1. Preface

1.1 Intended Audience

This document is intended for the following audience:

- Customers
- Partners

1.2 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

1.3 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

1.4 Structure

This manual is organized into the following categories:

Preface gives information on the intended audience. It also describes the overall structure of the User Manual.

Introduction provides brief information on the overall functionality covered in the User Manual.

The subsequent chapters provide information on transactions covered in the User Manual.

Each transaction is explained in the following manner:

- Introduction to the transaction
- Screenshots of the transaction
- The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.
- Procedure containing steps to complete the transaction- The mandatory and conditional fields of the transaction are explained in the procedure. If a transaction contains multiple procedures, each procedure is explained. If some functionality is present in many transactions, this functionality is explained separately.

1.5 Related Information Sources

For more information on Oracle Banking Digital Experience Patchset Release 22.1.1.0.0, refer to the following documents:

3. Wallets

Digital Wallets, also known as e-wallets, enable users to transfer funds to friends and family, pay bills and perform many such financial transactions. An OBDX wallet is linked to a current account and is created with an ID, typically the user's mobile number. This makes the wallet both convenient to use as well as secure. The OBDX wallet can be used to transfer funds to other wallets or even to accounts. Users can fund their wallet by transferring money from accounts held with the bank or through external sources such as external bank accounts, debit or credit cards, etc. and can also request money from other wallets.

On scanning the QR code the user has to simply select the wallet from which funds are to be transferred. Refer **User Manual Oracle Banking Digital Experience Scan to Pay** for more details.

Note: A user can have only one wallet.

The following features are supported through the use of wallets:

- Add money to wallet
- Transfer funds to other accounts and wallets
- Pay Bills
- Request funds from other wallets
- View Wallet Widget
- View Requested Funds Summary
- View Wallet Transactions
- View Wallet Details
- Scan to pay through wallet

3.1 Relationship Overview Widget

The retail dashboard page displays an overview of the customer's holdings with the bank as well as links to various transactions offered to the customer. The **Relationship Overview** widget displays the customer's holdings in each account type such as Current and Savings Accounts, Term Deposits, Loans, Credit Cards, Investments and Wallet. On clicking on any account type record, the widget displays details specific to that account type. One such example is that of Wallet. On selection of account type **Futura Wallet**, details of the wallet held with the bank are displayed. This includes the user's wallet ID (i.e. the registered mobile number), the wallet holder's name and the available balance in the wallet. Additionally, in case there are pending outstanding payment requests in the wallet in which action needs to be taken, the number of pending requests will also be displayed. The card also has a kebab menu which enables the customer to quickly access related screens.

How to reach here:

Dashboard > Relationship Overview Widget > Futura Wallet

Relationship Overview Widget

Relationship Overview

Current & Savings Current Balance INR 440,727.86	Credit Cards Current Dues EUR 44,000.00	Futura Wallet Current Balance EUR 3,860.00 >
--	---	--

[Home](#)

4. Futura Wallet Widget

The Futura Wallet widget displays the available balance in the wallet along with links that enable the user to quickly perform wallet recharges (Add Money to Wallet screen) and also to transfer money. Additional links to access wallet transactions are available in the kebab menu.

Futura Wallet Widget

[Home](#)

5. Recharge Futura Wallet

In order to make fund transfers or payments through the wallet, there should be balance available in the wallet. The wallet can be funded by one of the following ways:

- From the user's own accounts (Only for Existing CASA users)
- Request for funds from other users' wallets
- Funding from external sources such as credit cards, debit cards, other bank accounts (depending on Payment aggregator support)

Funding wallet from any credit or debit card or using internet banking requires processing the transaction through a payment aggregator.

How to reach here:

Dashboard > Relationship Overview Widget > Futura Wallet > Futura Wallet Kebab menu > Recharge Futura Wallet

OR

Dashboard > Futura Wallet Widget > Recharge Futura Wallet

OR

Toggle Menu > Menu > Futura Wallet > Recharge Futura Wallet

5.1 Recharge Via - Own Account Transfer

By selecting the 'Own Account Transfer' option to recharge the wallet, the user is able to initiate a fund transfer from his/her own current or savings account held with the bank.

To recharge the wallet via own account transfer:

1. In the **Recharge Via** field, select the **Own Account Transfer** option. The fields by which you can recharge your Futura Wallet via own account transfer, appear.

Recharge Via – Own Account Transfer

Field Description

Field Name	Description
Recharge Via	The options by which the user can recharge his/her wallet. The options are – <ul style="list-style-type: none"> • Own Account Transfer • Request Other Wallet User • Other Payment Options
Transfer From	The user's current and savings accounts held with the bank are listed and available for selection.
Amount	The amount by which the wallet is to be recharged. The currency is defaulted to the currency in which the wallet is held.
Description	Free text for the user to enter any comments/ remarks as desired.

- From the **Transfer From** account list, select the account from which the transfer needs to be made.
- In the **Amount** field, enter the amount by which the wallet is to be recharged.
- In the **Description** field, enter a comment, if required.
- Click **Submit**.
OR
Click **Cancel** to cancel the transaction.

6. The **Review** screen appears. Verify the details and click **Confirm**.
OR
Click **Back** to navigate back to previous screen.
OR
Click **Cancel** to cancel the transaction.
7. The success message appears, along with the reference number and transaction details.
Click **Home** to navigate to the dashboard.
OR
Click **Transfer Money** to initiate a payment from your wallet towards an existing payee.
OR
Click **Pay Bill** to pay a bill from your wallet.

Note: The option to recharge the wallet via own account transfer will not appear if the wallet user does not have any active current or savings accounts with the bank.

5.2 Recharge Via – Request Other Wallet User

The user can select this option to request for funds from another wallet user.

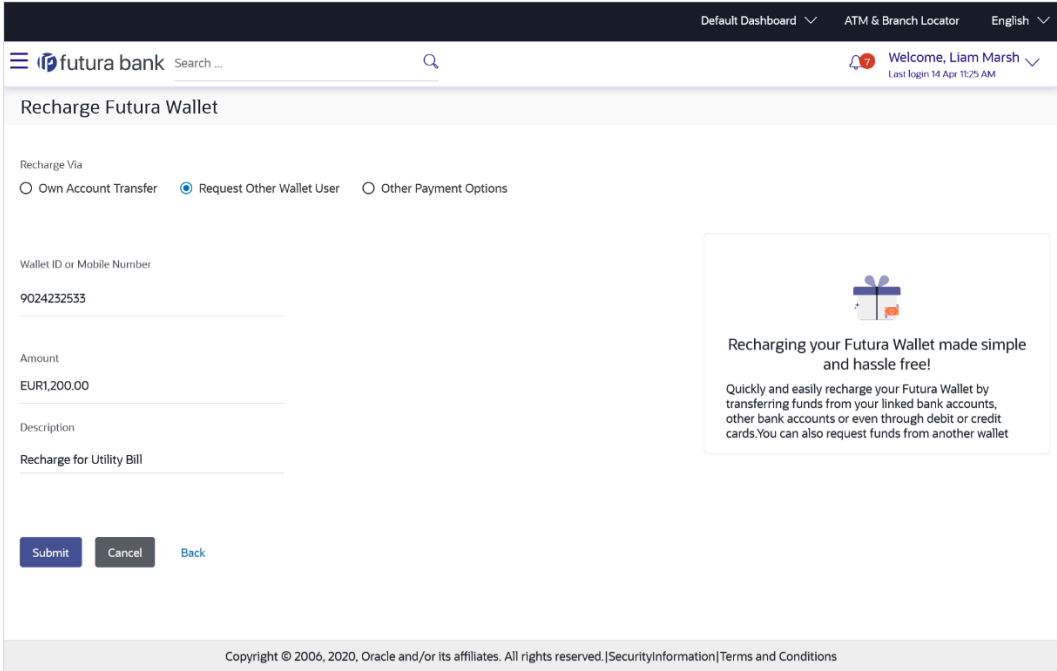

Upon selecting this option, the user will be required to specify the wallet ID/mobile number of the person from whom funds are to be requested and also the amount to be requested. If specifying a mobile number, it is necessary for the owner of the mobile number to have registered for wallet services.

The application identifies whether the mobile number is registered for the wallet. If registered, the request is honoured, else the initiation is not permitted.

To recharge the wallet via a request to a wallet user:

1. In the **Recharge Via** field, select the **Request Other Wallet User** option. The fields to initiate a request for funds from another wallet user, appear.

Request Via – Request Other Wallet User

Field Description

Field Name	Description
Recharge Via - Request Other Wallet User	

Field Name	Description
Recharge Via	The options by which the user can recharge his/her wallet. The options are – <ul style="list-style-type: none"> • Own Account Transfer • Request Other Wallet User • Other Payment Options
	The following fields appear when the user selects the option Request Other Wallet User under the Recharge Via field.
Wallet ID or Mobile Number	Wallet ID or Mobile number of the wallet user from whom the money is to be requested.
Amount	The amount by which the wallet is to be recharged.
Description	Free text for the user to enter any comments/ remarks as desired.

2. In the **Wallet ID or Mobile Number** field, enter the wallet ID or mobile number of the contact from whom funds are to be requested.
3. In the **Amount** field, enter the amount to be requested.
4. In the **Description** field, enter a comment, if required.
5. To request for funds from the contact, click **Submit**.
OR
Click **Cancel** to cancel the transaction.
6. The **Review** screen appears. Verify the details and click **Confirm**.
OR
Click **Back** to navigate back to previous screen.
OR
Click **Cancel** to cancel the transaction.
7. A notification is sent to the contact person about the request to fund the user's wallet and the success message appears along with the reference number and transaction details.
Click **Home** to navigate to the dashboard.
OR
Click **Transfer Money** to initiate a payment from your wallet towards an existing payee.
OR
Click **Pay Bill** to pay a bill from your wallet.

5.3 Recharge Via - Other Payment Options

The user also has an option to fund the wallet from external sources such as credit cards, debit cards as well as current and savings accounts held with other banks (depending on Payment aggregator support).

To add money to the wallet from external sources:

1. In the **Recharge Via** field, select the **Other Payment Options** option. The fields to initiate the fund request from external sources appear.

Recharge Via - Other Payment Options

Field Description

Field Name	Description
Recharge Via	The options by which the user can recharge his/her wallet. The options are – <ul style="list-style-type: none"> • Own Account Transfer • Request Other Wallet User • Other Payment Options
Amount	The amount by which the wallet is to be recharged.

2. In the **Amount** field, enter the amount by which the wallet is to be recharged.

3. Click **Submit**. The user is directed to payment aggregator's page as set by Bank's Administrator, with the amount getting defaulted from this screen.
OR
Click **Cancel** to cancel the transaction.

6. Transfer Money Between Wallets

This feature enables the retail user having a wallet account with the bank, to initiate the payments from his wallet to the other user's wallet by specifying his mobile number without adding him as a payee. This is the easy, quick and safe method of payment, the user just needs to enter the mobile number of payee and amount to be paid.

The 'Between Wallets' option in the 'Transfer Money' screen enables the user to initiate the wallet to wallet transfer.

Prerequisites:

- Transaction and account access is provided to retail user
- The retail user and the payee has a wallet account for the purpose of transferring funds via wallet

How to reach here:

Toggle Menu > Menu > Futura Wallet > Transfer Money
OR
Dashboard > Futura Wallet Widget > Transfer Money

To transfer money between the wallets:

1. In the **Transfer Type** field, select the **Between Wallets** option.
 The fields by which to initiate a fund transfer between the wallets appear.

Transfer Money - Between Wallets

The screenshot displays the 'Transfer Money' screen on the Futura Bank mobile app. At the top, there are navigation options for 'wallet', 'ATM/Branch', and 'English'. The user is logged in as 'Ryan Bohr' with the last login on '24 Apr 06:08 PM'. The main heading is 'Transfer Money'. Under 'Transfer Type', four radio buttons are shown: 'Existing Payee', 'New Payee', 'My Accounts', and 'Between Wallets' (which is selected). Below this, the 'Transfer From' section includes 'Wallet', 'Recipient's Mobile Number' (2366612489), 'Amount' (£1,200.00), 'Balance: £24,200.00', and a 'Note' field containing 'Sending money for bill payment'. At the bottom left are 'Transfer' and 'Cancel' buttons. On the right, a promotional message states: 'Transferring money has never been easier! Transfer money to registered payees across the globe from your Futura Savings or Current Accounts. You can also transfer money to your friend's Mobile, Email ID and Facebook accounts.'

Field Description

Field Name	Description
Transfer From	Displays the wallet as a source account from which the funds are to be transferred.
Recipient Mobile Number	The mobile number of the recipient, to whom the funds is to be transferred.
Currency	The currency in which the transfer is to take place. Currency is defaulted to destination account currency.
Amount	Specify the amount to be transferred. Balance in the wallet account is shown below for easy reference.
Note	Any note or message to be conveyed along with the transfer to another wallet.

2. In the **Recipients Mobile Number** field, enter the mobile number of the payee.
3. In the **Amount** field, enter the transfer amount.
4. In the **Note** field, specify a note or remarks.
5. Click **Transfer** to initiate the payment.
OR
Click **Cancel** to cancel the transaction.
6. The **Review** screen appears. Verify the details, and click **Confirm**.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to previous screen.
7. The success message appears, along with the reference number and transaction details.
Click **Home** to navigate to the dashboard.
OR
Click **Add Favorite** to mark the transaction as favorite.

[Home](#)

7. Transfer Money From Wallets

The Transfer Money feature enables the user to initiate online payments from his bank account to any other account. Through this feature, the user is provided with the option to either transfer funds within his own accounts held in the same bank by selecting the 'My Accounts' option or to transfer funds to other accounts (held within the same bank or in other banks within the same country) by selecting the 'Existing Payee' option.

Features supported in the application

The 'Transfer Money' feature enables users to make payments towards:

- Existing Payee – Internal & Domestic transfers are supported and are triggered based on the payee account selection.
- My Accounts – Users are able to transfer funds from wallet to their own accounts held in the bank.
- New Payee – By selecting this option, users can initiate fund transfers towards email, mobile and facebook and twitter contacts. Alternately, if the intended recipient of the funds is not yet registered as a payee, the user can also select the option 'Bank Account' in order to be navigated to the screen from which he can register an intended recipient as a payee.

7.1 Transfer Money - Existing Payee

The existing payee option of the 'Transfer Money' feature enables the user to initiate payments using a Wallet, towards existing registered payees. All account payees created by the logged in user and shared by other users of the Party are listed for selection. Once a payee has been selected, the details are auto populated on the transaction screen. The user is then required to fill in payment details to initiate the funds transfer. Payment details will vary based on the transfer type associated with the payee's account.

How to reach here:

Dashboard > Relationship Overview Widget > Futura Wallet > Futura Wallet Kebab menu > Transfer Money > Existing Payee

OR

Dashboard > Futura Wallet widget > Transfer Money > Existing Payee

OR

Toggle Menu > Menu > Futura Wallet > Transfer Money > Existing Payee

OR

Toggle Menu > Menu > Payments > Transfers > Transfer - Existing Payee

OR

Dashboard > Payments widget > Transfer Money > Existing Payee

For more details on this transaction, refer **Oracle Banking Digital Experience Retail Payments User Manual**.

7.2 Transfer Money - My Accounts

By selecting the 'My Accounts' option as transfer type, the user is able to initiate funds transfers towards his own account held within the bank.

How to reach here:

Dashboard > Relationship Overview Widget > Futura Wallet > Futura Wallet Kebab menu > Transfer Money > My Accounts

OR

Dashboard > Futura Wallet widget > Transfer Money > My Accounts

OR

Toggle Menu > Menu > Futura Wallet > Transfer Money > My Accounts

OR

Toggle Menu > Menu > Payments > Transfers > Transfer - My Accounts

OR

Dashboard > Payments widget > Transfer Money > My Accounts

For more details on this transaction, refer **Oracle Banking Digital Experience Retail Payments User Manual**.

7.3 Transfer Money - New Payee

By selecting the 'New Payee' option, the user is provided with three choices by which to initiate a fund transfer. They are as follows:

- Email/Mobile
- Bank Account
- Facebook
- Twitter

How to reach here:

Dashboard > Relationship Overview Widget > Futura Wallet > Futura Wallet Kebab menu > Transfer Money > New Payee

OR

Dashboard > Futura Wallet widget > Transfer Money > New Payee

OR

Toggle Menu > Menu > Futura Wallet > Transfer Money > New Payee

OR

Toggle Menu > Menu > Payments > Transfers > Transfer - New Payee

OR

Dashboard > Payments widget > Transfer Money > New Payee

For more details on the **New Payee** option under **Transfer Money** transaction, refer **Oracle Banking Digital Experience Retail Peer To Peer Payments User Manual**.

7.4 **Multiple Transfers**

The Multiple Transfers feature enables users to initiate transfers towards a group of people as part of a single transaction. Through this feature, users can initiate transfers towards registered payees of different transfer types i.e. internal and domestic, with different transfer dates, all at once from a single screen.

How to reach here:

Toggle menu > Menu > Payments > Transfers > Multiple Transfers

For more details on this transaction, refer **Oracle Banking Digital Experience Retail Payments User Manual**.

7.5 **Adhoc Transfer**

An adhoc transfer is one which is used to transfer funds from the user's account to a beneficiary/ payee account which is not registered with the bank. Since the transfer is towards an unregistered beneficiary, customers are required to specify the beneficiary details manually along with the transfer details while initiating an adhoc transfer.

How to reach here:

Toggle menu > Menu > Payments > Transfers > Transfers – Adhoc Payee

For more details on this transaction, refer **Oracle Banking Digital Experience Retail Payments User Manual**.

8. Electronic Bill Presentment and Payment

Electronic bill presentment and payment (EBPP) is a process that enables the billers to create, and present the bills / invoices online to their customers. This feature also enables the customers/ users to pay the bills online. The EBPP services are widely used in many areas like utility bill payment, fund transfer through net banking against various purchases of utility products and services by the users, payment to service providers, mobile/ DTH bill payment etc. The main advantage of electronic bill presentment and payment is that users/ customers can pay their bills anytime quickly and conveniently, which saves lots of time and paper work.

Wallet can be used to pay the bills by the registered user.

How to reach here:

Dashboard > Toggle Menu > Menu > Bill Payments > Billers

OR

Dashboard > Bills Widget > View All > Billers

OR

*Dashboard > Futura Wallet Widget > access **Pay Bills** through kebab menu*

OR

Dashboard > Toggle Menu > Menu > Futura Wallet > Billers

For more details on this transaction, refer **Oracle Banking Digital Experience Retail Bill Payments User Manual**.

Note: International transfer of funds is not supported via Wallet.

[Home](#)

9. Futura Wallet Requests

On this screen, the user can view the requests that have been received by other wallet users for fund transfers as well as those requests that have been made to other wallets to receive funds. The status of each request is displayed alongside each request record.

The screen lists down all the requests that have been fulfilled as well as those that have been rejected. In case of new requests received, the user can opt to transfer the funds by selecting the Pay option against the specific record or can reject the request by selecting the Decline option.

When viewing the list of requests to collect funds, i.e. the requests made towards other wallets for funds, the user can also send reminders in case funds have not yet been received.

How to reach here:

Dashboard > Relationship Overview Widget > Futura Wallet > Futura Wallet Kebab menu > Futura Wallet Requests

OR

Toggle Menu > Menu > Futura Wallet > Futura Wallet Requests

OR

Access through the kebab menu of the Futura Wallet Widget & all other Futura Wallet screens

9.1 Requests to Collect Funds

To view the requests to collect funds:

1. The list of all the fund requests received from other wallet users appear.

Note: Click on the  icon to select the option to view the type of requested funds from the overlay screen. By default **Requests to Collect Funds** is displayed.

10. Futura Wallet Transactions

This feature enables customers to view the details of all the transactions performed on their wallet. All the debit and credit entries along with each transaction amount and reference details are displayed on the Futura Wallet Transactions screen.

Customers can also undertake the following from this screen:

- Request for Statements – The customer can access this option by selecting the **Request Statement** option from the kebab menu. The user will be able to define the period for which he/she requires to receive statements at his/her registered address.
- Download Pre-Generated Statements – The customer can select the **Pre-Generated Statement** option from the kebab menu on this page, in order to be provided with the facility to define the period for which he/she would like to download pre-generated statements.
- Subscribe for E-Statements – By selecting the **E-Statement** option from the kebab menu, the user will be able to either subscribe or unsubscribe (if subscription is active) for e-statements for the specific account. If the user opts to subscribe for e-statements, he/she will receive monthly e-statements on his/her registered email address. .

 - Download Pre-Generated Statements.

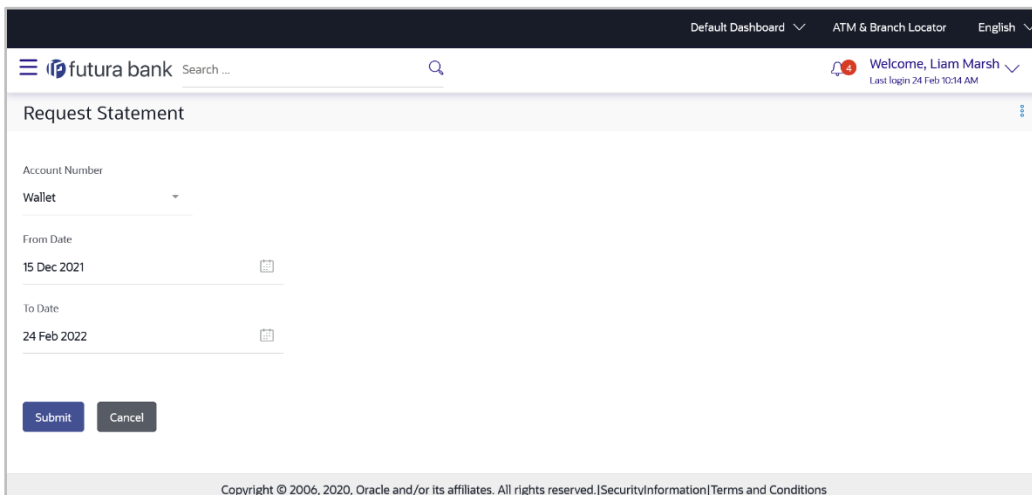

10.1 Request Statement

A user may require the physical copy of an account statement for a certain period. The statement request feature enables users to request the bank for a physical copy of the statement of an account for a specific period. This physical copy will be mailed to the user's address registered with the bank.

To request for a Statement:

- Click on the  icon on the **Transactions** screen, and click **Request Statement** to request for wallet statement.

Request Statement

The screenshot shows the 'Request Statement' form in the Futura Bank interface. The form is titled 'Request Statement' and includes the following fields and options:

- Account Number:** A dropdown menu currently showing 'Wallet'.
- From Date:** A date field set to '15 Dec 2021' with a calendar icon.
- To Date:** A date field set to '24 Feb 2022' with a calendar icon.
- Buttons:** 'Submit' and 'Cancel' buttons are located at the bottom of the form.

The page header includes 'futura bank', a search bar, and user information: 'Welcome, Liam Marsh' with 'Last login 24 Feb 10:14 AM'. The footer contains the copyright notice: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. | Security Information | Terms and Conditions'.
