1 Preface

This Preface provides supporting information for the Oracle Financial Services Regulatory Reporting for European Banking Authority (OFS AGILE RP EBA) Release Notes and includes the following topics:

- [Overview of OFSAA](#)
- [Purpose of This Document](#)
- [Intended Audience](#)
- [Documentation Accessibility](#)
- [Related Documents](#)

1.1 Overview of OFSAA

In today's turbulent markets, financial institutions require a better understanding of their risk-return, while strengthening competitive advantage and enhancing long-term customer value. Oracle Financial Services Analytical Applications (OFSAA) enable financial institutions to measure and meet risk adjusted performance objectives, cultivate a risk management culture through transparency, lower the costs of compliance and regulation, and improve insight into customer behavior.

OFSAA uses industry-leading analytical methods, shared data model and applications architecture to enable integrated risk management, performance management, customer insight, and compliance management. OFSAA actively incorporates risk into decision making, enables to achieve a consistent view of performance, promote a transparent risk management culture, and provide pervasive intelligence.

Oracle Financial Services Analytical Applications delivers a comprehensive, integrated suite of financial services analytical applications for both banking and insurance domain.

1.2 Purpose of This Document

This document contains release information for the following products:

- Oracle Financial Services Regulatory Reporting for European Banking Authority (OFS AGILE RP EBA).

1.3 Intended Audience

This document is intended for users of Oracle Financial Services Regulatory Reporting for European Banking Authority (OFS AGILE RP EBA).

1.4 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

1.4.1 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

1.5 Related Documents

This section identifies additional documents related to OFS_AGILE_RP_EBA Application 8.0.6.0.0. You can access Oracle documentation online from the Documentation Library ([OHC](#)).

- *Oracle Financial Services Regulatory Reporting for European Banking Authority (OFS AGILE RP EBA) Installation Guide Release 8.0.6.0.0*
- *Oracle Financial Services Regulatory Reporting for European Banking Authority (EBA) – Lombard Risk Integration Pack User Guide Release 8.0.6.0.0*
- [Oracle Financial Services Analytical Applications Technology Matrix](#)

2 Introduction to Oracle Financial Services Regulatory Reporting for European Banking Authority

With the onset of regulatory requirements from a variety of regulators around the globe, financial institutions are struggling to keep up with the constantly changing regulatory environment and the regulators themselves are finding it difficult to analyze a pile of reports. To facilitate easy comparison of the data, the European Banking Authority (EBA) introduced a common standard of reporting: one for Financial Reporting (FINREP) and one for Common Reporting (COREP). The two standards use a very structured way of gathering data, and also introduced the Data Point Model (DPM) along with the relational database to provide standard meaning to all reporting elements. Though EBA did an excellent job in standardizing all the dimensions, metrics and the data elements, the disparate source systems at the banks make it very difficult for the banks to collate the required and correct data. The ability to present the data in the “DPM” structure that is very specific to the EBA reporting raises an additional challenge.

Through Oracle Financial Services Regulatory Reporting for European Banking Authority (OFS AGILE RP EBA), Oracle Financial Services has created a first-to-market solution that addresses these important requirements and helps financial services organizations find a much-welcome silver lining in today’s prescriptive regulatory climate.

OFSAA Regulatory Reporting features the OFSAA Data Foundation and a reporting portal that integrates OFS Agile Reporter Portal for final-mile automation. The solution ensures data integrity and frees firms to focus more time on analyzing and gaining new business insight from their growing stores of data instead of simply preparing data and reports with the sole objective of meeting submission deadlines.

Additionally, multi-jurisdiction institutions, using these integrated tools, are now able to establish a global regulatory report production platform integrated with a single source of truth and full data lineage no matter where they are situated or how many jurisdictions they operate in. The OFSAA Data Foundation has all the detailed granular data which are used to aggregate and populate the Agile Reporter Portal report templates. This enables seamless drill down and lineage from individual template cells to the source systems where the granular data was sourced from. The rules used to derive the aggregated and calculated data are also clearly visible.

This chapter includes the following topics:

- [New Features](#)
- [Prerequisites](#)
- [How to Apply this Interim Release?](#)
- [Limitations / Known Issues](#)

2.1 New Features

The list of new features incorporated in this release is:

1. Provides an integrated OFSAA DW/DT package for EBA regulatory reporting using OFS AgileREPORTER Application **8.0.5.1.0** and European Common Reporting (ECR) Templates **v1_28_0_7**.
2. Provides a complete set of OFSAA Business Metadata objects to support regulatory reporting of the below mentioned returns:
 - FINREP FI01 • FINREP FI02 • FINREP FI03 • FINREP FI04
 - FINREP FI05 • FINREP FI06 • FINREP FI07 • FINREP FI08
 - FINREP FI09 • FINREP FI10 • FINREP FI11 • FINREP FI12
 - FINREP FI13 • FINREP FI14 • FINREP FI15 • FINREP FI16
 - FINREP FI17 • FINREP FI18 • FINREP FI19 • FINREP FI20
 - FINREP FI21 • FINREP FI22 • FINREP FI30 • FINREP FI31
 - FINREP FI40 • FINREP FI41 • FINREP FI42 • FINREP FI43
 - FINREP FI44 • FINREP FI45 • FINREP FI46

2.2 Prerequisites

The following are the prerequisites to install OFS_AGILE_RP_EBA application:

- OFS Analytical Applications Infrastructure (OFSAAI) 8.0.6.0.0 (patch **23036940**) plus the mandatory consolidated one-off patch **27938294** should be installed and configured in your Machine ([OHC Documentation Library](#)).
- Oracle Financial Services Data Foundation (FSDF) 8.0.6.0.0 (patch **27569871**) should be installed and configured in your Machine ([OHC Documentation Library](#)).
- OFS AgileREPORTER Application **8.0.5.1.0** should be installed and configured in your Machine.
- Ensure that the report templates for AgileREPORTER (European Common Reporting (ECR)) Template version **1_28_0_7** is available in the AgileREPORTER.
- Ensure that you have executed .profile file before you trigger the installation.
- Ensure that the FIC Server is up and running before you trigger the installation. For information on restarting the services, Refer *Oracle Financial Services Analytical Applications Infrastructure Release 8.0.6.0.0 Installation and Configuration Guide* ([OHC Documentation Library](#)) for more information.

2.3 How to Apply this Interim Release?

For detailed instructions on installing this Interim Release, see [Oracle Financial Services Regulatory Reporting for European Banking Authority \(OFS AGILE RP EBA\) Installation Guide Release 8.0.6.0.0](#).

2.4 Limitations / Known Issues

The limitation in this release are:

1. F_EMBEDDED_OPTIONS_FLAG and V_EMBEDDED_OPTION_TYPE_IND columns used in F10 and F11 reports are not present in STG_SWAPS, STG_CREDIT_DERIVATIVES, STG_OPTIONS, STG_FORWARDS, STG_FUTURES, and STG_FX_CONTRACTS tables. Hence, the bank must populate the data directly into the FCT_COMMON_ACCOUNT_SUMMARY table.
2. The Row 999 and Column 95 (sector of investee) in F40.1 report requires a set of regulatory party types which are predefined by LOMBARD. Currently, only the standard party types are used due to unavailability of required codes. This will be fixed in the next release.
3. D_PAST_DUE_DATE column is not present in STG_MM_CONTRACTS table which is used in F07 and F18 reports. Hence, the bank must populate the data directly into the FCT_COMMON_ACCOUNT_SUMMARY table.
4. Non-trading FVTPL requires to be captured with FCT_ASSETS_SOLD.V_HOLDING_TYPE_CD and FCT_ASSETS_SOLD.N_TRADING_IND = '<>T' in F15 report. It is handled with the help of custom seeded data for Non-trading FVTPL. Currently, N_TRADING_BOOK_IND in STG_ASSETS_SOLD table is unavailable and will be fixed in the next release.
5. The flow for N_REG_VALUATION_METHOD_SKEY in FCT_REG_FIXED_ASSETS table must be populated by the bank manually as there is no flow defined. The introduction of N_VALUATION_METHOD_SKEY in FCT_FIXED_ASSETS table and V_VALUATION_METHOD_CODE in STG_FIXED_ASSETS_DETAILS and STG_FIXED_ASSETS_MASTER tables will be taken up in a later release.
6. V_MICRO_MACRO_IND column in FCT_REG_HEDGE_SUMMARY table indicates if the given hedge is a micro or macro hedge. As the bank decides if the given hedge is a micro or macro hedge, it is expected that the bank must populate this column directly.
7. F_ECONOMIC_HEDGE_FLAG column in FCT_REG_ACCOUNT_SUMMARY table stores whether the given derivative is under economic hedge. As the bank decides if the given hedge is an economic hedge or not, it is expected that the bank must populate this column directly.

8. All the eligible accounts, which are written-off either in total or in partial in the reporting period, should be populated by the bank in the FRAS irrespective of the debtor's commitment amount post write-off. This will be taken up in a later release.
9. Default status SKey is not getting populated in FCT_REG_LOANS_SERVICED table. This must be populated by the bank. The list of values corresponding to this SKey are - NID, DUP, DDPD, and DBOTH.
10. N_REG_PARTY_ROLE_RANKING_SKEY column is not updated in the FCT_REG_PARTY_DETAILS table. The DM change required for this will be updated in future Oracle Financial Services Data Foundation release. In this release, the bank must populate this column as per the CBM requirements directly. Only the following roles must be reported in the Counterparty-Instrument dataset in the order in which they are listed – Creditor, Debtor, Servicer, and Originator.
11. N_GAIN_AMT_RCY and N_LOSS_AMT_RCY used in cell IDs 020-10 and 040-10 of F45.2 report requires banks to report gain or loss on de-recognition of an asset. This computation must be populated by the bank directly into the FCT_REG_FIXED_ASSETS table.
12. DIM_AMORTIZATION_TYPE table is dependent on cash flow engine, and this table will be seeded as per the cash flow engine list of values. The seeding feature will be taken up in a later release.
13. FI0200R070C010, FI0200R130C010 cells from FI02; FI1101R480C010, FI1101R480C020, FI1101R480C030, FI1101R480C040, FI1101R490C010, FI1101R490C020, FI1101R490C030, FI1101R490C040 cells from FI11.01; FI1601R250C010, FI1601R250C020 cells from FI16.01 are not developed due to DM dependency on FCT_HEDGING_INSTRU_MAP.n_hedge_risk_skey which will be taken up in the next release.

3 Hardware/Software Tech Stack Details

The hardware/software combinations required for OFS_AGILE_RP_EBA 8.0.6.0.0 are available at the [OHC Tech Stack](#).

4 Other Software Required

The OFS AgileREPORTER Application **8.0.5.1.0** is required.

5 Information of Third Party Software Tools Used

The information on Third Party software tools used in OFS_AGILE_RP_EBA application 8.0.6.0.0 is available in the *OFSAA Licensing Information User Manual Release 8.0.6.0.0*, at [OTN](#) Documentation Library.
