# 1. Preface

## 1.1 Intended Audience

This document is intended for the following audience:

- Customers
- Partners

## 1.2 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

## 1.3 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

## 1.4 Structure

This manual is organized into the following categories:

*Preface* gives information on the intended audience. It also describes the overall structure of the User Manual.

*Introduction* provides brief information on the overall functionality covered in the User Manual.

The subsequent chapters provide information on transactions covered in the User Manual.

Each transaction is explained in the following manner:

- Introduction to the transaction
- Screenshots of the transaction
- The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.
- Procedure containing steps to complete the transaction- The mandatory and conditional fields of the transaction are explained in the procedure. If a transaction contains multiple procedures, each procedure is explained. If some functionality is present in many transactions, this functionality is explained separately.

## 1.5 Related Information Sources

## 3. Credit Cards Application

By definition, a credit card is a rectangular piece of plastic or metal issued by a bank or a financial institute to enable the card holder to borrow funds in order to purchase goods and services from merchants that accept cards for payment.

The credit card application has been built so as to capture basic personal, employment and financial information of the applicant. The applicant can also define preferences such as whether add-on card holders are to be added to the card and if balance transfers are to be defined.

The application form is OCR (Optical Character Recognition) enabled so as to save the prospect applicant's time and effort in filling out the application form. The personal information section gets prefilled with information fetched through OCR based on the document uploaded in the Upload Documents section.

Online KYC of the prospect can also be conducted by means of liveness check or through integration with third party identity verification service providers.

Liveness check can be available in two forms – assisted and unassisted.

If online KYC through assisted mode of liveness check is enabled for the product application, the applicant will be provided with the option to initiate a video call with a bank executive. The applicant will be required to first upload images of the identification document he/she wishes to submit for online KYC. The bank executive in turn, will verify, by means of the video call, that the photograph as per the ID provided is truly that of the applicant's.

If online KYC through unassisted mode of liveness check is enabled for the product application, the applicant will be prompted to first upload images of an identity proof document, after which, the system will automatically click a picture (selfie) of the applicant. The third party identity verification system will verify whether the selfie matches the photograph on the ID proof document, and will then issue a success/failure response as the case may be.

If online KYC through ID verification is enabled, the prospect will be required to define his/her Identification number along with other basic personal information such as name and date of birth so as to enable the bank to conduct online KYC of the applicant.

In all cases, once the applicant's identity is verified successfully, he/she will be able to proceed with the application form. The personal information section will also be prefilled with information as fetched on the basis of the identification provided.

Existing digital banking customers can simply provide their online banking credentials to have the personal information section of the form prefilled with information as maintained with the bank.

Additional features that have been built into the application are enabling google map integration for capture of addresses, QR code scan enablement to continue applications on mobile devices, etc.

The application tracker has been built so as to enable tracking of the application once it has been submitted. The application tracker also enables the applicant to retrieve and complete an application that has been saved. Additionally, the applicant can view documents that have been uploaded as part of the application form and can also view details as defined in the application form in PDF format.

**Note:**

- 1) When integrated with OFLO as the host, the Credit Card Preferences step will only contain the feature enabling the applicant to apply for add-on cards.
- 2) OBDX is integrated with Oracle KYC to fetch the applicant's risk level (high risk or low risk) along with the reference number for the same as generated in the Oracle KYC system, at the time of application submission. OBDX will further send this information to the mid office system to be utilized as required.

Following are the steps involved in the application submission:

- **Product Selection:** All the products belonging to the selected product category will be listed here. Each product will be listed as a separate card which will display the name and image of the product along with a short description, features and the options to view further details, or to apply for the product. The additional option to select the product so as to compare it with others within the same category will also be provided on each card. You can select a maximum of three products for comparison.

The Credit Cards listing page is further enhanced to group cards based on categories to which they belong, to make the task of browsing cards easier for the applicant. Applicants can also utilize the filter option to search for cards that best suit their needs. A hero banner is displayed at the top of the listing page that showcases all the featured credit cards.

- **Kick Off:** This page serves as an introduction to the application form. The various steps involved in an application are displayed on this page. You can also view the documents required to be uploaded as part of the application. As an applicant, you can identify how you are going to proceed with the application. If you are a new/unregistered user, you can continue as a guest, or if you are an existing online banking customer you can login with your online banking credentials to have your information pre-populated in the application.
- **Mobile Verification:** This step is applicable if you are filling out the application as a new/unregistered user. You will be instructed to enter your mobile number, after which the system will identify whether your mobile number is already registered with the bank or not. You will then be required to enter the OTP sent to this mobile number in order to proceed with the application form.
- **Liveness Check:** This step will be enabled if it is configured for the product category you have applied for and is applicable only to new/unregistered users. The liveness check that is enabled for the product category can be either assisted or un-assisted.

If the mode of liveness check is assisted, you will be provided with the option to initiate a video call with a bank executive who will verify your identity and will also undertake liveness checks. In order to enable the bank executive to verify your identity, you will be required to first upload images of an ID document that contains your most recent photograph. On completion of this step, if the bank executive has successfully verified your identity and conducted other checks, you will be able to proceed with the application form. Your personal information will be prepopulated on the basis of the information defined in your ID document.

In the case of unassisted liveness check, you will be required to first upload images of an ID proof document, following which the system will guide you to centre your face so as to be able to click a selfie using the device's camera. The third party identity verifying system will verify, through the use of certain algorithms, whether the photograph on the ID document matches that of your selfie. A success/failure message will then be displayed depending on the outcome.

- **Upload Documents:** At this step, you will be required to upload the supporting documents that can serve as proof of identity, address proof, etc. If you are a new/unregistered user, you will be able to upload a document so as to have your personal information prepopulated on the basis of the information defined in this document.

- **ID Verification:** This step will be enabled if it is configured for the product category you have applied for and is applicable only to new/unregistered users. You can select an ID that you would like to provide for verification and can enter the ID number in the provided input field. You will be sent an OTP to the mobile number defined against your ID. Your ID will be verified once you have entered the correct OTP in the provided field. Subsequently, your information, as fetched from the third party service providers on the basis of Identification provided, will be pre-populated in the personal information section.
- **Personal Information:** This section captures information pertaining to your personal information which will include your full name, date of birth, address details, etc. You can opt to upload an identity proof document to have the information on this section pre-populated or you can alternately enter the required information manually.
- **Employment Information:** You can provide information pertaining to your employment, in this step. In addition to defining information of your primary employment, you can also furnish past employment details and/or other current employment details.
- **Financial Profile:** In this section, you can furnish details pertaining to your Income, Expense, Assets and Liabilities.
- **Card Preferences:** In this section, you can customize the card you are applying for by defining preferences related to international usage, add-on cards and balance transfers.
- **Review and Submit:** Once you have filled out all the information required in the credit card application form, you will be displayed this information on the review page. You can verify the details provided and if required, can edit the information in any sections by selecting the option provided against each section.
- **Terms of Service:** On having reviewed the application, you can then proceed to view the terms and conditions of the credit card you are applying for. You can also add a digital signature by means of uploading a document containing your signature or by physically signing the provided space if you are filling out the application from a touchscreen device.
- **Confirmation:** Once you have submitted your application after having reviewed it and having accepted the terms and conditions, a confirmation page will be displayed. This page will display a success message along with the application reference number. You can track your application on the basis of this reference number. Additionally, this page will also contain a button, by clicking on which you can navigate to the application tracker.

Apart from the **Review and Submit** and **Confirmation** steps, the sequence of the remaining steps may vary based on the configuration maintained for the product applications, by the bank.

#### **How to reach here:**

*Bank Portal page > Product Offerings > Credit Cards*

*OR*

*Bank Portal page > toggle menu > Menu > Our Products > Product Offerings > Credit Cards*

**To apply for a credit card:**

1. Click on **Credit Cards** under the product offerings section in the Bank Portal page.  
A screen containing the credit card products available for online application will be displayed.

[Home](#)

### 3.1 Credit Cards – Product Listing

All the credit card products of the bank that are available for online application are displayed on this page as cards. Each card will display the product name, a short description of the product as well as the key features of each product. You can view all the products and select the best suitable one as per your needs. You can directly apply for a specific product on this page or can opt to view a detailed description of any product type by selecting the **Learn More** link provided on each product card. Alternately, you can also compare up to three products at a time so as ensure you are taking an informed decision while applying for a specific product. A hero banner, appearing at the top of the page, displays featured credit cards viz. cards that the bank wishes to promote.

This page also displays cross sell cards i.e. cards which enable the user to navigate to the other product offering pages of the bank.

Further, this screen is divided into two tabs – Browse Categories and Help me Choose.

The Browse Categories feature groups credit cards into categories so as to make it easier for applicants to browse through all the credit cards offered by the bank.

The Help me Choose feature is a filter option provided to applicants to enable them to search for credit cards based on their features so as to help them find a card that suits their needs best.

## 3.2 Credit Cards - Product Details

This page is displayed if you select the Learn more option provided on the product cards on the product listing page.

The screenshot displays the 'Product Details' page for the 'Platinum Chip Credit Card' on the Futura Bank website. The page layout includes a header with navigation options (ATM/Branch, English, Third Party), the Futura Bank logo, and a main title 'Product Details'. The card is titled 'Platinum Chip Credit Card' with the tagline 'Increase savings while availing special banking benefits.' Below this, a 'Key Highlights' section features three numbered items: 1. Annual Fee (Earn PAYBACK Points on your spends except fuel), 2. Value Added Benefits (Min. 15% savings on dining at participating restaurants), and 3. Waiver Benefits (Save on 1% fuel surcharge, waived off at petrol pumps). The 'Product Details' section includes an illustration of a couple reviewing a checklist and two sub-sections: 'Eligibility' (Major above the age of 18 years, Tax resident of Country, Applicant should not be a politically exposed person (PEP) or be associated with a PEP) and 'Fees & Charges' (No Joining Fees, No Annual Charges). At the bottom, there are buttons for 'Apply', 'Download Brochure', and 'Back'. A copyright notice is visible at the very bottom: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. [SecurityInformation] Terms and Conditions'.

### Field Description

Field Name	Description
<b>Product Name &amp; Image</b>	Displays the name of the product along with image.
<b>Product Description</b>	Displays the description of each product.
<b>Key Highlights</b>	Displays the top three features of the selected product.
<b>Product Details</b>	Displays all the details of the product including features, eligibility and fees and charges.

3. Click **Apply** to apply for the product. The **Product Kickoff** page is displayed.

- OR
- Click the **Track/Complete an application** option to navigate to the Application Tracker.

---

Note: If you are an existing customer but are not registered for Online Banking then you can register yourself for digital banking access and can then proceed to apply for the product as an existing digital banking customer. Click on the **Register for online banking access** link, the **Channel Onboarding - User Registration** screen appears. For more information, refer **User Manual Oracle Banking Digital Experience Retail Customer Services**.

---

[Home](#)

## 3.5 Mobile Verification

This step is applicable only for prospect/guest customers and appears if you have selected the **Continue as guest** option on the Kick Off page. This check is used to register guest customers so that they can track submitted applications and also retrieve applications that were abandoned before submission. This check is also used to identify whether the applicant is truly a new customer or if he/she is already an existing customer of the bank. Additionally, the system is able to identify if there are any existing applications in draft mode for the mobile number defined and can provide applicants with the option to continue with those applications if they wish to do so.

Once the mobile verification process is completed, the auto save capability of the application is enabled. Any entry/changes you make to the application form will get saved automatically.

### Mobile Verification – Enter Mobile Number

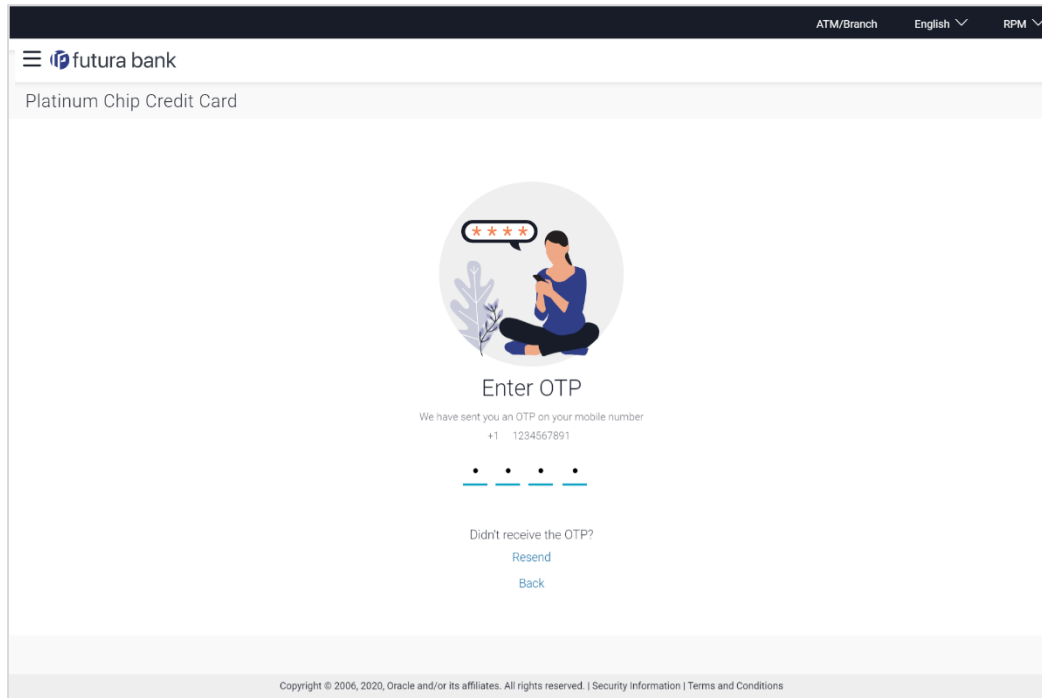

### Field Description

Field Name	Description
<b>Mobile Number: Country Code</b>	Select the country code applicable to your mobile number.
<b>Mobile Number</b>	Enter the mobile number to which you wish to have the OTP sent. You can proceed with the application only after verifying your mobile number.

7. In the **Mobile Number** field, select the country code and enter your mobile number.

8. Click **Send OTP** to receive the OTP on your mobile number. The **Enter OTP** page appears.  
OR  
Click **Back** to navigate back to the previous page.  
OR  
Under the kebab menu –
  - Click the **View Other Products** option to navigate to the Product Offerings page.  
OR  
Click the **Track/Complete an application** option to navigate to the Application Tracker.

### Mobile Verification – Enter OTP

### Field Description

Field Name	Description
OTP	Specify the OTP send on the mobile number you had specified on the previous page.

9. Enter the OTP (one time password). If you are applying via the mobile device of the specified mobile number, you can select the OTP auto read option to have the OTP auto filled in the input field.

## 3.6 Liveness Check

Liveness check can be available in two forms – assisted and unassisted.

If liveness check is enabled for the product application, you will be provided with the option to have your KYC verified through liveness check. If you opt to go through with liveness check, you will be required to first upload images of an ID proof document.

Depending on the mode i.e. assisted or unassisted, once you have uploaded the ID proof images, you will either be placed in a video call with a bank executive who will verify whether the identity proof you have provided is valid or not or be guided into centering your face in line with the device's camera so that the system can click your photograph (selfie).

In case of assisted mode, the bank executive will also conduct other checks that comprise of liveness check and will proceed to provide either positive or negative feedback.

In case of unassisted mode, the third party ID verification system will complete the steps required to complete liveness check. If the system approves your liveness check, you will be able to proceed with the application form.

In both cases, upon a positive outcome, i.e. if liveness check is completed successfully, you will be able to proceed with the application form and your personal information section will be prefilled with data as fetched from the ID proof that you have provided as part of this step. However, if the feedback is negative, you will be informed of the same and the bank will conduct your KYC check manually. You will still be allowed to proceed with the application form. However, your personal information section will not be prefilled with information and you will be required to enter all information manually.

### Liveness Check – Introductory Page

#### Assisted Mode

## Unassisted Mode

1. Click **Continue** to proceed with Liveness Check. The first page of liveness check will be displayed.

OR

Click **Skip for now** if you do not wish to go through with liveness check. The **Upload Documents** page will be displayed.

OR

Under the kebab menu –

- Click the **Save and Continue Later** option to save the application.
- OR
- Click the **Continue on Mobile** option to continue the application on a mobile device.

## Liveness Check – Start Verification

2. Click **Start** to start with the liveness check flow.

## Liveness Check – Identity Proof Selection

In this step, you will be required to choose an identification document that you would like to provide for liveness check. Your liveness check and identity verification will be conducted on the basis of this document. In the next step you will be required to upload images of the identity proof you have selected.

The screenshot shows a mobile application interface for identity verification. At the top, there is a 'Verification' header with a back arrow and a 'Help' link. The main content area is titled 'Choose issuing country/region' and features a dropdown menu currently set to 'India'. Below this is the 'Select ID type' section, which includes the instruction 'Use a valid government-issued photo ID.' and three selectable options: 'Passport', 'Driver's license', and 'Identity card'. At the bottom of the screen, there is a small footer that reads 'Powered by JUMBO' with links for 'Privacy policy' and 'Legal' and a phone number '+91 122 0 8591153'.

3. From the **Choose issuing country/region** field, select the country that has issued the identity proof you wish to provide for liveness check.
4. From the **Select ID type** field, select the identification proof that you wish to provide. The next step of Liveness Check gets displayed.

## Liveness Check – Option for document upload

In this step, you can select the method through which you would like to upload images of the identity proof you have selected.

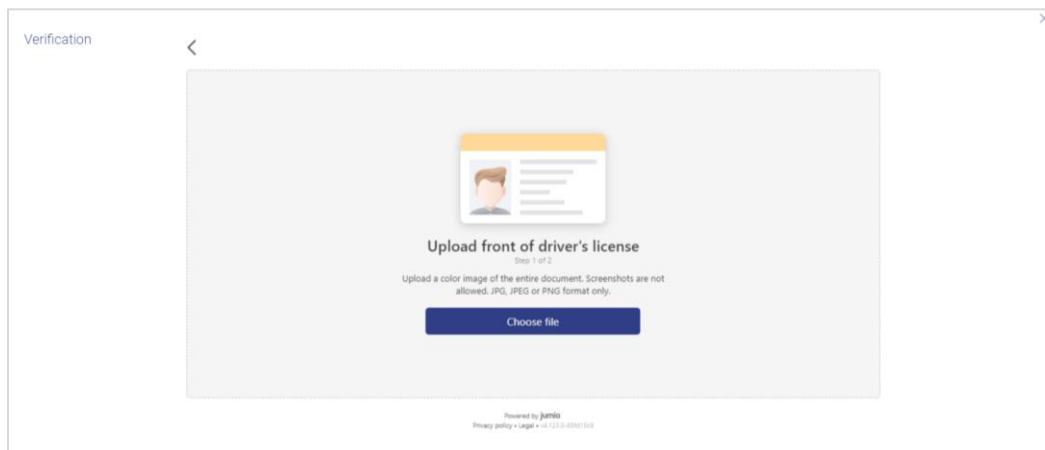

The screenshot shows the next step in the verification process. The header remains 'Verification' with a back arrow and 'Help' link. The main content area is titled 'Submit driver's license' and offers two options: 'Upload file' (with a cloud icon) and 'Prefer to use your mobile?' (with a mobile phone icon). The footer at the bottom is identical to the previous screenshot, stating 'Powered by JUMBO' with 'Privacy policy' and 'Legal' links and the phone number '+91 122 0 8591153'.

5. Select the option of choice.
  - a. If you have selected the option **Upload file**, your device's browse file feature will get enabled and you will be able select images of the front and back of the document you wish to provide.

- b. If you selected the option **Prefer to use your mobile?** you will be displayed a screen containing a field in which you can enter your email address as well as a QR code you can scan. You will be able to enter your email address so as to have the link sent to your email address. In this case you can proceed to access your email on the device and select the link on which you wish to continue liveness check or you can scan the QR code on the device on which you wish to continue your liveness check.
- c. If you are applying from a mobile device or a device that has a camera, the option to **Take photo** will appear. If you select this option, your device's camera will get enabled and you will be able to click pictures of the front and back of the document you wish to provide.

### Liveness Check – Upload Identity Proof Images

In this step, you can upload images of the front and back of the identity proof document you wish to provide for liveness check. Once you have added images, the system will undertake a check to ensure the quality of the document images you have uploaded is good and readable.

6. Click **Choose file** to upload the front image of the identity proof document. The file browser window is opened through which you can browse your device and upload the image of choice.

Once you have uploaded the image, it is displayed on the page with the options to either **Choose another file** or **Complete** upload of the image.

- a. If you select **Choose another file**, the file browser window is opened and you can selected a different image to replace the one you had selected previously.
  - b. If you select **Complete**, the image gets uploaded and the page on which you can upload the back image of the identity proof document is displayed.
7. Click **Choose file** to upload the back image of the identity proof document. The file browser window is opened through which you can browse your device and upload the image of choice.

Once you have uploaded the image, it is displayed on the page with the options to either **Choose another file** or **Complete** upload of the image.

- a. If you select **Choose another file**, the file browser window is opened and you can selected a different image to replace the one you had selected previously.
- b. If you select **Complete**, the image gets uploaded and the next step of the liveness check flow gets displayed.

### 3.6.1 Liveness Check – Assisted Mode

The following steps are applicable when the assisted mode of liveness check is enabled for the product category.

#### Liveness Check – Video KYC Initiation

Once you have uploaded the images of your identity proof document, you will be requested to proceed onto a video call with a bank executive.

8. Click **Continue** if you agree to enter into a video call with a bank executive.  
A modal window is displayed informing you that the video call might be recorded.  
Click on **Yes** if you wish to continue with the video call.  
OR  
Click **Cancel** if you wish to cancel.
9. Click **Share** to share the images of the identity proof documents with a bank executive. You will be added into a video call with a bank executive.  
OR

Click **Cancel** to cancel the process.

### Liveness Check – Video KYC

On clicking **Yes**, a video call will be initiated between a bank executive and you. The bank executive will ask you a series of question and will verify your identity and liveness. Once the bank executive has completed the verification checks, he/she will either approve or reject the liveness check and will end the video call.

10. If the bank executive has approved the liveness check, you will be displayed a success message.

OR

If the bank executive has rejected the liveness check, you will be displayed a failure message.

### 3.6.2 Liveness Check – Unassisted Mode

The following steps are applicable when the unassisted mode of liveness check is enabled for the product category.

#### Liveness Check – Selfie Capture

Once you have uploaded the images of your identity proof document, you will be guided to center your face so that it is within the frame of the device's camera. The system will then automatically click your photograph which will be used to complete your liveness check.

11. Click **Start** to begin face verification.

The device's camera will be switched on and the system will display commands guiding you to align your face to the device's camera.

### Liveness Check – Image Quality Check Outcome

Once the selfie has been clicked and the system has successfully completed the image quality check, the following message will be displayed briefly to indicate the same, followed by the liveness check success message.

## Liveness Check Outcome – Success

In both modes (assisted and unassisted) of liveness check, once your identity verification has been completed successfully, the following message will be displayed.

12. Click **Continue** to continue with the application form. The next step in the application form will be displayed.

## Liveness Check Outcome - Failure

If the liveness check has failed (applicable to both modes – assisted and unassisted), you will be displayed the following failure message.

13. Click **Continue** to continue with the application form. The next step in the application form will be displayed.

[Home](#)

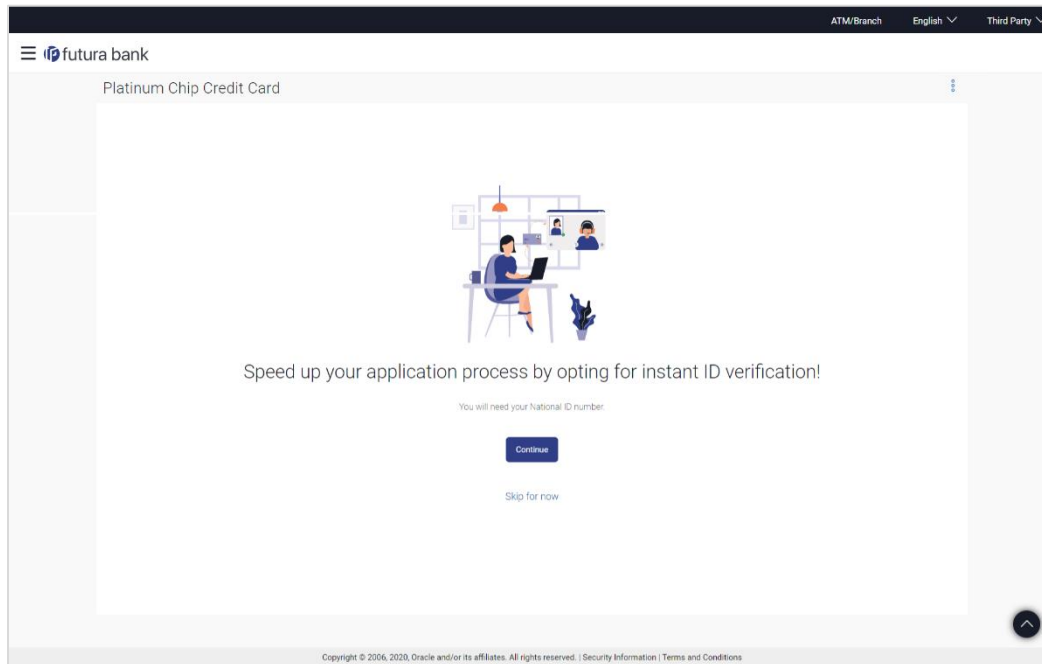

## 3.7 ID Verification

The bank can configure a step for national ID verification. You must provide your national ID number and consent to allow the bank to fetch your details from the respective third party system based on the Identification that you provide.

Using this option, the application fetches your personal details and populates them in the respective fields in the Personal Information step.

### ID Verification – Introductory Page

13. Click **Proceed** to proceed with national ID verification. The first page of national ID verification will be displayed.

OR

Click **Skip for now** if you do not wish to go through with national ID verification. The **Upload Documents** page will be displayed.

OR

Under the kebab menu –

- Click the **Save and Continue Later** option to save the application.

OR

Click the **Continue on Mobile** option to continue the application on a mobile device.

## 3.8 Upload Documents

You can upload documents required for the application to be process in this step. You can upload single as well as multiple documents and photographs and can also map each document or photograph against a specific document proof category and type.

From this step onwards, you will be provided with the option to continue the application on a mobile or tablet device using the **Scan QR code** link. All you have to do is invoke the QR code by selecting the option provided at the bottom of each page. Once the QR code is displayed on the modal window, you can scan the same through any of your mobile or tablet devices. Once the QR code is successfully scanned, the bank application that is installed on the device will be invoked. You can login to the application with your online banking credentials if you are an existing customer of the bank or if you are a prospect you can login by defining your mobile number and subsequently entering the OTP sent to the mobile number. Once you have successfully logged in, your application form will be displayed. You can then complete and submit the application form from this device.

If the banking application is not installed on the device, you will be navigated to the app. store and will be guided to install the banking application.

---

**Note:**

1) Click on the [Refer the list of required documents](#) link to view the list of documents required for the processing of the application.

2) In case Liveness Check is part of the application form and has been completed, the front image of the identity proof that you had uploaded as part of the liveness check steps will displayed on this page as a link. You will be able to click on the link to download and view the image. You will not be able to delete this image.

---

23. The steps involved in uploading documents are as follows:

- a. Drag and drop or browse your device's folders to upload the required documents. The uploaded documents get listed one below the other.
  - b. Select the document type under the Proof Category from the dropdown provided, to map each uploaded document to a specific proof category and document type.
- 

**Note:**

1) The document formats supported can be configured by the bank. By default, the supported formats are PDF, PNG, JPG and JPEG.

2) The maximum size allowed per document can be configured by the bank.

---

## Upload Documents

### Field Description

Field Name	Description
<b>Upload Document</b>	Drag and drop or click and browse the required documents in the device's folders.

The following fields appear for each document that you upload.

<b>Document Name</b>	Displays the name of the uploaded document. Click on the link to view the document.

### Income Information

Once you select the **Add Income Information** option on this page, the **Income Information** overlay will be displayed. You can enter values against any of the fields which are applicable to you and click on **Add** to add this information to your financial profile.

## Income Information

The screenshot shows the 'Financial Profile' page of the Futura Bank app. An 'Income Information' overlay is displayed on the right side. The overlay contains a title bar with a close button, a warning icon and text: 'Please enter income earned per month in GBP. Please note - Input of value in At least one field is mandatory.' Below this, there are input fields for 'Salary' (GBP12,000.00), 'Business' (GBP2,000.00), 'Interest Income' (GBP3,000.00), 'Pension' (Enter amount), 'Bonus' (Enter amount), 'Rentals' (Enter amount), 'Cash Gifts' (Enter amount), and 'Others' (Enter amount). An 'Add' button is at the bottom of the overlay.

## Field Description

Field Name	Description
Income Type	All the various income types supported by the bank will be displayed as fields. You can enter values under any of the fields that are applicable to you.

51. Click on the **Add Income Information** card. The overlay layer appears.

52. Enter values against any income field that is applicable to you and click Add.

The overlay layer closes and the income information furnished by you is displayed under the **Income Information** section of the **Financial Profile** page.

## Expense Information

To enter information pertaining to your expenditure, select the **Add Expense Information** option on the **Financial Profile** page. The **Expense Information** overlay layer will be displayed. You can enter details of all the expenses that you incur on a regular basis and click **Add** to add this information to your financial profile.

## Expense Information

The screenshot shows the 'Financial Profile' page of the Futura Bank app. An 'Expense Information' overlay is displayed on the right side. The overlay contains a title bar with a close button, a warning icon and text: 'Please enter expenses incurred per month in GBP. Please note - Input of value in At least one field is mandatory.' Below this, there are input fields for 'Household' (GBP800.00), 'Medical' (GBP400.00), 'Education' (GBP600.00), 'Travel' (Enter amount), 'Vehicle Maintenance' (Enter amount), 'Rentals' (Enter amount), 'Others' (Enter amount), and 'Others' (Enter amount). An 'Add' button is at the bottom of the overlay.

## Field Description

Field Name	Description
<b>Expense Type</b>	All the various expense types supported by the bank will be displayed as fields. You can enter values under any of the fields that are applicable to you.

53. Click on the **Add Expense Information** card. The overlay layer appears.

54. Enter values against any expense field that is applicable to you and click **Add**.

The overlay layer closes and the **Expense Information** furnished by you is displayed under the **Expense Information** section of the **Financial Profile** page.

## Asset Information

If you have any assets that you wish to be considered for the processing of this application, you can select the **Add Asset Information** option on the **Financial Profile** page. The **Asset Information** overlay layer will be displayed. You can enter details of all the assets you own and click **Add** to add this information to your **Financial Profile**. Alternately, if you do not wish to add any assets to your **Financial Profile**, you can select the check box **I have no Assets**.

## Asset Information

The screenshot shows the Futura Bank Financial Profile page. On the left, there are three cards: 'Add Income Information', 'Add Expense Information', and 'Add Asset Information'. The 'Add Asset Information' card has a checkbox labeled 'I have no Assets'. On the right, an 'Asset Information' overlay is displayed. It contains a header 'Asset Information' with a close button. Below the header, there is a note: 'Please enter value of assets owned in GBP:'. The overlay lists several asset categories with input fields: 'Savings Deposits' (GBP 7,000.00), 'Stocks/Funds' (GBP 2,300.00), 'Properties' (GBP 8,900.00), 'Automobiles' (Enter amount), 'Fixed Deposits' (Enter amount), 'Lands' (Enter amount), and 'Others' (Enter amount). At the bottom of the overlay is an 'Add' button.

## Field Description

Field Name	Description
<b>Asset Type</b>	All the various asset types supported by the bank will be displayed as fields. You can enter values under any of the fields that are applicable to you.

55. Click on the **Add Asset Information** card. The overlay layer appears.

OR

Select the **I have no Assets** checkbox.

56. Enter values against any asset field that is applicable to you and click **Add**.

The overlay layer closes and the **Asset Information** furnished by you is displayed under the **Asset Information** section of the **Financial Profile** page.

## Liability Information

Select the **Add Liability Information** option on the **Financial Profile** page to invoke the Liability Information overlay layer. You can enter details of all your current liabilities and click **Add** to add this information to your **Financial Profile**. Alternately, if you do not wish to add any liabilities to your **Financial Profile**, you can select the check box **I have no Liabilities**.

## Liability Information

The screenshot shows the Futura Bank mobile app interface. On the left, the main screen displays two options: 'Add Asset Information' with a checkbox 'I have no Assets' and 'Add Liability Information' with a checkbox 'I have no Liabilities'. Below these are 'Continue' and 'Back' buttons, and a QR code link. On the right, an overlay titled 'Liability Information' is shown. It contains a header with a close button and a note: 'Please enter outstanding amounts of each liability in GBP'. The form includes fields for:
 

- Property Loans: GBP 4,000.00
- Vehicle Loans: GBP 2,000.00
- Personal Loans: Enter amount
- Card Outstanding: Enter amount
- Overdrafts: Enter amount
- Others: Enter amount

 An 'Add' button is located at the bottom right of the overlay.

## Field Description

Field Name	Description
Liability Type	All the various liabilities types supported by the bank will be displayed as fields. You can enter values under any of the fields that are applicable to you.

57. Click on the **Add Liability Information** card. The overlay layer appears.  
OR  
Select the **I have no Liabilities** checkbox if you do not have any.
58. Enter values against any liabilities field that is applicable to you and click **Add**.  
The overlay layer closes and the **Liabilities Information** furnished by you is displayed under the **Liabilities Information** section of the **Financial Profile** page.
59. Once you have furnished all your financial information in the various sections, click **Continue** to proceed to the next step in the application.  
OR  
Click **Back** to navigate back to the previous page.

## 3.15 Submitted Application - Confirmation

The confirmation page appears once you have submitted your application. This page displays the name of the product that you have applied for along with the application reference number. It also provides a link by means of which you can track your application.

### Success Message

69. Click on the **Track your application** link to navigate to the **Application Tracker** Login page. For information on the Application Tracker, view the **Oracle Banking Digital Experience Retail Originations Application Tracker User Manual**.

### 3.16 Existing User

An application form being initiated by an existing online banking customer of the bank (registered user) will differ from that of one being initiated by a new/unregistered user.

You will be able to apply as an existing customer either by selecting the provided option on the kickoff page and proceeding to specify your login credentials (applicable if you have applied via the bank portal page) or by selecting the product of choice from the product showcase available to you post login via the hamburger menu. In either case, the application form will vary from that of a prospect customer's.

The system will identify your KYC status and depending on the status, you will either be allowed to proceed with the application or not i.e. if your Re-KYC is active you will be allowed to enter and submit your application form but if your Re-KYC is pending, depending on the configuration, you might either not be allowed to apply for the product or you will be allowed to proceed with the application which will also contain steps for ID verification (National ID and/or Liveliness Check based on what is configured).

The credit card application form for existing customers, with KYC status as active, will comprise of the following sections:

1. **Upload Documents** – This section will be part of the application form only if mandatory documents are not already available against your records in the bank's database.
2. **Employment Information** – This section will only be part of the application form if employment information is to be captured for the product you have selected and if your employment information is either not maintained with the bank at all or if the information is maintained but is not current.
3. **Financial Information** – Like employment information, the financial information section will also be part of the application form only if it is configured for the product you have selected as well as certain factors such as whether your financial information is already maintained with the bank or not and if maintained whether the information is current or not. Hence, the financial information section will only be part of the application form if your information is either not maintained with the bank at all or if the information is maintained but is not current.
4. **Credit Preferences** – In this section, you can customize the card you are applying for by defining preferences related to international usage, add-on cards and balance transfers. If the host is OFLO, the only preference enabled will be the option to apply for add-on cards.
5. **Terms of Service** – You will be required to read through and accept the terms and conditions related to the online application of the product you have selected.
6. **Confirm** – Once you have submitted your application, you will be displayed a confirmation page. This page will contain a success message along with the application reference number that you will be able to use to track your application in the application tracker.

## **FAQ**

- 1. Can I proceed with the application if I am an existing customer of the bank but do not have online banking access?**

You will need to first onboard yourself on the digital banking platform. You can do so by selecting the 'Register for online banking access' link on the kick off page or by selecting the 'Register Now' option provided on the login page. Once you have completed the registration process, you can login and proceed with application initiation.

- 2. I am applying for the product as a guest user. The address that is mentioned in the document that I have uploaded in support of the application is different from my current permanent address. Can I update that information in the application form?**

Yes, all the information that is fetched from your document is displayed in editable format in the Personal Information section. You can update the required details and submit your application. However, please note that once your mobile number, as provided in the Mobile Verification page, is verified, you will not be able to modify it in the Personal Information section.

- 3. How many products can I apply for as part of a bundled application?**

Out of the box, you can add a maximum of three products in a bundle. This number is configurable by the Bank and may change.

- 4. In case my application is saved as a draft, can I request a bank executive to complete this application on my behalf?**

Only you can resume and complete a draft application.

- 5. Can I cancel one of the product applications that has been submitted as part of a bundled application?**

No. Currently, it is not possible to cancel a specific product application that is part of a bundled application. You can however, cancel the entire bundled application, if you wish to do so.

- 6. If I am applying for a product as an existing user, can I update my personal information while initiating an application?**

No, you cannot update any personal details while applying as an existing online banking customer. You may contact the bank to update your personal information before applying for a new product.

- 7. For how long I can access and resume my applications that are saved as drafts?**

This is based on the Bank's purging policy. The draft applications will be available for x days in the application tracker before they are purged by the bank.

- 8. Can I apply for a product that I have already applied for and that the bank is currently processing?**

Yes, you can still submit an application for the same product. The decision to process or reject either of the two (or more) applications will rest on the bank.

**9. I have started my application on my laptop. However, I have realized that some of the documents that I need to upload are available on my tablet. Do I need to abandon the application that I started on my laptop to restart the entire process on my tablet?**

No, you can scan the QR code available on every step of the application form, post the Mobile Verification step, and resume the application from your tablet or mobile device.

**10. Can bank administrators define the sequence in the steps of the application forms?**

Yes, bank administrators can configure the sequence of steps in the application forms of all product categories supported for online application, through the Origination Workflow Maintenance feature available on the OBDX platform.

**11. How does National ID verification work?**

The bank can integrate with government or other third party systems (which store and maintain data of National ID holders), through available hook points. Online authentication will be performed to verify the identity claim of the ID holder and to fetch the required personal information.

**12. How does OCR work?**

The bank can integrate with the third party adapters that provide OCR services, through available hook points. The system will be able to prefill certain fields in the Personal Information section from data fetched from the applicant's uploaded documents.

Similarly, an out of box integration is available with the internal 'Document verification framework'.

Extensibility hooks can be used to support OCR for most identity and financial documents.
