Brief Description

Business Process: 5.6.3 MDM.v2.2.Manage Devices

Process Type: Process

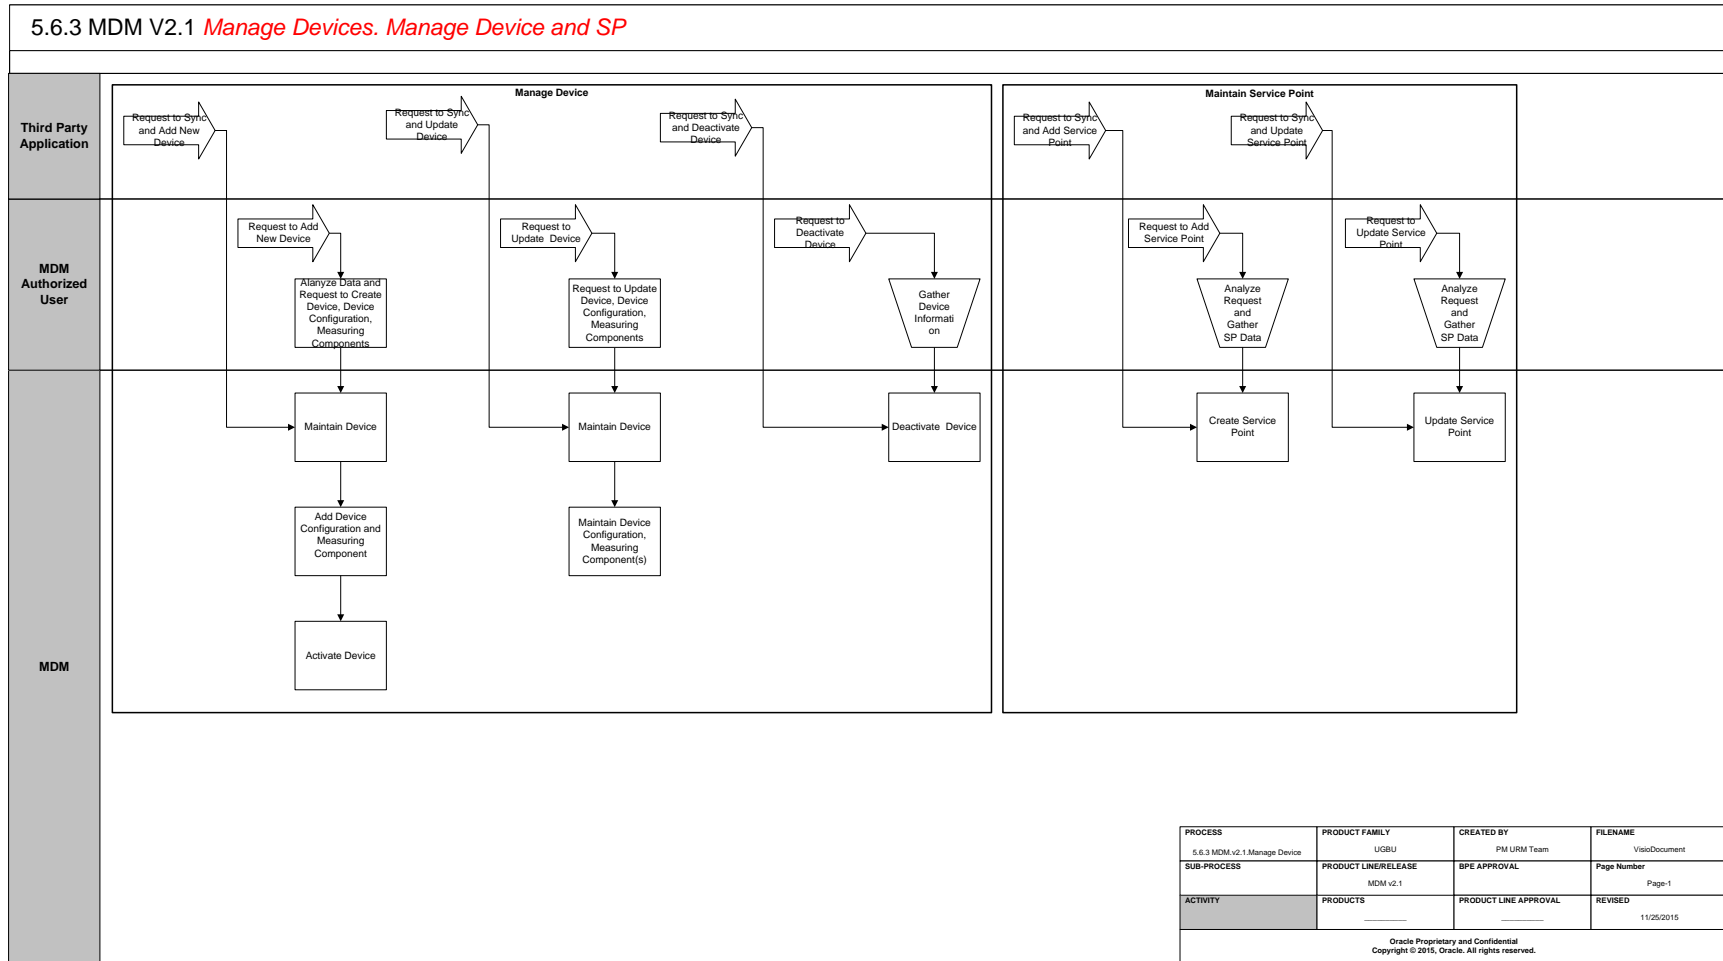

Parent Process:

Sibling Processes:

This process describes how business can handle device installation, un-installation, commissioning , decommissioning smart meter devices, and device retirement.

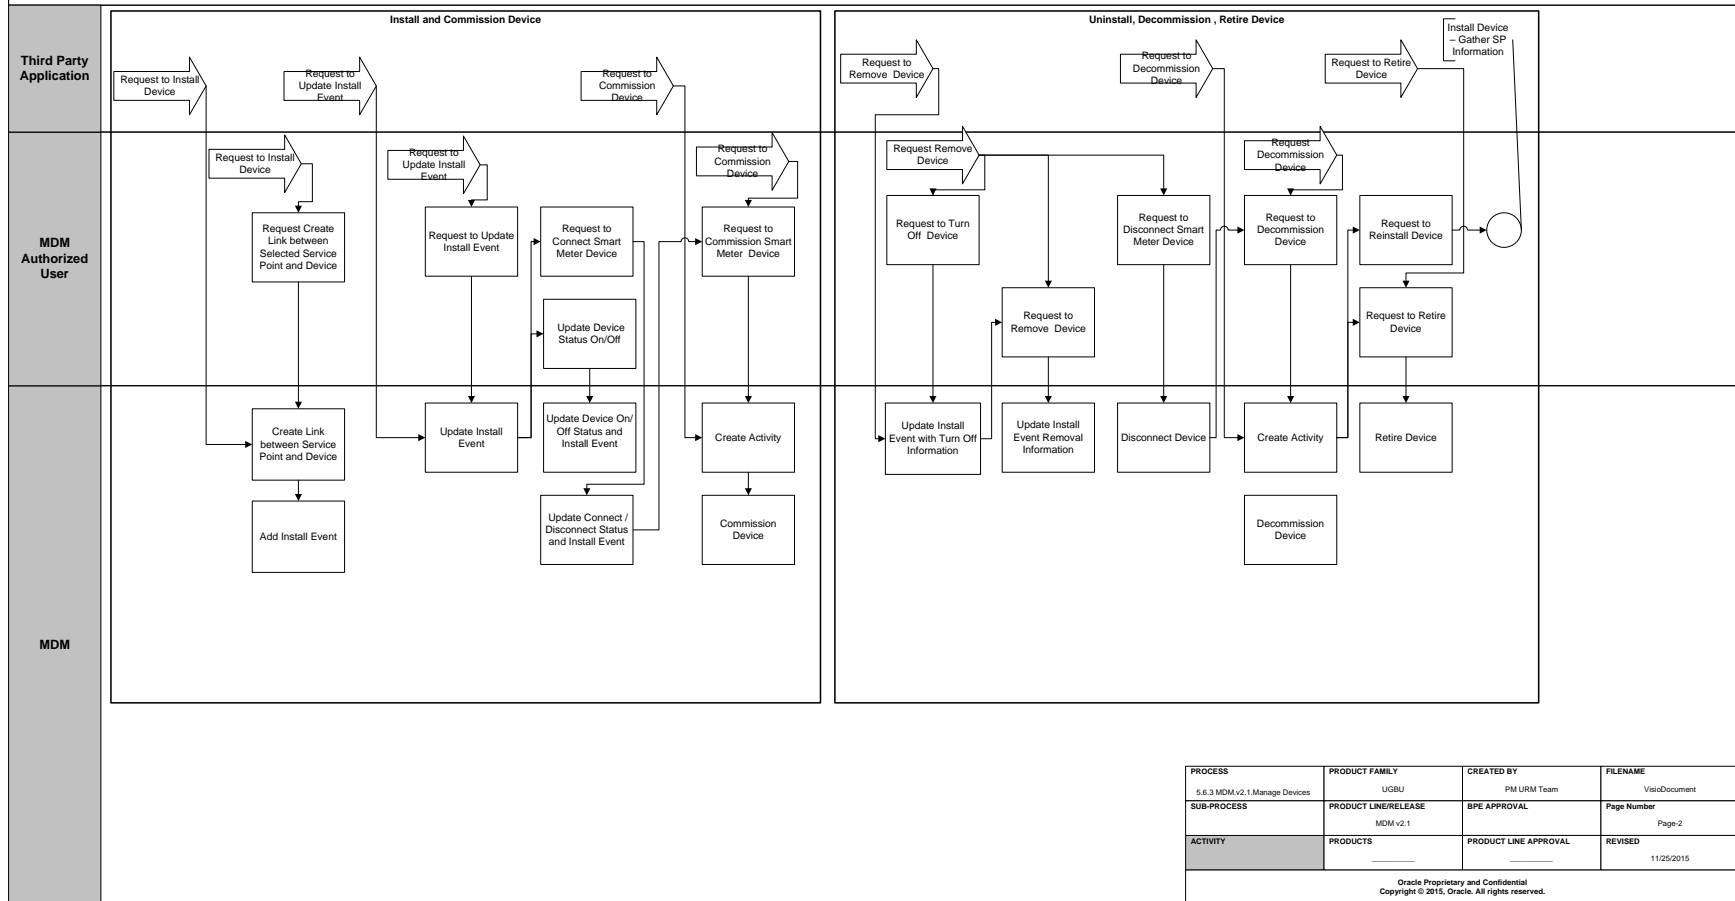

Note: Devices are physical or virtual objects that hold one or more measuring components that can produce data to be handled by the MDM application. Examples of devices include meters, demand response devices, weather stations, etc.
