

Oracle® Enterprise Manager

Application Management Pack for Oracle Utilities Network Management System

Metrics Guide

E70288-01

December 2015

Application Management Pack for Oracle Utilities Network Management System extends Oracle Enterprise Manager Cloud Control to allow monitoring and management of Oracle Utilities Network Management System on remote servers.

When Application Management Pack for Oracle Utilities Network Management System is deployed, the following features and capabilities are available:

- Product discovery
- Target monitoring of status, system load, and activity
- Alerts triggered on monitored thresholds
- Starting and stopping NMS Services
- Sending Action commands to enable/disable debug
- Isis Snapshots
- Associated targets

Overview

The performance metrics (all metrics here except for the ones in **Response** and **Status**) are collected at 5 minute intervals. Some of the performance metrics measure activity "per 5 minutes". These metrics show the difference between the count in the previous collection and the count in the current collection. Some other performance metrics measure activity "per hour". These metrics extrapolate their value by multiplying the "per 5 minutes" metric by 12.

The following metrics are available in the Application Management Pack for Oracle Utilities Network Management System plug-in.

NMS Services Metrics

Table 1: Response

Metric	Description
Status	Current status of NMS

Table 2: Status

Metric	Description
Status	Current status of NMS
Isis	Current status of NMS Isis
Services	Current status of NMS Services

Table 3: Study Sessions

Metric	Description
Total Sessions	Total number of study sessions
Powerflow Sessions	Number of powerflow study sessions
Non-Powerflow Sessions	Number of non-powerflow study sessions

Table 4: Jobs Table

Metric	Description
Active Notify Alarms	Active notify (NFY) alarms
Active Jobs	Total active jobs (not including notify alarms)
Incomplete Jobs	All jobs in a restored or incomplete state
Restored (Incomplete) Outages	Outage jobs in a restored/incomplete state
Active Outages	Outage jobs in an active state
Active Non-Outages	Non-outage jobs in an active state
Active Fuzzy Jobs	Fuzzy jobs in an active state
Active Momentary Outages	Momentary outage jobs in an active state
Incomplete Non-Outages	Non-Outage jobs in an incomplete state
Incomplete Fuzzy Jobs	Fuzzy jobs in an incomplete state
Incomplete Momentary Outages	Momentary outage jobs in an incomplete state

Table 5: INCIDENTS Table

Metric	Description
Total Incidents	Total incidents (including AMI power-offs, customer calls, and damage assessments)
Total Active Incidents	Total active incidents (including AMI power-offs, customer calls, and damage assessments)
Total Restored Incidents	Total restored incidents (including AMI power-offs, customer calls, and damage assessments)
Total Damage Assessments	Total damage assessments
Active Damage Assessments	Active damage assessments
Restored Damage Assessments	Restored damage assessments
Total AMI Power-offs	Total AMI power-offs
Active AMI Power-offs	Active AMI power-offs

Metric	Description
Restored AMI Power-offs	Restored AMI power-offs
Total Customer Calls	Total customer calls
Active Customer Calls	Active customer calls
Restored Customer Calls	Restored customer calls
Unprocessed Calls	Calls which still need to be processed (have not yet been assigned to a job)
Total Incidents Per Hour	Total incidents per hour (extrapolated)
Damage Assess Per Hour	Damage assess per hour (extrapolated)
AMI Power-offs Per Hour	AMI power-offs per hour (extrapolated)
Customer Calls Per Hour	Customer calls per hour (extrapolated)
Total Calls Per Hour	Total calls per hour (extrapolated)
Total Incidents Per 5 Minutes	Total incidents per 5 minutes
Damage Assess Per 5 Minutes	Damage assess per 5 minutes
AMI Power-offs Per 5 Minutes	AMI power-offs per 5 minutes
Customer Calls Per 5 Minutes	Customer calls per 5 minutes
Total Calls Per 5 Minutes	Total calls per 5 Minutes

Table 6: Number of logged in users by type

Metric	Description
Total Users	Total logged in users
Web Workspace	Number of logged in Web Workspace non-View-Only users
WW View Only	Number of logged in Web Workspace View Only users
Storm Management	Number of logged in Storm Management users
Service Alert	Number of logged in Service Alert users
Web Call Entry	Number of logged in Web Call Entry users
Configuration Assistant	Number of logged in Configuration Assistant users
Web Callbacks	Number of logged in Web Callbacks users
Model Management	Number of logged in Model Management users

Table 7: DDS_ALARM_LOG Table

Metric	Description
Total Operations Per Hour	Total device operations per hour (extrapolated)
Sustained Per Hour	Sustained device operations per hour (extrapolated)
Transient Per Hour	Transient device operations per hour (extrapolated)
Total Operations Per 5 Minutes	Total device operations per 5 minutes
Sustained Per 5 Minutes	Sustained device operations per 5 minutes
Transient Per 5 Minutes	Transient device operations per 5 minutes

Table 8: Crew Activity

Metric	Description
Crew Actions Per Hour	Crew actions (assign, en route, on-site, release, etc.) per hour (extrapolated)
Crew Actions Per 5 Minutes	Crew actions (assign, en route, on-site, release, etc.) per 5 minutes

Documentation Accessibility

Our goal is to make Oracle products, services, and supporting documentation accessible to all users, including users that are disabled. To that end, our documentation includes features that make information available to users of assistive technology.

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Accessibility of Code Examples in Documentation

Screen readers may not always correctly read the code examples in this document. The conventions for writing code require that closing braces should appear on an otherwise empty line; however, some screen readers may not always read a line of text that consists solely of a bracket or brace.

Accessibility of Links to External Web Sites in Documentation

This documentation may contain links to Web sites of other companies or organizations that Oracle does not own or control. Oracle neither evaluates nor makes any representations regarding the accessibility of these Web sites.

Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form,

or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are "commercial computer software" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle and Java are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Xeon are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Opteron, the AMD logo, and the AMD Opteron logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.
