Welcome to Transactions User Guide

Transaction is a process of money transfer, typically for corporates by banks. It includes banking products, payments, international trade and other services. Every day there are more than several billions of transactions are made around the world. It is an extraordinary amount of money that is transferred from one account to another.

This document is intended for Back Office Data Entry Clerk, Back Office Managers/Officers, Product Managers, End of Day Operators and Financial Controller users.

This section contains the following topics:

Internal Transfer	Journal Online
Amount Block	Account Transaction Enquiry
SWIFT and ISO Statement	Virtual Account Statement
Exchange Rate Queues	Business Exceptions

Internal Transfer

You can transfer funds from one virtual account to another virtual account that are mapped to same real account of the same customer. Internal transfers are processed immediately so that, the funds become available in the receiving account straight away.

View Internal Transfer

The summary screen provides a list of configured internal transfer details for a customer. You can perform an internal transfer using the [Create Internal Transfer](#).

How to reach here:

Virtual Account Management > Transactions > Internal Transfer > View Internal Transfer

The screenshot shows a web application window titled "View Internal Transfer". The window contains a grid of 8 cards, each representing an internal transfer. Each card displays the following information:

- Booking Reference Number (with a refresh icon)
- Booking Date
- Real Customer Number
- Transaction VA No
- Status: Authorized (with a lock icon) and Active (with a checkmark icon)

Booking Reference Number	Booking Date	Real Customer Number	Transaction VA No	Status
000ZVIB011990501	2018-06-18	000039	0006	Authorized, Active
000ZVIB011950001	2018-06-13	000039	0012	Authorized, Active
000ZVIB012101001	2018-06-28	000010	0049	Authorized, Active
000ZVIB012101002	2018-06-26	000010	0049	Unauthorized, Active
000ZVIB012101003	2018-06-28	000010	0049	Unauthorized, Active
000ZVIB012101004	2018-06-28	000010	0049	Authorized, Active
000ZVIB012101006	2018-06-29	000010	0049	Authorized, Active
000ZVIB012101007	2018-06-28	000010	0051	Unauthorized, Active

Field	Description
Booking Reference Number	Displays the booking reference number associated with the internal transfer.
Booking Date	Displays the booking date associated with the internal transfer.
Real Customer Number	Displays the number of the customer.
Transaction Virtual Account Number	Displays the transaction virtual account number.
Status	Displays the status of the record.

How to reverse a transaction:

1. In the **View Internal Transfer** screen, click a tile to open a configured records. The selected internal transfer screen appears.

The screenshot shows the 'Internal Transfer' screen with the following details:

- Booking Reference Number:** 0002V18011950001
- Booking Date:** Jun 13, 2018
- Value Date:** Jun 13, 2018
- Source Code:** internal
- Source Reference Number:** (empty)
- Customer Number:** 000039
- Real Account Number:** 00096333034
- Real Account Branch:** 000
- Original Reference Number:** (empty)

Transaction Details:

- Virtual Account Number:** 0012
- Currency:** GBP
- Amount:** £100.00
- Transaction Code:** TRN
- Debit/Credit Indicator:** Debit

Offset Details:

- Virtual Account Number:** 0011
- Currency:** GBP
- Amount:** £100.00
- Transaction Code:** TRN
- Debit/Credit Indicator:** Credit

Other Details:

- Remarks:** (empty text area)

2. Click **Reverse** on the screen toolbar, a confirmation message appears.

The 'Reverse' dialog box contains the following elements:

- Title:** Reverse
- Message:** Are you sure you want to reverse the record? Please confirm
- Remarks:** A text input field for providing additional information.
- Buttons:** Confirm and Cancel

3. Provide remarks and click **Confirm** to reverse the transaction.

Create Internal Transfer

The maintenance screen allows you to configure internal transfer from one virtual account to another within the structure mapped to the same account of the customer.

How to add an internal transfer:

1. In the **Create Internal Transfer** screen, provide the required details:
 - Booking Reference Number: The system generates the booking reference number.
 - Booking Date: By default, the application date is selected as the booking date.
 - Value Date: Click **Calendar** to select a value date from the dropdown calendar.
 - Source Code: Click **Search** to view and select the source code.
 - Source Reference Number: Enter the source reference number.
 - Customer Number: Click **Search** to view and select the customer number.
 - Real Account Number: Click **Search** to view and select the account number. Depending on the real account number selected, the associated virtual account number are populated in the Virtual Account Number fields of Transaction Details and Offset Details.
 - Real Account Branch: Based on the Real Account Number selected, the information is auto-populated.
 - Original Reference Number: The system generates the original reference number.

Transaction Details

- Virtual Account Number: Click **Search** to view and select the virtual account number.
- Currency: Based on the Virtual Account Number selected, the information is auto-populated.
- Amount: Enter the amount.

- Transaction Code: Click **Search** to view and select the transaction code. To create a new transaction code, see [Transaction Code](#) in the [Common Core User Guide](#).
- Debit/Credit Indicator: Select one of the options to indicate if the transaction is debit/credit.

Offset Details

- Virtual Account Number: Click **Search** to view and select the virtual account number.
- Currency: Based on the Virtual Account Number selected, the information is auto-populated.
- Amount: The system populates the amount entered in the Transaction Details.
- Transaction Code: Click **Search** to view and select the transaction code.
- Debit/Credit Indicator: Select one of the options to indicate if the transaction is debit/credit. If the Transaction Details is selected as Debit, the Offset Details is automatically selected as Credit. As both cannot be debit/credit.

Other Details

- Remarks: Enter additional information about the internal transfer fund.

2. Click **Save**. You can view the configured internal transfer details in the [View Internal Transfer](#).

Journal Online

Journal online is used for posting debit/credit transactions to virtual accounts. Any transaction posted on the virtual account is redirected to the underlying DDA for transaction posting into the real account.

View Journal Online

The summary screen provides a list of journal online transactions. You can post debit/credit transactions to the virtual accounts using the [Create Journal Online](#).

How to reach here:

Virtual Account Management > Transactions > Journal Online > View Journal Online

Field	Description
Processing Reference Number	Displays the processing reference number.
Source Reference Number	Displays the source reference number.
Source Code	Displays the source code.
Status	Displays the status of the record.

You can also perform a reverse transaction for journal online, see [How to reverse a transaction](#): (the steps are similar).

Create Journal Online

The maintenance screen allows you to post debit/credit transactions for a virtual account.

How to reach here:

Virtual Account Management > Transactions > Journal Online > Create Journal Online

How to add a journal online:

1. In the **Create Journal Online** screen, provide the required details:
 - Source Code: Click **Search** to view and select the required source code.
 - Source Reference Number: Enter the source reference number.
 - Booking Date: By default, the application date is selected as the booking date.
 - Initiation Date: By default, the application date is selected as the booking date.
 - Processing Reference Number: The system generates a unique processing reference for the transaction.
 - Original Reference Number: The system generates an original reference number for the transaction.
2. Click + to add a row and provide the required details:
 - Account Number (Virtual Account/Identifier): Click **Search** to view and select the required account number.
 - Virtual Account Currency: Based on the Virtual Account selected, the information is auto-populated.
 - Virtual Account Branch: Based on the Virtual Account selected, the information is auto-populated.
 - Debit/Credit: Select if the transaction is debit/credit.
 - Force Debit: If selected, the account is forced debited and no balance check is performed.
 - Transaction Currency: Click **Search** to view and select the transaction currency.
 - Transaction Amount: Enter the transaction amount.
 - Transaction Code: Click **Search** to view and select the transaction code.

- Value Date: By default, the application date is selected as the value date.
- Exchange Rate: Enter the exchange rate.
- Amount in Account Currency: Enter the amount in account currency.
- Additional Text: Enter additional information about the transaction.
- Reconciliation Reference Number: Enter additional information about the transaction that is used for the reconciliation purpose.
- ECA or Block Reference Number: Enter the block or ECA reference number.
- Reporting Information: Enter additional information about the transaction which must be reported.
- Real Account Number: Enter the real account number.
- Real Account Branch: Enter the real account branch.
- Real Account Exchange Rate: Enter the real account exchange rate.
- Real Account Amount: Enter the real account amount.
- Skip DDA Entries: If enabled, indicates to skip a DDA entry for an account number.
- DDA Offset: Click **Search** to view and select the DDA offset details.

3. Click **Save**. You can view the configured journal online in the [View Journal Online](#).

Amount Block

You can block a specified amount for a virtual account. When an amount is blocked for a virtual account, the available balance for transaction is the current balance minus the defined amount block. Example: If the total amount in the account is \$10,000 and the amount block is \$1,000, the available balance for transaction is \$9,000

View Amount Block

The summary screen provides a list of amount blocks for a virtual account. You can block an amount using the [Create Amount Block](#).

How to reach here:

Virtual Account Management > Transactions > Amount Block > View Amount Block

Field	Description
Reference Number	Displays the amount block reference number.
Branch	Displays the branch number.
ECA System Reference Number	Displays the ECA reference number.
Status	Displays the status of the record.

Create Amount Block

The maintenance screen allows you to define an amount block for a virtual account.

How to reach here:

Virtual Account Management > Transactions > Amount Block > Create Amount Block

Effective Date * Expiry Date * Block Type * Reference Number

Page 1 (0 of 0 items) 1 Save Cancel

How to add an amount block:

1. In the **Create Amount Block** screen, provide the required details:

- **Effective Date:** Select a start date for the amount block from the dropdown calendar.
- **Expiry Date:** Select an expiry date for the amount block from the dropdown calendar.
- **Block Type:** Select a block type from the dropdown list.
- **Reference Number:** The system generates a reference number.
- **Source Code:** Click **Search** to view and select the required source code.
- **Source Reference Number:** Enter/the system generates a default reference number.
- **Branch:** Displays the branch number.

Amount Block Details

2. Click + to add a row and provide the required details:

- **Account Number:** Click **Search** to view and select the account number.
- **Account Branch:** Based on the Account Number selected, the information is auto-populated.
- **Block Currency:** Click **Search** to view and select a currency.
- **Requested Amount in Block Currency:** Enter an amount for the blocked currency.
- **Account Currency:** Based on the Account Number selected, the information is auto-populated.
- **Requested Amount in Account Currency:** Enter the requested amount block.
- **Released Amount in Block Currency:** The system generates the release amount.
- **Outstanding Amount in Block Currency:** The system generates the outstanding amount.
- **ECA System Reference Number:** Displays the ECA system reference number details.
- **Real Account Number:** The system generates the real account number.
- **Real Account Branch:** The system generates the real account branch.
- **Real Account Currency:** The system generates the real account currency.
- **Real Account Amount:** The system generates the real account amount.
- **Real Account Exchange Rate:** The system generates the real account exchange rate.

- Remarks: Enter additional details of the amount block.

3. Click **Save**. You can view the account block details in the [View Amount Block](#).

Account Transaction Enquiry

You can view the transaction details for a virtual account. The transactions include both journal transactions and internal transfers.

Account Transaction Enquiry

The query screen provides a list of transaction on a virtual account.

How to reach here:
