, Current Pmt, Due Day, Last Pmt Amt, Pmt Dt, Last Bill Amt, Last Activity Dt, Military Duty, Producer, App #, Customer Grade, and Score; and "Delinquency Information" with fields for Late, 30, 60, 90, 120, 150, 180, BP/NSF (Life), BP/NSF (Year), Days, Category, and Collector. A callout box points to the Windows menu, stating "Minimize, Maximize, and Close buttons (not present on a form)".

Oracle Daybreak Lending Suite uses two windows, the iAS window and the Oracle Daybreak window. The Oracle Daybreak window is the java applet that is running Oracle Daybreak. The iAS window is the browser that launched the applet. In this sense, the iAS window is the parent of the Oracle Daybreak window.

Windows can be maximized, minimized, opened, closed, and repositioned. More than one window can be opened on your desktop; windows can overlap or appear adjacent to each other. The window that you are currently using, or is currently selected, is the “active” window. It appears on the top of the overlapping windows. Windows that are open but not selected are “inactive.” The title bar of an active window is a different color than the other inactive windows.

For more information on window components, see the **Window components** section of this chapter.

Oracle Daybreak uses forms to complete tasks. A form is an organized display of a module’s fields, contained within a window. Forms allow you to enter, view, and update information in the Oracle Daybreak system. Each module has its own form. Forms are opened from the Oracle Daybreak menu. For example, on the Lending menu, the Underwriting command opens the Underwriting form, the Funding command opens the Funding form, and the Customer Service command opens the Customer Service form. You can open multiple forms simultaneously. The forms that are available to you are based on your assigned responsibility.

Windows and forms have a very similar appearance, as forms always appear within windows. An easy way to distinguish a window from a form is that a window contains the Minimize, Maximize, and Close buttons in the upper right corner, while a form does not.

For more information on form components, see the **Form components** section of this chapter.

## Window components

This section presents an overview of the components found on windows, as well as their use.

### Window title bar

A horizontal bar containing the name of the window. The active window has a different colored title bar to distinguish it from other inactive windows.

The title bar also contains the Minimize, Maximize, and Close buttons.

The Minimize button reduces the Oracle Daybreak LS application to a taskbar button on your desktop's status bar.

The Maximize button allows you to resize Oracle Daybreak's window on your desktop. (**Note:** You may have to choose the Maximize button to ensure Oracle Daybreak's window is not covered by your desktop's status bar.)

The Close button will quit Oracle Daybreak without logging off. (**Note:** Do not use the Close button to end a Oracle Daybreak session.)

### Menu bar

The horizontal bar containing the menu names. The menu bar is located beneath the title bar and contains commands that allow you to open, view, and maintain a form.

**Note:** You view the contents of a menu by clicking it or pressing **ALT + [THE UNDERLINED LETTER IN THE MENU NAME]**. For example, **ALT + R** opens the Reports menu. Commands can be selected using the mouse or by pressing the key of the underlined letter in the command name.

The following menus are available from the Oracle Daybreak menu bar.

#### File

Contains the following commands:

**Save** - Records the current data on a form in the database.

**Re-Logon** - Closes the current Oracle Daybreak session and refreshes the Login form, allowing you to re-log on to Oracle Daybreak without leaving the system.

**Change Responsibility** - Allows you to change your Oracle Daybreak responsibility. Responsi-

bilities determine what Oracle Daybreak features are available.

**Change Password** - Allows you to change your Oracle Daybreak password.

**Clear Form** - Clears the active form of its unsaved data.

**Print** - Prints the contents of an active form.

**Exit** - Closes the Login form and ends your current Oracle Daybreak session.

#### **Edit**

Contains the following commands:

**Cut** - Removes selected text from a form and stores it in the clipboard buffer.

**Copy** - Copies selected text from a form and stores it in the clipboard buffer.

**Paste** - Moves data from the clipboard buffer to a selected field on a form.

**Edit Field** - Opens the Editor dialog box with the contents of a selected field.

**List of Values** - Opens a field's List of Values dialog box, if one exists.

#### **Query**

Contains the following commands:

**Enter** - Changes Oracle Daybreak to Enter-Query mode. This allows you to search the database.

**Execute** - Performs the query entered during Enter-Query mode.

**Cancel** - Changes Oracle Daybreak back to user mode.

**Last Criteria** - Repeats the most recently performed query entered in Enter-Query mode.

**Count Hits** - Displays the number of records the current query produced in the message line.

**Get Next Set** - Retrieves the next set of records using the most recent query entered while in Enter-Query mode.

#### **Navigation**

Contains the following commands:

**Block** - Allows you to navigate to the previous or next block, or clear the current block.

**Record** - Allows you to navigate between the previous and next record, scroll up and down between records, insert or remove a record, or duplicate or clear a record.

**Field** - Allows you to navigate between the previous and next field, as well as clear or duplicate a field.

#### **Lending**

Contains the following commands:

**Sales Lead** - Allows you to open the Sales Lead form at the Lead Entry, Follow-up, or Maintenance master tabs.

**Application Entry** - Opens the untitled Application Entry form.

**Underwriting** - Opens the Underwriting form.

**Application Retrieval** - Opens the Application Retrieval form.

**Funding** - Opens the Funding form.

**Customer Service** - Opens the Customer Service form.

**Collection** - Opens the Customer Service form designed for a Oracle Daybreak user focussing on collections, as the Bankruptcy (4), Repo/Foreclosure (5), and Deficiency (6) master tabs are unavailable.

**Repossession/Foreclosure** - Opens the Customer Service form designed for a Oracle Daybreak user focussing on repossessions or foreclosures, as the Bankruptcy (4), and Deficiency (6) master tabs are unavailable.

**Bankruptcy** - Opens the Customer Service form designed for a Oracle Daybreak user focussing on bankruptcies, as the Repo/Foreclosure (5) and Deficiency (6) master tabs are unavailable.

**Deficiency** - Opens the Customer Service form designed for a Oracle Daybreak user focussing on deficiencies, as the Bankruptcy (4) and Repo/Foreclosure (5) master tabs are unavailable.

**Collateral** - Opens the Collateral form (currently unavailable).

**Producers** - Opens the Producer Management form.

**Vendors** - Allows you to open the Vendor Management form at the Vendors, Work Orders, or Invoices tab.

**Securitization** - Opens the Securitization form at the Loan tab.

**Tools** - Opens the Calculator Tools form at the Loan Calculator or Lease Calculator tab.

**Transaction Authorization** - Opens the Transaction Authorization form at the Authorization tab.

**Custom Forms** - [This is a placeholder for any forms customized (or added) by the client.]

## **Letters**

Contains the following commands:

**Pre-defined** - Allows you to generate a pre-defined letter, either as a file or a printed document, or preview it as a PDF file.

**Ad-hoc** - Opens the Correspondence form.

## **Documents**

Contains the following commands:

**Application** - Allows you to open the Image Maintenance form at either the Application

Image Maintenance or Application Document Maintenance master tab.

**Account** - Allows you to open the Account Document Tracking form at either the Document Tracking or Document Maintenance master tab.

## Reports

Contains the following commands:

**Run** - Allows you to generate a wide array or predefined reports. (**Note:** For a complete list of reports available in Oracle Daybreak, please refer to the **Oracle Daybreak Lending Suite Reports Catalog**.)

**Print** - Modifies the Run command to generate a predefined report, either as a file or a printed document.

**Preview** - Modifies the Run command to generate a predefined report and view it as a PDF file with a browser.

## Interfaces

Contains the following commands:

**GL Transactions** - Opens the General Ledger form.

**AP Transactions** - Opens the AP Transactions form.

**Card Transactions** - Opens the Card Transactions form.

**Conversions** - Opens the Conversion App/Acc form.

## Batch

### Transactions

Contains the following commands:

**Advances** - Allows you to open the Consumer Lending (Advance and Payment) form at either the Advance Entry or Advance Maintenance tab.

**Payments** - Allows you to open the Consumer Lending (Advance and Payment) form at either the Payment Entry or Payment Maintenance tab.

**Escrow** - Allows you to open the Escrow Analysis and Disbursements form at the Escrow Analysis, Escrow Analysis Maintenance, Escrow Disbursement Entry, or Escrow Disbursement Maintenance master tabs.

## Monitor

Contains the following commands:

**System** - Allows you to open the Utilities form at the Setup, Monitor Batch Jobs, Monitor Jobs, Monitor Users, Services, Log Files, or Parked Transactions master tab.

**User** - Allows you to open the Utilities form at the Monitor Users master tab or open the User Productivity form at the Underwriting/Funding or Customer Service/Collection master tab.

## Setup

Contains the following commands:

**Administration** - Allows you to open the Administration form at the System or User master tab.

**Products** - Allows you to open the Product Setup form at the Setup and Lease master tab.

**Queues** - Allows you to open the Queue Setup form at the Setup, Origination, or Customer Service master tab.

**Correspondence** - Opens the Correspondence form.

**Events** - Allows you to open the Events form at the Lease master tab.

**Credit Bureau** - Allows you to open the Credit Bureau Setup form at the Request or Reporting master tab.

**Batch Jobs** - Opens the Utilities form.

**Producers** - Opens the Producer Management form.

**Vendors** - Opens the Vendor Management form.

**Subvention** - Opens the Subvention form at the Lease master tab.

**Escrow** - Opens the Escrow Setup form at the Loan master tab.

**Securitization** - Opens the Securitization form.

**General Ledger** - Opens the General Ledger form.

## Window

Contains the following commands:

**Cascade** - Arranges the open forms on your screen so that they overlap, with the active form on top.

**Tile Horizontally** - Arranges the open forms on your screen so that they appear one on top of another.

**Tile Vertically** - Arranges the open forms on your screen so that they appear one next to another.

**Note:** The lower portion of the menu displays the Oracle Daybreak forms you have opened. You can use this menu to move between forms by selecting a specific form.

## Help

Contains the following commands:

**Keys** - Opens the Keys dialog box, containing a listing of all the hot keys available for the current form in use. Hot keys are shortcuts that perform Oracle Daybreak tasks with a minimum of key-strokes.

**Display Error** - Displays information about recently encountered Oracle errors. (i-flex solutions Corp. requests that you create a screen shot

of this information and send it to us when you have a system error.)

**Debug** - Contains two commands: Set On and Set Off.

**Oracle Daybreak Help** - Allows you to open a browser and view .pdfs of either the User Guide or Setup Guide.

**Oracle Daybreak On the Web** - Allows you to open the i-flex solutions home page and report to Technical Support department when you encounter an error.

**About Oracle Daybreak and Audit** - Opens the About Oracle Daybreak dialog box, displaying version and audit information such as object data and recent updates. It also allows you access the column audit.

**Oracle Daybreak toolbar** The row beneath the menu bar containing 19 icon buttons used to perform tasks and carry out commands. The toolbar buttons are labeled with the action they perform. To view the label, use the mouse to place the mouse pointer on the button without clicking and the label appears.

If you choose:	(hot key)	Oracle Daybreak will:
[A] Save Changes	(F10)	Save any pending changes on the form.
[B] Print	(SHIFT + F8)	Print the current screen.
[C] Exit	(CTRL + E)	Close the current form or exits the application.
[D] Cut	(CTRL+X)	Remove selected text and stores it on the clipboard.
[E] Copy	(CTRL+C)	Copy selected text and stores in on the clipboard.
[F] Paste	(CTRL+V)	Insert text stored on the clipboard in a selected field.
[G] Enter Query	(F7)	Change Oracle Daybreak to Enter-Query mode.
[H] Execute Query	(F8)	Perform the query entered while in Query mode.
[I] Cancel Query	(CTRL+Q)	Change Oracle Daybreak back to user mode.
[J] First Record		Display the first record.
[K] Previous Record	(SHIFT + UP)	Display the previous record.
[L] Next Record	(SHIFT + DOWN)	Display the next record.
[M] Last Record		Display the last record.
[N] Insert Record	(F6)	Create a new record.
[O] Remove Record		Delete the current record from the database.
[P] Clear Record	(SHIFT+F4)	Clear the current record from the form.

<b>[Q] Lock/Unlock Record</b>	Lock and unlocks a record.
<b>[R] Copy with Details Record</b>	Copy the selected record to the clipboard.
<b>[S] Help</b>	<b>(CTRL + H)</b> Display help for the selected item.

**Note:** Depending on the context of the selected field, some toolbar buttons may not be available. For example, if you select a field that does not allow a query, the Enter Query button is unavailable.

**Message line**The message line is located in the lower left corner of the Oracle Daybreak window and displays field prompts, error messages, or additional details about a field. In the illustration below, the message line contains the error message: “Query caused no records to be retrieved.”

<b>Status line</b>	The status line appears below the message line and displays status information about the current form or field. A status line can contain the following indicators:
<b>Enter-Query</b>	Indicates that Oracle Daybreak is in Enter-Query mode, allowing you to specify search criteria for a query.
<b>List of Values</b>	Appears when a List of Values (LOV) is available for the selected field.

## Form components

This section presents an overview of the components found on forms and how to use them.

<b>Tab</b>	<p>Oracle Daybreak uses tabs as a primary navigation tool.</p> <p>Tabs are small flaps used for quick access to pages of information, not unlike the tabs on a folder in your file cabinet. There are three types of tabs in Oracle Daybreak system: master tab, tab, and sub tab.</p> <p>Master tabs are the highest level of tab. If present on a form, they are usually numbered and appear near the top of the form. Master tabs are used primarily to navigate to other pages.</p> <p>Tabs and sub tabs open pages that contain information.</p> <p>Sub tabs, if present, appear at the bottom of the form.</p>

**Block**

A frame, or box, that encloses a set of related functions or data. A shadowed line marks a block's perimeter. The title of the block appears across the top of the block in bold, black text. In the illustration below, the Additional Lease Details page contains two blocks: "Extensions and Due Date" and "Additional Details." The "Extensions and Due Date" block is circled.

The screenshot shows a software interface with three tabs: 'Additional Loan Details', 'Additional Line of Credit Details', and 'Additional Lease Details'. The 'Additional Lease Details' tab is active. It contains two distinct blocks. The first block, titled 'Extensions and Due Date', is enclosed in a red rectangular border and contains input fields for '# of Extensions', '# of Extension Term', '# of Due Day Changes', 'Last Extn Dt', and 'Due Day Chg Dt', along with 'Year' and 'Life' headers. The second block, titled 'Additional Details', is to the right and contains input fields for 'Total Term', 'Paid Term', and 'Maturity Dt'.

**Command button**

A rectangle button that initiates a predefined action. Buttons do not contain values as fields do. A button is usually labeled with text noting the action that it performs. In the illustration below, the Loan page contains six command buttons: "Calculate," "Amortize," "Initialize," "Copy to Decision," "Copy to Contract," and "Print Report." All three are located in the Action block.

**Note:** The "Copy to Contract" button is unavailable.

The screenshot shows a software interface with two tabs: 'Loan' and 'Lease'. The 'Loan' tab is active. It features an 'Action' section with two radio buttons: 'Calculate Payment' (selected) and 'Calculate Interest Rate'. Below these are six command buttons: 'Calculate', 'Amortize', 'Initialize', 'Copy to Decision', 'Copy to Contract', and 'Print Report'. These buttons are grouped within a red rectangular border. Below the action section is a 'Loan Details' section with various input fields for dates, amounts, and fees. At the bottom is a 'Rate' section with input fields for 'Rate' and 'APR'.

**Field**

A box on a form used to enter, view, update, or delete information. Each page contains fields. Fields can display values in different formats; including text, numbers, and dates.

**Text field** A field that stores characters and numbers.

**Number field** Number fields store only numbers, often dollar figures, with or without decimals.

**Date field** Date fields store dates and sometimes time values.

**IMPORTANT:**

When you select a field, messages appear in the message area in the lower left corner of the Oracle Daybreak window. The messages describe the field or what type of information can be entered in the field. (See Message line and Status line later in this section for more information.)

### Option button

A round button used to select an action from a group of options. You can select only one option button in a group at a time. In the illustration below, option buttons are used to select whether Oracle Daybreak calculates payment or calculates interest rate.

### Check box

A check box indicates a state for a particular field, such as enabled/disabled, primary/secondary, and current/not current. For that reason, check boxes are sometimes called “indicators.” The title of the check box indicates what it controls. A check denotes that the check box is selected. Click a selected check box to “clear” it.

**Note:** One or more check boxes can be selected, since each one acts independently.

**List of Values (LOV)** A dialog box linked to a field that enables you to select a single item from a predefined list. To view a field's List of Values, press **F9**. Move the blue highlighted bar using the **UP** or **DOWN ARROW** keys or the slide bar on the LOV dialog box to the value you want to select. In the example below, 55001 AFTON MN is selected. Some LOV contain lists long enough to require a scroll bar to view the entire contents. Choose **OK**, press **ENTER**, or double-click the LOV item to populate the field with the selected value.

Zip	City	State
02043	HINGHAM	MA
03043	FRANCESTOWN	NH
04043	KENNEBUNK	ME
04330	AUGUSTA	ME
04330	CHELSEA	ME
04330	SIDNEY	ME
04332	AUGUSTA	ME
04333	AUGUSTA	ME
04336	AUGUSTA	ME
04338	AUGUSTA	ME
04341	COOPERS MILLS	ME
04342	DRESDEN	ME
04343	EAST WINTHROP	ME
04344	FARMINGDALE	ME
04345	GARDINER	ME
04345	WEST GARDINER	ME

**Blue square (cursor)** Oracle Daybreak uses a blue square as a cursor. The blue square indicates the active item, usually a field or record. You can move the blue square using the arrow keys on your keyboard or by clicking an item with the mouse.

Company	Branch	Priority	App #	Date	Title	Product	Status	Producer
DCC	HQ	NORMAL	0000000225	02/01/2001	ANNA / LEO MMAGNOLIA	LOAN HE	APPROVED-FINAL DOCUM	MN-00001 : IN HOUSE (DIRECT DE
DCC	HQ	NORMAL	0000000254	05/01/2001	PAULA / JOHN CCERASTOSTIGMA	LOAN UNSECURED	APPROVED-FINAL DOCUM	MN-00001 : IN HOUSE (DIRECT DE
DCC	HQ	NORMAL	0000000286	07/01/2001	GRAHAM / LISA CCARNATION	LOAN UNSECURED	APPROVED-FINAL DOCUM	MN-00001 : IN HOUSE (DIRECT DE
DCC	HQ	NORMAL	0000000290	08/01/2001	MARIE / HANK CCOTONEASTER	LOAN UNSECURED	APPROVED-FINAL DOCUM	MN-00001 : IN HOUSE (DIRECT DE

**Record** A logically related collection of fields within a block about one person, place, or thing.

There are two types of records in Oracle Daybreak; *table records* and *block records*. A scroll bar allows you view records not currently displayed. The message bar informs you of the total number of records in the table block, as well as the record you are currently viewing.

**Table records** Appear as a grid, where each record is a single row of related data.

**Block records** Record appears as a single block.

**Record line** Located in the lower left corner of the Oracle Daybreak window, the record line displays how many records exist within the record on display.

**Next Record/Previous Record scroll bar** The presence of a record scroll bar indicates that there are records above or below the one on which you are working. If the scroll bar does not stretch the entire length between the two arrows, this indicates there are additional records available. If the scroll bar stretches the entire length between the two arrows this indicates no other records are available. Click the arrows to view these records. Click the up (▲) or left (▶) arrow for previous records. Click the down (▼) or right (▶) arrow for following records.

**Hint box** A yellow box that appears when the mouse pointer is moved over a field. The hint box will display a description of the field's content. If the field is associated with a List of Value dialog box, the hint box displays the Lookup Type of the LOV.

## Using colors as a guide

Fields appear in different colors to indicate what type of information the field contains.

**Aqua** Required - Information is required in an aqua field to complete a form.

**White** Optional - A white field is not required to contain information when completing a form.

### **IMPORTANT:**

Some optional fields may be required by your organization. Such fields, though not mandatory on the form, must be completed during edit verification.

**Gray** Display only - Data cannot be entered in these fields.

**Note:** Aqua, white, and gray are the default colors in the Oracle Daybreak system. Your organization may have selected different colors during implementation.

---

## Understanding parent-child relationships

A parent-child relationship is an association between a master block and one or more detail pages. The master-detail relationship is arranged in the shape of a pyramid, from the top of the form to the bottom. The top block contains the basic, or master, information. The detail pages then expand on the contents of the master block. Detail pages themselves can serve as master blocks for other sub detail pages that follow. When a block and pages are linked in a master-detail relationship, the following conditions exist:

- 1 The detail page displays only those records that are associated with the current record in the master block.
- 2 Querying between the master block and detail pages is always coordinated.

When a record is displayed in a master block, the detail pages contain information that corresponds to that record. If you perform query or change information in the master block, Oracle Daybreak updates the detail pages to match the new record in the master block. If you use the master block to perform a query and gain access to the records for a different application, the detail pages refresh to display information for the new record in the master block.

**Note:** You can perform a query from a detail page if the master block (or page) is completed. Otherwise, it is not possible to directly query from a detail page.

### Example: Parent-child relationship

In the illustration below, note that the Underwriting form is divided into three sections. The top section (the Application block) is the master page. It contains such information as application number, product, and other items related to a specific application. The Applicants (2) master tab has been selected to display the Primary page and Address Information sub page. These detail pages contain further information about the application; in this case, the application's primary applicant and that person's address information.

---

## APPENDIX B : NAVIGATING AND QUERYING IN ORACLE DAY-BREAK

This appendix explains how to use Oracle Daybreak to complete these frequently completed tasks:

- Navigate within and between forms
- Print a form
- Save an entry
- Edit data (including cutting, copying, and pasting data)
- Clear data
- Duplicate data
- Create and delete records
- Use the Editor dialog box
- Enter and query data using the List of Values (LOV) dialog box
- Use additional LOV tools (auto reduction, long-list, list search, and power list)
- Query data
- Use query operators and wildcard characters (including Query by example, Query/Where, and Query count)
- Use hot keys.

## Navigating within a form

The following procedures can be used to navigate within a Oracle Daybreak form. Choose the one you are most comfortable using:

- Move the cursor with your mouse
- Select a command from the menu bar (Navigation menu)
- Select a command from the Oracle Daybreak toolbar
- Enter a keyboard shortcut (hot key)

### The Navigation menu

The Navigation menu contains the following commands, all of which allow you to navigate within a form: Block, Record, and Field.

The **Block** command contains the following sub commands:

If you choose: (hot key)		Oracle Daybreak will:
<b>Previous</b>	<b>(CTRL + PAGE UP)</b>	Move the cursor to the previous block (if one exists).
<b>Next</b>	<b>(CTRL + PAGE DOWN)</b>	Move the cursor to the next block (if one exists).
<b>Clear</b>	<b>(SHIFT + F5)</b>	Clear the block currently containing the cursor.

The **Record** command contains the following sub commands:

If you choose: (hot key)		Oracle Daybreak will:
<b>Previous</b>	<b>(SHIFT + F8)</b>	Display the previous record (if one exists).
<b>Next</b>	<b>(SHIFT + DOWN)</b>	Display the next record (if one exists).
<b>Scroll Up</b>	<b>(PAGE UP)</b>	Perform that same action as pressing <b>PAGE UP</b> .
<b>Scroll Down</b>	<b>(PAGE DOWN)</b>	Perform that same action as pressing <b>PAGE DOWN</b> .
<b>Insert</b>	<b>(F6)</b>	Create a new record.
<b>Remove</b>	<b>(SHIFT + F6)</b>	Remove the current record.
<b>Duplicate</b>	<b>(F4)</b>	Duplicate the current record.
<b>Clear</b>	<b>(SHIFT + F4)</b>	Clear the current record.

The **Field** command contains the following sub commands:

If you choose: (hot key)		Oracle Daybreak will:
<b>Previous</b>	<b>(SHIFT + TAB)</b>	Move the cursor to the previous field (if one exists).
<b>Next</b>	<b>(TAB)</b>	Move the cursor to the next field (if one exists).
<b>Clear</b>	<b>(CTRL + U)</b>	Clear the current field.
<b>Duplicate</b>	<b>(F4)</b>	Duplicate the current field.

#### IMPORTANT:

The **TAB** and **ENTER** keys move the cursor between fields. **F8** refreshes the record.

---

## Navigating between forms

You can open multiple forms in each window and navigate between them with the Window menu. The lower part of the Window menu lists the forms that are currently open. Selecting the form's option button moves you to that form.

### To navigate between forms

- 1 On the **Oracle Daybreak** menu bar, choose **Window**.
- 2 Select the form you want to move to by selecting it with one of the following methods:
  - Click the option button for the corresponding form.
  - or-
  - Move the cursor on the open Windows menu with the **UP** and **DOWN ARROW** keys and press **ENTER** to open a highlighted form.
  - or-
  - Type the number on the Windows menu next to the form you want to open.

Oracle Daybreak displays the form you selected.

---

## Common Oracle Daybreak tasks

This section explains tasks common to many Oracle Daybreak modules and forms. Here you will learn how to:

- Print a form
- Save your work
- Editing data
- Using the Editor dialog box
- Close a form/leave Oracle Daybreak

---

## Printing a form

You can print a form at any time. Make sure a printer driver is installed and at least one printer is defined before printing. (Contact your system administrator for information on how to install printer drivers and define printers.)

### To print a window

- On the **File** menu, choose **Print**
- or-
- Click **Print** on the Oracle Daybreak tool bar.

---

## Saving your entry

When you save your work, the database is updated with all changes made since the last time the data was saved.

### To save your work in Oracle Daybreak

- On the **File** menu, choose **Save**  
-or-
- On the Oracle Daybreak tool bar, choose **Save** (the yellow disk icon)  
-or-
- Press **F10**.

When you save an entry, the message line at the bottom of your screen displays a “Transaction complete” message to inform you of the changes.

---

## Editing data

In this section, you will learn how to use Oracle Daybreak to edit data. You will learn how to:

- Cut, copy, and paste data
- Clear data
- Duplicate data
- Create and delete records
- Use the Editor dialog box

## Cutting, copying, and pasting data

The cut, copy, and paste commands on the Oracle Daybreak menu bar allow you to move and edit data.

### To cut, copy, and paste with the Oracle Daybreak menu bar

- 1 Open the form and select the data in the field you want to edit. (You can either drag your mouse over the data or double-click the data to select it.)
- 2 On the **Edit** menu, select **Cut** or **Copy**. (**Copy** leaves the data in the field while copying it; **Cut** clears the field when it copies the data.)
- 3 Move the cursor to the field where you want to place the copied data.
- 4 On the **Edit** menu, choose **Paste**.

Oracle Daybreak pastes the cut or copied data in the new field.

## Keyboard guide for the previous steps

These three tasks can also be completed with the keyboard by doing the following:

Press this:	To do this:
CTRL+X	Cut
CTRL+C	Copy
CTRL+V	Paste

## Clearing data

You can clear data from a form at any time. The data you clear is simply erased from the form, not deleted from the database. You can clear fields, records, blocks, or entire forms. This is particularly useful when you want to add a new entry to a record, block, or form that appears “full.”

If the data is new and has never been saved in the database, it will be permanently lost when you clear it from the form. Some items cannot be cleared of information. If you attempt to clear an item that cannot be cleared, the error message “Field is protected against update” appears in the message line.

### To clear a field

- Select the field you want to clear and use **one** of the following methods to clear data:

On the **Navigation** menu, choose **Field > Clear**.

-or-

Select and type over the existing data, or use the **BACKSPACE** or **DELETE** key to remove the data.

-or-

Press **CTRL+U**.

#### IMPORTANT:

The data you clear from the field is not available for pasting into another field. If you want to paste the data elsewhere, use the **Copy** or **Cut** commands on the **Edit** menu.

### To clear a record

- Select the record you want to clear and use **one** of the following methods to clear data:

On the **Navigation** menu, choose **Record > Clear**.

-or-

On the Oracle Daybreak tool bar, choose the **Clear Record** icon.

-or-

Press **SHIFT+F4**.

Oracle Daybreak clears the values in all the fields of your current record and returns the cursor to the first field of the next record.

### To clear the current block

- Select a field in the block you want to clear and use **one** of the following methods to clear data:

On the **Navigation** menu, choose **Block > Clear**.

-or-

Press **SHIFT+F5**.

Oracle Daybreak clears the block and returns your cursor to the first field in the current block.

**IMPORTANT:**

If the current block is a multi-record block, this action erases all records displayed in the block.

**To clear a form**

- Open the application of the form you want to clear and press **SHIFT+F7**.

Oracle Daybreak clears the data from all the fields of the current form and returns your cursor to the first field of the form.

## Duplicating data

If data needs to be repeated in a new record, you can duplicate data from a previous record.

**To copy a field from a previous record**

- 1 Depending on the form you are using, enter a new record or query an existing record.
- 2 On the **Navigation** menu, choose **Record > Insert**  
-or-  
On the Oracle Daybreak tool bar, choose the **Insert Record** icon  
-or-  
Press **F6**.

Oracle Daybreak inserts a new record after the existing record.

- 3 Move the cursor to the field you want to duplicate in the new record.
- 4 On the **Navigation** menu, choose **Field > Duplicate**.  
-or-  
Press **F3**.

Oracle Daybreak copies the field value from the previous record to the current record.

**To copy all fields from a previous record**

- 1 Enter a new record, or query an existing record in your form.
- 2 On the **Navigation** menu, choose **Record > Insert**  
-or-  
On the Oracle Daybreak tool bar, choose the **Insert Record** icon  
-or-  
Press **F6**.

Oracle Daybreak inserts a new record after the existing record.

- 3 On the **Navigation** menu, select **Record > Duplicate**.  
-or-  
Press **F4**.

**IMPORTANT:**

If your current block requires all records to be unique, the Duplicate command does not duplicate those fields that must be unique.

**To copy all information on a page and its sub pages**

- 1 Move the cursor to the first field on the page you want to duplicate.
- 2 On the **Oracle Daybreak** tool bar, choose the **Copy with Details Record** icon.  
**Note:** For this process to work, the entry has to be locked (lock parameter set to **y**)
- 3 Make the changes you desire to the details in the duplicate entry to make it unique.
- 4 Choose the **Copy with Details Record** icon to complete sub tabs.
- 5 Make the changes you desire to the sub page details in the duplicate entry to make it unique.
- 6 Save your new entry.

## Creating and deleting records

You can enter new records in the database or delete existing records from the database. Only users who have the appropriate permissions set up in their user responsibility can create or delete records.

**To create a new record**

- 1 On the **Navigation** menu, choose **Record > Insert**.  
-or-  
On the Oracle Daybreak tool bar, click **Insert Record**.  
-or-  
Press **F6**.

**Note:** When you create a record in a multi-record block, Oracle Daybreak inserts a new blank row below the selected row. In a single-record block, Oracle Daybreak clears the fields in the block.

- 2 Once the selected field is cleared, enter the data for the new record.
- 3 On the **File** menu, choose **Save**.  
-or-  
On the Oracle Daybreak tool bar, click **Save**.  
-or-  
Press **F10**.

Oracle Daybreak saves the record in the database.

**IMPORTANT:**

If you exit the form without saving your work, the record is not added to the database.

### **To delete a record**

- 1 Select the record you want to delete.
- 2 Use one of the following methods to delete data from a field:

On the **Navigation** menu, choose **Record > Remove**.

-or-

On the Oracle Daybreak tool bar, choose the Remove Record icon.

Oracle Daybreak erases the current record from your form and returns your cursor to the first field of the next record; however, the record is not yet deleted.

- 3 On the **File** menu, choose **Save**.

-or-

On the Oracle Daybreak tool bar, click **Save**.

-or-

Press **F10**.

#### **IMPORTANT:**

If you exit the form without saving your work, the record is not deleted from the database.

---

## Using the Editor dialog box

You can use the Editor dialog box to view, enter, or update the entire contents of an entry field. The Editor dialog box is especially useful for editing scrollable text fields. A scrollable text field is a field whose actual width is longer than its display width and whose content you can view by scrolling through the field. Searches performed in the Editor dialog box are case-sensitive.

### **IMPORTANT:**

If a text field is set up to use a default system editor, then the following procedures open the editor determined by the profile option “Editor (Character).”

### **To use the Editor dialog box**

- 1 Open the form and select the field you want to edit.
- 2 On the **Edit** menu, choose **Edit Field**.

The Editor dialog box appears with the text from the field you selected.

**Note:** You can also open the Editor dialog box by pressing **CTRL+E**.

- 3 Enter a new text or edit the existing text in the Editor dialog box and choose **Ok**.

### **IMPORTANT:**

If the current field is a display-only field, then the Editor dialog box appears in display-only mode.

### **To search for a phrase and replace it with another phrase**

- 1 On the **Edit** menu, choose **Edit Field**.

The Editor dialog box appears.

- 2 Choose **Search**.

The Search/Replace dialog box appears.

- 3 In the **Search for** field, type the text or characters you want to find on the form.  
If you want to replace that data with other data, type the new data in the **Replace with** field.
- 4 Choose the **Search** button to search for the value.  
-or-  
Choose **Replace** to search for the value and replace the first occurrence.  
-or-  
Choose **Replace All** to search for the value and replace all occurrences.
- 5 To close the **Search/Replace** dialog box, choose **Cancel**.
- 6 When you are finished editing the value in the **Editor** window, choose **Ok**.  
The Editor dialog box closes the window and the edited value appears in the field.

---

## Exiting a form/leaving Oracle Daybreak

You can close a Oracle Daybreak form, or end a Oracle Daybreak session, using the mouse or keyboard.

### To save exit a form/leave Oracle Daybreak

- On the **File** menu, choose **Exit**  
-or-
- On the Oracle Daybreak tool bar, choose **Exit** (the blue door icon)  
-or-
- Press **CTRL + Q**.

Oracle Daybreak will end a Oracle Daybreak session when you perform one of these actions from the Login form.

---

## Entering and querying data

This chapter explains how to use the List of Values dialog boxes and search for data while using a form.

### List of Values (LOV) dialog box

Many fields on Oracle Daybreak forms are linked to a List of Values (LOV) dialog box. An LOV displays all possible entries that Oracle Daybreak will accept for a particular field. You can select data from the LOV to complete the field instead of having to search for acceptable entries. Likewise, a field that is associated with an LOV only accepts entries found on the list of values. Using the LOV increases accuracy and productivity, as it ensures uniformity and efficiency during data entry.

**Note:** If you are in Enter-Query mode, the LOV cannot be used.

When an LOV is available for a field, “List of Values” appears on the status line. Also, when you move the cursor to the field with an LOV from a Lookup field in the Setup menu, a yellow hint box appears, citing the lookup type for the LOV.

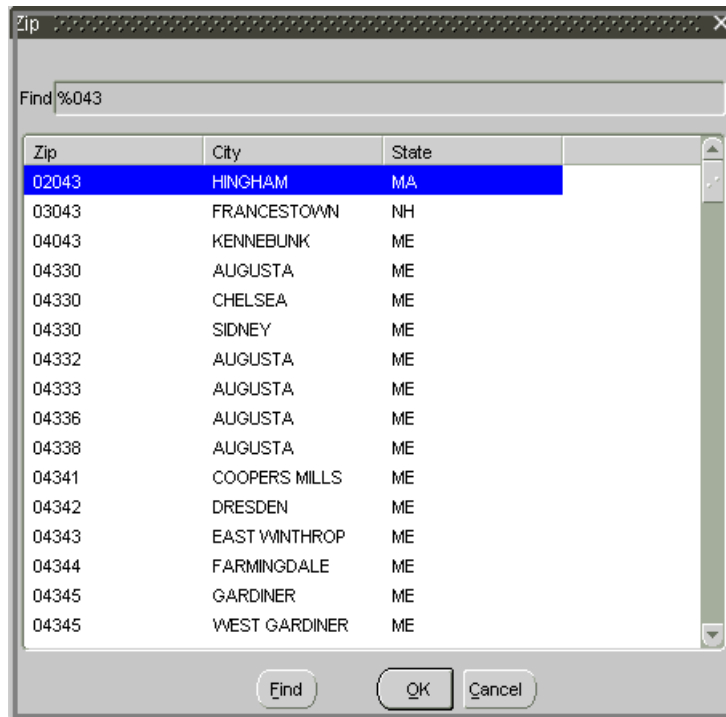

The screenshot shows a software interface with a tabbed menu at the top: Address, Employments, Telecoms, Financials, Liabilities, and Other Incomes. The 'Address' tab is active. Below the tabs is a form with various fields. A yellow hint box is positioned over the 'STREET\_TYPE\_CD' field, which is part of the 'Street Type' field. The hint box contains the text 'STREET\_TYPE\_CD'. Below the form, there is a status bar that says 'Select the street type.' and 'Record: 1/1'. A red box highlights the text 'List of Valu...' in the status bar.

When you open an LOV from an entry field, the field’s LOV dialog box appears.

The screenshot shows a 'Lookup' dialog box. It has a title bar with 'Lookup' and a close button. Inside the dialog, there is a 'Find %' text box. Below it is a list of street types: ALLEY, AVENUE, BOULEVARD, CIRCLE, CENTER, CRESCENT, COURT, CANYON, DALE, DRIVE, EXPRESSWAY, FREEWAY, GARDEN, GROVE, HILL, and LIFELINE. The 'ALLEY' item is selected and highlighted in blue. At the bottom of the dialog, there are three buttons: 'Find', 'OK', and 'Cancel'.

An example of a List of Values box. This one appears from the Street Type field on an Address block.

An LOV might contain more than one column of information. Most LOVs provide a descriptive heading at the top of each column.

### To select data from an LOV

- 1 Move the cursor to an entry field with an LOV.

“List of Valu...” appears on the status line.

- 2 On the **Edit** menu, choose **List of Values**.

-or-

Press **F9**.

When the LOV appears, you can either use the mouse to scroll through the list box and double-click on a value to select it, or press the **UP ARROW** or **DOWN ARROW** keys to highlight a value with the blue bar.

If you choose **Cancel**, the LOV closes and no entry appears in the field.

- 3 Press **ENTER** or choose **OK** to select the value.

Once you select a value, the LOV dialog box closes and the selected value appears in the field.

## Additional LOV tools

In addition to allowing you to select a field value, LOVs provide tools to simplify entering data and working with long lists. Auto Reduction lets you view a condensed portion of the entire list of values. Power List allows you to quickly enter data without opening the LOV.

In some cases, an LOV is too large to fit entirely in the list box and the Long-List LOV appears.

### Auto reduction

Using Auto Reduction, you can shorten an LOV. With a shortened list, you only need to scan a subset of the original values.

#### To use the Auto reduction feature

- In the **Find** field on the LOV dialog box, type the first character(s) of a value you want to locate. (A percent sign appears by default in the Find field.)

Oracle Daybreak automatically reduces the list to just those values in the first column that match the characters you enter.

**Note:** To return to the entire contents of the LOV, type the wildcard character % in the Find field and press **ENTER**.

### List search

If you do not know the initial characters of your value, but do know that your value contains a certain word or set of characters, you can perform a list search to find the values that contain those words or characters.

#### To perform a list search

- 1 In the **Find** field on the LOV dialog box, enter any group of characters as search criteria. Use wildcard characters, such as the percent sign (%), which represents any number of characters, or underline ( \_ ), which represents a single character in your search criteria.

#### IMPORTANT:

The criteria you enter for a list search is not case-sensitive. For example, to reduce a search list to just those values containing the word “schedule,” enter **%schedule%** in the **Find** field.

- 2 Choose **Find**.

A reduced list appears, containing just those values that match the search criteria.

## Long-list

Long-List is the other tool you can use to shorten an LOV. Long-List works similarly to Auto Reduction. The Long-List dialog box appears when a field has a list too large for Auto Reduction.

### To perform a list search

- 1 In the **Find** field on the long list LOV dialog box, type the first few characters that occur in your value in the Find field
- 2 Choose **Find**.  
  
Oracle Daybreak reduces the long list to a smaller sub set of values meeting the search criteria in the Find field in a regular LOV.
- 3 Select the value you want to use and choose **Find**.

## Other LOV features

You do not have to use a field's LOV to complete a field. If your entry appears in the field's' LOV, Oracle Daybreak will accept it when you type it in the field.

The Auto Reduction logic that applies to the LOV also applies to your entry in a field with an LOV. If you type the first letter of your entry and press **TAB**, Oracle Daybreak will automatically complete the field if there is a single match in the LOV.

If more than one entry in the LOV share the characters you typed, Oracle Daybreak will open the LOV displaying only the entries beginning with those characters.

If no entry in the LOV matches the characters you typed, Oracle Daybreak opens the LOV displaying all of its entries when you press **TAB**.

## Querying data

Oracle Daybreak provides you with search options to locate information when working with a form. You can retrieve and review all available information in your database without having to remember the information from a previously displayed form or printing lengthy reports to view an item. Instead, you can perform a search to obtain and review the information you want.

This section describes the methods you can use to locate and retrieve records in Oracle Daybreak. These include:

- Using query operators
- Query-by-example
- Query/Where
- Using query count

**Note:** If you are in Enter-Query mode, the LOV cannot be used.

### IMPORTANT:

Searches cannot be performed in forms that require using the Search page to retrieve information. These forms (for example, the Underwriting form, the Funding form, and Customer Service form) only display run-time output, or only run specific processes. The following message appears in the message line if you attempt to search such a form: “Function key not allowed. Press Ctrl+F1 for list of valid keys.”

## Using query operators

Query operators are used to create search criteria to limit searches to specific information. The query operators available in most fields include:

Operator	Meaning	Example Expression
=	equal to	= 'Janet' or = 107
!=	not equal to	!= 'Bob' or != 107
>	greater than	> 99 or > '01-JAN-93'
>=	greater than or equal to	>= 55
<	less than	< 1000.00
<=	less than or equal to	<= 100
#BETWEEN	between two values	#BETWEEN 1 AND 1000

The query operator expressions retrieve results according to character-ordering rules for character fields and numeric-ordering rules for numeric fields. For example, look at the following field values:

002, 003, 004, 005, 078, 123, 253, 441, 576, 775, 1274, 3298, 4451, 5600, 9578, 10500, 58437, 708445

These values are shown in the order you expect for numeric values, where 005 is between 004 and 078. If the field is defined as a numeric field, then the phrase “#BETWEEN 004 AND 078” would retrieve 004, 005, and 078.

However, if the field is defined as a character field, then the phrase “#BETWEEN 4 AND 7” would retrieve the values 441, 576, 4451, 5600, and 58437, which all start with characters between 4 and 7. The values 775 and 005 would not appear because 775 is lexically greater than 7, and 0 is lexically less than 4.

Some fields contain date values that are actually “Date-format” character values. These fields act like character fields in that the value 01-FEB-92 would be lexically less than 01-JAN-92, because F precedes J in a character set.

#### **IMPORTANT:**

Sometimes you cannot instantly determine if a field containing numeric values is defined as a character or numeric field. To identify what the field type is, you may have to enter and experiment with different search criteria expressions and see what results are returned.

### **Tips for using Query Operators**

- Use single quotation marks ( ' ' ) to enclose the character or date value in your expression. For example:

```
'Texas'  
'01-MAY-93'
```

- Query operators cannot be used in time fields.

When you use the #BETWEEN query operator, the search criteria “#BETWEEN value1 AND value2” retrieves all records containing values between and including value1 and value2. The same applies to dates. For example, using the search criteria “#BETWEEN '01-JAN-93' AND '01-MAR-93'” in a date field retrieves all records with dates between and including January 1, 1993 and March 1, 1993.

### **Finding patterns with wildcard characters**

In addition to query operators, you can include wildcard characters in your search criteria. Wildcard characters search for particular patterns in your data. Use the percent (%) wildcard character within a field to represent any number of characters (including no characters), or use the underline ( \_ ) wildcard character to represent any single character.

For example, if you want to retrieve all records that contain the word “XXX” in a specific field, you would enter the search criteria %XXX% in that field.

## Enter-Query mode

If you want to retrieve a group of records in a Oracle Daybreak from using search criteria, you can use Enter-Query mode. The Enter-Query mode may be used to specify complex search criteria in any of the fields on your current block.

The search criteria can include:

- Specific values
- Phrases containing wildcard characters
- Phrases containing query operators
- Any combination of the three to help you pinpoint the data of interest.

### IMPORTANT:

When your application is in Enter-Query mode, you will not be able to navigate out of the current form. To navigate from the form, you must exit Enter-Query mode by choosing **Cancel Query** or **Exit** on the task bar or pressing **CTRL+Q**.

### To user Query-by-example

- 1 On the **Query** menu, choose **Enter**  
-or-  
Press **F7**  
-or-  
On the Oracle Daybreak toolbar, click the **Enter Query** icon.

Oracle Daybreak switches from data entry mode to Enter-Query mode and clears the form. The Enter-Query message appears in the status line.

- 2 Enter search criteria in any of the fields, using wildcard characters and query operators as necessary. You can also choose **Last Criteria** on the **Query** menu to display the search criteria used in your last search, if there was one.

**Note:** Pressing **F7** twice will also display the search criteria from your last search.

### IMPORTANT:

While in Enter-Query mode, all check boxes are in a neutral state; that is, they are neither selected nor cleared as a default. If you want your search criteria to include a selected check box, you have to select it, regardless of whether it already appears to be checked. Similarly, if you want your search criteria to include a cleared check box, you have to clear it, regardless of how it currently appears. (To clear it, first select the check box to activate it, then select it again to clear it.)

- 3 On the **Query** menu, choose **Execute**  
-or-  
Press **F8**  
-or-  
On the Oracle Daybreak toolbar, click the **Execute Query** icon.

### IMPORTANT:

To retrieve all the database records for a block, you can bypass steps 1 and 2 and select **Execute** on the Query menu. This is known as a blind query. To retrieve all records for a block, press **F7**, then press **F8** to perform the query.

- 4 To leave the Enter-Query mode, choose **Cancel** from the **Query** menu  
-or-  
Press **CTRL+Q**  
-or-  
On the Oracle Daybreak toolbar, click the **Cancel Query** icon.

## Query/where

An even more sophisticated search method is to use Query/where. Query/where allows you to modify a query by using a SQL Plus statement as your search criteria.

### To use Query/where

- 1 On the **Query** menu, choose **Enter**  
-or-  
Press **F7**  
-or-  
On the Oracle Daybreak toolbar, click the **Enter Query** icon.  
  
Oracle Daybreak switches to Enter-Query mode.
- 2 Enter the character & (or a blind variable) in the field from which you want to run the query.
- 3 On the **Query** menu, choose **Execute**  
-or-  
Press **F8**  
-or-  
On the Oracle Daybreak toolbar, click the **Execute Query** icon.  
  
The Query/Where dialog box appears.
- 4 Type the search criteria in the format of a SQL Plus statement in the window.  
  
For example, the following Query/Where search criteria:  
  

```
:P like '%VEH%' and :A in ('0000000374', '0000000532')
```
- 5 Choose **OK** to execute the query.  
-or-  
Choose **Cancel** to close the Query/Where dialog box without running a query.

**Note:** If you have a long statement as your search criteria, you can use a field editor to make changes to your statement by choosing **Search**.

## Query count

If you do not need to retrieve the records from a query-by-example search, but only want to know how many records match your search criteria, you can perform a query count.

### To obtain a count of the number of records

- 1 On the **Query** menu, choose **Enter**  
-or-  
Press **F7**  
-or-  
On the Oracle Daybreak toolbar, click the **Enter Query** icon.
- 2 Enter the search criteria in the field you want to perform the query.
- 3 On the **Query** menu, choose **Count Hits**.  
-or-  
Press **SHIFT+F2**.

Oracle Daybreak counts your query. A message appears on the message line displaying the number of records query-by-example would retrieve if you ran the search.

#### **IMPORTANT:**

If you select **Count Hits** on the **Query** menu without specifying any search criteria in a block, query count displays the total number of records in the database for that block.

## Hot keys

“Hot keys” are keystroke shortcuts that perform navigation and data entry tasks. A dialog box containing a form’s available hot keys can be viewed by selecting **Help > Keys** on the Oracle Daybreak menu bar. Below is a list of these keys:

Function	Key(s)
Block Menu	F5
Cancel Query	CTRL + Q
Clear Block	SHIFT + F5
Clear Field	CTRL + U
Clear Form	SHIFT + F7
Clear Record	SHIFT + F4
Copy	CTRL + C
Count Query	SHIFT + F2
Cut	CTRL + X
Delete Record	SHIFT + F6
Display Error	SHIFT + F1
Down	DOWN ARROW
Down	CTRL + L
Duplicate Item	F3
Duplicate Previous Record	F4
Exit	CTRL + E
Enter Query	F7
Execute Query	F8
Help	CTRL + H
Insert Record	F6
List Tab Pages	F2
Move between master tabs	
Master tab 1	SHIFT + CTRL + F1
Master tab 2	SHIFT + CTRL + F2
Master tab 3	SHIFT + CTRL + F3
Master tab 4	SHIFT + CTRL + F4
Master tab 5	SHIFT + CTRL + F5
Master tab 6	SHIFT + CTRL + F6
Master tab 7	SHIFT + CTRL + F7
Master tab 8	SHIFT + CTRL + F8
Master tab 9	SHIFT + CTRL + F9
Master tab 10	SHIFT + CTRL + F10
Move to next page/sub page	CTRL+TAB
Move to previous page/sub page	CTRL+SHIFT+TAB
Next Block/Page to sub page	CTRL + PAGE DOWN
Next Field	TAB
Next Primary Key	SHIFT + F3
Next Record	SHIFT + DOWN ARROW
Next Set of Records	SHIFT + CTRL + PAGE DOWN
Paste	CTRL + V
Previous Block/Sub page to page	CTRL + PAGE UP
Previous Field	SHIFT + TAB
Previous Record	SHIFT + UP ARROW
Print	SHIFT + F8
Return	ENTER
Save changes	F10
Scroll Down	PAGE DOWN
Scroll Up	PAGE UP
Scroll Keys	CTRL + F1
Up	CTRL + P
Up	UP ARROW
Update Record	CTRL + U

---

## APPENDIX C : PAYMENT AMOUNT CONVERSIONS

The following table contains the calculations Oracle Daybreak uses to convert the different payment frequencies (weekly, biweekly, semimonthly, and so on) to standard monthly values for installment accounts.

<b>Payment Frequency:</b>	<b>Scheduled Monthly Income Amount:</b>
D = Deferred	Zero fill
P = Single payment loan	Zero fill
W = Weekly (due every week)	Multiple by 4.33
B = Biweekly (due every two weeks)	Multiple by 2.16
E = Semimonthly (due twice a month)	Multiple by 2
M = Monthly (due every month)	As given
L = Bimonthly (due every two months)	Divide by 2
Q = Quarterly (due every three months)	Divide by 3
T = Triannually (due every four months)	Divide by 4
S = Semiannually (due twice a year)	Divide by 6
Y = Annually (due every year)	Divide by 12
