1. Preface

1.1 Intended Audience

This document is intended for the following audience:

- Customers
- Partners

1.2 **Documentation Accessibility**

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc.

1.3 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit

http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info or visit

http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs if you are hearing impaired.

1.4 Structure

This manual is organized into the following categories:

Preface gives information on the intended audience. It also describes the overall structure of the User Manual.

Introduction provides brief information on the overall functionality covered in the User Manual.

The subsequent chapters provide information on transactions covered in the User Manual.

Each transaction is explained in the following manner:

- Introduction to the transaction
- Screenshots of the transaction
- The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.
- Procedure containing steps to complete the transaction- The mandatory and conditional fields of the transaction are explained in the procedure. If a transaction contains multiple procedures, each procedure is explained. If some functionality is present in many transactions, this functionality is explained separately.

1.5 Related Information Sources

For more information on Oracle Banking Digital Experience Patchset Release 22.1.1.0.0, refer to the following documents:

3. Associated Party Management

3.1 Introduction

The features built for the corporate user in Associated Party Management are as follows-

- On-board Associated Party
- View Associated Party

Note: The Associated Party Management module is only supported on **Desktops/Laptops** and on **Landscape** mode of **Tablet** devices.

3.2 Onboard Associated Party

On-boarding an Associated Party refers to introducing your trade partner to the Supply Chain Finance or Cash Management system. This is the first step in supply chain finance or cash management business. The Associated Party is the other party in the trade of the Corporate, who may or may not be a customer of the bank. The associated party could be a buyer or a supplier.

Using this option, you can on-board your associated party so that you can link your party to the program for Supply Chain Finance business or add your receivables or payables through Cash Management module against the Associated Party. The Associated Party that is on-boarded can be a customer of the bank or may not be the customer of the bank. This is identified by Back Office through a de-dupe check run on the party's details.

Pre-requisites

User must have valid corporate login credentials.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Associated Party Management > Onboard Associated Party OR Dashboard > Toggle menu > Receivables/Payables > Associated Party Management > View Associated Parties > <u>Onboard new</u> link OR Dashboard > Toggle menu > Supply Chain Finance > Overview > Quick Links > Onboard Associated Party

To on-board a new associated party:

Step1- Associated Party Details

1. The Step1 - Associated Party Details screen appears.

 In the Confirmation screen, click the <u>View Associated Parties</u> link to view the details of existing associated parties. OR

Click the **Onboard Another Associated party** link to on-board a new associated party.

Note: Once the **Onboard Associated Party** transaction is submitted by the Corporate Maker, it is sent for approval. It appears in the **Pending for Approval** list of the Corporate Approver. The Approver can approve, or reject, or send the transaction back to the Maker for modifications, with relevant comments. Relevant notifications are sent to the Maker.

The Maker can then view, claim, and edit the transaction. Upon modification, it can be submitted for approval again. The Approver again has the option to approve, reject or send the transaction back for modification. There is no limit to the number of times the transaction can be sent back for modification.

Once approved, the transaction appears in the Approver's **My Approved List**.

<u>FAQ</u>

1. Who is an Associated Party?

The Corporate party's customer with whom they trade is their associated party. In Supply Chain Finance parlance, the customer added in the Program by an Anchor (logged-in corporate party) is termed as Associated Party. This customer needs to be on-boarded as an associated party before linking to the Program.

2. What if the Associated Party is a customer of the Bank?

The Associated Party may or may not be a customer of the bank. If the Anchor wants to link an associated party to a program, then the associated party must first be on-boarded to the system.

3. If the Associated Party is an existing customer of the Bank, will the on-boarding of this party create a new party ID for them?

When the associated party is on-boarded and the details are submitted to the Bank's Supply Chain Finance system, a de-dupe check is performed. During this de-dupe check, if the Supply Chain Finance system identifies the associated party as an existing customer then the existing party ID itself is assigned, else a new party ID is assigned.

4. Can the Associated Party get portal access for Supply Chain Finance / Cash Management?

Yes, the associated party will get portal access for Supply Chain Finance / Cash Management.

5. How will the associated party get OBDX portal access, if they are not a customer of the Bank?

The associated party who is not a customer of the Bank, has a party ID assigned by the back office. This party ID resides in the Supply Chain Finance or Cash Management back office system. OBDX portal access can be given to a non customer party ID that is residing in the Supply Chain Finance or Cash Management back office system. Details are explained in the 'OBDX Channel access to Associated Parties (Non Customer)' section of this document.

3.3 KYC Documents Upload

This feature allows the associated party corporate who is not a customer of the bank, to upload its KYC documents. The bank then can complete the KYC validity of the corporate using the documents.

The Associated Party who is non-customer, receives a link on its email id. The associated party then needs to access the link which will redirect the corporate to the browser where it will direct or guide the associated party to upload the documents. On submitting the documents, the same are stored in the document management system and the content id is conveyed to the Bank who can then access these documents using the content id.

To upload KYC documents:

- 1. On successful on-boarding of the associated party (who is not a customer of the Bank), the Bank sends a link to upload KYC documents on the associated party's email ID (which is captured during the on-boarding).
- 2. Click the link in the email. The screen to upload KYC documents appears.

To delete the uploaded document, click ill against it.

4. Click **Submit** to complete the uploading process. A Confirmation message regarding the uploading appears.

Onboard Associated Party- Success screen

3.4 OBDX Channel access to Associated Parties (Non Customer)

The on-boarded associated parties are allowed to transact on the same portal for raising invoices, effecting and accepting payments, availing finances and performing other transactions. The associated parties that are customers of the Bank, are provided with channel access as per BAU and can have access to business transactions.

Parties that are NOT customers of the Bank are also provided channel access. A feature is built-in for the Bank Admin to provide the required access.

The workflow or steps to be followed to provide access to a Non Customer Party ID is the same as that of a Customer of the Bank. All the features of the OBDX framework namely, User Management, Limits and Approvals, corporate admin and Audit Log are applicable to this Party ID too. For more details, refer **User Manual Oracle Banking Digital Experience Core**. Pre-shipped roles such as Non Customer Maker, Non Customer Checker and Non Customer Viewer are available along with relevant dashboards. For more details, refer **User Manual Oracle Banking Digital Experience Core**.

Mandatory Role Transaction Mapping (RTM) should be done by the admin for the pre-shipped roles.

Access to the following is recommended;

- Supply Chain Finance, Manage Invoices, Associated Party Management, Purchase Order Management, and Cash Management All Transactions.
- Customer Servicing Aggregator, Limits, User Limits.
- Essentials Mails
- Widgets Inside Corporate, Dashboard quick links, Finance Maturing, Invoice Time line, Overdue Finances, Overdue Invoices, Top Programs, Limits Widget.

If access to any other transactions is given to the non-customer user, then those transactions are reflected in the hamburger menu but since the customer does not have an account in the Bank the other screens will not have any data displayed.

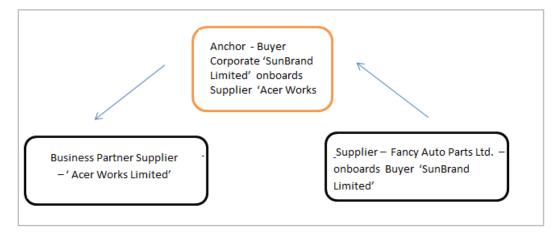

The Bank Admin can define which transactions are to be accessible to a non-customer through RTM. Similarly, bank admin can either enable or disable the corporate admin feature for non-customers. Access of Create Program and On-board Associated Party are NOT given in the RTM if these functionalities are not supported by the host.

3.5 <u>View Associated Parties</u>

Corporate will get a view of all its associated parties through 'View Associated Parties' screen. All its customers on-boarded by the Corporate can be viewed on this screen. Corporate will also be able to view its Anchors here.

Illustration –

Parties Involved:

Explanation:

Corporate SunBrand Limited logs on to the Portal and navigates to 'View Associated Parties, then both the corporates 'Acer Works Limited' who is the associated party of 'SunBrand Limited' and 'Fancy Auto Parts Limited' who has on-boarded 'SunBrand Limited' will be displayed.

The details of each of the associated party are displayed on accessing the respective Party. Details of associated party like his address and contact number along with the associated programs and its invoices are displayed

If the party is a buyer and not a Supplier, then 'Payables' data is displayed on the page for Program widget, vice-versa for if party is Supplier the 'Receivables' data is displayed. If party is buyer as well as Supplier, then 'Receivables' data is displayed default on the screen and the Switcher is set to 'Receivables'.

Pre-requisites

User must be having a valid corporate login credentials.

How to reach here:

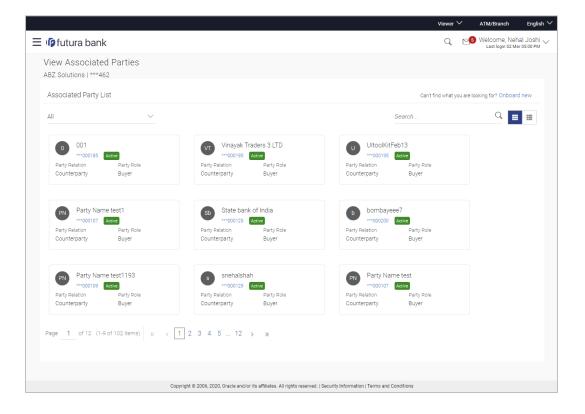

Dashboard > Toggle menu > Receivables/Payables > Associated Party Management > View Associated Parties OR

Dashboard > Toggle menu > Supply Chain Finance > Overview > Quick Links > View Associated Parties

To view associated parties:

1. In the **View Associated Parties** screen, a set of on-boarded party tiles appears. You can narrow down the set by using the filter options and the **Search** field.

View Associated Parties - Search Result

View Associated Parties (on mobile device)

The **View Associated Parties** screen can also be viewed on a mobile device. The features and functionality available on the desktop computers, such as hyperlinks, search filters, the dropdown field to select Anchor party or Counterparty, are also available on the mobile device.

Preferred Communication	Displays the preferred communication mode set for the associated party.
Registered Address	Displays the registered address of the associated party.
Communication Address	Displays the communication address of the associated party.

Field Name Description

Top Associated Programs

Displays the total value of receivables or payables with the name of the program in a donut chart. The top 4 performing programs are displayed on the basis of their receivables / payables. The amounts are specified in local currency equivalent and derived from Outstanding Invoices.

Note: This widget is visible only if the Oracle Banking Supply Chain Finance application is implemented by the bank. Additionally, this widget does not appear if the associated party is not linked to any program.

Associated Programs

Displays a list of programs linked to the associated party under which invoices have been raised. This section is visible only if the Oracle Banking Supply Chain Finance application is implemented by the bank.

Note: A program appears in this table only if one or more invoices have been linked to it.

Program Name & Id	Displays the name and ID of the program. The name of the program is a hyperlink which when clicked displays the View Program screen. For more information, refer the View Programs section in User Manual Oracle Banking Digital Experience Corporate Supply Chain Finance .
Party Role	Displays the role of the associated party, in the program.
Outstanding Invoices (No.)	Displays the count of invoices outstanding between the two parties, under the program. This number is a hyperlink, which when clicked displays the View Receivables/Payables screen. For more information, refer the <u>View Receivables/Payables</u> section in this document.
Outstanding Invoices (Value)	Displays the value of invoices outstanding between the two parties, under the program.
Status	Displays the status of the program.

 Click Cancel to cancel the transaction. OR Click Back to navigate back to the previous screen.

Home

4. Receivables/Payables Management

Receivables/Payables Management includes the following features:

- Associated Party Management On-boarding, Viewing, KYC document uploading.
- Receivables/Payables Management
 - Invoices Creation, Viewing, Editing, Accepting, Raising Dispute, Resolving Dispute, Assignment.
 - Debit Notes Creation, Viewing.
 - Credit Notes Creation, Viewing.
- Purchase Order Management Creation, Viewing, Editing, Accepting.
- **Payments Management** Bulk payments file uploading and viewing.
- **Reconciliation** Rule creation, edit and inquiry of the reconciliation and allocation rules. Manual reconciliation, manual allocation, and de-reconciliation.

<u>Home</u>

5. Create Receivables/Payables

Financial instruments such as invoices and debit notes are categorized as Receivables or Payables. They are referred to as, 'Receivables' when the logged-in corporate party is the Supplier; and 'Payables' when the logged-in corporate party is the Buyer.

Note: Certain 'Receivables/Payables' transactions are only supported on **Desktops/Laptops** and on **Landscape** mode of **Tablet** devices.

The features built for the corporate user for managing receivables/payables are as follows:

- Online Creation
- Invoice Creation with Document Upload (applicable only for invoices)
- Creation through Bulk File Upload
- Edit
- Accept
- View
- Cancel (prior to it being accepted)
- Save as Template
- Delete Template
- Raising Dispute
- Resolving Dispute
- Assignment

5.1 Invoices

An invoice is a bill sent from the seller to the buyer, documenting what has been purchased and what payment is owed. It is also known as a bill or contract of sale. An invoice allows the business owner or freelancer, to keep track of business transactions and make sure that they get paid.

An invoice is an important underlying instrument used in trade and Supply Chain and Cash Management. A commercial invoice is universally used in trade between a buyer and supplier. Financing of Supply Chain also takes place against such Invoices. In OBDX, we have built in the functionality to handle invoices as receivables and payables.

A corporate user (either buyer or supplier) can raise an invoice directly from the portal. Invoices can be created by manually entering the invoice details online, or using an existing template, or uploading the scanned copy of a physical invoice, or through file upload for bulk invoices creation. Based on the status of an invoice, a corporate user can edit, accept, partially accept, cancel, or request finance, directly from the portal.

Note: The application controls the creation of overdue invoices, based on a configuration flag. You are allowed to create invoices that are overdue, only if this flag is enabled.

Pre-requisites

User must have valid corporate login credentials.

5.1.1 Online Invoice Creation

Creation of invoices is an important transaction provided on the Portal. Using this option, corporate users can create single or multiple invoices online for the buyer in the Supply Chain Finance program. Post submission of the invoice, an option is provided to save the content as a Template. The template can be reused for creating invoices for the same corporate party.

Once the user creates invoices, they must be approved by an approver (if the approval flow has been set). The designated corporate approver is notified. The approver can either approve or reject the transaction. In case of rejection, the approver can send the transaction back to the corporate user (maker) to make the required modifications and re-submit it for approval.

Party Name & ID Displays the name and ID of the logged-in corporate party.

Field Name	Description
New Invoice	
Multiple Online Invoic	e Creation
Facing difficulty in entering data for multiple invoices? Use Bulk Upload	Click the Bulk Upload link to navigate to the File Upload screen for creating invoices in bulk.
Customer Invoice No	Enter the customer's own reference number of the invoice.
Associated Party	Select the associated party to link the invoice to. A list of all on- boarded associated parties is available for selection.
	On selecting an associated party, the role of the party as Buyer or Supplier , appears below this field.
Invoice Amount	Enter the gross invoice amount. This amount is before tax and discount. It should be the gross amount of the commodities.
Pre-acceptance	This toggle is set to 'No' and is disabled if the logged-in party is the supplier. It is set to 'Yes' and is disabled if the logged-in party is the buyer.
Name of Program	Select the program to which the invoice should be linked. Programs linked to the selected associated party are listed. This field is visible only if the Oracle Banking Supply Chain Finance application is implemented by the bank.
Auto Accept	Displays whether the invoice will be auto accepted or not. If the invoice will be auto-accepted, then the number of days post creation to auto-acceptance, is displayed. This field appears on selecting a program. It is populated based on the auto acceptance setting in the program definition. For more information on programs, refer the Create Program section in User Manual Oracle Banking Digital Experience Corporate Supply Chain Finance .
Auto Finance	Displays whether the invoice will be auto financed or not. This field appears on selecting a program. It is populated based on the auto finance setting in the program definition. For more information on programs, refer the Create Program section in User Manual Oracle Banking Digital Experience Corporate Supply Chain Finance .
Purchase Order No	Enter the reference number of the purchase order placed by the buyer.
Purchase Order Date	Click the calendar icon and select the date of creation of the purchase order.
Invoice Date	Click the calendar icon and select the date of creation of the invoice. The Invoice Date should be greater than the Purchase Order Date . You cannot enter a future date.

Field Name	Description
Invoice Due Date	Click the calendar icon and select the date on which the invoice payment is due.
	The Invoice Due Date should be greater than or equal to the Invoice Date .
Shipment Date	Click the calendar icon and select the date when the shipment is expected to take place.
	The Shipment Date should be greater than the Purchase Order Date and greater than or equal to the Invoice Date .
Payment Terms	Enter the terms agreed for the payment of the invoice.
Funding Request Date	Enter the date when the invoice should be funded or financed. This date should be greater than the current business date.
	This field is visible only if the Oracle Banking Supply Chain Finance application is implemented by the bank.

- 2. Once you enter the above details, you can optionally add the commodity details.
- 3. To add a commodity, click Add in the Commodity Details section. The Add Commodity Details overlay window appears.

Add Commodity Details

This overlay window appears when you click **Add** in the **Commodity Details** section.

Create Receivables/Payables - Commodity Details Section Updated

Field Description

Field Name	Description
Commodity Details This section displays th commodities can be ad	e commodity detail records, once you add them. Multiple ded.
Name	Displays the name of the commodity.
Code	Displays the code of the commodity.
Quantity	Displays the quantity of the commodity being purchased.
Cost/Unit	Displays the cost per unit of the commodity.
Gross Amount	Displays the total gross amount of the commodity being purchased. It is the product of the entered quantity and cost per unit. Gross Amount = Cost per unit * Quantity
Discount	Displays the discount amount and percentage being offered on the commodity.
Тах	Displays the tax amount and percentage being charged on the commodity.
Net Amount	Displays the net amount of the commodity being purchased. It is automatically calculated as follows: Net Amount = Gross Amount – Discount + Tax
Actions	 Indicates the actions that can be performed on the commodity record. Click Click to edit the record. Click to remove the record.

The following fields are present below the Commodity Details section, and are applicable at the invoice-level.

Gross Invoice Amount Displays the total gross amount of all the added commodities.

Discount	Displays the total discount amount of all the commodities added. The average discount percentage of all added commodities is also displayed. Click to reset the values.
	Total Discount % = (Total discount amount / Total invoice amount) *100
	Note: When commodity records are added, the discount value of each commodity is aggregated and populated here. This value cannot then be modified. However, if commodity records are not added, then this field is editable and the discount value or percentage can be entered here.

Field Name	Description
Тах	Displays the total tax amount of all the commodities added. The average tax percentage of all added commodities is also displayed.
	Click 💭 to reset the values.
	Total Tax % = (Total tax amount / Total invoice amount) *100
	Note: When commodity records are added, the tax value of each commodity is aggregated and populated here. This value cannot then be modified. However, if commodity records are not added, then this field is editable and the tax value or percentage can be entered here.
Miscellaneous Charges	Add the name and amount of any other miscellaneous charge applicable.
	Use igoplus to add another charge. A maximum of 2 miscellaneous charges can be added.
	Click Click the values.
Net Invoice Amount	Displays the total invoice amount that the buyer must pay, after deducting the discount and then applying the tax.
	Note: The Net Invoice Amount gets automatically calculated as follows: Net Invoice Amount = Gross Invoice Amount - Discount Value + Tax Amount
S	Indicates an option to reset the fields. This icon is present on the top right corner of the screen.
Duplicate Invoice	Indicates an option to add another invoice with the same details.
Add Invoice	Indicates an option to add another blank invoice.
	You can create multiple invoices using this link.

- 5. Modify the amount in the Invoice Amount field above the Commodity Details section, to match the Gross Invoice Amount of all commodities.
- 6. Click Save to save the invoice. OR

Click **Save and Copy** to save the invoice details and create a copy. OR

To clear the fields, click the \bigcirc icon in the top right side of the screen.

Field Description

Field Name

Description

Create Receivables/Payables

Party Name & ID Displays the name and ID of the logged-in corporate party.

Create Invoice step

The values that have been extracted from the invoice image (except for commodity details) are automatically populated in the respective fields. You can edit these values, if required.

Customer Invoice No	Indicates the customer's own reference number of the invoice.
----------------------------	---

- Associated Party Indicates the associated party with whom the invoice is to be linked. A list of all on-boarded associated parties is available for selection. On selecting an associated party, the role of the party as **Buyer** or **Supplier**, appears below this field.
- **Program Name** Indicates the program to which the invoice needs to be linked. Programs linked to the selected associated party are listed. This field is visible only if the Oracle Banking Supply Chain Finance application is implemented by the bank.
- Auto Accept Displays whether the invoice will be auto accepted or not. It is populated based on the auto acceptance setting in the program definition and is non-editable. For more information, refer the Create Program section in User Manual Oracle Banking Digital Experience Corporate Supply Chain Finance.
- Auto Finance Displays whether the invoice will be auto financed or not. It is populated based on the auto finance setting in the program definition and is non-editable. For more information, refer the Create Program section in User Manual Oracle Banking Digital Experience Corporate Supply Chain Finance.
- **Pre-acceptance** This toggle is set to 'No' and is disabled if the logged-in party is the supplier. It is set to 'Yes' and is disabled if the logged-in party is the buyer.
- **Purchase Order No** Indicates the reference number of the purchase order placed by the buyer.
- **Purchase Order Date** Indicates the date of creation of the purchase order.
- Invoice Date Indicates the date of creation of the invoice.
 - The **Invoice Date** should be greater than the **Purchase Order Date**.
- Invoice Due Date Indicates the date on which the invoice payment is due. The Invoice Due Date should be greater than or equal to the Invoice Date.

Field Name	Description			
Shipment Date	Indicates the date when the shipment is expected to take place. The Shipment Date should be greater than the Purchase Order Date and greater than or equal to the Invoice Date .			
Payment Terms	Indicates the terms agreed for the payment of the invoice.			
Invoice Amount	Indicates the total invoice amount of all commodities being purchased, along with the currency.			
Funding Request Date	Enter the date when the invoice should be funded. This field is visible only if the Oracle Banking Supply Chain Finance application s implemented by the bank.			
Commodity Details				
Commodity details are r of commodities being p	not automatically extracted by the application. Click Add to add details urchased.			
Name	Enter the name of the commodity.			
Code	Select the code for the commodity.			
Quantity	Specify the quantity of the commodity being purchased.			
Cost Per Unit	Enter the cost per unit of the commodity.			
Gross Amount	Displays the total amount of the commodity being purchased. It is the product of the entered quantity and cost per unit. Gross Amount = Cost Per Unit * Quantity			
Actions	Indicates the actions that can be performed on the commodity record.			
	 Click to make a duplicate record entry. 			
	• Click $^{\bigotimes}$ to remove the record.			
Total Amount	Displays the total gross amount of the commodities being purchased.			
Discount Percentage	Indicates the discount percentage being offered on the invoice.			
Discount Value	Displays the total discount amount.			
Tax Percentage	Indicates the tax percentage being charged on the invoice.			
Tax Value	Displays the total tax amount.			
Net Invoice Amount	Displays the overall invoice amount to be paid by the buyer.			
	Note: The Net Invoice Amount gets automatically calculated as follows: Net Invoice Amount = Total (Invoice) Amount - Discount Value + Tax Value			

5. Check all the extracted details and add or modify any value, if required.

Field Description

Field Name	Description
Create Receivable/Payal	ble
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Invoice/Debit Note	Select the Invoice option.
Online Invoice Creation	Indicates the option to create invoice records by manual entry of invoice details.
Invoice Creation with Document Upload	Indicates the option to create an invoice record by uploading the actual invoice document image.
Bulk File Upload Creation	Indicates the option to create bulk invoice records through file upload.

- 1. In the **Create Receivable/Payable** screen, select the Invoice option and then click the **Bulk File Upload** button. The **File Upload** screen appears.
- For more information on the procedure of uploading the file, refer User Manual Oracle Banking Digital Experience Corporate Bulk File Upload – Receivables Payables Management. Use the file template detailed below for upload.

ß

5.1.3.1 Bulk Invoice File Template

The file to be uploaded should have data in a specific sequence. For each invoice, there must be a top row with indicator 'I', which specifies invoice-level parameters. For each commodity under the invoice, there must be a row with indicator 'C', which specifies the commodity-level parameters.

Note: Refer this file for the sequence:

While uploading a .XLSX / .XLS file, if you do not have the required data for a particular cell, and need to leave it blank, then ensure that the particular empty cell has been formatted to the data type of the expected data of that cell. For example, a cell that is supposed to hold textual content, such as name or description, should be formatted to 'Text'. Similarly, a cell that is supposed to hold a number, should be formatted to 'Number'.

Field Description

Field Name	Description			
The following fields are specific to the invoice as a whole. This row must be present for each invoice being added.				
Indicator	Specify the indicator. Enter 'I' for an invoice row.			
Customer Invoice Number	Enter the customer's own invoice number.			
Invoice Date	Enter the date of creation of the invoice. This should not be a future date.			

Field Name	Description		
Invoice Due Date	Enter the date when the invoice payment is due. This should be greater than the invoice date.		
Currency	Enter the currency of the invoice amount.		
Gross Invoice Amount	Enter the total invoice amount.		
Buyer Id	Enter the ID associated with the buyer.		
Supplier Id	Enter the ID associated with the supplier.		
Buyer Name	Enter the name of the buyer.		
Supplier Name	Enter the name of the supplier.		
Program Code	Enter the program code associated with the invoice. This field is applicable only if the Oracle Banking Supply Chain Finance application is implemented by the bank.		
Discount Amount	Enter the total discount amount applicable for all commodities being purchased.		
Tax Amount	Enter the total tax amount applicable, on all commodities beipurchased.		
Net Invoice Amount	Enter the net invoice amount.		
	Net Invoice Amount = Gross Invoice Amount – Discount Amount + Tax Amount		
Acceptance Amount	Enter the invoice amount that has been accepted.		
Purchase Order Number	Enter the reference number of the purchase order corresponding to the invoice.		
Funding Request Date	te Enter the date when the invoice should be funded. This field applicable only if the Oracle Banking Supply Chain Financ application is implemented by the bank.		
The following fields are sp being purchased, under th	pecific to a commodity. You must add a row for each commodity e respective invoice row.		
Indicator	Specify the indicator. Enter C for a row at the commodity level.		
Customer Invoice Number	Enter the customer's own invoice number.		
Commodity Code	Enter the code associated with the commodity.		
Commodity Name	Enter the name of the commodity.		
Quantity	Enter the quantity of the commodity.		
Cost Per Unit	Enter the cost per unit of the commodity.		

Field Name	Description
Gross Amount	Enter the total cost of the commodity. Gross Amount = Cost Per Unit * Quantity
Discount Amount	Enter the discount amount applicable to the commodity.
Tax Amount	Enter the tax amount applicable to the commodity.
Net Amount	Enter the net amount of the commodity. Net Amount = Gross Amount – Discount Amount + Tax Amount

5.2 Debit Notes

A Debit Note can be interpreted as a request to increase the value agreed upon in the invoice. Debit notes may be raised under the following circumstances: the supplier has delivered goods in excess of those stated in the invoice, or an error in pricing.

A corporate user (either buyer or supplier) can raise a debit note directly from the portal. Debit notes can be created by manually entering the details online, or using an existing template, or through file upload for bulk debit notes creation.

Pre-requisites

User must have valid corporate login credentials.

Note: The Debit Notes Transactions are only supported on **Desktops/Laptops** and on **Landscape** mode of **Tablet** devices.

The application controls the creation of overdue debit notes, based on a configuration flag. You are allowed to create debit notes that are overdue, only if this flag is enabled.

5.2.1 Online Debit Note Creation

Using this option, corporate users can create single or multiple debit notes online for the buyer in the Supply Chain Finance program. Post submission of the debit note, an option is provided to save the content as a Template. The template can be reused for creating debit notes for the same program and associated corporate party.

Once the user creates debit notes, they must be approved by an approver (if the approval flow has been set). The designated corporate approver is notified. The approver can either approve or reject the transaction. In case of rejection, the approver can send the transaction back to the corporate user (maker) to make the required modifications and re-submit it for approval.

Discount	Displays the total discount amount of all the commodities added. The average discount percentage of all added commodities is also displayed. Click C to reset the values.
	Total Discount % = (Total discount amount / Total debit note amount) *100
	Note: When commodity records are added, the discount value of each commodity is aggregated and populated here. This value cannot then be modified. However, if commodity records are not added, then this field is editable and the discount value or percentage can be entered here.
Тах	Displays the total tax amount of all the commodities added. The average tax percentage of all added commodities is also displayed. Click Click to reset the values.
	Total Tax % = (Total tax amount / Total debit note amount) *100
	Note: When commodity records are added, the tax value of each commodity is aggregated and populated here. This value cannot then be modified. However, if commodity records are not added, then this field is editable and the tax value or percentage can be entered here.
Miscellaneous Charges	Add the name and amount of any other miscellaneous charge applicable.
	Use ⁽¹⁾ to add another charge. A maximum of 2 miscellaneous charges can be added.
	Click which the values.
Net Debit Note Amount	Displays the overall debit note amount to be paid by the buyer.
Amount	Note:The Net Debit Note Amount gets automatically calculatedasfollows:Net Debit Note Amount = Gross Debit Note Amount - Discount Value + Tax AmountFor the second
\bigcirc	Indicates an option to reset the fields. This icon is present on the top right corner of the screen.

- 5. Modify the amount in the **Debit Note Amount** field above the Commodity Details section, to match the **Gross Debit Note Amount**, of all commodities.
- Click Save to save the debit note.
 OR
 Click Save and Copy to save the debit note and to create an editable copy.
 OR

To clear the fields, click the icon in the top right side of the screen.

 - OR

Click **Cancel** to cancel the transaction. OR

Click **Back** to navigate back to the previous screen.

 In the Review screen, verify the details, and click Confirm. A confirmation message appears with the reference ID and status of the transaction. OR

Click **Back** to navigate back to the previous screen.

OR

Click **Cancel** to cancel the transaction.

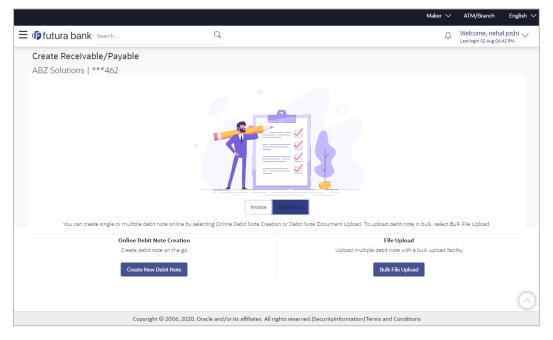

5.2.2 Bulk Debit Note Creation

Debit note records can be created in bulk through file upload.

How to reach here:

Dashboard > Toggle Menu > File Upload > File Upload OR Dashboard > Quick Links > File Upload OR Dashboard > Toggle menu > Receivables/Payables > Receivables/Payables Management > Create Receivables/Payables > Debit Note

To create debit notes in bulk:

Field Description

Field Name	Description
Create Receivable/Paya	ble
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Invoice/Debit Note	Select the Debit Note option.
Online Debit Note Creation	Indicates the option to create debit note records by manual entry of the details.
File Upload	Indicates the option to create bulk debit note records through file upload.

- 1. In the **Create Receivable/Payable** screen, select the **Debit Note** option and then click the **Bulk File Upload** button. The **File Upload** screen appears.
- 2. For more information on the procedure of uploading the file, refer User Manual Oracle Banking Digital Experience Corporate Bulk File Upload – Receivables Payables Management. Use the file template detailed below for upload.

5.2.2.1 Bulk Debit Note File Template

The file to be uploaded should have data in a specific sequence. For each debit note, there must be a top row with indicator 'DN', which specifies debit-note-level parameters. For each commodity under the debit note, there must be a row with indicator 'C', which specifies the commodity-level parameters.

Note: Refer this file for the upload file format:

While uploading a .XLSX / .XLS file, if you do not have the required data for a particular cell, and need to leave it blank, then ensure that the particular empty cell has been formatted to the data type of the expected data of that cell. For example, a cell that is supposed to hold textual content, such as name or description, should be formatted to 'Text'. Similarly, a cell that is supposed to hold a number, should be formatted to 'Number'.

Field Description

Field Name	Description
The following fields are sp	pecific to a debit note. You must add a row for each debit note record.
Indicator	Enter DN in this field. This is a mandatory field.
Debit Note Reference Number	Enter the customer's reference number for the debit note. This is a mandatory field.
Link Invoice Number	Enter the invoice reference numbers to be associated with the debit note. You can provide multiple invoice numbers using the pipe separator.
	Note: The invoice numbers provided here should belong to the same party ID for which the debit note is being uploaded.
	The invoice numbers provided here should also belong to the same buyer-supplier combination, as that of the debit note.
	The invoices specified in this field should not have been cancelled. Debit notes cannot be raised against cancelled invoices.
Debit Note Date	Enter the date of creation of the debit note. This date should not be greater than the current business date. It should also not be less than the invoice date. This is a mandatory field.
Debit Note Due Date	Enter the due date of the debit note.
Buyer Code**	Enter the code associated with the buyer.
Supplier Code**	Enter the code associated with the supplier.

Field Name	Description
Currency*	Enter the debit note currency. A 3-digit currency code as per ISO standards is acceptable. This is a mandatory field.
Base Debit Note Amount*	Enter the gross debit note amount.
Discount Amount	Enter the discount amount applicable on the base debit note amount.
Tax Amount	Enter the applicable tax amount.
Net Debit Note Amount*	Enter the net debit note amount, post application of discount and tax. This is a mandatory field.
	Net Debit Note Amount = Base Debit Note Amount – Discount Amount + Tax Amount
Buyer Division Code	Enter the division code of the buyer.
Supplier Division Code	Enter the division code of the supplier.
Disputed	Enter ${f Y}$ if the debit note is disputed by the buyer, and ${f N},$ otherwise.
Buyer ID*	Enter the party ID of the buyer.
Supplier ID*	Enter the party ID of the supplier.
Buyer Name	Enter the name of the buyer.
Supplier Name	Enter the name of the supplier.
Acceptance Amount	Enter the debit note amount that is accepted by the buyer. This amount should be less than or equal to the Net Debit Note Amount .
Program ID	Enter the ID of the program associated with the debit note. This ID should be the same as the program ID associated with the linked invoices. This field is applicable only if the Oracle Banking Supply Chain Finance application is implemented by the bank.
Virtual A/c Flag*	Enter Y if the repayment is to be made to a virtual account number, and N if the repayment is to be made to a physical account number.
Repayment Account Number**	Enter the account number to which the repayment is to be made. This field is mandatory of the Virtual A/c Flag is set to Y .
Bank**	Enter the name of the bank linked to the repayment account.
Branch**	Enter the name of the branch linked to the repayment account.
BIC/Routing Code**	Enter the BIC/Routing code of the repayment account.

Field Name	Description
Funding Request Date	Enter the date when the debit note should be funded. This field is applicable only if the Oracle Banking Supply Chain Finance application is implemented by the bank.
Funding Request Amount	Enter the amount for which funding is requested. This should be less than or equal to the Acceptance Amount . This field is applicable only if the Oracle Banking Supply Chain Finance application is implemented by the bank.
Adjustment Reason	 Enter the reason for adjustment. The available values are: Pricing Error Allowance/Charge Error Extension Error Quantity Contested Pallet/Container Charge Error Freight Deducted Tax Deducted Items not received
Remarks	Enter any remarks, if applicable.
Shipment Number	Enter the unique reference number of the shipment.
Shipment Date	Enter the date of the shipment.
Shipment Address	Enter the destination address of the shipment.
Shipment Country	Enter the destination country of the shipment.
Reason for Export	Enter the reason for export.
Terms of Sale(Incoterms)	 Enter the applicable 3-digit Incoterms code. The available values are: EXW Ex Works FAS Free Alongside Ship FCA Free Carrier FOB Free On Board CPT Carriage Paid To CFR Cost and Freight CIP Carriage and Insurance Paid To CIF Cost Insurance and Freight DAP Delivered at Place DPU Delivered at Place Unloaded DDP Delivered Duty Paid
Payment Terms	Enter the agreed payment terms.

Field Name	Description
Country of Origin	Enter the name of the country from where the shipment originated.
The following fields are s the debit note.	pecific to a commodity. You must add a row for each commodity in
Indicator**	Enter C for a commodity row.
Debit Note Reference Number	Enter the reference number of the debit note. This is a mandatory field.
Invoice Number**	Enter the invoice reference number of the commodity. This number should also be listed in the Linked Invoice Number field of the Debit Note.
	Note: Only one invoice number is allowed in this field. If the commodity is linked with multiple invoices, then a commodity row should be added for each invoice.
Commodity Code**	Enter the unique code of the commodity. This code should be the same as that present in the linked invoice in the debit note.
Commodity Name	Enter the name of the commodity. This name should be the same as that present in the linked invoice in the debit note.
Quantity**	Enter the quantity of the commodity.
Unit Cost	Enter the cost per unit of the commodity.
Gross Total of Commodity	Enter the total cost of the commodity. Gross Amount = Unit Cost * Quantity
Discount Amount	Enter the discount amount applicable to the commodity.
Tax Amount	Enter the tax amount applicable to the commodity.
Net Amount**	Enter the net amount of the commodity. Net Amount = Gross Total of Commodity – Discount Amount + Tax Amount

<u>FAQ</u>

1. Who can create invoices/debit notes?

Invoices/debit notes can be created into the banks system by a supplier or a buyer, with valid login credentials and access rights. If the invoice/debit note is being created by a buyer then the pre-acceptance flag gets defaulted as 'Yes' as it is implied that the buyer is accepting the invoice/debit note. If the invoice/debit note is being raised by a supplier, then the pre-acceptance flag gets defaulted as 'No'.

2. Can I create multiple invoices/debit notes for different buyers?

Yes, a corporate can create multiple invoices/debit notes online, for different buyers.

3. How many invoices/debit note can I create at a time?

There is no upper limit for creation of multiple invoices/debit note at one time. The user can create as many invoices/debit note as required.

4. How many templates can I save in total?

There is no limit set for maximum number of templates that can be created.

<u>Home</u>

6. View/Edit Receivables/Payables

Using this option, you can view a list of receivables/payables (invoices and debit notes) based on the corporate party's role as a buyer or supplier.

On selection of Buyer view, you can view all the payables as of current date where the corporate party's role is that of a buyer in the program, and on selection of Supplier view, you can view all the receivables as of current date where the party's role is that of a supplier in the program.

Pre-requisites

- For viewing invoices/debit notes User must have valid corporate login credentials.
- For editing invoices/debit notes User must have valid corporate login credentials for creation of invoices/debit notes.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Receivables/Payables Management > View/Edit Receivables/Payables OR

Dashboard > Toggle menu > Supply Chain Finance > Overview > Quick Links > View Invoice

To view receivables/payables:

1. In the **Select Role** pop-up window, select either the **Buyer** or the **Supplier** option to view your data in terms of Receivables or Payables.

Field Description

Field Name Description

View Receivables/Payables

This screen displays a list of invoices and debit notes based on the role of the logged-in party.

Party Name & ID	Displays the name and ID of the logged-in corporate party.				
Switch View	Indicates the option to view the receivables/payables based on the corporate party's role.				
	The options are:				
	• Buyer				
	Supplier				

Field Name	Description				
Search	Enter a partial or complete search string, such as reference number, or associated party name, or amount, to search for specific instruments.				
Download	Indicates an option to download the list of receivables/payables as a CSV file.				
∇	Click this icon to filter the instruments, based on certain criteria. For more information, refer the Search overlay window section below.				

List of Receivables / List of Payables

A list of receivables/payables is displayed in this section. If the 'Buyer' role is selected, then this section displays a list of payables. And if the 'Supplier' role is selected, then a list of receivables is displayed.

Indicator	Displays 'l' for an invoice and 'D' for a debit note.				
Customer Reference Number	Indicates the unique reference number of the receivable/payable. This is a hyperlink which when clicked displays the details of the receivable/payable. Refer the <u>View Invoice Details</u> and the <u>View</u> <u>Debit Note Details</u> sections for more information. Click the calendar icon to view the Funding Request Date . This icon is present only if the Funding Request Date has been captured during receivable/payable creation.				
Associated Party	Displays the name of the counter party linked with the receivable/payable.				
Due Date	Displays when the receivable/payable is due.				
Amount	Displays the total receivable/payable amount.				
Status	Displays the status of the receivable/payable.				
Receivable/Payable	Displays the amount that is yet to be received/paid.				
Amount The Offer Details (²²⁶) icon is displayed beside this amount, if offer has been applied to the invoice or debit note. On clicking icon, the Early Payment Discounts overlay window appears with details of the offer. For more details, refer the <u>Early Paym</u> <u>Discounts (from View Discount Offer Details)</u> section below.					
Finance Status	Displays the status of any finance availed against the instrument. This value can be one of the following:				
Financed					
	Partially Financed				
	• Finance in Process				
	If the instrument has not been financed, or if the finance is in progress, then this field remains blank.				

Field Name	Description					
Payment Status	Displays the status of payment of the receivable/payable. This can be one of the following:					
	• Paid					
	Partially Paid					
	Payment in Process					
	Unpaid					

Search (overlay window)

Program Name	Indicates an option to retrieve the receivables/payables associated with a particular program. This field is visible only if the Oracle Banking Supply Chain Finance application is implemented by the bank.			
Due Date From/To	Indicates the option to retrieve the receivables/payables that are due in a specific time range.			
Amount Range Currency From/To	Indicates the option to search for the receivables/payables of a particular currency, within a specific amount range.			
Payment Status	Indicates an option to retrieve the receivables/payables with payments in a particular status. The options are: • Paid			
	Unpaid			
	Partially Paid			
Finance Status	 Payment in Process Indicates an option to search for receivables/payables based on 			
	their finance status, whether financed, or partially financed. The options are:			
	Financed			
	Partially Financed			
	Finance in Process			
	This field is visible only if the Oracle Banking Supply Chain Finance application is implemented by the bank.			
Funding Request Date From/To	Indicates the option to retrieve the receivables/payables with funding request dates in a specific time range.			

Field Name	Description			
Stale Invoices	Indicates an option to retrieve invoices based on whether they are stale or not. Select 'Yes' to retrieve stale invoices and 'No', otherwise.			

- 3. To filter the list of receivables/payables, either use the **Search** field or the Filter (∇) option.
- To view the details of a specific receivable/payable, click the Customer Reference Number link. For an invoice, the View Invoice Details screen appears. For a debit note, the View Debit Note Details screen appears.

6.1 <u>View Invoice Details</u>

This screen appears if you click the <u>Customer Reference Number</u> link of a particular invoice in the **View Receivables/Payables** screen. It displays the detailed information of the invoice. You can view the following details:

- Itemized amount details
- Commodity details, if they have been added during creation.
- Reconciliation details, if the invoice has been partially or fully reconciled with payment(s).
- Finances details, if finance has been availed against the invoice.
- Offer details, if any discount offers have been applied to the invoice.

The party that has raised the invoice can edit, delete or cancel the invoice, from this screen, based on the status of the invoice. The party that is liable to make the payment can accept the invoice, or request finance from this screen.

Field Name

Description

Offer Details tab

This tab appears if any offer has been applied to the invoice.

Offer Name Displays the name of the applied offer.

Offer Type Displays whether the offer is Fixed or Tenor Based.

On clicking the •••• icon beside the 'Tenor Based' option, a popup window appears with the tenors and the applicable discount rates. The **Payment Period From** and **Payment Period To** are expressed in terms of number of days from the date of invoice creation. The **Discount Rate** column is displayed if the 'Sliding Scale Applicable' has been disabled during discount offer creation. In case 'Sliding Scale Applicable' has been enabled, then the **Highest Possible Discount Rate** and the **Lowest Possible Discount Rates** are displayed for each tenor.

Amount Details	Commodity	Details Offer Details	_	
Offer Name	Offer Type	Sliding Scale	Discount Amount	Amount After Discount

Page 1	of 1 (1-;	1	300	10%
		301	600	7%
Cancel Back	k l	601	900	5%

Sliding Scale	Displays 'Yes' if sliding scale discount is applicable, and 'No', otherwise.			
Discount Amount	Displays the discount amount applicable.			
Amount After Discount	Displays the invoice amount after application of discount.			
Payment Option	Displays the option selected for payment. This can be one of the following: Fixed Flexible Both 			
Payment Date	Displays the date of payment.			
Status	Displays the colour-coded status of the offer.			

The actions that can be performed from the **View Invoice Details** screen, depends on the status of the invoice and payment, and the role of the logged-in corporate party.

- Accept Refer the <u>Accept Invoice</u> section under Manage Invoices in this document.
- Edit Refer the Edit Invoice section under Manage Invoices in this document.
- **Cancel** Refer the <u>Cancel Invoice</u> section under Manage Invoices in this document.
- Raise Dispute Refer the <u>Raise Dispute</u> section under Manage Invoices in this document.
- Resolve Dispute Refer the <u>Resolve Dispute</u> section under Manage Invoices in this document.
- Assign Refer the <u>Assignment of Invoice</u> section under Manage Invoices in this document.
- **Request Finance** From the View Invoice Details screen, the borrowing party can request for finance against an invoice that is ACCEPTED or PARTIALLY ACCEPTED, and with payment status being UNPAID or PARTIALLY PAID. The borrowing party can be either buyer or supplier, based on the attributes of the Program linking these parties. An invoice can be fully or partially financed based on the configuration set by the bank, and the configured borrowing limits of the corporate party. Based on whether the invoice is fully or partially financed, the status of the invoice changes to FINANCED or PARTIALLY FINANCED.

Net Amount	Displays the net amount of the commodity. Net Amount = Gross Amount – Discount + Tax
Gross Debit Note Amount	Displays the total amount of all the commodities (gross amount).
Total Discount Value	Displays the total discount amount of all the commodities added. The average discount percentage of all added commodities is also displayed.
	Total Discount % = (Sum of discount amount of all commodities / Sum of gross amount of all commodities) *100
Total Tax Value	Displays the total tax amount of all the commodities added. The average tax percentage of all added commodities is also displayed.
	Total Tax % = [Sum of tax amount of all commodities / (Sum of gross amount of all commodities - Sum of discount amount of all commodities)] *100

Field Name	Description
Net Debit Note Amount	Displays the calculated value on basis of discount and tax values entered.
	Note: The Net Invoice Amount gets auto calculated as follows: Net Invoice Amount = Gross Invoice Amount - Total Discount Value + Total Tax Value

<u>Home</u>

7. Dynamic Discounting

Dynamic Discounting is a solution that provides suppliers with the option of receiving early payment in exchange for a discount on their invoice. Suppliers propose to offer discount if paid early where as buyers can also propose to pay early in exchange for a discount.

Dynamic discounting is typically applied on an invoice-by-invoice basis, with the discount generally expressed as a percentage of the face value of the invoice. Dynamic discounting is a true win-win solution that benefits both trading partners. Not only does this solution strengthen each party's financial health, it also improves relationships throughout the supply chain.

The "dynamic" component refers to the option of offering variable discounts based on the dates of payment to suppliers. In most cases, the earlier the payment is made, the greater the discount.

Note: The Dynamic Discounting feature is not displayed if the Supply Chain Finance Module is not implemented by the bank.

7.1 Create Discount Offer

Using this screen, you can create a discount offer.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Dynamic Discounting > Create Discount Offer

To create discount offer:

Field Name	Description		
Create Discount Offers			
Discount Offer Name	Enter the name to be associated with the discount offer being created.		
Effective Date	Click the calendar icons and set the start and end dates for the validity of the discount offer.		
Associated Party	Select the counter party whose receivables/payables, the discount offer should be applied to.		
	Once the counter party is selected, the role of the counter party, whether buyer or seller, appears below this field.		
Discount Rate Type	Select whether the discount rate will be fixed or tenor based. For the Fixed option, a fixed discount rate will be applied to the receivable/payable outstanding amount. For the Tenor Based option, variable discount rates are applicable based on the number of days within which the receivable/payable is paid off.		
Sliding Scale Applicable	Enable this switch if the discount rate to be applied should reduce as the payment day advances.		
	When Sliding Scale Applicable is switched ON:		
	• In case of Fixed discount rate, if the payment is made on the same day as invoice creation, then the entire discount is applied to the invoice amount. As each day advances, the discount rate slides down by the average discount per day from the invoice creation date till the invoice due date.		
	• In case of Tenor Based discount type, two columns are added to the Tenor Based table, namely, Highest Possible Discount Rate and Lowest Possible Discount Rate. On the starting day of the tenor, the highest possible discount rate is offered on the invoice amount. The discount rate then gradually slides down by the average discount per day from the start day of the tenor to the final day of the tenor. On the final day of the tenor, the lowest possible discount rate is offered.		

Field Name Description

The following scenarios are applicable if you select the **Fixed** option from the **Discount Rate Type** field.

Scenario 1: For Discount Rate Type - Fixed, Sliding Scale Applicable – OFF

The Discount Rate field appears. The discount entered in this field, is applied whenever the payment is made on any day from the invoice creation day to the invoice due day.

Scenario 2: For Discount Rate Type – Fixed, Sliding Scale Applicable – ON

The Discount Rate field appears. The discount entered in this field is offered on the day of invoice creation. Then, as each day advances, the discount rate reduces by the average discount value per day from invoice creation day to invoice due day. No discount is offered past the due day. For example, if the invoice creation day is Day 1 and invoice due day is Day 10, and the discount rate offered is 10%, then on Day 1, 10% discount is offered on the invoice amount. Then as each day advances, the discount is reduced by 1%, so on Day 2, the discount offered is 9%. On Day 5, the discount offered is 5%. And on Day 10, the discount offered is 1%.

Discount Rate Enter the discount rate to be applied for the offer.

This field appears if you select the **Fixed** option from the **Discount Rate Type** field.

The following scenarios are applicable if you select the **Tenor Based** option from the **Discount Rate Type** field.

Scenario 1: For Discount Rate Type – Tenor Based, Sliding Scale Applicable – OFF

A tabular section appears, with Payment Period From, Payment Period To, and Discount Rate columns for entering the tenor and discount details. For each tenor entered, a fixed discount rate is offered. For example:

Payment Period From	Payment Period To	Discount
1	10	10
11	20	5

If invoice payment is made any day from the 1st to 10th day of invoice creation, a fixed discount of 10% is offered on the invoice amount. From the 11th to the 20th day of invoice creation, a discount of 5% is offered on the invoice amount.

Scenario 2: For Discount Rate Type - Tenor Based, Sliding Scale Applicable - ON

A tabular section appears, with Payment Period From, Payment Period To, Highest Possible Discount Rate, and Lowest Possible Discount Rate columns. The discount rate for each tenor, starts with the highest possible value on the Payment Period From day. It then slides down by the average discount rate per day from the Payment Period From day to the Payment Period To day, for each tenor. For example:

Payment Period From	Payment Period To	Highest Possible Discount Rate	Lowest Possible Discount Rate	
1	5	20	15	
6	10	14	10	

If invoice payment is made on the 1st day, then a discount of 20% is offered on the invoice amount. As each day advances, the discount is reduced by 1%. So on the 2nd day, the discount offered is 19%. On the 5th day, discount offered is 15%, and so on.

Field Name	Description
Payment Period From	Enter the starting day of the tenor.
Payment Period To	Enter the final day of the tenor.
Discount Rate	Enter the discount percentage applicable for the tenor. This field is applicable only if Sliding Scale option is switched OFF.
\oplus	Click the add icon to add another tenor and applicable discount rate.
<u>ل</u>	Click the delete icon to delete a specific tenor.
Highest Possible Discount Rate	Enter the upper threshold of discount rate that should be offered on the first day of the tenor.
Lowest Possible Discount Rate	Enter the lower threshold of discount rate that should be offered on the final day of the tenor.
Payment Option	Select the required payment option.
	If you select Flexible , then the applicable discount is offered on the day of the payment as per the offer maintenance.
	If you select Fixed , then a specific day must be selected during the acceptance of discount offer in Manage Receivables/Payables. Discount is offered only when the payment is made on that specific day.
	If you select Both , then an option to select between 'Flexible' and 'Fixed' payment options is provided during the acceptance of discount offer in Manage Receivables/Payables.

- 1. In the **Create Discount Offer** stage, enter the details as mentioned above.
- Click Next to go to the Select Receivables/Payables stage. OR Click Back to go to the previous screen. OR

Click **Cancel** to cancel the creation of the discount offer.

Field Description

Field Name	Description
Early Payment Discount	S
Offer Name Discount Rate Type	Displays the name of the applied offer. The colour-coded discount rate type is also displayed below the offer name. This can be either Fixed or Tenor Based .
Associated Party	Displays the name of the associated party linked with the invoice record.
Amount	Displays the invoice amount.
Receivable Amount	Displays the outstanding invoice amount.
Select Payment day to avail best discounts	Move the slider along the date line to select a particular payment date to view the discount being offered on that date. The start date of the slider is always the current business date. The due date of the receivable/payable is the end date of the slider. The payment date and discount rate are displayed in the receivable/payable tile below.
Receivable/Payable tile The applicable discount ra	ate is displayed in the top right corner of this tile.
Reference Number	Displays the reference number of the receivable/payable.
Payment Date	Displays the payment date that is selected using the slider.
Discount Amount	Displays the discount amount applicable.
Amount After Discount	Displays the receivable/payable amount after application of discount.

Field Name	Description
Slide Scale	Displays Yes if the Sliding Scale Applicable switch has been enabled during discount offer creation, and No , otherwise.
Payment Option	 Displays the payment option that has been selected during discount offer creation. This can be one of the following: Fixed Flexible Both
Payment Period and Discount Options	This section is displayed only for Tenor Based discount rate type. It displays a table with the Payment Period and the applicable Discount Rate . In case Slide Scale is 'Yes', then instead of Discount Rate, the Highest Possible Discount Rate and the Lowest Possible Discount Rate are displayed.

8. Manage Receivables/Payables

Using this screen, a corporate user can manage all receivables/payables associated with the corporate party. The portal provides a single screen to the corporate party, for all possible actions that can be taken on receivables/payables. At present, the following actions can be effected on relevant receivables/payables:

- Accept
- Accept/Reject Discount Offer
- Edit
- Cancel
- Raise Dispute
- Resolve Dispute
- Assignment

Note: These actions are not available on a mobile device at present.

Pre-requisites

User must have valid corporate login credentials.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Receivables/Payables Management > Manage Receivables/Payables

Field Name	Description
Manage Receivables	/Payables
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Action Tiles	Select the required action to be effected on the relevan receivables/payables.
	On selecting an action tile, the number of receivables/payables tha can be effected by that action, appears in the respective tile. The List of Receivables/Payables section is also updated with the relevant receivables/payables records.
	The options available are:
	 Accept - For more information, refer the <u>Accept</u> section below
	 Accept/Reject Discount Offer – For more information, refer the <u>Accept/Reject Discount Offer</u> section below.
	 Edit - For more information, refer the <u>Edit</u> section below.
	 Cancel - For more information, refer the <u>Cancel</u> section below
	 Raise Dispute – For more information, refer the <u>Raise Dispute</u> section below.
	 Resolve Dispute – For more information, refer the <u>Resolve</u> <u>Dispute</u> section below.
	 Assignment – For more information, refer the <u>Assignmen</u> section below.

8.1 <u>Accept</u>

Using this option, the corporate party with the role of 'Buyer' can accept receivables/payables to convey the agreement to pay the receivable/payable amount. You can partially accept the receivables/payables by entering a part of the total amount that you wish to accept. This resets the receivable/payable amount to the remaining value after partial acceptance.

Note: Only the corporate party with the role of **Buyer**, can accept receivables/payables. Also, only those receivables/payables with status as **Raised**, and payment status as **Unpaid**, can be accepted.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Receivables/Payables Management > Manage Receivables/Payables

OR

Dashboard > Toggle menu > Receivables/Payables > Receivables/Payables Management > View/Edit Receivables/Payables > Customer Reference Number link of RAISED invoice/debit note

To accept receivables/payables:

1. In the **Manage Receivables/Payables** screen, click the **Accept** tile. A list of receivables/payables that are in the Raised status, appears.

Field Description

Field Name Description

Manage Receivables/Payables – Accept

List of Receivables/Payables (number selected)

This section displays a list of receivables/payables against which the 'Accept' action can be effected. Once you select one or more receivables/payables to accept, the number of receivables/payables selected appears in brackets.

Search Enter the partial or full receivable/payable reference number / associated party name / status to search for specific receivable/payable. The results appear as and when you enter the data.
 Click this icon to filter the receivables/payables, based on certain criteria. For more information, refer the Search (overlay window

for Manage Receivables/Payables) section below.

ORACLE

Field Name	Description
Check Box	To select all the receivables/payables in the list, select the main check box. To select specific receivables/payables, select the check boxes beside those receivables/payables. If you select more than one receivable/payable, the following message appears:
	You may add comments for all selected receivables/payables. <u>Click Here</u> .
	Note: To add comments for all selected receivables/payables:
	1) Click the <u>Click Here</u> link. A pop-up window appears.
	2) Add relevant comments.
	 Click Apply to apply the same. OR Click Cancel to cancel adding the comments.
Indicator	Displays 'l' for invoice.
Associated Party	Displays the name of the associated party linked with the receivable/payable.
Reference Number	Displays the unique reference number of the receivable/payable. The reference number is a hyperlink, which when clicked, displays the receivable/payable details in an overlay window.
Due Date	Displays the date on which the receivable/payable must be fully paid.
Amount	Displays the total receivable/payable amount.
Accepted Amount	Indicates the receivable/payable amount that is acceptable to the buyer. By default, the total receivable/payable amount is displayed in this field. Once you select a receivable/payable, this field becomes editable.
	Note: The receivable/payable can be fully or partially accepted. To partially accept a receivable/payable: 1) Select the check box beside the receivable/payable to be partially accepted.
	2) Click and enter the amount that you wish to accept.
	3) Click 🕒 to save the entered amount.
Comments	Enter remarks if any, while accepting the receivable/payable. Once you select a receivable/payable, this field becomes editable.
	Note: Remarks are mandatory in case of partially accepting the receivable/payable.
Status	Displays the status of the receivable/payable.

Field Name	Description
Upload Documents	Click to upload relevant documents. Once you select a receivable/payable, this icon becomes clickable.
	The following document formats are supported: JPEG, JPG, PNG, and PDF. A maximum of 5 documents can be uploaded.
	Once you upload documents, the number of documents uploaded appears as a hyperlink in brackets, beside this icon. On clicking this hyperlink, a pop-up window appears with the names of the
	documents uploaded. To delete an uploaded document, click $\widehat{\mathbb{III}}$ beside the document in the pop-up window.
	Note : These documents can also be viewed and downloaded by the approver/checker.

OR

Click **Back** to go to the previous screen.

8.2 Accept/Reject Discount Offer

Using this option, the supplier can either accept or reject discount offers that have been linked to invoices. This option is available only if the Oracle Banking Supply Chain Finance application is implemented by the bank.

Note: The Accept/Reject Discount Offer tile is not displayed if the Supply Chain Finance Module is not implemented by the bank.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Receivables/Payables Management > Manage Receivables/Payables

To accept/reject discount offers:

 In the Manage Receivables/Payables screen, click the Accept/Reject Discount Offer tile. A list of relevant receivables/payables appears on which a discount offer each has been raised.

Field Description

Field Name Description

Manage Receivables/Payables – Accept/Reject Discount Offer

List of Receivables/Payables (number selected)

This section displays a list of receivables/payables against which the 'Accept/Reject Discount Offer' action can be effected. Once you select one or more receivables/payables, the number of receivables/payables selected appears in brackets.

- **Select Multiple** Enable this switch to select multiple receivables/payables for accepting/rejecting discount offers. Multiple discount offers can be accepted/rejected in the same transaction, only when the name of the discount offers, the date and the due date of the receivable/payable are the same. Once this switch is enabled, check boxes appear beside the receivables/payables, for selection.
- Search Enter the partial or full receivable/payable reference number / associated party name / status to search for specific receivables/payables. The results appear as and when you enter the data.

Accept/Reject Discount This hyperlink is enabled only when the Select Multiple switch is Offer enabled and when you select one or more receivables/payables. It enables accepting/rejecting the offer applied to multiple receivables/payables one click. Only those in receivables/payables can be selected, whose date and due date are the same and where the same offer has been applied. On clicking this link, the Early Payment Discounts overlay window appears where you can view and accept/reject the linked discount offer. For more information, refer the Early Payment Discounts section below.

- Click this icon to filter the receivables/payables, based on certain criteria. For more information, refer the <u>Search (overlay window</u> for Manage Receivables/Payables) section below.
- **Check Box** To select all the receivables/payables in the list, select the main check box. To select specific receivables/payables, select the check boxes beside those receivables/payables.

The check boxes appear only when the **Select Multiple** switch is enabled.

Indicator	Displays 'l' for invoice.
Reference Number Date	Displays the unique reference number of the receivable/payable. The reference number is a hyperlink, which when clicked, displays the receivable/payable details in an overlay window. The date of creation of the receivable/payable is also displayed.
Associated Party Role	Displays the name of the associated party linked to the receivable/payable. The role of the associated party is also displayed.

Field Name	Description
Offer Name	Displays the name of the offer linked to the receivable/payable.
Due Date	Displays the date when the receivable/payable must be fully paid off.
Outstanding Amount	Displays the receivable/payable amount that is yet to be received/paid. The discount offer icon is displayed beside this amount.
Remarks	Once you accept or reject a discount offer, this field displays relevant remarks (regarding the acceptance or rejection).
Action	Indicates an option to either accept or reject the discount offer. On clicking this link, the Early Payment Discounts overlay window appears where you can view and accept/reject the linked discount offer. For more information, refer the <u>Early Payment Discounts</u> section below.

Field Name	Description
Amount	Displays the receivable/payable amount. If the Select Multiple Switch is enabled, then this field displays the total amount of all the selected receivables/payables.
Receivable Amount	Displays the outstanding receivable amount. If the Select Multiple Switch is enabled, then this field displays the total outstanding amount of all the selected receivables/payables.
Select Payment day to avail best discounts	Move the slider along the date line to select a particular payment date and to view the discount being offered on that date. The start date of the slider is always the current business date. The invoice due date is the end date of the slider. The payment date and discount rate are displayed in the receivable/payable tile below.

Receivable/Payable tile(s)

If the **Select Multiple** switch is enabled, then a tile is displayed for each selected invoice. The applicable discount rate is displayed in the top right corner of each tile.

Reference Number	Displays the reference number of the receivable/payable.
Payment Date	Displays the payment date that is selected using the slider.
Discount Amount	Displays the discount amount applicable.
Amount After Discount	Displays the receivable/payable amount after application of discount.
Slide Scale	Displays Yes if the Sliding Scale Applicable switch has been enabled during discount offer creation, and No , otherwise.
Payment Option	Displays Flexible , in case this option has been selected during discount offer creation. This field is not editable in this case. You can use the date selection slider to view what discount is available on what date.
	Displays Fixed , in case this option has been selected during discount offer creation. This field is not editable in this case. Use the date selection slider above to set a fixed date for payment. The discount offer is applicable only when the payment is done on this particular date.
	Displays both 'Fixed' and 'Flexible' if Both option has been selected during discount offer creation. In this case, you can select either the Fixed Date or the Flexible Date option for payment. If you select the Fixed Date option, then use the date selection slider above to set a fixed date for payment. The discount offer is applicable only when the payment is done on this particular date.
Payment Period and Discount Options	This section is displayed only for Tenor Based discount rate type. It displays a table with the Payment Period and the applicable Discount Rate . In case Slide Scale is 'Yes', then instead of Discount Rate, the Highest Possible Discount Rate and the Lowest Possible Discount Rate are displayed.

- 2. In the Early Payment Discounts overlay window:
 - If the **Payment Option** is **Fixed**, then set the payment date by using the slider under Select Payment day to avail best discounts.
 - If the **Payment Option** is **Both**, then select either Fixed Date or Flexible Date for payment. If the Fixed Date option is selected, then set the payment date by using the slider under **Select Payment day to avail best discounts**.
- 3. Click **Accept** to accept the discount offer. OR

Click Reject to reject the discount offer.

On Clicking Accept

Manage Receivables/Payables - Edit action selected

Field Description

Field Name Description

Manage Receivables/Payables - Edit

List of Receivables/Payables (number selected)

This section displays a list of receivables/payables against which the 'Edit' action can be effected. Once you select one or more receivables/payables to edit, the number of receivables/payables selected appears in brackets.

Search Enter the partial or full receivable/payable reference number / associated party name / status to search for specific receivables/payables. The results appear as and when you enter the data.

Click this icon to filter the receivables/payables, based on certain criteria. For more information, refer the <u>Search (overlay window</u> <u>for Manage Receivables/Payables)</u> section below.

Field Name	Description
Check Box	To select all the receivables/payables in the list, select the main check box. To select specific receivables/payables, select the check boxes beside those receivables/payables. If you select more than one receivable/payable, the following message appears:
	You may add comments for all selected receivables/payables. <u>Click Here</u> .
	Note: To add comments for all selected receivables/payables:
	1) Click the Click Here link. A pop-up window appears.
	2) Add relevant comments.
	3) Click Apply to apply the same. OR
	Click Cancel to cancel adding the comments.
Indicator	Displays 'I' for an invoice and 'D' for a debit note.
Associated Party	Displays the name of the associated party linked with the receivable/payable.
Reference Number	Displays the unique reference number of the receivable/payable. The reference number is a hyperlink, which when clicked, displays the receivable/payable details in an overlay window.
Due Date	Displays the date on which the receivable/payable must be fully paid. Once you select a receivable/payable, this field becomes editable. You can click the calendar icon to alter the receivable/payable due date.
Amount	Displays the total receivable/payable amount.
Comments	Enter relevant comments. Once you select a receivable/payable, this field becomes editable.
Status	Displays the status of the receivable/payable.
Upload Documents	Click for upload relevant documents. Once you select a receivable/payable, this icon becomes clickable.
	The following document formats are supported: JPEG, JPG, PNG, and PDF. A maximum of 5 documents can be uploaded.
	Once you upload documents, the number of documents uploaded appears as a hyperlink in brackets, beside this icon. On clicking this hyperlink, a pop-up window appears with the names of the
	documents uploaded. To delete an uploaded document, click $\widehat{\mathbb{III}}$ beside the document in the pop-up window.
	Note : These documents can also be viewed and downloaded by the approver/checker.

8.5 Raise Dispute

If a corporate party (either Buyer or Supplier) does not agree with the details of a receivable/payable, they can raise a dispute against the receivable/payable.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Receivables/Payables Management > Manage Receivables/Payables OR Dashboard > Toggle menu > Receivables/Payables > Receivables/Payables Management > View/Edit Receivables/Payables > Customer Reference Number link of invoice/debit note

To raise dispute against a receivable/payable:

1. In the **Manage Receivables/Payables** screen that appears, either click the <u>Raise Dispute</u> link or the **Raise Dispute** tile. A list of receivables/payables on which dispute can be raised, appears.

- 2. Once you select the required receivable/payable, update the **Disputed Amount** field, select the reason for dispute, and enter relevant comments.
 - You can also click and upload relevant documents, if required. •
- 3. Click **Submit**. The Review screen appears.
 - OR

Click Cancel to cancel the transaction.

OR

Click **Back** to go to the previous screen. 4. Review the details and click **Confirm**. A confirmation message appears with the reference number and status of the transaction.

OR Click Cancel to cancel the transaction.

OR

Click **Back** to go to the previous screen.

8.6 **Resolve Dispute**

A corporate user can use this option to resolve disputes that have been raised against receivables/payables.

Note: The **Resolve Dispute** action can be effected only on those receivables/payables that have disputes raised against them.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Receivables/Payables Management > Manage Receivables/Payables OR

Dashboard > Toggle menu > Receivables/Payables > Receivables/Payables Management > View/Edit Receivables/Payables > Customer Reference Number link of invoice/debit note

To resolve a dispute raised against a receivable/payable:

1. In the **Manage Receivables/Payables** screen that appears, either click the **Resolve Dispute** link or the **Resolve Dispute** tile. A list of disputed receivables/payables, appears.

Manage Receivables/Payables – Resolve Dispute

List of Receivables/Payables (number selected)

This section displays a list of receivables/payables against which 'Resolve Dispute' action can be effected. Once you select one or more receivables/payables to resolve dispute against, the number of receivables/payables selected appears in brackets.

Search	Enter the partial or full receivable/payable reference number / associated party name / status to search for specific receivables/payables. The results appear as and when you enter the data.
∇	Click this icon to filter the receivables/payables, based on certain criteria. For more information, refer the <u>Search (overlay window</u> <u>for Manage Receivables/Payables)</u> section below.
Check Box	To select all the receivables/payables in the list, select the main check box. To select specific receivables/payables, select the check boxes beside those receivables/payables. If you select more than one receivable/payable, the following message appears:
	Click Here.
	Note: To add comments for all selected receivables/payables:
	1) Click the Click Here link. A pop-up window appears.
	2) Add relevant comments.
	 Click Apply to apply the same. OR Click Cancel to cancel adding the comments.
Indicator	Displays 'l' for an invoice and 'D' for a debit note.
Associated Party	Displays the name of the associated party linked with the receivable/payable.
Reference Number Status	Displays the unique reference number of the receivable/payable along with its status. The reference number is a hyperlink, which when clicked, displays the receivable/payable details in an overlay window.
	Also displays the status of the receivable/payable.
Due Date	Displays the date on which the receivable/payable must be fully paid.
Amount	Displays the total receivable/payable amount.
Disputed Amount	Displays the amount that is being disputed.

Field Name	Description
Dispute Reason	Displays the reason for the dispute.
Comments	Enter any relevant comments. Once you select a receivable/payable, this field becomes editable.
Upload Documents	Click to upload relevant documents. Once you select a receivable/payable, this icon becomes clickable.
	The following document formats are supported: JPEG, JPG, PNG, and PDF. A maximum of 5 documents can be uploaded.
	Once you upload documents, the number of documents uploaded appears as a hyperlink in brackets, beside this icon. On clicking this hyperlink, a pop-up window appears with the names of the
	documents uploaded. To delete an uploaded document, click $\widehat{\mathbb{III}}$ beside the document in the pop-up window.
	Note: These documents can also be viewed and

Note: These documents can also be viewed and downloaded by the approver/checker.

8.7 Assignment

A corporate party can assign the responsibility of handling their receivables/payables to a factor. This process is referred to as assignment. The responsibilities can include collecting, distributing, financing, repayment, and so on. This option is available only if the Oracle Banking Supply Chain Finance application is implemented by the bank.

Note: The Assignment tile is not displayed if the Supply Chain Finance Module is not implemented by the bank.

If the 'Acceptance Applicable' flag is enabled for the program associated with the receivable/payable, then the receivable/payable is available for assignment only after it has been 'Accepted'. Else, the receivable/payable is available for assignment regardless of its status.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Receivables/Payables Management > Manage Receivables/Payables OR

Dashboard > Toggle menu > Receivables/Payables > Receivables/Payables Management > View/Edit Receivables/Payables > Customer Reference Number link of invoice/debit note

To perform assignment of receivables/payables:

1. In the **Manage Receivables/Payables** screen that appears, click the **Assignment** tile. A list of receivables/payables on which the assignment action can be effected, appears.

• The status is set to Raised , by default, when filtering receivables/payables for Cancel , or Accept . The status cannot be edited in these cases.					

Home

9. Credit Notes

In general, a Credit Note can be interpreted as a receipt or an invoice given by a shop to a customer who has returned goods. This can then be offset against future purchases. It is essentially an instruction to debit the supplier and credit the buyer. Credit notes may be raised under the following circumstances:

- The supplier fails to deliver goods of the same value as the buyer's payment, assuming that the buyer has made an advance payment.
- The rate charged on an earlier invoice is higher than the actual rate.
- The buyer pays prior to the due date leading the supplier to provide a discount by way of a credit note.
- Items (commodities) raised in the invoice are returned by the buyer.

Pre-requisites

User must have valid corporate login credentials.

Note: The Credit Notes Transactions are only supported on **Desktops/Laptops** and on **Landscape** mode of **Tablet** devices.

9.1 <u>Create Credit Note</u>

Credit note records can be created by direct online entry or in bulk through file upload.

9.1.1 Online Credit Note Creation

Using this option, corporate users can create single or multiple credit notes online. Post submission of the credit note, an option is provided to save the content as a Template. The template can be reused for creating credit notes for the same program and associated corporate party.

Once the user creates credit notes, they must be approved by an approver (if the approval flow has been set). The designated corporate approver is notified. The approver can either approve or reject the transaction. In case of rejection, the approver can send the transaction back to the corporate user (maker) to make the required modifications and re-submit it for approval.

Field Name	Description
Create Credit Note	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
New Credit Note	
Facing difficulty in entering data for multiple Credit Note? Use Bulk Upload	Click the Use <u>Bulk Upload</u> link to navigate to the File Upload screen for creating credit notes in bulk.
Customer Credit Note Number	Enter the customer's own reference number for the credit note.
Associated Party	Select the associated party to link the credit note to. A list of all on- boarded associated parties is available for selection. On selecting an associated party, the role of the party as Buyer or Supplier , appears below this field.
Program Name	Select the program to which the credit note should be linked. Programs linked to the selected associated party are listed. This field is visible only if the Oracle Banking Supply Chain Finance application is implemented by the bank.
Auto Accept	Displays the number of days post creation when the credit note will be deemed as accepted. This field appears on selecting a program. It is displayed only if auto-acceptance is enabled at the program- level. For more information on programs, refer the Create Program section in User Manual Oracle Banking Digital Experience Corporate Supply Chain Finance .

Field Name	Description
Auto Finance	Displays whether the credit note will be auto financed or not. This field appears on selecting a program. It is populated based on the auto finance setting in the program definition. For more information on programs, refer the Create Program section in User Manual Oracle Banking Digital Experience Corporate Supply Chain Finance .
Credit Note Amount	Select the credit note currency and enter the gross credit note amount (not including tax or discount).
Credit Note Date	Click the calendar icon and select the date of creation of the credit note.
Expiry Date	Click the calendar icon and select the date on which the credit note expires. The Expiry Date should be greater than or equal to the Credit Note Date .
Adjustment Reason	Select the reason for adjusting the invoice amount.
Linked Invoice Number	Select the invoice that should be linked to the credit note. Once you link invoice(s), the Populate Commodity Details from Invoice toggle is enabled, and the commodities from the invoice(s) appear in the Commodity Details grid of the credit note.
Populate Commodity Details from Invoice	This toggle is automatically enabled when you link invoices to the credit note in the Linked Invoice Number field. The Commodity Details section gets populated with the commodities from the linked invoice(s), when this toggle is enabled.
	Switch this toggle off in case you want to remove the commodities from the credit note.

- 2. Once you enter the above details, you can optionally add/modify the commodity details.
 - a. To add a commodity record, click **Add**. An overlay window appears, where you can capture the commodity details.
 - b. To modify an existing commodity record, click $\overset{\oslash}{\sim}$.
 - c. To delete a commodity record, click $\widehat{I\!I\!I}$.

Add Commodity Details

The Add Commodity Details overlay window appears when you click Add in the Commodity Details section.

	Click Ø to edit the record.
	Click III to remove the record.
The following fields are the invoice-level.	present below the Commodity Details section, and are applicable at

Gross Credit Note Amount	Displays the total gross amount of all the added commodities.
Discount	Displays the total discount amount of all the commodities added. The average discount percentage of all added commodities is also displayed. Click to reset the values. Total Discount % = (Total discount amount / Total debit note amount) *100
	Note: When commodity records are added, the discount value of each commodity is aggregated and populated here. This value cannot then be modified. However, if commodity records are not added, then this field is editable and the discount value or percentage can be entered here.

Field Name	Description
Тах	Displays the total tax amount of all the commodities added. The average tax percentage of all added commodities is also displayed.
	Click 📿 to reset the values.
	Total Tax % = (Total tax amount / Total debit note amount) *100
	Note: When commodity records are added, the tax value of each commodity is aggregated and populated here. This value cannot then be modified. However, if commodity records are not added, then this field is editable and the tax value or percentage can be entered here.
Miscellaneous Charges	Add the name and amount of any other miscellaneous charge applicable.
	Use igoplus to add another charges. A maximum of 2 miscellaneous charges can be added.
	Click Click to reset the values.
Net Credit Note	Displays the overall credit note amount that is owed to the buyer.
Amount	Note: The Net Credit Note Amount gets automatically calculated as follows: Net Credit Note Amount = Gross Credit Note Amount - Discount Value + Tax Amount
\bigcirc	Indicates an option to reset the fields. This icon is present on the top right corner of the screen.

- 4. Modify the amount in the **Credit Note Amount** field above the Commodity Details section, to match the **Gross Credit Note Amount**, of all commodities.
- 5. Click **Save** to save the debit note.
- OR

Click **Save and Copy** to save the credit note and to create an editable copy. OR

To clear the fields, click the \bigcirc icon in the top right side of the screen.

Field Description

Field Name	Description
Create Credit Note	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Online Debit Note Creation	Indicates the option to create credit note records by manual entry of the details.
File Upload	Indicates the option to create bulk credit note records through file upload.

1. In the Create Credit Note screen, click Bulk File Upload. The File Upload screen appears.

2. For more information on the procedure of uploading the file, refer User Manual Oracle Banking Digital Experience Corporate Bulk File Upload – Receivables Payables Management. Use the file template detailed below for upload.

Bulk Credit Note File Template

The file to be uploaded should have data in a specific sequence. For each credit note, there must be a top row with indicator 'CN', which specifies credit-note-level parameters. For each commodity under the credit note, there must be a row with indicator 'C', which specifies the commodity-level parameters.

Note: Refer this file for the upload file format:

While uploading a .XLSX / .XLS file, if you do not have the required data for a particular cell, and need to leave it blank, then ensure that the particular empty cell has been formatted to the data type of the expected data of that cell. For example, a cell that is supposed to hold textual content, such as name or description, should be formatted to 'Text'. Similarly, a cell that is supposed to hold a number, should be formatted to 'Number'.

Field Name	Description			
The following fields are specific to a credit note. You must add a row for each credit note record.				
Indicator	Enter CN in this field. This is a mandatory field.			
Cr. Note Reference Number	Enter the customer's reference number for the credit note. This is a mandatory field.			
Link Invoice Number	Enter the invoice reference numbers to be associated with the credit note. You can provide multiple invoice numbers using the pipe separator.			
	Note: The invoice numbers provided here should belong to the same party ID for which the credit note is being			

	Note: The invoice numbers provided here should belong to the same party ID for which the credit note is being uploaded.
	The invoice numbers provided here should also belong to the same buyer-supplier combination, as that of the credit note.
	The invoices specified in this field should not have been cancelled. Credit notes cannot be raised against cancelled invoices.
Cr Note Date	Enter the date of creation of the credit note. This date should not be greater than the current business date. It should also not be less than the invoice date. This is a mandatory field.
Cr Note Expiry Date	Enter the expiry date of the credit note.
Buyer Code**	Enter the code associated with the buyer.
Supplier Code**	Enter the code associated with the supplier.

Field Name	Description		
Currency*	Enter the credit note currency. A 3-digit currency code as per ISO standards is acceptable. This is a mandatory field.		
Base Cr Note Amount*	Enter the gross credit note amount.		
Discount Amount	Enter the discount amount applicable on the base credit note amount.		
Tax Amount	Enter the applicable tax amount.		
Net Cr Note Amount*	Enter the net credit note amount, post application of discount and tax. This is a mandatory field. Net Cr Note Amount = Base Cr Note Amount – Discount Amount + Tax Amount		
Buyer Division Code	Enter the division code of the buyer.		
Supplier Division Code	Enter the division code of the supplier.		
Buyer ID*	Enter the party ID of the buyer.		
Supplier ID*	Enter the party ID of the supplier.		
Buyer Name	Enter the name of the buyer.		
Supplier Name	Enter the name of the supplier.		
Program ID	Enter the ID of the program associated with the credit note. This ID should be the same as the program ID associated with the linked invoices. This field is applicable only if the Oracle Banking Supply Chain Finance application is implemented by the bank.		
Adjustment Reason	 Enter the reason for adjustment. The available values are: Pricing Error Allowance/Charge Error Extension Error Quantity Contested Pallet/Container Charge Error Freight Deducted Tax Deducted Items not received 		
Remarks	Enter any remarks, if applicable.		
The following fields are sp the credit note.	pecific to a commodity. You must add a row for each commodity in		

Indicator** Enter **C** for a commodity row.

Field Name	Description
Credit Note reference number	Enter the reference number of the credit note. This is a mandatory field.
Invoice Number**	Enter the invoice reference number of the commodity. This number should also be listed in the Linked Invoice Number field of the credit note.
	Note: Only one invoice number is allowed in this field. If the commodity is linked with multiple invoices, then a commodity row should be added for each invoice.
Commodity Code**	Enter the unique code of the commodity. This code should be the same as that present in the linked invoice in the credit note.
Commodity Name	Enter the name of the commodity. This name should be the same as that present in the linked invoice in the credit note.
Quantity**	Enter the quantity of the commodity.
Unit Cost	Enter the cost per unit of the commodity.
Gross Total of Commodity	Enter the total cost of the commodity. Gross Amount = Unit Cost * Quantity
Discount Amount	Enter the discount amount applicable to the commodity.
Tax Amount	Enter the tax amount applicable to the commodity.
Net Amount**	Enter the net amount of the commodity. Net Amount = Gross Total of Commodity – Discount Amount + Tax Amount

9.2 View Credit Note

Using this option, corporate users can view the credit notes, with respect to the corporate's role as buyer or supplier.

Switch View	Indicates the option to view the credit notes based on the corporate party's role.		
	The options are:		
	Buyer		
	Supplier		

Field Name	Description
Search	Indicates an option to search for specific credit notes. As the partial or full reference number is entered, the relevant credit notes are displayed.
∇	Click this icon to filter the credit notes, based on certain criteria. For more information, refer the <u>Search (overlay window for View</u> <u>Credit Note)</u> section below.

List of Receivables/Payables

Displays a list of credit notes based on the entered search criteria, for the party's role as supplier or buyer. The credit notes are displayed as:

- Receivables, if the role of the logged-in party is selected as '**Buyer**' in the Switch View field.
- Payables, if the role of the logged-in party is selected as '**Supplier**' in the Switch View field.

Customer Reference Number	Displays the customer's reference number for the credit note as fetched from the Host. This is a hyperlink which when clicked displays the details of the credit note. For more information, refer the <u>View Credit Note Details</u> section, in this document.
Associated Party	Displays the counter party name as fetched from the Host.
Expiry Date	Displays the expiry date of the credit note as fetched from the Host.
Amount	Displays the credit note amount along with the currency as fetched from the Host.
Status	Displays the status of the credit note. This can be one of the following:
	Raised
	Expired
	Cancelled
Payable Amount / Receivable Amount	Displays the amount payable / receivable depending on the role selected. If the role is of a buyer, then it is the receivable amount, else it is the payable amount.
Reconciliation Status	Displays the payment status of the credit note. This can be one of the following:
	Matched
	Partially Matched
	Reconciliation in Process
	Unmatched

You can perform the following actions in the View Credit Note screen:

• Click the **Customer Reference Number** link to view the details of the credit note.

- Click **Download** to download the credit notes list in CSV format.
- Click **Cancel** to go to the main dashboard.

Reconciliation Details tab

This tab appears if the credit note is reconciled against payments. Multiple payments may have been reconciled against a credit note.

Payment Reference Number	Displays the reference number of the payment that has been reconciled with the credit note record. This is a hyperlink, which when clicked displays the payment details. For more information, refer the <u>View Payments (details)</u> section in this user manual.
Payment Date	Displays the date of payment.
Payment Amount	Displays the amount of the payment.
Reconciliation Date	Displays the date when the reconciliation has been performed.
Remitter Name / Beneficiary Name	Displays the name of the remitter, in case of an inflow payment. Displays the name of the beneficiary, in case of an outflow payment.
Reconciliation Amount in Payment Currency	Displays the reconciliation amount in the currency that the payment has been made in.
Reconciliation Amount in Credit Note Currency	Displays the reconciliation amount in the currency of the credit note.

You can perform the following actions from the View Credit Note Details screen:

- Click the <u>Preview & Download</u> link to preview and download the credit note.
- Click **Cancel** to go to the main dashboard.
- Click **Back** to go to the previous screen.

9.2.1.1 Preview and Download Credit Note

10. Purchase Order Management

Purchase order is a formal document sent by the buyer to the supplier, for purchasing products/services. It essentially contains details of the commodities that the buyer wishes to purchase, the quantities required, the shipping address, and so on.

In OBDX, purchase orders are created by a corporate with the role of 'Buyer'. A corporate supplier can also create purchase orders, based on a system configuration flag called 'Allow PO creation by Supplier'. This flag can be accessed by the system administrator. If set to 'Yes', a corporate supplier is also allowed to create purchase orders. If set to 'No', then purchase order creation is only restricted to corporate buyers. For more details on system configuration, refer **User Manual Oracle Banking Digital Experience System Configuration**.

If the purchase order is created by the buyer, then the supplier can accept it, directly from the portal. The buyer can edit and modify the purchase order prior to it being accepted by the supplier. If the purchase order is created by the supplier, then it is automatically deemed as accepted. The purchase order cannot be edited, in this case.

Purchase orders with status as 'Accepted', can be financed, either by the buyer or the supplier, based on who is set as borrower in the linked program.

Pre-requisites

User must have valid corporate login credentials.

The features built for the corporate user in Purchase Order Management are as follows:

- Overview
- Online Purchase Order Creation
- Purchase Order Creation with Document Upload
- Bulk File Upload Purchase Order Creation
- Edit Purchase Order
- Accept/ Reject Purchase Order
- View Purchase Orders
- Cancel Purchase Orders
- Save Purchase Order as Template
- Delete Purchase Order Template
- Request Finance against Purchase Orders (through Supply Chain Finance module)

Note: The Purchase Order Management Transactions are only supported on **Desktops/Laptops** and on **Landscape** mode of **Tablet** devices.

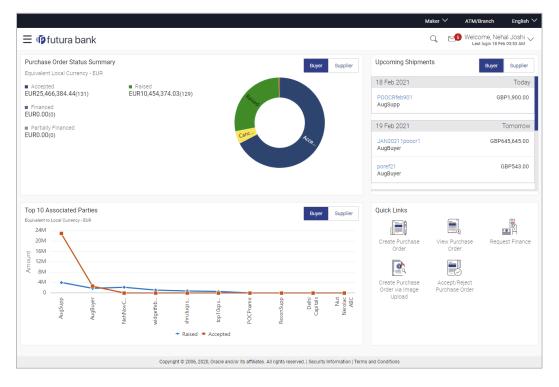

10.1 Overview

The Purchase Order Overview screen consists of the following widgets:

- Purchase Order Status Summary
- Upcoming Shipments
- Top 10 Associated Parties
- Quick Links

Dashboard

Purchase Order Status Summary – This widget lists the total amount associated with purchase orders in each status. The amounts are specified in the equivalent local currency. A graphical representation of this data is presented by the donut graph. The percentage equivalents of the amounts can be seen by clicking or hovering the cursor over the respective sections in the graph. The data is available for both roles of the corporate party – Buyer and Supplier.

Upcoming Shipments – This widget displays details of the upcoming shipments of the corporate party. Separate views are available for the corporate party's role as Buyer and Supplier. The following details are displayed for each shipment: the purchase order reference number, the counter party name, and the purchase order amount. On clicking the purchase order reference number link, the View Purchase Order (details) screen appears. For more information on this screen, refer the <u>View Purchase Order Details</u> section in this document.

Top 10 Associated Parties – This widget displays a graphical representation of the top 10 counter parties linked with the logged-in corporate party, for each of their roles – Buyer and Supplier. This widget provides a quick view of the top 10 associated parties of the corporate based on the value of purchase orders in Raised and Accepted status.

Quick Links – The most commonly used transactions are provided as quick links for quick access. Following transactions are provided as quick links:

- Create Purchase Order
- View Purchase Order
- Request Finance
- Create Purchase Order via Image Upload
- Accept/Reject Purchase Order

10.2 Online Purchase Order Creation

Purchase orders can be created by manually entering the data, or by uploading a file with the bulk purchase-order entries. The data entered manually can be saved as a template for future use. Once the user creates purchase order(s), they must be approved by an approver (if the approval flow has been set). The designated corporate approver is notified. The approver can either approve or reject the transaction. In case of rejection, the approver can send the transaction back to the corporate user (maker) to make the required modifications and re-submit for approval.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Purchase Order Management > Create Purchase Order

Field Name

Description

Commodity Details

This section displays the commodity details, once you add them. Multiple commodities can be added.

Name	Displays the name of the commodity.
Code	Displays the code of the commodity.
Quantity	Displays the required quantity of the commodity.
Total Weight	Displays the total weight of the commodity, along with the weight per unit.
Cost/Unit	Displays the cost per unit of the commodity.
Gross Amount	Displays the gross amount of the commodity.
Discount	Displays the discount amount applicable, along with the discount percentage.
Тах	Displays the tax amount applicable, along with the tax percentage.
Net Amount	Displays the net amount of the commodity, after application of discount and tax.
Action	 Indicates the actions that can be performed on the commodity record. Click this icon to edit the commodity details. Click this icon to remove the commodity details entered.
Gross Purchase Order Amount	Displays the total gross amount of the purchase order. This is the sum of the gross amounts of all added commodities. This value should be equal to the value in the Purchase Order Amount field. If not, you must adjust the value in the Purchase Order Amount field accordingly.
Total Discount Value	Displays the total discount amount of all the commodities added. The average discount percentage of all added commodities is also displayed. Total Discount % = (Sum of discount amount of all commodities / Sum of gross amount of all commodities) *100

Field Name	Description
Total Tax Value	Displays the total tax amount of all the commodities added. The average tax percentage of all added commodities is also displayed.
	Total Tax % = [Sum of tax amount of all commodities / (Sum of gross amount of all commodities - Sum of discount amount of all commodities)] *100
Net Purchase Order Amount	Displays the total net amount, after deducting the discount value and then applying the tax value.
	Net Purchase Order Amount = Gross Purchase Order Amount – Total Discount amount + Total Tax amount
\mathbb{C}	Click this icon on the top right corner to reset the fields.
Duplicate Purchase Order	Click this link to add another purchase order with the same details.
Add Purchase Order	Click this link to add another blank purchase order. You can create multiple purchase orders using this link.

- 4. Ensure that the amount in the **Purchase Order Amount** field is the same as the **Gross Purchase Order Amount**.
- 5. Click **Save** to save the purchase order. OR

To clear the fields, click the \square icon in the top right side of the screen.

Note: On clicking **Save**, the application validates the selected associated party, based on the corporate admin setting, 'Allow PO Creation by Supplier'. If this flag is set to 'No', then the application allows purchase order creation only if the logged-in party is the buyer and the selected associated party is the supplier. If the flag is set to 'Yes', then there are no restrictions on purchase order creation.

10. Click <u>Save as Template</u> to save the purchase order details as a template for future use. OR

Click the link provided to view the status of the purchase order along with other details. OR

Click Go To Dashboard to go to the dashboard.

OR

Click Create Purchase Order to create further purchase orders.

10.2.2 Create Purchase Order using Template

You can save the data entered during purchase order creation, as a template. This option is available upon successful creation of a purchase order. You can use this template in the future to create purchase orders for the same party. This saves the efforts of re-entering the data.

To view and use templates for creation of purchase orders:

1. On navigating to the **Create Purchase Order** screen, click the **Template** tab. A list of existing templates appears.

Field Description

Field Name	Description
Search	Indicates an option to search for specific purchase orders.
Template Name	Displays the name of the purchase order template.
No. of Purchase Orders Saved	Displays the number of purchase orders saved under the template.
Created By	Displays the name of corporate user who created the template.
Last Updated	Displays the last updated date of the purchase order template.
Actions	Click the icon to delete the purchase order template.

- Navigate through the pages to the required template, or use the Search field to find a specific template.
- Click the desired <u>Template Name</u> link. The template details appear. OR

Click against the template to delete the existing purchase order template. A popup message appears to confirm the deletion.

• Click **Yes** to delete the template. OR

Click **No** to cancel the deletion.

4. Click and select the **Edit** option. The template details are populated in the **New Purchase Order** screen.

- 5. Add or modify the data as required.
- 6. Click **Save** to save the purchase order.
- Click the <u>Duplicate Purchase Order</u> link to add another purchase order with same details entered in the current one. OR

Click the Add Purchase Order link to club another purchase order in the transaction.

8. Click **Submit** to submit the transaction. The Review screen appears.

OR Click **Cancel** to cancel the transaction. OR Click **Back** to navigate back to the previous screen.

9. In the Review screen, verify the details and click **Confirm**. A confirmation message of request initiation for purchase order creation appears along with the reference number and status.

OR Click **Back** to navigate back to the previous screen. OR Click **Cancel** to cancel the transaction.

10.3 Purchase Order Creation with Document Upload

Using this option, corporate users can create purchase orders online by uploading scanned copies of the physical purchase order document.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Purchase Order Management > Create Purchase Order

To create a purchase order through document upload:

1. Scan the physical purchase order and save it in one of the following formats: PDF, PNG, JPG, JPEG. Ensure that the file size does not exceed 2MB.

	een extracted from the invoice image (except for commodity details) ated in the respective fields. You can edit these values, if required.					
Customer Purchase Order Number	Indicates the customer's own reference number of the purchase order.					
Associated Party	Indicates the associated party with whom the purchase order is to be linked. A list of all on-boarded associated parties is available for selection.					
	On selecting an associated party, the role of the party as Buyer or Supplier , appears below this field.					
Program Name	Indicates the program to which the purchase order needs to be linked. Programs linked to the selected associated party are listed. This field is visible only if the Oracle Banking Supply Chain Finance application is implemented by the bank.					
Auto Accept	Displays whether the purchase order will be auto accepted or not. It is populated based on the auto acceptance setting in the program definition and is non-editable. For more information, refer the Create Program section in User Manual Oracle Banking Digital Experience Corporate Supply Chain Finance .					
Auto Finance	Displays whether the purchase order will be auto financed or not. It is populated based on the auto finance setting in the program definition and is non-editable. For more information, refer the Create Program section in User Manual Oracle Banking Digital Experience Corporate Supply Chain Finance .					
Pre-acceptance	This toggle is set to 'Yes' and is disabled if the logged-in party is the supplier. It is set to 'No' and is disabled if the logged-in party is the buyer.					
Purchase Order Date	Indicates the date of creation of the purchase order.					
Purchase Order Amount	Indicates the total purchase order amount of all commodities being purchased, along with the currency.					
Shipment Date	Indicates the date when the shipment is expected to take place. The Shipment Date should be greater than the Purchase Order Date .					
Shipment Address	Indicates the address where the goods should be shipped to.					
Payment Terms	Indicates the terms agreed for the payment of the purchase order.					

Field Name Description

Commodity Details

Commodity details are not automatically extracted by the application. Click **Add** in this section to add these details. The **Add Commodity Details** overlay window appears, with the following fields.

Name	Indicates the name of the commodity being purchased.
Code	Indicates the code of the commodity.
Quantity	Indicates the commodity quantity required.
Weight/Unit	Indicates the weight per unit of the commodity. Also indicates the unit of measurement to be used for weight.
Total Weight	Displays the total weight of the commodity. This value is automatically calculated and displayed. It is the product of the values in the Quantity and Weight/Unit fields.
Cost/Unit	Indicates the cost per unit of the commodity.
Gross Amount	Displays the total cost of the commodity. This value is automatically calculated and displayed. It is the product of the values in the Quantity and Cost/Unit fields.
Discount	Indicates any discount being offered on the purchase. You can either enter the percentage of discount (in the first field) or the actual discount amount (in the second field). When you enter any one of these values, the other value is automatically calculated and displayed. Click to reset the values.
Тах	Indicates any tax being charged on the purchase. You can either enter the percentage of tax (in the first field) or the actual tax amount (in the second field). When you enter any one of these values, the other value is automatically calculated and displayed. Click Click to reset the values.
Create Copy	Indicates whether a copy of the commodity details entered, must be made.
•	Add Commodity Details overlay window, an entry of the commodity
A	dity Details section. In the Action column, click \checkmark to edit an entry,
Gross Purchase Order Amount	r Displays the total gross amount of the purchase order. This is the sum of the gross amounts of all added commodities.
	This value should be equal to the value in the Purchase Order Amount field. If not, you must adjust the value in the Purchase Order Amount field accordingly.

Field Name	Description
Discount Value	Displays the total discount amount of all the commodities added. The average discount percentage of all added commodities is also displayed.
Tax Value	Displays the total tax amount of all the commodities added. The average tax percentage of all added commodities is also displayed.
Net Purchase Order Amount	Displays the total net amount, after considering the discount value and the tax value.
	Net Purchase Order Amount = Gross Purchase Order Amount – Total Discount amount + Total Tax amount

- 5. The data from the purchase order is automatically read and populated in the relevant fields. Check the details and add or modify any field, if required.
- 6. Click **Submit** to submit the purchase order. The Review screen appears. OR Click **Cancel** to cancel the transaction. OR

Click **Back** to go to the previous screen. 7. In the Review screen, verify the details and click **Confirm**. A confirmation message appears, with the reference number and status of the transaction. OR

Click Cancel to cancel the transaction. OR

Click Back to go to the previous screen.

10.4 Bulk Purchase Order Creation

Using this option, corporates can create purchase orders in bulk by uploading a file. The file must contain the purchase order details in a specific format and sequence.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Purchase Order Management > Create Purchase Order

To create purchase orders in bulk:

Online Purchase Order Creation	Indicates the option to create purchase order records by manual entry of purchase order details.
Purchase Order Creation with Document Upload	Indicates the option to create a purchase order record by uploading the actual purchase order document.
Bulk File Upload	Indicates the option to create purchase order records in bulk, through file upload.

1. In the Create Purchase Order screen, click Bulk File Upload. The File Upload screen appears.

2. For more information on the procedure of uploading the file, refer User Manual Oracle Banking Digital Experience Corporate Bulk File Upload – Receivables Payables Management. Use the file template detailed below for upload.

10.4.1 Bulk Purchase Order File Template

For each purchase order, there must be a top row with indicator 'P' which specifies purchase order level parameters. For each commodity under the purchase order, there must be a row with indicator 'C' which specifies the commodity-level parameters.

Note: Refer this file for the sequence:

While uploading a .XLSX / .XLS file, if you do not have the required data for a particular cell, and need to leave it blank, then ensure that the particular empty cell has been formatted to the data type of the expected data of that cell. For example, a cell that is supposed to hold textual content, such as name or description, should be formatted to 'Text'. Similarly, a cell that is supposed to hold a number, should be formatted to 'Number'.

Description pecific to the purchase order as a whole. This row must be present being added. Specify the indicator. Enter P for a row at the purchase order level. Enter the customer's own purchase order number.
being added. Specify the indicator. Enter P for a row at the purchase order level.
Enter the customer's own purchase order number.
Enter the date of creation of the purchase order.
Enter the date of shipment. This should be greater than PO date.
Enter the currency of the purchase order amount.
Enter the total purchase order amount.
Enter the ID associated with the buyer.
Enter the ID associated with the supplier.
Enter the name of the buyer.
Enter the name of the supplier.
Enter the total discount amount applicable for all commodities being purchased.

Field Name	Description
Net Purchase Order Amount	Enter the net purchase order amount. Net PO Amount = Gross Purchase Order Amount – Discount Amount + Tax Amount
Acceptance Amount	Enter the purchase order amount that has been accepted.
Buyer Division Code	Enter the division code associated with the buyer.
Supplier Division Code	Enter the division code associated with the supplier.
Shipment Address Line 1	Enter address line 1 of the shipment address.
Line 2	Enter address line 2 of the shipment address.
Line 3	Enter address line 3 of the shipment address.
City	Enter the city of the shipment address.
Country	Enter the country of the shipment address.
Zip	Enter the pin code of the shipment address.
Program Code	Enter the program code associated with the purchase order. This field is applicable only if the Oracle Banking Supply Chain Finance application is implemented by the bank.

The following fields are specific to a commodity. You must add a row for each commodity being purchased, under the respective purchase order.

Indicator	Specify the indicator. Enter C for a row at the commodity level.
Customer Purchase Order Number	Enter the customer's own purchase order number.
Commodity Code	Enter the code associated with the commodity.
Commodity Name	Enter the name of the commodity.
Quantity	Enter the quantity of the commodity.
Cost Per Unit	Enter the cost per unit of the commodity.
Total Cost	Enter the total cost (gross amount) of the commodity. Total Cost = Cost Per Unit * Quantity
Discount Amount	Enter the discount amount applicable to the commodity.
Tax Amount	Enter the tax amount applicable to the commodity.
Net Amount	Enter the net amount of the commodity. Net Amount = Total Cost – Discount Amount + Tax Amount

10.5 View / Edit Purchase Order

Pre-requisites

- For viewing purchase orders User must have valid corporate login credentials.
- For editing purchase orders User must have valid corporate login credentials and must be the buyer.

10.5.1 View Purchase Order

Using this option, you can view a list of purchase orders based on the corporate party's role as a buyer or supplier.

On selection of Buyer view, you can view all the purchase orders as of current date where the corporate party's role is that of a buyer in the program. On selection of Supplier view, you can view all the purchase orders as of current date where the party's role is that of a supplier in the program.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Purchase Order Management > View/Edit Purchase Orders

To view purchase orders:

1. In the Select Role pop-up window, select either the Buyer or the Supplier option.

View Purchase Order - Select Role pop-up

Field Name	Description
View Purchase Order	
Party Name and ID	Displays the party name along with ID of the logged-in corporate party.
Switch View	Indicates the options to view the purchase orders based on the logged-in corporate party's role. The options are: • Buyer
	Supplier
Search	

Field Name	Description
Customer Purchase Order Number	Indicates an option to search for purchase orders using the customer's own reference number.
Associated Party Name	Indicates an option to search for purchase order(s) based on the counter party associated with the purchase order(s).
Purchase Order Status	Indicates an option to search for purchase orders based on their status.
	The options are:
	Raised
	Cancelled
	Accepted
	 Financed (Available only if the Oracle Banking Supply Chain Finance application is implemented by the bank)
	 Partially Financed (Available only if the Oracle Banking Supply Chain Finance application is implemented by the bank)
	Rejected
Purchase Order Amount Range	Indicates the option to search for purchase orders of a particular currency, with amounts in a specific range.
Purchase Order Date	Indicates the option to search for purchase orders that have been raised within a specific date range.
Program Name	Indicates an option to retrieve purchase orders associated with a particular program. This field is visible only if the Oracle Banking Supply Chain Finance application is implemented by the bank.
Shipment Date	Indicates the option to search for purchase orders that are shipped within a specific date range.
Search Results - List	of Purchase Order
A list of purchase order	s appears on clicking Search , based on the entered search criteria.
Customer Purchase Order Number	Displays the reference number of the purchase order as fetched from the Host. This is a hyperlink which when clicked displays the details of the purchase order. For more information, refer the <u>View</u> <u>Purchase Order Details</u> section below.
Purchase Order Date	Displays the date of the purchase order as fetched from the Host.
Associated Party	Displays the name of the counter party, as fetched from the Host.
Shipment Date	Displays the shipment date, as fetched from the Host.
Purchase Order Amount	Displays the purchase order amount, as fetched from the Host.
Status	Displays the current status of the purchase order.

 Enter the search criteria, and click Search. The purchase orders list appears based on the entered search criteria.
 OR

Click **Clear** to reset the search parameters. OR

Click the <u>Create New Purchase Order</u> link to create a purchase order on the go and view it instantly.

- 4. Click **Download** to download the list of purchase orders in CSV format, if required.
- 5. Click the <u>Customer Purchase Order Number</u> link of a specific purchase order, to view its details.

10.5.1.1 <u>View Purchase Order Details</u>

This screen appears if you click the Customer Purchase Order Number **link** from the View Purchase Order search results. It displays the details of the selected purchase order.

Field Name	Description
Total Tax Value (@ %-Average of commodity tax)	Displays the sum of the taxes applicable on all the commodities being purchased. Also displays the average tax.
Net Purchase Order Amount	Displays the sum of the net amounts of all the commodities being purchased. This value is also calculated as follows:- Net Purchase Order Amount = Gross Purchase Order Amount - Total Discount Value + Total Tax Value

10.5.2 Edit Purchase Order

Using this option, the buyer can edit and modify the required details in the purchase order, and submit for approval, if the approval flow has been set. The designated corporate approver is notified, in this case. The approver can either approve or reject the transaction. In case of rejection, the approver can send the transaction back to the corporate user (maker), to make modifications as required, and re-submit for approval.

Note: 1) A supplier can only create purchase orders, but cannot edit them once created.

2) If a purchase order has been accepted by the supplier, then only the Shipment Date can be edited by the buyer.

If a purchase order is in the 'Raised' status, and yet to be accepted by the supplier, then all parameters can be modified, except for Customer Purchase Order Number, Associated Party, and Program.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Purchase Order Management > View/Edit Purchase Orders

To edit the purchase order details:

- 1. In the **Select Role** pop-up window that appears, select the **Buyer** option.
- Click Proceed. The View Purchase Order screen appears. OR Click Cancel to cancel the transaction.
- Enter the search criteria and click Search. The purchase orders list appears based on the entered search criteria. OR

Click **Clear** to reset the search parameters.

4. Click the <u>Customer Purchase Order Number</u> of the purchase order record to be modified. The details of the specific purchase order appear in the **View Purchase Order** screen.

Field Description

Field Name	Description
Edit Purchase Order	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Customer Purchase Order Number	 Displays the reference number present on the purchase order document. This field is, Editable in case of a RAISED purchase order. Non-editable in case of an ACCEPTED purchase order.
Associated Party	Displays the name of the counter party in the business transaction.
Role	Displays the role of the associated party. In this case, the role is always SELLER/SUPPLIER.

Field Name	Description
Program Name	Displays the name of the program under which the purchase order is created. This field is visible only if the Oracle Banking Supply Chain Finance application is implemented by the bank.
Auto Accept	Displays Yes if auto acceptance is applicable, and No, otherwise.
Auto Finance	Displays Yes if auto finance is applicable, and No , otherwise.
Pre-acceptance	Displays Yes if pre-acceptance of raised the purchase order is applicable, and No , otherwise.
Purchase Order Date	Displays the date on which the purchase order has been created. This field is not editable.
Purchase Order Amount	Displays the currency and amount of the purchase order. This field is,
	 Editable in case of a RAISED purchase order.
	 Non-editable in case of an ACCEPTED purchase order.
Shipment Date	Indicates the date of shipment of the products being purchased. This field is editable for both RAISED and ACCEPTED purchase orders.
Shipment Address	Displays the shipment address, if it is already recorded. If not, you can switch the toggle on, and enter the address in the Shipment Address pop-up window that appears. This field is,
	 Editable in case of a RAISED purchase order.
	 Non-editable in case of an ACCEPTED purchase order.
Payment Terms	Displays the agreed terms of the payment. This field is,
•	Editable in case of a RAISED purchase order.
	Non-editable in case of an ACCEPTED purchase order.
Commodity Details	

Commodity Details

This section displays the commodity details that have been added. You can add /edit commodities only for RAISED purchase orders. For ACCEPTED purchase orders, you can only view the added details.

Gross Amount	Displays the gross amount of the commodity.
Cost/Unit	Displays the cost per unit of the commodity.
Total Weight	Displays the total weight of the commodity, along with the weight per unit.
Quantity	Displays the quantity of the commodity being purchased.
Code	Displays the code of the commodity.
Name	Displays the name of the commodity.

Field Name	Description
Discount	Displays the discount amount applicable, along with the discount percentage.
Тах	Displays the tax amount applicable, along with the tax percentage.
Net Amount	Displays the net amount of the commodity, after application of discount and tax.
Action	 Indicates the actions that can be performed on the commodity record. This is applicable only for RAISED purchase orders. Click this icon to edit the commodity details. Click this icon to remove the commodity details entered.
Gross Purchase Order Amount	Displays the total gross amount of the purchase order. This is the sum of the gross amounts of all commodities added.
Total Discount Value	Displays the total discount amount of all the commodities added. The average discount percentage of all added commodities is also displayed. Total Discount % = (Sum of discount amount of all commodities / Sum of gross amount of all commodities) *100
Total Tax Value	Displays the total tax amount of all the commodities added. The average tax percentage of all added commodities is also displayed. Total Tax % = [Sum of tax amount of all commodities / (Sum of gross amount of all commodities - Sum of discount amount of all commodities)] *100
Net Purchase Order Amount	Displays the total net amount, after considering the discount value and the tax value. Net Purchase Order Amount = Gross Purchase Order Amount – Total Discount amount + Total Tax amount

Add Commodity Details

This overlay window appears when you click **Add** in the **Commodity Details** section. This is applicable only for RAISED purchase orders. You cannot add or edit commodities in ACCEPTED purchase orders.

NameEnter the name of the commodity being purchased.		
Code Select the code of the commodity.		
Quantity	Enter the commodity quantity required.	
Weight/Unit	Enter the weight per unit of the commodity. Also indicates the unit of measurement to be used for weight.	

Field Name	Description
Total Weight	Displays the total weight of the commodity. This value is automatically calculated and displayed. It is the product of the values in the Quantity and Weight/Unit fields.
Cost/Unit	Enter the cost per unit of the commodity.
Gross Amount	Displays the total cost of the commodity. This value is automatically calculated and displayed. It is the product of the values in the Quantity and Cost/Unit fields.
Discount	Specify any discount being offered on the purchase. You can either enter the percentage of discount (in the first field) or the actual discount amount (in the second field). When you enter any one of these values, the other value is automatically calculated and displayed.
Тах	Specify any tax being charged on the purchase. You can either enter the percentage of tax (in the first field) or the actual tax amount (in the second field). When you enter any one of these values, the other value is automatically calculated and displayed. Click to reset the values.
Net Amount	Displays the net amount (after application of discount and tax) of the commodity being purchased. Note: The Net Amount gets auto calculated as follows: Net Amount = Gross Amount - Discount amount + Tax amount
Create Copy	Select this check box to make a copy of the commodity details entered.

 Click Submit to submit the transaction, once all required changes have been made. The Review screen appears. OR Click Cancel to cancel the transaction.

OR Click **Back** to navigate back to the previous screen.

 In the Review screen, verify the details and click Confirm. A confirmation message appears along with the reference number and status of the transaction. OR Click Cancel to cancel the transaction. OR

Click **Back** to navigate back to the previous screen.

10.5.3 Cancel Purchase Order

Using this option, the buyer can cancel a purchase order. This action can only be performed on purchase orders in the RAISED status.

Note: A supplier can only create purchase orders, but cannot cancel them once created.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Purchase Order Management > View/Edit Purchase Orders

To cancel a purchase order:

- 1. In the Select Role pop-up window that appears, select the Buyer option.
- Click Proceed. The View Purchase Order screen appears. OR Click Cancel to cancel the transaction.
- Enter the search criteria and click Search. The purchase orders list appears based on the entered search criteria. OR

Click **Clear** to reset the search parameters.

Click the <u>Customer Purchase Order Number</u> of the purchase order record (in RAISED status) to be cancelled. The details of the specific purchase order appear in the View Purchase Order screen.

10.6 Accept / Reject Purchase Order

Using this option, a supplier can accept or reject purchase orders to convey the agreement or disagreement to supply the required commodities. One or more purchase orders can either be accepted or rejected in a single transaction.

Once the transaction is complete, the designated corporate approver is notified, in case an approval flow is set. The approver can either approve or reject the transaction. In case of rejection, the approver can send the transaction back to the corporate user (maker), to make modifications as required, and re-submit for approval.

Note:

- 1) Only that corporate party with the role of **Supplier** can accept or reject purchase orders. In addition, only those purchase orders with status as **Raised** can be accepted or rejected.
- 2) If the supplier is creating the purchase orders, then they are pre-accepted by default, when raised.

Pre-requisites

User must have valid corporate login credentials.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Purchase Order Management > Accept/Reject Purchase Order

To accept / reject purchase order(s):

- 1. In the Accept/Reject Purchase Order screen, a list of purchase orders with status as **Raised**, and where the logged-in party is the supplier, appears.
 - To search for a specific purchase order, enter either the associate party name, or purchase order number, or purchase order amount, or accepted purchase order amount, in the **Search** field.
 - Click . The relevant purchase orders appear.

OR Click **Back** to navigate back to the previous screen. OR Click **Cancel** to cancel the transaction.

<u>FAQ</u>

1. Who can create a purchase order?

A purchase order can be created by a supplier or a buyer, with valid login credentials. If the purchase order is being created by a supplier then the pre-acceptance flag gets defaulted as 'Yes' as it is implied that the supplier is accepting the purchase order. If the purchase order is being raised by a buyer, then the pre-acceptance flag can be set to yes or no based on the user's requirement.

2. Can I create multiple purchase orders for different suppliers?

Yes, a corporate can create multiple purchase orders online for different suppliers.

3. How many purchase orders can I create at a time?

There is no upper limit for creation of purchase orders at one time (in a single transaction). You can create as many purchase orders as required.

4. Can I create 2 purchase orders in one single transaction, such that one is a fresh purchase order and the other is from a template?

Yes. When you create a fresh purchase order, you must first save it. Then you can click on the Templates tab, and select the next purchase order template to be added.

Field Description

Field Name	Description			
View Payments				
Party Name & ID	Displays the name and ID of the logged-in corporate party.			
Payment Reference Number Payment Status	Displays the unique reference number of the payment. Also displays the reconciliation status of the payment.			
Payment Amount	Displays the payment amount.			
Credit Account Number / Debit Account Number	Displays the masked account number involved in the payment. If the payment is of incoming type, then 'Credit Account Number' is displayed, and if the payment is of outgoing type, then 'Debit Account Number' is displayed.			
	The account number can be either a real account number or an IBAN, based on the configuration set by the bank.			
Allocation Status	Displays the status of allocation of the payment.			

Field Name	Description			
Payment Type	Displays the type of payment, whether incoming or outgoing.			
Payment Mode	Displays the mode in which the payment has been made.			
EFT Reference Number	Displays the unique reference number assigned to the electronic transfer.			
Unreconciled Amount	Displays any amount that is not yet reconciled.			
Payment Date	Displays the date of the payment.			
Host Reference Number	Displays the reference number of the payment, assigned by the host system.			
Virtual Account Flag	Displays 'Yes' if a virtual account has been used for the payment and 'No', otherwise.			
Instrument Date	Displays the date of the instrument, if one has been used for th payment.			
Remark	Displays any remarks entered during the payment.			
Remitter Details This section is displayed party.	d if the payment is of 'incoming' type with respect to the logged-ir			
Remitter Code	Displays the code assigned to the remitter by the remitter's financia institution.			
Remitter Id	Displays the remitter's unique ID.			
Remitter Name	Displays the remitter's name.			
Remitter Account Number	Displays the masked account number used by the remitter to make the payment.			

Note: The IBAN can be displayed instead of real and virtual account numbers, if the configuration at the bank-level is set to display IBAN.

Beneficiary Details

This section is displayed if the payment is of 'outgoing' type with respect to the logged-in party.

Beneficiary Code	Displays the code assigned to the beneficiary by the beneficiary's financial institution.
Beneficiary Id	Displays the beneficiary's unique ID.
Beneficiary Name	Displays the beneficiary's name.

Field Name	Description				
Beneficiary Account Number	Displays the masked account number of the beneficiary to which the payment has been made.				
	Note : The IBAN can be displayed instead of real and virtua account numbers, if the configuration at the bank-level is set to display IBAN.				
Counterparty Details					
Counterparty Code	Displays the code of the counterparty.				
Counterparty Id	Displays the counterparty's unique ID.				
Counterparty Name	Displays the counterparty's name.				
Bank Details					
Bank Code	Displays the code of the other bank involved in the payment.				
Bank Name	Displays the name of the other bank involved in the payment.				
Branch Name	Displays the name of the branch of the other bank.				
Reconciliation and All	location Information				
Reconcile Against Flag and Instrument	Displays the flag and instrument against which the payment has been/will-be reconciled. The instrument can be a receivable (suc as invoice/debit note), finance, or cashflow.				
Reference Number	Displays the reference number of the instrument against which the payment has-been/will-be reconciled. This can be the invoice/deb note reference number, the finance reference number, or the cashflow reference number.				
Auto-Reconciliation Required	Displays 'Yes' if the instrument is eligible for auto-reconciliation, and 'No', otherwise.				
Allocation Required	Displays 'Yes' if the instrument is eligible for allocation, and 'No otherwise.				
Finance Related Infor	mation				
This section appears if been uploaded.	these details have been provided in the bulk payment file that has				
Program Code	Displays the program code associated with the finance.				
Appropriation while Settlement	Displays the order of repayment with respect to principal, interest and overdue interest.				
Specific Appropriation	Displays the amounts allotted to repayment of principal, interest an overdue interest.				

Field Name Description

Additional Details

This section displays the Filler Label Fields. The financial institution can configure these fields on Day 0, based on their requirement.

The View Payments screen consists of the following tabs:

- Reconciliation Details
- Allocation Details

Note: These tabs can also be viewed on a mobile device.

View Payments – Reconciliation Details tab

The Reconciliation Details tab appears only if the payment has been reconciled with invoices/debit notes/cash flows.

Field Description

Field Name Description

View Payments - Reconciliation Details tab

The Reconciliation Details tab appears only if the payment has been reconciled with invoices/debit notes/cash flows.

Indicator Displays what instrument has been reconciled with the payment. Displays 'l' for invoice, 'D' for debit note, and 'C' for cash flow.

Field Name	Description
Reference Number	Displays the reference number of the cash flow / invoice /debit note that the payment has been reconciled with.
	This is a hyperlink which when clicked displays the details of the cash flow / invoice. For more information on the fields in the View Cash Flow Details screen, refer the View Cash Flow Details section in User Manual Oracle Banking Digital Experience Corporate Cash Management. For more information on the fields in the View Invoice screen, refer the <u>View Invoice Details</u> section in this user manual. For more information on the fields in the View Debit Note screen, refer the <u>View Debit Note Details</u> section in this user manual.
Amount	Displays the total cash flow / invoice / debit note amount.
Associated Party	Displays the name of the associated party of the payment.
Reconciliation Date	Displays the date of reconciliation.
Reconciliation Amount in Payment Currency	Displays the amount that has been reconciled in the currency in which the payment has been made.
Reconciliation Amount in Record Currency	Displays the amount that has been reconciled in the cash flow / invoice / debit note currency.

 Click the <u>Reference Number</u> link to view the details of the cash flow / invoice / debit note. OR Click **Back** to go to the previous screen. OR

Click **Cancel** to go to the dashboard.

View Payments – Allocation Details tab

This tab appears only if the payment status is 'Allocated' or 'Partially Allocated', which means that the payment has been either fully or partially allocated to virtual account(s).

Field Description

Field Name	Description
View Payments – Allo	cation Details tab
Allocation Date	Displays the date of payment allocation.
Virtual Account Number	Displays the virtual account number to which the payment has been allocated.
Allocation Rule and Type	Displays the name of the allocation rule applied. Also displays the type of allocation, whether manual or auto.
Allocated Amount	Displays the amount that has been allocated.
Status	Displays the status of the allocation.

 Click Back to go to the previous screen. OR Click Cancel to go to the dashboard.

11.2 Payment File Upload – File Template

Payment records can be created in bulk through file upload.

How to reach here:

Dashboard > Toggle Menu > File Upload > File Upload OR Dashboard > Quick Links > File Upload

Note: Refer this file for the upload file format:

While uploading a .XLSX / .XLS file, if you do not have the required data for a particular cell, and need to leave it blank, then ensure that the particular empty cell has been formatted to the data type of the expected data of that cell. For example, a cell that is supposed to hold textual content, such as name or description, should be formatted to 'Text'. Similarly, a cell that is supposed to hold a number, should be formatted to 'Number'.

A

For more information on the procedure of uploading the file, refer **User Manual Oracle Banking Digital Experience Corporate Bulk File Upload – Receivables Payables Management**.

Field Description

Field Name	Description
The following fields should	d be entered in a row for a payment record.
Payment Type	Enter O for outgoing and I for incoming payment. This is a mandatory field.
	Note: If the payment type is incoming, then the Beneficiary ID should be that of the logged-in party.
	If the payment type is outgoing, then the Payment Party ID should be that of the logged-in party.
Customer Payment Reference Number	Enter the customer's own unique reference number for the payment. This is a mandatory field.
Payment Currency	Enter the currency in which the payment is made. A 3-digit currency code as per ISO standards is acceptable. This is a mandatory field.
Payment Amount	Enter the amount paid. This is a mandatory field.
Finance Repayment Appropriation	Specify the sequence of repayment for principal, interest, and overdue amount. Example: OIP.
Finance Repayment Specific Appropriation	Specify the amounts paid for the repayment appropriation. For example: P:3000.00 I:500.00 O:900.00

Field Name	Description
Payment Mode	Specify the mode of payment. This is a mandatory field. The acceptable values are: ACT_TRANSFER NEFT CASH CHEQUE RTGS
Payment Date	Enter the date of payment in the DD-MM-YYYY format. This is a mandatory field.
Payment Party Code	Enter the code of the party making the payment. You can either provide a value in this field, or in the Payment Party ID field.
Counter Party Code	Enter the code of the counter party, in the payment transaction. You can either provide a value in this field, or in the Counter Party ID field. A counter party in this context is generally a third party like a bank or any other medium to the transaction.
Payment to Virtual Account	Specify whether the payment is being made to a virtual account or not. Enter \mathbf{Y} if the payment is to a virtual account, and \mathbf{N} , otherwise. This is a mandatory field.
Credit Account Number	Enter the account number to which the payment is credited to. This field is mandatory if the Payment Type is incoming (I). This can be either the real account number, or the International Bank Account Number (IBAN) based on the configuration set by the bank.
Auto Reconciliation	Specify whether the payment should be auto reconciled, or not. If you enter \mathbf{Y} , then the payment is auto reconciled on upload of file. If you enter \mathbf{N} , the payment will have to be manually reconciled. This is a mandatory field.
ls Payment for Cashflow OR Invoice OR Finance	Enter E for expected cash flow payment, I for invoice payment, and F for finance payment.
Cash flow OR Invoice OR Finance Reference Number	Enter the reference number of the expected cash flow record / invoice / finance, as applicable. If multiple options are applicable, If the payment is made towards multiple options, then you can enter the reference numbers as follows:
	Invoice Ref No Finance Ref No Expected Dr/Cr Ref No
Remarks	Enter any remarks, if applicable. If specific values are not provided in the respective fields, then they can be provided in the Remarks field. Multiple references can be made using a pipe separator as given below:
	N:Narration E: Expected Dr/Cr Ref No I: Invoice Ref No F:Finance Ref No P:Program code R: Relationship Code PPC: Payment Party Code CPC: Counterparty Code

Field Name	Description
Payment Party ID	Enter the ID of the party making the payment. You can either provide a value in this field, or in the Payment Party Code field.
Payment Party Name	Enter the name of the party making the payment.
Counter Party ID	Enter the ID of the counter party. You can either provide a value in this field, or in the Counter Party Code field.
Counter Party Name	Enter the name of the counter party.
Beneficiary ID	Enter the ID of the beneficiary of the payment.
Beneficiary Name	Enter the name of the beneficiary of the payment.
Program Code	Enter the program code applicable for the payment.
Remitter Account Number	Enter the account number from which the payment is initiated. This field is mandatory if the Payment Type is outgoing (O). This can be either the real account number, or the International Bank Account Number (IBAN) based on the configuration set by the bank.
Fund Transfer or Cheque Reference Number	Enter the external reference number of the payment, in case of fund transfer or cheque payment.
Mandate Reference Number	Enter the reference number of the mandate.
Credit Note Reference Number	Enter the reference number of the credit note.
Allocation Required	Enter Y if allocation is required, and N , otherwise. This is a mandatory field.

<u>FAQ</u>

1. Does View Payments also display the payments that are domestic, internal and international in nature or any other payment from the party's corporate account?

No, here payment records uploaded by corporate for reconciliation are reflected or those payment records received from the payments engine to the Supply Chain Finance / Cash Management system are reflected.

<u>Home</u>

12. Reconciliation

Reconciliation is the process where payments are reconciled or matched with invoices/cash flows. Invoice records or cash flow records are generally created in advance. However, the actual payment occurs at a later point of time. Using the Reconciliation feature, you can match the payments with invoices and cash flow records.

Reconciliation can either be automated or performed manually. Reconciliation rules are created for the automation. Rules are essentially conditions that are defined; invoice / cash flow records and payments that meet the specified conditions are matched together.

In case a reconciled record must be unmatched, you can use the De-reconciliation option.

Allocation is the process where payments are allocated to virtual accounts. This process can also be automated through rules, or can be performed manually.

Pre-requisites:

User must have valid corporate login credentials.

12.1 Overview

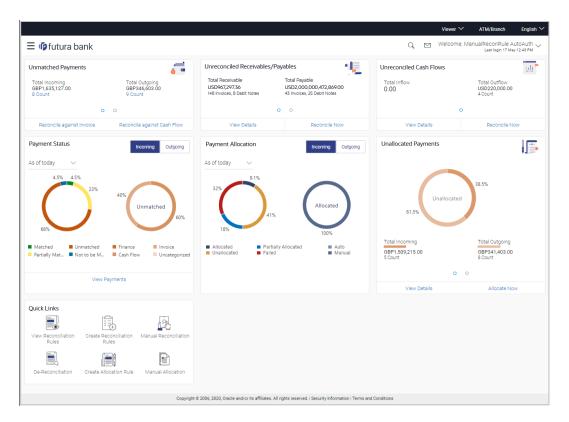

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Reconciliation > Overview

The Reconciliation Overview screen consists of the following widgets:

- Unmatched Payments
- Unreconciled Receivables/Payables
- Unreconciled Cash Flows
- Payment Status
- Payment Allocation
- Unallocated Payments
- Quick Links

Unmatched Payments – This widget gives the total incoming and outgoing payment amounts that have not been matched under a specific currency. Swipe across the widget to view the data for other supported currencies. The count of payments for both incoming and outgoing is also displayed for each currency. The count for each type (incoming and outgoing), is a hyperlink which when clicked, displays the View Payments screen with the list of unmatched payments of the respective type. On clicking the <u>Reconcile against Invoice</u> link, the Manual Reconciliation screen appears where the unreconciled invoices can be reconciled. For more information on this screen, refer the <u>Invoices/Debit Notes against Payments/Credit Notes</u> section under Manual Reconciliation screen appears where the unreconciled the <u>Reconcile against Cash Flow</u> link, the Manual Reconciliation screen appears where the unreconciled cash flow records can be reconciled. For more information on this screen, refer the <u>Cash Flow against Payment</u> section under Manual Reconciliation, in this document. The unreconciled cash flow records can be reconciled. For more information on this screen, refer the <u>Cash Flow against Payment</u> section under Manual Reconciliation, in this document the cash Flow against Payment screen and for the section against Payment screen against Payment

Unreconciled Receivables/Payables – This widget gives the unreconciled amount details for receivables and payables. The receivables/payables can include both invoices and debit notes. The counts of invoices and debit notes for each type (receivables and payables) are also displayed. Swipe across the widget to view the data for other supported currencies. On clicking the <u>View Details</u> link, the View Receivables/Payables screen appears. For more information on this screen, refer the <u>View/Edit Receivables/Payables</u> screen in this document. On clicking the <u>Reconcile Now</u> link, the Manual Reconciliation screen appears where the unreconciled receivables/payables can be reconciled. For more information on this screen, refer the <u>Invoices/Debit Notes against Payments/Credit Notes</u> section under Manual Reconciliation, in this document.

Unreconciled Cash Flows – This widget gives the total inflow and outflow cash flow amounts that are unreconciled. The number of cash flows for each type (inflow and outflow) is also displayed. Swipe across the widget to view the data for other supported currencies. On clicking the <u>View Details</u> link, the View/Edit Expected Cash Flow Details screen appears. For more information on this screen, refer the respective section in User Manual Oracle Banking Digital Experience Corporate Cash Management. On clicking the <u>Reconcile Now</u> link, the Manual Reconciliation screen appears where the unreconciled cash flow records can be reconciled. For more information on this screen, refer the <u>Cash Flow against Payment</u> section under Manual Reconciliation, in this document.

Payment Status – This widget displays a donut graph that depicts the percentage of payments in various status with respect to payments matching. This data can be viewed for both incoming and outgoing payments, as of current date, last month, last quarter, and a custom date range. On clicking the <u>View Payments</u> link, the View Payments screen appears. For more information on this screen, refer the <u>View Payments</u> section in this document.

Payment Allocation – This widget displays a donut graph that depicts the percentage of payments in various status with respect to payments allocation. This data can be viewed for both incoming and outgoing payments, as of current date, last month, last quarter, and a custom date range.

Unallocated Payments – This widget displays a donut graph that depicts the percentages of unallocated payments, for incoming and outgoing payments. The total payment amounts and the count of payments that are unallocated are also displayed for the incoming and outgoing payments. Swipe across the widget to view the data for other supported currencies. On clicking the <u>View Details</u> link, the View Payments screen appears with the list of unallocated payments. For more information on this screen, refer the <u>View Payments</u> section in this document. On clicking the <u>Allocate Now</u> link, the Manual Allocation screen appears. For more information on this screen, refer the <u>Manual Allocation</u> section in this document.

Quick Links – The most commonly used transactions are provided as quick links for quick access. Following transactions are provided as quick links:

- <u>Create Reconciliation Rules</u>
- Create Allocation Rule
- View/Edit Reconciliation/Allocation Rules
- Manual Reconciliation
- Manual Allocation
- De-Reconciliation

12.2 Create Reconciliation Rules

Corporates can create reconciliation or allocation rules from the portal using transactions 'Create Reconciliation Rule' and 'Create Allocation Rule' respectively. These transactions enable them to create rules to reconcile their cash flows/invoices against the payments or to allocate payments to virtual accounts. While defining reconciliation rules, user would also be able to specify allocation parameters required to allocate the matched payment to virtual account. Thus, the OBCM application can perform allocation post successful reconciliation of payment with expected cash flows/invoices or can perform stand-alone allocation on unreconciled payment records, provided the allocation rules are set up. Two types of reconciliation rules can be configured: Exact and Generic.

Generic Rules – These rules are applicable to all invoices/cash flows that are reconcilable. A corporate party can have only one generic rule per reconciliation-type (one rule for invoices and payments reconciliation, and one rule for expected cash flows and payments reconciliation). Generic rules are applied as per generic criteria such as, FIFO, LIFO, HAFO, and LAFO.

- FIFO (first in, first out) Oldest invoice/cash-flow, will get reconciled first.
- LIFO (last in, first out) Latest invoice/cash-flow, will get reconciled first.
- HAFO (highest amount, first out) Invoice/Cash-flow with highest amount, will get reconciled first.
- LAFO (lowest amount, first out) Invoice/Cash-flow with lowest amount, will get reconciled first.

Exact Rules – An Exact rule is a customized rule defined by the corporate to match cashflow/invoice attributes and payment attributes for reconciliation. Both single sided and double sided conditions can be configured in an exact rule. A single sided condition includes defining a single attribute of either payment or expected-cash-flow/invoice entity along with the pattern explained below; whereas a double sided condition includes defining both cash-flow/invoice and payment attributes with operator conditions along with the specific patterns on their respective matching attributes.

Below patterns are provided to the corporate in order to define exact rules. They can be used in combination with the available operators:

For double-sided conditions:

- 'Text Between Two Positions' where the text or string between defined signs/positions will be used for reconciliation.
- Exact Attribute Where exact value of the attributes selected would be used for reconciliation.

Example of using exact attributes in a double-sided rule: Payment Ref No {operator such as =/</> Cash Flow Ref No OR Payment Narration = Cash Flow Narration

For single-sided conditions:

- Using operators '<', '>', or '='. For example: Payment Ref No = ABC464664
- Starts with* Where a value following the entered string will be used for reconciliation. For example, Cash flow narration starts with XYZ
- Ends with* Where a value preceding the entered string will be used for reconciliation. For example, Cash flow narration ends with XYZ

An exact rule enables the corporate to add rule conditions with AND/OR operators based on attributes of a cash-flow/invoice record and/or a payment record. A facility to create groups of conditions with the AND/OR operators is also available.

The complete rule creation is a three-step process, where in the first step the corporate can create a generic or exact rule. The second step involves defining an allocation rule and the final step involves setting a priority for the rule.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Reconciliation > Create Reconciliation Rule OR

Dashboard > Toggle menu > Receivables/Payables > Reconciliation > Overview > Quick Links > Create Reconciliation Rules

To create a reconciliation rule:

1. In the **Rule Details** step of the **Create Reconciliation Rule** screen, enter the required details.

Field Description

Field Name

Description

These fields appear if you select the Generic option.

Field Name	Description
Reconciliation Method	Select how the rule is applied to the invoice/cash-flow records for reconciliation. This field appears if you select the Generic option in the Rule Type field. The options are:
	 FIFO – Oldest invoice/cash-flow to be reconciled first LIFO – Latest invoice/cash-flow to be reconciled first HAFO – Invoice/Cash-flow with highest amount to be reconciled first LAFO – Invoice/Cash-flow with lowest amount to be reconciled first
Attribute	Select the attribute to be used for applying the reconciliation method. This field appears if you select the Generic option in the Rule Type field.
	For Invoice and Payments reconciliation:
	 For FIFO and LIFO, the options are: Invoice Date; Invoice Due Date.
	 For HAFO and LAFO, the options are: Invoice Amount; Outstanding Invoice Amount.
	For Cash Flow and Payments reconciliation:
	 For FIFO and LIFO, the options are: Expected Date; Revised Expected Date.
	 For HAFO and LAFO, the option is: Amount.
Rule Interpretation	Displays the rule that is set, based on the options you select in the Reconciliation Method and Attribute fields. This field appears if you select the Generic option in the Rule Type field.

- If you select the **Generic** option under **Rule Type**, enter the details as stated above.
 Click **Continue** to go to the **Set Allocation** step.

OR Click Cancel to cancel the transaction. OR Click Back to reset and start with the Rule Details step again. OR Click Skip Allocation to go to the Prioritize Rule step.

12.2.2 Exact Rule

For an exact rule, you must add either one double-sided condition involving an invoice / cash flow attribute and a payment attribute or two single sided conditions, one involving an invoice / cash flow attribute and the other involving a payment attribute.

Field Description

Field Name	Description

These fields appear if you select the **Exact** option.

Reconciliation Rule

You should add either one double sided condition with invoice/cash flow and payment; or one or more single sided conditions along with a double sided condition, for invoice/cash flow and for payment.

Add Condition Indicates an option to add a condition for Exact reconciliation.

Reconciliation

Field Name	Description
Add Group	Indicates an option to add a group of conditions that are clubbed together by logical operator 'AND' or 'OR'.
AND / OR	Indicates the logical operator to be used for clubbing the conditions for creating the Exact reconciliation rule.

Single-Sided Condition

You can create single-sided conditions by selecting a specific entity (Invoice/

Cash-Flow or Payment) and then comparing an attribute of this entity with a specific value. A single sided condition should always be created along with atleast one double sided condition.

The following fields appear for a single sided condition.

Select Entity	Select the required entity for building the condition. The following
	options are available:

For Invoice-Payment reconciliation:

- Invoice
- Payment
- Invoice and Payment

For Cash Flow-Payment reconciliation:

- Cash Flow
- Payment
- Cash Flow and Payment

Select Attribute Select the attribute of the entity to be compared.

Select Pattern Select the relational operator or pattern to be used for comparison. The options available are:

- =
- <
- >
- · Starts with
- Ends with

Value

Enter the value that the attribute is to be compared with.

Double-Sided Condition

You can create double-sided conditions by comparing an attribute of one entity with a relevant attribute of the other entity. For example, for the Invoice and Payment double-sided condition, the Net Invoice Amount can be compared with the Payment Amount.

The following fields appear for a double-sided condition.

Entities Select the entities combination for creating the double-sided condition.

Field Name	Description		
Select Pattern	Select the pattern to be used for the attribute (of the first entity) to be compared. The options available are:		
	Exact Attribute		
	 Text Between Two Positions – On selecting this option, two fields appear where you can enter the position (numerical values). The attribute text between these positions is used for comparison. 		
Select Attribute	Select the attribute of the first entity to be compared.		
Relational Operator	Select the relational operator to be used for comparison. The options available are:		
	• AND		
	• OR		
Select Pattern	Select the pattern to be used for the attribute (of the second entity) to be compared. The options available are:		
	Exact Attribute		
	• Text Between Two Positions – On selecting this option, two fields appear where you can enter the position (numerical values). The attribute text between these positions is used for comparison.		
Select Attribute	Select the attribute of the second entity to be compared.		

- 5. If you select the **Exact** option in the **Rule Type** field, then in the **Reconciliation Rule** section, build condition(s) as per requirement, as follows:
 - a. You can define either two or more single-sided condition or one more double-sided condition, or both. You can also define a group of conditions.
 - b. In the single-sided condition, you can select either Invoice/Cash-Flow or Payment.
 - i. Select the attribute to be used for comparing.
 - ii. Select the appropriate relational operator or pattern for comparing.
 - iii. Enter the value that must be used for comparing.
 - c. In the double-sided condition (Invoice/Cash-Flow and Payment), you can select an attribute of the Invoice/Cash-Flow and compare it with an attribute of the Payment.
 - i. Select the required pattern for the attribute of the first entity. If you select 'Text Between Sign' then enter the two signs in the attribute, in the fields that appear. If you select 'Text Between Two Positions' then enter the numerical positions in the attribute, in the fields that appear.
 - ii. Select the attribute of the first entity to be used for comparing.
 - iii. Select the appropriate relational operator.
 - iv. Select the required pattern for the attribute of the second entity.
 - v. Select the attribute of the second entity to be used for comparing.
 - d. Once a condition is defined, click \square to save it.

- e. You can define similar individual conditions or a group of conditions by clicking **Add Condition** or **Add Group**, and bind them together using the 'AND' or 'OR' logical operator.
- f. Once all conditions are defined, click **Save all and Preview** to save and preview all added conditions.
- 6. Click **Continue** to go to the **Set Allocation** step.
 - OR

Click **Cancel** to cancel the transaction.

OR

Click **Back** to reset the fields and start with the **Rule Details** step again. OR

Click Skip Allocation to go to the Prioritize Rule step.

Note: 1) Once a condition is added and saved, click \swarrow to edit it, or click $\widehat{\square}$ to delete it.

 If you skip the Set Allocation step during rule creation, then the matched and partially matched payments can be allocated to virtual accounts through Allocation Rule or Manual Allocation. For more information, refer the <u>Create Allocation Rule</u> and <u>Manual Allocation</u> sections in this document.

Field Description				
Field Name	Description			
Create Reconciliation R	ule			
Party Name & ID	Displays the name and ID of the logged-in corporate party.			
Set Allocation				
	ne percentages to be allocated to specific virtual accounts. You must e allocated percentages should be 100.			
Allocation Basis	Select whether allocation should be virtual accounts-based or attributes-based.			
	 If you select the Account Based option, then you can directly set the virtual accounts for allocation. 			
	 If you select the Attribute Based option, then you can set attributes for allocation. The virtual accounts that are mapped to these attributes will be used for allocation. 			
Account Based Allocati	on			
This section appears if yo	ou select the Account Based option in the Allocation Basis field.			
Serial Number	Displays the serial number of the allocation account.			
Allocation Account	Select a virtual account to assign an allocation percentage.			
Percentage	Enter the percentage of payment to be allocated to the virtual account.			

Field Name	Description
Action	Click $^{igodold p}$ to add further virtual accounts. Or click $^{igodold p}$ to delete an

added account.

Attribute Based Allocation

This section appears if you select the **Attribute Based** option in the **Allocation Basis** field. This option can be used to allocate specific percentages of the payment towards specific attributes. The amount corresponding to the payment percentage set, is allocated to the virtual accounts mapped to these attributes.

Serial Number	Displays the serial number of the attribute.					
Allocation Entity	Select the entity whose attribute should be considered for setting an allocation percentage.					
Allocation Attributes	Select the attribute for which the allocation percentage should be set.					
Percentage	Enter the percentage of payment to be allocated to the attribute.					
Action	Click $\textcircled{\oplus}$ to add further attributes. Or click $\textcircled{1}$ to delete an added attribute.					

7. Once the allocation details are set, click **Continue** to go to the **Prioritize Rule** step. OR

Click **Cancel** to cancel the transaction. OR Click **Back** to go to the previous screen. OR Click **Skip** to skip the **Set Allocation** step.

Field Description

Field Name	Description
Create Reconciliation R	ule
Party Name & ID	Displays the name and ID of the logged-in corporate party.

Prioritize Rule

Reconciliation Rules

A list of existing rules is displayed. You can set the priority on the rule being created, and also modify the priority on an existing rule, if required. For the rule being created, the keyword '**Current'** is displayed beside it. For a rule whose priority is modified, the keyword '**Modified'** is displayed beside it.

Search Indicates an option to search for a specific reconciliation rule.

Field Name	Description					
Rule Id	Displays the unique rule ID. For the rule being created, this field appears blank. An ID is assigned once the rule is created. The IDs of the other rules in this column are hyperlinks, which when clicked display the rule details in an overlay window. For more information, refer the Recon Rule overlay window section below.					
	The keyword "Current" is displayed beside the rule being created.					
	The keyword "Modified" is displayed beside any rule whose priority has been changed.					
Rule Type	Displays whether the rule is a generic or an exact one.					
Rule Name	Displays the name assigned to the rule.					
Priority	Indicates the priority assigned to the rule.					
	Note: For the rule being created, the priority assigned by default is, one incremental to the highest priority assigned to the existing rules (highest priority + 1). You can change this priority, if required.					

- 8. In the **Prioritize Rule** step, you can modify the priority assigned to the rule being created, under the **Priority** column, if required. You can also modify the priority on an existing rule, if required.
- 9. Click **Submit** to submit the transaction. The Review screen appears. OR

Click **Cancel** to cancel the transaction. OR

Click **Back** to go to the previous screen.

Serial Number	Displays the serial number of the allocation.
Allocation Entity and Attributes	Displays the entity and the selected attribute of the allocation.

12.3 Create Allocation Rule

Using this screen, the corporate user can create rules for automatic allocation of payments to specific virtual accounts. The allocation can be performed manually as well. For more information, refer the <u>Manual Allocation</u> section in this document.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Reconciliation > Create Allocation Rule

To create an allocation rule:

1. In the Rule Details step of the Create Allocation Rule screen, enter the required details.

Field Name	Description
Create Allocation Rule	
Party Name & ID	Displays the name and ID of the logged-in corporate party.

Field Name	Description

Set Allocation

In this step, you can set the percentages to be allocated either to specific virtual accounts, or towards specific payment attributes. You must ensure that the sum of the allocated percentages should be 100.

Allocation Basis Select whether allocation should be virtual accounts-based or attributes-based.

Account Based Allocation

This section appears if you select the Account Based option in the Allocation Basis field.

Serial Number	Displays the serial number of the allocation account.
Allocation Account	Select a virtual account to assign an allocation percentage.
Percentage	Enter the percentage of payment to be allocated to the virtual account.
Action	Click $\textcircled{\oplus}$ to add further virtual accounts. Or click $\textcircled{10}$ to delete an added account.

Attribute Based Allocation

This section appears if you select the **Attribute Based** option in the **Allocation Basis** field. This option can be used to allocate specific percentages of the payment towards specific payment attributes (such as credit account number, remitter account number, payment party ID, and so on), which are mapped to specific virtual accounts.

Serial Number	Displays the serial number of the attribute.	
Allocation Entity	Displays 'Payment' by default.	
Allocation Attributes	Select the attribute for which the allocation percentage should be set.	
Percentage	Select the percentage of payment to be allocated to the attribute.	
Action	Click $\textcircled{\oplus}$ to add further attributes. Or click $\textcircled{1}$ to delete an added attribute.	

5. Once the allocation details are set, click **Continue** to go to the **Prioritize Rule** step. OR

Click **Cancel** to cancel the transaction. OR Click **Back** to go to the previous screen.

Field Name Description

Reconciliation Rule

For an Exact rule, this section displays the rule that has been defined. The rule can be a combination of single sided conditions or double sided conditions or both. The conditions are clubbed together either by the AND or the OR relational operator. A single sided condition includes a single attribute of either payment or expected-cash-flow/invoice entity compared to a specific value using logical operators; whereas a double sided condition includes both cash-flow/invoice and payment attributes with operator conditions along with the specific patterns on their respective matching attributes.

Reconciliation Rule

For a Generic rule, the following fields appear.

Reconciliation Method Displays the method employed for reconciliation.

The options can be:

- LIFO Latest invoice/cash flow to be reconciled first
- FIFO Oldest invoice/cash flow to be reconciled first
- LAFO Lowest amount to be reconciled first
- HAFO Highest amount to be reconciled first

Attributes Displays the attribute on which the reconciliation method will be applied.

- If the reconciliation criteria is either LIFO or FIFO, then a datespecific attribute is present in this field.
- If the reconciliation criteria is either LAFO or HAFO, then an amount-specific attribute is present in this field.
- **Rule Interpretation** Displays the interpretation of the reconciliation method applicable.

Allocation Details - Account Based

This section appears if the **Account Based** option has been selected for allocation.

Serial Number	Displays the serial number of the allocation account.			
Allocation Account	Displays the virtual account that has been selected for allocation.			
Percentage	Displays the percentage of payment allocated.			
Allocation Details - Attribute Based				

This section appears if the Attribute Based option has been selected for allocation.

Serial Number	Displays the serial number of the entity and attribute combination.
---------------	---

Allocation Entity and Displays the entity and their respective attributes that have been selected for allocation.

Percentage Displays the percentage of payment allocated.

From the View Reconciliation Rule (details) screen, you can do the following:

• Edit the reconciliation rule, by clicking <u>Edit</u>.

• Go back to the **View Reconciliation Rules** screen, which displays a list of existing reconciliation rules, by clicking **Back**.

12.4.2 Edit Reconciliation Rule

Using this screen, the corporate user can edit a reconciliation / allocation rule.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Reconciliation > View/Edit Reconciliation/Allocation Rule

To edit a reconciliation rule:

1. In the **View Reconciliation Rules** screen, search for the required reconciliation rule, using the Search field or the filter options.

Rule Id RR00002379	You want to edit a system defined rule mapped to your party id. Thus, you will be navigated to the Create Reconciliation Rule screen with the same rule data being pre-populated. You can change the rule as required and then submit. On submitting the new rule, the existing system defined rule will be unmapped from your party id.				
Rule Type Exact	System Rule Change from Generic to Exact 4	62			
Priority 5					
Reconciliation Rule					

Note: For a system-defined rule, an alert message pops up on clicking **Edit**. It states that you are about to edit a system defined rule. Once you modify and submit the rule, it will be unmapped from your party ID. System defined reconciliation rules are applicable to all corporate customers of the bank. If a corporate party wishes to customize a particular system defined rule, they may do so. This unmaps the rule from the party ID. The corporate party can then customize and submit the rule. A new rule with the same rule ID is created which is applicable only to that specific corporate party.

 Click Ok, to accept the warning message. The Create Reconciliation Rule screen appears. The fields are populated with the existing values. OR

Click **Cancel** to cancel the transaction and remain on the **View Reconciliation Rule** (details) screen.

Field Description

	Description
Edit Reconciliation Rul	e
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Rule Details (train stop)
Rule Id	Displays the unique ID assigned that is automatically assigned to the rule during creation. This field is not editable.
Reconciliation Type	Displays whether the reconciliation is for invoices and payments or expected cash-flows and payments. This field is not editable.
Rule Type	Displays whether the rule is a generic or an exact one. This field is not editable.
Rule Name	Indicates the name of the rule. This field is editable.
Reconciliation Method	Indicates how the rule is applied to the invoice/cash-flow record for reconciliation. This field is displayed only for Generic rule type It is editable. The options are:
	 FIFO – Oldest invoice/cash-flow to be reconciled first LIFO – Latest invoice/cash-flow to be reconciled first HAFO – Invoice/Cash-flow with highest amount to be reconciled first LAFO – Invoice/Cash-flow with lowest amount to be reconciled first
Attribute	Indicates the attribute used for applying the reconciliation method. This field is displayed only for Generic rule type. It is editable.
	For Invoice and Payments reconciliation:
	 For FIFO and LIFO, the options are: Invoice Date; Invoice Due Date.
	 For HAFO and LAFO, the options are: Invoice Amount Outstanding Invoice Amount.
	For Cash Flow and Payments reconciliation:
	 For FIFO and LIFO, the options are: Expected Date; Revise Expected Date.
	 For HAFO and LAFO, the option is: Amount.
Rule Interpretation	Displays the rule that is set, based on the options you select in the Reconciliation Method and Attribute fields. This field in displayed only for Generic rule type.

This section appears only for **Exact** rule type. It displays the conditions that have been set during creation. The entire section is editable.

Add Condition	Indicates an option to add a condition for Exact reconciliation	n.
---------------	---	----

Field Name	Description
Add Group	Indicates an option to add a group of conditions that are clubbed together by logical operators 'AND' or 'OR'.
AND / OR	Indicates the logical operator to be used for clubbing the conditions for creating the Exact reconciliation rule.

Single-Sided Condition

You can create single-sided conditions by selecting a specific entity (Invoice/

Cash-Flow or Payment) and then comparing an attribute of this entity with a specific value. The following fields appear for a single sided condition.

Select Entity	Select the required entity for building the condition.			
Select Attribute	Select the attribute of the entity to be compared.			
Select Pattern	Select the relational operator or pattern to be used for comparison.			
Value	Enter the value that the attribute is to be compared with.			

Double-Sided Condition

You can create double-sided conditions by comparing an attribute of one entity with a relevant attribute of the other entity. For example, for the Invoice and Payment double-sided condition, the Net Invoice Amount can be compared with the Payment Amount.

The following fields appear for a double-sided condition.

Entities	Select the entities combination for creating the double-sided condition.
Select Pattern	Select the pattern to be used for the attribute (of the first entity) to be compared. The options available are:
	Exact Attribute
	• Text Between Two Positions – On selecting this option, two fields appear where you can enter the position (numerical values). The attribute text between these positions is used for comparison.
Select Attribute	Select the attribute of the first entity to be compared.
Relational Operator	Select the relational operator to be used for comparison.
Select Pattern	Select the pattern to be used for the attribute (of the second entity) to be compared. The options available are:
	Exact Attribute
	 Text Between Two Positions – On selecting this option, two fields appear where you can enter the position (numerical values). The attribute text between these positions is used for comparison.
Select Attribute	Select the attribute of the second entity to be compared.

Field Name Description

Save all and Preview Click this link to save and preview all added conditions.

- 5. Modify the required details in the **Rule Details** step.
- 6. Click **Continue** to go to the **Set Allocation** step.
 - OR

Click **Cancel** to cancel the transaction.

OR

Click **Skip Allocation** to skip the **Set Allocation** train stop and move to the **Prioritize Rule** train stop.

Edit Reconciliation Rule – Set Allocation step – Account Based

Field Name	Description
Edit Reconciliation Rule	3
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Set Allocation	
Allocation Basis	Select whether the allocation should be virtual accounts-based or attributes-based.
	 If you select the Account Based option, then you can directly set the virtual accounts for allocation.
	 If you select the Attribute Based option, then you can set attributes for allocation. The virtual accounts that are mapped to these attributes will be used for allocation.
Account Based Allocati This section appears if yo	on ou select the Account Based option in the Allocation Basis field.
Serial Number	Displays the serial number of the allocation account.
Allocation Account	Select a virtual account to assign an allocation percentage.
Percentage	Enter the percentage of payment to be allocated to the virtual account.
Action	Click $^{\bigoplus}$ to add further virtual accounts. Or click $^{\fbox}$ to delete an added account.

Field Name	Description
------------	-------------

Attribute Based Allocation

This section appears if you select the **Attribute Based** option in the **Allocation Basis** field. This option can be used to allocate specific percentages of the payment towards specific attributes. The amount corresponding to the payment percentage set, is allocated to the virtual accounts mapped to these attributes.

Serial Number	Displays the serial number of the attribute.
Allocation Entity	Select the entity whose attribute should be considered for setting an allocation percentage.
Allocation Attributes	Select the attribute for which the allocation percentage should be set.
Percentage	Enter the percentage of payment to be allocated to the attribute.
Action	Click $\textcircled{\oplus}$ to add further attributes. Or click $\textcircled{1}$ to delete an added attribute.

- 7. Modify the allocation details if required.
- Click Continue to go to the Prioritize Rule step. OR
 Click Cancel to cancel the transaction.
 OR
 Click Back to go to the previous screen.
 OR

Click Skip to skip modifying the allocation and to move to the Prioritize Rule train stop.

Allocation Details - Attribute Based	Alert	×			
Serial Number Allocation Entity	You want to edit a system defined rule mapped to your party id. Thus, you will be navigated to the Create Allocation Rule screen with the same rule data being pre-populated. You can change the rule as required				
1 Payments - Crec	and then submit. On submitting the new rule, the existing system defined rule will be unmapped from your party id.	- 1			
Back	Ok Cancel	_			
Соруг	ight © 2006, 2020, Oracle and/or its affiliates. All rights reserved. SecurityInformation Terms and	l Condition	15		

Note: For a system-defined rule, an alert message pops up on clicking **Edit**. It states that you are about to edit a system defined rule. Once you modify and submit the rule, it will be unmapped from your party ID. System defined reconciliation rules are applicable to all corporate customers of the bank. If a corporate party wishes to customize a particular system defined rule, they may do so. This unmaps the rule from the party ID. The corporate party can then customize and submit the rule. A new rule with the same rule ID is created which is applicable only to that specific corporate party.

 Click Ok, to accept the warning message. The Create Allocation Rule screen appears. The fields are populated with the existing values. OR

Click **Cancel** to cancel the transaction and remain on the **View Reconciliation Rule** (details) screen.

Field Description

Field Name	Description					
Edit Allocation Rule						
Party Name & ID	Displays the name and ID of the logged-in corporate party.					
Set Allocation						
In this step, you can modify the percentages that have been allocated either to specific virtual accounts, or towards specific payment attributes. You must ensure that the sum of the allocated percentages should be 100. This section is fully editable.						

Allocation Basis	Select	whether	allocation	should	be	virtual	accounts-base	d or
	attribut	es-based	ł.					

Account Based Allocation

This section appears if you select the Account Based option in the Allocation Basis field.

Action	Click $^{\bigoplus}$ to add further virtual accounts. Or click $^{\widehat{\mathrm{III}}}$ to delete an added account.
Percentage	Enter the percentage of payment to be allocated to the virtual account.
Allocation Account	Select a virtual account to assign an allocation percentage.
Serial Number	Displays the serial number of the allocation account.

Field Name	Descri	ption

Attribute Based Allocation

This section appears if you select the **Attribute Based** option in the **Allocation Basis** field. This option can be used to allocate specific percentages of the payment towards specific payment attributes (such as credit account number, remitter account number, payment party ID, and so on), which are mapped to specific virtual accounts.

Serial Number	Displays the serial number of the attribute.
Allocation Entity	Displays 'Payment' by default.
Allocation Attributes	Select the attribute for which the allocation percentage should be set.
Percentage	Select the percentage of payment to be allocated to the attribute.
Action	Click $^{\bigoplus}$ to add further attributes. Or click $^{\widehat{\mathbb{III}}}$ to delete an added attribute.

8. Once the allocation details are set, click **Continue** to go to the **Prioritize Rule** step. OR

Click **Cancel** to cancel the transaction.

OR

Click Back to go to the previous screen.

Field Description

Field Name	Description				
Manual Reconciliation					
Party Name & ID	Displays the name and ID of the logged-in corporate party.				

Field Name	Description
Invoice/Debit Note Type	Select either the Receivables option or the Payables option, based on the corporate customer's role.
	 If the corporate is a supplier, then select the Receivables option.
	• If the corporate is a buyer, then select the Payables option.
Reconciliation Type	Select the type of reconciliation to be performed. The reconciliation procedure steps are populated based on the option you select. The options are:
	• Single Invoice/Debit Note to Multiple Payments/Credit Notes: If you select this option, the application lets you select the required invoice or debit note in the 1 st step, and the payments and/or credit notes in the 2 nd step. For more information, refer the <u>Single Invoice/Debit Note to Multiple</u> <u>Payments/Credit Notes</u> section in this user manual.
	• Single Payment/Credit Note to Multiple Invoices/Debit Notes: If you select this option, the application lets you select the required payment or credit note in the 1 st step, and the invoices and/or debit notes in the 2 nd step. For more details, refer the <u>Single Payment/Credit Note to Multiple</u> <u>Invoices/Debit Notes</u> section in this user manual.

- 1. In the **Manual Reconciliation** screen, select the appropriate option from the **Invoice/Debit Note Type** field.
- 2. From the Reconciliation Type field, select either the Single Invoice/Debit Note to Multiple Payments/Credit Notes option or the Single Payment/Credit Note to Multiple Invoices/Debit Notes option.

12.5.1.1 Single Invoice/Debit Note to Multiple Payments/Credit Notes

If you select this option, then a list of invoices and debit notes appears. These invoices and debit notes are unreconciled or partially reconciled. You can select an invoice or a debit note and one or more payments/credit notes to reconcile with. Upon selection, you can save these details, and add another record to be reconciled in the same transaction.

Field Description

Field Name Description

Select Invoice/Debit Note

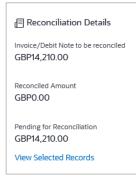

This step appears if you select the **Single Invoice/Debit Note to Multiple Payments/Credit Notes** option from the **Reconciliation Type** field. A list of unreconciled / partially-reconciled invoices and debit notes is displayed. You can select either an invoice or a debit note from the list.

Invoices/Debit Notes (number)	Displays the total number of invoices and debit notes available in the list.
Search	Indicates an option to search for specific invoices/debit notes.
∇	Click this icon to filter the invoices/debit notes based on certain criteria. The Invoice/Debit Note Search overlay window appears. For more information on the fields in this window, refer the Invoice/Debit Note Search section in this document.

Field Name	Description					
The following fields are present in the invoices/debit notes grid.						
Selector	Indicates the option to select the invoice/debit note.					
Indicator	Displays 'I' for invoice and 'D' for debit note.					
Date Reference Number	Displays the date of the invoice/debit note and its reference number as a hyperlink. You can click this link to view the invoice/debit note details in an overlay window. The fields displayed in the overlay window are the same as those present in the <u>View Invoice Details</u> screen / <u>View Debit Note Details</u> screen in this document.					
Associated Party	Displays the name of the associated or counter party.					
Due Date	Displays the due date of the invoice/debit note.					
Amount	Displays the total invoice/debit note amount.					
Unreconciled Amount	Displays the unreconciled invoice/debit note amount.					

Reconciliation Details section

This section, present on the right hand side of the Manual Reconciliation screen, is automatically updated when you select the invoice/debit note and payments/credit notes for reconciliation.

Invoice/Debit Note to be reconciled	Displays the invoice/debit note amount to be reconciled, once you select an invoice/debit note in the 1 st step of manual reconciliation.
Reconciled Amount	Displays the total payments/credit notes amount. This field is updated once you select the payments and/or credit notes in the 2 nd step of manual reconciliation.
Pending for Reconciliation	Displays the difference between the amounts in the fields above.
View Selected Records	Click this link to view the details of the selected invoice/debit note and payments and/or credit notes. An overlay window appears with the details of the selected records.

Field Name Description

Reconciled Records

This section (present on the top right side of the Manual Reconciliation screen) displays the number of records that you have saved for reconciliation by clicking **Save and Add Another**. You can click the **View Details** link to view the details of these saved records, which appear

in an overlay window. To remove a saved record, click is beside it.

- 3. If you select the **Single Invoice/Debit Note to Multiple Payments/Credit Notes** option, then in the **Select Invoice/Debit Note** step, select the required invoice or debit note to reconcile. You can use the **Search** field and filter options to find the required record.
- 4. Click **Continue** to proceed to the **Reconcile with Payments/Credit Notes** step. OR

Click **Cancel** to cancel the transaction. OR

Click **Back** to go to the dashboard.

Field Description

Field Name Description

Reconcile with Payments/Credit Notes

This step appears when you select an invoice/debit note and click **Continue**. You can select multiple payments/credit notes for reconciliation.

Payments/Credit	Displays the total number of payment and credit note records
Notes (number)	available in the list.

Search Indicates an option to search for specific payments/credit notes.

Click this icon to filter the payments and credit notes based on certain criteria. The **Payments/Credit Notes Search** overlay window appears. For more information on the fields in this window, refer the **Payments/Credit Notes Search** section in this document.

The following fields are present in the payments/credit notes grid.

Check box	Indicates the option to select the payment/credit note record.
-----------	--

Indicator Displays 'P' for payment and 'C' for credit note.

- **Date Reference Number** Displays the date of the payment/credit note and its reference number as a hyperlink. You can click this link to view the payment/credit note details in an overlay window. The fields displayed in the overlay window are the same as those present in the <u>View Payment (details)</u> screen / <u>View Credit Note Details</u> screen in this document.
- Associated Party Displays the name of the associated party and the remitter. Remitter Name
- **Due Date** Displays the expiry date in case of a credit note record. For a payment record, this field is blank.

AmountDisplays the total payment/credit note amount and the unreconciledUnreconciled Amountamount.

Amount To Be
ReconciledIndicates the payment/credit note amount that is yet to be
reconciled. Once you select a payment/credit note record, you can
edit and modify the amount to be reconciled, if required.

Note: To edit this field:

1) Select the required payment/credit note record.

- 2) Click and modify the amount.
- 3) Click 🕒 to save the amount.

- 6. In the **Amount To Be Reconciled** field, click local to edit the amount and then click to save the changes, if required.
- 7. Click **Save and Add Another** to save the details and select another invoice/debit note to reconcile against payments/credit notes.
 - To view a list of records that you have already saved, click the **View Details** link in the **Reconciled Records** section, on the top right side of the Manual Reconciliation screen.

An overlay window appears with the saved records. To delete a record, click $\widehat{\mathbb{III}}$.

- 8. Click **Submit** to submit the transaction. The Review screen appears.
 - OR

Records

Click Cancel to cancel the transaction.

credit notes to reconcile with.

OR

Click **Back** to go to the previous screen.

 In the Review screen, verify the selected details and click Confirm. A confirmation message appears, with the status and reference number of the transaction. OR Click Cancel to cancel the transaction. OR

Click **Back** to go to the previous screen.

Once the transaction is submitted, the approver is notified. If any modifications are required, the approver can add relevant comments and send the transaction back to the maker, using the **Send to Modify** feature. Once the required modifications are made, the maker can re-submit the transaction.

12.5.1.2 Single Payment/Credit Note to Multiple Invoices/Debit Notes

If you select this option, then a list of unreconciled and partially-reconciled payments and credit notes appears. You can select a payment or a credit note and one or more invoices/debit notes to reconcile. Upon selection, you can save these details, and add another record to be reconciled in the same transaction.

Field Name Description

Select Payment/Credit Note

This step appears if you select the **Single Payment/Credit Note Multiple Invoices/Debit Notes** option from the **Reconciliation Type** field. A list of unreconciled / partially-reconciled payments and credit notes is displayed. You can select one payment or credit note from the list.

Payments/Credit Notes (number)	Displays the total number of payments and credit notes available the list.						
Search	Indicates an option to search for specific payments/credit notes.						
∇	Click this icon to filter the payments based on certain criteria. The Payment/Credit Note Search overlay window appears. For more information on the fields in this window, refer the <u>Payment/Credit</u> <u>Note Search</u> section in this document.						
The following fields are	present in the payments/credit notes grid.						
Selector	Indicates the option to select the payment/credit note.						
Indicator	Displays 'P' for payment and 'C' for credit note.						

Date
Reference NumberDisplays the date of the payment/credit note and its reference
number as a hyperlink. You can click this link to view the
payment/credit note details in an overlay window. For more
information on the fields displayed, refer the <u>View Payment Details</u>
section or the <u>View Credit Note Details</u> section in this document.Associated PartyDisplays the name of the associated party and the remitter.

Due Date Displays the expiry date in case of a credit note record. For a payment record, this field is blank.

Amount Displays the total payment/credit note amount.

Unreconciled Amount Displays the payment/credit note amount that has not yet been reconciled.

Field Name Description

Reconciliation Details section

This section, present on the right hand side of the Manual Reconciliation screen, is automatically updated when you select the payment/credit note and invoices/debit notes for reconciliation.

Reconciliation Details
Payment/Credit Note to be reconciled GBP200.00
Reconciled Amount GBP0.00
Pending for Reconciliation GBP0.00
View Selected Records

Payment/Credit Note to be reconciled	Displays the payment/credit note amount to be reconciled, once you select a payment/credit note in the 1 st step of manual reconciliation.
Reconciled Amount	Displays the total invoices/debit notes amount. This field is updated once you select the invoices and/or debit notes in the 2 nd step of manual reconciliation.
Pending for Reconciliation	Displays the difference between the amounts in the fields above.
View Selected Records	Click this link to view the details of the selected payment/credit note and invoices and/or debit notes. An overlay window appears with the details of the selected records.

Reconciled Records

This section (present on the top right side of the Manual Reconciliation screen) displays the number of records that you have saved for reconciliation by clicking **Save and Add Another**. You can click the <u>View Details</u> link to view the details of these saved records, which appear

in an overlay window. To remove a saved record, click \fbox beside it.

 If you select the Single Payment/Credit Note to Multiple Invoices/Debit Notes option, then in the Select Payment/Credit Note step, select the required payment or credit note record to reconcile. You can use the Search field and filter options to find the required record.

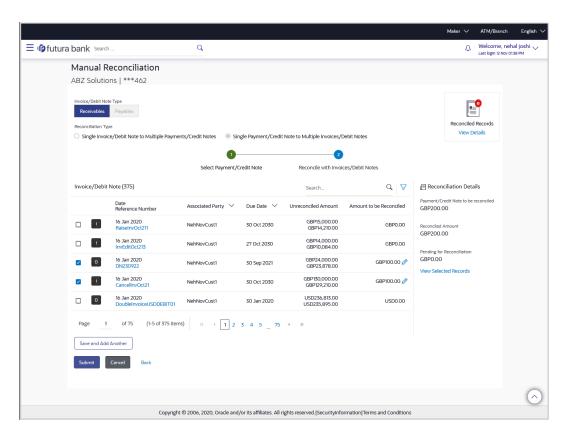

11. Click Continue to proceed to the Reconcile with Invoices/Debit Notes step.

OR Click **Cancel** to cancel the transaction. OR

Click **Back** to go back to the dashboard.

Reconcile with Invoices/Debit Notes

Field Description

Field Name

Description

Reconcile with Invoices/Debit Notes

This step appears when you select a payment/credit note and click **Continue**. You can select multiple invoices and debit notes for reconciliation.

Invoice/Debit Note (number)	Displays the total number of invoices and debit notes available in the list.					
Search	Indicates an option to search for specific invoices or debit notes.					
∇	Click this icon to filter the invoices/debit notes based on certain criteria. The Invoice/Debit Note Search overlay window appears. For more information on the fields in this window, refer the Invoice/Debit Note Search section in this document.					
The following fields are	present in the invoices/debit notes grid.					
Check box	Indicates the option to select the invoice/debit note record.					
Indicator	Displays 'l' for invoice and 'D' for debit note.					

Field Name	Description						
Date Reference Number	Displays the date of the invoice/debit note and its reference number as a hyperlink. You can click this link to view the invoice/debit note details in an overlay window. For more information on the fields displayed, refer the <u>View Invoice Details</u> section or the <u>View Debit</u> <u>Note Details</u> section in this document.						
Associated Party	Displays the name of the associated or counter party.						
Due Date	Displays the due date of the invoice/debit note.						
Amount Unreconciled Amount	Displays the total invoice/debit note amount and the unreconciled amount.						
Amount to be Reconciled	Indicates the invoice/debit note amount that is yet to be reconciled. Once you select an invoice/debit note record, you can edit and modify the amount to be reconciled, if required.						
	Note: To edit this field:						
	1) Select the required invoice/debit note record.						
	2) Click and modify the amount.						
	3) Click 🕒 to save the amount.						

Reconciliation Details section

This section, present on the right hand side of the Manual Reconciliation screen, is automatically updated when you select the payment/credit note and invoices/debit notes for reconciliation.

Field Description

Field Name	Description
Manual Reconciliation	I
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Cash Flow Type	Select the type of the cash flow, whether inflow or outflow.

Field Name	Description
Reconciliation Type	Select the type of reconciliation to be performed. The reconciliation procedure steps are populated based on the option you select. The options are:
	 Single Cash Flow Multiple Payments: If you select this option, the application lets you select the required cash flow in the 1st step, and reconcile with payments in the 2nd step. For more information, refer the <u>Single Cash Flow Multiple</u> <u>Payments</u> section in this user manual.
	• Single Payment Multiple Cash Flows: If you select this option, the application lets you select the required payment in the 1 st step, and reconcile with cash flows in the 2 nd step. For more details, refer the <u>Single Payment Multiple Cash</u> <u>Flows</u> section in this user manual.

- 1. In the **Manual Reconciliation** screen, select the appropriate option from the **Cash Flow Type** field.
- 2. From the **Reconciliation Type** field, select either the **Single Cash Flow Multiple Payments** option or the **Single Payment Multiple Cash Flows** option.

12.5.2.1 Single Cash Flow Multiple Payments

If you select this option, then a list of cash flow records appears. These cash flow records are unreconciled or partially reconciled. You can select a cash flow record and one or more payments to reconcile. Upon selection, you can save these details, and add another cash flow-payments record to be reconciled in the same transaction.

On selecting/entering the required details, click **Apply** to apply the filter criteria, or, click **Reset** to reset the entered data.

12.6 Manual Allocation

Using this screen, the corporate user can manually allocate payments to the required virtual accounts. The manual allocation transaction can be used by corporates to manually allocate payments to accounts, in cases where the execution of the allocation rule has failed or for payments that do not have rules set.

The screen, by default, displays all the matched or partially matched and unallocated or partially allocated payments for manual allocation.

The user can select a single payment and allocate it to a single or multiple virtual accounts and set the corresponding percentage(s) of allocation. The total percentage should always be 100.

Allocation of virtual account can also be based on payment attributes. Payments attributes are listed. The user can select a single or multiple attributes. The values of these attributes are used to make a call to the Virtual Accounts Management system, which in response, returns the associated virtual account. That virtual account is mapped to the payment. Multiple accounts can be mapped by setting the percentage for each. The total percentage should always be 100.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Reconciliation > Manual Allocation

To perform manual allocation:

1. In the Manual Allocation screen, use the View By list and/or the filter options to get a list of required payment records.

Field Name	Description
Manual Allocation	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
View By	Indicates an option to view the payment records based on the following criteria:
	Saved for Allocation
	Incoming Payments
	Outgoing Payments
∇	Indicates an option to filter the payment records based on selected parameters. Refer the Payments Search overlay window section below, for more details.
Payments Panel	
and partially matched p	on screen, the panel on the left hand side displays a list of matched payments that have not been allocated or are partially allocated. You eld and the filter option to narrow down this list.
Payment Reference Number	Displays the unique reference number of the payment. The 🗹
	(incoming) or Ż (outgoing) indicator is also displayed.
Payment Amount	Displays the currency and amount of the payment.
Payment Date	Displays the date on which the payment occurred.

Field Name	Description
------------	-------------

Selected Payment

By default, the first payment in the payments panel appears selected. You can select a different record for allocation, as required. The details of the selected payment record are displayed in the main section, with the following fields:

Payment Reference Number	Displays the unique reference number of the payment. The 🗹 (incoming) or 🥕 (outgoing) indicator is also displayed.
Payment Date	Displays the date on which the payment occurred.
Payment Amount	Displays the currency and amount of the payment.
External Reference Number	Displays the reference number of the payment assigned by the corporate party.
	This is a hyperlink which when clicked displays the details of the payment. For more information on the payment details, refer the <u>View Payments (details)</u> section in this document.
Remitter Account Number	Displays the account number from which the payment originated.
Unallocated Amount	Displays the amount that is yet to be allocated.
Amount to be Allocated	Enter the payment amount to be allocated in the current transaction. By default, the value in the Unallocated Amount field is displayed.

Set allocation

You can search and set the virtual accounts and their allocation percentages in this section. The sum of percentages of all added accounts should be 100.

Virtual Account	Set the virtual account to which the payment should be allocated. Click the <u>Fetch Virtual Account on the basis of attributes</u> link to search and find the required virtual account. The Set Virtual Account Attributes pop-up window appears. For more information on the fields in this window, refer the <u>Set Virtual</u> Account Attributes section below.
Percentage to be Allocated	Enter the percentage of the payment to be allocated to the selected virtual account. If you enter a percentage in this field, the Allocated Amount field gets updated automatically. Note: The total percentage allocated to all virtual accounts should be less than or equal to 100.
Allocated Amount	Enter the amount to be allocated to the selected virtual account. If you enter an amount in this field, the Percentage to be Allocated field gets updated automatically.
	Note: The total amount allocated to all the virtual accounts should be less than or equal to the Amount to be Allocated amount.

Field Name	Description
Action	Click $^{igodol{\oplus}}$ to add further virtual accounts. Or click $^{igodol{10}}$ to delete an added account.
