2. You will be navigated to **Card Details Maintenance** screen.

### Card Details Maintenance

### Field Description

Field Name	Description
<b>Search Criteria</b>	[Mandatory, Drop-Down] Select the search criteria to search for the customer from the drop-down list. The options are: <ul style="list-style-type: none"> <li>• Customer short name: The short name of the customer.</li> <li>• Customer IC: The identification criteria (IC) arrived at by the bank during customer addition.</li> <li>• Customer ID: The unique identification given by the bank.</li> </ul>
<b>Search String</b>	[Mandatory, Alphanumeric, 20] Type the search string, to search for a customer, corresponding to the search criteria selected in the <b>Search Criteria</b> field. If the search criterion is specified as customer's short name or IC then

any letter of the short name or IC can be entered. The system displays the Search List of all those customers having those letters in their respective criteria. Choose the appropriate customer from the existing customer list.

For example, if the customer's short name is George Abraham. One can search the above customer by entering Geo in the **Search String** field.

<b>Customer IC</b>	<p>[Display]</p> <p>This field displays the identification code of the customer.</p> <p>A customer IC along with customer type is a unique method of customer identification across the bank (covering all branches). Based on the combination, the system can identify the customer as an existing customer even when the customer opens a new account in another branch. A social security number, passport number, birth certificate or corporate registration can be used as a customer IC.</p>
<b>Customer ID</b>	<p>[Display]</p> <p>This field displays the ID of the customer.</p> <p>A customer ID is an identification number, generated by the system after customer addition is completed successfully. This running number, unique to a customer across the system, is generated after the system has identified the customer IC and the customer category combination to be non-existent in the system. This ID is used for searching and tracking the customer in the system.</p>
<b>Home Branch</b>	<p>[Display]</p> <p>This field displays the short name of the branch, where the customers account is opened.</p> <p>The customer signature record and the other customer papers are kept in this branch.</p> <p>These short names are maintained in the <b>Branch Master Maintenance</b> (Task Code: BAM03) option.</p>
<b>Full Name</b>	<p>[Display]</p> <p>This field displays the full name of the customer.</p> <p>The full name of the customer is defaulted from the <b>Customer Addition</b> (Task Code: 8053) option.</p>
<b>Short Name</b>	<p>[Display]</p> <p>This field displays the short name of the customer.</p> <p>The short name of the customer is defaulted from the <b>Customer Addition</b> (Task Code: 8053) option.</p>
<b>Group Code</b>	<p>[Display]</p> <p>This field displays the group code to which the customer belongs.</p>
<b>Card Product</b>	<p>[Conditional, Editable/Search List]</p> <p>This field displays the card product.</p> <p>If the card is to be issued, enter the card product or select from the Search List.</p>
<b>Card Number</b>	<p>[Mandatory, Numeric, 20]</p> <p>Select the card number from the Search List.</p> <p>In online issuing mode the card number is mandatory and will be validated against the branch inventory.</p>

<b>Reissue/Replacement</b>	<p>[Optional, Check Box]  Select the <b>Reissue</b> check box to reissue a card.  The <b>Card Product</b> field gets disabled if this check box is selected.</p>
<b>Old Card Number</b>	<p>[Conditional, Search List]  Select the old card number from the Search List.  In case of reissue, an old card number is mandatory and the card status will be validated for Lost or Damaged status.</p>
<b>Non-Personalized card</b>	<p>[Input, Checkbox]  For issuing non personalised card, user needs to select the checkbox.</p>
<b>New</b>	<p>[Input, Checkbox]  For issuing New card, user needs to select the checkbox.</p> <p>[Display]  Network to be used for the card product type. This data fetch from screen CM07 - Card Product Master Maintenance.</p>
<b>Product Franchise</b>	<p>1. VISA  2. Master  3. NPCI</p> <p>[Display]</p>
<b>Type</b>	<p>This field displays Debit card type. This data fetch from screen CM07 - Card Product Master Maintenance.</p> <p>[Display]  This field displays Card nature. This data fetch from screen CM07 - Card Product Master Maintenance.</p>
<b>Card Nature</b>	<ul style="list-style-type: none"> <li>• Magnetic Stripe</li> <li>• EMV</li> <li>• Paywave</li> </ul> <p>[Display]  This field displays Product class. This data fetch from screen CM07 - Card Product Master Maintenance.</p>
<b>Product Class</b>	<ul style="list-style-type: none"> <li>• Classic</li> <li>• Platinum</li> <li>• Standard</li> </ul>

3. Click **Add**.
4. Select the search criteria from the list.
5. Type the search string and press the **Tab or Enter** key.
6. Select the card product from the Search List.

[Card Details Maintenance](#)

7. Enter the relevant information.
