Sencha	ExtJS 4.1.1 (OCFM) ExtJS 4.3.0 (OCOM)	JavaScript Framework for Web GUI	<p>Sencha SDK Software License Agreement Version 2.1</p> <p>THIS DOCUMENT IS A LEGAL AGREEMENT (the "Agreement") BETWEEN SENCHA INC. ("We," "Us") AND YOU OR THE ORGANIZATION ON WHOSE BEHALF YOU ARE ENTERING INTO THIS AGREEMENT ("You") IN RELATION TO SENCHA EXT JS, SENCHA GXT, SENCHA TOUCH, SENCHA TOUCH CHARTS, SENCHA TOUCH GRID, AND/OR SENCHA ENTERPRISE CONNECTORS (AMF/SOAP/WSDL) (the "Software") IN SOURCE CODE FORMAT.</p> <p>RIGHTS GRANTED HEREIN APPLY ONLY TO SOFTWARE FOR WHICH YOU'VE PAID THE APPLICABLE FEE (NO FEE FOR SENCHA TOUCH).</p> <p>BY DOWNLOADING, INSTALLING, COPYING OR OTHERWISE USING THE SOFTWARE, YOU ACCEPT THE FOLLOWING TERMS AND CONDITIONS. IF YOU DO NOT AGREE WITH ANY OF THE TERMS OR CONDITIONS OF THIS LICENSE AGREEMENT, DO NOT PROCEED WITH THE DOWNLOADING, COPYING, INSTALLATION OR ANY OTHER USE OF THE SOFTWARE OR ANY PORTION THEREOF AS YOU HAVE NO RIGHTS TO DO SO. THE SOFTWARE IS PROTECTED BY UNITED STATES COPYRIGHT LAWS AND INTERNATIONAL COPYRIGHT LAWS, AS WELL AS OTHER INTELLECTUAL PROPERTY LAWS AND TREATIES. THE SOFTWARE IS LICENSED, NOT SOLD.</p> <p>THIS LICENSE AGREEMENT DESCRIBES YOUR RIGHTS AND RESTRICTIONS WITH RESPECT TO THE SOFTWARE AND ITS COMPONENTS.</p> <p>1. DEFINITIONS</p> <p>"Application" means any software, application, or elements that Your Designated Users develop using the Software or Modifications in accordance with this Agreement; provided that any such Application (i) must have substantially different functionality than the Software, and (ii) must not allow any third party to use the Software or Modifications, or any portion thereof, for software development or application development purposes.</p> <p>"Designated User" shall mean a single distinct person for whom You have purchased a license to use the Software, whether such person is an employee acting within the scope of their employment with You or Your consultant or contractor acting within the scope of the services they provide for You. A Designated User can be replaced with a new Designated User only after being a Designated User for a minimum of six (6) months. You may have an unlimited number of Designated Users for Sencha Touch, subject to reassignment at Your discretion.</p> <p>"End User" means an end user of Your Application who acquires a license to such solely for their own internal use and not for distribution, resale, user interface design, or software development purposes.</p> <p>"Modification" means: a) any addition to or deletion from the contents of a file included in the original Software or previous Modifications created by You, and/or b) any new file that leverages any part of the original Software or previous Modifications.</p> <p>"Sample Code" means sample source code included with the Software and designated as "sample code," "samples," "sample application code," and/or "snippets," and/or found in directories labeled "samples" or "examples".</p> <p>2. LICENSE GRANT</p> <p>Subject to the payment of the fee required, and subject to your compliance with all of the terms and conditions of this Agreement, We grant to You a revocable, non-exclusive, non-transferable and non-sublicensable license (i) for Designated User(s) to use the Software to create Modifications and Applications; (ii) for You to distribute the Software and/or Modifications to End Users solely as integrated into the Applications; and (iii) for End Users to use the Software as integrated into Your Applications in accordance with the terms of this Agreement.</p> <p>In addition to the other terms contained herein, We grant to You a revocable, non-exclusive, non-transferable and non-sublicensable license to install and use the Software (the "Trial License") strictly for Your internal evaluation and review purposes and not for production purposes. This Trial License applies only if You have registered with Us for a Trial License of the Software and shall be effective for forty-five (45) consecutive days following the date of registration ("the Trial Period"). You may only register for a Trial License once in any eighteen month period. You agree not to use a Trial License for any purpose other than determining whether to purchase a license to the Software. You are explicitly not permitted to distribute the Software to any user outside the Organization on whose behalf you have undertaken this license. Your rights to use the Trial License will immediately terminate upon the earlier of (i) the expiration of the Trial Period, or (ii) such time that You purchase a license to the Software. We reserve the right to terminate Your Trial License at any time in Our absolute and sole discretion.</p> <p>In addition to the other terms contained herein, in the event You have downloaded or received beta or pre-</p>

			<p>release versions of the Software (the "Beta Software") from Us, We grant to You a revocable, non-exclusive, non-transferable and non-sublicensable license to install and use the Beta Software strictly for Your internal evaluation and review purposes and not for production purposes (the "Beta License"). You are explicitly not permitted to distribute the Software to any user outside the Organization on whose behalf you have undertaken this license. Your rights to use the Beta Software will immediately terminate upon the earlier of (i) the expiration of the evaluation period established by Us, or (ii) such time that You purchase a license to a non-evaluation version of the Software. We reserve the right to terminate Your Beta License at any time in Our absolute and sole discretion.</p> <p>YOU ACKNOWLEDGE THAT TRIAL AND/OR BETA SOFTWARE MIGHT PLACE WATERMARKS ON OUTPUT, CONTAIN LIMITED FUNCTIONALITY, FUNCTION FOR A LIMITED PERIOD OF TIME, OR LIMIT THE FUNCTIONALITY OR TIME OF FUNCTIONING OF ANY OUTPUT. ACCESS TO AND/OR USE OF ANY FILES OR OUTPUT CREATED WITH SUCH SOFTWARE IS ENTIRELY AT YOUR OWN RISK. WE ARE LICENSING THE SOFTWARE ON AN "AS IS" BASIS AT YOUR OWN RISK AND WE DISCLAIM ANY WARRANTY OR LIABILITY TO YOU OF ANY KIND.</p> <p>You may modify the "Sample Code" solely for the purposes of designing, developing and testing Your own Applications. However, You are permitted to use, copy and redistribute Your modified Sample Code only if all of the following conditions are met: (a) You include Our copyright notice (if any) with Your Application, including every location in which any other copyright notice appears in such Application; and (b) You do not otherwise use Our name, logos or other of Our trademarks to market Your Application, unless otherwise agreed by Us in writing.</p> <p><b>3. OWNERSHIP</b></p> <p>This is a license agreement and not an agreement for sale. We reserve ownership of all intellectual property rights inherent in or relating to the Software, which include, but are not limited to, all copyright, patent rights, all rights in relation to registered and unregistered trademarks (including service marks), confidential information (including trade secrets and know-how) and all rights other than those expressly granted by this Agreement.</p> <p>We provide You with source code so that You can create Modifications and Applications. . While You retain all rights to any original work authored by You as part of the Modifications, We continue to own all copyright and other intellectual property rights in the Software.</p> <p>You must not remove, obscure or interfere with any copyright, acknowledgment, attribution, trademark, warning or disclaimer statement affixed to, incorporated in or otherwise applied in connection with the Software.</p> <p>You will not owe Us any royalties for Your distribution of the Software in accordance with this Agreement. You will not owe Us any fees for Your use or distribution of Applications in accordance with this Agreement, which are based on Sencha Touch and not other Software.</p> <p><b>4. PROHIBITED USES</b></p> <p>You may not redistribute the Software or Modifications other than by including the Software or a portion thereof within Your Application. You may not redistribute the Software or Modifications as part of any Application that can be described as a development toolkit or library, an application builder, a website builder or any Application that is intended for use by software, application, or website developers or designers. You may not redistribute any part of the Software documentation. You may not change or remove the copyright notice from any of the files included in the Software or Modifications.</p> <p>UNDER NO CIRCUMSTANCES MAY YOU USE THE SOFTWARE FOR AN APPLICATION THAT IS INTENDED FOR SOFTWARE OR APPLICATION DEVELOPMENT PURPOSES.</p> <p>You are required to ensure that the Software is not reused by or with any applications other than those with which You distribute it as permitted herein. For example, if You install the Software on a customer's server, that customer is not permitted to use the Software independently of Your Application, and must be informed as such.</p> <p>You are not allowed to distribute Applications which leverage Sencha Touch for use on any Embedded Device, apart from use within a general purpose web browser. The term "Embedded Device" shall mean hardware products that are designed and/or marketed to have a specific primary purpose, including without limitation any the following alone or in combination with each other: television, television receiver, game console, personal video recorder, player for digital versatile disc or other optical media, video camera, still camera, camcorder, GPS device, navigation device, in-car telematics device, in-car entertainment console, medical devices, video editing and format conversion device, video image projection device, or any similar type of consumer, professional or industrial device. The term "Embedded Device" shall also include general purpose hardware products that are permanently integrated into other products that have a specific primary purpose, such as automobiles, trucks, busses, recreational vehicles, refrigerators and other household appliances, beds and chairs. The term "Embedded Device" shall not include hardware products which are designed and marketed with the primary purpose of operating a wide variety of productivity, entertainment, and other software applications provided by unrelated third party software vendors, nor shall the term include devices designed and/or marketed primarily as a telephone or similar telephony based device, provided such device similarly supports a wide variety of productivity, entertainment, and other software applications provided by unrelated third party software vendors. Notwithstanding the foregoing, you may distribute Applications which leverage Sencha Touch on a number of Embedded Devices that does not exceed the limit established by Us as requiring fees, as posted at <a href="http://sencha.com/products/touch/license">sencha.com/products/touch/license</a> or as otherwise agreed by Us in writing.</p> <p>Open Source versions of the Software ("GPL Version") may be licensed under the terms of the GNU General Public License versions 3.0 ("GPL") and not under this Agreement. If You, or another third party, has, at any time, developed all (or any portions of) the Application(s) using a GPL Version, You may not combine such development work with the Software and must license such Application(s) (or any portions derived there from)</p>

Vendor	Product(s) and Version(s)	Functionality	Licensing Description/Disclaimer
			<p>under the terms of the GNU General Public License version 3, a copy of which is located at <a href="http://www.gnu.org/copyleft/gpl.html">http://www.gnu.org/copyleft/gpl.html</a>.</p> <p><b>5. TERMINATION</b></p> <p>This Agreement and Your right to use the Software and Modifications will terminate immediately if You fail to comply with any of the terms and conditions of this Agreement. Upon termination, You agree to immediately cease using and destroy the Software or Modifications, including all accompanying documents. The provisions of sections 4, 5, 6, 7, 8, 9, and 11 will survive any termination of this Agreement.</p> <p><b>6. DISCLAIMER OF WARRANTIES</b></p> <p>TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, WE AND OUR RESELLERS DISCLAIM ALL WARRANTIES AND CONDITIONS, EITHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, AND TITLE AND NON-INFRINGEMENT, WITH REGARD TO THE SOFTWARE. WE DO NOT GUARANTEE THAT THE OPERATION OF THE SOFTWARE OR THE CODE IT PRODUCES WILL BE UNINTERRUPTED OR ERROR-FREE, AND YOU ACKNOWLEDGE THAT IT IS NOT TECHNICALLY PRACTICABLE FOR US TO DO SO.</p> <p><b>7. LIMITATION OF LIABILITIES</b></p> <p>TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, IN NO EVENT SHALL WE OR OUR RESELLERS BE LIABLE UNDER ANY LEGAL OR EQUITABLE THEORY FOR ANY SPECIAL, INCIDENTAL, INDIRECT OR CONSEQUENTIAL DAMAGES WHATSOEVER (INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOSS OF BUSINESS PROFITS, BUSINESS INTERRUPTION, LOSS OF BUSINESS INFORMATION OR ANY OTHER PECUNIARY LAW) ARISING OUT OF THE USE OF OR INABILITY TO USE THE SOFTWARE OR THE CODE IT PRODUCES OR ANY OTHER SUBJECT MATTER RELATING TO THIS AGREEMENT, EVEN IF WE OR OUR RESELLERS HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. IN ANY CASE, OUR ENTIRE LIABILITY WITH RESPECT TO ANY SUBJECT MATTER RELATING TO THIS AGREEMENT SHALL BE LIMITED TO THE GREATER OF (I) THE AMOUNT ACTUALLY PAID BY YOU FOR THE SOFTWARE OR (II) FIVE HUNDRED DOLLARS (\$500).</p> <p><b>8. VERIFICATION</b></p> <p>We or a certified auditor acting on Our behalf, may, upon Our reasonable request and at Our expense, audit You with respect to the use of the Software. Such audit may be conducted by mail, electronic means or through an in-person visit to Your place of business. Any such in-person audit shall be conducted during regular business hours at Your facilities and shall not unreasonably interfere with Your business activities. We shall not remove, copy, or redistribute any electronic material during the course of an audit. If an audit reveals that You are using the Software in a way that is in material violation of the terms of this Agreement, then You shall pay Our reasonable costs of conducting the audit. In the case of a material violation, You agree to pay Us any amounts owing that are attributable to the unauthorized use. In the alternative, We reserve the right, at Our discretion, to terminate the licenses for the Software, in addition to any other remedies available under law. This Section shall survive expiration or termination of this Agreement for a period of two (2) years.</p> <p><b>9. PAYMENT AND TAXES</b></p> <p>If credit has been extended to You by Us, all payments under this Agreement are due within thirty (30) days of the date We mail an invoice to You. If We have not extended credit to You, You shall be required to make payment concurrent with the delivery of the Software by Us. Any value added tax, use tax, sales tax or similar tax ("Transaction Taxes") shall be your sole responsibility. Each party shall pay all taxes (including, but not limited to, taxes based upon its income) or levies imposed on it under applicable laws, regulations and tax treaties as a result of this Agreement and any payments made hereunder (including those required to be withheld or deducted from payments); provided that You shall be responsible for all Transactions Taxes and shall pay or reimburse Us for the same upon invoice. Each party shall furnish evidence of such paid taxes as is sufficient to enable the other party to obtain any credits available to it, including original withholding tax certificates. Notwithstanding the foregoing, Software ordered through Our resellers is subject to the fees and payment terms set forth on the applicable reseller invoice.</p> <p><b>10. SUPPORT AND UPDATES</b></p> <p>You are not entitled to any support for the Software under this Agreement. All support must be purchased separately and will be subject to the terms and conditions contained in the Sencha support agreement. You are entitled to receive minor version updates to the Software (i.e. versions identified as follows (X.Y, X.Y+1). You are not entitled to receive major version updates (i.e. X.Y, X+1.Y) or bug fix updates to the Software (X.Y.Z, X.Y.Z+1), unless purchased independently of this license.</p> <p><b>11. MISCELLANEOUS</b></p> <p>The license granted herein applies only to the version of the Software available when purchased (or downloaded in the case of Sencha Touch) in connection with the terms of this Agreement, and to any updates and/or upgrades to which you may be entitled. Any previous or subsequent license granted to You for use of the Software shall be governed by the terms and conditions of the agreement entered in connection with purchase or download of that version of the Software. You agree that you will comply with all applicable laws and regulations with respect to the Software, including without limitation all export and re-export control laws and regulations.</p> <p>While redistributing the Software or Modifications thereof as part of Your Application, You may choose to offer acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this Agreement. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on our behalf. You shall indemnify Us and our resellers, or at Our option, defend Us and our resellers against any claim, suit or proceeding brought against Us or our resellers (i) arising by reason of Your accepting any such support, warranty, indemnity or additional liability; or (ii) arising out of the use,</p>

Vendor	Product(s) and Version(s)	Functionality	Licensing Description/Disclaimer
			<p>reproduction or distribution of Your Application, except to the extent such claim is solely based on the inclusion of the Software therein. Further, You agree only to distribute the Software pursuant to an enforceable written agreement for Our benefit that includes all the limitations and restrictions of this Agreement and is as protective of Us and Software as is this Agreement. For clarity, for Software for which you have paid a fee, You must purchase Designated User licenses for each contractor or consultant who uses the Software to create an Application on your behalf (including system integrators), whether or not such contractor or consultant has its own license to the Software.</p> <p>You agree to be identified as a customer of Ours and You agree that We may refer to You by name, trade name and trademark, if applicable, and may briefly describe Your business in our marketing materials and web site.</p> <p>You may not assign or transfer this Agreement without Our prior written consent. This Agreement may be assigned by Us in whole or part and will inure to the benefit of Our successors and assigns. Notwithstanding the foregoing, in any instance in which You transfer ownership of an Application on a work for hire basis, You may assign licenses for the total Designated Users that have used the Software to develop said Application under this Agreement to another party (Assignee) provided (i) you provide written notice to Us prior to the effective date of such assignment; and (ii) there is a written agreement, wherein the Assignee accepts the terms of this Agreement. Upon any such transfer, the Assignee may appoint new Designated Users.</p> <p>You acknowledge that this Agreement is complete and is the exclusive representation of our agreement. No oral or written information given by Us, Our resellers, or otherwise on Our behalf shall create a warranty or collateral contract, or in any way increase the scope of this Agreement in any way, and You may not rely on any such oral or written information. No term or condition contained in any purchase order shall have any force or effect.</p> <p>There are no implied licenses or other implied rights granted under this Agreement, and all rights, save for those expressly granted hereunder, shall remain with Us and our licensors. In addition, no licenses or immunities are granted to the combination of the Software and/or Modifications, as applicable, with any other software or hardware not delivered by Us or Our resellers to You under this Agreement. Your rights under this Agreement apply only to Software, Modifications, and/or Applications for which all Designated Users are duly licensed hereunder.</p> <p>If any provision in this Agreement shall be determined to be invalid, such provision shall be deemed omitted; the remainder of this Agreement shall continue in full force and effect. If any remedy provided is determined to have failed for its essential purpose, all limitations of liability and exclusions of damages set forth in this Agreement shall remain in effect.</p> <p>This Agreement may be modified only by a written instrument signed by an authorized representative of each party. The failure of either party to enforce any provision of this Agreement may not be deemed a waiver of that or any other provision of this Agreement.</p> <p>This Agreement is governed by the law of the State of California, United States (notwithstanding conflicts of laws provisions), and all parties irrevocably submit to the jurisdiction of the state or federal courts of the State of California and further agree to commence any litigation which may arise hereunder in the state or federal courts located in the judicial district of San Mateo County, California, US.</p> <p>If the Software or any related documentation is licensed to the U.S. Government or any agency thereof, it will be considered to be "commercial computer software" or "commercial computer software documentation," as those terms are used in 48 CFR § 12.212 or 48 CFR § 227.7202, and is being licensed with only those rights as are granted to all other licensees as set forth in this Agreement.</p>

Software License Agreement</p> <p>IMPORTANT—READ CAREFULLY: Do not install, copy or use the enclosed software, documentation and/or materials until you have carefully read and agreed to the following terms and conditions. This is a legal agreement (“Agreement”) between you (either an individual or an entity) (“You”) and Advanced Micro Devices, Inc. (“AMD”).</p> <p>If You do not agree to the terms of this Agreement, do not install, copy or use this software, documentation or materials or any portion thereof. By loading or using the software provided herewith, which may include associated install scripts and online or electronic documentation, or materials or any portion thereof, that is made available by AMD to download from any media (collectively “Software”), You agree to all of the terms of this Agreement.</p> <p>1. LICENSE:</p> <p>a. Subject to the terms and conditions of this Agreement, AMD grants You the following non-exclusive, non-transferable, royalty-free, limited copyright license to (i) download, copy and use the object code version of the Software and materials associated with this Agreement, including without limitation printed documentation, (collectively, “Materials”) for internal use only for support of AMD processors; and (ii) make and distribute copies of the Materials for use only with Your products that support AMD processors and in computer systems including AMD processors, provided that Licensee agrees to include all copyright legends and other legal notices that may appear in the Software. Additionally, Licensee agrees that any distribution of the Materials to a third party, must include a software license agreement with terms and conditions that are at least as restrictive and protective of AMD’s intellectual property rights in the Materials as the terms and conditions set forth herein. Except for the limited license granted herein, Licensee shall have no other rights in the Materials, whether express, implied, arising by estoppel or otherwise.</p> <p>b. Except as expressly licensed herein, You do not have the right to (i) distribute, rent, lease, sell, sublicense, assign, or otherwise transfer the Materials, in whole or in part, to third parties for commercial or for non-commercial use; or (ii) modify, disassemble, reverse engineer, or decompile the Software, or otherwise reduce any part of the Software to any human readable form.</p> <p>c. AMD is under no obligation to support or provide maintenance for the Materials or to provide any updates or enhancements to You.</p> <p>2. FEEDBACK: You may provide AMD feedback, suggestions or opinions as to the Software, its features, and desired enhancements or changes. If You provide feedback, suggestions or opinions to AMD regarding any new features, use, functionality, or change to the Software or any materials related to the Software, You hereby agree to grant, and do grant, AMD all rights needed for AMD to incorporate and commercialize any new feature, use, functionality, or change at no charge or encumbrance to AMD. You agree that AMD may disclose such feedback, suggestions or opinions to any third party in any manner, and You agree that AMD has the ability to sublicense any of the foregoing rights in any feedback, suggestions or opinions or AMD products or services in any form to any third party without restriction.</p> <p>3. OWNERSHIP AND COPYRIGHT OF MATERIALS: You agree that the Materials are owned by AMD and/or AMD’s licensors (if any), and are protected by United States and foreign intellectual property laws (e.g. patent and copyright laws) and international treaty provisions. You will not remove the copyright notice from the Materials. You agree to prevent any unauthorized copying of the Materials. All title and copyrights in and to the Materials, all copies thereof (in whole or in part, and in any form), and all rights therein shall remain vested in AMD. Except as expressly provided herein, AMD does not grant any express or implied right to You under AMD patents, copyrights, trademarks, or trade secret information and such rights are reserved to AMD and/or its licensors.</p> <p>4. Use, duplication or disclosure by the Government is subject to restrictions as set forth in FAR52.227-14 and DFAR252.227-7013, et seq., or its successor. Use of the Materials by the Government constitutes acknowledgment of AMD's proprietary rights in them.</p> <p>8. TERMINATION OF LICENSE:  This Agreement will terminate immediately without notice from AMD or judicial resolution if You fail to comply with any provisions of this Agreement. Upon termination of this Agreement, You must delete or destroy all copies of the Materials.</p> <p>9. SURVIVAL:  Sections 1(b)-(c), 2, 3, 4, 5, 6, 7, 9, 10, 11, 12 and 13 shall survive any expiration or termination of this Agreement.</p> <p>10. APPLICABLE LAWS:  Any claim arising under or relating to this Agreement shall be governed by and construed in accordance with the substantive laws of the State of California, without regard to principles of conflict of laws. Each party hereto submits to the jurisdiction of the state and federal courts of Santa Clara County and the Northern District of California for the purposes of all legal proceedings arising out of or relating to this Agreement or the subject matter hereof. Each party waives any objection which it may have to contest such forum.</p> <p>11. SEVERABILITY:  Should any term of this Agreement be declared void or unenforceable by any court of competent jurisdiction, such declaration shall have no effect on the remaining terms hereof.</p> <p>12. NO WAIVER:  The failure of either party to enforce any rights granted hereunder or to take action against the other party in the event of any breach hereunder shall not be deemed a waiver by that party as to subsequent enforcement of rights or subsequent actions in the event of future breaches.</p> <p>13. ENTIRE AGREEMENT:  This Agreement constitutes the entire agreement between the parties and supersedes any prior or contemporaneous oral or written agreements with respect to the subject matter of this Agreement.</p>

This is to say, there is no requirement for Bash to print a notice when it is started interactively in the usual way. We made this exception because users and standards expect shells not to print such messages. This exception applies to any program that serves as a shell and that is based primarily on Bash as opposed to other GNU software.</p> <p>Files with other copyright statement than: Copyright FSF, License GPL</p>

Definitions. "License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document. "Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License. "Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the </pre>

			<p>purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.</p> <p>"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.</p> <p>"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.</p> <p>"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.</p> <p>"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).</p> <p>"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.</p> <p>"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."</p> <p>"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.</p> <p>2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.</p> <p>3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.</p> <p>4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:</p> <p>(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and</p> <p>(b) You must cause any modified files to carry prominent notices stating that You changed the files; and</p> <p>(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and</p> <p>(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.</p> <p>5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions.</p> <p>Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.</p> <p>6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.</p> <p>7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.</p> <p>9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.</p> <p>END OF TERMS AND CONDITIONS =====</p>

	bsdmainutils	collection of more utilities from FreeBSD	<p>This is a collection of programs from 4.BSD-Lite that have not (yet) been re-written by FSF as GNU. It was constructed for inclusion in Debian Linux. As programs found here become available from GNU sources, they will be replaced.</p> <p>This package was originally put together by Austin Donnelly&lt; and1000@debian.org&gt;, but is heavily based on bsdutils, originally put together by Ian Murdock &lt;imurdock@gnu.ai.mit.edu&gt;. Please report any problems or suggested additions or changes to Austin Donnelly.</p> <p>Then the package has been maintained by Charles Briscoe-Smith &lt;cpbs@debian.org&gt;. I gathered data for the 1999-2001 calendar files from various sources on the Internet, and I'd also like to thank Oliver Elphick, Julian Gibbey, Daniel Martin and Jaldhar H. Vyas for providing much useful data on the various religious calendars. I have edited the files they provided to fit calendar's requirements, so any errors should be attributed to me.</p> <p>After cpbs@debian.org, Marco d'Itri &lt;md@linux.it&gt; maintained it for almost two years, before Tollef Fog Heen &lt;tfheen@debian.org&gt; took over. On Debian GNU/Linux systems, the complete text of the GNU General Public License can be found in /usr/share/common-licenses/GPL-2.  Mozilla Public License Version 2.0 =====</p> <p>1. Definitions  -----</p> <p>1.1. "Contributor" means each individual or legal entity that creates, contributes to the creation of, or owns Covered Software.  1.2. "Contributor Version" means the combination of the Contributions of others (if any) used by a Contributor and that particular Contributor's Contribution.  1.3. "Contribution" means Covered Software of a particular Contributor.  1.4. "Covered Software" means Source Code Form to which the initial Contributor has attached the notice in Exhibit A, the Executable Form of such Source Code Form, and Modifications of such Source Code Form, in each case including portions thereof.  1.5. "Incompatible With Secondary Licenses" means  (a) that the initial Contributor has attached the notice described in Exhibit B to the Covered Software; or  (b) that the Covered Software was made available under the terms of version 1.1 or earlier of the License, but not also under the terms of a Secondary License.  1.6. "Executable Form" means any form of the work other than Source Code Form.  1.7. "Larger Work" means a work that combines Covered Software with other material, in a separate file or files, that is not Covered Software.  1.8. "License" means this document.  1.9. "Licensable" means having the right to grant, to the maximum extent possible, whether at the time of the initial grant or subsequently, any and all of the rights conveyed by this License.  1.10. "Modifications" means any of the following:  (a) any file in Source Code Form that results from an addition to, deletion from, or modification of the contents of Covered Software; or  (b) any new file in Source Code Form that contains any Covered Software.  1.11. "Patent Claims" of a Contributor means any patent claim(s), including without limitation, method, process, and apparatus claims, in any patent Licensable by such Contributor that would be infringed, but for the grant of the License, by the making, using, selling, offering for sale, having made, import, or transfer of either its Contributions or its Contributor Version.  1.12. "Secondary License" means either the GNU General Public License, Version 2.0, the GNU Lesser General Public License, Version 2.1, the GNU Affero General Public License, Version 3.0, or any later versions of those licenses.  1.13. "Source Code Form" means the form of the work preferred for making modifications.  1.14. "You" (or "Your") means an individual or a legal entity exercising rights under this License. For legal entities, "You" includes any entity that controls, is controlled by, or is under common control with You. For purposes of this definition, "control" means (a) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (b) ownership of more than fifty percent (50%) of the outstanding shares or beneficial ownership of such entity.</p> <p>2. License Grants and Conditions  -----</p> <p>2.1. Grants  Each Contributor hereby grants You a world-wide, royalty-free, non-exclusive license:  (a) under intellectual property rights (other than patent or trademark) Licensable by such Contributor to use, reproduce, make available, modify, display, perform, distribute, and otherwise exploit its Contributions, either on an unmodified basis, with Modifications, or as part of a Larger Work; and  (b) under Patent Claims of such Contributor to make, use, sell, offer for sale, have made, import, and otherwise transfer either its Contributions or its Contributor Version.</p> <p>2.2. Effective Date  The licenses granted in Section 2.1 with respect to any Contribution become effective for each Contribution on the date the Contributor first distributes such Contribution.</p> <p>2.3. Limitations on Grant Scope  The licenses granted in this Section 2 are the only rights granted under this License. No additional rights or licenses will be implied from the distribution or licensing of Covered Software under this License.  Notwithstanding Section 2.1(b) above, no patent license is granted by a Contributor:  (a) for any code that a Contributor has removed from Covered Software; or</p>

			<p>(b) for infringements caused by: (i) Your and any other third party's modifications of Covered Software, or (ii) the combination of its Contributions with other software (except as part of its Contributor Version); or (c) under Patent Claims infringed by Covered Software in the absence of its Contributions.</p> <p>This License does not grant any rights in the trademarks, service marks, or logos of any Contributor (except as may be necessary to comply with the notice requirements in Section 3.4).</p> <p>2.4. Subsequent Licenses No Contributor makes additional grants as a result of Your choice to distribute the Covered Software under a subsequent version of this License (see Section 10.2) or under the terms of a Secondary License (if permitted under the terms of Section 3.3).</p> <p>2.5. Representation Each Contributor represents that the Contributor believes its Contributions are its original creation(s) or it has sufficient rights to grant the rights to its Contributions conveyed by this License.</p> <p>2.6. Fair Use This License is not intended to limit any rights You have under applicable copyright doctrines of fair use, fair dealing, or other equivalents.</p> <p>2.7. Conditions Sections 3.1, 3.2, 3.3, and 3.4 are conditions of the licenses granted in Section 2.1.</p> <p>3. Responsibilities -----</p> <p>3.1. Distribution of Source Form All distribution of Covered Software in Source Code Form, including any Modifications that You create or to which You contribute, must be under the terms of this License. You must inform recipients that the Source Code Form of the Covered Software is governed by the terms of this License, and how they can obtain a copy of this License. You may not attempt to alter or restrict the recipients' rights in the Source Code Form.</p> <p>3.2. Distribution of Executable Form If You distribute Covered Software in Executable Form then: (a) such Covered Software must also be made available in Source Code Form, as described in Section 3.1, and You must inform recipients of the Executable Form how they can obtain a copy of such Source Code Form by reasonable means in a timely manner, at a charge no more than the cost of distribution to the recipient; and (b) You may distribute such Executable Form under the terms of this License, or sublicense it under different terms, provided that the license for the Executable Form does not attempt to limit or alter the recipients' rights in the Source Code Form under this License.</p> <p>3.3. Distribution of a Larger Work You may create and distribute a Larger Work under terms of Your choice, provided that You also comply with the requirements of this License for the Covered Software. If the Larger Work is a combination of Covered Software with a work governed by one or more Secondary Licenses, and the Covered Software is not Incompatible With Secondary Licenses, this License permits You to additionally distribute such Covered Software under the terms of such Secondary License(s), so that the recipient of the Larger Work may, at their option, further distribute the Covered Software under the terms of either this License or such Secondary License(s).</p> <p>3.4. Notices You may not remove or alter the substance of any license notices (including copyright notices, patent notices, disclaimers of warranty, or limitations of liability) contained within the Source Code Form of the Covered Software, except that You may alter any license notices to the extent required to remedy known factual inaccuracies.</p> <p>3.5. Application of Additional Terms You may choose to offer, and to charge a fee for, warranty, support, indemnity or liability obligations to one or more recipients of Covered Software. However, You may do so only on Your own behalf, and not on behalf of any Contributor. You must make it absolutely clear that any such warranty, support, indemnity, or liability obligation is offered by You alone, and You hereby agree to indemnify every Contributor for any liability incurred by such Contributor as a result of warranty, support, indemnity or liability terms You offer. You may include additional disclaimers of warranty and limitations of liability specific to any jurisdiction.</p> <p>4. Inability to Comply Due to Statute or Regulation ----- If it is impossible for You to comply with any of the terms of this License with respect to some or all of the Covered Software due to statute, judicial order, or regulation then You must: (a) comply with the terms of this License to the maximum extent possible; and (b) describe the limitations and the code they affect. Such description must be placed in a text file included with all distributions of the Covered Software under this License. Except to the extent prohibited by statute or regulation, such description must be sufficiently detailed for a recipient of ordinary skill to be able to understand it.</p> <p>5. Termination -----</p> <p>5.1. The rights granted under this License will terminate automatically if You fail to comply with any of its terms. However, if You become</p>

			<p>compliant, then the rights granted under this License from a particular Contributor are reinstated (a) provisionally, unless and until such Contributor explicitly and finally terminates Your grants, and (b) on an ongoing basis, if such Contributor fails to notify You of the non-compliance by some reasonable means prior to 60 days after You have come back into compliance. Moreover, Your grants from a particular Contributor are reinstated on an ongoing basis if such Contributor notifies You of the non-compliance by some reasonable means, this is the first time You have received notice of non-compliance with this License from such Contributor, and You become compliant prior to 30 days after Your receipt of the notice.</p> <p>5.2. If You initiate litigation against any entity by asserting a patent infringement claim (excluding declaratory judgment actions, counter-claims, and cross-claims) alleging that a Contributor Version directly or indirectly infringes any patent, then the rights granted to You by any and all Contributors for the Covered Software under Section 2.1 of this License shall terminate.</p> <p>5.3. In the event of termination under Sections 5.1 or 5.2 above, all end user license agreements (excluding distributors and resellers) which have been validly granted by You or Your distributors under this License prior to termination shall survive termination.</p> <p>*****</p> <p>* 6. Disclaimer of Warranty * ----- *</p> <p>* * * Covered Software is provided under this License on an "as is" *  * basis, without warranty of any kind, either expressed, implied, or * * statutory, including, without limitation, warranties that the *  * Covered Software is free of defects, merchantable, fit for a * * particular purpose or non-infringing. The entire risk as to the *  * quality and performance of the Covered Software is with You. * * Should any Covered Software prove defective in any respect, You *  * (not any Contributor) assume the cost of any necessary servicing, * * repair, or correction. This disclaimer of warranty constitutes an *  * essential part of this License. No use of any Covered Software is * * authorized under this License except under this disclaimer. *  * * * * *  *****</p> <p>* * * 7. Limitation of Liability *  * ----- * * *</p> <p>* Under no circumstances and under no legal theory, whether tort * * (including negligence), contract, or otherwise, shall any *  * Contributor, or anyone who distributes Covered Software as * * permitted above, be liable to You for any direct, indirect, *  * special, incidental, or consequential damages of any character * * including, without limitation, damages for lost profits, loss of *  * goodwill, work stoppage, computer failure or malfunction, or any * * and all other commercial damages or losses, even if such party *  * shall have been informed of the possibility of such damages. This * * limitation of liability shall not apply to liability for death or *  * personal injury resulting from such party's negligence to the * * extent applicable law prohibits such limitation. Some *  * jurisdictions do not allow the exclusion or limitation of * * incidental or consequential damages, so this exclusion and *  * limitation may not apply to You. * * *  *****</p> <p>8. Litigation -----  Any litigation relating to this License may be brought only in the courts of a jurisdiction where the defendant maintains its principal place of business and such litigation shall be governed by laws of that jurisdiction, without reference to its conflict-of-law provisions. Nothing in this Section shall prevent a party's ability to bring cross-claims or counter-claims.</p> <p>9. Miscellaneous -----  This License represents the complete agreement concerning the subject matter hereof. If any provision of this License is held to be unenforceable, such provision shall be reformed only to the extent necessary to make it enforceable. Any law or regulation which provides that the language of a contract shall be construed against the drafter shall not be used to construe this License against a Contributor.</p> <p>10. Versions of the License -----  10.1. New Versions  Mozilla Foundation is the license steward. Except as provided in Section 10.3, no one other than the license steward has the right to modify or publish new versions of this License. Each version will be given a distinguishing version number.</p> <p>10.2. Effect of New Versions  You may distribute the Covered Software under the terms of the version of the License under which You originally received the Covered Software, or under the terms of any subsequent version published by the license steward.</p> <p>10.3. Modified Versions  If you create software not governed by this License, and you want to create a new license for such software, you may create and use a modified version of this License if you rename the license and remove any references to the name of the license steward (except to note that such modified license differs</p>

		keymap setup program	<p>In short, if you use console-setup with precompiled keyboard files, then all installed files are covered by simple permissive non-copyleft free software licenses. However, several of the tools used for the compilation of the package (in particular 'ckbcomp' and 'bdf2psf') are covered by GPL, version 2 or later. The Perl program 'ckbcomp' is installed in the system when console-setup is not used with precompiled keyboard files.</p> <p>The exact copyright terms follow.</p> <p>All console fonts are public domain by nature.</p> <p>The source BDF-fonts in the directory Fonts/bdf are distributed under many different licenses, see in the file copyright.fonts for details.</p> <p>The program 'bdf2psf' used to convert the fonts from BDF format to the format used on the consoles of Linux and FreeBSD is covered by GPL, version 2 or later.</p> <p>The keyboard files are borrowed from the XKeyboardConfig package. 	console-setup-linux	Linux specific part of console-setup	<p>This copyright file applies both to the source package console-setup and the binary Debian packages built from it.</p> <p>In short, if you use console-setup with precompiled keyboard files, then all installed files are covered by simple permissive non-copyleft free software licenses. However, several of the tools used for the compilation of the package (in particular 'ckbcomp' and 'bdf2psf') are covered by GPL, version 2 or later. The Perl program 'ckbcomp' is installed in the system when console-setup is not used with precompiled keyboard files.</p> <p>The exact copyright terms follow.</p> <p>All console fonts are public domain by nature.</p> <p>The source BDF-fonts in the directory Fonts/bdf are distributed under many different licenses, see in the file copyright.fonts for details.</p> <p>The program 'bdf2psf' used to convert the fonts from BDF format to the format used on the consoles of Linux and FreeBSD is covered by GPL, version 2 or later.</p> <p>The keyboard files are borrowed from the XKeyboardConfig package. For the licenses of the keyboard files, see the file copyright.xkb. The XKeyboardConfig package was downloaded from <a href="http://xlibs.freedesktop.org/xkbdesc/xkeyboard-config-0.8.tar.gz">http://xlibs.freedesktop.org/xkbdesc/xkeyboard-config-0.8.tar.gz</a></p> <p>Please notice, that Debian packages do not include the XKB files (they</p>

When, however, the Debian package console-setup-mini is installed, it includes precompiled version of the keyboard files, so the terms in the file /usr/share/doc/keyboard-configuration/copyright.xkb.gz apply.</p> <p>The manual pages are distributed according to GNU all-permissive license:  Copyright (C) 2007, 2011 Anton Zinoviev &lt;anton@lml.bas.bg&gt;  Copying and distribution of this file, with or without modification, are permitted in any medium without royalty provided the copyright notice and this notice are preserved. <a href="http://gcc.gnu.org/">http://gcc.gnu.org/</a>	cpp-4.6	GNU C preprocessor	This is the Debian GNU/Linux prepackaged version of the GNU compiler collection, containing Ada, C, C++, Fortran 95, Java, Objective-C, Objective-C++, and Treelang compilers, documentation, and support libraries. In addition, Debian provides the gdc compiler, either in the same source package, or built from a separate same source package. Packaging is done by the Debian GCC Maintainers < <a href="mailto:debian-gcc@lists.debian.org">debian-gcc@lists.debian.org</a> >, with sources obtained from: <a href="ftp://gcc.gnu.org/pub/gcc/releases/">ftp://gcc.gnu.org/pub/gcc/releases/</a> (for full releases) <a href="svn://gcc.gnu.org/svn/gcc/">svn://gcc.gnu.org/svn/gcc/</a> (for prereleases) <a href="http://bitbucket.org/goshawk/gdc">http://bitbucket.org/goshawk/gdc</a> (for D) The current gcc-4.6 source package is taken from the SVN gcc-4_6-branch. Changes: See <a href="#">changelog.Debian.gz</a> Debian splits the GNU Compiler Collection into packages for each language, library, and documentation as follows: Language Compiler package Library package Documentation -----  Ada gnat-4.6 libgnat-4.6 gnat-4.6-doc C gcc-4.6 gcc-4.6-doc C++ g++-4.6 libstdc++6 libstdc++6-4.6-doc D gdc-4.6 Fortran 95 gfortran-4.6 libgfortran3 gfortran-4.6-doc Go gccgo-4.6 libgo0 Java gcj-4.6 libgcj10 libgcj-doc Objective C gobjc-4.6 libobjc2 Objective C++ gobjc++-4.6 For some language run-time libraries, Debian provides source files, development files, debugging symbols and libraries containing position-independent code in separate packages: Language Sources Development Debugging Position-Independent -----

In contrast, libgnatprj is licensed under the terms of the pure GNU General Public License.  The libgcj library is licensed under the terms of the GNU General Public License, with a special exception:  Linking this library statically or dynamically with other modules is making a combined work based on this library. Thus, the terms and conditions of the GNU General Public License cover the whole combination.  As a special exception, the copyright holders of this library give you permission to link this library with independent modules to produce an executable, regardless of the license terms of these independent modules, and to copy and distribute the resulting executable under terms of your choice, provided that you also meet, for each linked independent module, the terms and conditions of the license of that module. An independent module is a module which is not derived from or based on this library. If you modify this library, you may extend this exception to your version of the library, but you are not obligated to do so. If you do not wish to do so, delete this exception statement from your version.  The libffi library is licensed under the following terms:  libffi - Copyright (c) 1996-2003 Red Hat, Inc. On Debian GNU/Linux systems, the complete text of this license is in <code>/usr/share/common-licenses/GFDL-1.2</code>.</p> <p>GCC RUNTIME LIBRARY EXCEPTION Version 3.1, 31 March 2009 Copyright (C) 2009 Free Software Foundation, Inc. &lt;<a href="http://fsf.org/">http://fsf.org/</a>&gt; Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.</p> <p>This GCC Runtime Library Exception ("Exception") is an additional permission under section 7 of the GNU General Public License, version 3 ("GPLv3"). It applies to a given file (the "Runtime Library") that bears a notice placed by the copyright holder of the file stating that the file is governed by GPLv3 along with this Exception.</p> <p>When you use GCC to compile a program, GCC may combine portions of certain GCC header files and runtime libraries with the compiled program. The purpose of this Exception is to allow compilation of non-GPL (including proprietary) programs to use, in this way, the header files and runtime libraries covered by this Exception.</p> <p>0. Definitions.</p> <p>A file is an "Independent Module" if it either requires the Runtime Library for execution after a Compilation Process, or makes use of an interface provided by the Runtime Library, but is not otherwise based on the Runtime Library.</p> <p>"GCC" means a version of the GNU Compiler Collection, with or without modifications, governed by version 3 (or a specified later version) of the GNU General Public License (GPL) with the option of using any subsequent versions published by the FSF.</p> <p>"GPL-compatible Software" is software whose conditions of propagation, modification and use would permit combination with GCC in accord with the license of GCC.</p> <p>"Target Code" refers to output from any compiler for a real or virtual target processor architecture, in executable form or suitable for input to an assembler, loader, linker and/or execution phase. Notwithstanding that, Target Code does not include data in any format that is used as a compiler intermediate representation, or used for producing a compiler intermediate representation.</p> <p>The "Compilation Process" transforms code entirely represented in non-intermediate languages designed for human-written code, and/or in Java Virtual Machine byte code, into Target Code. Thus, for example, use of source code generators and preprocessors need not be considered part of the Compilation Process, since the Compilation Process can be understood as starting with the output of the generators or preprocessors.</p> <p>A Compilation Process is "Eligible" if it is done using GCC, alone or with other GPL-compatible software, or if it is done without using any work based on GCC. For example, using non-GPL-compatible Software to optimize any GCC intermediate representations would not qualify as an Eligible Compilation Process.</p> <p>1. Grant of Additional Permission.</p> <p>You have permission to propagate a work of Target Code formed by combining the Runtime Library with Independent Modules, even if such propagation would otherwise violate the terms of GPLv3, provided that all Target Code was generated by Eligible Compilation Processes. You may then convey such a combination under terms of your choice, consistent with the licensing of the Independent Modules.</p> <p>2. No Weakening of GCC Copyleft.</p> <p>The availability of this Exception does not imply any general presumption that third-party software is unaffected by the copyleft requirements of the license of GCC.</p> <p>libquadmath". <a href="http://gcc.gnu.org/">http://gcc.gnu.org/</a>	cpp-4.7	GNU C preprocessor	<p>This is the Debian GNU/Linux prepackaged version of the GNU compiler collection, containing Ada, C, C++, Fortran 95, Java, Objective-C, Objective-C++, and Treelang compilers, documentation, and support libraries. In addition, Debian provides the gdc compiler, either in the same source package, or built from a separate same source package.  Packaging is done by the Debian GCC Maintainers&lt; <a href="mailto:debian-gcc@lists.debian.org">debian-gcc@lists.debian.org</a>&gt;, with sources obtained from:  <a href="ftp://gcc.gnu.org/pub/gcc/releases/">ftp://gcc.gnu.org/pub/gcc/releases/</a> (for full releases)  <a href="svn://gcc.gnu.org/svn/gcc/">svn://gcc.gnu.org/svn/gcc/</a> (for prereleases) <a href="http://bitbucket.org/goshawk/gdc">http://bitbucket.org/goshawk/gdc</a> (for D)  The current gcc-4.7 source package is taken from the SVN gcc-4.7-branch.  Changes: See <a href="#">changelog.Debian.gz</a>  Debian splits the GNU Compiler Collection into packages for each language, library, and documentation as follows:  Language Compiler package Library package Documentation -----  Ada gnat-4.7 libgnat-4.7 gnat-4.7-doc C gcc-4.7 gcc-4.7-doc  C++ g++-4.7 libstdc++6 libstdc++6-4.7-doc D gdc-4.7  Fortran 95 gfortran-4.7 libgfortran3 gfortran-4.7-doc Go gccgo-4.7 libgo0  Java gcj-4.7 libgcj10 libgcj-doc Objective C gobjc-4.7 libobjc2  Objective C++ gobjc++-4.7  For some language run-time libraries, Debian provides source files, development files, debugging symbols and libraries containing position-independent code in separate packages:  Language Sources Development Debugging Position-Independent -----  C++ libstdc++6-4.7-dbg libstdc++6-4.7-pic D libphobos-4.7-dev  Java libgcj10-src libgcj10-dev libgcj10-dbg  Additional packages include:  All languages: libgcc1, libgcc2, libgcc4 GCC intrinsics (platform-dependent)  gcc-4.7-base Base files common to all compilers gcc-4.7-soft-float Software floating point (ARM only)  gcc-4.7-source The sources with patches</p>

The libgcj library is licensed under the terms of the GNU General Public License, with a special exception:  Linking this library statically or dynamically with other modules is making a combined work based on this library. Thus, the terms and conditions of the GNU General Public License cover the whole combination.  As a special exception, the copyright holders of this library give you permission to link this library with independent modules to produce an executable, regardless of the license terms of these independent modules, and to copy and distribute the resulting executable under terms of your choice, provided that you also meet, for each linked independent module, the terms and conditions of the license of that module. An independent module is a module which is not derived from or based on this library. If you modify this library, you may extend this exception to your version of the library, but you are not obligated to do so. If you do not wish to do so, delete this exception statement from your version.  The libffi library is licensed under the following terms:  libffi - Copyright (c) 1996-2003 Red Hat, Inc. On Debian GNU/Linux systems, the complete text of this license is in <code>/usr/share/common-licenses/GFDL-1.2</code>.</p> <p>GCC RUNTIME LIBRARY EXCEPTION Version 3.1, 31 March 2009 Copyright (C) 2009 Free Software Foundation, Inc. &lt;<a href="http://fsf.org/">http://fsf.org/</a>&gt; Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.</p> <p>This GCC Runtime Library Exception ("Exception") is an additional permission under section 7 of the GNU General Public License, version 3 ("GPLv3"). It applies to a given file (the "Runtime Library") that bears a notice placed by the copyright holder of the file stating that the file is governed by GPLv3 along with this Exception.</p> <p>When you use GCC to compile a program, GCC may combine portions of certain GCC header files and runtime libraries with the compiled program. The purpose of this Exception is to allow compilation of non-GPL (including proprietary) programs to use, in this way, the header files and runtime libraries covered by this Exception.</p> <p>0. Definitions.</p> <p>A file is an "Independent Module" if it either requires the Runtime Library for execution after a Compilation Process, or makes use of an interface provided by the Runtime Library, but is not otherwise based on the Runtime Library.</p> <p>"GCC" means a version of the GNU Compiler Collection, with or without modifications, governed by version 3 (or a specified later version) of the GNU General Public License (GPL) with the option of using any subsequent versions published by the FSF.</p> <p>"GPL-compatible Software" is software whose conditions of propagation, modification and use would permit combination with GCC in accord with the license of GCC.</p> <p>"Target Code" refers to output from any compiler for a real or virtual target processor architecture, in executable form or suitable for input to an assembler, loader, linker and/or execution phase. Notwithstanding that, Target Code does not include data in any format that is used as a compiler intermediate representation, or used for producing a compiler intermediate representation.</p> <p>The "Compilation Process" transforms code entirely represented in non-intermediate languages designed for human-written code, and/or in Java Virtual Machine byte code, into Target Code. Thus, for example, use of source code generators and preprocessors need not be considered part of the Compilation Process, since the Compilation Process can be understood as starting with the output of the generators or preprocessors.</p> <p>A Compilation Process is "Eligible" if it is done using GCC, alone or with other GPL-compatible software, or if it is done without using any work based on GCC. For example, using non-GPL-compatible Software to optimize any GCC intermediate representations would not qualify as an Eligible Compilation Process.</p> <p>1. Grant of Additional Permission.</p> <p>You have permission to propagate a work of Target Code formed by combining the Runtime Library with Independent Modules, even if such propagation would otherwise violate the terms of GPLv3, provided that all Target Code was generated by Eligible Compilation Processes. You may then convey such a combination under terms of your choice, consistent with the licensing of the Independent Modules.</p> <p>2. No Weakening of GCC Copyleft.</p> <p>The availability of this Exception does not imply any general presumption that third-party software is unaffected by the copyleft requirements of the license of GCC.</p> <p>libquadmath/. <a href="http://dbus.freedesktop.org/">http://dbus.freedesktop.org/</a>	dbus	simple interprocess messaging system (daemon and utilities)	<p>This package was debianized by Colin Walters &lt;walters@debian.org&gt; on Thu, 6 Mar 2003 18:01:37 -0500 It was downloaded from <a href="http://www.freedesktop.org/software/dbus">http://www.freedesktop.org/software/dbus</a> This package is dual-licensed under the Academic Free License version 2.1, and the GPL version 2. For a description of the GPL, see /usr/share/common-licenses/GPL-2 on your Debian system. Portions of the package are only licensed under the GPL (notably tools/dbus-cleanup-sockets.c and test/decode-gcov.c ). The Academic Free License follows: The Academic Free License v. 2.1 This Academic Free License (the "License") applies to any original work of authorship (the "Original Work") whose owner (the "Licensor") has placed the following notice immediately following the copyright notice for the Original Work: Licensed under the Academic Free License version 2.1 1) Grant of Copyright License. Licensor hereby grants You a world-wide, royalty-free, non-exclusive, perpetual, sublicenseable license to do the following: a) to reproduce the Original Work in copies; b) to prepare derivative works ("Derivative Works") based upon the Original Work; c) to distribute copies of the Original Work and Derivative Works to the public; d) to perform the Original Work publicly; and e) to display the Original Work publicly. 2) Grant of Patent License. Licensor hereby grants You a world-wide, royalty-free, non-exclusive, perpetual, sublicenseable license, under patent claims owned or controlled by the Licensor that are embodied in the Original Work as furnished by the Licensor, to make, use, sell and offer for sale the Original Work and Derivative Works. 3) Grant of Source Code License. The term "Source Code" means the preferred form of the Original Work for making modifications to it and all available documentation describing how to modify the Original Work. Licensor hereby agrees to provide a machine-readable copy of the Source Code of the Original Work along with each copy of the Original Work that Licensor distributes. Licensor reserves the right to satisfy this obligation by placing a machine-readable copy of the Source Code in an information repository reasonably calculated to permit inexpensive and convenient access by You for as long as Licensor continues to distribute the Original Work, and by publishing the address of that information repository in a notice immediately following the copyright notice that applies to the Original Work. 4) Exclusions From License Grant. Neither the names of Licensor, nor the names of any contributors to the Original Work, nor any of their trademarks or service marks, may be used to endorse or promote products derived from this Original Work without express prior written permission of the Licensor. Nothing in this License shall be deemed to grant any rights to trademarks, copyrights, patents, trade secrets or any other intellectual property of Licensor except as expressly stated herein. No patent license is granted to make, use, sell or offer to sell embodiments of any patent claims other than the licensed claims defined in Section 2. No right is granted to the trademarks of Licensor even if such marks are included in the Original Work. Nothing in this License shall be interpreted to prohibit Licensor from licensing under different terms from this License any Original Work that Licensor otherwise would have a right to license.</p>

			<p>5) This section intentionally omitted.</p> <p>6) Attribution Rights. You must retain, in the Source Code of any Derivative Works that You create, all copyright, patent or trademark notices from the Source Code of the Original Work, as well as any notices of licensing and any descriptive text identified therein as an "Attribution Notice." You must cause the Source Code for any Derivative Works that You create to carry a prominent Attribution Notice reasonably calculated to inform recipients that You have modified the Original Work.</p> <p>7) Warranty of Provenance and Disclaimer of Warranty. Licensor warrants that the copyright in and to the Original Work and the patent rights granted herein by Licensor are owned by the Licensor or are sublicensed to You under the terms of this License with the permission of the contributor(s) of those copyrights and patent rights. Except as expressly stated in the immediately preceding sentence, the Original Work is provided under this License on an "AS IS" BASIS and WITHOUT WARRANTY, either express or implied, including, without limitation, the warranties of NON-INFRINGEMENT, MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY OF THE ORIGINAL WORK IS WITH YOU. This DISCLAIMER OF WARRANTY constitutes an essential part of this License. No license to Original Work is granted hereunder except under this disclaimer.</p> <p>8) Limitation of Liability. Under no circumstances and under no legal theory, whether in tort (including negligence), contract, or otherwise, shall the Licensor be liable to any person for any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or the use of the Original Work including, without limitation, damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses. This limitation of liability shall not apply to liability for death or personal injury resulting from Licensor's negligence to the extent applicable law prohibits such limitation. Some jurisdictions do not allow the exclusion or limitation of incidental or consequential damages, so this exclusion and limitation may not apply to You.</p> <p>9) Acceptance and Termination. If You distribute copies of the Original Work or a Derivative Work, You must make a reasonable effort under the circumstances to obtain the express assent of recipients to the terms of this License. Nothing else but this License (or another written agreement between Licensor and You) grants You permission to create Derivative Works based upon the Original Work or to exercise any of the rights granted in Section 1 herein, and any attempt to do so except under the terms of this License (or another written agreement between Licensor and You) is expressly prohibited by U.S. copyright law, the equivalent laws of other countries, and by international treaty. Therefore, by exercising any of the rights granted to You in Section 1 herein, You indicate Your acceptance of this License and all of its terms and conditions.</p> <p>10) Termination for Patent Action. This License shall terminate automatically and You may no longer exercise any of the rights granted to You by this License as of the date You commence an action, including a cross-claim or counterclaim, against Licensor or any licensee alleging that the Original Work infringes a patent. This termination provision shall not apply for an action alleging patent infringement by combinations of the Original Work with other software or hardware.</p> <p>11) Jurisdiction, Venue and Governing Law. Any action or suit relating to this License may be brought only in the courts of a jurisdiction wherein the Licensor resides or in which Licensor conducts its primary business, and under the laws of that jurisdiction excluding its conflict-of-law provisions. The application of the United Nations Convention on Contracts for the International Sale of Goods is expressly excluded. Any use of the Original Work outside the scope of this License or after its termination shall be subject to the requirements and penalties of the U.S. Copyright Act, 17 U.S.C. Â§ 101 et seq., the equivalent laws of other countries, and international treaty. This section shall survive the termination of this License.</p> <p>12) Attorneys Fees. In any action to enforce the terms of this License or seeking damages relating thereto, the prevailing party shall be entitled to recover its costs and expenses, including, without limitation, reasonable attorneys' fees and costs incurred in connection with such action, including any appeal of such action. This section shall survive the termination of this License.</p> <p>13) Miscellaneous. This License represents the complete agreement concerning the subject matter hereof. If any provision of this License is held to be unenforceable, such provision shall be reformed only to the extent necessary to make it enforceable.</p> <p>14) Definition of "You" in This License. "You" throughout this License, whether in upper or lower case, means an individual or a legal entity exercising rights under, and complying with all of the terms of, this License. For legal entities, "You" includes any entity that controls, is controlled by, or is under common control with you. For purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such</p>

You may use the Original Work in all ways not otherwise restricted or conditioned by this License or by law, and Licensor promises not to interfere with or be responsible for such uses by You.</p> <p>This license is Copyright (C) 2003-2004 Lawrence E. The following is intended to describe the essential differences between the Academic Free License (AFL) version 1.0 and other open source licenses:</p> <p>The Academic Free License is similar to the BSD, MIT, UoI/NCSA and Apache licenses in many respects but it is intended to solve a few problems with those licenses.</p> <ul style="list-style-type: none"> <li>* The AFL is written so as to make it clear what software is being licensed (by the inclusion of a statement following the copyright notice in the software). This way, the license functions better than a template license. The BSD, MIT and UoI/NCSA licenses apply to unidentified software.</li> <li>* The AFL contains a complete copyright grant to the software. The BSD and Apache licenses are vague and incomplete in that respect.</li> <li>* The AFL contains a complete patent grant to the software. The BSD, MIT, UoI/NCSA and Apache licenses rely on an implied patent license and contain no explicit patent grant.</li> <li>* The AFL makes it clear that no trademark rights are granted to the licensor's trademarks. The Apache license contains such a provision, but the BSD, MIT and UoI/NCSA licenses do not.</li> <li>* The AFL includes the warranty by the licensor that it either owns the copyright or that it is distributing the software under a license. None of the other licenses contain that warranty. All other warranties are disclaimed, as is the case for the other licenses.</li> <li>* The AFL is itself copyrighted (with the right granted to copy and distribute without modification). This ensures that the owner of the copyright to the license will control changes. The Apache license contains a copyright notice, but the BSD, MIT and UoI/NCSA licenses do not.</li> </ul>

			<p>other programs.</p> <p>The license agreements of most software companies keep you at the mercy of those companies. By contrast, our general public license is intended to give everyone the right to share SMAIL. To make sure that you get the rights we want you to have, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. Hence this license agreement.</p> <p>Specifically, we want to make sure that you have the right to give away copies of SMAIL, that you receive source code or else can get it if you want it, that you can change SMAIL or use pieces of it in new free programs, and that you know you can do these things.</p> <p>To make sure that everyone has such rights, we have to forbid you to deprive anyone else of these rights. For example, if you distribute copies of SMAIL, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must tell them their rights.</p> <p>Also, for our own protection, we must make certain that everyone finds out that there is no warranty for SMAIL. If SMAIL is modified by someone else and passed on, we want its recipients to know that what they have is not what we distributed, so that any problems introduced by others will not reflect on our reputation.</p> <p>Therefore we (Landon Curt Noll and Ronald S. Karr) make the following terms which say what you must do to be allowed to distribute or change SMAIL.</p> <p><b>COPYING POLICIES</b></p> <p>1. You may copy and distribute verbatim copies of SMAIL source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy a valid copyright notice "Copyright (C) 1988 Landon Curt Noll &amp; Ronald S. Karr" (or with whatever year is appropriate); keep intact the notices on all files that refer to this License Agreement and to the absence of any warranty; and give any other recipients of the SMAIL program a copy of this License Agreement along with the program. You may charge a distribution fee for the physical act of transferring a copy.</p> <p>2. You may modify your copy or copies of SMAIL or any portion of it, and copy and distribute such modifications under the terms of Paragraph 1 above, provided that you also do the following:</p> <ul style="list-style-type: none"> <li>a) cause the modified files to carry prominent notices stating that you changed the files and the date of any change; and</li> <li>b) cause the whole of any work that you distribute or publish, that in whole or in part contains or is a derivative of SMAIL or any part thereof, to be licensed at no charge to all third parties on terms identical to those contained in this License Agreement (except that you may choose to grant more extensive warranty protection to some or all third parties, at your option).</li> <li>c) You may charge a distribution fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.</li> </ul> <p>Mere aggregation of another unrelated program with this program (or its derivative) on a volume of a storage or distribution medium does not bring the other program under the scope of these terms.</p> <p>3. You may copy and distribute SMAIL (or a portion or derivative of it, under Paragraph 2) in object code or executable form under the terms of Paragraphs 1 and 2 above provided that you also do one of the following:</p> <ul style="list-style-type: none"> <li>a) accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Paragraphs 1 and 2 above; or,</li> <li>b) accompany it with a written offer, valid for at least three years, to give any third party free (except for a nominal shipping charge) a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Paragraphs 1 and 2 above; or,</li> <li>c) accompany it with the information you received as to where the corresponding source code may be obtained. (This alternative is allowed only for non-commercial distribution and only if you received the program in object code or executable form alone.)</li> </ul> <p>For an executable file, complete source code means all the source code for all modules it contains; but, as a special exception, it need not include source code for modules which are standard libraries that accompany the operating system on which the executable file runs.</p> <p>4. You may not copy, sublicense, distribute or transfer SMAIL except as expressly provided under this License Agreement. Any attempt otherwise to copy, sublicense, distribute or transfer SMAIL is void and your rights to use the program under this License agreement shall be automatically terminated. However, parties who have received computer software programs from you with this License Agreement will not have their licenses terminated so long as such parties remain in full compliance.</p> <p>5. If you wish to incorporate parts of SMAIL into other free programs whose distribution conditions are different, write to Landon Curt Noll &amp; Ronald S. Karr via the Free Software Foundation at 51 Franklin St, Fifth Floor, Boston, MA 02110-1301, USA. We have not yet worked out a simple rule that can be stated here, but we will often permit this. We will be guided by the two goals of preserving the</p>

<a href="http://gcc.gnu.org/">http://gcc.gnu.org/</a>	g++-4.7	GNU C++ compiler	<p>This is the Debian GNU/Linux prepackaged version of the GNU compiler collection, containing Ada, C, C++, Fortran 95, Java, Objective-C, Objective-C++, and Treelang compilers, documentation, and support libraries. In addition, Debian provides the gdc compiler, either in the same source package, or built from a separate same source package. Packaging is done by the Debian GCC Maintainers&lt; <a href="mailto:debian-gcc@lists.debian.org">debian-gcc@lists.debian.org</a>&gt;, with sources obtained from:  <a href="ftp://gcc.gnu.org/pub/gcc/releases/">ftp://gcc.gnu.org/pub/gcc/releases/</a> (for full releases)  <a href="svn://gcc.gnu.org/svn/gcc/">svn://gcc.gnu.org/svn/gcc/</a> (for prereleases) <a href="http://bitbucket.org/goshawk/gdc">http://bitbucket.org/goshawk/gdc</a> (for D)  The current gcc-4.7 source package is taken from the SVN gcc-4.7-branch.  Changes: See <a href="#">changelog.Debian.gz</a>  Debian splits the GNU Compiler Collection into packages for each language, library, and documentation as follows:  Language Compiler package Library package Documentation -----  Ada gnat-4.7 libgnat-4.7 gnat-4.7-doc C gcc-4.7 gcc-4.7-doc  C++ g++-4.7 libstdc++6 libstdc++6-4.7-doc D gdc-4.7  Fortran 95 gfortran-4.7 libgfortran3 gfortran-4.7-doc Go gccgo-4.7 libgo0  Java gcj-4.7 libgcj10 libgcj-doc Objective C gobjc-4.7 libobjc2  Objective C++ gobjc++-4.7  For some language run-time libraries, Debian provides source files, development files, debugging symbols and libraries containing position-independent code in separate packages:  Language Sources Development Debugging Position-Independent -----  C++ libstdc++6-4.7-dbg libstdc++6-4.7-pic D libphobos-4.7-dev  Java libgcj10-src libgcj10-dev libgcj10-dbg  Additional packages include:  All languages: libgcc1, libgcc2, libgcc4 GCC intrinsics (platform-dependent)  gcc-4.7-base Base files common to all compilers gcc-4.7-soft-float Software floating point (ARM only)  gcc-4.7-source The sources with patches  Ada: libgnatvsn-dev, libgnatvsn4.7 GNAT version library  libgnatprj-dev, libgnatprj4.7 GNAT Project Manager library  C: cpp-4.7, cpp-4.7-doc GNU C Preprocessor  libmudflap0-dev, libmudflap0 Library for instrumenting pointers libssp0-dev, libssp0 GCC stack smashing protection library  libquadmath0 Math routines for the __float128 type fixincludes Fix non-ANSI header files  protoize Create/remove ANSI prototypes from C code  Java: gj The Java bytecode interpreter and VM  libgcj-common Common files for the Java run-time libgcj10-awt The Abstract Windowing Toolkit  libgcj10-jar Java ARchive for the Java run-time  C, C++ and Fortran 95: libgomp1-dev, libgomp1 GCC OpenMP (GOMP) support library  libitm1-dev, libitm1 GNU Transactional Memory Library  Biarich support: On some 64-bit platforms which can also run 32-bit code, Debian provides additional packages containing 32-bit versions of some libraries. These packages have names beginning with 'lib32' instead of 'lib', for example lib32stdc++6. Similarly, on some 32-bit platforms which can also run 64-bit code, Debian provides additional packages with names beginning with 'lib64' instead of 'lib'. These packages contain 64-bit versions of the libraries. (At this time, not all platforms and not all libraries support biarch.) The</p>

The following runtime libraries are licensed under the terms of the GNU General Public License (v3 or later) with version 3.1 of the GCC Runtime Library Exception (included in this file): - libgcc (libgcc/, gcc/libgcc2.[ch], gcc/unwind*, gcc/gthr*, gcc/coretypes.h, gcc/crtstuff.c, gcc/defaults.h, gcc/dwarf2.h, gcc/emults.c, gcc/gbl-ctors.h, gcc/gcov-io.h, gcc/libgcov.c, gcc/tsystem.h, gcc/typeclass.h). - libdecnumber - libgomp - libitm - libssp - libstdc++-v3 - libobjc - libmudflap - libgfortran - The libgnat-4.7 Ada support library and libgnatvsn library. - Various config files in gcc/config/ used in runtime libraries. In contrast, libgnatprj is licensed under the terms of the pure GNU General Public License. The libgcj library is licensed under the terms of the GNU General Public License, with a special exception: Linking this library statically or dynamically with other modules is making a combined work based on this library. Thus, the terms and conditions of the GNU General Public License cover the whole combination. As a special exception, the copyright holders of this library give you permission to link this library with independent modules to produce an executable, regardless of the license terms of these independent modules, and to copy and distribute the resulting executable under terms of your choice, provided that you also meet, for each linked independent module, the terms and conditions of the license of that module. An independent module is a module which is not derived from or based on this library. If you modify this library, you may extend this exception to your version of the library, but you are not obligated to do so. If you do not wish to do so, delete this exception statement from your version. The libffi library is licensed under the following terms: libffi - Copyright (c) 1996-2003 Red Hat, Inc. On Debian GNU/Linux systems, the complete text of this license is in <code>/usr/share/common-licenses/GFDL-1.2</code>. GCC RUNTIME LIBRARY EXCEPTION Version 3.1, 31 March 2009 Copyright (C) 2009 Free Software Foundation, Inc. &lt;<a href="http://fsf.org/">http://fsf.org/</a>&gt; Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed. This GCC Runtime Library Exception ("Exception") is an additional permission under section 7 of the GNU General Public License, version 3 ("GPLv3"). It applies to a given file (the "Runtime Library") that bears a notice placed by the copyright holder of the file stating that the file is governed by GPLv3 along with this Exception.</p>

Vendor	Product(s) and Version(s)	Functionality	Licensing Description/Disclaimer
			<p>When you use GCC to compile a program, GCC may combine portions of certain GCC header files and runtime libraries with the compiled program. The purpose of this Exception is to allow compilation of non-GPL (including proprietary) programs to use, in this way, the header files and runtime libraries covered by this Exception.</p> <p>0. Definitions.</p> <p>A file is an "Independent Module" if it either requires the Runtime Library for execution after a Compilation Process, or makes use of an interface provided by the Runtime Library, but is not otherwise based on the Runtime Library. "GCC" means a version of the GNU Compiler Collection, with or without modifications, governed by version 3 (or a specified later version) of the GNU General Public License (GPL) with the option of using any subsequent versions published by the FSF. "GPL-compatible Software" is software whose conditions of propagation, modification and use would permit combination with GCC in accord with the license of GCC.</p> <p>"Target Code" refers to output from any compiler for a real or virtual target processor architecture, in executable form or suitable for input to an assembler, loader, linker and/or execution phase. Notwithstanding that, Target Code does not include data in any format that is used as a compiler intermediate representation, or used for producing a compiler intermediate representation.</p> <p>The "Compilation Process" transforms code entirely represented in non-intermediate languages designed for human-written code, and/or in Java Virtual Machine byte code, into Target Code. Thus, for example, use of source code generators and preprocessors need not be considered part of the Compilation Process, since the Compilation Process can be understood as starting with the output of the generators or preprocessors.</p> <p>A Compilation Process is "Eligible" if it is done using GCC, alone or with other GPL-compatible software, or if it is done without using any work based on GCC. For example, using non-GPL-compatible Software to optimize any GCC intermediate representations would not qualify as an Eligible Compilation Process.</p> <p>1. Grant of Additional Permission.</p> <p>You have permission to propagate a work of Target Code formed by combining the Runtime Library with Independent Modules, even if such propagation would otherwise violate the terms of GPLv3, provided that all Target Code was generated by Eligible Compilation Processes. You may then convey such a combination under terms of your choice, consistent with the licensing of the Independent Modules.</p> <p>2. No Weakening of GCC Copyleft.</p> <p>The availability of this Exception does not imply any general presumption that third-party software is unaffected by the copyleft requirements of the license of GCC.</p> <p>libquadmath/. Thus, the terms and conditions of the GNU General Public License cover the whole combination.  As a special exception, the copyright holders of this library give you permission to link this library with independent modules to produce an executable, regardless of the license terms of these independent modules, and to copy and distribute the resulting executable under terms of your choice, provided that you also meet, for each linked independent module, the terms and conditions of the license of that module. An independent module is a module which is not derived from or based on this library. GCC RUNTIME LIBRARY EXCEPTION  Version 3.1, 31 March 2009  Copyright (C) 2009 Free Software Foundation, Inc. &lt;<a href="http://fsf.org/">http://fsf.org/</a>&gt;  Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.  This GCC Runtime Library Exception ("Exception") is an additional permission under section 7 of the GNU General Public License, version 3 ("GPLv3"). It applies to a given file (the "Runtime Library") that bears a notice placed by the copyright holder of the file stating that the file is governed by GPLv3 along with this Exception.  When you use GCC to compile a program, GCC may combine portions of certain GCC header files and runtime libraries with the compiled program. The purpose of this Exception is to allow compilation of non-GPL (including proprietary) programs to use, in this way, the header files and runtime libraries covered by this Exception.</p> <p>0. Definitions.  A file is an "Independent Module" if it either requires the Runtime Library for execution after a Compilation Process, or makes use of an interface provided by the Runtime Library, but is not otherwise based on the Runtime Library.  "GCC" means a version of the GNU Compiler Collection, with or without modifications, governed by version 3 (or a specified later version) of the GNU General Public License (GPL) with the option of using any subsequent versions published by the FSF.  "GPL-compatible Software" is software whose conditions of propagation, modification and use would permit combination with GCC in accord with the license of GCC.  "Target Code" refers to output from any compiler for a real or virtual target processor architecture, in executable form or suitable for input to an assembler, loader, linker and/or execution phase. Notwithstanding that, Target Code does not include data in any format that is used as a compiler intermediate representation, or used for producing a compiler intermediate representation.  The "Compilation Process" transforms code entirely represented in non-intermediate languages designed for human-written code, and/or in Java Virtual Machine byte code, into Target Code. Thus, for example, use of source code generators and preprocessors need not be considered part of the Compilation Process, since the Compilation Process can be understood as starting with the output of the generators or preprocessors.  A Compilation Process is "Eligible" if it is done using GCC, alone or</p>

			<p>with other GPL-compatible software, or if it is done without using any work based on GCC. For example, using non-GPL-compatible Software to optimize any GCC intermediate representations would not qualify as an Eligible Compilation Process.</p> <p>1. Grant of Additional Permission. You have permission to propagate a work of Target Code formed by combining the Runtime Library with Independent Modules, even if such propagation would otherwise violate the terms of GPLv3, provided that all Target Code was generated by Eligible Compilation Processes. You may then convey such a combination under terms of your choice, consistent with the licensing of the Independent Modules.</p> <p>2. No Weakening of GCC Copyleft. The availability of this Exception does not imply any general presumption that third-party software is unaffected by the copyleft requirements of the license of GCC.</p> <p>libquadmath*, [hc]: Copyright (C) 2010 Free Software Foundation, Inc. GCC RUNTIME LIBRARY EXCEPTION  Version 3.1, 31 March 2009  Copyright (C) 2009 Free Software Foundation, Inc. &lt;<a href="http://fsf.org/">http://fsf.org/</a>&gt;  Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.  This GCC Runtime Library Exception ("Exception") is an additional permission under section 7 of the GNU General Public License, version 3 ("GPLv3"). It applies to a given file (the "Runtime Library") that bears a notice placed by the copyright holder of the file stating that the file is governed by GPLv3 along with this Exception.  When you use GCC to compile a program, GCC may combine portions of certain GCC header files and runtime libraries with the compiled program. The purpose of this Exception is to allow compilation of non-GPL (including proprietary) programs to use, in this way, the header files and runtime libraries covered by this Exception.</p> <p>0. Definitions.  A file is an "Independent Module" if it either requires the Runtime Library for execution after a Compilation Process, or makes use of an interface provided by the Runtime Library, but is not otherwise based on the Runtime Library.  "GCC" means a version of the GNU Compiler Collection, with or without modifications, governed by version 3 (or a specified later version) of the GNU General Public License (GPL) with the option of using any subsequent versions published by the FSF.  "GPL-compatible Software" is software whose conditions of propagation, modification and use would permit combination with GCC in accord with the license of GCC.  "Target Code" refers to output from any compiler for a real or virtual target processor architecture, in executable form or suitable for input to an assembler, loader, linker and/or execution phase. Notwithstanding that, Target Code does not include data in any format that is used as a compiler intermediate representation, or used for producing a compiler intermediate representation.  The "Compilation Process" transforms code entirely represented in non-intermediate languages designed for human-written code, and/or in Java Virtual Machine byte code, into Target Code. Thus, for example, use of source code generators and preprocessors need not be considered part of the Compilation Process, since the Compilation Process can be understood as starting with the output of the generators or preprocessors.  A Compilation Process is "Eligible" if it is done using GCC, alone or with other GPL-compatible software, or if it is done without using any work based on GCC. For example, using non-GPL-compatible Software to optimize any GCC intermediate representations would not qualify as an Eligible Compilation Process.</p> <p>1. Grant of Additional Permission.  You have permission to propagate a work of Target Code formed by combining the Runtime Library with Independent Modules, even if such propagation would otherwise violate the terms of GPLv3, provided that all Target Code was generated by Eligible Compilation Processes. You may then convey such a combination under terms of your choice,</p>

<a href="http://gcc.gnu.org/">http://gcc.gnu.org/</a>	gcc-4.7-base	GCC, the GNU Compiler Collection (base package)	<p>This is the Debian GNU/Linux prepackaged version of the GNU compiler collection, containing Ada, C, C++, Fortran 95, Java, Objective-C, Objective-C++, and Treelang compilers, documentation, and support libraries. In addition, Debian provides the gdc compiler, either in the same source package, or built from a separate same source package. Packaging is done by the Debian GCC Maintainers&lt; <a href="mailto:debian-gcc@lists.debian.org">debian-gcc@lists.debian.org</a>&gt;, with sources obtained from: <a href="ftp://gcc.gnu.org/pub/gcc/releases/">ftp://gcc.gnu.org/pub/gcc/releases/</a> (for full releases) <a href="svn://gcc.gnu.org/svn/gcc/">svn://gcc.gnu.org/svn/gcc/</a> (for prereleases) <a href="http://bitbucket.org/goshawk/gdc">http://bitbucket.org/goshawk/gdc</a> (for D) The current gcc-4.7 source package is taken from the SVN gcc-4_7-branch.</p>

It applies to a given file (the "Runtime Library") that bears a notice placed by the copyright holder of the file stating that the file is governed by GPLv3 along with this Exception.</p> <p>When you use GCC to compile a program, GCC may combine portions of certain GCC header files and runtime libraries with the compiled program. The purpose of this Exception is to allow compilation of non-GPL (including proprietary) programs to use, in this way, the header files and runtime libraries covered by this Exception.</p> <p>0. Definitions.</p> <p>A file is an "Independent Module" if it either requires the Runtime Library for execution after a Compilation Process, or makes use of an interface provided by the Runtime Library, but is not otherwise based on the Runtime Library.</p> <p>"GCC" means a version of the GNU Compiler Collection, with or without modifications, governed by version 3 (or a specified later version) of the GNU General Public License (GPL) with the option of using any subsequent versions published by the FSF.</p> <p>"GPL-compatible Software" is software whose conditions of propagation, modification and use would permit combination with GCC in accord with the license of GCC.</p> <p>"Target Code" refers to output from any compiler for a real or virtual target processor architecture, in executable form or suitable for input to an assembler, loader, linker and/or execution phase. Notwithstanding that, Target Code does not include data in any format that is used as a compiler intermediate representation, or used for producing a compiler intermediate representation.</p> <p>The "Compilation Process" transforms code entirely represented in non-intermediate languages designed for human-written code, and/or in Java Virtual Machine byte code, into Target Code. Thus, for example, use of source code generators and preprocessors need not be considered part of the Compilation Process, since the Compilation Process can be understood as starting with the output of the generators or preprocessors.</p> <p>A Compilation Process is "Eligible" if it is done using GCC, alone or with other GPL-compatible software, or if it is done without using any work based on GCC. For example, using non-GPL-compatible Software to optimize any GCC intermediate representations would not qualify as an Eligible Compilation Process.</p> <p>1. Grant of Additional Permission.</p> <p>You have permission to propagate a work of Target Code formed by combining the Runtime Library with Independent Modules, even if such propagation would otherwise violate the terms of GPLv3, provided that all Target Code was generated by Eligible Compilation Processes. You may then convey such a combination under terms of your choice, consistent with the licensing of the Independent Modules.</p> <p>2. No Weakening of GCC Copyleft.</p> <p>The availability of this Exception does not imply any general presumption that third-party software is unaffected by the copyleft</p>

			<p>&gt; assume that groff/LICENSE grants me permission to distribute &gt; groff/doc/groff.texinfo and groff/doc/pic.ms under the terms of the &gt; GPL? This is the intention, of course. &gt; If not, is the FDL thing from yesteryear going to be resolved some &gt; other way? I just want to make sure that I don't get forced to &gt; remove the groff manual, since that would really diminish the &gt; quality of the Debian package IMHO. Sigh. I haven't found time to revert the FDL stuff back to GPL. It basically affects only Bernd Warken and me, and we have both agreed to return to GPL in case FDL makes problems. (Note that this e-mail predates the current wording in LICENSES.) It is therefore my understanding that the copyright holders of the groff documentation intend it to be distributable under the terms of the GPL version 3 or later. The reference above to the FDL text in /usr/share/common-licenses/ is for information only. =====</p> <p>The following material is based on that in the groff LICENSES file, which itself is licensed as follows: Copyright 2003, 2006, 2007, 2009 Free Software Foundation, Inc. You shall not remove any product identification, copyright notices, or proprietary notices from the Product.</p> <p>7. SUPPORT. Support terms and conditions and contact information are detailed in the Worldwide Limited Warranty and Technical Support for Industry Standard Server Products statement ("Support Statement"), a copy of which is available on the HP web site at <a href="http://www.hp.com">www.hp.com</a>. Subject to the terms of the Support Statement, for HP software products installed on HP computers, technical support for questions regarding media and Product installation may be available for a ninety (90) day period from the date of purchase of the HP computer on which this Product is installed ("Support Term"). To access this support in North America, call the HP Technical Support Phone Center at 1-800-652-6672. This service is available during normal business hours, Monday through Friday, during the Support Term. Outside North America, call the nearest HP Technical Support Center. No other support, including without limitation any on-site support, is provided under this Agreement.</p> <p>8. LIMITATION ON REVERSE ENGINEERING. Reverse engineering of Ancillary Software shall be governed by its respective Ancillary Software License. As for the remainder of the Product, You shall not modify, disassemble, reverse engineer, decompile, decrypt, or otherwise attempt to access or determine the source code of the Product without HP's prior written consent. Where You have other statutory rights with regard to software, You shall provide HP with reasonably detailed information regarding any intended disassembly or decompilation of the Product prior to performing such disassembly or decompilation. You shall not decrypt the Product unless necessary for the licensed Use of the Product.</p> <p>9. RESERVATION OF RIGHTS. HP, its third party suppliers, and Ancillary Software providers reserve all rights not expressly granted to You in this Agreement.</p> <p>10. TERM AND TERMINATION. You may exercise the rights of this Agreement and of the Ancillary Software Licenses for a period of time starting at Your acceptance of the terms and conditions of this Agreement and for so long as You meet such terms and conditions ("Term"). Notwithstanding the foregoing, HP may terminate Your right to Use the Product, upon notice, for Your failure to comply with any such term or condition. Immediately upon termination, You shall remove, destroy, or return to HP all copies of the Product, including those copies of the Product that are merged into Your adaptations, except for individual pieces of data in Your database. With HP's prior written consent, one copy of the Product may be retained, for archival purposes only, subsequent to termination. You may terminate this Agreement at any time by returning or destroying the Product together with merged portions in any form.</p> <p>11. CONFIDENTIAL COMPUTER SOFTWARE. Valid license from HP required for possession, use, or copying. Consistent with FAR 12.211 and 12.212, Commercial Computer Software, Computer Software Documentation, and Technical Data for Commercial Items are licensed to the U.S. Government under vendor's standard commercial license.</p> <p>12. COMPLIANCE WITH LAW. The Product and any associated hardware, software, technology or services may not be exported, reexported, transferred or downloaded to persons or entities listed on the U.S. Department of Commerce Denied Persons List, Entity List of proliferation concern, or on any U.S. Treasury Department Designated Nationals exclusion list, any country under U.S. economic embargo, or to parties directly or indirectly involved in the development or production of nuclear, chemical, biological weapons or in missile technology programs as specified in the U.S. Export Administration Regulations (15 CFR 744). By accepting this Agreement You confirm that You are not (i) located in (or a national resident of) any country under U.S. economic embargo, (ii) identified on any U.S. Department of Commerce Denied Persons List, Entity List or Treasury Department Designated Nationals exclusion list, and (iii) directly or indirectly involved in the development or production of nuclear, chemical, biological weapons or in missile technology programs as specified in the U.S. Export Administration Regulations.</p> <p>13. APPLICABLE LAW. This Agreement shall be construed in accordance with the laws of the State of Texas, without regard to conflict of laws principles. The United Nations Convention on Contracts for the International Sale of Goods is specifically disclaimed. If the Product was acquired outside the United States, then local law may apply.</p> <p>14. SEVERABILITY. If any term or provision of this Agreement is determined to be illegal or unenforceable, the validity or enforceability of the remainder of the terms or provisions herein will remain valid and in full force and effect. Failure or delay in enforcing any right or provision of this Agreement shall not be deemed a waiver of such right or provision with respect to any subsequent breach. Provisions herein, which by their nature extend beyond the termination of the license in the Product, will remain in effect until fulfilled.</p> <p>15. CONSENT TO USE OF DATA. You agree that HP may collect and use technical information that You provide in connection with Your Use and request for technical support of the Product from HP, however, HP will not use this information in a form that personally identifies You.</p> <p>16. ASSIGNMENT. You may not assign, sublicense or transfer this Agreement, the Product, or any rights or obligations hereunder without the prior written consent of HP. Any such attempted assignment, sublicense, or transfer will be null and void, and in such event, HP may terminate this Agreement immediately. Notwithstanding the foregoing, You may assign this Agreement and the rights granted hereunder with the transfer of all or substantially all of Your business. The right to assign or transfer Ancillary Software is governed by</p>

			<p>the terms and conditions of the Ancillary Software Licenses. 17. ENTIRE AGREEMENT. This Agreement, including all Ancillary Software Licenses in the ANCILLARY SOFTWARE list, is the final, complete and exclusive agreement between You and HP relating to the Product, and supersedes any previous communications, representations, or agreements between the parties, whether oral or written, regarding the subject matter hereof. Any additional or different terms and conditions not expressly set forth herein will not apply. This Agreement may not be changed except by an amendment signed by an authorized representative of both You and HP. To the extent the terms of any HP policies or programs for support services conflict with the terms of this Agreement, the terms of this Agreement shall control. 18. WARRANTY</p> <p>. a. NO ACTIVATION KEY REQUIRED SOFTWARE - AS-IS WARRANTY STATEMENT:  . DISCLAIMER. TO THE EXTENT ALLOWED BY APPLICABLE LAW, THIS PRODUCT AND SUPPORT SERVICES, IF ANY, ARE PROVIDED TO YOU "AS IS" WITHOUT WARRANTIES OF ANY KIND, WHETHER ORAL OR WRITTEN, EXPRESS OR IMPLIED. HP SPECIFICALLY DISCLAIMS ANY IMPLIED WARRANTIES OF ANY KIND, INCLUDING WITHOUT LIMITATION, WARRANTY OF MERCHANTABILITY, SATISFACTORY QUALITY, NON-INFRINGEMENT, TITLE, ACCURACY OF INFORMATIONAL CONTENT, FITNESS FOR A PARTICULAR PURPOSE, ACCURACY OR COMPLETENESS OF RESPONSES, RESULTS, OR WORKMANLIKE EFFORT, LACK OF VIRUSES, AND LACK OF NEGLIGENCE, ALL WITH REGARD TO THE PRODUCT, AND THE PROVISION OF OR FAILURE TO PROVIDE SUPPORT SERVICES. IN ADDITION, WITHOUT LIMITATION, THERE IS NO WARRANTY OF QUIET ENJOYMENT, QUIET POSSESSION AND CORRESPONDENCE TO DESCRIPTION WITH REGARD TO THE PRODUCT. YOU ASSUME THE ENTIRE RISK AS TO THE RESULTS AND PERFORMANCE OF THE PRODUCT. NO ORAL OR WRITTEN INFORMATION OR ADVICE GIVEN BY HP, HP'S AUTHORIZED REPRESENTATIVES, OR ANY OTHER PARTY SHALL CREATE A WARRANTY OR AMEND THIS "AS IS" WARRANTY. Some jurisdictions do not allow exclusions of implied warranties or conditions, so the above exclusion may not apply to You to the extent prohibited by such local laws. You may have other rights that vary from country to country, state to state, or province to province. .</p> <p>b. ACTIVATION KEY REQUIRED SOFTWARE - LIMITED WARRANTY. .  HP warrants that the Product will perform substantially in accordance with the accompanying materials for a period of ninety (90) days from the date of purchase. If an implied warranty or condition is created by Your state/jurisdiction and federal or state/provincial law prohibits disclaimer of it, You also have an implied warranty or condition, BUT ONLY AS TO DEFECTS FOR WHICH CLAIMS ARE MADE WITHIN NINETY (90) DAYS FROM THE DATE OF PURCHASE. AS TO ANY DEFECTS DISCOVERED FOR WHICH A CLAIM IS NOT MADE WITHIN THE NINETY-DAY PERIOD, THERE IS NO WARRANTY OR CONDITION OF ANY KIND. Some states/jurisdictions do not allow limitations on how long an implied warranty or condition lasts, so the above limitation may not apply to You. .  . DISCLAIMER. The Limited Warranty that appears above is the only express warranty made to You and is provided in lieu of any other express warranties or implied warranties (if any) created by any documentation, packaging or otherwise. EXCEPT FOR THE LIMITED WARRANTY, AND TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, HP AND ITS SUPPLIERS PROVIDE THE PRODUCT AND SUPPORT SERVICES (IF ANY) "AS IS" AND WITH ALL FAULTS, AND HEREBY DISCLAIM ALL OTHER WARRANTIES AND CONDITIONS, EITHER EXPRESS, IMPLIED OR STATUTORY, INCLUDING, BUT NOT LIMITED TO, ANY (IF ANY) IMPLIED WARRANTIES, DUTIES OR CONDITIONS OF MERCHANTABILITY, OF FITNESS FOR A PARTICULAR PURPOSE, SATISFACTORY QUALITY, NON-INFRINGEMENT OF TITLE, OF ACCURACY OR COMPLETENESS OF RESPONSES, OF RESULTS, OF WORKMANLIKE EFFORT, OF LACK OF VIRUSES, AND OF LACK OF NEGLIGENCE, ALL WITH REGARD TO THE PRODUCT, AND THE PROVISIONS OF OR FAILURE TO PROVIDE SUPPORT SERVICES. ALSO, THERE IS NO WARRANTY OR CONDITION OF TITLE, QUIET ENJOYMENT, QUIET POSSESSION, CORRESPONDENCE TO DESCRIPTION, OR NON-INFRINGEMENT WITH REGARD TO THE PRODUCT. .</p> <p>. 19. LIMITATION OF LIABILITY.  . a. FOR ALL SOFTWARE WHETHER OR NOT AN ACTIVATION KEY IS REQUIRED EXCEPT TO THE EXTENT PROHIBITED BY LOCAL LAW, IN NO EVENT WILL HP OR ITS SUBSIDIARIES, AFFILIATES, DIRECTORS, OFFICERS, EMPLOYEES, AGENTS OR SUPPLIERS BE LIABLE FOR DIRECT, INDIRECT, SPECIAL, INCIDENTAL, CONSEQUENTIAL, PUNITIVE, OR OTHER DAMAGES (INCLUDING LOST PROFIT, LOST DATA, OR DOWNTIME COSTS) ARISING OUT OF THE USE, THE INABILITY TO USE, OR THE RESULTS OF USE OF THE PRODUCT. WHETHER BASED IN WARRANTY, CONTRACT, TORT OR OTHER LEGAL THEORY, AND WHETHER OR NOT HP WAS ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. THE PRODUCT IS NOT DESIGNED, MANUFACTURED OR INTENDED FOR USE IN THE PLANNING, CONSTRUCTION, MAINTENANCE, OR OPERATION OF A NUCLEAR FACILITY, AIRCRAFT NAVIGATION OR AIRCRAFT COMMUNICATION SYSTEMS, AIR TRAFFIC CONTROL, LIFE SUPPORT MACHINES, OR WEAPONS SYSTEMS (COLLECTIVELY "HIGH RISK APPLICATIONS"). YOU ARE SOLELY LIABLE IF THE PRODUCT IS USED FOR HIGH RISK APPLICATIONS, AND YOU SHALL INDEMNIFY, DEFEND AND HOLD HP HARMLESS FROM ALL LOSS, DAMAGE, EXPENSE OR LIABILITY IN CONNECTION WITH SUCH USE. YOU ASSUME THE ENTIRE RISK AS TO YOUR USE OF THE PRODUCT. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF LIABILITY FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES. The same holds for its supporting scripts (config.guess, config.sub, ltconfig, ltmain.sh). Another support script, install-sh, is copyright by M.I.T. but is also freely distributable.</p> <p>. It appears that the arithmetic coding option of the JPEG spec is covered by patents owned by IBM, AT&amp;T, and Mitsubishi. Hence arithmetic coding cannot legally be used without obtaining one or more licenses. For this reason, support for arithmetic coding has been removed from the free JPEG software. (Since arithmetic coding provides only a marginal gain over the unpatented Huffman mode, it is unlikely that very many implementations will support it.) So far as we are aware, there are no patent restrictions on the remaining code. .</p> <p>The IJG distribution formerly included code to read and write GIF files. To avoid entanglement with the Unisys LZW patent, GIF reading support has been removed altogether, and the GIF writer has been simplified to produce "uncompressed GIFs". This technique does not use the LZW algorithm; the resulting GIF files are larger than usual, but are readable by all standard GIF decoders.</p> <p>. We are required to state that "The Graphics Interchange Format(c) is the Copyright property of CompuServe Incorporated. GIF(sm) is a Service Mark property of CompuServe Incorporated." .</p> <p>Other parts of this file are: . License: ImageMagick Before we get to the text of the license, lets just review what the license says in simple terms: .  It allows you to: .  * freely download and use ImageMagick software, in whole or in part, for personal, company internal, or commercial purposes;  * use ImageMagick software in packages or distributions that you create; * link against a library under a different license;  * link code under a different license against a library under this license; * merge code into a work under a different license;  * extend patent grants to any code using code under this license; * and extend patent protection.  . It forbids you to:  . * redistribute any piece of ImageMagick-originated software without proper attribution; * use any marks owned by ImageMagick Studio LLC in any way that might state or imply that ImageMagick Studio LLC endorses your distribution;  * use any marks owned by ImageMagick Studio LLC in any way that might state or imply that you created the ImageMagick software in question. .  It requires you to: .  * include a copy of the license in any redistribution you may make that includes ImageMagick software;  * provide clear attribution to ImageMagick Studio LLC for any distributions that include ImageMagick software.  . It does not require you to:  . * include the source of the ImageMagick software itself, or of any modifications you may have made to it, in any redistribution you may assemble that includes it;  * submit changes that you make to the software back to the ImageMagick Studio LLC (though such feedback is encouraged).  . A few other clarifications include:  . * ImageMagick is freely available without charge;  * you may include ImageMagick on a DVD as long as you comply with the terms of the license;  * you can give modified code away for free or sell it under the terms of the ImageMagick license or distribute the result under a different license, but you need to acknowledge the use of the ImageMagick software; * the license is compatible with the GPL V3.  * when exporting the ImageMagick software, review its export classification. .  Terms and Conditions for Use, Reproduction, and Distribution .  The legally binding and authoritative terms and conditions for use, reproduction, and distribution of ImageMagick follow:  . Copyright 1999-2012 ImageMagick Studio LLC, a non-profit organization dedicated to making software imaging solutions freely available. .</p>

Vendor	Product(s) and Version(s)	Functionality	Licensing Description/Disclaimer
			<p>1. Definitions. .  License shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.  . Licensor shall mean the copyright owner or entity authorized by the copyright owner that is granting the License. .  Legal Entity shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, control means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity. .  You (or Your) shall mean an individual or Legal Entity exercising permissions granted by this License.  . Source form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.  . Object form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.  . Work shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below). .  Derivative Works shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof. .  Contribution shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as Not a Contribution. .  Contributor shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work. .  2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.  . 3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed. .  4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:  . * You must give any other recipients of the Work or Derivative Works a copy of this License; and You must cause any modified files to carry prominent notices stating that You changed the files; and  * You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and  * If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the</p>

			<p>Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.</p> <p>You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.</p> <p>5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.</p> <p>6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.</p> <p>7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an AS IS BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.</p> <p>8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.</p> <p>9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.</p> <p>How to Apply the License to your Work . To apply the ImageMagick License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[ ]" replaced with your own identifying information (don't include the brackets). The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.</p> <p>Copyright [yyyy] [name of copyright owner] Licensed under the ImageMagick License (the "License"); you may not use this file except in compliance with the License. 			<p>distribution terms of the Free Software Foundation; principally, that you must include source code if you redistribute it. (See the file ansi2knr.c for full details.) However, since ansi2knr.c is not needed as part of any program generated from the IJG code, this does not limit you more than the foregoing paragraphs do.</p> <p>. The Unix configuration script "configure" was produced with GNU Autoconf. It is copyright by the Free Software Foundation but is freely distributable. The same holds for its supporting scripts (config.guess, config.sub, ltconfig, ltmain.sh). Another support script, install-sh, is copyright by M.I.T. but is also freely distributable.</p> <p>. It appears that the arithmetic coding option of the JPEG spec is covered by patents owned by IBM, AT&amp;T, and Mitsubishi. Hence arithmetic coding cannot legally be used without obtaining one or more licenses. For this reason, support for arithmetic coding has been removed from the free JPEG software. (Since arithmetic coding provides only a marginal gain over the unpatented Huffman mode, it is unlikely that very many implementations will support it.) So far as we are aware, there are no patent restrictions on the remaining code.</p> <p>The IJG distribution formerly included code to read and write GIF files. To avoid entanglement with the Unisys LZW patent, GIF reading support has been removed altogether, and the GIF writer has been simplified to produce "uncompressed GIFs". This technique does not use the LZW algorithm; the resulting GIF files are larger than usual, but are readable by all standard GIF decoders.</p> <p>. We are required to state that "The Graphics Interchange Format(c) is the Copyright property of CompuServe Incorporated. GIF(sm) is a Service Mark property of CompuServe Incorporated." . Copyright 1999-2012 ImageMagick Studio LLC, a non-profit organization dedicated to making software imaging solutions freely available. .</p> <p>1. Definitions. .</p>

Vendor	Product(s) and Version(s)	Functionality	Licensing Description/Disclaimer
			<p>License shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.</p> <p>. Licensor shall mean the copyright owner or entity authorized by the copyright owner that is granting the License. .</p> <p>Legal Entity shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, control means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity. .</p> <p>You (or Your) shall mean an individual or Legal Entity exercising permissions granted by this License.</p> <p>. Source form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.</p> <p>. Object form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.</p> <p>. Work shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below). .</p> <p>Derivative Works shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof. .</p> <p>Contribution shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as Not a Contribution. .</p> <p>Contributor shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work. .</p> <p>2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.</p> <p>. 3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed. .</p> <p>4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:</p> <p>. * You must give any other recipients of the Work or Derivative Works a copy of this License; and You must cause any modified files to carry prominent notices stating that You changed the files; and</p> <p>* You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and</p> <p>* If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or,</p>

			<p>within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.</p> <p>. You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License. .</p> <p>5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions. .</p> <p>6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.</p> <p>. 7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an AS IS BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.</p> <p>. 8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.</p> <p>. 9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability. .</p> <p>How to Apply the License to your Work .</p> <p>To apply the ImageMagick License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[ ]" replaced with your own identifying information (don't include the brackets). 	keyboard-configuration	system-wide keyboard preferences	<p>This copyright file applies both to the source package console-setup and the binary Debian packages built from it.  In short, if you use console-setup with precompiled keyboard files, then all installed files are covered by simple permissive non-copyleft free software licenses. However, several of the tools used for the compilation of the package (in particular 'ckbcomp' and 'bdf2psf') are covered by GPL, version 2 or later. The Perl program 'ckbcomp' is installed in the system when console-setup is not used with precompiled keyboard files.  The exact copyright terms follow.  All console fonts are public domain by nature.  The source BDF-fonts in the directory Fonts/bdf are distributed under many different licenses, see in the file copyright.fonts for details.  The program 'bdf2psf' used to convert the fonts from BDF format to the format used on the consoles of Linux and FreeBSD is covered by GPL, version 2 or later.  The keyboard files are borrowed from the XKeyboardConfig package. For the licenses of the keyboard files, see the file copyright.xkb. The XKeyboardConfig package was downloaded from  <a href="http://xlibs.freedesktop.org/xkbdesc/xkeyboard-config-0.8.tar.gz">http://xlibs.freedesktop.org/xkbdesc/xkeyboard-config-0.8.tar.gz</a>  Please notice, that Debian packages do not include the XKB files (they are provided by a separate package xkb-data). When, however, the Debian package console-setup-mini is installed, it includes precompiled version of the keyboard files, so the terms in the file <code>/usr/share/doc/keyboard-configuration/copyright.xkb.gz</code> apply.  The manual pages are distributed according to GNU all-permissive license:  Copyright (C) 2007, 2011 Anton Zinoviev &lt;anton@lml.bas.bg&gt;  Copying and distribution of this file, with or without modification, are permitted in any medium without royalty provided the copyright notice and this notice are preserved. The same algorithm is used as a stream cipher called "arcfour" in Tatu Ylonen's ssh package.</p> <p>Here the stream cipher has been modified always to include the time when initializing the state. That makes it impossible to regenerate the same random sequence twice, so this can't be used for encryption, but will generate good random numbers.</p> <p>RC4 is a registered trademark of RSA Laboratories.</p> <p>--</p> <p>This code implements the MD5 message-digest algorithm. The algorithm is due to Ron Rivest. This code was written by Colin Plumb in 1993, no copyright is claimed. This code is in the public domain; do with it what you wish.</p> <p>Equivalent code is available from RSA Data Security, Inc. This code has been tested against that, and is equivalent, except that you don't need to include two pages of legalese with every copy.</p> <p>To compute the message digest of a chunk of bytes, declare an MD5Context structure, pass it to MD5Init, call MD5Update as needed on buffers full of bytes, and then call MD5Final, which will fill a supplied 16-byte array with the digest.</p> <p>--</p> <p>"THE BEER-WARE LICENSE" (Revision 42):  &lt;phk@login.dkuug.dk&gt; wrote this file. As long as you retain this notice you can do whatever you want with this stuff. If we meet some day, and you think this stuff is worth it, you can buy me a beer in return. Poul-Henning Kamp</p>

Definitions.  1.0.1. "Commercial Use" means distribution or otherwise making the Covered Code available to a third party.  1.1. "Contributor" means each entity that creates or contributes to the creation of Modifications.  1.2. "Contributor Version" means the combination of the Original Code, prior Modifications used by a Contributor, and the Modifications made by that particular Contributor.  1.3. "Covered Code" means the Original Code or Modifications or the combination of the Original Code and Modifications, in each case including portions thereof.  1.4. "Electronic Distribution Mechanism" means a mechanism generally accepted in the software development community for the electronic transfer of data.  1.5. "Executable" means Covered Code in any form other than Source Code.  1.6. "Initial Developer" means the individual or entity identified as the Initial Developer in the Source Code notice required by Exhibit A.  1.7. "Larger Work" means a work which combines Covered Code or portions thereof with code not governed by the terms of this License.  1.8. "License" means this document.  1.8.1. "Licensable" means having the right to grant, to the maximum extent possible, whether at the time of the initial grant or subsequently acquired, any and all of the rights conveyed herein.  1.9. "Modifications" means any addition to or deletion from the substance or structure of either the Original Code or any previous Modifications. When Covered Code is released as a series of files, a Modification is: A. Any addition to or deletion from the contents of a file containing Original Code or previous Modifications.  B. Any new file that contains any part of the Original Code or previous Modifications.  1.10. "Original Code" means Source Code of computer software code which is described in the Source Code notice required by Exhibit A as Original Code, and which, at the time of its release under this License is not already Covered Code governed by this License.  1.10.1. "Patent Claims" means any patent claim(s), now owned or hereafter acquired, including without limitation, method, process, and apparatus claims, in any patent Licensable by grantor.  1.11. "Source Code" means the preferred form of the Covered Code for making modifications to it, including all modules it contains, plus any associated interface definition files, scripts used to control compilation and installation of an Executable, or source code differential comparisons against either the Original Code or another well known, available Covered Code of the Contributor's choice. The Source Code can be in a compressed or archival form, provided the appropriate decompression or de-archiving software is widely available for no charge.</p>

Vendor	Product(s) and Version(s)	Functionality	Licensing Description/Disclaimer
			<p>1.12. "You" (or "Your") means an individual or a legal entity exercising rights under, and complying with all of the terms of, this License or a future version of this License issued under Section 6.1. For legal entities, "You" includes any entity which controls, is controlled by, or is under common control with You. For purposes of this definition, "control" means (a) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (b) ownership of more than fifty percent (50%) of the outstanding shares or beneficial ownership of such entity.</p> <p>2. Source Code License.</p> <p>2.1. The Initial Developer Grant.</p> <p>The Initial Developer hereby grants You a world-wide, royalty-free, non-exclusive license, subject to third party intellectual property claims: (a) under intellectual property rights (other than patent or trademark) Licensable by Initial Developer to use, reproduce, modify, display, perform, sublicense and distribute the Original Code (or portions thereof) with or without Modifications, and/or as part of a Larger Work; and (b) under Patents Claims infringed by the making, using or selling of Original Code, to make, have made, use, practice, sell, and offer for sale, and/or otherwise dispose of the Original Code (or portions thereof).</p> <p>(c) the licenses granted in this Section 2.1(a) and (b) are effective on the date Initial Developer first distributes Original Code under the terms of this License.</p> <p>(d) Notwithstanding Section 2.1(b) above, no patent license is granted: 1) for code that You delete from the Original Code; 2) separate from the Original Code; or 3) for infringements caused by: i) the modification of the Original Code or ii) the combination of the Original Code with other software or devices.</p> <p>2.2. Contributor Grant. Subject to third party intellectual property claims, each Contributor hereby grants You a world-wide, royalty-free, non-exclusive license (a) under intellectual property rights (other than patent or trademark) Licensable by Contributor, to use, reproduce, modify, display, perform, sublicense and distribute the Modifications created by such Contributor (or portions thereof) either on an unmodified basis, with other Modifications, as Covered Code and/or as part of a Larger Work; and (b) under Patent Claims infringed by the making, using, or selling of Modifications made by that Contributor either alone and/or in combination with its Contributor Version (or portions of such combination), to make, use, sell, offer for sale, have made, and/or otherwise dispose of: 1) Modifications made by that Contributor (or portions thereof); and 2) the combination of Modifications made by that Contributor with its Contributor Version (or portions of such combination).</p> <p>(c) the licenses granted in Sections 2.2(a) and 2.2(b) are effective on the date Contributor first makes Commercial Use of the Covered Code.</p> <p>(d) Notwithstanding Section 2.2(b) above, no patent license is granted: 1) for any code that Contributor has deleted from the Contributor Version; 2) separate from the Contributor Version; 3) for infringements caused by: i) third party modifications of Contributor Version or ii) the combination of Modifications made by that Contributor with other software (except as part of the Contributor Version) or other devices; or 4) under Patent Claims infringed by Covered Code in the absence of Modifications made by that Contributor.</p> <p>3. Distribution Obligations.</p> <p>3.1. Application of License. The Modifications which You create or to which You contribute are governed by the terms of this License, including without limitation Section 2.2. The Source Code version of Covered Code may be distributed only under the terms of this License or a future version of this License released under Section 6.1, and You must include a copy of this License with every copy of the Source Code You distribute. You may not offer or impose any terms on any Source Code version that alters or restricts the applicable version of this License or the recipients' rights hereunder. However, You may include an additional document offering the additional rights described in Section 3.5.</p> <p>3.2. Availability of Source Code.</p> <p>Any Modification which You create or to which You contribute must be made available in Source Code form under the terms of this License either on the same media as an Executable version or via an accepted Electronic Distribution Mechanism to anyone to whom you made an Executable version available; and if made available via Electronic Distribution Mechanism, must remain available for at least twelve (12) months after the date it initially became available, or at least six (6) months after a subsequent version of that particular Modification has been made available to such recipients. You are responsible for ensuring that the Source Code version remains available even if the Electronic Distribution Mechanism is maintained by a third party.</p> <p>3.3. Description of Modifications. You must cause all Covered Code to which You contribute to contain a file documenting the changes You made to create that Covered Code and the date of any change. You must include a prominent statement that</p>

			<p>the Modification is derived, directly or indirectly, from Original Code provided by the Initial Developer and including the name of the Initial Developer in (a) the Source Code, and (b) in any notice in an Executable version or related documentation in which You describe the origin or ownership of the Covered Code.</p> <p>3.4. Intellectual Property Matters (a) Third Party Claims. If Contributor has knowledge that a license under a third party's intellectual property rights is required to exercise the rights granted by such Contributor under Sections 2.1 or 2.2, Contributor must include a text file with the Source Code distribution titled "LEGAL" which describes the claim and the party making the claim in sufficient detail that a recipient will know whom to contact. If Contributor obtains such knowledge after the Modification is made available as described in Section 3.2, Contributor shall promptly modify the LEGAL file in all copies Contributor makes available thereafter and shall take other steps (such as notifying appropriate mailing lists or newsgroups) reasonably calculated to inform those who received the Covered Code that new knowledge has been obtained.</p> <p>(b) Contributor APIs. If Contributor's Modifications include an application programming interface and Contributor has knowledge of patent licenses which are reasonably necessary to implement that API, Contributor must also include this information in the LEGAL file.</p> <p>(c) Representations. Contributor represents that, except as disclosed pursuant to Section 3.4(a) above, Contributor believes that Contributor's Modifications are Contributor's original creation(s) and/or Contributor has sufficient rights to grant the rights conveyed by this License.</p> <p>3.5. Required Notices. You must duplicate the notice in Exhibit A in each file of the Source Code. If it is not possible to put such notice in a particular Source Code file due to its structure, then You must include such notice in a location (such as a relevant directory) where a user would be likely to look for such a notice. If You created one or more Modification(s) You may add your name as a Contributor to the notice described in Exhibit A. You must also duplicate this License in any documentation for the Source Code where You describe recipients' rights or ownership rights relating to Covered Code. You may choose to offer, and to charge a fee for, warranty, support, indemnity or liability obligations to one or more recipients of Covered Code. However, You may do so only on Your own behalf, and not on behalf of the Initial Developer or any Contributor. You must make it absolutely clear than any such warranty, support, indemnity or liability obligation is offered by You alone, and You hereby agree to indemnify the Initial Developer and every Contributor for any liability incurred by the Initial Developer or such Contributor as a result of warranty, support, indemnity or liability terms You offer.</p> <p>3.6. Distribution of Executable Versions. You may distribute Covered Code in Executable form only if the requirements of Section 3.1-3.5 have been met for that Covered Code, and if You include a notice stating that the Source Code version of the Covered Code is available under the terms of this License, including a description of how and where You have fulfilled the obligations of Section 3.2. The notice must be conspicuously included in any notice in an Executable version, related documentation or collateral in which You describe recipients' rights relating to the Covered Code. You may distribute the Executable version of Covered Code or ownership rights under a license of Your choice, which may contain terms different from this License, provided that You are in compliance with the terms of this License and that the license for the Executable version does not attempt to limit or alter the recipient's rights in the Source Code version from the rights set forth in this License. If You distribute the Executable version under a different license You must make it absolutely clear that any terms which differ from this License are offered by You alone, not by the Initial Developer or any Contributor. You hereby agree to indemnify the Initial Developer and every Contributor for any liability incurred by the Initial Developer or such Contributor as a result of any such terms You offer.</p> <p>3.7. Larger Works. You may create a Larger Work by combining Covered Code with other code not governed by the terms of this License and distribute the Larger Work as a single product. In such a case, You must make sure the requirements of this License are fulfilled for the Covered Code.</p> <p>4. Inability to Comply Due to Statute or Regulation. If it is impossible for You to comply with any of the terms of this License with respect to some or all of the Covered Code due to statute, judicial order, or regulation then You must: (a) comply with the terms of this License to the maximum extent possible; and (b) describe the limitations and the code they affect. Such description must be included in the LEGAL file described in Section 3.4 and must be included with all distributions of the Source Code. Except to the extent prohibited by statute or regulation, such description must be sufficiently detailed for a recipient of ordinary skill to be able to understand it.</p> <p>5. Application of this License.</p>

			<p>This License applies to code to which the Initial Developer has attached the notice in Exhibit A and to related Covered Code.</p> <p>6. Versions of the License.</p> <p>6.1. New Versions. Netscape Communications Corporation ("Netscape") may publish revised and/or new versions of the License from time to time. Each version will be given a distinguishing version number.</p> <p>6.2. Effect of New Versions.</p> <p>Once Covered Code has been published under a particular version of the License, You may always continue to use it under the terms of that version. You may also choose to use such Covered Code under the terms of any subsequent version of the License published by Netscape. No one other than Netscape has the right to modify the terms applicable to Covered Code created under this License.</p> <p>6.3. Derivative Works.</p> <p>If You create or use a modified version of this License (which you may only do in order to apply it to code which is not already Covered Code governed by this License), You must (a) rename Your license so that the phrases "Mozilla", "MOZILLAPL", "MOZPL", "Netscape", "MPL", "NPL" or any confusingly similar phrase do not appear in your license (except to note that your license differs from this License) and (b) otherwise make it clear that Your version of the license contains terms which differ from the Mozilla Public License and Netscape Public License. (Filling in the name of the Initial Developer, Original Code or Contributor in the notice described in Exhibit A shall not of themselves be deemed to be modifications of this License.)</p> <p>7. DISCLAIMER OF WARRANTY.</p> <p>COVERED CODE IS PROVIDED UNDER THIS LICENSE ON AN "AS IS" BASIS, WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, WITHOUT LIMITATION, WARRANTIES THAT THE COVERED CODE IS FREE OF DEFECTS, MERCHANTABILITY, FIT FOR A PARTICULAR PURPOSE OR NON-INFRINGEMENT. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE COVERED CODE IS WITH YOU. SHOULD ANY COVERED CODE PROVE DEFECTIVE IN ANY RESPECT, YOU (NOT THE INITIAL DEVELOPER OR ANY OTHER CONTRIBUTOR) ASSUME THE COST OF ANY NECESSARY SERVICING, REPAIR OR CORRECTION. THIS DISCLAIMER OF WARRANTY CONSTITUTES AN ESSENTIAL PART OF THIS LICENSE. NO USE OF ANY COVERED CODE IS AUTHORIZED HEREUNDER EXCEPT UNDER THIS DISCLAIMER.</p> <p>8. TERMINATION.</p> <p>8.1. This License and the rights granted hereunder will terminate automatically if You fail to comply with terms herein and fail to cure such breach within 30 days of becoming aware of the breach. All sublicenses to the Covered Code which are properly granted shall survive any termination of this License. Provisions which, by their nature, must remain in effect beyond the termination of this License shall survive.</p> <p>8.2. If You initiate litigation by asserting a patent infringement claim (excluding declaratory judgment actions) against Initial Developer or a Contributor (the Initial Developer or Contributor against whom You file such action is referred to as "Participant") alleging that:</p> <p>(a) such Participant's Contributor Version directly or indirectly infringes any patent, then any and all rights granted by such Participant to You under Sections 2.1 and/or 2.2 of this License shall, upon 60 days notice from Participant terminate prospectively, unless if within 60 days after receipt of notice You either: (i) agree in writing to pay Participant a mutually agreeable reasonable royalty for Your past and future use of Modifications made by such Participant, or (ii) withdraw Your litigation claim with respect to the Contributor Version against such Participant. If within 60 days of notice, a reasonable royalty and payment arrangement are not mutually agreed upon in writing by the parties or the litigation claim is not withdrawn, the rights granted by Participant to You under Sections 2.1 and/or 2.2 automatically terminate at the expiration of the 60 day notice period specified above.</p> <p>(b) any software, hardware, or device, other than such Participant's Contributor Version, directly or indirectly infringes any patent, then any rights granted to You by such Participant under Sections 2.1(b) and 2.2(b) are revoked effective as of the date You first made, used, sold, distributed, or had made, Modifications made by that Participant.</p> <p>8.3. If You assert a patent infringement claim against Participant alleging that such Participant's Contributor Version directly or indirectly infringes any patent where such claim is resolved (such as by license or settlement) prior to the initiation of patent infringement litigation, then the reasonable value of the licenses granted by such Participant under Sections 2.1 or 2.2 shall be taken into account in determining the amount or value of any payment or license.</p> <p>8.4. In the event of termination under Sections 8.1 or 8.2 above, all end user license agreements (excluding distributors and resellers) which have been validly granted by You or any distributor hereunder prior to termination shall survive termination.</p> <p>9. LIMITATION OF LIABILITY.</p> <p>UNDER NO CIRCUMSTANCES AND UNDER NO LEGAL THEORY, WHETHER TORT (INCLUDING NEGLIGENCE), CONTRACT, OR OTHERWISE, SHALL YOU, THE INITIAL DEVELOPER, ANY OTHER CONTRIBUTOR, OR ANY DISTRIBUTOR OF COVERED CODE,</p>

			<p>OR ANY SUPPLIER OF ANY OF SUCH PARTIES, BE LIABLE TO ANY PERSON FOR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES OF ANY CHARACTER INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOSS OF GOODWILL, WORK STOPPAGE, COMPUTER FAILURE OR MALFUNCTION, OR ANY AND ALL OTHER COMMERCIAL DAMAGES OR LOSSES, EVEN IF SUCH PARTY SHALL HAVE BEEN INFORMED OF THE POSSIBILITY OF SUCH DAMAGES. THIS LIMITATION OF LIABILITY SHALL NOT APPLY TO LIABILITY FOR DEATH OR PERSONAL INJURY RESULTING FROM SUCH PARTY'S NEGLIGENCE TO THE EXTENT APPLICABLE LAW PROHIBITS SUCH LIMITATION. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THIS EXCLUSION AND LIMITATION MAY NOT APPLY TO YOU.</p> <p>10. U.S. GOVERNMENT END USERS. The Covered Code is a "commercial item," as that term is defined in 48 C.F.R. 2.101 (Oct. 1995), consisting of "commercial computer software" and "commercial computer software documentation," as such terms are used in 48 C.F.R. 12.212 (Sept. 1995). Consistent with 48 C.F.R. 12.212 and 48 C.F.R. 227.7202-1 through 227.7202-4 (June 1995), all U.S. Government End Users acquire Covered Code with only those rights set forth herein.</p> <p>11. MISCELLANEOUS. This License represents the complete agreement concerning subject matter hereof. If any provision of this License is held to be unenforceable, such provision shall be reformed only to the extent necessary to make it enforceable. This License shall be governed by California law provisions (except to the extent applicable law, if any, provides otherwise), excluding its conflict-of-law provisions. With respect to disputes in which at least one party is a citizen of, or an entity chartered or registered to do business in the United States of America, any litigation relating to this License shall be subject to the jurisdiction of the Federal Courts of the Northern District of California, with venue lying in Santa Clara County, California, with the losing party responsible for costs, including without limitation, court costs and reasonable attorneys' fees and expenses. The application of the United Nations Convention on Contracts for the International Sale of Goods is expressly excluded. Any law or regulation which provides that the language of a contract shall be construed against the drafter shall not apply to this License.</p> <p>12. RESPONSIBILITY FOR CLAIMS. As between Initial Developer and the Contributors, each party is responsible for claims and damages arising, directly or indirectly, out of its utilization of rights under this License and You agree to work with Initial Developer and Contributors to distribute such responsibility on an equitable basis. Nothing herein is intended or shall be deemed to constitute any admission of liability.</p> <p>13. MULTIPLE-LICENSED CODE. Initial Developer may designate portions of the Covered Code as "Multiple-Licensed". "Multiple-Licensed" means that the Initial Developer permits you to utilize portions of the Covered Code under Your choice of the NPL or the alternative licenses, if any, specified by the Initial Developer in the file described in Exhibit A.</p> <p>EXHIBIT A -Mozilla Public License. The intent is that the Copyright Holder maintains some artistic control over the development of that Package while still keeping the Package available as open source and free software. .  You are always permitted to make arrangements wholly outside of this license directly with the Copyright Holder of a given Package. If the terms of this license do not permit the full use that you propose to make of the Package, you should contact the Copyright Holder and seek a different licensing arrangement. .  Definitions .  "Copyright Holder" means the individual(s) or organization(s) named in the copyright notice for the entire Package.  . "Contributor" means any party that has contributed code or other material to the Package, in accordance with the Copyright Holder's procedures.  . "You" and "your" means any person who would like to copy, distribute, or modify the Package. .  "Package" means the collection of files distributed by the Copyright Holder, and derivatives of that collection and/or of those files. A given Package may consist of either the Standard Version, or a Modified Version.  . "Distribute" means providing a copy of the Package or making it accessible to anyone else, or in the case of a company or organization, to others outside of your company or organization.  . "Distributor Fee" means any fee that you charge for Distributing this Package or providing support for this Package to another party. It does not mean licensing fees.  . "Standard Version" refers to the Package if it has not been modified, or has been modified only in ways explicitly requested by the Copyright Holder.  . "Modified Version" means the Package, if it has been changed, and such changes were not explicitly requested by the Copyright Holder. .  "Original License" means this Artistic License as Distributed with the Standard Version of the Package, in its current version or as it may be modified by The Perl Foundation in the future. .  "Source" form means the source code, documentation source, and configuration files for the Package.  . "Compiled" form means the compiled bytecode, object code, binary, or any other form resulting from mechanical transformation or translation of the Source form.  . Permission for Use and Modification Without Distribution  . (1) You are permitted to use the Standard Version and create and use Modified Versions for any purpose without restriction, provided that you do not Distribute the Modified Version.</p>

			<p>. Permissions for Redistribution of the Standard Version</p> <p>. (2) You may Distribute verbatim copies of the Source form of the Standard Version of this Package in any medium without restriction, either gratis or for a Distributor Fee, provided that you duplicate all of the original copyright notices and associated disclaimers. At your discretion, such verbatim copies may or may not include a Compiled form of the Package. .</p> <p>(3) You may apply any bug fixes, portability changes, and other modifications made available from the Copyright Holder. The resulting Package will still be considered the Standard Version, and as such will be subject to the Original License.</p> <p>. Distribution of Modified Versions of the Package as Source</p> <p>. (4) You may Distribute your Modified Version as Source (either gratis or for a Distributor Fee, and with or without a Compiled form of the Modified Version) provided that you clearly document how it differs from the Standard Version, including, but not limited to, documenting any non-standard features, executables, or modules, and provided that you do at least ONE of the following: .</p> <p>(a) make the Modified Version available to the Copyright Holder of the Standard Version, under the Original License, so that the Copyright Holder may include your modifications in the Standard Version. (b) ensure that installation of your Modified Version does not prevent the user installing or running the Standard Version. In addition, the Modified Version must bear a name that is different from the name of the Standard Version. (c) allow anyone who receives a copy of the Modified Version to make the Source form of the Modified Version available to others under (i) the Original License or (ii) a license that permits the licensee to freely copy, modify and redistribute the Modified Version using the same licensing terms that apply to the copy that the licensee received, and requires that the Source form of the Modified Version, and of any works derived from it, be made freely available in that license fees are prohibited but Distributor Fees are allowed. .</p> <p>Distribution of Compiled Forms of the Standard Version or Modified Versions without the Source</p> <p>. (5) You may Distribute Compiled forms of the Standard Version without the Source, provided that you include complete instructions on how to get the Source of the Standard Version. Such instructions must be valid at the time of your distribution. If these instructions, at any time while you are carrying out such distribution, become invalid, you must provide new instructions on demand or cease further distribution. If you provide valid instructions or cease distribution within thirty days after you become aware that the instructions are invalid, then you do not forfeit any of your rights under this license.</p> <p>. (6) You may Distribute a Modified Version in Compiled form without the Source, provided that you comply with Section 4 with respect to the Source of the Modified Version.</p> <p>. Aggregating or Linking the Package</p> <p>. (7) You may aggregate the Package (either the Standard Version or Modified Version) with other packages and Distribute the resulting aggregation provided that you do not charge a licensing fee for the Package. Distributor Fees are permitted, and licensing fees for other components in the aggregation are permitted. The terms of this license apply to the use and Distribution of the Standard or Modified Versions as included in the aggregation.</p> <p>. (8) You are permitted to link Modified and Standard Versions with other works, to embed the Package in a larger work of your own, or to build stand-alone binary or bytecode versions of applications that include the Package, and Distribute the result without restriction, provided the result does not expose a direct interface to the Package.</p> <p>. Items That are Not Considered Part of a Modified Version</p> <p>. (9) Works (including, but not limited to, modules and scripts) that merely extend or make use of the Package, do not, by themselves, cause the Package to be a Modified Version. In addition, such works are not considered parts of the Package itself, and are not subject to the terms of this license.</p> <p>. General Provisions</p> <p>. (10) Any use, modification, and distribution of the Standard or Modified Versions is governed by this Artistic License. By using, modifying or distributing the Package, you accept this license. Do not use, modify, or distribute the Package, if you do not accept this license.</p> <p>. (11) If your Modified Version has been derived from a Modified Version made by someone other than you, you are nevertheless required to ensure that your Modified Version complies with the requirements of this license. .</p> <p>(12) This license does not grant you the right to use any trademark, service mark, tradename, or logo of the Copyright Holder.</p> <p>. (13) This license includes the non-exclusive, worldwide, free-of-charge patent license to make, have made, use, offer to sell, sell, import and otherwise transfer the Package with respect to any patent claims licensable by the Copyright Holder that are necessarily infringed by the Package. If you institute patent litigation (including a cross-claim or counterclaim) against any party alleging that the Package constitutes direct or contributory patent infringement, then this Artistic License to you shall terminate on the date that such litigation is filed.</p> <p>. <a href="http://dbus.freedesktop.org/">http://dbus.freedesktop.org/</a>	libdbus-1-3	simple interprocess messaging system (library)	<p>This package was debianized by Colin Walters &lt;walters@debian.org&gt; on Thu, 6 Mar 2003 18:01:37 -0500  It was downloaded from <a href="http://www.freedesktop.org/software/dbus">http://www.freedesktop.org/software/dbus</a>  This package is dual-licensed under the Academic Free License version 2.1, and the GPL version 2.  For a description of the GPL, see  /usr/share/common-licenses/GPL-2 on your Debian system.  Portions of the package are only licensed under the GPL (notably tools/dbus-cleanup-sockets.c and test/decode-gcov.c ).  The Academic Free License follows:  The Academic Free License v. 2.1  This Academic Free License (the "License") applies to any original work of authorship (the "Original Work") whose owner (the "Licensor") has placed the following notice immediately following the copyright notice for the Original Work:  Licensed under the Academic Free License version 2.1  1) Grant of Copyright License. Licensor hereby grants You a world-wide, royalty-free, non-exclusive, perpetual, sublicenseable license to do the following:  a) to reproduce the Original Work in copies;  b) to prepare derivative works ("Derivative Works") based upon the Original Work;  c) to distribute copies of the Original Work and Derivative Works to the public;  d) to perform the Original Work publicly; and  e) to display the Original Work publicly.  2) Grant of Patent License. Licensor hereby grants You a world-wide, royalty-free, non-exclusive, perpetual, sublicenseable license, under patent claims owned or controlled by the Licensor that are embodied in the Original Work as furnished by the Licensor, to make, use, sell and offer for sale the Original Work and Derivative Works.  3) Grant of Source Code License. The term "Source Code" means the preferred form of the Original Work for making modifications to it and all available documentation describing how to modify the Original Work. Licensor hereby agrees to provide a machine-readable copy of the Source Code of the Original Work along with each copy of the Original Work that Licensor distributes. Licensor reserves the right to satisfy this obligation by placing a machine-readable copy of the Source Code in an information repository reasonably calculated to permit inexpensive and convenient access by You for as long as Licensor continues to distribute the Original Work, and by publishing the address of that information repository in a notice immediately following the copyright notice that applies to the Original Work.  4) Exclusions From License Grant. Neither the names of Licensor, nor the names of any contributors to the Original Work, nor any of their trademarks or service marks, may be used to endorse or promote products derived from this Original Work without express prior written permission of the Licensor. Nothing in this License shall be deemed to grant any rights to trademarks, copyrights, patents, trade secrets or any other intellectual property of Licensor except as expressly stated herein. No patent license is granted to make, use, sell or offer to sell embodiments of any patent claims other than the licensed claims defined in Section 2. No right is granted to the trademarks of Licensor even if such marks are included in the Original Work. Nothing in this License shall be interpreted to prohibit Licensor from licensing under different terms from this License any Original Work that Licensor otherwise would have a right to license.  5) This section intentionally omitted.  6) Attribution Rights. You must retain, in the Source Code of any Derivative Works that You create, all copyright, patent or trademark notices from the Source Code of the Original Work, as well as any notices of licensing and any descriptive text identified therein as an "Attribution Notice." You must cause the Source Code for any Derivative Works that You create to carry a prominent Attribution Notice reasonably calculated to inform recipients that You have modified the Original Work.  7) Warranty of Provenance and Disclaimer of Warranty. Licensor warrants that the copyright in and to the Original Work and the patent</p>

			<p>rights granted herein by Licensor are owned by the Licensor or are sublicensed to You under the terms of this License with the permission of the contributor(s) of those copyrights and patent rights. Except as expressly stated in the immediately preceding sentence, the Original Work is provided under this License on an "AS IS" BASIS and WITHOUT WARRANTY, either express or implied, including, without limitation, the warranties of NON-INFRINGEMENT, MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY OF THE ORIGINAL WORK IS WITH YOU. This DISCLAIMER OF WARRANTY constitutes an essential part of this License. No license to Original Work is granted hereunder except under this disclaimer.</p> <p>8) Limitation of Liability. Under no circumstances and under no legal theory, whether in tort (including negligence), contract, or otherwise, shall the Licensor be liable to any person for any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or the use of the Original Work including, without limitation, damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses. This limitation of liability shall not apply to liability for death or personal injury resulting from Licensor's negligence to the extent applicable law prohibits such limitation. Some jurisdictions do not allow the exclusion or limitation of incidental or consequential damages, so this exclusion and limitation may not apply to You.</p> <p>9) Acceptance and Termination. If You distribute copies of the Original Work or a Derivative Work, You must make a reasonable effort under the circumstances to obtain the express assent of recipients to the terms of this License. Nothing else but this License (or another written agreement between Licensor and You) grants You permission to create Derivative Works based upon the Original Work or to exercise any of the rights granted in Section 1 herein, and any attempt to do so except under the terms of this License (or another written agreement between Licensor and You) is expressly prohibited by U.S. copyright law, the equivalent laws of other countries, and by international treaty. Therefore, by exercising any of the rights granted to You in Section 1 herein, You indicate Your acceptance of this License and all of its terms and conditions.</p> <p>10) Termination for Patent Action. This License shall terminate automatically and You may no longer exercise any of the rights granted to You by this License as of the date You commence an action, including a cross-claim or counterclaim, against Licensor or any licensee alleging that the Original Work infringes a patent. This termination provision shall not apply for an action alleging patent infringement by combinations of the Original Work with other software or hardware.</p> <p>11) Jurisdiction, Venue and Governing Law. Any action or suit relating to this License may be brought only in the courts of a jurisdiction wherein the Licensor resides or in which Licensor conducts its primary business, and under the laws of that jurisdiction excluding its conflict-of-law provisions. The application of the United Nations Convention on Contracts for the International Sale of Goods is expressly excluded. Any use of the Original Work outside the scope of this License or after its termination shall be subject to the requirements and penalties of the U.S. Copyright Act, 17 U.S.C. Â§ 101 et seq., the equivalent laws of other countries, and international treaty. This section shall survive the termination of this License.</p> <p>12) Attorneys Fees. In any action to enforce the terms of this License or seeking damages relating thereto, the prevailing party shall be entitled to recover its costs and expenses, including, without limitation, reasonable attorneys' fees and costs incurred in connection with such action, including any appeal of such action. This section shall survive the termination of this License.</p> <p>13) Miscellaneous. This License represents the complete agreement concerning the subject matter hereof. If any provision of this License is held to be unenforceable, such provision shall be reformed only to the extent necessary to make it enforceable.</p> <p>14) Definition of "You" in This License. "You" throughout this License, whether in upper or lower case, means an individual or a legal entity exercising rights under, and complying with all of the terms of, this License. For legal entities, "You" includes any entity that controls, is controlled by, or is under common control with you. For purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.</p> <p>15) Right to Use. You may use the Original Work in all ways not otherwise restricted or conditioned by this License or by law, and Licensor promises not to interfere with or be responsible for such uses by You. This license is Copyright (C) 2003-2004 Lawrence E. Rosen. All rights reserved. Permission is hereby granted to copy and distribute this license without modification. This license may not be modified without the express written permission of its copyright owner.</p> <p>--</p>

			<p>END OF ACADEMIC FREE LICENSE. The following is intended to describe the essential differences between the Academic Free License (AFL) version 1.0 and other open source licenses:  The Academic Free License is similar to the BSD, MIT, Uol/NCSA and Apache licenses in many respects but it is intended to solve a few problems with those licenses.</p> <ul style="list-style-type: none"> <li>* The AFL is written so as to make it clear what software is being licensed (by the inclusion of a statement following the copyright notice in the software). This way, the license functions better than a template license. The BSD, MIT and Uol/NCSA licenses apply to unidentified software.</li> <li>* The AFL contains a complete copyright grant to the software. The BSD and Apache licenses are vague and incomplete in that respect.</li> <li>* The AFL contains a complete patent grant to the software. The BSD, MIT, Uol/NCSA and Apache licenses rely on an implied patent license and contain no explicit patent grant.</li> <li>* The AFL makes it clear that no trademark rights are granted to the licensor's trademarks. The Apache license contains such a provision, but the BSD, MIT and Uol/NCSA licenses do not.</li> <li>* The AFL includes the warranty by the licensor that it either owns the copyright or that it is distributing the software under a license. None of the other licenses contain that warranty. All other warranties are disclaimed, as is the case for the other licenses.</li> <li>* The AFL is itself copyrighted (with the right granted to copy and distribute without modification). This ensures that the owner of the copyright to the license will control changes. The Apache license contains a copyright notice, but the BSD, MIT and Uol/NCSA licenses do not.</li> </ul>

Copyright 1996-2000 by  David Turner, Robert Wilhelm, and Werner Lemberg .  . .</p> <p>Introduction =====</p> <p>. The FreeType Project is distributed in several archive packages; some of them may contain, in addition to the FreeType font engine, various tools and contributions which rely on, or relate to, the FreeType Project. .</p> <p>This license applies to all files found in such packages, and which do not fall under their own explicit license. The license affects thus the FreeType font engine, the test programs, documentation and makefiles, at the very least.</p> <p>. This license was inspired by the BSD, Artistic, and IJG (Independent JPEG Group) licenses, which all encourage inclusion and use of free software in commercial and freeware products alike. As a consequence, its main points are that: .</p> <p>o We don't promise that this software works. However, we will be interested in any kind of bug reports. ('as is' distribution)</p> <p>o You can use this software for whatever you want, in parts or full form, without having to pay us. ('royalty-free' usage) .</p> <p>o You may not pretend that you wrote this software. If you use it, or only parts of it, in a program, you must acknowledge somewhere in your documentation that you have used the FreeType code. ('credits')</p> <p>. We specifically permit and encourage the inclusion of this software, with or without modifications, in commercial products. We disclaim all warranties covering The FreeType Project and assume no liability related to The FreeType Project. .</p> <p>. Legal Terms  =====</p> <p>0. Definitions -----</p> <p>. Throughout this license, the terms 'package', 'FreeType Project', and 'FreeType archive' refer to the set of files originally distributed by the authors (David Turner, Robert Wilhelm, and Werner Lemberg) as the 'FreeType Project', be they named as alpha, beta or final release.</p> <p>. 'You' refers to the licensee, or person using the project, where 'using' is a generic term including compiling the project's source code as well as linking it to form a 'program' or 'executable'.</p> <p>This program is referred to as 'a program using the FreeType engine'.</p> <p>. This license applies to all files distributed in the original FreeType Project, including all source code, binaries and documentation, unless otherwise stated in the file in its original, unmodified form as distributed in the original archive. If you are unsure whether or not a particular file is covered by this license, you must contact us to verify this. .</p> <p>The FreeType Project is copyright (C) 1996-2000 by David Turner, Robert Wilhelm, and Werner Lemberg. <a href="http://gcc.gnu.org/">http://gcc.gnu.org/</a>	libgcc1	GCC support library	<p>This is the Debian GNU/Linux prepackaged version of the GNU compiler collection, containing Ada, C, C++, Fortran 95, Java, Objective-C, Objective-C++, and Treelang compilers, documentation, and support libraries. In addition, Debian provides the gdc compiler, either in the same source package, or built from a separate same source package. Packaging is done by the Debian GCC Maintainers&lt; debian-gcc@lists.debian.org&gt;, with sources obtained from:  ftp://gcc.gnu.org/pub/gcc/releases/ (for full releases)  svn://gcc.gnu.org/svn/gcc/ (for prereleases) http://bitbucket.org/goshawk/gdc (for D)  The current gcc-4.7 source package is taken from the SVN gcc-4_7-branch.  Changes: See changelog.Debian.gz  Debian splits the GNU Compiler Collection into packages for each language, library, and documentation as follows:  Language Compiler package Library package Documentation -----  -----  Ada gnat-4.7 libgnat-4.7 gnat-4.7-doc C gcc-4.7 gcc-4.7-doc  C++ g++-4.7 libstdc++6 libstdc++6-4.7-doc D gdc-4.7  Fortran 95 gfortran-4.7 libgfortran3 gfortran-4.7-doc Go gccgo-4.7 libgo0  Java gcj-4.7 libgcj10 libgcj-doc Objective C gobjc-4.7 libobjc2  Objective C++ gobjc++-4.7  For some language run-time libraries, Debian provides source files, development files, debugging symbols and libraries containing position-independent code in separate packages:  Language Sources Development Debugging Position-Independent -----  -----  C++ libstdc++6-4.7-dbg libstdc++6-4.7-pic D libphobos-4.7-dev  Java libgcj10-src libgcj10-dev libgcj10-dbg  Additional packages include:  All languages: libgcc1, libgcc2, libgcc4 GCC intrinsics (platform-dependent)  gcc-4.7-base Base files common to all compilers gcc-4.7-soft-float Software floating point (ARM only)  gcc-4.7-source The sources with patches  Ada: libgnatvsn-dev, libgnatvsn4.7 GNAT version library  libgnatprj-dev, libgnatprj4.7 GNAT Project Manager library  C: cpp-4.7, cpp-4.7-doc GNU C Preprocessor  libmudflap0-dev, libmudflap0 Library for instrumenting pointers libssp0-dev, libssp0 GCC stack smashing protection library  libquadmath0 Math routines for the __float128 type fixincludes Fix non-ANSI header files  protoize Create/remove ANSI prototypes from C code  Java: gij The Java bytecode interpreter and VM  libgcj-common Common files for the Java run-time libgcj10-awt The Abstract Windowing Toolkit  libgcj10-jar Java ARchive for the Java run-time  C, C++ and Fortran 95: libgomp1-dev, libgomp1 GCC OpenMP (GOMP) support library  libitm1-dev, libitm1 GNU Transactional Memory Library  Biarch support: On some 64-bit platforms which can also run 32-bit code, Debian provides additional packages containing 32-bit versions of some libraries. These packages have names beginning with 'lib32' instead of 'lib', for example lib32stdc++6. Similarly, on some 32-bit platforms which can also run 64-bit code, Debian provides additional packages with names beginning with 'lib64' instead of 'lib'. These packages contain 64-bit versions of the libraries. (At this time, not all platforms and not all libraries support biarch.) The license terms for these lib32 or lib64 packages are identical to the ones for the lib packages. It applies to a given file (the "Runtime Library") that bears a notice placed by the copyright holder of the file stating that the file is governed by GPLv3 along with this Exception.</p> <p>When you use GCC to compile a program, GCC may combine portions of certain GCC header files and runtime libraries with the compiled program. The purpose of this Exception is to allow compilation of non-GPL (including proprietary) programs to use, in this way, the header files and runtime libraries covered by this Exception.</p> <p>0. Definitions.</p> <p>A file is an "Independent Module" if it either requires the Runtime Library for execution after a Compilation Process, or makes use of an</p>

			<p>interface provided by the Runtime Library, but is not otherwise based on the Runtime Library. "GCC" means a version of the GNU Compiler Collection, with or without modifications, governed by version 3 (or a specified later version) of the GNU General Public License (GPL) with the option of using any subsequent versions published by the FSF.</p> <p>"GPL-compatible Software" is software whose conditions of propagation, modification and use would permit combination with GCC in accord with the license of GCC.</p> <p>"Target Code" refers to output from any compiler for a real or virtual target processor architecture, in executable form or suitable for input to an assembler, loader, linker and/or execution phase. Notwithstanding that, Target Code does not include data in any format that is used as a compiler intermediate representation, or used for producing a compiler intermediate representation.</p> <p>The "Compilation Process" transforms code entirely represented in non-intermediate languages designed for human-written code, and/or in Java Virtual Machine byte code, into Target Code. Thus, for example, use of source code generators and preprocessors need not be considered part of the Compilation Process, since the Compilation Process can be understood as starting with the output of the generators or preprocessors.</p> <p>A Compilation Process is "Eligible" if it is done using GCC, alone or with other GPL-compatible software, or if it is done without using any work based on GCC. For example, using non-GPL-compatible Software to optimize any GCC intermediate representations would not qualify as an Eligible Compilation Process.</p> <p>1. Grant of Additional Permission. You have permission to propagate a work of Target Code formed by combining the Runtime Library with Independent Modules, even if such propagation would otherwise violate the terms of GPLv3, provided that all Target Code was generated by Eligible Compilation Processes. You may then convey such a combination under terms of your choice, consistent with the licensing of the Independent Modules.</p> <p>2. No Weakening of GCC Copyleft. The availability of this Exception does not imply any general presumption that third-party software is unaffected by the copyleft requirements of the license of GCC.</p> <p>libquadmath/. Excerpt from upstream's README:  The library is distributed under the terms of the GNU Lesser General Public License (LGPL); see the file COPYING.LIB for the actual terms. The helper programs (gcrpyrnd and getrandom) as well as the documentation are distributed under the terms of the GNU General Public License (GPL); see the file COPYING for the actual terms.  This library used to be available under the GPL - this was changed with version 1.1.7 with the rationale that there are now many free crypto libraries available and many of them come with capabilities similar to Libgcrpy. We decided that to foster the use of cryptography in Free Software an LGPLed library would make more sense because it avoids problems due to license incompatibilities between some Free Software licenses and the GPL.  Please note that in many cases it is better for a library to be licensed under the GPL, so that it provides an advantage for free software projects. The Lesser GPL is so named because it does less to protect the freedom of the users of the code that it covers. See <a href="http://www.gnu.org/philosophy/why-not-lgpl.html">http://www.gnu.org/philosophy/why-not-lgpl.html</a> for more explanation. <a href="http://gcc.gnu.org/">http://gcc.gnu.org/</a>	libgfortran3	Runtime library for GNU Fortran applications	<p>This is the Debian GNU/Linux prepackaged version of the GNU compiler collection, containing Ada, C, C++, Fortran 95, Java, Objective-C, Objective-C++, and Treelang compilers, documentation, and support libraries. In addition, Debian provides the gdc compiler, either in the same source package, or built from a separate same source package. Packaging is done by the Debian GCC Maintainers&lt; <a href="mailto:debian-gcc@lists.debian.org">debian-gcc@lists.debian.org</a>&gt;, with sources obtained from: <a href="ftp://gcc.gnu.org/pub/gcc/releases/">ftp://gcc.gnu.org/pub/gcc/releases/</a> (for full releases) <a href="svn://gcc.gnu.org/svn/gcc/">svn://gcc.gnu.org/svn/gcc/</a> (for prereleases) <a href="http://bitbucket.org/goshawk/gdc">http://bitbucket.org/goshawk/gdc</a> (for D) The current gcc-4.7 source package is taken from the SVN gcc-4_7-branch. Changes: See <a href="http://changelog.debian.org">changelog.Debian.gz</a> Debian splits the GNU Compiler Collection into packages for each language, library, and documentation as follows: Language Compiler package Library package Documentation ----- ----- Ada gnat-4.7 libgnat-4.7 gnat-4.7-doc C gcc-4.7 gcc-4.7-doc C++ g++-4.7 libstdc++6 libstdc++6-4.7-doc D gdc-4.7 Fortran 95 gfortran-4.7 libgfortran3 gfortran-4.7-doc Go gccgo-4.7 libgo0 Java gcj-4.7 libgcj10 libgcj-doc Objective C gobjc-4.7 libobjc2 Objective C++ gobjc++-4.7 For some language run-time libraries, Debian provides source files, development files, debugging symbols and libraries containing position-independent code in separate packages: Language Sources Development Debugging Position-Independent ----- ----- C++ libstdc++6-4.7-dbg libstdc++6-4.7-pic D libphobos-4.7-dev Java libgcj10-src libgcj10-dev libgcj10-dbg Additional packages include: All languages: libgcc1, libgcc2, libgcc4 GCC intrinsics (platform-dependent) gcc-4.7-base Base files common to all compilers gcc-4.7-soft-float Software floating point (ARM only)</p>

Similarly, on some 32-bit platforms which can also run 64-bit code, Debian provides additional packages with names beginning with 'lib64' instead of 'lib'. These packages contain 64-bit versions of the libraries. (At this time, not all platforms and not all libraries support biarch.) In contrast, libgnatprj is licensed under the terms of the pure GNU General Public License.  The libgcj library is licensed under the terms of the GNU General Public License, with a special exception:  Linking this library statically or dynamically with other modules is making a combined work based on this library. Thus, the terms and conditions of the GNU General Public License cover the whole combination.  As a special exception, the copyright holders of this library give you permission to link this library with independent modules to produce an executable, regardless of the license terms of these independent modules, and to copy and distribute the resulting executable under terms of your choice, provided that you also meet, for each linked independent module, the terms and conditions of the license of that module. An independent module is a module which is not derived from or based on this library. If you modify this library, you may extend this exception to your version of the library, but you are not obligated to do so. If you do not wish to do so, delete this exception statement from your version.  The libffi library is licensed under the following terms:  libffi - Copyright (c) 1996-2003 Red Hat, Inc. On Debian GNU/Linux systems, the complete text of this license is in <code>/usr/share/common-licenses/GFDL-1.2</code>.</p> <p><b>GCC RUNTIME LIBRARY EXCEPTION</b> Version 3.1, 31 March 2009 Copyright (C) 2009 Free Software Foundation, Inc. &lt;<a href="http://fsf.org/">http://fsf.org/</a>&gt; Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.</p> <p>This GCC Runtime Library Exception ("Exception") is an additional permission under section 7 of the GNU General Public License, version 3 ("GPLv3"). It applies to a given file (the "Runtime Library") that bears a notice placed by the copyright holder of the file stating that the file is governed by GPLv3 along with this Exception.</p> <p>When you use GCC to compile a program, GCC may combine portions of certain GCC header files and runtime libraries with the compiled program. The purpose of this Exception is to allow compilation of non-GPL (including proprietary) programs to use, in this way, the header files and runtime libraries covered by this Exception.</p> <p>0. Definitions.</p> <p>A file is an "Independent Module" if it either requires the Runtime Library for execution after a Compilation Process, or makes use of an interface provided by the Runtime Library, but is not otherwise based on the Runtime Library.</p> <p>"GCC" means a version of the GNU Compiler Collection, with or without modifications, governed by version 3 (or a specified later version) of the GNU General Public License (GPL) with the option of using any subsequent versions published by the FSF.</p> <p>"GPL-compatible Software" is software whose conditions of propagation, modification and use would permit combination with GCC in accord with the license of GCC.</p> <p>"Target Code" refers to output from any compiler for a real or virtual target processor architecture, in executable form or suitable for input to an assembler, loader, linker and/or execution phase. Notwithstanding that, Target Code does not include data in any format that is used as a compiler intermediate representation, or used for producing a compiler intermediate representation.</p> <p>The "Compilation Process" transforms code entirely represented in non-intermediate languages designed for human-written code, and/or in Java Virtual Machine byte code, into Target Code. Thus, for example, use of source code generators and preprocessors need not be considered part of the Compilation Process, since the Compilation Process can be understood as starting with the output of the generators or preprocessors.</p> <p>A Compilation Process is "Eligible" if it is done using GCC, alone or with other GPL-compatible software, or if it is done without using any work based on GCC. For example, using non-GPL-compatible Software to optimize any GCC intermediate representations would not qualify as an Eligible Compilation Process.</p> <p>1. Grant of Additional Permission.</p> <p>You have permission to propagate a work of Target Code formed by combining the Runtime Library with Independent Modules, even if such propagation would otherwise violate the terms of GPLv3, provided that all Target Code was generated by Eligible Compilation Processes. You may then convey such a combination under terms of your choice, consistent with the licensing of the Independent Modules.</p> <p>2. No Weakening of GCC Copyleft.</p> <p>The availability of this Exception does not imply any general presumption that third-party software is unaffected by the copyleft requirements of the license of GCC.</p> <p><code>libquadmath/.[hc]</code> Copyright (C) 2010 Free Software Foundation, Inc. The GNU Free Documentation License is available under /usr/share/common-licenses/GFDL-1.3.    Excerpt from upstream's README: LICENSE ISSUES  -----  Since the 0.4.2 version the gnutls library is covered under the GNU Lesser GPL. Previously released versions were licensed under the GNU GPL.  We changed the license for most of GnuTLS because other free libraries already exist that do the same jobs and have lax licenses. We want GnuTLS to be usable in all the same places as those other libraries. We kept some parts of GnuTLS under the GPL because they are unique, and with the GPL they provide free software projects (which deserve our help) an advantage over non-free projects (which do not deserve our help, since they refuse to share with us). For more explanation, see <a href="http://www.gnu.org/philosophy/why-not-gpl.html">http://www.gnu.org/philosophy/why-not-gpl.html</a>.  The GNU Lesser GPL license applies to the main gnutls library, while the gnutls-extra library is under the GPL. The gnutls-extra library contains the code for "GnuTLS Inner Application" support and the OpenSSL compatibility layer. The gnutls library is located in the lib/ directory, while the gnutls-extra library is at libextra/.</p>
<a href="http://gcc.gnu.org/">http://gcc.gnu.org/</a>	libgomp1	GCC OpenMP (GOMP) support library	<p>This is the Debian GNU/Linux prepackaged version of the GNU compiler collection, containing Ada, C, C++, Fortran 95, Java, Objective-C, Objective-C++, and Treelang compilers, documentation, and support libraries. In addition, Debian provides the gdc compiler, either in the same source package, or built from a separate same source package.  Packaging is done by the Debian GCC Maintainers&lt; <a href="mailto:debian-gcc@lists.debian.org">debian-gcc@lists.debian.org</a>&gt;, with sources obtained from:  <a href="ftp://gcc.gnu.org/pub/gcc/releases/">ftp://gcc.gnu.org/pub/gcc/releases/</a> (for full releases)  <a href="svn://gcc.gnu.org/svn/gcc/">svn://gcc.gnu.org/svn/gcc/</a> (for prereleases) <a href="http://bitbucket.org/goshawk/gdc">http://bitbucket.org/goshawk/gdc</a> (for D)  The current gcc-4.7 source package is taken from the SVN gcc-4_7-branch. 			<p>GCC RUNTIME LIBRARY EXCEPTION Version 3.1, 31 March 2009 Copyright (C) 2009 Free Software Foundation, Inc. &lt;<a href="http://fsf.org/">http://fsf.org/</a>&gt; Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.</p> <p>This GCC Runtime Library Exception ("Exception") is an additional permission under section 7 of the GNU General Public License, version 3 ("GPLv3"). It applies to a given file (the "Runtime Library") that bears a notice placed by the copyright holder of the file stating that the file is governed by GPLv3 along with this Exception.</p> <p>When you use GCC to compile a program, GCC may combine portions of certain GCC header files and runtime libraries with the compiled program. The purpose of this Exception is to allow compilation of non-GPL (including proprietary) programs to use, in this way, the header files and runtime libraries covered by this Exception.</p> <p>0. Definitions.</p> <p>A file is an "Independent Module" if it either requires the Runtime Library for execution after a Compilation Process, or makes use of an interface provided by the Runtime Library, but is not otherwise based on the Runtime Library.</p> <p>"GCC" means a version of the GNU Compiler Collection, with or without modifications, governed by version 3 (or a specified later version) of the GNU General Public License (GPL) with the option of using any subsequent versions published by the FSF.</p> <p>"GPL-compatible Software" is software whose conditions of propagation, modification and use would permit combination with GCC in accord with the license of GCC.</p> <p>"Target Code" refers to output from any compiler for a real or virtual target processor architecture, in executable form or suitable for input to an assembler, loader, linker and/or execution phase. Notwithstanding that, Target Code does not include data in any format that is used as a compiler intermediate representation, or used for producing a compiler intermediate representation.</p> <p>The "Compilation Process" transforms code entirely represented in non-intermediate languages designed for human-written code, and/or in Java Virtual Machine byte code, into Target Code. Thus, for example, use of source code generators and preprocessors need not be considered part of the Compilation Process, since the Compilation Process can be understood as starting with the output of the generators or preprocessors.</p> <p>A Compilation Process is "Eligible" if it is done using GCC, alone or with other GPL-compatible software, or if it is done without using any work based on GCC. For example, using non-GPL-compatible Software to optimize any GCC intermediate representations would not qualify as an Eligible Compilation Process.</p> <p>1. Grant of Additional Permission.</p> <p>You have permission to propagate a work of Target Code formed by combining the Runtime Library with Independent Modules, even if such propagation would otherwise violate the terms of GPLv3, provided that all Target Code was generated by Eligible Compilation Processes. You may then convey such a combination under terms of your choice, consistent with the licensing of the Independent Modules.</p> <p>2. No Weakening of GCC Copyleft.</p> <p>The availability of this Exception does not imply any general presumption that third-party software is unaffected by the copyleft requirements of the license of GCC.</p> <p>libquadmath/. Stover, Patrick Alken (see AUTHORS) License: GPL</p> <p>The GNU GSL documentation carries the following notice: The subroutines and source code in the GNU Scientific Library package are "free"; this means that everyone is free to use them and free to redistribute them on a free basis. The GNU Scientific Library-related programs are not in the public domain; they are copyrighted and there are restrictions on their distribution, but these restrictions are designed to permit everything that a good cooperating citizen would want to do. What is not allowed is to try to prevent others from further sharing any version of these programs that they might get from you. Specifically, we want to make sure that you have the right to give away copies of the programs that relate to GNU Scientific Library, that you receive source code or else can get it if you want it, that you can change these programs or use pieces of them in new free programs, and that you know you can do these things. To make sure that everyone has such rights, we have to forbid you to deprive anyone else of these rights. For example, if you distribute copies of the GNU Scientific Library-related code, you t give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must tell them their rights. Also, for our own protection, we must make certain that everyone finds out that there is no warranty for the programs that relate to GNU Scientific Library. If these programs are modified by eone else and passed on, we want their recipients to know that what they have is not what we distributed, so that any problems introduced by others will not reflect on our reputation. The precise conditions of the licenses for the programs currently being distributed that relate to GNU Scientific Library are nd in the General Public Licenses that accompany them. On Debian GNU/Linux systems, the complete text of the GNU General Public License (version 3) can be found in `/usr/share/common-licenses/GPL-3'. GSL versions prior to 1.10 were released under the GPL version 2.</p>

<a href="http://gcc.gnu.org/">http://gcc.gnu.org/</a>	libitm1	GNU Transactional Memory Library	<p>This is the Debian GNU/Linux prepackaged version of the GNU compiler collection, containing Ada, C, C++, Fortran 95, Java, Objective-C, Objective-C++, and Treelang compilers, documentation, and support libraries. In addition, Debian provides the gdc compiler, either in the same source package, or built from a separate same source package.  Packaging is done by the Debian GCC Maintainers&lt; <a href="mailto:debian-gcc@lists.debian.org">debian-gcc@lists.debian.org</a>&gt;, with sources obtained from:  <a href="ftp://gcc.gnu.org/pub/gcc/releases/">ftp://gcc.gnu.org/pub/gcc/releases/</a> (for full releases)</p>

			<p>svn://gcc.gnu.org/svn/gcc/ (for prereleases) <a href="http://bitbucket.org/goshawk/gdc">http://bitbucket.org/goshawk/gdc</a> (for D)  The current gcc-4.7 source package is taken from the SVN gcc-4_7-branch.  Changes: See changelog.Debian.gz  Debian splits the GNU Compiler Collection into packages for each language, library, and documentation as follows:  Language Compiler package Library package Documentation -----  -----  Ada gnat-4.7 libgnat-4.7 gnat-4.7-doc C gcc-4.7 gcc-4.7-doc  C++ g++-4.7 libstdc++6 libstdc++6-4.7-doc D gdc-4.7  Fortran 95 gfortran-4.7 libgfortran3 gfortran-4.7-doc Go gccgo-4.7 libgo0  Java gcj-4.7 libgcj10 libgcj-doc Objective C gobjc-4.7 libobjc2  Objective C++ gobjc++-4.7  For some language run-time libraries, Debian provides source files, development files, debugging symbols and libraries containing position-independent code in separate packages:  Language Sources Development Debugging Position-Independent -----  -----  C++ libstdc++6-4.7-dbg libstdc++6-4.7-pic D libphobos-4.7-dev  Java libgcj10-src libgcj10-dev libgcj10-dbg  Additional packages include:  All languages: libgcc1, libgcc2, libgcc4 GCC intrinsics (platform-dependent)  gcc-4.7-base Base files common to all compilers gcc-4.7-soft-float Software floating point (ARM only)  gcc-4.7-source The sources with patches  Ada: libgnatvsn-dev, libgnatvsn4.7 GNAT version library  libgnatprj-dev, libgnatprj4.7 GNAT Project Manager library  C: cpp-4.7, cpp-4.7-doc GNU C Preprocessor  libmudflap0-dev, libmudflap0 Library for instrumenting pointers libssp0-dev, libssp0 GCC stack smashing protection library  libquadmath0 Math routines for the __float128 type fixincludes Fix non-ANSI header files  protoize Create/remove ANSI prototypes from C code  Java: gij The Java bytecode interpreter and VM  libgcj-common Common files for the Java run-time libgcj10-awt The Abstract Windowing Toolkit  libgcj10-jar Java ARchive for the Java run-time  C, C++ and Fortran 95: libgomp1-dev, libgomp1 GCC OpenMP (GOMP) support library  libitm1-dev, libitm1 GNU Transactional Memory Library  Biararch support: On some 64-bit platforms which can also run 32-bit code, Debian provides additional packages containing 32-bit versions of some libraries. These packages have names beginning with 'lib32' instead of 'lib', for example lib32stdc++6. Similarly, on some 32-bit platforms which can also run 64-bit code, Debian provides additional packages with names beginning with 'lib64' instead of 'lib'. These packages contain 64-bit versions of the libraries. (At this time, not all platforms and not all libraries support biarch.) The license terms for these lib32 or lib64 packages are identical to the ones for the lib packages. An independent module is a module which is not derived from or based on this library. If you modify this library, you may extend this exception to your version of the library, but you are not obligated to do so. If you do not wish to do so, delete this exception statement from your version.</p> <p>The libffi library is licensed under the following terms:  libffi - Copyright (c) 1996-2003 Red Hat, Inc. On Debian GNU/Linux systems, the complete text of this license is in <code>/usr/share/common-licenses/GFDL-1.2</code>.  <b>GCC RUNTIME LIBRARY EXCEPTION</b>  Version 3.1, 31 March 2009  Copyright (C) 2009 Free Software Foundation, Inc. &lt;<a href="http://fsf.org/">http://fsf.org/</a>&gt;  Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.  This GCC Runtime Library Exception ("Exception") is an additional permission under section 7 of the GNU General Public License, version 3 ("GPLv3"). It applies to a given file (the "Runtime Library") that bears a notice placed by the copyright holder of the file stating that the file is governed by GPLv3 along with this Exception.  When you use GCC to compile a program, GCC may combine portions of certain GCC header files and runtime libraries with the compiled program. The purpose of this Exception is to allow compilation of non-GPL (including proprietary) programs to use, in this way, the header files and runtime libraries covered by this Exception.</p> <p>0. Definitions.  A file is an "Independent Module" if it either requires the Runtime Library for execution after a Compilation Process, or makes use of an interface provided by the Runtime Library, but is not otherwise based on the Runtime Library.  "GCC" means a version of the GNU Compiler Collection, with or without modifications, governed by version 3 (or a specified later version) of the GNU General Public License (GPL) with the option of using any subsequent versions published by the FSF.  "GPL-compatible Software" is software whose conditions of propagation, modification and use would permit combination with GCC in accord with the license of GCC.  "Target Code" refers to output from any compiler for a real or virtual target processor architecture, in executable form or suitable for input to an assembler, loader, linker and/or execution phase. Notwithstanding that, Target Code does not include data in any format that is used as a compiler intermediate representation, or used for producing a compiler intermediate representation.  The "Compilation Process" transforms code entirely represented in non-intermediate languages designed for human-written code, and/or in Java Virtual Machine byte code, into Target Code. Thus, for example, use of source code generators and preprocessors need not be considered part of the Compilation Process, since the Compilation Process can be understood as starting with the output of the generators or preprocessors.  A Compilation Process is "Eligible" if it is done using GCC, alone or with other GPL-compatible software, or if it is done without using any work based on GCC. For example, using non-GPL-compatible Software to optimize any GCC intermediate representations would not qualify as an Eligible Compilation Process.</p> <p>1. Grant of Additional Permission.  You have permission to propagate a work of Target Code formed by combining the Runtime Library with Independent Modules, even if such propagation would otherwise violate the terms of GPLv3, provided that all Target Code was generated by Eligible Compilation Processes. You may then convey such a combination under terms of your choice, consistent with the licensing of the Independent Modules.</p> <p>2. No Weakening of GCC Copyleft.</p>

	libjpeg8	Independent JPEG Group's JPEG runtime library	<p>This is Debian's prepackaged version of the 'jpeg library' by the Independent JPEG Group.  This package was created by Mark Mickan &lt;mmickan@debian.org&gt; from sources which can be found at <a href="ftp://ftp.uu.net/graphics/jpeg/jpegsrc.v6b.tar.gz">ftp://ftp.uu.net/graphics/jpeg/jpegsrc.v6b.tar.gz</a>  It is partly based on the libjpeg6a package originally put together by Andy Guy &lt;awpguy@acs.ualgary.ca&gt; and later maintained by Mark Mickan.  Current Debian maintainer is Bill Allombert &lt;ballombe@debian.org&gt;.  LEGAL ISSUES [ from README supplied with source - MM ] =====  In plain English:  1. We don't promise that this software works. (But if you find any bugs, please let us know!) 2. You can use this software for whatever you want. You don't have to pay us.  3. You may not pretend that you wrote this software. If you use it in a program, you must acknowledge somewhere in your documentation that you've used the IJG code.  In legalese:  The authors make NO WARRANTY or representation, either express or implied, with respect to this software, its quality, accuracy, merchantability, or fitness for a particular purpose. This software is provided "AS IS", and you, its user, assume the entire risk as to its quality and accuracy.  This software is copyright (C) 1991-2010, Thomas G. Lane, Guido Vollbeding.  All Rights Reserved except as specified below.  Permission is hereby granted to use, copy, modify, and distribute this software (or portions thereof) for any purpose, without fee, subject to these conditions: (1) If any part of the source code for this software is distributed, then this README file must be included, with this copyright and no-warranty notice unaltered; and any additions, deletions, or changes to the original files must be clearly indicated in accompanying documentation. (2) If only executable code is distributed, then the accompanying documentation must state that "this software is based in part on the work of the Independent JPEG Group".  (3) Permission for use of this software is granted only if the user accepts full responsibility for any undesirable consequences; the authors accept NO LIABILITY for damages of any kind.  These conditions apply to any software derived from or based on the IJG code, not just to the unmodified library. If you use our work, you ought to acknowledge us.  Permission is NOT granted for the use of any IJG author's name or company name in advertising or publicity relating to this software or products derived from it. This software may be referred to only as "the Independent JPEG Group's software".  We specifically permit and encourage the use of this software as the basis of commercial products, provided that all warranty or liability claims are assumed by the product vendor.  ansi2knr.c is included in this distribution by permission of L. Peter Deutsch, sole proprietor of its copyright holder, Aladdin Enterprises of Menlo Park, CA.  ansi2knr.c is NOT covered by the above copyright and conditions, but instead by the usual distribution terms of the Free Software Foundation; principally, that you must include source code if you redistribute it. (See the file ansi2knr.c for full details.)  However, since ansi2knr.c is not needed as part of any program generated from the IJG code, this does not limit you more than the foregoing paragraphs do.  The Unix configuration script "configure" was produced with GNU Autoconf.  It is copyright by the Free Software Foundation but is freely distributable. The same holds for its supporting scripts (config.guess, config.sub, ltmain.sh). Another support script, instal-sh, is copyright by X Consortium but is also freely distributable.  The IJG distribution formerly included code to read and write GIF files.  To avoid entanglement with the Unisys LZW patent, GIF reading support has been removed altogether, and the GIF writer has been simplified to produce "uncompressed GIFs". This technique does not use the LZW algorithm; the resulting GIF files are larger than usual, but are readable by all standard GIF decoders.  We are required to state that "The Graphics Interchange Format(c) is the Copyright property of CompuServe Incorporated. GIF(sm) is a Service Mark property of CompuServe Incorporated."</p>

<a href="http://tukaani.org/xz/">http://tukaani.org/xz/</a>	liblzma5	XZ-format compression library	<p>Format: <a href="http://www.debian.org/doc/packaging-manuals/copyright-format/1.0/">http://www.debian.org/doc/packaging-manuals/copyright-format/1.0/</a>  Upstream-Name: XZ Utils Upstream-Contact:  Lasse Collin &lt;lasse.collin@tukaani.org&gt; <a href="http://tukaani.org/xz/lists.html">http://tukaani.org/xz/lists.html</a>  Source: <a href="http://tukaani.org/xz">http://tukaani.org/xz</a>  <a href="http://git.tukaani.org/xz.git">http://git.tukaani.org/xz.git</a> Comment:  XZ Utils is developed and maintained upstream by Lasse Collin. Major portions are based on code by other authors; see AUTHORS for details.  Most of the source has been put into the public domain, but some files have not (details below).  . This file describes the source package. The binary packages contain some files derived from other works: for example, images in the API documentation come from Doxygen.  License: Different licenses apply to different files in this package. Here is a rough summary of which licenses apply to which parts of this package (but check the individual files to be sure!):  . - liblzma is in the public domain.  . - xz, xzdec, and lzmadec command line tools are in the public domain unless GNU getopt_long had to be compiled and linked in from the lib directory. The getopt_long code is under GNU LGPLv2.1+.  . - The scripts to grep, diff, and view compressed files have been adapted from gzip. These scripts and their documentation are under GNU GPLv2+.  . - All the documentation in the doc directory and most of the XZ Utils specific documentation files in other directories are in the public domain.  . - Translated messages are in the public domain.  . - The build system contains public domain files, and files that are under GNU GPLv2+ or GNU GPLv3+. None of these files end up in the binaries being built.  . - Test files and test code in the tests directory, and debugging utilities in the debug directory are in the public domain.  . - The extra directory may contain public domain files, and files that are under various free software licenses.  You can do whatever you want with the files that have been put into the public domain. If you find public domain legally problematic, take the previous sentence as a license grant. If you still find the lack of copyright legally problematic, you have too many lawyers.  As usual, this software is provided "as is", without any warranty.  If you copy significant amounts of public domain code from XZ Utils into your project, acknowledging this somewhere in your software is</p>

			<p>polite (especially if it is proprietary, non-free software), but naturally it is not legally required. Here is an example of a good notice to put into "about box" or into documentation: .</p> <p>This software includes code from XZ Utils &lt;<a href="http://tukaani.org/xz/">http://tukaani.org/xz/</a>&gt;. .</p> <p>The following license texts are included in the following files: - COPYING.LGPLv2.1: GNU Lesser General Public License version 2.1</p> <p>- COPYING.GPLv2: GNU General Public License version 2 - COPYING.GPLv3: GNU General Public License version 3</p> <p>. Note that the toolchain (compiler, linker etc.) may add some code pieces that are copyrighted. Thus, it is possible that e.g. liblzma binary wouldn't actually be in the public domain in its entirety even though it contains no copyrighted code from the XZ Utils source package.</p> <p>. If you have questions, don't hesitate to ask the author(s) for more information.</p> <p>Files: * Copyright: 2006-2012, Lasse Collin 1999-2008, Igor Pavlov 2006, Ville Koskinen 1998, Steve Reid 2000, Wei Dai 2003, Kevin Springle 2009, Jonathan Nieder 2010, Anders F Björklund License: PD</p> <p>This file has been put in the public domain. Comment: From: Lasse Collin &lt;<a href="mailto:lasse.collin@tukaani.org">lasse.collin@tukaani.org</a>&gt; To: Jonathan Nieder &lt;<a href="mailto:jrnieder@gmail.com">jrnieder@gmail.com</a>&gt; Subject: Re: XZ utils for Debian Date: Sun, 19 Jul 2009 13:28:23 +0300 Message-Id: &lt;200907191328.23816.lasse.collin@tukaani.org&gt;</p> <p>. [...]</p> <p>. &gt; AUTHORS, ChangeLog, COPYING, README, THANKS, TODO, &gt; dos/README, windows/README .</p> <p>COPYING says that most docs are in the public domain. Maybe that's not clear enough, but on the other hand it looks a bit stupid to put copyright information in tiny and relatively small docs like README. .</p> <p>I don't dare to say that _all_ XZ Utils specific docs are in the public domain unless otherwise mentioned in the file. I'm including PDF files generated by groff + ps2pdf, and some day I might include Doxygen- generated HTML docs too. Those don't include any copyright notices, but it seems likely that groff + ps2pdf or at least Doxygen put some copyrighted content into the generated files.</p> <p>Files: INSTALL NEWS PACKAGERS windows/README-Windows.txt windows/INSTALL-Windows.txt Copyright: 2009-2010, Lasse Collin License: probably-PD See the note on AUTHORS, README, and so on above.</p> <p>Files: src/scripts/* lib/* extra/scanzma/scanzma.c Copyright: © 1993, Jean-loup Gailly © 1989-1994, 1996-1999, 2001-2007, Free Software Foundation, Inc. © 2006 Timo Lindfors 2005, Charles Levert 2005, 2009, Lasse Collin 2009, Andrew Dudman Other-Authors: Paul Eggert, Ulrich Drepper License: GPL-2+</p> <p>Files: src/scripts/Makefile.am src/scripts/xzless.1 Copyright: 2009, Andrew Dudman 2009, Lasse Collin License: PD</p> <p>This file has been put in the public domain. The old files were linked with crt*.o, which are copyrighted, and thus the old test files were not in the public domain as a whole. They are freely distributable though, but it is better to be careful and avoid including any copyrighted pieces in the test files. LEGAL ISSUES  =====</p> <p>In plain English: .  1. We don't promise that this software works. (But if you find any bugs, please let us know!)  2. You can use this software for whatever you want. You don't have to pay us. 3. You may not pretend that you wrote this software. If you use it in a program, you must acknowledge somewhere in your documentation that you've used the IJG code.  . In legalese:  . The authors make NO WARRANTY or representation, either express or implied, with respect to this software, its quality, accuracy, merchantability, or fitness for a particular purpose. This software is provided "AS IS", and you, its user, assume the entire risk as to its quality and accuracy. .  This software is copyright (C) 1991-1998, Thomas G. Lane. All Rights Reserved except as specified below.  . Permission is hereby granted to use, copy, modify, and distribute this software (or portions thereof) for any purpose, without fee, subject to these conditions:  (1) If any part of the source code for this software is distributed, then this README file must be included, with this copyright and no-warranty notice unaltered; and any additions, deletions, or changes to the original files must be clearly indicated in accompanying documentation.  (2) If only executable code is distributed, then the accompanying documentation must state that "this software is based in part on the work of the Independent JPEG Group". (3) Permission for use of this software is granted only if the user accepts full responsibility for any undesirable consequences; the authors accept NO LIABILITY for damages of any kind.  . These conditions apply to any software derived from or based on the IJG code, not just to the unmodified library. If you use our work, you ought to acknowledge us.  . Permission is NOT granted for the use of any IJG author's name or company name in advertising or publicity relating to this software or products derived from it. This software may be referred to only as "the Independent JPEG Group's software". .  We specifically permit and encourage the use of this software as the basis of commercial products, provided that all warranty or liability claims are assumed by the product vendor. .  ansi2knr.c is included in this distribution by permission of L. Peter Deutsch, sole proprietor of its copyright holder, Aladdin Enterprises of Menlo Park, CA.  ansi2knr.c is NOT covered by the above copyright and conditions, but instead by the usual distribution terms of the Free Software Foundation; principally, that you must include source code if you redistribute it. (See the file ansi2knr.c for full details.)  However, since ansi2knr.c is not needed as part of any program generated from the IJG code, this does not limit you more than the foregoing paragraphs do.  . The Unix configuration script "configure" was produced with GNU Autoconf.  It is copyright by the Free Software Foundation but is freely distributable. The same holds for its supporting scripts (config.guess, config.sub, ltconfig, ltmain.sh). Another support script, install-sh, is copyright by M.I.T. but is also freely distributable.  . It appears that the arithmetic coding option of the JPEG spec is covered by patents owned by IBM, AT&amp;T, and Mitsubishi. Hence arithmetic coding cannot legally be used without obtaining one or more licenses. For this reason, support for arithmetic coding has been removed from the free JPEG software. (Since arithmetic coding provides only a marginal gain over the unpatented Huffman mode, it is unlikely that very many implementations will support it.) So far as we are aware, there are no patent restrictions on the remaining code. .  The IJG distribution formerly included code to read and write GIF files. To avoid entanglement with the Unisys LZW patent, GIF reading support has been removed altogether, and the GIF writer has been simplified to produce "uncompressed GIFs". This technique does not use the LZW algorithm; the resulting GIF files are larger than usual, but are readable by all standard GIF decoders.  . We are required to state that  "The Graphics Interchange Format(c) is the Copyright property of CompuServe Incorporated. GIF(sm) is a Service Mark property of CompuServe Incorporated." . 			<p>distributed under the License is distributed on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied.  See the License for the specific language governing permissions and limitations under the License.  . The full text of this license is available in this file under the  License: ImageMagick section.  License: ImageMagick Before we get to the text of the license, lets just review what the license says in simple terms: .  It allows you to: .  * freely download and use ImageMagick software, in whole or in part, for personal, company internal, or commercial purposes;  * use ImageMagick software in packages or distributions that you create; * link against a library under a different license;  * link code under a different license against a library under this license; * merge code into a work under a different license;  * extend patent grants to any code using code under this license; * and extend patent protection.  . It forbids you to:  . * redistribute any piece of ImageMagick-originated software without proper attribution; * use any marks owned by ImageMagick Studio LLC in any way that might state or imply that ImageMagick Studio LLC endorses your distribution;  * use any marks owned by ImageMagick Studio LLC in any way that might state or imply that you created the ImageMagick software in question. .  It requires you to: .  * include a copy of the license in any redistribution you may make that includes ImageMagick software;  * provide clear attribution to ImageMagick Studio LLC for any distributions that include ImageMagick software.  . It does not require you to:  . * include the source of the ImageMagick software itself, or of any modifications you may have made to it, in any redistribution you may assemble that includes it;  * submit changes that you make to the software back to the ImageMagick Studio LLC (though such feedback is encouraged).  . A few other clarifications include:  . * ImageMagick is freely available without charge;  * you may include ImageMagick on a DVD as long as you comply with the terms of the license;  * you can give modified code away for free or sell it under the terms of the ImageMagick license or distribute the result under a different license, but you need to acknowledge the use of the ImageMagick software; * the license is compatible with the GPL V3.  * when exporting the ImageMagick software, review its export classification. .  Terms and Conditions for Use, Reproduction, and Distribution .  The legally binding and authoritative terms and conditions for use, reproduction, and distribution of ImageMagick follow:  . Copyright 1999-2012 ImageMagick Studio LLC, a non-profit organization dedicated to making software imaging solutions freely available. .  1. Definitions. .  License shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.  . Licensor shall mean the copyright owner or entity authorized by the copyright owner that is granting the License. .  Legal Entity shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, control means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity. .  You (or Your) shall mean an individual or Legal Entity exercising permissions granted by this License.  . Source form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.  . Object form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.  . Work shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below). .  Derivative Works shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof. .  Contribution shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on</p>

			<p>electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as Not a Contribution. .</p> <p>Contributor shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work. .</p> <p>2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.</p> <p>. 3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed. .</p> <p>4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:</p> <ul style="list-style-type: none"> <li>. * You must give any other recipients of the Work or Derivative Works a copy of this License; and You must cause any modified files to carry prominent notices stating that You changed the files; and</li> <li>* You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and</li> <li>* If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.</li> </ul> <p>. You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License. .</p> <p>5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions. .</p> <p>6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.</p> <p>. 7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an AS IS BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.</p> <p>. 8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct,</p>

			<p>indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.</p> <p>. 9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability. .</p> <p>How to Apply the License to your Work .</p> <p>To apply the ImageMagick License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[ ]" replaced with your own identifying information (don't include the brackets). The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.</p> <p>. LEGAL ISSUES  =====</p> <p>In plain English: .  1. We don't promise that this software works. (But if you find any bugs, please let us know!)  2. You can use this software for whatever you want. You don't have to pay us. 3. You may not pretend that you wrote this software. If you use it in a program, you must acknowledge somewhere in your documentation that you've used the IJG code.  . In legalese:  . The authors make NO WARRANTY or representation, either express or implied, with respect to this software, its quality, accuracy, merchantability, or fitness for a particular purpose. This software is provided "AS IS", and you, its user, assume the entire risk as to its quality and accuracy. .  This software is copyright (C) 1991-1998, Thomas G. Lane. All Rights Reserved except as specified below.  . Permission is hereby granted to use, copy, modify, and distribute this software (or portions thereof) for any purpose, without fee, subject to these conditions:  (1) If any part of the source code for this software is distributed, then this README file must be included, with this copyright and no-warranty notice unaltered; and any additions, deletions, or changes to the original files must be clearly indicated in accompanying documentation.  (2) If only executable code is distributed, then the accompanying documentation must state that "this software is based in part on the work of the Independent JPEG Group". (3) Permission for use of this software is granted only if the user accepts full responsibility for any undesirable consequences; the authors accept NO LIABILITY for damages of any kind.  . These conditions apply to any software derived from or based on the IJG code, not just to the unmodified library. If you use our work, you ought to acknowledge us.  . Permission is NOT granted for the use of any IJG author's name or company name in advertising or publicity relating to this software or products derived from it. This software may be referred to only as "the Independent JPEG Group's software". .  We specifically permit and encourage the use of this software as the basis of commercial products, provided that all warranty or liability claims are assumed by the product vendor. .  ansi2knr.c is included in this distribution by permission of L. Peter Deutsch, sole proprietor of its copyright holder, Aladdin Enterprises of Menlo Park, CA.  ansi2knr.c is NOT covered by the above copyright and conditions, but instead by the usual distribution terms of the Free Software Foundation; principally, that you must include source code if you redistribute it. (See the file ansi2knr.c for full details.)  However, since ansi2knr.c is not needed as part of any program generated from the IJG code, this does not limit you more than the foregoing paragraphs do.  . The Unix configuration script "configure" was produced with GNU Autoconf.  It is copyright by the Free Software Foundation but is freely distributable. The same holds for its supporting scripts (config.guess, config.sub, ltconfig, ltmain.sh). Another support script, install-sh, is copyright by M.I.T. but is also freely distributable.  . It appears that the arithmetic coding option of the JPEG spec is covered by patents owned by IBM, AT&amp;T, and Mitsubishi. Hence arithmetic coding cannot legally be used without obtaining one or more licenses. For this reason, support for arithmetic coding has been removed from the free JPEG software. (Since arithmetic coding provides only a marginal gain over the unpatented Huffman mode, it is unlikely that very many implementations will support it.) So far as we are aware, there are no patent restrictions on the remaining code. .  The IJG distribution formerly included code to read and write GIF files. To avoid entanglement with the Unisys LZW patent, GIF reading support has been removed altogether, and the GIF writer has been simplified to produce "uncompressed GIFs". This technique does not use the LZW algorithm; the resulting GIF files are larger than usual, but are readable by all standard GIF decoders.  . We are required to state that  "The Graphics Interchange Format(c) is the Copyright property of CompuServe Incorporated. GIF(sm) is a Service Mark property of CompuServe Incorporated." . 			<p>CONDITIONS OF ANY KIND, either express or implied.  See the License for the specific language governing permissions and limitations under the License.  . The full text of this license is available in this file under the License: ImageMagick section.  License: ImageMagick Before we get to the text of the license, lets just review what the license says in simple terms: .  It allows you to: .  * freely download and use ImageMagick software, in whole or in part, for personal, company internal, or commercial purposes;  * use ImageMagick software in packages or distributions that you create; * link against a library under a different license;  * link code under a different license against a library under this license; * merge code into a work under a different license;  * extend patent grants to any code using code under this license; * and extend patent protection.  . It forbids you to:  . * redistribute any piece of ImageMagick-originated software without proper attribution; * use any marks owned by ImageMagick Studio LLC in any way that might state or imply that ImageMagick Studio LLC endorses your distribution;  * use any marks owned by ImageMagick Studio LLC in any way that might state or imply that you created the ImageMagick software in question. .  It requires you to: .  * include a copy of the license in any redistribution you may make that includes ImageMagick software;  * provide clear attribution to ImageMagick Studio LLC for any distributions that include ImageMagick software.  . It does not require you to:  . * include the source of the ImageMagick software itself, or of any modifications you may have made to it, in any redistribution you may assemble that includes it;  * submit changes that you make to the software back to the ImageMagick Studio LLC (though such feedback is encouraged).  . A few other clarifications include:  . * ImageMagick is freely available without charge;  * you may include ImageMagick on a DVD as long as you comply with the terms of the license;  * you can give modified code away for free or sell it under the terms of the ImageMagick license or distribute the result under a different license, but you need to acknowledge the use of the ImageMagick software; * the license is compatible with the GPL V3.  * when exporting the ImageMagick software, review its export classification. .  Terms and Conditions for Use, Reproduction, and Distribution .  The legally binding and authoritative terms and conditions for use, reproduction, and distribution of ImageMagick follow:  . Copyright 1999-2012 ImageMagick Studio LLC, a non-profit organization dedicated to making software imaging solutions freely available. .  1. Definitions. .  License shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.  . Licensor shall mean the copyright owner or entity authorized by the copyright owner that is granting the License. .  Legal Entity shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, control means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity. .  You (or Your) shall mean an individual or Legal Entity exercising permissions granted by this License.  . Source form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.  . Object form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.  . Work shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below). .  Derivative Works shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof. .  Contribution shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed</p>

			<p>by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as Not a Contribution. .</p> <p>Contributor shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work. .</p> <p>2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.</p> <p>. 3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed. .</p> <p>4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:</p> <ul style="list-style-type: none"> <li>. * You must give any other recipients of the Work or Derivative Works a copy of this License; and You must cause any modified files to carry prominent notices stating that You changed the files; and</li> <li>* You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and</li> <li>* if the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.</li> </ul> <p>. You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License. .</p> <p>5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions. .</p> <p>6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.</p> <p>. 7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an AS IS BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.</p> <p>. 8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or</p>

			<p>consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.</p> <p>. 9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability. .</p> <p>How to Apply the License to your Work . To apply the ImageMagick License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[]" replaced with your own identifying information (don't include the brackets). The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.</p> <p>. From 1987 to October 1999 (through ImageMagick 4.2.9), ImageMagick was developed and distributed by E. I. du Pont de Nemours and Company. . As of 1999, E. I. du Pont de Nemours gave up all rights and privileges to the ImageMagick software suite and assigned ownership to ImageMagick Studio LLC. . ImageMagick makes use of third-party "delegate" libraries to support certain optional features. These libraries bear their own copyrights and licenses, which may be more or less restrictive than the ImageMagick license. For convenience, when ImageMagick is bundled with (or compiled with) "delegate" libraries, a copy of the licenses for these libraries is provided in a "licenses" directory. LEGAL ISSUES =====</p> <p>In plain English: . 1. We don't promise that this software works. (But if you find any bugs, please let us know!) 2. You can use this software for whatever you want. You don't have to pay us. 3. You may not pretend that you wrote this software. If you use it in a program, you must acknowledge somewhere in your documentation that you've used the IJG code. . In legalese: . The authors make NO WARRANTY or representation, either express or implied, with respect to this software, its quality, accuracy, merchantability, or fitness for a particular purpose. This software is provided "AS IS", and you, its user, assume the entire risk as to its quality and accuracy. . This software is copyright (C) 1991-1998, Thomas G. Lane. All Rights Reserved except as specified below. . Permission is hereby granted to use, copy, modify, and distribute this software (or portions thereof) for any purpose, without fee, subject to these conditions: (1) If any part of the source code for this software is distributed, then this README file must be included, with this copyright and no-warranty notice unaltered; and any additions, deletions, or changes to the original files must be clearly indicated in accompanying documentation. (2) If only executable code is distributed, then the accompanying documentation must state that "this software is based in part on the work of the Independent JPEG Group". (3) Permission for use of this software is granted only if the user accepts full responsibility for any undesirable consequences; the authors accept NO LIABILITY for damages of any kind. . These conditions apply to any software derived from or based on the IJG code, not just to the unmodified library. If you use our work, you ought to acknowledge us. . Permission is NOT granted for the use of any IJG author's name or company name in advertising or publicity relating to this software or products derived from it. This software may be referred to only as "the Independent JPEG Group's software". . We specifically permit and encourage the use of this software as the basis of commercial products, provided that all warranty or liability claims are assumed by the product vendor. . ansi2knr.c is included in this distribution by permission of L. Peter Deutsch, sole proprietor of its copyright holder, Aladdin Enterprises of Menlo Park, CA. ansi2knr.c is NOT covered by the above copyright and conditions, but instead by the usual distribution terms of the Free Software Foundation; principally, that you must include source code if you redistribute it. (See the file ansi2knr.c for full details.) However, since ansi2knr.c is not needed as part of any program generated from the IJG code, this does not limit you more than the foregoing paragraphs do. . The Unix configuration script "configure" was produced with GNU Autoconf. It is copyright by the Free Software Foundation but is freely distributable. The same holds for its supporting scripts (config.guess, config.sub, ltconfig, ltmain.sh). Another support script, install-sh, is copyright by M.I.T. but is also freely distributable. . It appears that the arithmetic coding option of the JPEG spec is covered by patents owned by IBM, AT&amp;T, and Mitsubishi. Hence arithmetic coding cannot legally be used without obtaining one or more licenses. For this reason, support for arithmetic coding has been removed from the free JPEG software. (Since arithmetic coding provides only a marginal gain over the unpatented Huffman mode, it is unlikely that very many implementations will support it.) So far as we are aware, there are no patent restrictions on the remaining code. . The IJG distribution formerly included code to read and write GIF files. To avoid entanglement with the Unisys LZW patent, GIF reading support has been removed altogether, and the GIF writer has been simplified to produce "uncompressed GIFs". This technique does not use the LZW algorithm; the resulting GIF files are larger than usual, but are readable by all standard GIF decoders. . We are required to state that "The Graphics Interchange Format(c) is the Copyright property of CompuServe Incorporated. GIF(sm) is a Service Mark property of CompuServe Incorporated." . The full text of this license is available in this file under the  License: ImageMagick section.  License: ImageMagick Before we get to the text of the license, lets just review what the license  says in simple terms: .  It allows you to: .  * freely download and use ImageMagick software, in whole or in part, for personal, company internal,  or commercial purposes;  * use ImageMagick software in packages or distributions that you create; * link against a library  under a different license;  * link code under a different license against a library under this license; * merge code into a work  under a different license;  * extend patent grants to any code using code under this license; * and extend patent protection.  . It forbids you to:  . * redistribute any piece of ImageMagick-originated software without  proper attribution; * use any marks owned by ImageMagick Studio LLC in any way that  might state or imply that ImageMagick Studio LLC endorses your distribution;  * use any marks owned by ImageMagick Studio LLC in any way that might state or imply that you  created the ImageMagick software  in question. .  It requires you to: .  * include a copy of the license in any redistribution you may make that includes ImageMagick  software;  * provide clear attribution to ImageMagick Studio LLC for any distributions that include ImageMagick  software.  . It does not require you to:  . * include the source of the ImageMagick software itself, or of any  modifications you may have made to it, in any redistribution you may assemble that includes it;  * submit changes that you make to the software back to the ImageMagick Studio LLC (though such  feedback is encouraged).  . A few other clarifications include:  . * ImageMagick is freely available without charge;  * you may include ImageMagick on a DVD as long as you comply with the terms of the license;  * you can give modified code away for free or sell it under the terms of the ImageMagick license or  distribute the result under a different  license, but you need to acknowledge the use of the ImageMagick software; * the license is  compatible with the GPL V3.  * when exporting the ImageMagick software, review its export classification. .  Terms and Conditions for Use, Reproduction, and Distribution .  The legally binding and authoritative terms and conditions for use, reproduction, and distribution of  ImageMagick follow:  . Copyright 1999-2012 ImageMagick Studio LLC, a non-profit organization  dedicated to making software imaging solutions freely available. .  1. Definitions. .  License shall mean the terms and conditions for use, reproduction, and distribution as defined by  Sections 1 through 9 of this document.  . Licensor shall mean the copyright owner or entity authorized by the  copyright owner that is granting the License. .  Legal Entity shall mean the union of the acting entity and all other entities that control, are controlled  by, or are under common control  with that entity. For the purposes of this definition, control means (i) the power, direct or indirect,  to cause the direction or management of such  entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the  outstanding shares, or (iii) beneficial ownership of  such entity. .  You (or Your) shall mean an individual or Legal Entity exercising permissions granted by this  License.  . Source form shall mean the preferred form for making modifications, including  but not limited to software source code, documentation source, and configuration files.  . Object form shall mean any form resulting from mechanical transformation or  translation of a Source form, including but not limited to compiled object code, generated  documentation, and conversions to other media types.  . Work shall mean the work of authorship, whether in Source or Object form,  made available under the License, as indicated by a copyright notice that is included in or attached  to the work (an example is provided in the Appendix  below). .  Derivative Works shall mean any work, whether in Source or Object form, that is based on (or  derived from) the Work and for which the  editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original  work of  authorship. For the purposes of this License, Derivative Works shall not include works that remain  separable from, or merely link (or bind  by name) to the interfaces of, the Work and Derivative Works thereof. .  Contribution shall mean any work of authorship, including the original version of the Work and any  modifications or additions to that Work or  Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the  copyright owner or by an individual  or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this  definition, "submitted" means any form  of electronic, verbal, or written communication sent to the Licensor or its representatives, including  but not limited to communication on  electronic mailing lists, source code control systems, and issue tracking systems that are managed  by, or on behalf of, the Licensor</p>

			<p>for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as Not a Contribution. .</p> <p>Contributor shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work. .</p> <p>2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.</p> <p>. 3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed. .</p> <p>4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:</p> <p>. * You must give any other recipients of the Work or Derivative Works a copy of this License; and You must cause any modified files to carry prominent notices stating that You changed the files; and</p> <p>* You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and</p> <p>* If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.</p> <p>. You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License. .</p> <p>5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions. .</p> <p>6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.</p> <p>. 7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an AS IS BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.</p> <p>. 8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or</p>

			<p>inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.</p> <p>. 9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.</p> <p>How to Apply the License to your Work .</p> <p>To apply the ImageMagick License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[ ]" replaced with your own identifying information (don't include the brackets). The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.</p> <p>. The complete text of the GNU FDL 1.1, taken from Appendix A to parted.info, follows.</p> <p>A.1 GNU Free Documentation License ===== Version 1.1, March 2000 Copyright (C) 2000 Free Software Foundation, Inc. 51 Franklin St, Fifth Floor, Boston, MA 02110-1301, USA Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.</p> <p>0. PREAMBLE The purpose of this License is to make a manual, textbook, or other written document "free" in the sense of freedom: to assure everyone the effective freedom to copy and redistribute it, with or without modifying it, either commercially or noncommercially. Secondly, this License preserves for the author and publisher a way to get credit for their work, while not being considered responsible for modifications made by others. This License is a kind of "copyleft", which means that derivative works of the document must themselves be free in the same sense. It complements the GNU General Public License, which is a copyleft license designed for free software. We have designed this License in order to use it for manuals for free software, because free software needs free documentation: a free program should come with manuals providing the same freedoms that the software does. But this License is not limited to software manuals; it can be used for any textual work, regardless of subject matter or whether it is published as a printed book. We recommend this License principally for works whose purpose is instruction or reference.</p> <p>1. APPLICABILITY AND DEFINITIONS This License applies to any manual or other work that contains a notice placed by the copyright holder saying it can be distributed under the terms of this License. The "Document", below, refers to any such manual or work. Any member of the public is a licensee, and is addressed as "you". A "Modified Version" of the Document means any work containing the Document or a portion of it, either copied verbatim, or with modifications and/or translated into another language. A "Secondary Section" is a named appendix or a front-matter section of the Document that deals exclusively with the relationship of the publishers or authors of the Document to the Document's overall subject (or to related matters) and contains nothing that could fall directly within that overall subject. (For example, if the Document is in part a textbook of mathematics, a Secondary Section may not</p>

Vendor	Product(s) and Version(s)	Functionality	Licensing Description/Disclaimer
			<p>explain any mathematics.)  The relationship could be a matter of historical connection with the subject or with related matters, or of legal, commercial, philosophical, ethical or political position regarding them.  The "Invariant Sections" are certain Secondary Sections whose titles are designated, as being those of Invariant Sections, in the notice that says that the Document is released under this License.  The "Cover Texts" are certain short passages of text that are listed, as Front-Cover Texts or Back-Cover Texts, in the notice that says that the Document is released under this License.  A "Transparent" copy of the Document means a machine-readable copy, represented in a format whose specification is available to the general public, whose contents can be viewed and edited directly and straightforwardly with generic text editors or (for images composed of pixels) generic paint programs or (for drawings) some widely available drawing editor, and that is suitable for input to text formatters or for automatic translation to a variety of formats suitable for input to text formatters. A copy made in an otherwise Transparent file format whose markup has been designed to thwart or discourage subsequent modification by readers is not Transparent. A copy that is not "Transparent" is called "Opaque".  Examples of suitable formats for Transparent copies include plain ASCII without markup, Texinfo input format, LaTeX input format, SGML or XML using a publicly available DTD, and standard-conforming simple HTML designed for human modification. Opaque formats include PostScript, PDF, proprietary formats that can be read and edited only by proprietary word processors, SGML or XML for which the DTD and/or processing tools are not generally available, and the machine-generated HTML produced by some word processors for output purposes only.  The "Title Page" means, for a printed book, the title page itself, plus such following pages as are needed to hold, legibly, the material this License requires to appear in the title page. For works in formats which do not have any title page as such, "Title Page" means the text near the most prominent appearance of the work's title, preceding the beginning of the body of the text.</p> <p><b>2. VERBATIM COPYING</b>  You may copy and distribute the Document in any medium, either commercially or noncommercially, provided that this License, the copyright notices, and the license notice saying this License applies to the Document are reproduced in all copies, and that you add no other conditions whatsoever to those of this License. You may not use technical measures to obstruct or control the reading or further copying of the copies you make or distribute. However, you may accept compensation in exchange for copies. If you distribute a large enough number of copies you must also follow the conditions in section 3. You may also lend copies, under the same conditions stated above, and you may publicly display copies.</p> <p><b>3. COPYING IN QUANTITY</b>  If you publish printed copies of the Document numbering more than 100, and the Document's license notice requires Cover Texts, you must enclose the copies in covers that carry, clearly and legibly, all these Cover Texts: Front-Cover Texts on the front cover, and Back-Cover Texts on the back cover. Both covers must also clearly and legibly identify you as the publisher of these copies. The front cover must present the full title with all words of the title equally prominent and visible. You may add other material on the covers in addition. Copying with changes limited to the covers, as long as they preserve the title of the Document and satisfy these conditions, can be treated as verbatim copying in other respects. If the required texts for either cover are too voluminous to fit legibly, you should put the first ones listed (as many as fit reasonably) on the actual cover, and continue the rest onto adjacent pages.  If you publish or distribute Opaque copies of the Document numbering more than 100, you must either include a machine-readable Transparent copy along with each Opaque copy, or state in or with each Opaque copy a publicly-accessible computer-network location containing a complete Transparent copy of the Document, free of added material, which the general network-using public has access to download anonymously at no charge using public-standard network protocols. If you use the latter option, you must take reasonably prudent steps, when you begin distribution of Opaque copies in quantity, to ensure that this Transparent copy will remain thus accessible at the stated location until at least one year after the last time you distribute an Opaque copy (directly or through your agents or retailers) of that edition to the public. It is requested, but not required, that you contact the authors of the Document well before redistributing any large number of copies, to give them a chance to provide you with an updated version of the Document.</p> <p><b>4. MODIFICATIONS</b>  You may copy and distribute a Modified Version of the Document under the conditions of sections 2</p>

Vendor	Product(s) and Version(s)	Functionality	Licensing Description/Disclaimer
			<p>and 3 above, provided that you release the Modified Version under precisely this License, with the Modified Version filling the role of the Document, thus licensing distribution and modification of the Modified Version to whoever possesses a copy of it. In addition, you must do these things in the Modified Version:</p> <p>A. Use in the Title Page (and on the covers, if any) a title distinct from that of the Document, and from those of previous versions (which should, if there were any, be listed in the History section of the Document). You may use the same title as a previous version if the original publisher of that version gives permission.</p> <p>B. List on the Title Page, as authors, one or more persons or entities responsible for authorship of the modifications in the Modified Version, together with at least five of the principal authors of the Document (all of its principal authors, if it has less than five).</p> <p>C. State on the Title page the name of the publisher of the Modified Version, as the publisher.</p> <p>D. Preserve all the copyright notices of the Document.</p> <p>E. Add an appropriate copyright notice for your modifications adjacent to the other copyright notices.</p> <p>F. Include, immediately after the copyright notices, a license notice giving the public permission to use the Modified Version under the terms of this License, in the form shown in the Addendum below.</p> <p>G. Preserve in that license notice the full lists of Invariant Sections and required Cover Texts given in the Document's license notice.</p> <p>H. Include an unaltered copy of this License.</p> <p>I. Preserve the section entitled "History", and its title, and add to it an item stating at least the title, year, new authors, and publisher of the Modified Version as given on the Title Page. If there is no section entitled "History" in the Document, create one stating the title, year, authors, and publisher of the Document as given on its Title Page, then add an item describing the Modified Version as stated in the previous sentence.</p> <p>J. Preserve the network location, if any, given in the Document for public access to a Transparent copy of the Document, and likewise the network locations given in the Document for previous versions it was based on. These may be placed in the "History" section. You may omit a network location for a work that was published at least four years before the Document itself, or if the original publisher of the version it refers to gives permission.</p> <p>K. In any section entitled "Acknowledgments" or "Dedications", preserve the section's title, and preserve in the section all the substance and tone of each of the contributor acknowledgments and/or dedications given therein.</p> <p>L. Preserve all the Invariant Sections of the Document, unaltered in their text and in their titles. Section numbers or the equivalent are not considered part of the section titles.</p> <p>M. Delete any section entitled "Endorsements". Such a section may not be included in the Modified Version.</p> <p>N. Do not retitle any existing section as "Endorsements" or to conflict in title with any Invariant Section.</p> <p>If the Modified Version includes new front-matter sections or appendices that qualify as Secondary Sections and contain no material copied from the Document, you may at your option designate some or all of these sections as invariant. To do this, add their titles to the list of Invariant Sections in the Modified Version's license notice. These titles must be distinct from any other section titles.</p> <p>You may add a section entitled "Endorsements", provided it contains nothing but endorsements of your Modified Version by various parties--for example, statements of peer review or that the text has been approved by an organization as the authoritative definition of a standard.</p> <p>You may add a passage of up to five words as a Front-Cover Text, and a passage of up to 25 words as a Back-Cover Text, to the end of the list of Cover Texts in the Modified Version. Only one passage of Front-Cover Text and one of Back-Cover Text may be added by (or through arrangements made by) any one entity. If the Document already includes a cover text for the same cover, previously added by you or by arrangement made by the same entity you are acting on behalf of, you may not add another; but you may replace the old one, on explicit permission from the previous publisher that added the old one. The author(s) and publisher(s) of the Document do not by this License give permission to use their names for publicity for or to assert or imply endorsement of any Modified Version.</p> <p><b>5. COMBINING DOCUMENTS</b></p> <p>You may combine the Document with other documents released under this License, under the terms defined in section 4 above for modified versions, provided that you include in the combination all of the Invariant Sections of all of the original documents, unmodified, and list them all as Invariant</p>

Vendor	Product(s) and Version(s)	Functionality	Licensing Description/Disclaimer
			<p>Sections of your combined work in its license notice. The combined work need only contain one copy of this License, and multiple identical Invariant Sections may be replaced with a single copy. If there are multiple Invariant Sections with the same name but different contents, make the title of each such section unique by adding at the end of it, in parentheses, the name of the original author or publisher of that section if known, or else a unique number. Make the same adjustment to the section titles in the list of Invariant Sections in the license notice of the combined work.</p> <p>In the combination, you must combine any sections entitled "History" in the various original documents, forming one section entitled "History"; likewise combine any sections entitled "Acknowledgments", and any sections entitled "Dedications". You must delete all sections entitled "Endorsements."</p> <p><b>6. COLLECTIONS OF DOCUMENTS</b>  You may make a collection consisting of the Document and other documents released under this License, and replace the individual copies of this License in the various documents with a single copy that is included in the collection, provided that you follow the rules of this License for verbatim copying of each of the documents in all other respects. You may extract a single document from such a collection, and distribute it individually under this License, provided you insert a copy of this License into the extracted document, and follow this License in all other respects regarding verbatim copying of that document.</p> <p><b>7. AGGREGATION WITH INDEPENDENT WORKS</b>  A compilation of the Document or its derivatives with other separate and independent documents or works, in or on a volume of a storage or distribution medium, does not as a whole count as a Modified Version of the Document, provided no compilation copyright is claimed for the compilation. Such a compilation is called an "aggregate", and this License does not apply to the other self-contained works thus compiled with the Document, on account of their being thus compiled, if they are not themselves derivative works of the Document. If the Cover Text requirement of section 3 is applicable to these copies of the Document, then if the Document is less than one quarter of the entire aggregate, the Document's Cover Texts may be placed on covers that surround only the Document within the aggregate. Otherwise they must appear on covers around the whole aggregate.</p> <p><b>8. TRANSLATION</b>  Translation is considered a kind of modification, so you may distribute translations of the Document under the terms of section 4. Replacing Invariant Sections with translations requires special permission from their copyright holders, but you may include translations of some or all Invariant Sections in addition to the original versions of these Invariant Sections. You may include a translation of this License provided that you also include the original English version of this License. In case of a disagreement between the translation and the original English version of this License, the original English version will prevail.</p> <p><b>9. TERMINATION</b>  You may not copy, modify, sublicense, or distribute the Document except as expressly provided for under this License. Any other attempt to copy, modify, sublicense or distribute the Document is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.</p> <p><b>10. FUTURE REVISIONS OF THIS LICENSE</b>  The Free Software Foundation may publish new, revised versions of the GNU Free Documentation License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns. See <a href="http://www.gnu.org/copyleft/">http://www.gnu.org/copyleft/</a>. Each version of the License is given a distinguishing version number. If the Document specifies that a particular numbered version of this License "or any later version" applies to it, you have the option of following the terms and conditions either of that specified version or of any later version that has been published (not as a draft) by the Free Software Foundation. If the Document does not specify a version number of this License, you may choose any version ever published (not as a draft) by the Free Software Foundation.</p> <p><b>A.1.1 ADDENDUM: How to use this License for your documents</b></p> <hr/> <p>To use this License in a document you have written, include a copy of the License in the document and put the following copyright and license notices just after the title page. 			<p>with the Back-Cover Texts being LIST.  A copy of the license is included in the section entitled "GNU Free Documentation License".  If you have no Invariant Sections, write "with no Invariant Sections" instead of saying which ones are invariant. If you have no Front-Cover Texts, write "no Front-Cover Texts" instead of "Front-Cover Texts being LIST"; likewise for Back-Cover Texts.  If your document contains nontrivial examples of program code, we recommend releasing these examples in parallel under your choice of free software license, such as the GNU General Public License, to permit their use in free software.</p>

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed. .  Preamble .  This license establishes the terms under which a given free software Package may be copied, modified, distributed, and/or redistributed.  The intent is that the Copyright Holder maintains some artistic control over the development of that Package while still keeping the Package available as open source and free software. .  You are always permitted to make arrangements wholly outside of this license directly with the Copyright Holder of a given Package. If the terms of this license do not permit the full use that you propose to make of the Package, you should contact the Copyright Holder and seek a different licensing arrangement. .  Definitions .  "Copyright Holder" means the individual(s) or organization(s) named in the copyright notice for the entire Package.  . "Contributor" means any party that has contributed code or other material to the Package, in accordance with the Copyright Holder's procedures.  . "You" and "your" means any person who would like to copy, distribute, or modify the Package. .  "Package" means the collection of files distributed by the Copyright Holder, and derivatives of that collection and/or of those files. A given Package may consist of either the Standard Version, or a Modified Version.  . "Distribute" means providing a copy of the Package or making it accessible to anyone else, or in the case of a company or organization, to others outside of your company or organization.  . "Distributor Fee" means any fee that you charge for Distributing this Package or providing support for this Package to another party. It does not mean licensing fees.  . "Standard Version" refers to the Package if it has not been modified, or has been modified only in ways explicitly requested by the Copyright Holder.  . "Modified Version" means the Package, if it has been changed, and such changes were not explicitly requested by the Copyright Holder. .  "Original License" means this Artistic License as Distributed with the Standard Version of the Package, in its current version or as it may be modified by The Perl Foundation in the future. .  "Source" form means the source code, documentation source, and configuration files for the Package.  . "Compiled" form means the compiled bytecode, object code, binary, or any other form resulting from mechanical transformation or translation of the Source form.  . Permission for Use and Modification Without Distribution  . (1) You are permitted to use the Standard Version and create and use Modified Versions for any purpose without restriction, provided that you do not Distribute the Modified Version.</p>

At your discretion, such verbatim copies may or may not include a Compiled form of the Package. .</p> <p>(3) You may apply any bug fixes, portability changes, and other modifications made available from the Copyright Holder. The resulting Package will still be considered the Standard Version, and as such will be subject to the Original License.</p> <p>. Distribution of Modified Versions of the Package as Source</p> <p>. (4) You may Distribute your Modified Version as Source (either gratis or for a Distributor Fee, and with or without a Compiled form of the Modified Version) provided that you clearly document how it differs from the Standard Version, including, but not limited to, documenting any non-standard features, executables, or modules, and provided that you do at least ONE of the following: .</p> <p>(a) make the Modified Version available to the Copyright Holder of the Standard Version, under the Original License, so that the Copyright Holder may include your modifications in the Standard Version. (b) ensure that installation of your Modified Version does not prevent the user installing or running the Standard Version. In addition, the Modified Version must bear a name that is different from the name of the Standard Version. (c) allow anyone who receives a copy of the Modified Version to make the Source form of the Modified Version available to others under (i) the Original License or (ii) a license that permits the licensee to freely copy, modify and redistribute the Modified Version using the same licensing terms that apply to the copy that the licensee received, and requires that the Source form of the Modified Version, and of any works derived from it, be made freely available in that license fees are prohibited but Distributor Fees are allowed. .</p> <p>Distribution of Compiled Forms of the Standard Version or Modified Versions without the Source</p> <p>. (5) You may Distribute Compiled forms of the Standard Version without the Source, provided that you include complete instructions on how to get the Source of the Standard Version. Such instructions must be valid at the time of your distribution. If these instructions, at any time while you are carrying out such distribution, become invalid, you must provide new instructions on demand or cease further distribution. If you provide valid instructions or cease distribution within thirty days after you become aware that the instructions are invalid, then you do not forfeit any of your rights under this license.</p> <p>. (6) You may Distribute a Modified Version in Compiled form without the Source, provided that you comply with Section 4 with respect to the Source of the Modified Version.</p> <p>. Aggregating or Linking the Package</p> <p>. (7) You may aggregate the Package (either the Standard Version or Modified Version) with other packages and Distribute the resulting aggregation provided that you do not charge a licensing fee for the Package. Distributor Fees are permitted, and licensing fees for other components in the aggregation are permitted. The terms of this license apply to the use and Distribution of the Standard or Modified Versions as included in the aggregation.</p> <p>. (8) You are permitted to link Modified and Standard Versions with other works, to embed the Package in a larger work of your own, or to build stand-alone binary or bytecode versions of applications that include the Package, and Distribute the result without restriction, provided the result does not expose a direct interface to the Package.</p> <p>. Items That are Not Considered Part of a Modified Version</p> <p>. (9) Works (including, but not limited to, modules and scripts) that merely extend or make use of the Package, do not, by themselves, cause the Package to be a Modified Version. In addition, such works are not considered parts of the Package itself, and are not subject to the terms of this license.</p> <p>. General Provisions</p> <p>. (10) Any use, modification, and distribution of the Standard or Modified Versions is governed by this Artistic License. By using, modifying or distributing the Package, you accept this license. Do not use, modify, or distribute the Package, if you do not accept this license.</p> <p>. (11) If your Modified Version has been derived from a Modified Version made by someone other than you, you are nevertheless required to ensure that your Modified Version complies with the requirements of this license. .</p> <p>(12) This license does not grant you the right to use any trademark, service mark, tradename, or logo of the Copyright Holder.</p> <p>. (13) This license includes the non-exclusive, worldwide, free-of-charge patent license to make, have made, use, offer to sell, sell, import and otherwise transfer the Package with respect to any patent claims licensable by the Copyright Holder that are necessarily infringed by the Package. If you institute patent litigation (including a cross-claim or counterclaim) against any party alleging that the Package constitutes direct or contributory patent infringement, then this Artistic License to you shall terminate on the date that such litigation is filed.</p> <p>. 		(version 2.7)	<p>Bruce Perens. Current maintainer is Matthias Klose &lt;doko@debian.org&gt;. It was downloaded from <a href="http://python.org/">http://python.org/</a></p> <p>Copyright: Upstream Author: Guido van Rossum &lt;guido@cwi.nl&gt; and others.</p> <p>License: The following text includes the Python license and licenses and acknowledgements for incorporated software. The licenses can be read in the HTML and texinfo versions of the documentation as well, after installing the pythonx.y-doc package. Licenses for files not licensed under the Python Licenses are found at the end of this file.</p> <p>Python License =====</p> <p>A. HISTORY OF THE SOFTWARE ===== Python was created in the early 1990s by Guido van Rossum at Stichting Mathematisch Centrum (CWI, see <a href="http://www.cwi.nl">http://www.cwi.nl</a>) in the Netherlands as a successor of a language called ABC. Guido remains Python's principal author, although it includes many contributions from others. In 1995, Guido continued his work on Python at the Corporation for National Research Initiatives (CNRI, see <a href="http://www.cnri.reston.va.us">http://www.cnri.reston.va.us</a>) in Reston, Virginia where he released several versions of the software. In May 2000, Guido and the Python core development team moved to BeOpen.com to form the BeOpen PythonLabs team. In October of the same year, the PythonLabs team moved to Digital Creations (now Zope Corporation, see <a href="http://www.zope.com">http://www.zope.com</a>). In 2001, the Python Software Foundation (PSF, see <a href="http://www.python.org/psf/">http://www.python.org/psf/</a>) was formed, a non-profit organization created specifically to own Python-related Intellectual Property. Zope Corporation is a sponsoring member of the PSF.</p> <p>All Python releases are Open Source (see <a href="http://www.opensource.org">http://www.opensource.org</a> for the Open Source Definition). Historically, most, but not all, Python releases have also been GPL-compatible; the table below summarizes the various releases.</p> <p>Release Derived Year Owner GPL-compatible? All Python licenses, unlike the GPL, let you distribute a modified version without making your changes open source. The GPL-compatible licenses make it possible to combine Python with other software that is released under the GPL; the others don't. (2) According to Richard Stallman, 1.6.1 is not GPL-compatible, because its license has a choice of law clause. According to CNRI, however, Stallman's lawyer has told CNRI's lawyer that 1.6.1 is "not incompatible" with the GPL.</p> <p>Thanks to the many outside volunteers who have worked under Guido's direction to make these releases possible.</p> <p>B. <a href="http://gcc.gnu.org/">http://gcc.gnu.org/</a>	libquadmath0	GCC Quad-Precision Math Library	<p>This is the Debian GNU/Linux prepackaged version of the GNU compiler collection, containing Ada, C, C++, Fortran 95, Java, Objective-C, Objective-C++, and Treelang compilers, documentation, and support libraries. In addition, Debian provides the gdc compiler, either in the same source package, or built from a separate same source package. Packaging is done by the Debian GCC Maintainers&lt; debian-gcc@lists.debian.org&gt;, with sources obtained from:  ftp://gcc.gnu.org/pub/gcc/releases/ (for full releases)  svn://gcc.gnu.org/svn/gcc/ (for prereleases) http://bitbucket.org/goshawk/gdc (for D)  The current gcc-4.7 source package is taken from the SVN gcc-4.7-branch.  Changes: See changelog.Debian.gz  Debian splits the GNU Compiler Collection into packages for each language, library, and documentation as follows:  Language Compiler package Library package Documentation -----  Ada gnat-4.7 libgnat-4.7 gnat-4.7-doc C gcc-4.7 gcc-4.7-doc  C++ g++-4.7 libstdc++6 libstdc++6-4.7-doc D gdc-4.7  Fortran 95 gfortran-4.7 libgfortran3 gfortran-4.7-doc Go gccgo-4.7 libgo0  Java gcj-4.7 libgcj10 libgcj-doc Objective C gobjc-4.7 libobjc2  Objective C++ gobjc++-4.7  For some language run-time libraries, Debian provides source files, development files, debugging symbols and libraries containing position-independent code in separate packages:  Language Sources Development Debugging Position-Independent -----  C++ libstdc++6-4.7-dbg libstdc++6-4.7-pic D libphobos-4.7-dev  Java libgcj10-src libgcj10-dev libgcj10-dbg  Additional packages include:  All languages: libgcc1, libgcc2, libgcc4 GCC intrinsics (platform-dependent)  gcc-4.7-base Base files common to all compilers gcc-4.7-soft-float Software floating point (ARM only)  gcc-4.7-source The sources with patches  Ada: libgnatvsn-dev, libgnatvsn4.7 GNAT version library  libgnatprj-dev, libgnatprj4.7 GNAT Project Manager library  C: cpp-4.7, cpp-4.7-doc GNU C Preprocessor  libmudflap0-dev, libmudflap0 Library for instrumenting pointers libssp0-dev, libssp0 GCC stack smashing protection library  libquadmath0 Math routines for the __float128 type fixincludes Fix non-ANSI header files  protoize Create/remove ANSI prototypes from C code  Java: gj The Java bytecode interpreter and VM  libgcj-common Common files for the Java run-time libgcj10-awt The Abstract Windowing Toolkit  libgcj10-jar Java ARchive for the Java run-time  C, C++ and Fortran 95: libgomp1-dev, libgomp1 GCC OpenMP (GOMP) support library  libitm1-dev, libitm1 GNU Transactional Memory Library</p>

Vendor	Product(s) and Version(s)	Functionality	Licensing Description/Disclaimer
			<p>Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.</p> <p>This GCC Runtime Library Exception ("Exception") is an additional permission under section 7 of the GNU General Public License, version 3 ("GPLv3"). It applies to a given file (the "Runtime Library") that bears a notice placed by the copyright holder of the file stating that the file is governed by GPLv3 along with this Exception.</p> <p>When you use GCC to compile a program, GCC may combine portions of certain GCC header files and runtime libraries with the compiled program. The purpose of this Exception is to allow compilation of non-GPL (including proprietary) programs to use, in this way, the header files and runtime libraries covered by this Exception.</p> <p>0. Definitions.</p> <p>A file is an "Independent Module" if it either requires the Runtime Library for execution after a Compilation Process, or makes use of an interface provided by the Runtime Library, but is not otherwise based on the Runtime Library.</p> <p>"GCC" means a version of the GNU Compiler Collection, with or without modifications, governed by version 3 (or a specified later version) of the GNU General Public License (GPL) with the option of using any subsequent versions published by the FSF.</p> <p>"GPL-compatible Software" is software whose conditions of propagation, modification and use would permit combination with GCC in accord with the license of GCC.</p> <p>"Target Code" refers to output from any compiler for a real or virtual target processor architecture, in executable form or suitable for input to an assembler, loader, linker and/or execution phase. Notwithstanding that, Target Code does not include data in any format that is used as a compiler intermediate representation, or used for producing a compiler intermediate representation.</p> <p>The "Compilation Process" transforms code entirely represented in non-intermediate languages designed for human-written code, and/or in Java Virtual Machine byte code, into Target Code. Thus, for example, use of source code generators and preprocessors need not be considered part of the Compilation Process, since the Compilation Process can be understood as starting with the output of the generators or preprocessors.</p> <p>A Compilation Process is "Eligible" if it is done using GCC, alone or with other GPL-compatible software, or if it is done without using any work based on GCC. For example, using non-GPL-compatible Software to optimize any GCC intermediate representations would not qualify as an Eligible Compilation Process.</p> <p>1. Grant of Additional Permission.</p> <p>You have permission to propagate a work of Target Code formed by combining the Runtime Library with Independent Modules, even if such propagation would otherwise violate the terms of GPLv3, provided that all Target Code was generated by Eligible Compilation Processes. You may then convey such a combination under terms of your choice, consistent with the licensing of the Independent Modules.</p> <p>2. No Weakening of GCC Copyleft.</p> <p>The availability of this Exception does not imply any general presumption that third-party software is unaffected by the copyleft requirements of the license of GCC.</p> <p>libquadmath/. <a href="http://gcc.gnu.org/">http://gcc.gnu.org/</a>	libstdc++6	GNU Standard C++ Library v3	<p>This is the Debian GNU/Linux prepackaged version of the GNU compiler collection, containing Ada, C, C++, Fortran 95, Java, Objective-C, Objective-C++, and Treelang compilers, documentation, and support libraries. In addition, Debian provides the gdc compiler, either in the same source package, or built from a separate same source package. Packaging is done by the Debian GCC Maintainers&lt; debian-gcc@lists.debian.org&gt;, with sources obtained from:  ftp://gcc.gnu.org/pub/gcc/releases/ (for full releases)  svn://gcc.gnu.org/svn/gcc/ (for prereleases) http://bitbucket.org/goshawk/gdc (for D)  The current gcc-4.7 source package is taken from the SVN gcc-4_7-branch.  Changes: See changelog.Debian.gz  Debian splits the GNU Compiler Collection into packages for each language, library, and documentation as follows:  Language Compiler package Library package Documentation -----  Ada gnat-4.7 libgnat-4.7 gnat-4.7-doc C gcc-4.7 gcc-4.7-doc  C++ g++-4.7 libstdc++6 libstdc++6-4.7-doc D gdc-4.7  Fortran 95 gfortran-4.7 libgfortran3 gfortran-4.7-doc Go gccgo-4.7 libgo0  Java gcj-4.7 libgcj10 libgcj-doc Objective C gobjc-4.7 libobjc2  Objective C++ gobjc++-4.7  For some language run-time libraries, Debian provides source files, development files, debugging symbols and libraries containing position-independent code in separate packages:  Language Sources Development Debugging Position-Independent -----  C++ libstdc++6-4.7-dbg libstdc++6-4.7-pic D libphobos-4.7-dev  Java libgcj10-src libgcj10-dev libgcj10-dbg  Additional packages include:  All languages: libgcc1, libgcc2, libgcc4 GCC intrinsics (platform-dependent)  gcc-4.7-base Base files common to all compilers gcc-4.7-soft-float Software floating point (ARM only)  gcc-4.7-source The sources with patches  Ada: libgnatvsn-dev, libgnatvsn4.7 GNAT version library  libgnatprj-dev, libgnatprj4.7 GNAT Project Manager library  C: cpp-4.7, cpp-4.7-doc GNU C Preprocessor  libmudflap0-dev, libmudflap0 Library for instrumenting pointers libssp0-dev, libssp0 GCC stack smashing protection library  libquadmath0 Math routines for the __float128 type fixincludes Fix non-ANSI header files  protoize Create/remove ANSI prototypes from C code  Java: gj The Java bytecode interpreter and VM  libgcj-common Common files for the Java run-time libgcj10-awt The Abstract Windowing Toolkit  libgcj10-jar Java ARchive for the Java run-time  C, C++ and Fortran 95: libgomp1-dev, libgomp1 GCC OpenMP (GOMP) support library  libitm1-dev, libitm1 GNU Transactional Memory Library  Biarich support: On some 64-bit platforms which can also run 32-bit code, Debian provides additional packages containing 32-bit versions of some libraries. These packages have names beginning with 'lib32' instead of 'lib', for example lib32stdc++6. Similarly, on some 32-bit platforms which can also run 64-bit code, Debian provides additional packages with names beginning with 'lib64' instead of 'lib'. These packages contain 64-bit versions of the libraries. (At this time, not all platforms and not all libraries support biarch.) The license terms for these lib32 or lib64 packages are identical to the ones for the lib packages.
