1. Preface

1.1 Intended Audience

This document is intended for the following audience:

- Customers
- Partners

1.2 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

1.3 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

1.4 Structure

This manual is organized into the following categories:

Preface gives information on the intended audience. It also describes the overall structure of the User Manual.

Introduction provides brief information on the overall functionality covered in the User Manual.

The subsequent chapters provide information on transactions covered in the User Manual.

Each transaction is explained in the following manner:

- Introduction to the transaction
- Screenshots of the transaction
- The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.
- Procedure containing steps to complete the transaction- The mandatory and conditional fields of the transaction are explained in the procedure. If a transaction contains multiple procedures, each procedure is explained. If some functionality is present in many transactions, this functionality is explained separately.

1.5 Related Information Sources

For more information on Oracle Banking Digital Experience Patchset Release 22.1.1.0.0, refer to the following documents:

* The end to end connectivity for offline and online customer validation during "Add Biller" and related admin maintenances during "Create Biller" transactions are not part of the OBDX out of the box product offering.

3. Electronic Bill Presentment and Payment

Electronic bill presentment and payment (EBPP) is a process that enables the billers to create, and present the bills / invoices online to their customers. This feature also enables the customers/ users to pay the bills online. The EBPP services are widely used in many areas like utility bill payment, fund transfer through net banking against various purchases of utility products and services by the users, payment to service providers, mobile/ DTH bill payment etc.

The main advantage of electronic bill presentment and payment is that users/ customers can pay their bills anytime quickly and conveniently, which saves lots of time and paper work.

[Home](#)

4. Retail Servicing - Bill Payments Widget - Bills

The Bills' widget present on the retail user dashboard enables the user to access the bill payment transactions. All the bills, that are due to be paid are listed in this widget, users can pay their bills easily and quickly.

Bill Payments - Bills Overview

The bill payments widget enables the user to gain easy access to the following transactions and features:

Pay

This feature enables users to pay utility bills towards various types of billers like 'payment', 'payment and presentment, recharge.

View All

This feature enables users to view all the billers.

[Home](#)

5. Add Billers

The online banking application enables the user to add billers of the specific categories for the payment of bills and prepaid recharge electronically. Following types of billers are added.

- Presentment type: Billers presents the bill or invoice to the customer/ user online before paying the bill
- Payment type: Biller does not present bills. Biller allows the users to pay their bills anytime using their current and savings or credit card account that is credited to the billers account
- Presentment and Payment type: Billers has features similar to both Presentment as well as Payment type of billers. The bills/ invoice can be presented to the users for bill payment or the users can pay bills without the invoice
- Recharge type: Billers allows users to do “Recharge” their prepaid services like Mobile, DTH or Internet

Users can add billers by specifying the Nickname of the biller(nickname should be unique), biller specific single /multiple unique customer IDs e.g. Relationship no, Account number etc., and other Biller labels as maintained in the Biller Maintenance administration screen. Multiple but unique registrations with the same biller are allowed.

When a channel customer does an “Add Biller” transactions, he is essentially registering with the biller to make online bill payments. At this stage some billers may want to validate that the customer is a genuine customer. The behaviour is based on how customer validation has been set up when biller got on-boarded

Auto: When a biller is of Customer Validation type as “Auto”, customers who add this biller do not need any validation from biller and their registrations are auto-approved and they can initiate online bill payments to this biller

Offline: When a biller is on boarded with Validation type as “Offline”, for retail or corporate customers who add this biller, their registration status will be “Pending”. This means that the biller will have to do an offline validation of these registrations and can approve or reject them. OBDX does not provide any OOTB (Out of the box) mechanism for downloading the “Pending” registrations and changing their status by banker or biller.

Online: When a biller is on boarded with Validation type as “Online”, for retail or corporate customers who add this biller, their registrations need to be validated by biller online. The online validation could be a redirect to the biller’s website where he can do the validation through REST type web service through which validation happens. OBDX does not provide for OOTB implementation of the online validation.

Prerequisites:

- Transaction access is provided to the retail user
- Billers are maintained in OBDX by administrator
- Admin Biller Category maintenance is done

Features supported in the application

- Add Biller

To add a biller:

1. From the **Biller Name** list, select the registered biller name.
2. In the **Biller Nickname** field, modify the biller nickname.
3. In the biller specific fields, enter information as required.
4. If you have selected the **Presentment** or **Presentment or Payment** type of biller from the **Biller Name** list:
 - a. From the **Payment Type** field, select the option of choice;

Select the option **Manual** if you wish to make bill payments manually every time the bills are due.

OR

Select the option **Auto Pay** to set up automatic bill payments.

OR

Select the option **Scheduled Pay**, if you wish to schedule bill payments for either a single instance or recurring instances.
 - b. If you have selected the option **Auto Pay** under the **Payment Type** field:
 - i. From the **Payment Method** list, select an option of choice to identify the mode through which payment will be made. The options can be Account, Debit Card and Credit Card, depending on the administrator maintenance for the specific biller. The values in the **Pay From** list will be populated on the basis of selection.
 - ii. From the **Pay From** list, select the CASA account/Debit Card/Credit Card, which is to be debited for bill payment.

- iii. If you have selected the option **Credit Card**, select the month and year of card expiry in the **Expiry Date** fields.
- iv. From the **Pay** field, select an option as follows:
 1. Select the **Bill Amount** option, if you want the entire amount of the generated bill to be paid at every cycle.
OR
 2. Select the **Limit Amount** option, if you want to specify a maximum amount for bill payment.
 - a. Enter an amount in the **Limit Amount** field.
- c. If you have selected the option **Scheduled Pay** under the **Payment Type** field:
 - i. From the **Payment Method** list, select an option of choice to identify the mode through which payment will be made. The options can be Account, Debit Card and Credit Card. The values in the **Pay From** list will be populated on the basis of selection.
 - ii. If you have selected the option **Credit Card**, select the month and year of card expiry in the **Expiry Date** fields.
 - iii. In the **Amount** field, enter the amount to be paid towards the bill at every instance.
 - iv. In the **Occurrence** field, select the desired option:
 1. If you select the **One Time** option, select a date on which the payment towards the biller is to be made.
 2. If you select the **Recurring** option:
 - i. From the **Frequency** list, select the frequency at which payments towards the biller are to be made.
 - ii. Enter the date from which recurring payments are to be made towards the biller in the **Start From** field.
 - iii. Enter the date upto which recurring payments are to be made towards the biller in the **End Date** field.
5. Click **Submit** to add the biller.
OR
Click **Cancel** to cancel the transaction.
6. The **Review** screen appears. Verify the details, and click **Confirm**.
OR
Click **Back** to navigate back to the previous screen.
OR
Click **Cancel** to cancel the transaction.
7. The success message appears along with the biller details.
Click **Pay Bill** to make a payment towards the biller.
OR
Click **Add Another Biller** to add more billers.
OR
Click **Home** to navigate to the dashboard.

[Home](#)

6. Billers

This screen lists down all the registered billers of the user.

Billers are maintained in OBDX either manually using Biller Maintenance functionality or through a bulk file upload. All the registered billers (of all types) and bills are displayed on the screen. The billers can be of 'Presentment', 'Payment', 'Presentment and Payment' and 'Recharge' type.

Prerequisites:

- Transaction access is provided to the retail user
- Transaction working window is maintained
- Billers are maintained
- Transaction limits are assigned to the user to perform the transaction

Features supported in application

- Bill Payment

How to reach here:

Dashboard > Toggle Menu > Menu > Bill Payments > Billers

OR

Dashboard > Bills Widget > View All link

OR

*Access through the kebab menu of transactions available under the **Bill Payments** module*

6.1 Billers - Summary

All the registered billers of the user are listed on this page. Users can initiate bill payments towards those billers against which bills are due. Apart from paying bills, the user can also view the details of each biller and can edit or delete a biller record by selecting the provided option.

The user can select multiple presented bills for payment from the same screen. Further, user will be able to specify payment details for each record.

Billers

The screenshot displays the 'Billers' section of the Futura Bank mobile application. At the top, there is a navigation bar with 'My Dashboard', 'ATM & Branch Locator', 'English', and 'UBS OBPM 14.4 HEL Branch'. Below this is a search bar and a user profile section for 'Welcome, keron Bohr' with the last login time '07 Jan 03:00 PM'. The main content area is titled 'Billers' and includes a search bar and a 'Select all to Pay' checkbox with a 'Pay' button. A table lists various billers with columns for 'Biller Name', 'Bill Type', 'Status', and 'Actions'. The 'MyElectricBill' entry is highlighted with a 'Pay' button and the amount 'INR249.12'. A promotional banner on the right side reads 'Pay bills...hassle-free' and encourages using the bank's bill payment service.

Click **Back** to navigate to the previous screen.
11. The success message appears along with the reference number, status and payment details.
12. Click **Pay Another Bill** to pay another bills.
OR
Click **Home**, to navigate to the dashboard.
OR
Click **Add Biller** to add the billers.

6.4 Pay Bill - Presentment and Payment Type

A Presentment and Payment type of biller has features similar to both Presentment as well as Payment type of billers. The bills/ invoice can be presented to the users for bill payment or bills can be paid by the users without the invoice. In the system when the biller presents a bill he will appear in the presentment section of the Bills screen and when there is no bill presented he will appear in the Payment section of the screen. This way user can be the biller when there is a bill presented or even otherwise when there is no bill presented.

The user has can pay the bills immediately or can schedule the payment. The users can set up a recurring payment or auto payment. Both auto pay and recurring pay (scheduled payment) cannot be active at the same time.

To edit a biller:

1. In the **Billers** screen, click  option against a specific Biller whose details you want to update, and then click **Edit**. The **Edit Biller** screen appears.
2. In the **Biller Nickname** field, modify the biller nickname if required.
3. If the biller you have selected to edit is of biller type **Presentment** or **Presentment and Payment**:
 - a. Select the option **Manual** if you wish to make bill payments manually every time the bills are due.
OR
Select the option **Auto Pay** to set up automatic bill payments.
OR
Select the option **Scheduled Pay**, if you wish to schedule bill payments for either a single instance or recurring instances.
 - b. If you have selected the option **Auto Pay** under the **Payment Type** field:
 - i. From the **Payment Method** list, select an option of choice to identify the mode through which payment will be made. The options can be Account, Debit Card and Credit Card, depending on the administrator maintenance for the specific biller. The values in the **Pay From** list will be populated on the basis of selection.
 - ii. From the **Pay From** list, select the CASA account/Debit Card/Credit Card, which is to be debited for bill payment.
 - iii. If you have selected the option **Credit Card**, select the month and year of card expiry in the **Expiry Date** fields.
 - iv. From the **Pay** field, select an option as follows:
 1. Select the **Bill Amount** option, if you want the entire amount of the generated bill to be paid at every cycle.
OR
 2. Select the **Limit Amount** option, if you want to specify a maximum amount for bill payment.
 - i. Enter an Amount in the **Limit Amount** field.
 - c. If you have selected the option **Scheduled Pay** under the **Payment Type** field:

- i. From the **Payment Method** list, select an option of choice to identify the mode through which payment will be made. The options can be Account, Debit Card and Credit Card. The values in the **Pay From** list will be populated on the basis of selection.
 - ii. If you have selected the option **Credit Card**, select the month and year of card expiry in the **Expiry Date** fields.
 - iii. In the **Amount** field, enter the amount to be paid towards the bill at every instance.
 - iv. In the **Occurrence** field, select the desired option:
 1. If you select the **One Time** option, select a date on which the payment towards the biller is to be made.
 2. If you select the **Recurring** option:
 - i. From the **Frequency** list, select the frequency at which payments towards the biller are to be made.
 - ii. Enter the date from which recurring payments are to be made towards the biller in the **Start From** field.
 - iii. Enter the date upto which recurring payments are to be made towards the biller in the **End Date** field.
4. Click **Submit** to edit the biller.
OR
Click **Cancel** to cancel the transaction.
 5. The **Review** screen appears. Verify the details, and click **Confirm**.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate to the previous page.
 6. The success message appears along with the updated biller details.
 7. Click **Pay Bill** to make a payment towards the biller.
OR
Click **Add Another Biller** to add more billers.
OR
Click **Home**, to navigate to the dashboard.

[Home](#)

9. Delete Biller

Using this option, you can delete a registered biller. If a bill has auto pay set up then you will not be allowed to delete the biller. In order to delete a bill for which auto payment has been set up, you will be required to first delete the auto pay setup.

How to reach here:

Dashboard > Toggle Menu > Menu > Bill Payments > Billers > Delete (access this option from the individual kebab menu available against each biller record)

OR

Dashboard > Toggle Menu > Menu > Bill Payments > Billers > Delete Biller (access this option from the kebab menu)

To delete a biller:

1. In the **Billers** screen Click  option against a specific Biller that you want to delete, and then click **Delete Biller**. The **Delete Biller** pop up window appears with a message prompting the user to confirm the deletion.

Delete Biller

2. Click **Yes** to proceed with the deletion request.
OR
Click **No** to cancel the deletion process.
3. The screen confirming biller deletion appears.
4. Click **Pay Bill** to pay the bills.
OR
Click **Add Another Biller** to add more billers.
OR
Click **Home**, to navigate to the dashboard.

13. Alerts

Alerts are generated in case of following instances.

- When a biller is added, modified, deleted
- When a new bill is presented or Initiated by OBDX.
- When a payment is set up, modified and cancelled/stopped

Example of Alerts

FAQs

1. Can I delete billers that I no longer need to make payments to?

Yes, you can choose to delete the billers that you no longer need.

2. When can I make the payment to newly added biller?

After successfully adding a biller, you may proceed to pay bills towards the specific biller immediately. However, some billers need to validate your registration in which case you can start paying the biller after a successful validation.

3. If I delete or edit a biller, what will happen to the in-flight transactions?

Biller modification or deletion will not have any impact on the transactions which are initiated towards the payee and that are pending further processing.

4. What is Electronic Bill Presentment and Payment (EBPP)?

Electronic Bill Presentment and Payment, the process by which companies send their bills to the customers and receive payments electronically. Users can pay their bills using current and savings account/ credit card or debit card.

5. Can I initiate future dated bill payments?

Yes, you can initiate future dated bill payments by using the "Pay Later" option under bill payment. Availability of this feature depends on whether the biller allows such payments.

6. Can I make a part payment or exceed the bill amount while making a payment to the biller?

Part payment and excess payment can be done only if it is allowed by biller, as maintained by bank administrator in Biller Maintenance screen.

7. Can I make a payment towards a biller who is currently not registered in my biller list?

Yes, using "Quick Bill Pay" functionality you can pay a bill without registering the biller provided the biller allows such payments.

8. Can I set an option to auto pay the bill amount of already generated bills?

Yes, you can set up auto pay for any bill that is presented and is not yet paid.

9. What is the use of "Quick Bill Pay"?

Quick bill payment allows you to pay the bills quickly, securely and conveniently without registering the billers.

10. Is payment through "Quick Bill Pay" secure?

Yes, the bill payments through quick bill pay is completely secure.

11. Is there any limit to the number of bills you can pay using the “Quick Bill Pay” feature?

There is no limit to the numbers of bills you can pay through the “Quick Bill Pay” feature.

12. Can I initiate a payment towards any biller using the “Quick Bill Pay”?

No, using this transaction, you can make payment only to the 'Payment' and 'Presentment and Payment' type' of billers.

13. How can I use Quick Recharge”?

You can use quick recharge to pay the bills of only 'Recharge' type of billers that allows quick recharge.

14. Can I set up recurring payments using “Quick Recharge”?

Yes, there is an option 'Pay Later - Recurring' to set the recurring payment of your recharge.
