3. Accounts

Current and savings accounts are the most basic and critical products of retail banking. Most banking customers hold either a current or a savings account with their banks. Banks, in turn, encourage the use of current or savings accounts as it results in a higher profit margin for the bank.

This application provides a platform by which banks are able to offer their customers an enriching online banking experience in performing activities on their accounts.

Through the online banking application, customers can perform various activities on their accounts. Customers can view account balances and statements, initiate service requests and perform other inquiries as well as perform financial transactions on their accounts.

Features Supported In the Application:

The retail accounts module of the application supports the following features:

- Accounts Widget
- Account Details
- Debit Card Details
- Apply for New Debit Card
- Block/ Unblock Debit Card
- Upgrade Debit Card
- Update Debit Card Limits
- Re-issue Debit Card
- Request for new Debit Card PIN
- Reset Debit Cards PIN
- Cheque Book Request
- Cheque Status Inquiry
- Stop/Unblock Cheque
- View Account Statement
- E-Statement Subscription
- Request Statement
- Download Pre-Generated Statements
- Sweep-In
- Forex Calculator
- View Inactive Accounts

Pre-Requisites

- Transaction access is provided to retail users
- CASA (Current and Savings Account) accounts are maintained in the host system under a party ID mapped to the user

7. Block / Hotlist Card

Debit card fraud costs individuals and businesses millions of dollars every year globally. The speed at which fraudulent transactions can be performed on a stolen debit card is incredible; hence customers need a means by which to communicate the status of a lost or stolen card to the bank in the fastest possible manner with least amount of friction.

The Block Debit Card feature enables users to report stolen or lost debit cards to the bank, so that the bank can block the processing of any transaction performed on the debit card immediately.

This feature also enables the user to replace damage cards or stolen/lost cards with new card by requesting request for a replacement debit card which will have the same attributes as that of the debit card that is being blocked.

How to reach here:

9. Debit Card Details

A customer can view the details of an existing debit card linked to his current or savings account by selecting the manage card option against a specific card on the Debit Card (summary) page. The debit card details page displays important information pertaining to the debit card such as the card status, validity and limit details.

The customer can view the various transaction limits associated with the debit card. The system displays limits in terms of count and amount in each category, which are as defined below:

- Own ATM Limits
- Remote ATM Limits
- Own Point of Sale Limits (PoS)
- Remote Point of Sale Limits (PoS)
- E-commerce Limits

The customer can view the existing limits and has the option to update the limits of the debit card selected. In addition to the existing limits, the screen also displays the maximum limit count/ amount that can be set for the card.

Customer also has the provision to configure a combined limit on his debit card. It is the maximum allowed limit across all sections and if this limit is breached, user will not be allowed for any further transaction on the day irrespective of the individual daily limits set under various categories.

11. Request PIN

A debit card PIN is required to authenticate any debit card transaction. Without a PIN, the customer will not be able to withdraw funds from his account or make any Point of Sale purchases. This feature enables a customer to request for a new debit card PIN to be delivered at the address of his choice.

The debit card PIN request is a service request transaction and on initiating the request, an SR number is generated, which can be used by the customer to track the status of the request. Duplicity checks are done by the system to ensure that no duplicate requests are being initiated.

15. Stop/ Unblock Cheque

Cheques are physical instruments used for the purpose of making payments. A customer might require to block a cheque payment in case the cheque has been lost or stolen. Hence it is critical to provide an option to stop such cheques so that they cannot be misused.

The Stop/ Unblock cheque feature enables a customer to stop a cheque that has been issued for making payment. In order to request for a cheque to be stopped, the customer will have to specify the account number from which the cheque has been issued as well as the cheque number and the reason for which the request is being raised. In addition to requesting for a stop cheque on a specific cheque, the customer can also request for a stop cheque to be performed on a cheque series by specifying the cheque range.

Additionally customers can also request for a cheque or cheque range that has been stopped or blocked to be unblocked.

Both stop cheque as well as unblock cheque requests are online i.e. do not require manual intervention by a bank official and the specific cheque or cheque range is immediately stopped or unblocked based on the request raised.

How to reach here:

A horizontal menu contains several options: 'Account Details', 'View Statement', 'Cheque Book Request', 'Cheque Status Inquiry', 'Stop/Unblock Cheque' (which is the active page), 'Debit Cards', and 'Request Statement'. The main content area is divided into sections: 'Account Number' (displaying 'xxxxxxxxxxxx0021'), 'Balance : £9,999,883,817.88', 'Select Action' (with radio buttons for 'Stop' and 'Unblock'), 'Specify Reason' (with a dropdown menu), and 'Give Cheque Details' (with radio buttons for 'Number' and 'Range'). Under 'Give Cheque Details', the 'Cheque Number' field contains '351234'. At the bottom of the form, there are three buttons: 'Submit', 'Cancel', and 'Back'. A 'Note' box on the right side of the form contains the following text: 'There is no charge for blank lost or stolen cheques. For all other circumstances, there is a charge of \$10.00. Under what circumstances would I not be able to stop a cheque? - If it has already been debited from your account.' 18. Sweep In

A sweep in facility enables customers to link their Current and Savings/ Term Deposit account to another Current and Savings account held with the bank. Whenever there is insufficient funds, the shortfall in the account is swept in from the linked Term Deposit/current and savings account, thereby providing the customer the convenience of getting payments processed with ease.

The Manage Sweep-in option enables the user to manage all his linked current and savings accounts and fixed deposit accounts. With this option, the user can add his Current and Savings / Fixed deposit accounts held with the bank, as a sweep-in account. There is also an option to delete or delink sweep-in from an existing Current and Savings account / Fixed deposit accounts, which has sweep in facility. After logging in to the application, when the user clicks the Sweep-in option, the user has to select his provider account, which directs him to the Sweep-in summary page. This page has options to add and delete the sweep-in accounts.
