This software or hardware and documentation may provide access to or information on content, products and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services.

Table of Contents

1. Preface	1-1
1.1 Intended Audience	1-1
1.2 Documentation Accessibility	1-1
1.3 Access to Oracle Support	1-1
1.4 Structure	1-1
1.5 Related Information Sources	1-1
2. Transaction Host Integration Matrix	2-1
3. Corporate Administrator	3-1
4. Corporate Administrator Dashboard	4-1
5. Group Corporate Onboarding	5-1
5.2 Step 1: Group Corporate Profiling	5-7
5.3 Step 2: Party Account Access	5-9
5.4 Step 3: User Onboarding	5-26
5.5 Step 4: User Group Maintenance	5-48
5.6 Step 5: User Account Access	5-56
5.7 Step 6: User Report Mapping	5-80
5.8 Step 7: Workflow Management	5-88
5.9 Step 8: Approval Rules	5-99
6. User Management	6-127
6.1 User Management – Search/ View User	6-127
7. Limits Definition	7-1
7.1 Limits Definition - View	7-2
7.2 Limits Definition - Create	7-4
7.3 Limits Definition - Delete Limit	7-7
8. Limits Package Management	8-1
8.1 Limit Package Management - View	8-2
8.2 Limit Package Management - Create	8-5
8.3 Limit Package Management - Edit	8-8
8.4 Limit Package Management - Clone	8-12
8.5 Limit Package Management - Delete	8-13

9. File Upload Maintenance	9-1
10. File Identifier Maintenance	10-1
10.1 File Identifier Maintenance - Summary.....	10-1
10.2 File Identifier Maintenance - Create	10-6
10.3 File Identifier Maintenance - Edit.....	10-9
11. User File Identifier Mapping	11-1
11.1 User File Identifier Mapping - Details	11-1
11.2 User File Identifier Mapping - Create.....	11-4
11.3 User File Identifier Mapping – Edit	11-6
12. Reports	12-1
13. Report Generation	13-1
13.1 Adhoc Reports	13-2
13.2 Schedule Reports	13-3
13.3 List of Reports.....	13-9
13.4 File Identifier wise Party User Mapping Report	13-10
13.5 Party wise File Identifiers Mapping Report	13-15
13.6 Party User wise File Identifiers Mapping Report	13-20
13.7 Party wise Payee Maintenance Report	13-25
13.8 Party wise User Groups Report.....	13-31
13.9 User Entitlement Report	13-37
13.10 User List Report	13-1
13.11 Approval Rule Report.....	13-4
14. My Reports	14-8
14.1 My Reports - Adhoc.....	14-8
14.2 My Reports - Scheduled	14-10
15. User Alerts Subscription	15-1
15.1 User Alerts Subscription - Search	15-1
15.2 User Alert Subscription – Update Subscription	15-5
16. Mailbox	16-1
16.1 Mails.....	16-1
16.2 Alerts.....	16-6
16.3 Notifications	16-9
17. Profile	17-1
18. Session Summary	18-1

19. Manage DND Alerts	19-1
20. ATM & Branch Locator	20-3
21. Security Settings	21-8
21.1 Set Security Questions	21-8
21.2 Change Password	21-13
22. Forgot Password	22-1
23. Forgot Username.....	23-1

1. Preface

1.1 Intended Audience

This document is intended for the following audience:

- Customers
- Partners

1.2 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

1.3 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

1.4 Structure

This manual is organized into the following categories:

Preface gives information on the intended audience. It also describes the overall structure of the User Manual.

Introduction provides brief information on the overall functionality covered in the User Manual.

The subsequent chapters provide information on transactions covered in the User Manual.

Each transaction is explained in the following manner:

- Introduction to the transaction
- Screenshots of the transaction
- The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.
- Procedure containing steps to complete the transaction- The mandatory and conditional fields of the transaction are explained in the procedure. If a transaction contains multiple procedures, each procedure is explained. If some functionality is present in many transactions, this functionality is explained separately.

1.5 Related Information Sources

3. Corporate Administrator

In large corporate organizations, there is a need to have user(s) with an admin role to carry out certain administrative functionalities for the corporate party.

Such delegated user with an administrator role will have restricted scope over these administration functionalities and scope will be restricted to manage the corporate to which they belong. Following administrative functions are extended for Corporate Administrator.

- Group Corporate Maintenance (Wizard)
 - Group Corporate Profiling (View)
 - Party Account Access
 - User Onboarding
 - User Group
 - User Account Access
 - Report Mapping
 - Workflow Management
 - Rules Management
- User Management
- File Upload Maintenance
 - File Identifier Maintenance
 - User File Identifier Mapping
- Transaction Limit Maintenance
- Reports Generation
 - Adhoc Report Generation
 - Schedule Report Generation
- Dashboard
 - Transactions
 - Pending for Approval
 - My Initiated List
 - My Approved List
 - Quick Links
- Mailbox
 - Alerts
 - Notification
- Account Settings
 - Profile
 - Session Summary
 - Manage DND Alerts
- Security & Login
 - Set Security Questions

4. Corporate Administrator Dashboard

Corporate Administrator Maker's role involves the maintenances which are mainly required for day to day maintenances like onboarding the users on Digital Platform and providing them the account and transactions access, approval related maintenances etc.

Dashboard Overview

Icons

Following icons are present on the corporate administrator dashboard:

-  : Clicking this icon takes you to the dashboard.
-  : Clicking this icon takes you to the Mailbox screen.
-  : Click this icon to search the transactions.
-  : Click this icon to get option to log out from the application. Displays the welcome note with last login details. Click this icon to view the logged in user's profile or log out from the application.
-  : Click the toggle menu to access the transaction.

Menus

Following menus are present on the dashboard:

-  : Click this menu to manage users.
-  : Click this menu to manage limits.
-  : Click this menu to set up account access rules on the transactions.
-  : Click this menu to create a file identifier and map it to the user.
-  : Click this menu to generate reports and view the generated reports.
-  : (User Group Management, Alert Subscription)
-  : Click this menu to view the Mails, Alerts and Notifications.

-  **My Profile** : Click this icon to view the profile of the logged in user.
-  **Session Summary** : Click to view the login details like start date and time, end date and time, Channel and IP address of the last sessions of the logged in user.
-  **ATM/Branch Locator** Click to view the address and location of the ATMs and the branches of the Bank.
-  **Security Settings** : Click here for security settings.
-  **Help** : Click this to launch the online help.
-  **About** : Click this to view the information about the application like version number, copyright etc.

Onboarding

(a) User Management

The Corporate Administrator can search and view users,. Administrator can reset passwords of the users. Administrator can lock / unlock a user, through this option and grant access to various channels.

File Upload

(a) File Identifier Maintenance

The Corporate Administrator – Maker, can create file identifiers (FI) for a corporate entity. A File Identifier is always mapped to a specific single file template. Maintenance permits configuration of corporate preferences like approval type (file level/ record level) for a particular type of file. This is a pre-requisite for the File Uploads functionality, for a corporate.

(b) User File Identifier Mapping

Through this option the Corporate Administrator – Maker, can map a file identifier to a user to grant access rights to the user, for this specific file type. This maintenance enables a user to upload a specific file, approve the uploaded file and view its status. The Corporate Administrator maker can map / un-map an FI to a User. Further, an administrator can enable or disable the sensitive data check. This is a pre-requisite maintenance, for the File Uploads functionality, for a corporate.

Options accessible only via Toggle Menu

Limits

(a) Limit Definition

Limits are defined by the bank to set up amount and duration based restrictions on the transactions that can be carried out by the user.

As part of Limits Definition maintenance, the Corporate Administrator can define:

- **Transaction Limits:** It is the transaction initiation limit with minimum and maximum amount, defined typically for a user with role 'Maker'.
- **Cumulative Limits:** It is the collective transaction amount limit for all the transactions that can be performed during a day and the maximum number of transactions permitted in a day.

This Option allows the Corporate Administrator to search and view limits, create limits and edit / delete existing limits.

(b) Limits Package

As part of the Limits Package definition, the created limits can be mapped to relevant transactions and/or roles.

The Limits Packages once created can be associated at User Level.

This Option allows the Corporate Administrator to search and view Limit Package, create a new Limit Package, and edit / delete existing Limit Package.

Reports

(a) Report Generation

Using this option, the Corporate Administrator, can generate various adhoc and scheduled banking reports. Application provides an option to generate and schedule reports using Oracle Analytics Publisher and / or by using an internal application.

(b) My Reports

On accessing 'My Reports' menu, the Corporate Administrator, can view the last 10 reports generated with the respective report status. He can choose to search a specific report using the search criteria or can opt to view/ download detailed report.

Transactions: This section has the following tabs

- Pending for Approval
- My Initiated List
- Transaction Log
- My Approved List

1) Pending for Approval

This section displays the details of transactions that are initiated by the maker and are pending for approval. It is briefly classified into two broad categories a) Financial and b) Non-Financial c) Administration. User can click each tab to view the details of transactions that are pending for approval. Transaction will appear under Financial and Non-Financial sections, if the user has also the access of initiating and approving corporate transactions (Non-administrative transactions)

The transactions pending approval within a period can be searched across modules by providing a date range. The financial and non-financial sections display module wise count of transactions which are pending approval. The details can be viewed either in a graphical format or in a list format using a switch option.

Click on  icon to search the transactions based on Date range.

Note:

- If for any module, the pending approval count is '0', then it will not be shown in the list.
 - In the  graph view, on clicking the bars in the graph, the user will be navigated to the transaction listing page.
 - In the  list view, on clicking the module name link, the list of transactions pending approval within the module can be viewed.
-

This displays the financial transactions - further categorized into following modules:

Transaction will appear under Financial section, if the user has also the access of initiating and approving corporate transactions apart from the administrative maintenances.

- **Accounts** - The details of activity log are:
 - **Date:** Date of the transaction
 - **Description:** Description of the transaction
 - **Account Number:** Account number of the transaction
 - **Amount:** Amount of the transaction
 - **Initiated By:** The user who has initiated the transaction.
 - **Reference Number:** Reference Number of the transaction.
 - **Status:** Status of the transaction
 - **Non Accounts** - The details of the activity log are:
 - **Date:** Date of the transaction
 - **Description:** Description of the transaction
 - **Amount :** Amount of the transaction
 - **Initiated By:** The user who has initiated the transaction.
 - **Reference Number:** Reference Number of the transaction.
 - **Status:** Status of the transaction
 - **Payments**
 - **Date:** Date of the transaction
 - **Description:** Description of the transaction
 - **From Account:** Source Account number of the transaction
 - **Amount :** Amount of the transaction
 - **Payee Account Details:** Payee's account number of the transaction
 - **Initiated By:** The user who has initiated the transaction.
 - **Reference Number:** Reference Number of the transaction.
 - **Status:** Status of the transaction
 - **Bill Payments**
 - **Date:** Date of the transaction
 - **Description:** Description of the transaction
 - **Biller Name:** Name of the biller
-

- Biller Location: Location of the biller
 - Details: Details of bill payment
 - From Account: Source Account number of the transaction
 - Amount : Amount of the transaction
 - Initiated By: The user who has initiated the transaction.
 - Reference Number: Reference Number of the transaction.
 - Status: Status of the transaction
 - Bulk File
 - Date: Date of the transaction
 - Description: Description of the transaction
 - Transaction Type: Transaction types of the file upload
 - File Name: Name of the file uploaded.
 - File Amount: Amount to be debited from debit account.
 - Reference Number: Reference Number of the transaction.
 - Status: Status of the transaction
 - Bulk Record
 - Date: Date of the transaction
 - Transaction Type: Transaction type of the bulk record
 - Debit Account: Account number of the account to be debited.
 - Amount: Amount to be debited from debit account
 - Payee Account Details: Payee's account number
 - .
 - Reference Number No: Reference Number of the transaction.
 - Status: Status of the transaction
 - Non Account Bulk Record
 - Date: Date of the transaction
 - Transaction Type: Transaction type of the bulk record
 - Amount: Amount of the transaction
 - Initiated By: The user who has initiated the transaction.
 - Reference Number: Reference Number of the transaction.
 - Status: Status of the transaction
 - Host to Host Bulk Files
 - Date: Date of the transaction
 - Description: Description of the transaction
 - Transaction Type: Transaction type of the bulk record
 - File Name: name of the file uploaded
-

- File Amount : Amount of the transaction
- File Reference Number: Reference Number of the transaction.
- Status: Status of the transaction
- Host to Host Bulk Records
 - Date: Date of the transaction
 - Transaction Type: Transaction type of the bulk record
 - Debit Account: Account number of the account to be debited.
 - Amount: Amount to be debited from debit account
 - Payee Account Details: Payee's account number
 - Reference No: Reference Number of the transaction.
 - Status: Status of the transaction
- Supply Chain Finance
 - Date: Date of the transaction
 - Description: Description of the transaction
 - Amount : Transaction amount.
 - Transaction Type: Transaction type of the bulk record
 - Debit Account: Account number of the account to be debited.
 - Reference No: Reference Number of the transaction.
 - Status: Status of the transaction

Non- Financial: This displays the non- financial transactions initiated by the maker and further categorized as below:

Transaction will appear under Non-Financial section, if the user has also the access of initiating and approving corporate transactions apart from the administrative maintenances.

- Accounts
 - Date: Date of the transaction
 - Description: Description of the transaction
 - Account Details: Account number of the transaction
 - Initiated By: The user who has initiated the transaction.
 - Reference No: Reference Number of the transaction.
 - Status: Status of the transaction
- Biller Maintenance
 - Date: Date of the transaction
 - Description: Description of the transaction
 - Biller Name : Name of the biller
 - Biller Type: The type of biller
 - Category: The category of the biller

- Initiated By: The user who has initiated the transaction.
 - Reference No: Reference Number of the transaction.
 - Status: Status of the transaction
 - Payee and Biller
 - Date: Date of the transaction
 - Description: Description of the transaction
 - Biller Type: Type of the biller
 - Biller Category & Sub-category : Biller Category & Sub-category
 - .
 - Reference No: Reference Number of the transaction.
 - Status: Status of the transaction
 - Bulk File
 - Date: Date of the transaction
 - File Identifier: Unique code assigned to the uploaded file.
 - Transaction Type: Transaction type of the file upload
 - File Name: Name of the file uploaded.
 - File Reference Number: Reference Number of the transaction.
 - Status: Status of the transaction
 - Bulk Record
 - Date: Date of the transaction
 - File Identifier: Unique code assigned to the record.
 - Transaction Type: Transaction type of the bulk record
 - File Name : Name of the file uploaded
 - Record Reference No: Reference Number of the record.
 - Status: Status of the record
 - Trade Finance
 - Date: Date of the transaction
 - Description: Description of the transaction
 - Beneficiary Name: Name of the Beneficiary against whom LC is to be created
 - Amount: Amount for the Letter of Credit / Bill
 - Reference No: Reference Number of the transaction.
 - Status: Status of the transaction
 - Trade Finance Maintenance
 - Date: Date of the transaction
 - Description: Description of the transaction
 - Reference No: Reference Number of the transaction.
-

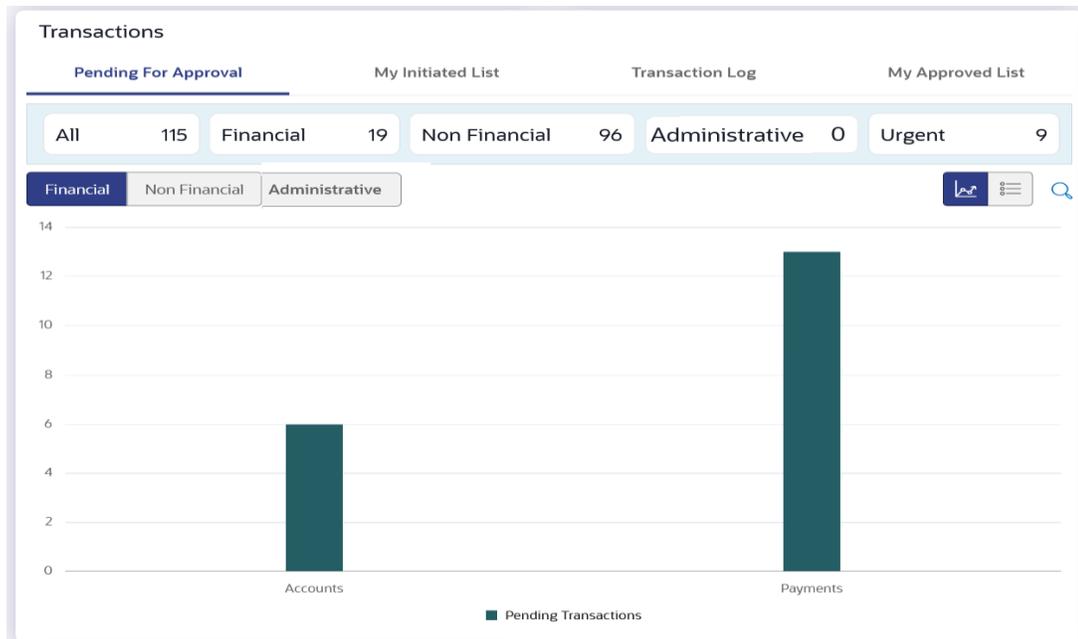

- Status: Status of the transaction
 - Forex Deal
 - Date: Date of the transaction
 - Reference Number: Reference Number of the transaction.
 - Description: Description of the transaction
 - Deal Type: Type of Deal user wants to initiate that is Spot or Forward
 - Currency Combination: List of permissible currency combination for deal booking
 - Amount: Amount for the booked forex deal
 - Status: Status of the transaction
 - Others
 - Date: Date of the transaction
 - Initiated By: User who has initiated the transaction

Transactions - Pending for Approval (Graph View)

For more information, refer section Pending for Approval under Approval chapter.

2) My Initiated List

Displays the list of all the transactions initiated by the logged in for different type of transactions like account financial, account non-financial, bulk file, bulk record, payee, biller and payments transactions.

It is divided into two sections broadly; Financial and Non-Financial. The logged in user can view the transaction list with respective statuses and details.

The details can be viewed either in a graphical format or in a list format using a switch option.

: Click this icon to search the transactions that are performed on a particular date. A date range (**From Date** and **To Date**) can be provided to search the transaction.

Each module showcases the number of transactions belonging in each of the following statuses:

- **Initiated:** The number of transactions that have been initiated but approval workflow is not assigned.
- **Pending Approval:** The number of transactions that have been initiated, but are pending for approval.
- **Locked :** The number of transactions that have been locked by the approver
- **Pending Modification:** The number of transactions that have been sent for modification by the approver to the initiator.
- **Approved:** The number of transactions that have been approved.
- **Rejected:** The number of transactions that have been rejected by the approver.
- **Expired:** The number of transactions that have been that have been initiated but expired.
- **Released:** The number of transactions that have been released by the releaser.
- **Pending Release:** The number of transactions that are pending for release by the releaser.
- **Release Rejected:** The number of transactions that have been rejected by the releaser.

Transactions - My Initiated List

For more information, refer section **My Initiated List** under **Approval** chapter.

3) Transaction Log

Displays the list of all the different type of transactions like account financial, account non-financial, bulk file, bulk record, payee, biller and payments transactions.

It is divided into two categories broadly; Financial and Non-Financial. The logged in user can view the transaction summary with respective statuses and details.

The details can be viewed either in a graphical format or in a list format using a switch option.

On selecting either the Financial or the Non-Financial option, the modules under the particular option are displayed. Click the **Module** link to view the list of transactions in it.

Each module showcases the number of transactions present in each of the following statuses:

- **Initiated:** The number of transactions that have been initiated but approval workflow is not assigned.
- **Pending Approval:** The number of transactions that have been initiated, but are pending for approval.
- **Locked :** The number of transactions that have been locked by the approver
- **Pending Modification:** The number of transactions that have been sent for modification by the approver to the initiator.
- **Approved:** The number of transactions that have been approved.
- **Rejected:** The number of transactions that have been rejected by the approver.
- **Expired:** The number of transactions that have been that have been initiated but expired.
- **Released:** The number of transactions that have been released by the releaser.
- **Pending Release:** The number of transactions that are pending for release by the releaser.
- **Release Rejected:** The number of transactions that have been rejected by the releaser.

: Click this icon to search the transactions that are performed on a particular date. A date range (**From Date** and **To Date**) can be provided to search the transaction.

Financial : On clicking the module name link, the following details are displayed for each category:

- Accounts - The details of transaction log are:
 - Date: Date of the transaction
 - Description: Description of the transaction
 - Account Number: Account number of the transaction

- Amount: Amount of the transaction
 - Reference Number: Reference Number of the transaction.
 - Status: Status of the transaction
 - Non Accounts - The details of the activity log are:
 - Date: Date of the transaction
 - Description: Description of the transaction
 - Amount : Amount of the transaction
 - Reference Number: Reference Number of the transaction.
 - Status: Status of the transaction
 - Payments
 - Date: Date of the transaction
 - Description: Description of the transaction
 - From Account: Source Account number of the transaction
 - Amount : Amount of the transaction
 - Payee Account Details: Payee's account number of the transaction
 - Reference Number: Reference Number of the transaction.
 - Status: Status of the transaction
 - Bill Payments
 - Date: Date of the transaction
 - Description: Description of the transaction
 - Biller Name: Name of the biller
 - Biller Location: Location of the biller
 - Details: Details of bill payment
 - From Account: Source Account number of the transaction
 - Amount : Amount of the transaction
 - Reference Number: Reference Number of the transaction.
 - Status: Status of the transaction

5. Group Corporate Onboarding

Corporate onboarding is the process that bank undertakes when bringing a new business customer onboard. OBDX furnishes integrating the onboarding workflow to a business rules engine that facilitates uninterrupted corporate onboarding processing. Generally, the customer onboarding process constitutes of multiple activities.

In large corporate organizations, there is a need to have users with an administration role to carry out certain administrative functionalities for the corporate group. Such delegated users with an administrator role will have restricted scope over these administration functionalities and scope will be restricted to manage the Group Corporate (GCIF) to which they belong. Corporate administrator can is provided with a Dashboard to initiate and track the status of various administrative maintenances initiated or approved by the corporate admin user.

By default, access to all the parties available under the group corporate will be provided to the corporate administrator users with one the party as primary party at entity level. No option to select specific parties will be provided on the screen apart from the primary party.

Corporate administrator will be able to create the corporate users with any party ID as user's primary party ID from all Parties available under the Group Corporate.

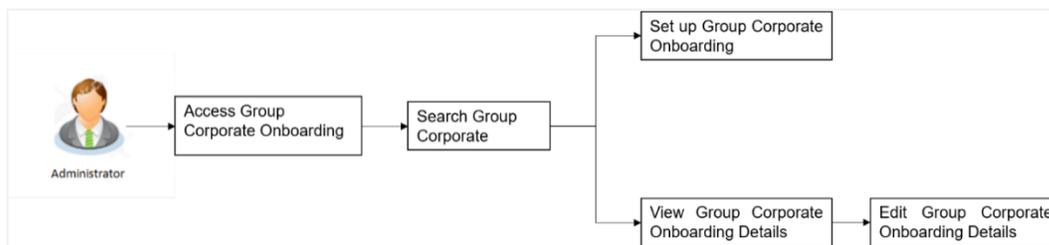

Using this maintenance, the corporate administrator will also be able to perform and view various maintenances available under the wizard post the bank administrator creates the Group Corporate and maintains the group profiling section.

Group corporate onboarding allows the administrator allow to maintain Party and User Account Access, User Onboarding, User Group Maintenance, User Reports Mapping, Approvals Workflow and Rules Maintenance etc. in a single flow. After performing these onboarding steps in a single flow, the applications send the same as a single approval. Group corporate onboarding allows corporate parties belonging to different entities to map under a Group Corporate ID. The new flag 'Group Corporate' is introduced in System Rules screen for banks to decide the mode of corporate onboarding.

Parameter values maintained against a Group Corporate defines the system behavior for the following:

- Accessible Roles for Group Corporate
- Workflow and Approval Flow preference
- Party and User level account access
- User onboarding with multi-entity setup and accessible Party Maintenance
- User Group Maintenance for Group Corporate users
- Corporate user report mapping maintenance to generate user reports
- Approval workflow and Rules setup for banking transaction

Workflow

Features supported in the Application

- Setup Group Corporate Onboarding
 - Group Corporate Profiling
 - Party Account Access
 - User Onboarding
 - User Group Maintenance
 - User Account Access
 - User Reports Mapping
 - Approval –Workflow Management
 - Approval – Rules Management
- View Group Corporate Onboarding Details
- Edit Group Corporate Onboarding Details

How to reach here:

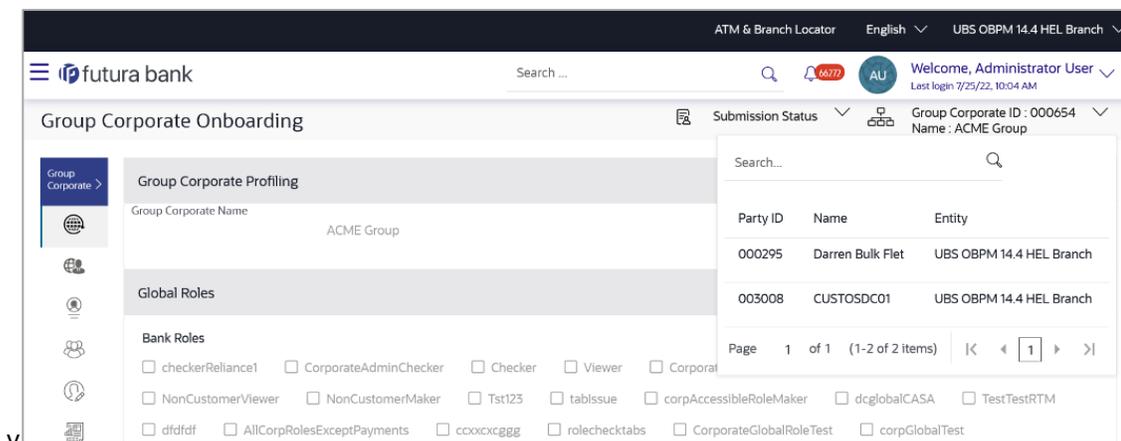

Corporate Administrator Dashboard > Toggle Menu > Menu > Corporate Onboarding > Group Corporate Onboarding

5.1.1 View Linked Parties under Group Corporate

The Corporate Administrator can view the linked parties under the selected Group Corporate on the Group Corporate Onboarding screen on expanding the Group Corporate details on right top corner. **To search linked parties under Group Corporate:**

1. Click on icon adjacent to the Group Corporate ID. An expansion is visible on the Group Corporate ID from where the user can view the list of parties mapped to the Group Corporate along with the ID, name and entity details of each mapped party.

Note: A specific party can be searched by providing the Party ID, Name or Entity in the search field.

Field Description

Field Name	Description
Search	Allows user to search for the specific Party by giving the ID, Name or Entity
Party ID	Displays Party ID of the existing linked party for respective group corporate ID/ Name
Name	Displays Party Name of the existing linked party for respective group corporate ID/ Name
Entity	Displays Entity of the existing linked party for respective group corporate ID/ Name

5.1.2 Comments

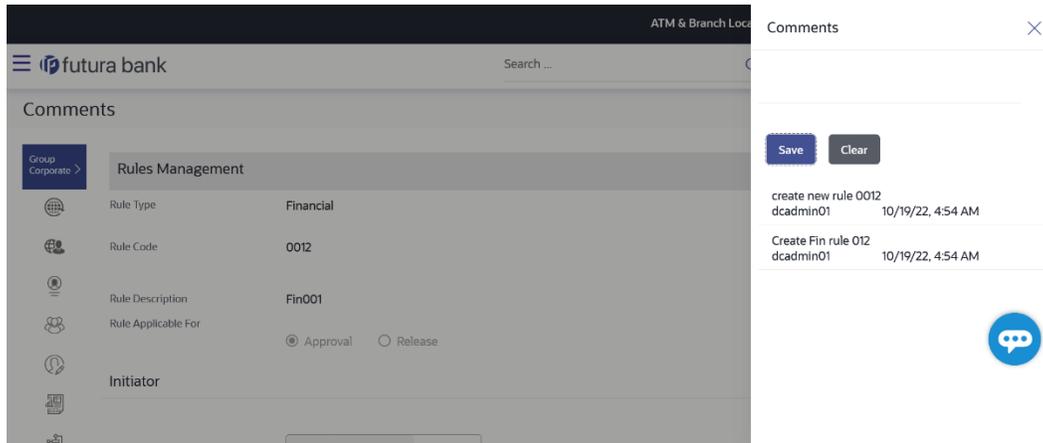

Click on  Comments icon to view / add stage wise comments by any user involved in the maintenance journey e.g., maker, checker etc.

Approver can capture stage wise comments by any user involved in the maintenance journey e.g., maker, checker etc.

Note:

- The comments will be captured at each resource level.
- The comments can be captured by any user who is working on the maintenance. Multiple comments can be captured for one resource.
- The user ID and date timestamp will be available for each comment.
- The user can add comments however the added comments cannot be modified or deleted.
- The comments will be available in the activity log for the Group Corporate against the transaction reference number as long as the GCIF data is not purged.
- A history of comments will be available in case the maintenance is picked up by another approver of same user group for action. The reference number of the transaction continues to be the same and hence the comments trail can be viewed.

Comments Captured

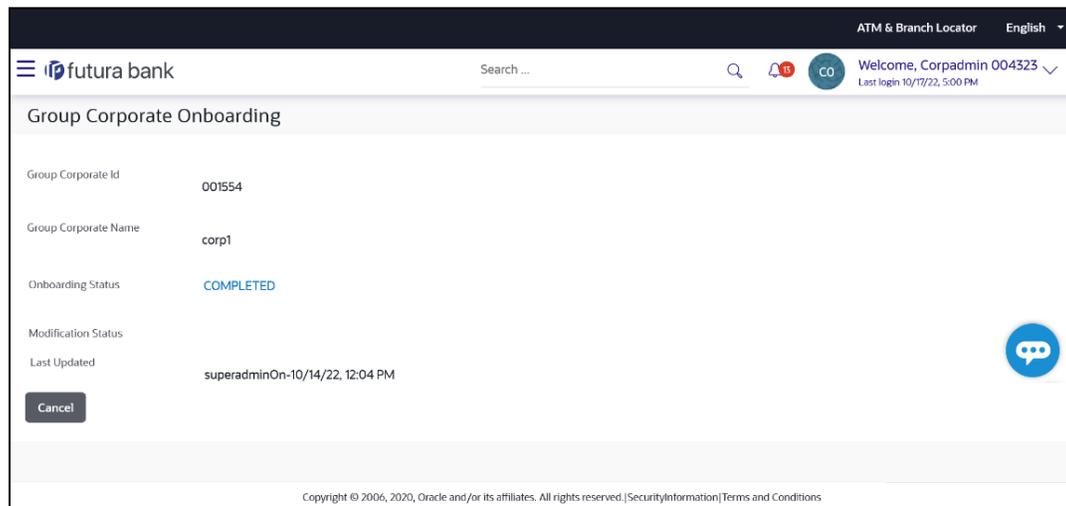

1. Enter the comments.
2. Click **Save** to save the comments.
OR
Click **Clear** to reset the data entered.

Group Corporate Onboarding

1. On navigating system displays the Group Corporate Onboarding screen along with the corporate administrator details.

Group Corporate Onboarding

Format Description

Field Name	Description
Group Corporate ID	Group Corporate ID for which Group Corporate onboarding is to be maintained/ viewed.

Field Name	Description
Group Corporate Name	Group Corporate Name for which Group Corporate onboarding is to be maintained/ viewed.
Onboarding Status	Onboarding status of Group Corporate in Application
Modification Status	Modification status of Group Corporate in Application
Last Updated	Last updated details for the Group Corporate.

5.1.3 Ready to Submit

Any user who modifies any resource in the whole Group Corporate should be registered in the system as a contributor. When any user submits a transaction, a check should be performed if all the contributors have given readiness for submission or not.

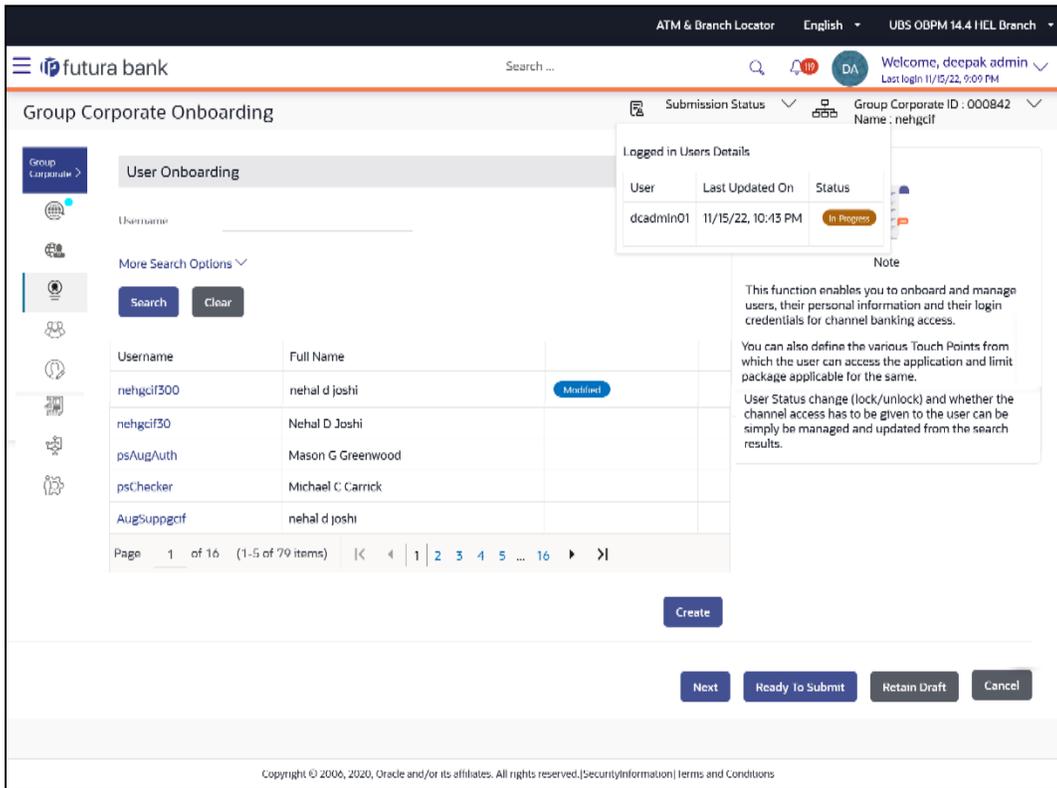

When any user submits a transaction, a check is performed and if all contributors have given readiness, then transaction should get submitted successfully.

Note: Any user who has not performed any data modification on any step in the GCIF onboarding wizard but has only entered comments for a resource should not be considered a contributor.

1. Update the transaction details and click **Save**.
2. On the **Group Corporate Onboarding** screen on top right corner, click on icon adjacent to **Submission Status**. Displays the status of the transaction readiness.

Note: The status of the transaction is **In-progress** until the user submit it.

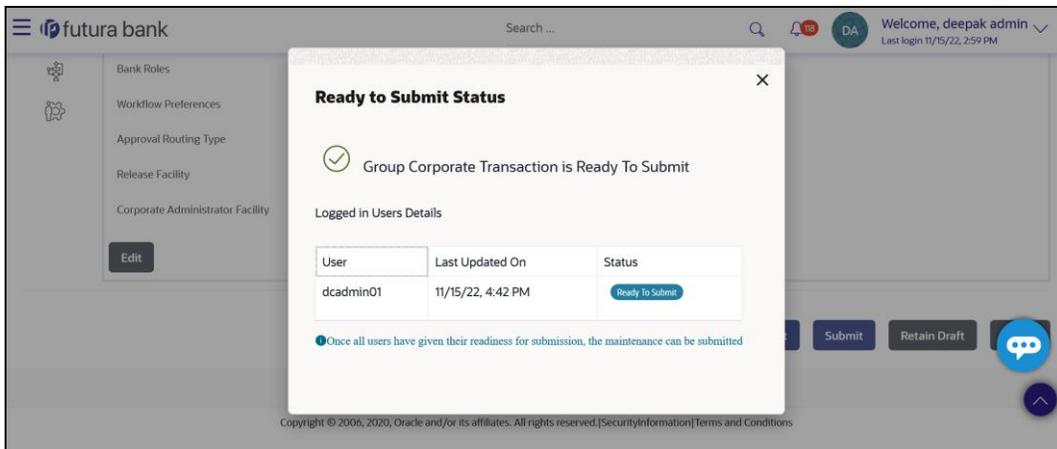

Modified Transaction with status

3. Click **Ready to Submit**. The **Ready to Submit Status** modal window appears.

Note: The status of the transaction changes to **Ready to Submit**.

Ready to Submit Status modal window

4. On successful performing check, and after all contributors have given readiness, then transaction is submitted successfully.

5.2 Step 1: Group Corporate Profiling

The corporate administrator will be able to view the profile details maintained by the Bank administrator for the Group Corporate. However, the administrator will not have the right to maintain or edit the profile information.

Pre-Requisites

- Transaction access is provided to Bank Administrator.
- Approval rule set up for Bank Administrator to perform the actions.
- Party for which Group corporate needs to be set up is created in core banking application

How to reach here:

Corporate Administrator Dashboard > Toggle menu > Menu > Corporate Onboarding > Group Corporate Onboarding > Group Corporate Profiling

5.2.1 Group Corporate Profiling - View

Using this option, Corporate administrators can view profiling details of the existing Group Corporate.

To view Profiling details of the Group Corporate:

1. Click on **Onboarding Status** link to view/update the corporate admin facilities maintained for corporate administrator. The **Group Corporate Onboarding – Group Corporate Profiling** screen appears.
OR
Click **Cancel** to cancel the transaction.

Group Corporate Profiling – View

The screenshot displays the 'Group Corporate Profiling' interface. Key elements include:

- Group Corporate Name:** corp1
- Global Roles:** A section for defining global roles.
- Bank Roles:** Checkboxes for 'Checker', 'Viewer', and 'Maker', all of which are currently checked.
- Workflow Preferences:** Buttons for 'Corporate Level' and 'Rule Level'.
- Approval Flow:** Buttons for 'Sequential', 'Parallel', and 'No Approval'.
- Approval Routing Type:** Buttons for 'Auto' and 'Manual'.
- Release Facility:** Buttons for 'Enable' and 'Disable'.
- Corporate Administrator Facility:** Buttons for 'Enable' and 'Disable'.
- Accessible Roles for Corporate Administration:** Buttons for 'Maker', 'Checker', and 'Viewer'.
- Navigation:** 'Next', 'Submit', 'Retain Draft', and 'Cancel' buttons at the bottom right.

Field Description:

Field Name	Description
Group Corporate Name	Name of the group corporate.

Bank Roles	Display all the roles mapped at Group Corporate level.
Workflow Preferences	Display the workflow preference set up to implement the workflow. Possible values will be <ul style="list-style-type: none"> • Corporate Level • Rule Level
Approval Flow	Display the Approval workflow type, Possible values will be <ul style="list-style-type: none"> • Sequential • Parallel • No Approval <p>This field is enabled if Corporate Level option is selected in Workflow Preferences field.</p>
Approval Routing Type	Displays the approval routing type. Possible value will be <ul style="list-style-type: none"> • Auto • Manual <p><u>Note: In case system resolves multiple rules with different min-max slabs, then as per rule resolution logic, it will resolve the rule which has the nearest 'max' value in the defined slab.</u></p>
Release Facility	Displays the whether the release functionality is enabled or disabled at Group Corporate level.
Corporate Administrator Facility	Display the flag if Corporate Admin facility is maintained for the Group Corporate.
Accessible Roles for Corporate Administrator	Display the Roles that made available to Corporate admin for onboarding new users

2. Click **Next** to proceed to the next logical step.
OR
Click **Submit** to submit the steps performed so far for approval.

OR
 Click **Retain Draft** to save the details entered as draft.
 OR
 Click **Cancel** to cancel the transaction.

5.3 **Step 2: Party Account Access**

The corporate administrator will be able to view the Party Account Access maintenance created by the bank administrator or by another corporate administrator. Users will also be able to maintain (Add/Modify) Party Account access for all the parties available under a group corporate.

Pre-Requisites

- Party preferences should be created for the party for which access is to be maintained
- Channel Access should be enabled for party for which account access is to be maintained
- Transaction access is provided to Bank Administrator.
- Approval rule set up for Bank Administrator to perform the actions.

Features Supported In Application

The following options are available as part of this maintenance:

- Party Account Access - Mapping
- Party Account Access – View
- Party Account Access - Edit
- Party Account Access - Delete

How to reach here:

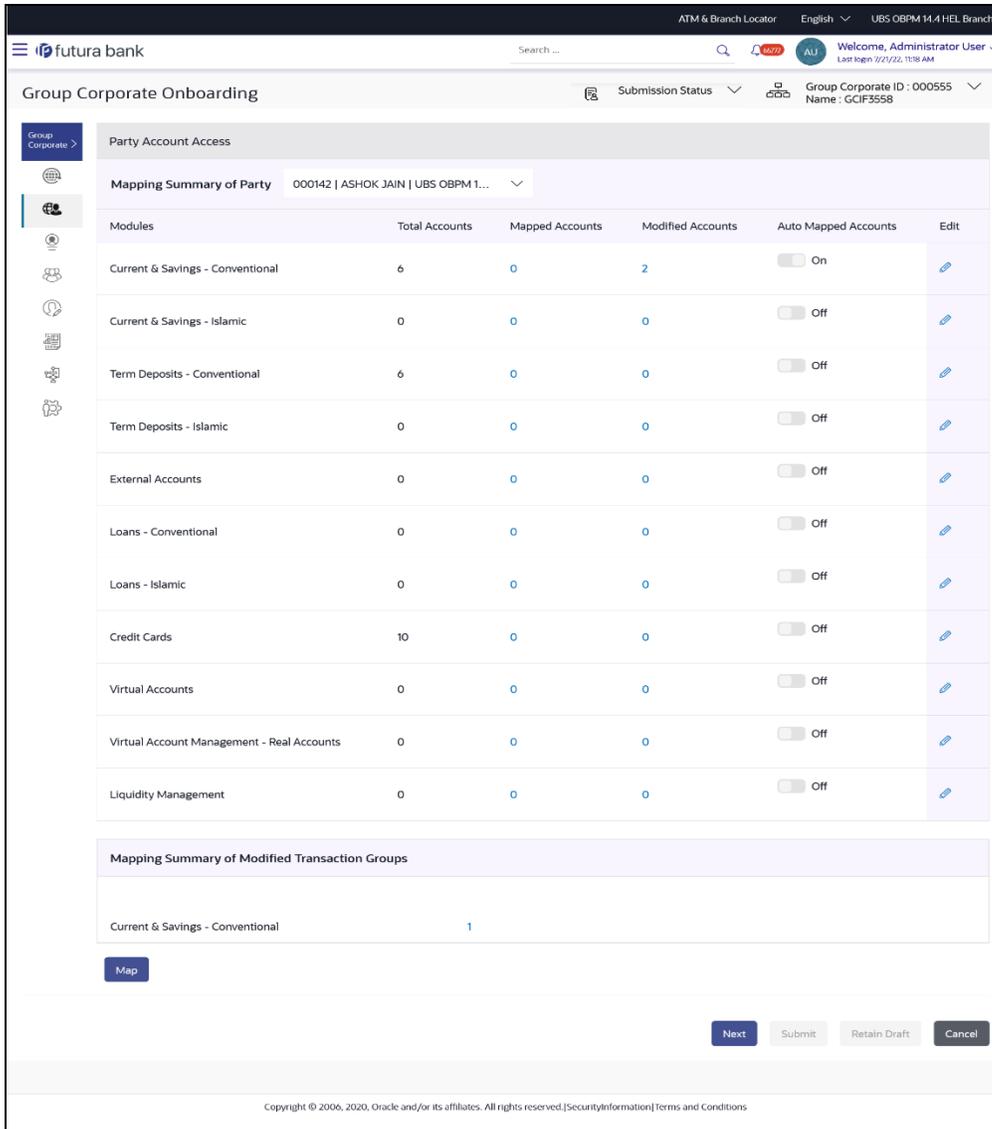

Corporate Administrator Dashboard > Toggle menu > Menu > Corporate Onboarding > Group Corporate Onboarding > Party Account Access

5.3.1 **Party Account Access – Create**

Using this option, Corporate Administrator can maintain Accounts and Transaction access for the corporate parties associated with a specific Group Corporate ID.

To provide the corporate party (Associated to Group Corporate) with account and transaction access:

1. From the **Mapping Summary of Party** dropdown list, select the corporate party id.
2. For a searched party, summary screen will be displayed with total accounts associated with corporate party, status of the accounts mapped for the internet banking, modified accounts if any and Auto account mapping status .

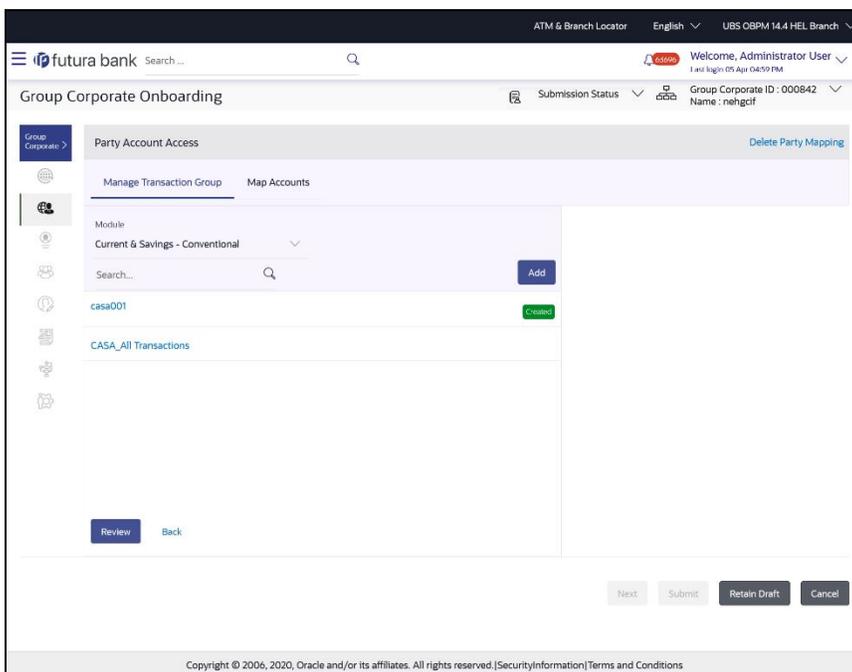

Field Description

Field Name	Description
Mapping Summary of Party	The corporate party for which Party accounts access is being viewed
Modules	Banking Module names
Total Accounts	Total number of accounts available under the party.
Mapped Accounts	Number of accounts mapped to the particular account type.
Modified Accounts	Number of accounts modified for the particular account type.

Field Name	Description
Auto Mapped Accounts	<p>Mapping status of the accounts.</p> <p>The options can be:</p> <ul style="list-style-type: none"> • Auto: gives default access to all newly added accounts and transactions of the party as soon as the account is opened in future. • Manual: gives specific access to future accounts. The new accounts and transactions need to be mapped explicitly if access needs to be provided
Edit or Map	Click on the icon next to every module or click on Map button to edit party account access

3. If there is no mapping done for a party, the count for the **Mapped Accounts** will be '0'
4. All the accounts held by the selected party as a relationship with the bank as available in the core banking system or the respective mid-office system will be fetched and displayed in the respective categories i.e. Current and Savings Accounts for both Conventional and Islamic, Credit Card, Term Deposit, Loan accounts along with Liquidity Management enabled Real Accounts (including External Accounts if any) and VAM enabled Real and virtual accounts for a Corporate.
5. Click **Map** or **Edit** (available across each banking module). The **Party Account Access - Create** screen appears.
OR
Click **Cancel** to cancel the transaction.

Party Account Access (Create) – Manage Transaction Group tab

Field Description:

Field Name	Description
Manage Transaction Group tab	
Modules	Select Banking Module to setup account access.
Select Transaction Groups	Select the Transaction group to map transactions and maintaining access in Account Access screens.
Add Transaction Group	Create a new transaction group by clicking the 'ADD' button.
	<hr/> Note : <ul style="list-style-type: none"> • A new group can also be created by cloning/copying an existing transaction group • Multiple transaction groups can be created. • Transaction groups of one Group Corporate will be available for selection only for that Group Corporate <hr/>
<p>Following fields appears in overlay window when user click on Add to add new transaction group</p>	
Name of Transaction Group	Specify the new transaction group to map transactions. Click Verify to check the availability the specific Transaction Group name.

Field Description:

Field Name	Description
Map Accounts tab	
Party	Select the party to map accounts.

Field Name	Description
Module	Select Banking Module to setup account access.
Auto Map	<p>Mapping status of the accounts.</p> <p>The options can be:</p> <ul style="list-style-type: none"> • Auto: gives default access to all newly added accounts and transactions of the party as soon as the account is opened in future. • Manual: gives specific access to future accounts. The new accounts and transactions need to be mapped explicitly if access needs to be provided
Action	<p>Select the action to be done for selected transaction group.</p> <p>The options are:</p> <ul style="list-style-type: none"> • Map Transaction Group: Select Transaction Group, then select the account numbers and then click on Save to map the transaction groups to the selected accounts. Multiple transactions can be mapped • Unmap: Select Unmap option, specify the transaction group to be unmapped and then select the accounts. On clicking Save, the selected transaction group will be unmapped from the account/accounts. <hr/> <p>Note: Only one transaction group can be unmapped at a time. A transaction group can be unmapped from All Accounts or Selected Accounts.</p> <hr/>
Transaction Group	<p>Select one or multiple transaction group/s to be mapped to the selected accounts.</p> <p>Select one transaction group to be unmapped from the selected account/accounts.</p>
Account Selection	<p>Select the account numbers to be mapped to the Transaction groups. User can select all the accounts available under selected party ID or click on filter and select the specific accounts.</p> <hr/> <p>Note :</p> <ol style="list-style-type: none"> 1) System will show a tag as 'Modified' followed by the transaction group name after the account number. 2) System displays the Account Number along with the Account Name, Account Currency, and Branch Code. <hr/>
Delete Party Mapping	Click on Delete Party Mapping to delete all the Transaction and party account access maintenance done for corporate party all at once

6. The Party Account Access screen has two tabs. Header of the screen shows the Group Corporate Name and Group ID. The manage Transaction Group tab lists down all the **modules, transaction groups** created.
7. Navigate and select specific **module** tab (Including viz. Current and Savings Accounts for both Conventional and Islamic, Credit Card, Term Deposit, Loan accounts along with Liquidity Management enabled Real Accounts (including External Accounts if any) and VAM enabled Real and virtual accounts for a Corporate.) in the first column for which account and transaction access mapping maintenance need to be setup.
8. The user can create a new **transaction group** by clicking the '**ADD**' button. On clicking **Add**, a new overlay will open where all the transactions and inquiries will be listed. User can provide a name the group and select the required transactions and inquiries and click the **save** button.
OR
Click **Reset** to clear added details in overlay screen.
9. A new group can also be created by **cloning/copying an existing transaction group**. Once the user selects an existing **transaction group**, system will populate the screen with the transactions selected in the copied group in editable mode. User can select or deselect some of the transactions as per his requirements and create a new group by providing a different transaction group name
10. There will be one factory shipped **Transaction group** for each module, which will have all transactions and inquiries grouped together.

Note: Factory shipped user group cannot be deleted or modified.

11. Once the transaction group/s are created, user can map these transaction groups to one or multiple accounts. Click on **Map Accounts** tab and select Party, then select Transaction Groups, select the account numbers and then click on **Save** to map the transaction groups to the selected accounts.
12. Click on the **Transaction Group link**, to view the list of transactions within the mapped transaction group in an overlay.
13. Select 'All Accounts' option to map/ unmap transaction groups from all accounts.
OR
If specific accounts are required to be mapped, then select the respective check boxes preceding the account number.
14. Once the user maps the accounts, system will show a tag as '**Modified**' followed by the transaction group name after the account number.
15. To map the new accounts, select appropriate option from **Auto Map toggle button**;
Select **Auto** if you wish to allow access to all future Accounts across banking module.
OR
Select **Manual** if you wish to explicitly map new accounts and transactions.
16. User can **unmap** the transaction groups by selecting accounts and then clicking on **Save** button to reset their mapping.
17. User can click on **Delete Party Mapping** to delete all the Transaction and account access maintenance done for corporate party in one step.
18. User can drill down his search by applying Filter to search an account basis on the account number, transaction group, account access status, account status and currency
19. **Click Save** to save the maintenance, and redirect to the review page.
OR
Click **Next** to proceed to the next logical step.
OR

Click **Submit** to submit the steps performed so far for approval.

OR

Click **Retain Draft** to save the details entered as draft.

OR

Click **Cancel** to cancel the transaction.

Note: Admin can submit the maintenance after any step. Maintenances saved so far will be sent for approval in one flow. Admin would not be able to make any changes or maintain another step for the same Group Corporate till the time the approval of the wizard is not done.

20. The **Review** screen appears. Verify the details, and click **Submit**.
 - OR
 - Click **Edit** to modify the details entered.
 - OR
 - Click **Next** to proceed to next step.
 - OR
 - Click **Retain Draft** to save all the steps completed so far, and allow Admin resume the same application.
 - OR
 - Click **Cancel** to cancel the transaction.
21. The success message of user creation appears along with the transaction reference number

5.3.2 Party Account Access- View

The Corporate Administrator can view the list of account(s) and transactions for which access has been provided to the party.

To Search and view the party account and transaction access:

1. From the **Mapping Summary of Party** dropdown list, select the corporate party id.
2. For a searched party, summary screen will be displayed with total accounts associated with corporate party, status of the accounts mapped for the internet banking, modified accounts if any and Auto account mapping status .
3. Click the link under the total **Mapped accounts** or **Modified accounts**, The **Party Account Access – View** (Transaction Mapping) screen appears. The search result according to the search criteria appears
 - OR
 - Click **Cancel** to cancel the transaction.

Party Account Access - Summary Results

The screenshot displays the 'Party Account Access' summary results for a corporate party. The interface includes a navigation menu on the left, a search bar, and user information at the top right. The main content area shows a table of account types and their associated statistics.

Modules	Total Accounts	Mapped Accounts	Modified Accounts	Auto Mapped Accounts	Edit

OR
Click **Cancel** to cancel the transaction.

4. If there is no mapping done for a party, the count for the **Mapped Accounts** will be '0'
5. All the accounts held by the selected party as a relationship with the bank as available in the core banking system or the respective mid-office system will be fetched and displayed in the respective categories
6. Click **Map** or **Edit** (available across each banking module). The **Party Account Access - Edit** screen appears.
OR
Click **Cancel** to cancel the transaction.

Party Account Access – Edit

The screenshot displays the 'Party Account Access' screen. At the top, it shows the user's name 'Jack Nikon' and the last login time '15 Nov 06:48 PM'. The main heading is 'Party Account Access'. Below this, there is a 'Mapping Summary of Party' section for the party '***216 | A JRELimó | UBS OBPM 14.4 HE...'. The table below lists the following modules and their account counts:

Modules	Total Accounts	Mapped Accounts	Modified Accounts	Auto Mapped Accounts	Edit
Current & Savings - Conventional	2	0	0	<input type="checkbox"/> Off	Edit
Current & Savings - Islamic	0	0	0	<input type="checkbox"/> Off	Edit
Loan	0	0	0	<input type="checkbox"/> Off	Edit
Term Deposit	0	0	0	<input type="checkbox"/> Off	Edit
Credit Card	10	0	0	<input type="checkbox"/> Off	Edit
Virtual Account Management - Real Accounts	0	0	0	<input type="checkbox"/> Off	Edit
Liquidity Management	0	0	0	<input type="checkbox"/> Off	Edit
Virtual Account	0	0	0	<input type="checkbox"/> Off	Edit

Below the table is a 'Map' button. At the bottom right, there are four buttons: 'Next', 'Submit', 'Retain Draft', and 'Cancel'. The footer contains the copyright information: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. [SecurityInformation]Terms and Conditions'.

Party Account Access – Edit Details

The screenshot displays the 'Party Account Access' screen in the Futura Bank Group Corporate Onboarding system. The interface is divided into a header, a navigation sidebar, and a main content area. The header includes the bank logo, search bar, and user information. The sidebar contains icons for various onboarding steps. The main content area has two tabs: 'Manage Transaction Group' (selected) and 'Map Accounts'. Under 'Manage Transaction Group', there is a 'Module' dropdown set to 'Current & Savings - Conventional', a search bar, and an 'Add' button. Below this, a list of transaction groups is shown, including 'casa001' (marked 'Created') and 'CASA_All Transactions'. At the bottom, there are 'Review' and 'Back' buttons, and a footer with 'Next', 'Submit', 'Retain Draft', and 'Cancel' buttons.

7. The Party Account Access screen has two tabs. Header of the screen shows the Group Corporate Name and Group ID. The manage Transaction Group tab lists down all the **modules, transaction groups** created.
8. Navigate and select specific **module** tab (Including viz. Current and Savings Accounts for both Conventional and Islamic, Credit Card, Term Deposit, Loan accounts along with Liquidity Management enabled Real Accounts (including External Accounts if any) and VAM enabled Real and virtual accounts for a Corporate.) in the first column for which account and transaction access mapping maintenance need to be setup.
9. The user can create a new **transaction group** by clicking the '**ADD**' button. On clicking **Add**, a new overlay will open where all the transactions and inquiries will be listed. User can provide a name the group and select the required transactions and inquiries and click the **save** button.
OR
Click **Reset** to clear added details in overlay screen.
10. A new group can also be created by **cloning/copying an existing transaction group**. Once the user selects an existing **transaction group**, system will populate the screen with the transactions selected in the copied group in editable mode. User can select or deselect some of the transactions as per requirements and create a new group by providing a different transaction group name
11. There will be one factory shipped **Transaction group** for each module, which will have all transactions and inquiries grouped together.

Note: Factory shipped user groups cannot be deleted or modified.

12. Once the transaction groups are created, user can select specific module, along with the transaction groups and can select 'All Accounts' to map the selected transaction group/s to all the existing accounts under the selected party
OR
If transaction groups need to be mapped to specific accounts, then the user needs to select the respective check boxes preceding the account number.
13. Once the user maps the accounts, system will show a tag as '**Modified**' followed by the transaction group name after the account number.
14. To map the new accounts, select appropriate option from **Auto Map** toggle button;
Select **Auto** if you wish to allow access to all future Accounts across banking module.
OR
Select **Manual** if you wish to explicitly map new accounts and transactions.
15. User can **unmap** the transaction groups by selecting accounts and then clicking on Save button to reset their mapping with Group Corporate
16. User can click on **Delete Party Mapping** to delete all the transaction and party account access maintenance done for corporate party in one step.
17. User can drill down his search by applying Filter to search an account basis on Transaction Group, currency, mapping status
18. **Click Save** to save the maintenance, and redirect to the review page.
OR
Click **Next** to proceed to the next logical step.
OR
Click **Submit** to submit the steps performed so far for approval.
OR
Click **Retain Draft** to save the details entered as draft.
OR
Click **Cancel** to cancel the transaction.

Note: Admin can submit the maintenance after any step. Maintenances saved so far will be sent for approval in one flow. Admin would not be able to make any changes or maintain another step for the same Group Corporate till the time the approval of the wizard is not done.

19. The **Review** screen appears. Verify the details, and click **Submit**.
OR
Click **Edit** to modify the details entered.
OR
Click **Next** to proceed to next step.
OR
Click **Retain Draft** to save all the steps completed so far, and allow Admin resume the same application.
OR
Click **Cancel** to cancel the transaction.
20. The success message of user creation appears along with the transaction reference number

Note: Following flow explains the drill down options to search by applying Filter to search an account for Virtual Accounts Management & Liquidity Management module –

Virtual Account Management (Real Account) Tab-

The screenshot shows the Futura Bank Group Corporate Onboarding interface. The main content area is titled "Party Account Access" and includes tabs for "Manage Transaction Group" and "Map Accounts". The "Map Accounts" tab is active, showing a "Party" field with the value "***462 | ABZ Solutions | UBS OBPM 14..." and a "Module" field with the value "Virtual Account Management - Real Acc...". There is also an "Auto Map" toggle switch. On the right, a "Filter" panel is open, showing a search bar with "or" and dropdown menus for "Branch Name", "Transaction Groups", "Account Access Status", and "Currency", all with "Please Select" as the current selection. "Apply" and "Reset" buttons are at the bottom of the filter panel.

To view Virtual Account Management - Real Accounts:

1. In the **Account Number** field, enter the exact Real Account number.
OR
From the **Branch name** drop down, select the Branch name.
OR
From the **Transaction groups**, select the transaction group.
OR
From the **Account Access Status** field, select an appropriate status.
OR
From the **Currency** field, select the required currency.
2. Click **Apply** to Apply the filter.
OR
Click **Reset** to reset the entered data.
3. The user can filter through two sections :
 1. On the basis of the Account Number.
OR
 2. A combination of branch name, currency filters and other parameters. After the OR division, the user can use these search parameters alone or in a combination to filter search results.

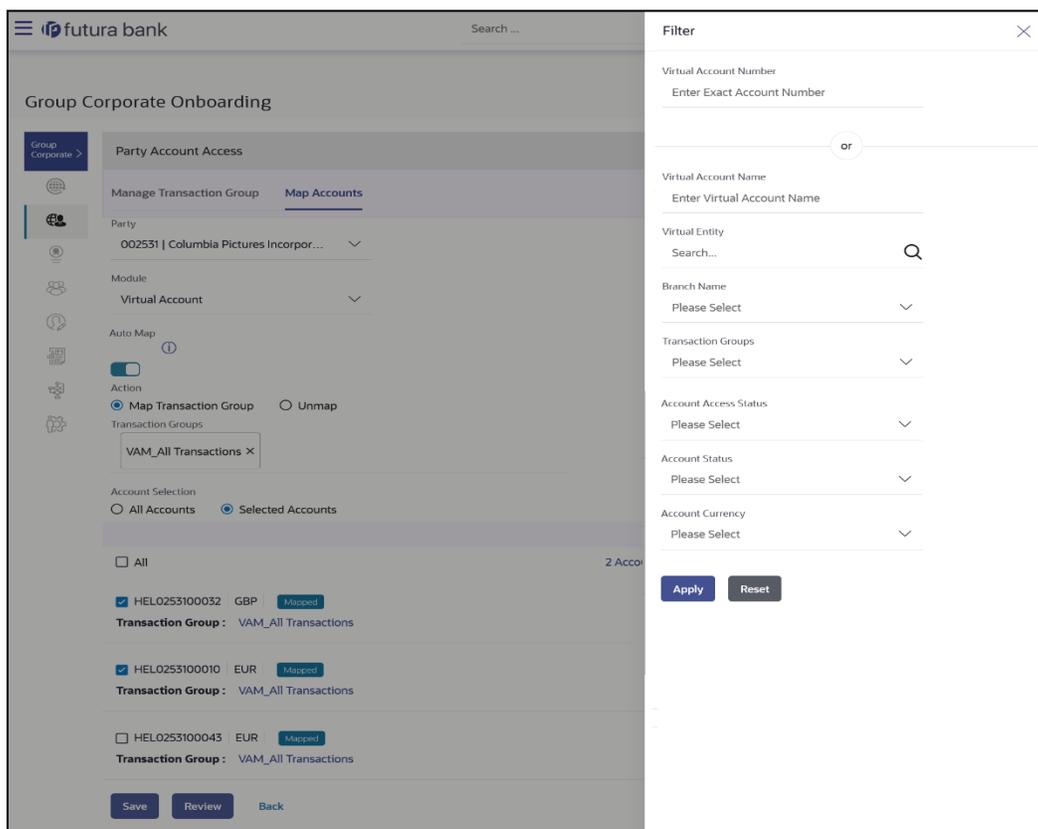

Liquidity Management Tab -

The screenshot shows the Futura Bank Group Corporate Onboarding interface. The main content area is titled "Party Account Access" and includes tabs for "Manage Transaction Group" and "Map Accounts". The "Map Accounts" tab is active, showing a "Party" field with the value "***462 | ABZ Solutions | UBS OBPM 14..." and a "Module" field with the value "Liquidity Management". There is also an "Auto Map" toggle switch. On the right, a "Filter" panel is open, showing a search bar with "Account Number" and "Enter Exact Account Number", a dropdown for "Branch Name", and dropdown menus for "Transaction Groups", "Account Access Status", and "Currency", all with "Please Select" as the current selection. "Apply" and "Reset" buttons are at the bottom of the filter panel.

To view Liquidity Management Accounts:

1. In the **Account Number** field, enter the exact Real Account number.
 OR
 From the **Branch name** drop down, select the Branch name.
 OR
 From the **Transaction groups**, select the transaction group.
 OR
 From the **Account Access Status** field, select an appropriate status.
 OR
 From the **Currency** field, select the required currency
2. Click **Apply** to Apply the filter.
 OR
 Click **Reset** to reset the entered data.
3. The user can filter through two sections :
 1. On the basis of the Account Number.
 OR
 2. A combination of branch name, currency filters and other parameters. After the OR division, the user can use these search parameters alone or in a combination to filter search results.

Virtual Accounts Tab -

To view Virtual Accounts:

1. In the **Virtual Account Number** field, enter the exact Virtual Account number.
OR
In the **Virtual Account Name** field, enter the Virtual Account Name.
OR
From the **Virtual Entity** search, select the Virtual Entity name.
OR
From the **Branch name** drop down, select the Branch name.
OR
From the **Transaction groups**, select the transaction group.
OR
From the **Account Access Status** field, select an appropriate status.
OR
From the **Status** drop down, select the status.
OR
From the **Currency** field, select the required currency
2. Click **Apply** to Apply the filter.
OR
Click **Reset** to reset the entered data.
3. The user can filter through two sections :
 1. On the basis of the Account Number
OR
 2. A combination of branch name, currency filters and other parameters . After the OR division, the user can use these search parameters alone or in a combination to filter search results .

5.3.4 Party Account Access- Delete

As part of this option, party account mapping can be deleted.

To delete account and transaction access for the party:

1. From the **Mapping Summary of Party** dropdown list, select the corporate party id.
2. For a searched party, summary screen will be displayed with total accounts associated with corporate party, status of the accounts mapped for the internet banking, modified accounts if any and Auto account mapping status .
3. Click the link under the total **Mapped accounts** or **Modified accounts**, The **Party Account Access – View** (Transaction Mapping) screen appears. . The search result according to the search criteria appears
OR
All the accounts held by the selected party as a relationship with the bank as available in the core banking system or the respective mid-office system will be fetched and displayed in the respective categories
4. Click **Map** or **Edit** (available across each banking module). The **Party Account Access - Edit** screen appears.
OR
Click **Cancel** to cancel the transaction.
5. Click on **Delete Party Mapping** to delete all the Transaction and account access maintenance done for corporate party in one-step.

- The application prompt the administrator with a message Are you sure you want to delete Party Account Access setup for linked Party ID – Party name with an option of Yes / No.
6. Click **Yes** to proceed with the deletion request.
It will navigate to confirmation page with a success message and the status.
OR
Click **No** if you do not wish to proceed with deletion.
 7. Click **OK** to complete the transaction.
 8. **Click Save** to save the maintenance, and redirect to the review page.
OR
Click **Next** to proceed to the next logical step.
OR
Click **Submit** to submit the steps performed so far for approval.
OR
Click **Retain Draft** to save the details entered as draft.
OR
Click **Cancel** to cancel the transaction.
 9. The **Review** screen appears. Verify the details, and click **Submit**.
OR
Click **Edit** to modify the details entered.
OR
Click **Next** to proceed to next step.
OR
Click **Retain Draft** to save all the steps completed so far, and allow Admin resume the same application.
OR
Click **Cancel** to cancel the transaction
 10. The success message of user creation appears along with the transaction reference number

5.4 **Step 3: User Onboarding**

This function will allow the corporate administrator to create a new user by entering all the data manually or by copying an existing user. User Management function enables system/bank/corporate administrator to onboard and manage users and their login credentials for channel banking access. The corporate administrators can define various touch points from which the user can access the channel banking and limit package applicable for the same. In a multi entity scenario, this function will enable corporate administrator to provide access to multiple entities to users.

Corporate administrators will also be able to access the corporate users onboarded by the bank administrators or by another corporate administrator under the Group Corporate mapped. Corporate administrators will be able to create a new user and even modify existing users.

Note: When an administrator creates/modifies a user through User Management either via Group Corporate onboarding (for corporate user) or via standalone screens (for administrator and retail user), the global roles would be available for assignment to the user in the same manner as is available in the current system, however, the entity specific roles would be listed in Entity-specific sections for each user. Administrator will be able to map multiple roles to the user under each entity

Internal Users

- Corporate Administrator

External Users

- Corporate User
- Non Customer- Corporate users
- Corporate Administrator

Pre-Requisites

- User Segment and Application roles are maintained
- Transactions are associated with each Application role
- Transaction (User Management) access is provided to System/Bank Administrator.
- Approval rule set up for Bank administrator to perform the actions.
- Party Preference is maintained for corporate user

How to reach here:

Corporate Administrator Dashboard > Toggle menu > Menu > Corporate Onboarding > Group Corporate Onboarding > User Onboarding tab

5.4.1 User Management - Search and View

Using this option, System/ bank administrators can search and view details of the existing users. Administrator selects the user type of the user to be searched.

Default search is available with User Name, but the user can also be searched by providing other details like First Name, Last Name, Party ID. Email ID and Mobile Number.

To search for a user:

1. Enter the search criteria, click **Search**.
The search results appear on the **User Management** screen based on the search parameters.
OR
Click **Cancel** if you want to cancel the transaction.
OR
Click **Clear** if you want to reset the search parameters.
OR
Click **Create** to create internal and external users.

5.4.3 User Management - Create

Corporate Administrator logs into the system and navigates to the User Management screen. This function allows the administrator to create internal and external users.

Note: In case of multi entity implementation, if the Corporate administrator has access to multiple entities, then the administrator can select the entity from the entity switcher on which the user needs to be onboarded. The selected entity of the user as part of onboarding will be the default/home entity of the user being created.

Group corporate Onboarding - User Onboarding

Field Description

Field Name	Description
New	Allows selecting a Parent Party ID of the user.
Copy From	Allows to select an already created user (user created under the same Group Corporate) and screen will display the copied data for all the sections except Personal and Contact information. System/ Bank Administrator would require to fill Personal and Contact information and he can make the changes in the copied data as well.
Party ID	Parent Party ID of the user for mapping it to the user.

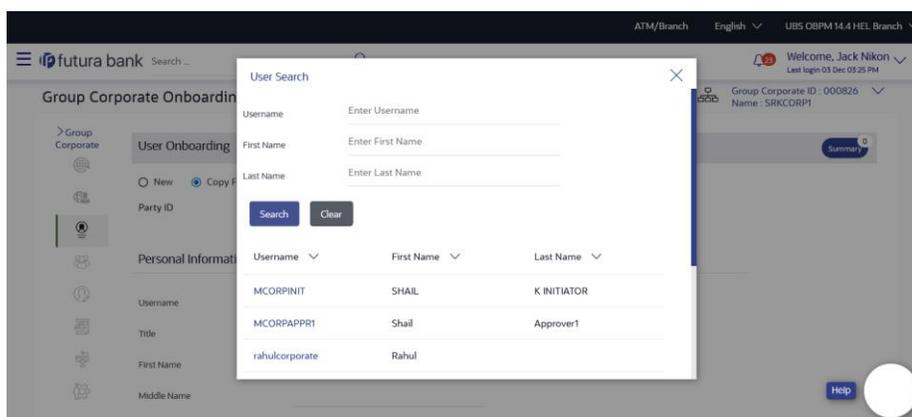

To onboard a user:

1. In the **User Management** screen, Click **Create**.
2. Select the option to create a new or by copying an existing user.
3. If you select **New** option;
 - a. From the **Party ID** list, select a Parent Party ID of the user. The **Personal Information, Contact Details, Touch Points, Roles, Limits and Accessible Entity** sections appear.
4. If you select the **Copy From** option;
 - a. The **User Search** popup window appears.

- b. Enter the search criteria, and click **Search**.
The search results appear on the **Search User** screen based on the search parameters.

Group Type	Type of touch point i.e. whether touch point is of type internal or external.
Touch Points	List of the internal or external touch points.

12. Click **Save** to save the maintenance, and redirect to the review page.
OR

Click **Next** to proceed to the next logical step.

OR

Click **Submit** to submit the steps performed so far for approval.

OR

Click **Retain Draft** to save the details entered as draft.

OR

Click **Cancel** to cancel the transaction.

Note: Admin can submit the maintenance after any step. Maintenances saved so far will be sent for approval in one flow. Admin would not be able to make any changes or maintain another step for the same Group Corporate till the time the approval of the wizard is not done.

13. The **Review** screen appears. Verify the details, and click **Submit**.

OR

Click **Add Another** to add another maintenance of the same step.

OR

Click **Edit** to modify the details entered.

OR

Click **Next** to proceed to next step.

OR

Click **Retain Draft** to save all the steps completed so far, and allow Admin resume the same application.

OR

Click **Cancel** to cancel the transaction.

14. The success message of user creation appears along with the transaction reference number.

5.5 **Step 4: User Group Maintenance**

Using the User Group maintenance option, the corporate administrator can maintain the user groups of corporate users of Group Corporate.

Since User Groups are maintained at the Group Corporate level, the corporate administrator will be able to add the users belonging to any parties available under the Group Corporate. Users will be also allowed to modify the existing user group which is available under the Group Corporate.

Prerequisites:

- Transaction access is provided to Bank Administrator.
- Multiple corporate users are maintained.
- Approval rule set up for Bank administrator to perform the actions.
- Party preference for which the groups are to be created is maintained and is active.

Features Supported In Application

User Group Management allows Bank Administrator to:

- Create User Groups
- View User Groups
- Modify User Groups

How to reach here:

Corporate Administrator Dashboard > Toggle menu > Menu > Corporate Onboarding > Group Corporate Onboarding > User Group

5.5.1 **User Groups – Create**

Bank Administrator can create a new User Group for the Group Corporate ID by using this option. Only the users of single Group Corporate ID can be clubbed together in a User Group.

Administrator can create multiple user groups and one user can be part of multiple user groups. Bank Administrator will be allowed to create user group even without adding a single user.

To create a user group:

1. The **User selection** screen appears. Select the appropriate option.

User Group - Create

2. Click **Create**.
 3. In the **Group Code** field, enter the group code.
 4. In the **Group Description** field, enter the group name.
 5. In the **User Group** section, Click **Add** to add the selected user in the User Group. Once added, the user name will be removed from the user drop-down to avoid duplication of users.
Click  to remove a user from the User Group.
 6. Click **Save** to save the maintenance, and redirect to the review page.
OR
Click **Next** to proceed to the next logical step.
OR
Click **Submit** to submit the steps performed so far for approval.
OR
Click **Retain Draft** to save the details entered as draft.
OR
Click **Cancel** to cancel the transaction.
-

Note: Admin can submit the maintenance after any step. Maintenances saved so far will be sent for approval in one flow. Admin would not be able to make any changes or maintain another step for the same Group Corporate till the time the approval of the wizard is not done.

7. The **Review** screen appears. Verify the details, and click **Submit**.
OR
Click **Add Another** to add new user group in same flow.
OR
Click **Edit** to modify the details entered.
OR
Click **Next** to proceed to next step.

- OR
- Click **Retain Draft** to save all the steps completed so far, and allow Admin resume the same application.
- OR
- Click **Cancel** to cancel the transaction

Note: You can click  to delete a record.

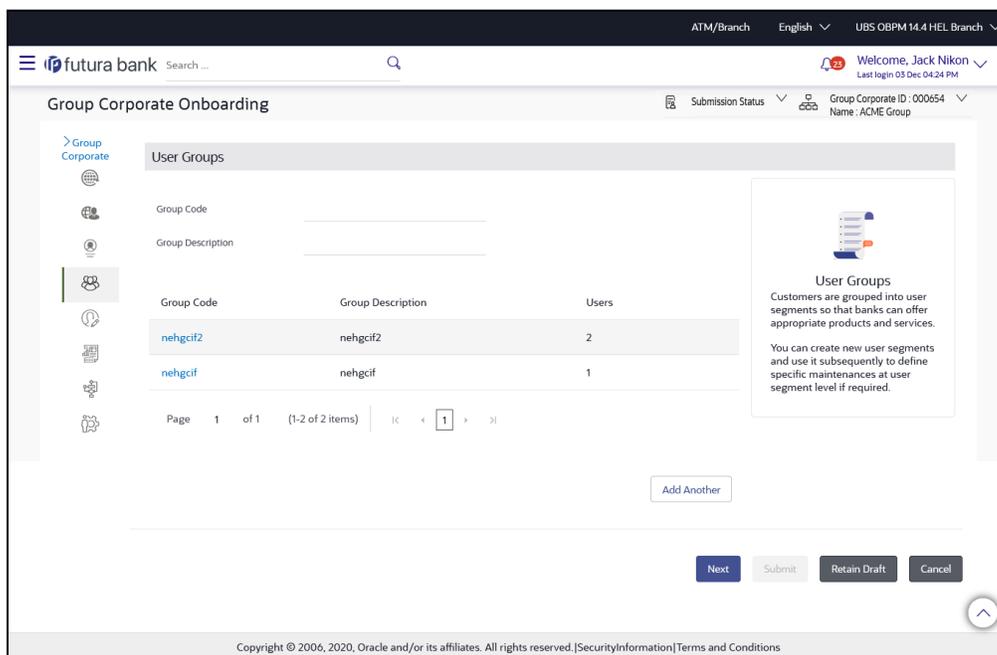

5.5.2 User Groups – Summary & View

Once the logged in Bank Administrator navigates to User Group Management screen, and searches User Group Code. User groups maintained if any under the Group Corporate would be displayed on the screen. User can opt to view the details of existing user groups.

The summarized view of all the user groups created (if any) for the Group corporate is displayed on the screen. Further drill down is given on each user group to view the details of the users who are part of the user group.

To search and view User Group details of the Group Corporate:

1. In **User Group Management** screen, in the **Group Code** or in **Group Description** enter the Respective details.
2. Click Search. User groups maintained if any under the Group Code or Group Description are displayed on the screen.

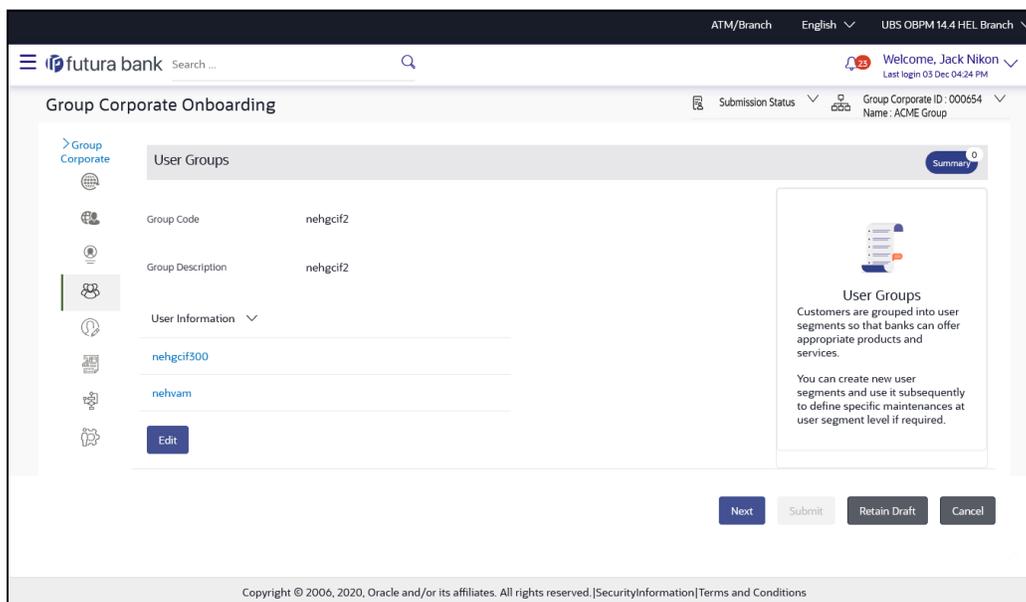

Field Name	Description
------------	-------------

4. Click **Back** to navigate back to previous screen.
OR
Click **Next** to proceed to the next logical step.
OR
Click **Submit** to submit the steps performed so far for approval.
OR
Click **Retain Draft** to save the details entered as draft.
OR
Click **Cancel** to cancel the transaction.

5.5.3 User Groups – Edit

This function enables the Bank Administrator to edit the description of existing user groups mapped under Group Corporate. Bank Administrator can also add new users and remove existing users of the user group as part of this function.

A check is performed on minimum and maximum number of users allowed as a part of user group while adding or removing the users from the user group.

To edit or update a user group:

1. In **User Group Management** screen, in the **Group Code** or in **Group Description** enter the Respective details.
2. Click Search. User groups maintained if any under the Group Code or Group Description are displayed on the screen.

The screenshot shows the 'User Groups' section of the Futura Bank Group Corporate Onboarding interface. The page title is 'Group Corporate Onboarding'. The user is logged in as Jack Nikon. The interface includes a search bar, a sidebar with navigation icons, and a main content area. The main content area has a form for creating a new user group and a table displaying existing user groups. The table has columns for 'Group Code', 'Group Description', and 'Users'. There are two rows of data: one for 'nehgcf2' with 2 users, and one for 'nehgcf' with 1 user. A 'User Groups' informational box is also present, explaining that customers are grouped into user segments and that new user segments can be created to define specific maintenances.

Group Code	Group Description	Users
nehgcf2	nehgcf2	2
nehgcf	nehgcf	1

Field Name	Description
Search User Group	
Group Code	Enter User group code
Group Description	Enter Description provided to the user group.
Search Result

Group Description	Display description provided to the user group
User Count	Display Number of users available in each user group

- Click on **Group Code** hyperlink to view details of list of users associated with entered user group.
- Click **Edit** to edit the user group.
The **User Groups - Edit** screen displays the mapping of the user group.
OR
Click **Cancel** to cancel the transaction.

User Group – Edit

The screenshot displays the 'User Groups' edit page. The top navigation bar includes 'futura bank' and user information for Jack Nikon. The main content area is titled 'Group Corporate Onboarding' and shows the 'User Groups' section. The 'Group Code' is 'nehgcf2' and the 'Group Description' is 'nehgcf2'. Under 'User Information', there is a dropdown menu with 'nehgcf500' and 'nehvam' selected, each with a trash icon. There are 'Add' and 'Save' buttons. A right-hand panel contains a 'User Groups' informational box. At the bottom, there are 'Next', 'Submit', 'Retain Draft', and 'Cancel' buttons.

Field Description

Field Name	Description
Edit	
Group Code	Display user group code
Group Description	Enter Description provided to the user group.
User Information	
User ID	User ID of the user who is part of the user group is displayed.

- In the User Group section, Click **Add** to add the selected user in the User Group. Once added, the user name will be removed from the user drop-down to avoid duplication of users. Click  to remove a user from the User Group.
- Click **Save** to save the maintenance, and redirect to the review page.
OR
Click **Next** to proceed to the next logical step.
OR
Click **Submit** to submit the steps performed so far for approval.
OR
Click **Retain Draft** to save the details entered as draft.
OR
Click **Cancel** to cancel the transaction.

The **User Group - Review** screen appears. Verify the details, and click **Confirm**.

OR

Click on **Add Another** to add new User Group.

OR

Click **Cancel** to cancel the transaction.

OR

Click **Back** to navigate back to previous screen.

15. The success message of user group creation appears along with the transaction reference number.

5.6 **Step 5: User Account Access**

Using this option the corporate administrator will be able to set up account and transaction access for user(s) of the Group Corporate. This maintenance can be done only after the Party Account Access is setup for the parent party of the user(s). The user level mapping of accounts and transactions must be done to provide access to the accounts for performing transactions to the specific user.

Note: The corporate administrator will be able to maintain the account access of all the users available under the Group Corporate.

Pre-Requisites

- Account Access should be maintained for the corporate party of the user for which access is to be maintained
- Account Access for the party should be maintained for associated party accounts if the user needs access to associated party accounts.
- Party preferences should be created for the party of the user for which access is to be maintained
- Channel Access should be enabled for party of the user for which account access is to be maintained
- Transaction access is provided to Bank Administrator.
- Approval rule set up for Bank Administrator to perform the actions.

Features Supported In Application

The following options are available as part of this maintenance:

- User Account Access - Mapping
- User Account Access – View
- User Account Access - Edit
- User Account Access - Delete

How to reach here:

Corporate Administrator Dashboard > Toggle menu > Menu > Corporate Onboarding > Group Corporate Onboarding > User Account Access

5.6.1 User Account Access – Create

Using this option, Bank Administrator can maintain Accounts and Transaction access for the corporate users associated with a specific Group Corporate ID.

This option lets the administrator to provide account access to specific users of a party.

To provide the user with account and transaction access:

1. In the **User Search** field search users for whom Transaction Account access need to be maintained.
OR
Select the user from list displayed below.
2. Select the user ID and click on **"Map"** to navigate to **Account Access summary**

User Account Access – Search and Search Result

The screenshot shows the 'User Account Access' page in the Futura Bank system. At the top, there is a search bar and a 'Summary' button. Below the search bar is a 'User List' table with the following columns: User ID, User Name, Copy Mapping from User, and Status. The table contains 10 rows of user data. The first row is selected, and a 'Map' button is visible below the table. At the bottom of the page, there are 'Next', 'Submit', 'Retain Draft', and 'Cancel' buttons.

Buttons at the bottom: Map, Back, Next, Submit, Retain Draft, Cancel.

Field Description

Field Name	Description
User ID	User ID the corporate user
User Name	User name of the corporate user
Mapping Summary of Party	The corporate party for which Party accounts access is being viewed
Modules	Banking module names.

Field Name	Description
Total Accounts	Total number of accounts available under the party that can be map with corporate user.
Mapped Accounts	Number of accounts mapped to the particular account type of corporate user.
Modified Accounts	Number of accounts modified for the particular account type of corporate user.
Auto Mapped Accounts	<p>Mapping status of the accounts.</p> <p>The options can be:</p> <ul style="list-style-type: none"> • Auto: gives default access to all newly added accounts and transactions of the party as soon as the account is opened in future. • Manual: gives specific access to future accounts. The new accounts and transactions need to be mapped explicitly if access needs to be provided

Mapping Summary of Modified Transaction Group

Modules	Banking module names.
Modified Groups	Number of transaction groups modified for the particular module.
Edit or Map	Click on the icon next to every module or click on Map button to edit User account access

5. If there is no mapping done for a user, the count for the **Mapped Accounts** will be '0'.
6. All the accounts held by the selected party as a relationship with the bank as available in the core banking system or the respective mid-office system will be fetched and displayed in the respective categories i.e. Current and Savings Accounts for both Conventional and Islamic, Credit Card, Term Deposit, Loan accounts along with Liquidity Management enabled Real Accounts (including External Accounts if any) and VAM enabled Real and virtual accounts for a Corporate.
7. User Account Access will inherit the account access setup at the party level for all the parties associated to him (party association will be done at the time of user onboarding in user management screen). The screen will show the inherited Maintenance in User Account Access screen. In the **Auto Mapped Accounts** field, toggled **ON** to allow access to all future Accounts across banking module.
OR
In the **Auto Mapped Accounts** field, toggled **OFF** to explicitly map new accounts and transactions manually.
8. Click on the **Modified Groups** count link to view the details of transaction groups details.
8. Click **Map** or **Edit** (available across each banking module). The **User Account Access - Create** screen appears.

- OR
- Click **Cancel** to cancel the transaction.
- OR
- Click **Back** to navigate to the previous screen.

User Account Access – Manage Transaction Group Tab

The screenshot displays the 'User Account Access' page within the 'Group Corporate Onboarding' section. The page header includes 'futura bank' and 'Welcome, Administrator User'. The main content area is titled 'User Account Access' and shows the following details:

User ID	User Name
ajcorpadminchecker	AjCorp AdminMaker

Below this, the 'Manage Transaction Group' tab is active, showing a search bar and a list of transaction groups:

Module	Map Accounts
Current & Savings - Conventional	
CASA_NEW	Modified
CASA_All Transactions	Modified

At the bottom of the page, there are navigation buttons: 'Review', 'Back', 'Next', 'Submit', 'Retain Draft', and 'Cancel'. The footer contains the copyright notice: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. [SecurityInformation] Terms and Conditions'.

User Account Access – Map Accounts Tab

The screenshot displays the 'User Account Access' configuration page for user ADMINMAKER2531. The 'Map Accounts' tab is active, showing a list of accounts selected for mapping to the 'CASA_NEW' transaction group. The interface includes a sidebar with navigation icons, a top navigation bar with user information, and a main content area with various configuration options like 'Apply party Level Changes' and 'Account Selection'.

Field Description:

Field Name	Description
User ID	User ID the corporate user for whom account access in being setup

User Account Access – Manage Transaction Group

The screenshot shows the 'Manage Transaction Group' tab in the 'User Account Access' section. The user ID is 'ajcorpadminchecker' and the user name is 'AJCorp AdminMaker'. The 'Module' is set to 'Current & Savings - Conventional'. There is a search bar with the text 'Search...'. Below the search bar, two transaction groups are listed: 'CASA_NEW' and 'CASA_All Transactions', both with a 'Mapped' status. At the bottom, there are buttons for 'Review', 'Back', 'Next', 'Submit', 'Retain Draft', and 'Cancel'.

User Account Access – Map Accounts Tab

The screenshot shows the 'Map Accounts' tab in the 'User Account Access' section. The user ID is 'ADMINMAKER2531' and the user name is 'SWATI MAKER'. The 'Party' is '002531 | Columbia Pictures Incorporated...'. The 'Module' is 'Current & Savings - Islamic'. The 'Action' is 'Map Transaction Group'. The 'Transaction Groups' field contains 'CASA_NEW'. The 'Account Selection' is 'Selected Accounts'. Two accounts are selected: 'All SPORTS HEL0253100054 GBP Active Mapped' and 'All SPORTS HEL0253100043 EUR Active Mapped', both with a 'Transaction Group' of 'CASA_NEW'. At the bottom, there are buttons for 'Save', 'Review', 'Back', 'Next', 'Submit', 'Retain Draft', and 'Cancel'.

9. The User Account Access screen has four section. Header of the screen shows the User ID and User Name. First column lists down all the **modules** in tabular form, second column list down the **transaction groups** and third column list down banking module wise **account number**
10. Navigate and select specific **module** tab (Including viz. Current and Savings Accounts for both Conventional and Islamic, Credit Card, Term Deposit, Loan accounts along with Liquidity Management enabled Real Accounts (including External Accounts if any) and VAM enabled Real and virtual accounts for a Corporate.) in the first column for which account and transaction access mapping maintenance need to be setup.
11. In the second column, There will be one factory shipped **Transaction group** for each module, which will have all transactions and inquiries grouped together.

Note: Factory shipped user group cannot be deleted or modified.

12. Once the transaction groups are created, user can select specific module , along with the transaction groups and can select 'All Accounts' to map the selected transaction group/s to all the existing accounts under the selected party
OR
If transaction groups need to be mapped to specific accounts, then the user needs to select the respective check boxes preceding the account number.
13. Once the user maps the accounts, system will show a tag as '**Modified**' followed by the transaction group name after the account number.
14. To map the new accounts, select appropriate option from **Auto Map** toggle button;
Select **Auto** if you wish to allow access to all future Accounts across banking module.
OR
Select **Manual** if you wish to explicitly map new accounts and transactions.
15. User can **unmap** the transaction groups by selecting accounts and then clicking on Save button to reset their mapping with Group Corporate
16. User can click on **Delete Party Mapping** to delete all the Transaction and account access maintenance done for corporate user in one step.
17. User can drill down his search by applying Filter to search an account basis on Transaction Group, currency, mapping status
18. Click **Save** to save the maintenance, and redirect to the review page.
OR
Click **Next** to proceed to the next logical step.
OR
Click **Submit** to submit the steps performed so far for approval.
OR
Click **Retain Draft** to save the details entered as draft.
OR
Click **Cancel** to cancel the transaction.

Note: Admin can submit the maintenance after any step. Maintenances saved so far will be sent for approval in one flow. Admin would not be able to make any changes or maintain another step for the same Group Corporate till the time the approval of the wizard is not done.

19. The **Review** screen appears. Verify the details, and click **Submit**.
OR
Click **Edit** to modify the details entered.
OR
Click **Next** to proceed to next step.
OR

Click **Retain Draft** to save all the steps completed so far, and allow Admin resume the same application.

OR

Click **Cancel** to cancel the transaction.

20. The success message of user creation appears along with the transaction reference number

Note: Following flow explains the Drill down options to search by applying Filter to search an account for Virtual Accounts Management & Liquidity Management module.

Virtual Account Management (Real Account) Tab-

The screenshot displays the Futura Bank interface for Virtual Account Management (Real Account). A filter dialog box is open on the right side, allowing users to search for accounts based on several criteria:

- Account Number:** A text input field with the placeholder "Enter Exact Account Number".
- Branch Name:** A dropdown menu with the placeholder "Please Select".
- Account Access Status:** A dropdown menu with the placeholder "Please Select".
- Account Currency:** A dropdown menu with the placeholder "Please Select".

The dialog box includes an "or" operator between the Account Number and Branch Name fields, and "Apply" and "Reset" buttons at the bottom.

To view Virtual Account Management - Real Accounts:

- In the **Account Number** field, enter the exact Real Account number.
OR
From the **Branch name** drop down, select the Branch name.
OR
From the **Account Access Status** field, select an appropriate status.
OR
From the **Currency** field, select the required currency.
- Click **Apply** to Apply the filter.
OR
Click **Reset** to reset the entered data.
- The user can filter through two sections :
 - On the basis of the Account Number
OR
 - A combination of branch name, currency filters and other parameters. The user can use these search parameters alone or in a combination to filter search results.

Liquidity Management Tab -

The screenshot displays the Oracle Group Corporate Onboarding interface. The main content area is titled "Group Corporate Onboarding" and shows a "User Account Access" section with the following details:

User ID	User Name
LMIN01	Michael Lamb

Below this is a "Mapping Summary of Party" section with a dropdown menu showing "***857 | Linked Cust | UBS OBPM 14.4 H...".

The main content area is divided into two columns: "Select Module" and "Select Transaction Groups". The "Select Module" column lists various modules, with "Liquidity Management" highlighted. The "Select Transaction Groups" column has a search bar and a dropdown menu showing "LM_All Transactions".

A "Filter" dialog box is open on the right side of the screen. It contains the following fields:

- Account Number: Enter Exact Account Number
- Branch Name: Please Select
- Account Access Status: Please Select
- Currency: Please Select

The dialog box also features an "OR" operator between the Account Number and Branch Name fields, and "Apply" and "Reset" buttons at the bottom.

To view Liquidity Management Accounts:

1. In the **Account Number** field, enter the exact Real Account number.
OR
From the **Branch name** drop down, select the Branch name.
OR
From the **Account Access Status** field, select an appropriate status.
OR
From the **Currency** field, select the required currency.
2. Click **Apply** to Apply the filter.
OR
Click **Reset** to reset the entered data.
3. The user can filter through two sections :
 1. On the basis of the Account Number
OR

2. A combination of branch name, currency filters and other parameters. The user can use these search parameters alone or in a combination to filter search results.

Virtual Accounts Tab: -

The screenshot displays the Futura Bank Group Corporate Onboarding interface. The main window shows the 'Virtual Accounts' tab selected in the left-hand navigation menu. The main content area is divided into several sections: 'User Account Access' (User ID: nehvam30, User Name: nehal joshi), 'Mapping Summary of Party' (***023 | Rudolf Creations | UBS OBPM 1...), 'Select Module' (listing various account types like Current & Savings, Loan, Term Deposit, Credit Card, and Virtual Account Management), 'Select Transaction Groups' (with 'VRA_All Transactions' selected), and 'Map Accounts' (a list of accounts with checkboxes and details like '0000054684 GBP Active'). A 'Filter' modal is open on the right, allowing users to search for Virtual Accounts by number, name, entity, branch, access status, and currency. The modal includes 'Apply' and 'Reset' buttons. At the bottom of the main window, there are 'Save' and 'Back' buttons, and a footer with copyright information.

To view Virtual Accounts:

1. In the **Virtual Account Number** field, enter the exact Virtual Account number.
OR
In the **Virtual Account Name** field, enter the Virtual account name.
OR
From the **Virtual Entity** search, select the Virtual Entity name.
OR
From the **Branch name** drop down, select the Branch name.
OR
From the **Account Access Status** field, select an appropriate status.
OR
From the **Status** drop down, select the status.

- OR
From the **Currency** field, select the required currency.
2. Click **Apply** to apply the filter.
OR
Click **Reset** to reset the entered data.
 3. The user can filter through two sections :
 1. On the basis of the Account Number
OR
 2. A combination of branch name, currency filters and other parameters. The user can use these search parameters alone or in a combination to filter search results.

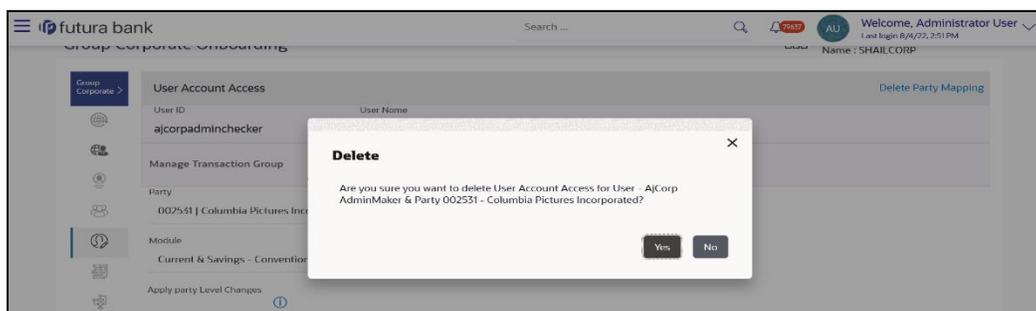

5.6.4 User Account Access – Delete

The Bank Administrator gets a request with the user information of a party for which access details needs to be deleted. As part of this option, account mapping can be deleted for a user.

To delete account and transaction access for the User:

1. In the **User Search** field search users for whom Transaction Account access is to modify.
OR
Select the user from list displayed below.
2. Select the user ID and click on “Map” to navigate to **Account Access summary**.
3. From the **Mapping Summary of Party** dropdown list, select the corporate party id.
4. For a searched user, summary screen will be displayed with total accounts associated with corporate party of that user, status of the accounts mapped for the internet banking for user, modified accounts if any and Auto account mapping status .
5. Click the link under the total **Mapped accounts** or **Modified accounts**, The **User Account Access – View** (Transaction Mapping) screen appears. . The search result according to the search criteria appears.
OR
Click **Cancel** to cancel the transaction.
6. User can click on **Delete Party Mapping** to delete all the Transaction and account access maintenance done for corporate user in one step.

User Account Access – Delete party Mapping

- a. Click **Yes** to delete the party mapping.
OR
Click **No** to cancel the process.
7. Click **Save** to save the maintenance, and redirect to the review page.
OR
Click **Next** to proceed to the next logical step.
OR
Click **Submit** to submit the steps performed so far for approval.
OR
Click **Retain Draft** to save the details entered as draft.
OR
Click **Cancel** to cancel the transaction.

Note: Admin can submit the maintenance after any step. Maintenances saved so far will be sent for approval in one flow. Admin would not be able to make any changes or maintain another step for the same Group Corporate till the time the approval of the wizard is not done.

8. **The Review** screen appears. Verify the details, and click **Submit**.
OR
Click **Edit** to modify the details entered.
OR
Click **Next** to proceed to next step.
OR
Click **Retain Draft** to save all the steps completed so far, and allow Admin resume the same application.
OR
Click **Cancel** to cancel the transaction.
9. The success message of user creation appears along with the transaction reference number

5.7 Step 6: User Report Mapping

The user report mapping maintenance will allow the corporate administrators to map/un-map the report or set of reports to a specific corporate user or at the Group Corporate level. The corporate users can generate and view the reports to which they have an access.

The corporate administrator will not be permitted to map/un-map the reports to self or to another corporate administrator. However, bank administrator will be able to map the administrative reports to the corporate administrator.

How to reach here:

Corporate Administrator Dashboard > Toggle menu > Menu > Corporate Onboarding > Group Corporate Onboarding > Report Mapping tab

5.7.1 User Report Mapping – Search & View

Using this option Corporate Administrator can search and view the reports mapped to the user.

To search and view the reports mapping:

1. In the **Map Report to** field, select the appropriate option whose mapped reports to be viewed.

- a. If you select **Group Corporate** option;
 - i. System displays the report mapping summary at group corporate level.
- b. If you select **User** option;
 - i. Enter the search criteria, click **Search**. The **User Report Mapping** screen with search results appears.
OR
Click **Clear** to clear the search parameters.
OR
Click **Cancel** to cancel the transaction.

User Report Mapping – Mapping Summary (User Level)

The screenshot shows the 'User Report Mapping' interface. At the top, there's a navigation bar with 'futura bank' logo, a search bar, and user information: 'Welcome, Administrator User', 'Last login: 9/2/22, 12:59 PM', and 'Group Corporate ID: GCIF000451 Name: AlibabaGCIF'. The main section is titled 'User Report Mapping' and includes a 'Submission Status' dropdown and a 'Group Corporate ID' dropdown. A sidebar on the left has a 'Group Corporate' menu. The 'Report Mapping' section has a 'Map Report to' dropdown with 'Group Corporate' and 'User' options, where 'User' is selected. Below this are input fields for 'User ID', 'First Name', 'Last Name', 'Email', 'Mobile Number', and 'Party ID'. A search bar with 'Search Party Name' is located below the input fields. There are 'Less Search Options' and 'Search', 'Cancel', 'Clear' buttons. A table shows search results:

SA	sunauto	sunny augusty	✓
SA	Sunchecker	Sun Approver	⚙️
KP	SunCheckerUser	Khushbu Patidar	✓
SM	Sunmaker	Sun maker	✓
KP	SunMakerUser	khushbu Patidar	⚙️

At the bottom, there's a pagination bar: 'Page 1 of 1 (1-5 of 5 items)' and navigation arrows. Below that are 'Next', 'Submit', 'Retain Draft', and 'Cancel' buttons. A footer contains the copyright notice: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. [SecurityInformation]Terms and Conditions'.

<input type="checkbox"/>	C9 User Entitlement Report	PDF,CSV

Note
The report mapping feature enables you to map reports first at the Group Corporate level and then at the User level. You can map one or all the available reports at Group Corporate level. If 'map to all users' option is enabled, then the reports mapped at Group Corporate level will be automatically mapped to all the users in the Group Corporate. If disabled, you can select the users and map the reports manually.
If there is an exclusive mapping available at User level, then it will continue to hold good provided all the reports mapped to the user are enabled at the Group Corporate level.

Do you wish to map Group Corporate Reports with all users? On

Buttons: Save, Next, Submit, Retain Draft, Cancel

Field Description

Field Name	Description
User Name	Name of the corporate user.
User ID	User ID of the corporate user.
Mapping Summary	
Report ID	Unique id assigned to a report.
Description	Description of the report.
Formats	The format in which the report is to be generated. The format could be PDF, XLSX.

3. In the **Mapping Summary** section, select the report id of the report which you want to map to the user.
4. Click **Save** to save the maintenance, and redirect to the review page.
OR
Click **Back** to navigate back to previous screen.
OR
Click **Next** to proceed to the next logical step.
OR
Click **Submit** to submit the steps performed so far for approval.
OR
Click **Retain Draft** to save the details entered as draft.
OR
Click **Cancel** to cancel the transaction.
5. The **Review** screen appears. Verify the details, and click **Confirm**.
6. OR
Click **Add Another** to add another maintenance of the same step.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to previous screen.
7. The success message appears along with the transaction reference number and status of the transaction.

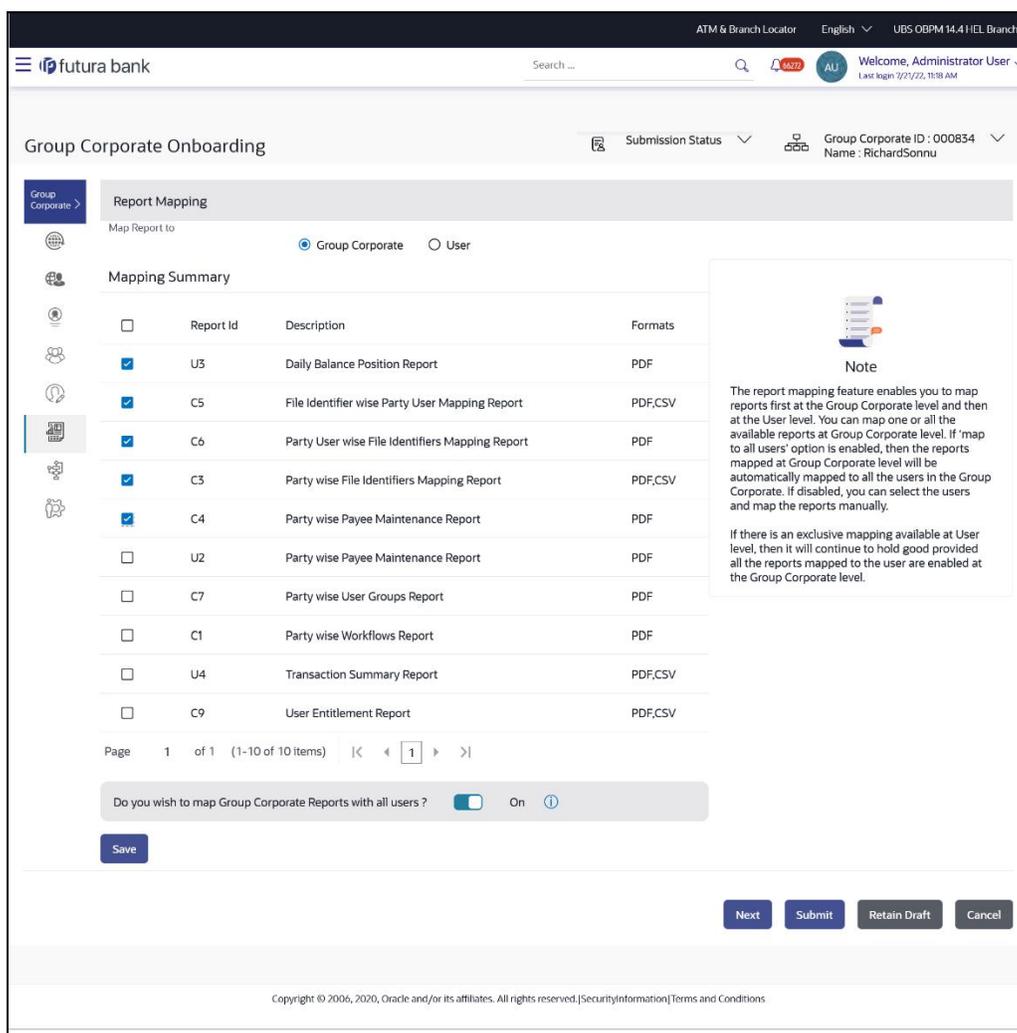

5.7.3 User Report Mapping - Edit

Using this option Bank Administrator can edit the mapping or un-map the reports from specific corporate user.

To edit a User Report Mapping:

1. Enter the search criteria, click **Search**. The **User Report Mapping** screen with search results appears.
 OR
 Click **Clear** to clear the search parameters.
 OR
 Click **Cancel** to cancel the transaction.
2. Click  against the file identifier record for which you want to view the details. The **User Report Mapping - View** screen appears.
3. Click **Edit**. The **User Report Mapping - Edit** screen appears.

User Report Mapping - Edit

4. View the details of report mapping already saved. Select or de-select the report id record to map / un-map a report to a user.
5. Click **Save** to save the modified details.
OR
Click **Back** to navigate to previous screen.
OR
Click **Next** to proceed to the next logical step.
OR
Click **Submit** to submit the steps performed so far for approval.
OR
Click **Retain Draft** to save the details entered as draft.
OR
Click **Cancel** to cancel the transaction.
6. The **Review** screen appears. Verify the details, and click **Confirm**.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to previous screen.
7. The success message appears along with the transaction reference number and status of the transaction.

5.8 **Step 7: Workflow Management**

Approval and release workflows are created to support requirements where multiple levels of approval are required in a specific sequence for a transaction/maintenance or release needs to be configured for specific transactions. Each workflow can be configured to have up to N number levels of approval with a specific user or a user group configured at each level. The number of levels can be configured.

Workflows can be created independently and can be attached to a specific transaction/maintenance as part of the Rule configuration. The corporate administrator will be able to create the approval and release workflows.

Since Workflows are maintained at the Group Corporate level, the corporate administrator will be able to add the users/user groups belonging to all parties available under the Group Corporate

Prerequisites

- Transaction access is provided to Bank Administrator.
- Party preference is maintained.
- Multiple users are maintained under a party or as Bank Administrators
- Approval rule set up for Bank Administrator to perform the actions.
- Necessary user groups are maintained using User Group Management.

How to reach here:

Corporate Administrator Dashboard > Toggle menu > Menu > Corporate Onboarding > Group Corporate Onboarding > Workflow Management tab

5.8.1 **Workflow Management – Summary**

User can opt to view the details of existing workflows or can create new approval workflow using this screen based on the choose workflow type

Workflow Management – Summary

The screenshot displays the 'Workflow Management' section of the Futura Bank Group Corporate Onboarding system. At the top, there's a navigation bar with 'futura bank' logo, search bar, and user information. The main content area includes a search form with fields for 'Workflow Code', 'Workflow Description', and 'Workflow Type' (radio buttons for 'Approval' and 'Release'). Below the form is a table listing workflow entries:

Workflow Code	Workflow Description	Count	Status	Type
DEFAUTHWF1	DEFAUTHWF1	3	Modified	APPROVAL
RunitFlow285710	Updated	2		APPROVAL
RunitFlow222551	testingRunits	1		APPROVAL
WorkflowTest79990	testingRunits	1		APPROVAL
RUnitsFlowTest	RUnitsFlowTest	1		APPROVAL
RunitFlow271795	testingRunits	1		APPROVAL
WorkflowTest31932	testingRunits	1		APPROVAL
WorkflowTest73559	testingRunits	1		APPROVAL
RunitFlow247990	testingRunits	1		APPROVAL
RunitFlow2345888	testingRunits	1		APPROVAL

At the bottom of the table, there is a pagination control showing 'Page 1 of 9 (1-10 of 86 items)' and a 'Next' button. A 'Submit' button is also visible at the bottom right of the main content area.

Field Description

Field Name	Description
Workflow Code	Enter the approval workflow code to be searched.
Workflow Description	Enter the description of the approval workflow to be searched.
Workflow Type	Specify the workflow type to be searched. The options are: <ul style="list-style-type: none"> • Approval • Release

Search Result

Field Name	Description
Workflow Code	Code of the already maintained approval workflow. This field will be displayed only if there are existing approval workflows available.
Workflow Description	Description of the already maintained approval workflow. This field will be displayed only if there are existing approval workflows available.
Approval Levels	Number of approval levels in each workflow. This field will be displayed only if there are existing approval workflows available.
Workflow Type	Displays the type of workflow whether it is for Approval or Release.

1. In the **Workflow Code** field, enter the approval workflow code to be searched.
2. In the **Workflow Description** field, enter the description of the approval workflow to be searched.
3. In the **Workflow Type** field, select the type of workflow to be searched.
4. Click **Search**. The **Workflow Management** screen with search results appears based on the searched criteria.
5. Click the **Workflow Code** link to view details of the selected Approval Workflow. The **Workflow Management - View** screen appears.
OR
Click **Create**. The **Workflow Management - Create** screen appears.
OR
Click **Cancel** to cancel the operation and navigate back to 'Dashboard'.
OR
Click **Back** to go back to previous screen.

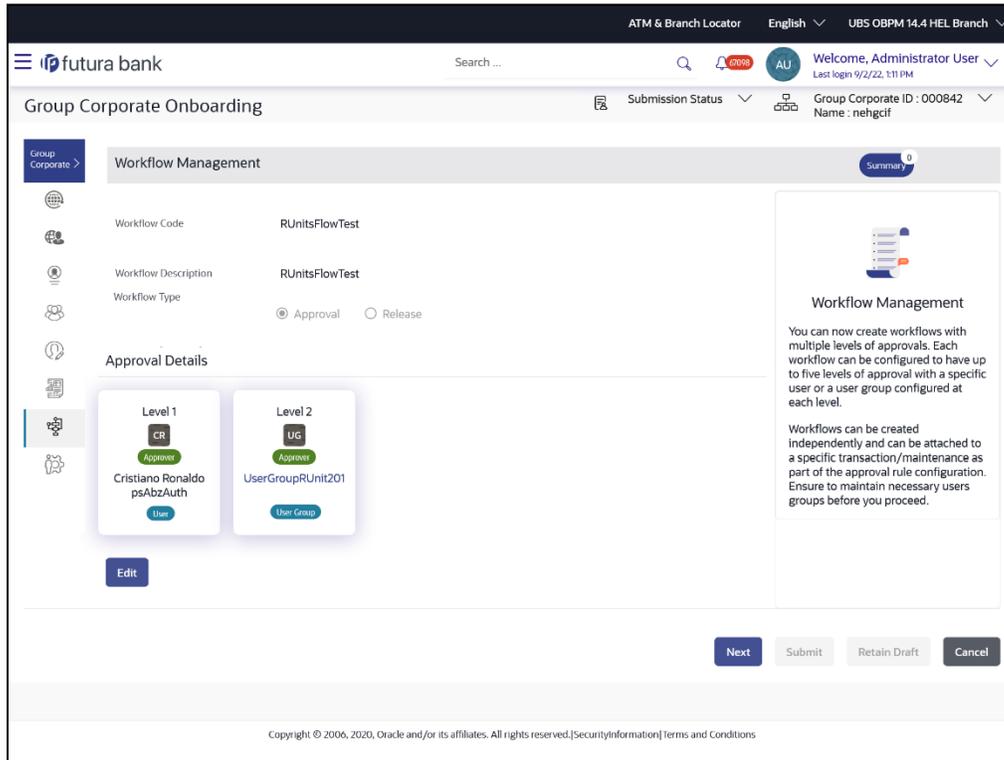

5.8.2 Workflow Management –View

Further drill down is provided on each workflow to view the details of the users/ user groups who are a part of the workflow

To view the approval workflow for corporate users:

1. In the **Workflow Management** screen, enter the search parameters and click **Search**. The **Workflow Management** screen with search results appears based on the searched criteria.
2. Click the **Workflow Code** link to view details of the selected Approval Workflow. The **Workflow Management - View** screen appears.

Workflow Management – View

Field Description

Field Name	Description
------------	-------------

View

Workflow Code Workflow code is displayed.

Workflow Description Workflow description is displayed.

Workflow Type The type of workflow i.e. whether it is for approval or release.

Approval Details

Approval Level User / user group maintained at each approval level.

Field Name	Description
User / User Group	<p>User or a user group maintained at each level of approval.</p> <p>On Approval -Workflow screen, Admin User can click on the Name of the user group that is part of the workflow to see the list of users which are part of that Group.</p> <p>User can search specific user name, by using the search window on Group Details overlay.</p>

Release Details

User / User Group	Displays the user or a user group maintained to release the transaction.
--------------------------	--------------------------------------------------------------------------

3. Click **Edit** to edit the workflow. The **Workflow Management - Edit** screen with values in editable form appears.
 - OR
 - Click **Cancel** to cancel the transaction.
 - OR
 - Click **Back** to navigate back to previous screen.
 - OR
 - Click **Next** to proceed to the next logical step.
 - OR
 - Click **Submit** to submit the steps performed so far for approval.
 - OR
 - Click **Retain Draft** to save the details entered as draft.
 - OR
 - Click **Cancel** to cancel the transaction.

5.8.3 Workflow Management – Create

Corporate Administrator can create approval workflows for corporate users. By default, user can specify minimum one and maximum five levels of approvals as a part of workflow.

Corporate admin can also create workflow for release if the Release Facility is enabled at Group Corporate Level. Admin can specify user or user group who will release the transaction. All the users and user groups created under the Corporate Group will be made available for mapping.

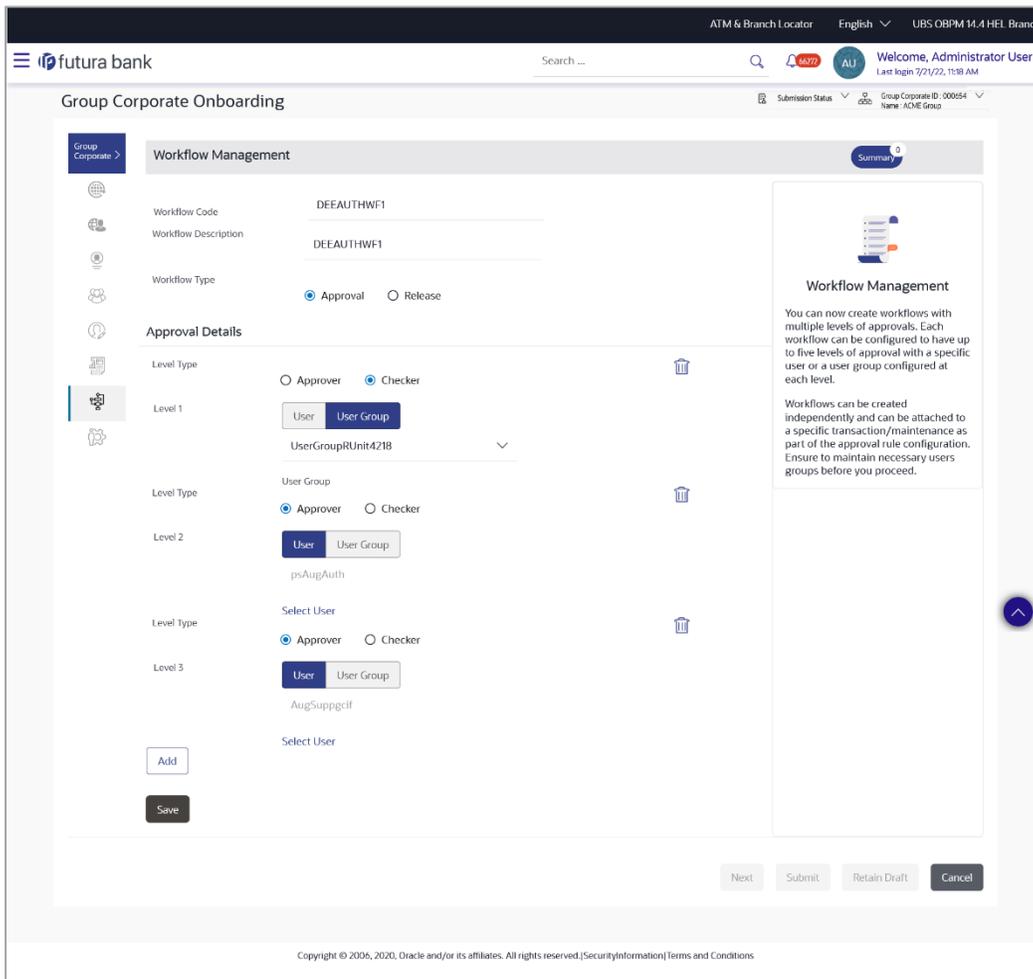

If level type is Approver, the user can provide multiple levels within the workflow. Each level can be specified as an Approver or Checker and for each level (approver or checker), the type can be selected as User or User Group.

Note:

- 1) Release functionality can be configured only for corporate user’s transactions.
- 2) Only one level of releaser can be configured in the workflow.
- 3) The same user can act on the same transaction only once in a particular role (checker or approver). For example, the same user can check the same transaction only once as a checker.
- 4) The bank needs to operationally ensure that approver levels are also added. If only checkers are added and no approver is added, then the transaction will be processed without an approver.

Administrator can set either an individual user or user group of a corporate as part of each approval level. Approval type (sequential/non-sequential/no authorization) is defined at the party preference.

Workflow Management – Create

Field Description

Field Name	Description
Create	
Workflow Code	To specify approval workflow code.

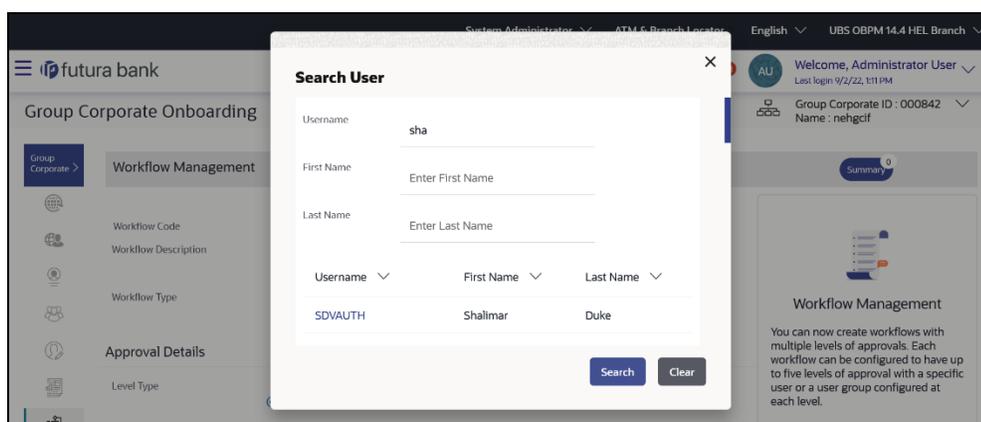

Field Name	Description
Workflow Description	To specify approval workflow description.
Workflow Type	Specify whether the workflow which the administrator is creating are for approval or for release functionality. The options are: <ul style="list-style-type: none"> • Approval • Release
Approval Details	
Below fields appears if you select Approval option in the Workflow Type field.	
Level Type	Specify the level type for the workflow. The options are: <ul style="list-style-type: none"> • Approver • Checker
Level	Approval levels for a user / user group. User can click Add for multi-level approval process.
User / User Group	To select specific user or a user group at each level of approval. <hr/> Note: All the users and user groups created under the Group Corporate will be made available for mapping. <hr/>
Release Details	
Below fields appears if you select Release option in the Workflow Type field.	
User / User Group	To select specific user or a user group to release the transaction. <hr/> Note: 1) All the users and user groups created under the Group Corporate will be available for mapping. 2) Only one level of releaser can be configured in the workflow. <hr/>

To create an approval workflow:

 - b. Click  icon to add appropriate user / user group.
The **User Search** popup appears. All the users and User groups created under the Group Corporate will be available for assigning at various approval levels.
5. Click **Save** to save Approval Workflow.
OR
Click **Back** to navigate back to previous screen.
OR
Click **Next** to proceed to the next logical step.
OR
Click **Submit** to submit the steps performed so far for approval.
OR
Click **Retain Draft** to save the details entered as draft.
OR
Click **Cancel** to cancel the transaction.
6. The **Review** screen appears. Verify the details, and click **Confirm**.
OR
7. Click on **Add Another** to new Workflow.
OR
Click **Edit** to modify the details entered.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to previous screen.
8. The success message of saving the created approval workflow appears along with the transaction reference number and status.

5.8.4 Workflow Management - Edit

This function enables the Corporate Administrator to update the description of the workflow and also to remove existing and add new approval levels. Edited workflows are applicable for new transactions initiated post workflow update, whereas the previously initiated and pending approval transactions pending will follow the old workflow.

To edit an approval workflow:

1. In the **Workflow Management** screen, enter the search parameters and click **Search**. The **Workflow Management** screen with search results appears based on the searched criteria.
2. Click the **Workflow Code** link to view details of the selected Approval Workflow. The **Workflow Management - View** screen appears.

3. Click **Edit** to edit the workflow. The **Workflow Management - Edit** screen with values in editable form appears.
 OR
 Click **Cancel** to cancel the operation and navigate back to 'Dashboard'.
 OR
 Click **Back** to go back to the previous screen.

Workflow Management - Edit

The screenshot displays the 'Workflow Management - Edit' interface. Key elements include:

- Header:** 'futura bank' logo, search bar, and user information: 'Welcome, Administrator User', 'Last login 9/2/22, 1:11 PM', 'Group Corporate ID : 000842', and 'Name : nehgcif'.

- Edit the required details.
- Click **Add** to add the selected user/ user group at specific level of approval.
OR
Click  icon to remove specific approval level.
- Click **Save** to save Approval Workflow.
OR
Click **Back** to navigate back to previous screen.
OR
Click **Next** to proceed to the next logical step.
OR
Click **Submit** to submit the steps performed so far for approval.
OR

Click **Retain Draft** to save the details entered as draft.

OR

Click **Cancel** to cancel the transaction.

The **Workflow Management - Edit- Review** screen appears. Verify the details, and click Confirm.

OR

Click on **Add Another** to add new Workflow.

OR

Click **Cancel** to cancel the transaction.

OR

Click **Back** to navigate back to previous screen.

7. The success message of saving the approval workflow modification appears along with the transaction reference number and status.

Click **OK** to complete the transaction and navigate back to 'Dashboard'.

5.9 **Step 8: Approval Rules**

This function will enable the corporate administrator to set up conditions for approval as well as for Releaser as per the corporate requirements. A rule can be set up for financial, non-financial, non-account financial transactions and for maintenance.

Corporate administrators will not be permitted to maintain administrative approval rules for the same group corporate.

Prerequisites:

- Transaction access is provided to Bank Administrator
- Party preference is maintained for setting up rules for corporates
- Corporate and Administrator users are maintained
- Workflow configuration is maintained if approval required is to be set as 'Yes'
- Approval rule set up for Bank Administrator to perform the actions
- Necessary user groups and approval workflows are maintained

Features supported in application

The Approval Rule maintenances allow the bank administrator to:

- Create Approval Rules
- View Approval Rules
- Edit Approval Rules
- Delete Approval Rules

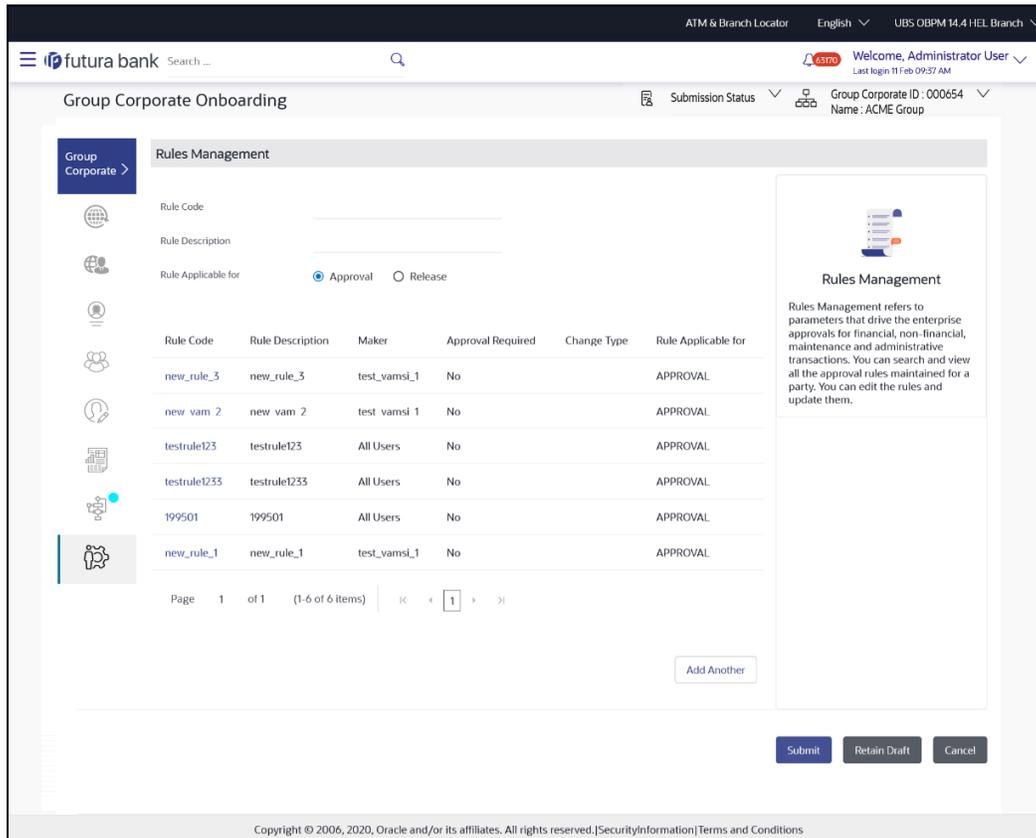

How to reach here:

Corporate Administrator Dashboard > Toggle menu > Menu > Corporate Onboarding > Group Corporate Onboarding > Approval Rules tab

5.9.1 Approval Rules – Summary

Corporate Administrator logs into the system and navigates to the Rules Management screen. User can opt to view the details of existing Approval Rules or can create new approval rule using this screen.

Rules Management – Summary

Field Description

Field Name	Description
Rule Code	Search with Approval rule code.
Rule Description	Search with Approval rule description.
Rule Applicable For	Search whether rule is applicable for Release or Approval.
Search Result	
Rule Code	The Approval rule code.
Rule Description	The Approval rule description.

Field Name	Description
Maker	Initiator type (User ID or User Group Code) of the transaction. This field will be displayed only if existing approval rules are available.
Approval Required	Whether approval is required for each rule maintained.
Change Type	Displays the status of the record i.e. if it is created or modified.
Rule Applicable for	Displays the whether the approval rule is applicable for Release or Approval.

1. In the **Rule Code** field, enter the approval Rule code to be searched.
2. In the **Rule Description** field, enter the description of the approval Rule to be searched.
3. In the **Rule Applicable For** field, specify whether the approval rule is applicable for Release or Approval.
4. Click **Search**. The **Rule Management** screen with search results appears based on the searched criteria.
5. Click the **Rule code** link, to view details of the selected Approval Rule. The **Approval Rules - View** screen appears.
OR
Click on **Add Another** to Add the **Approval Rules**.
OR
Click **Cancel** to cancel the operation and navigate back to 'Dashboard'.
OR
Click **Back** to go back to previous screen.
OR
Click **Create** to create new Approval Rule for corporate users.

5.9.2 Approval Rules - View

On accessing 'Rules Management' menu option, and searching rules, summarized view of all the approval rules maintained (if any) for the party are displayed on the screen. Further drill down is given on each rule to view the details of approval rule.

To view the approval rules for corporate users:

1. In the **Approval Rules** screen, enter the search parameters and click **Search**. The **Approval Rules** screen with search results appears based on the searched criteria.
2. Click the **Rule Code** link, for which you want to view the details. The **Approval Rules - View** screen appears.

Approval Rules View

The screenshot shows the 'Rules Management' page in the futura bank system. The page is titled 'Group Corporate Onboarding' and includes a search bar, a 'Submission Status' dropdown, and a 'Group Corporate ID' dropdown set to '000842' with the name 'nehgcf'. The main content area is divided into several sections: 'Rule Type' (Financial), 'Rule Code' (SDVMAKERFina), 'Rule Description' (SDVMAKERFina), 'Rule Applicable For' (Approval/Release), 'Initiator' (User Group: SDVMAKER), 'Party ID' (000462|ABZ Solutions), 'Transactions' (All Transactions), 'Accounts' (All Accounts), 'Currency' (GBP), 'Amount Range' (From: GBP 1.00, To: GBP 100.00), and 'Workflow Details' (Approval Required: Yes, Workflow: SDVCHECKERWFL1). A user card for 'Mac Olivier SDV-CHECKER' is visible. A 'Rules Management' sidebar on the right explains the function. At the bottom, there are 'Edit', 'Delete', 'Submit', 'Retain Draft', and 'Cancel' buttons.

1. Edit the required details.
 2. Click **Save** to save the approval rule.
OR
Click **Back** to navigate back to previous screen.
OR
Click **Next** to proceed to the next logical step.
OR
Click **Submit** to submit the steps performed so far for approval.
OR
Click **Retain Draft** to save the details entered as draft.
OR
Click **Cancel** to cancel the transaction.
- The **Approval Rule - Edit Review** screen appears. Verify the details, and click **Confirm**.
OR
Click on **Add Another** to add new Rule.
OR
Click **Cancel** to cancel the transaction.

OR

Click **Back** to navigate back to previous screen.

3. The success message of saving the approval rule modification appears along with the transaction reference number and status.
Click **OK** to complete the transaction and navigate back to 'Dashboard'.

5.9.4 **Approval Rule – Create**

Corporate Administrator can create approval rules for the corporate users. In Approval Rules, Bank Administrator can define the rule conditions for various type of transactions.

Approval rules can be setup based on the following parameters.

- Type of Transaction
 - Financial Transactions
 - This option is used to setup approval rules for the transactions, this involves exchange of money.
 - E.g. Money Transfer, Draft Issuance, Redeem Term Deposit etc.
 - Non Financial Transactions
 - This option is used to setup approval rules for the transaction which are for an account but does not involve exchange of money.
 - E.g. Cheque Book Request, Statement Request, Stop Cheque etc.
 - Maintenance
 - This option is used to setup approval rules for the transaction which are at the party level and not for a specific account
 - E.g. Payee Maintenance, Biller Maintenance etc.
 - Non Account Financial Transactions:
 - This option is used to setup approval rules for the transaction with amount range and no debit account
 - E.g. Initiate LC, Supply Chain Finance related transactions like create Invoice.
 - Initiator
 - Specific User
 - User Group
 - All Users
 - Party ID
 - This option allows to select one or multiple Party IDs
 - Accounts
 - All Accounts based on party selection
 - Select Specific Accounts based on party selection
 - Transactions
 - All Transactions
 - Select Specific Transactions
 - Currency

- Amount Range
- Service Requests
 - All Service Requests
 - Specific Service Request

Specific Category Administrator can create multiple approval rules for corporate users. In a scenario when a transaction is initiated and multiple rules are applicable as per set conditions, then the most applicable rule amongst all the resolved rules is applied for approval.

User can further define if for a condition, the transactions should be auto approved (which means there is no approval workflow and the transactions gets approved as soon as initiator submits the transactions) or should follow a set approval workflow and should get approved by the defined set of approvers. The same is achieved by attaching a workflow maintained for the corporate party.

Rule Applicable For	Specify the rule applicable for Release or Approval. The options are: <ul style="list-style-type: none"> • Approval • Release
Initiator	
Initiator Type	Initiator type who initiates the transaction. The options are: <ul style="list-style-type: none"> • User - For creating an approval rule for a single user. A lookup will be provided to search for a specific user • User Group - For creating an approval rule for a User Group • All Users - For creating an approval rule of all the users of the Group Corporate
User / User Group	Name of the user or user group as initiator. If initiator is selected as User, then all the users belonging to the party will be listed for selection. If initiator is selected as User Group, then all the user groups belonging to the party will be listed for selection. If Initiator is selected as 'All Users', then the rule being created is applicable for all users of Corporate Party.
Party ID	The one or multiple Party IDs to be mapped to the selected Group Corporate ID.

Field Name	Description
Transactions	<p>Select the transactions for which the rule is being set up.</p> <p>The options are:</p> <ul style="list-style-type: none"> • All Transactions – Allow to select all the transactions within module • Select Specific Transactions – Allow to select specific transactions within each module • All Service Request – rule will be applicable for all the service requests available in the form builder • Select Specific Category – all the service request categories available in the form builder will be listed for selection where one category can be selected • Select Specific Service Request - all the service requests available in the form builder will be listed for selection where one service requests can be checked <p>Type of transactions available depends on the selection of rule type.</p> <p>The option 'All Service Requests', 'Specific Service Request' or 'Specific Category' is enabled only if the Service Request option is selected in Rule Type field.</p>
Accounts	<p>Specify the accounts mapped based on the Party ID selection for which rule being viewed is set up.</p> <p>The options are:</p> <ul style="list-style-type: none"> • All Accounts - Allow to select all the accounts of the selected Party ID • Select Specific Accounts - Allow to select specific accounts within each party ID <p>Based on the Party ID selection, accounts associated to the party ID are available for selection.</p> <p>This field appears if you select Financial and Non Financial in the Rule Type field.</p>
Counts of Accounts Mapped	<p>Displays the number of accounts mapped to the Group Corporate.</p>

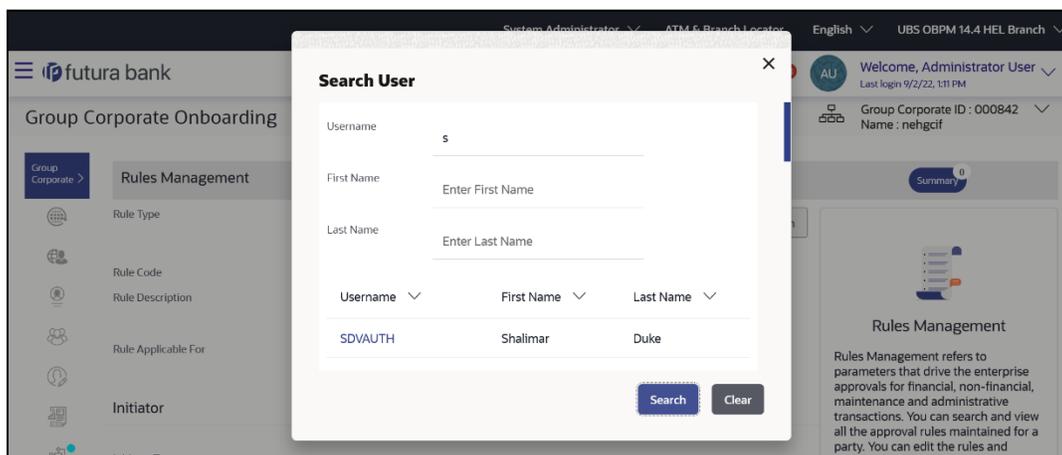

Field Name	Description
Currency	<p>Currency type in which the financial approval rule for a corporate is defined.</p> <p>This field appears if you select Financial and Non Account Financial in the Rule Type field.</p> <hr/> <p>Note:</p> <p>1) Entity's base currency (maintained in system configuration) will be defaulted in the currency field.</p> <p>2) User will be able to select the currency other than the default currency from the currency list.</p> <hr/>
Amount Range	
From Amount/ To Amount	<p>Transactions allowed for the user between the amount range.</p> <p>This field appears if you select Financial and Non Account Financial in the Rule Type field.</p>
Workflow Details	
Approval Required	<p>Option to decide whether approval is required or not for the set condition.</p> <p>The options are:</p> <ul style="list-style-type: none"> • Yes • No
Approval Type	<p>Define the Approval workflow type. Possible value will be</p> <ul style="list-style-type: none"> • Sequential • Parallel <p>This field is enabled if Yes option is selected in Approval Required field and when workflow preference is set at Rule Level in Group Corporate Profiling setup.</p>
Workflow	<p>All workflows maintained for the party are listed here along with the defined approval level for each of them. Select one workflow within which different levels are available for approver and checker.</p> <p>For release, the release workflow can be selected.</p> <p>This field appears if you select Yes in the Approval Required field.</p> <hr/>

To create an approval rule for corporate user:

1. In the **Rule Type** field, select the appropriate transaction rule type.
2. In the **Rule Code** field, enter the code.

3. In the **Rule Description** field, enter the rule name.
4. In the **Rule Applicable For** field, specify the rule applicable for Release or Approval.
5. From the **Initiator Type** field, click appropriate user / user group and select the user/ user group or Select 'All Users'.
6. Click  icon to add appropriate user / user group. The **Search User to Copy Mapping** popup appears.

Approval Rules – Search User

Field Description

Field Name	Description
Search	
User ID	To search the user with the user ID. Partial search is allowed.
First Name	Allows to search based on first name or given name of the user.
Last Name	Allows to search based on last name/ surname of the user.
Search Results	
User ID	User ID of the user.
Full Name	Full Name of the user.

- a. From the **User Name / User Groups** list, click & select the user ID.
OR
Click  icon to remove user/ user group.

Note: Click  icon to refresh the detail entered.

7. Click **Add** to add the selected user/ user group as a initiator.
OR
Click  icon to remove specific initiator.
8. From the **Party ID** list, click and select one or multiple Party IDs to be mapped to the selected Group Corporate ID.
9. From the **Transaction** list, select the transactions to be mapped to the rule.
 - a. If you have selected **Select Specific Transactions** option, select one or multiple transactions within modules to mapped to the selected Group Corporate ID.

Note: Click  icon to search and add specific transaction from the search lookup.

10. If you have selected **Financial** option in the **Rule Type** field;
 - a. From the **Accounts** list, select the appropriate accounts.
 - i. If you have selected **Select Specific Accounts** option;
 1. Click the Party ID whose accounts needs to be mapped, and then select one or multiple accounts to mapped to the selected Group Corporate. System displays the count of accounts selected.

Note: Click  icon to search and add specific account from the search lookup.

- b. From the **Currency** list, select the appropriate account currency.
11. If you have selected **Financial** and **Non Account Financial** option in the **Rule Type** field;
 - a. In the **Amount Range** section, enter the appropriate amount.
12. In the **Workflow Details** section, select whether approval is required for the mapped transactions.
 - a. If you select **Yes** option,
 - i. In the **Approval Type** field, select approval workflow type.
 - ii. From the **Workflow** list, select the appropriate Workflow.
13. Click **Save** to save approval rule.
OR
Click **Back** to navigate back to previous screen.
OR
Click **Submit** to submit the steps performed so far for approval.
OR
Click **Retain Draft** to save the details entered as draft.
OR
Click **Cancel** to cancel the transaction.
14. The **Review** screen appears. Verify the details, and click **Confirm**.
OR
Click on **Add Another** to Add The **Approval Rule**.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to previous screen.

- The success message of saving the created approval rule appears along with the transaction reference number and status.

Send to Modify

When the maker sends the Group Corporate Onboarding maintenance for approval, the approver will have an option to send the maintenance back for modification.

Approver dashboard is available for Bank administrator users whose main responsibility is of approving the transactions initiated by Bank administrator in maker role. Approver has the responsibility to ensure correctness of the maintenances as per the bank and corporate mandate, to ensure speedy and accurate processing.

When the transaction is sent back for modification, then all the users who have access to perform modifications on GCIF onboarding will be able to view the maintenance in their activity log. Any of the users can pick up the transaction and make the necessary modification.

Note: During **Send to Modify**, the comments capture by approver are optional. the bank needs to handle operationally to ensure that specific comments are captured during send for modification.

- Login to OBDX internet banking application as an approver.
- Navigate **Group Corporate Onboarding** screen.

Send to Modify

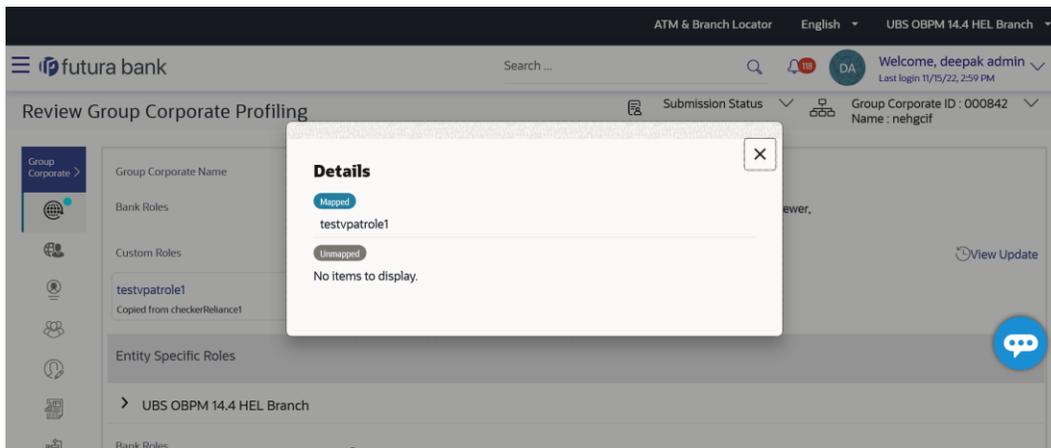

- Click **Send to Modify** to send the Group Corporate Onboarding maintenance back to maker for modification. A popup appears.
- Click **Send to Modify** option.
- Enter the comments while sending for modification to specify the reason for sending the maintenance for modification.
- Click **Save** to save the comments and send the maintenance to maker for modification.
OR
Click **Clear** to reset the data entered.
- Click **Send and Back** to send back to maker.
- Now login to OBDX internet banking application as a maker.

9. View the Group Corporate Onboarding maintenance in Activity Log, and make the necessary modifications and send back to approver.
10. On re-login as approver, then the modified data will be highlighted for the approver to understand the changes.

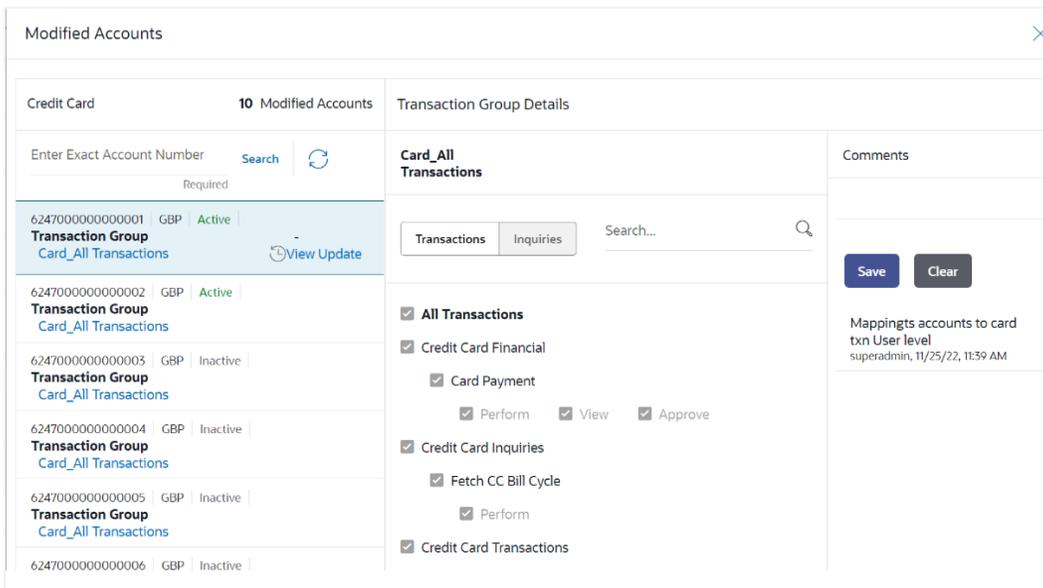

Note:

- 1) The modification will be shown post comparison with the last “approved” value only.
- 2) Click on the **View Updates** to view the new changes in case the field has multiple values.

View Updates

Modified data with highlight

11. Click on highlighted data to view the modifications.
12. Verify the changes and approve the transaction.

FAQ

Step 1: Group Corporate Profiling

1. Can administrator modify Bank role before assigning to Group Corporate?

No, if the Administrator assigns a Bank role to Group Corporate, all the entitlements available in the selected roles will be assigned at Group Corporate level. Any modification required in the bank roles can be done using Role transaction mapping screen. If in future bank assigns a new transaction access in the bank role (from Role transaction mapping screen), it will automatically be given to the all the Group Corporates having that roles mapped

2. Is mapping of custom role is mandatory?

No. Administrator can select and assign the roles available at enterprise level as is, or he can create a custom role as per his requirement for the Group corporate by cloning a role available at Group Corporate level.

Admin will be able to assign a mix of bank roles and custom roles to a Group Corporate.

3. Are the Customize bank roles will be applicable across the application?

No, The Customize bank role will be available only for the Group Corporate for which it was created. Any changes done in the bank roles, from which this custom role has been created, will not have any impact on the custom created roles

4. What is sequential and parallel type of approval flow?

Under Sequential approval flow, the approval can be done only in the sequence as mentioned in approval workflow. It is "Non-Sequential" type of approval flow, which does not follow any specific sequence. Any user (who is part of the approval flow) from any approval level can pick up the transaction/maintenance and approve it. This will be applicable across Group Corporate

5. What is the approval currency?

Approval Currency is the preferred currency for setting up the approval rules.

6. How can the user define Sequential or Parallel approval flow at the Corporate Level and Rule Level?

During Group Corporate Profiling setup, the user has an option to select the workflow preference at Corporate Level or Rule Level. If Corporate Level is specified, then the approval flow (Sequential/Parallel/No Approval) can be captured on the same screen. If Rule Level is selected, then the approval flow (Sequential/Parallel) must be specified during rule creation.

Step 2: Party Account Access

1. Is it necessary to setup Party Account Access Management before setting up User Account Access for Group Corporate?

Yes. For the Group Corporate, the party account access setup must be done before the user level mapping of accounts and transactions

2. What is the significance of Transactions or Inquiry Group?

Transaction groups are for the purpose of grouping transactions and maintaining access in Account Access screens.

There will be one factory shipped Transaction group for each module, which will have all transactions and inquiries grouped together. Factory shipped user group cannot be deleted or modified.

A new group can also be created by cloning/copying an existing transaction group. Deletion of custom transaction group will be allowed.

Transaction groups of one Group Corporate will be available for selection only for that Group Corporate

3. Can we setup Party Account Access for multiple corporate parties associated with Group Corporate in single flow?

Yes, All the party ID mapped under Group Corporate will be listed in the dropdown. Admin can select one party at a time and setup the party account access for the same .Once he is done he can follow the same flow by selecting another party for Account maintenance before final submission.

OR

He can save the application in draft for further modification.

4. What is the significance of Auto and Manual option in 'Map Accounts'?

This feature allows the administrator to configure access policies for accounts and associated transactions, which may get added subsequently in the future.

Auto: Gives access to the newly added accounts and transactions of the party as soon as the account is opened. This option can be selected whenever bank administrator wishes to provide access by default

Manual: Denies the newly added accounts and transactions by default. This is to ensure that access to accounts and transactions is provided only upon receiving specific instructions from corporates

5. Will Party Account Access – Deletion for a party (Own/Linked) lead to automatic deletion of User Account Access?

Yes. Deletion of account access for a party will lead to automatic deletion of access for the users of that party.

Step 3: User Onboarding**1. Who can create / update the user at Group Corporate level?**

System administrator and bank administrator can create or edit the users.

2. Does the application allows admin to create new user by cloning the exiting one?

Yes. An option to create a new user from by copying an existing user is provided.

If 'Copy' is selected, admin will be able to select an already created user (user created under the same Group Corporate) and screen will be displayed the copied data for all the sections except Personal and Contact information. Admin will be require to fill Personal and Contact information and he can make the changes in the copied data as well.

3. Can one assign multiple Application roles to a user?

Yes, multiple Application roles can be assigned to the user. All the Roles (both Enterprise and Customer) mapped at the Group Corporate level will be available for selection while setting up the user management.

4. What is the significance of primary and Accessible parties?

Corporate users at Group Corporate level will have one primary party and multiple assessable parties for each entity. Show primary party selected on the top will by default as selected under Primary Party for that Entity.

6. Can I update the limit package associated with a user, If Yes, what will happen to the in-flight transactions?

Yes, new limit package can be mapped to a user. Limits get applied from an immediate effect if the effective date is less than or equal to current date. And if the effective date is future date, the limit package will be applied from the date available in the package.

7. If I update the child role associated to a user, what will happen to the in-flight transactions?

In case of any update of child roles mapped to the user as edit user functionality, the privileges associated with new child roles get applied to the user with an immediate effect. So if any transaction is pending with approver for approval, user can view and approve those transactions only if checker role is mapped to him. As soon as checker role is unmapped, then user will not be able to view and approve the transactions which were pending for his approval.

Step 4: User Group Maintenance**1. Is the user selection for user group maintenance is depends on the parent party?**

No, user selection is not depend upon the parent corporate party. Application will list down the entire user associated with group corporate for user group creation irrespective of parent party.

2. Can a user be the part of multiple user groups created under a Group Corporate?

Yes, same user can be part of multiple user groups under group corporate. Whereas, User Group would be allowed to create even without adding a single user

3. Can I delete an existing user group?

No, user groups cannot be deleted but can be edited. Administrator can add new users and remove existing users of the user group.

Step 5: User Account Access

1. If user is associated with one parent corporate party and multiple accessible parties, then will he be allowed to setup account access for the corporate parties in single flow?

Yes, All the party ID mapped under Group Corporate and associated with corporate user will be listed in the dropdown. Admin can select one party at a time and setup the user account access for the same .Once he is done he can follow the same flow by selecting another party for user Account maintenance before final submission.

OR

He can save the application in draft for further modification.

2. Will Party Account Access – Deletion for a party lead to automatic deletion of User Account Access?

Yes, deletion of account access for a party will lead to automatic deletion of access for the users of that party.

3. If I remove access of account(s) and transaction(s) for a party, will it lead to automatic access removal for the users of that party?

Yes, access removal at party level for an account and/or transaction will automatically remove access at user level of the selected party.

4. Have mapped/edited/deleted user account access for a party but it is not reflecting in the system even after a successful maintenance save message?

There is a possibility that the maintenance is saved but the status is 'Pending Approval'. For the maintenance, if there is an approval required then the changes will reflect only once the approver(s) approve the submitted request. If the setup does not require an approval workflow or is self / auto approved, then the same will reflect immediately.

Step 6: User Report Mapping

1. What is the significance of user report mapping?

The user report mapping maintenance allows the Bank Administrators to map the report or set of reports to a specific corporate user. The corporate users can generate and view the reports to which they have an access.

2. Is the user selection for user report mapping maintenance is depends on the parent party?

No, user selection is not depend upon the parent corporate party. Application will list down the entire user associated with group corporate for user report mapping irrespective of parent party.

Step 7: Workflow Management

1. Is the user selection for workflow maintenance is depends on the parent party?

No, user selection is not depend upon the parent corporate party. Application will list down the entire user associated with group corporate for workflow maintenance irrespective of parent party.

2. What is approval workflow maintenance?

Approval workflows are created to support requirements where multiple levels of approval are required in a specific sequence for a transaction/maintenance. Each workflow can be configured to have up to five levels of approval with a specific user or a user group configured at each level.

3. How many approval levels can I set up in the system?

Administrator can set up minimum one and maximum five levels of approvals as a part of approval workflow.

4. Can I get the list of users associated with a group from workflow management screen?

Yes, list of the users associated with a group can be viewed using workflow management screen.

Step 8: Approval Rules

1. Is the user selection for workflow maintenance is depends on the parent party?

No, user selection is not depend upon the parent corporate party. Application will list down the entire user associated with group corporate for approval -rules maintenance irrespective of parent party.

2. How many approval levels can I set up in the system?

Administrator can set up minimum one and maximum five levels of approvals as a part of approval workflow. Whereas, maximum levels of approvals that the user can set is configurable as Day0.

3. What happens if the transaction is initiated in the currency in which approval rule is not maintained?

If the rule is not maintained in specific currency, then the application will check the preferred currency selected while setting up the group corporate.

6. User Management

User Management function enables Corporate Administrator to view user details along with their login credentials for channel banking access. This module facilitates channel banking access to corporate users of group corporate that the Corporate Administrator belongs to.

Prerequisites:

- Application roles and child roles are maintained
- Transactions are associated with each Application role
- Corporate Administrator is maintained for a GCIF.
- Transaction (User Management) access is provided to Corporate Administrator.
- Approval rule set up for Corporate Administrator to perform the actions.
- Party Preference is maintained and GCIF onboarding is complete for a GCIF

Features supported in application

The User Management module allows the Corporate Administrator to:

- Search User

How to reach here:

Corporate Administrator Dashboard > Toggle menu > Menu > User Management

6.1 User Management – Search/ View User

Using this option, Corporate Administrators can search and view details of the existing users. Administrator can search only those users who are associated with the same GCIF mapped to him.

Corporate administrators can also change the user status or the channel access permission for a user using this screen.

Default search is available with User Name, whereas user can be searched by providing other details also.

User Groups And Global Roles	
User Groups	<p>The list of all user groups to which the selected user belongs.</p> <hr/> <p>Note:</p> <ul style="list-style-type: none"> • This information is read-only and hence cannot be modified.. • If a particular user needs to be removed from a user group, then the administrator must manually go to the particular user group screen and remove the user. <hr/>
Roles	The global roles which are mapped to the users.
DND Alerts	
Category	The list of categories for which DND is configured can be enabled or disabled using this option.
Touch Points	
Selected Touch Points	<p>The touch points (banking channels) selected for a user to perform transactions.</p> <p>The touch points could be:</p> <ul style="list-style-type: none"> • Mobile Application • Mobile (Responsive) • Internet • Missed Call Banking • SMS Banking • Wearables • Snapshot • Siri / Chatbot • API Access • Soft Token Application
Primary Entity	
Entity Name	Name of the primary entity.
Map Parties	
Primary Party	Name of the primary party along with the group corporate code and entity name.

Field Name	Description
Accessible Parties	Accessible parties along with the group corporate code and entity name associated to the user.
Limits	Limits package associated to the user.
Touch Points	Name of touch points/ groups maintained under a specific entity for which the limit packages are mapped.
Map Roles	The roles to which the entities are mapped.
Accessible Entity Details	
Entity Name	Accessible Entity name associated to the user.
Map Parties	
Primary Party	Primary Party ID details of the user is associated with the New Entity
Accessible Parties Name	Accessible Party Details that user has access.
Limits - Touch Point/Groups	
Limits package associated to the user for the accessible entity.	
Touch Points/ Group	Name of touch points/ groups maintained under a specific entity for which the limit packages are mapped.
Map Roles	The roles to which the entities are mapped.

8. Click **Reset Password** to reset user's password. A warning message 'Do you want to reset the password?' appears on the screen. If user clicks 'Yes', a reset password confirmation screen is displayed. New password gets communicated to the user on registered email address (if the alert for the same is maintained) and the record for that user gets available in the Print password screen, from where it can be printed. If user clicks 'No', the action gets cancelled.

OR

Click **Back** to go back to the previous screen.

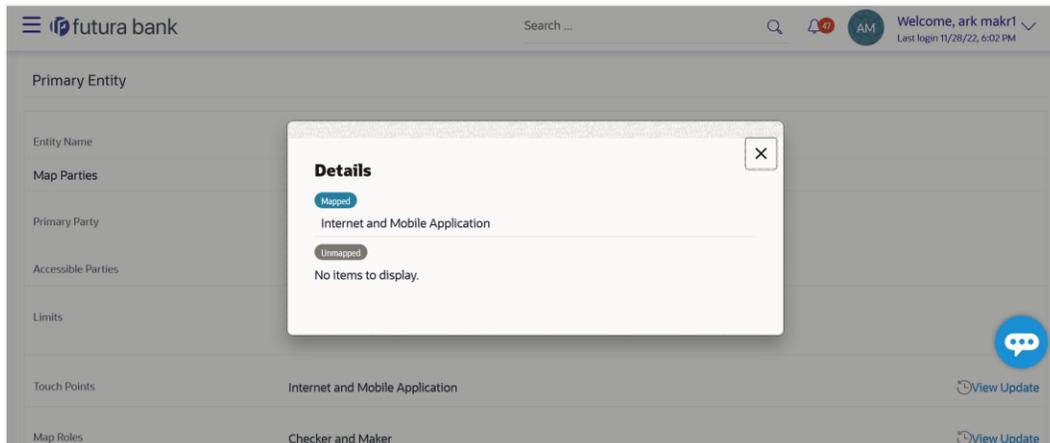

OR

Click  to download the user details.

Note: On re-login to application

- 1) The modification will be shown post comparison with the last "approved" value only.
- 2) Click on the **View Updates** to view the new changes in case the field has multiple values.

View Updates

User Management - Change user status

This section allows you to lock and unlock a user.

To lock or unlock a user:

1. Enter the search criteria, click **Search**.
The search results appear on the **User Management** screen based on the search parameters.

Lock / Unlock User

The screenshot shows the 'User Management' page in the Futura Bank system. The user type is set to 'Corporate User' and the search results table is as follows:

Full Name	Username	Status	Channel Access
deep maker001	dcmaker001	Unlocked	Granted
deepak maker002	dcmaker002	Unlocked	Granted
ark checker	akchecker	Unlocked	Granted
ark makr1	akmakr	Unlocked	Granted
ark corp2	aksupr	Unlocked	Granted
ark Bohr	akmtest	Unlocked	Granted

A 'Note' on the right side of the page states: 'This function enables you to onboard and manage users, their personal information and their login credentials for channel banking access. You can also define the various Touch Points from which the user can access the application and limit package applicable for the same. User Status change (lock/unlock) and whether the channel access has to be given to the user can be simply be managed and updated from the search results.'

2. Click  in the status column to lock / unlock a user. The **User Status Maintenance** window appears.

User Status Maintenance

The screenshot shows the 'User Status Maintenance' dialog box overlaid on the search results table. The dialog box contains the following information:

User Status Maintenance

Lock Status Unlocked

Buttons: **Submit**, **Cancel**

The background search results table is partially visible, showing the same data as in the previous screenshot.

3. In the **Lock Status** field move the slider to lock / unlock a user.
4. In the **Reason** field enter the appropriate description.

- Click **Submit** to save.
OR
Click **Cancel** to close.

User Management - Channel Access Permission

This section allows the administrator to grant / revoke channel access for a user. In case administrator changes the channel access from grant to revoke; user will not be able to access his channel banking.

Note: Channel Access feature is only available and displayed if the Application is configured on DB Authenticator as Identity Management system.

To grant or revoke channel access:

- Enter the search criteria, click **Search**.
The search **results** appear on the **User Management** screen based on the search parameters.

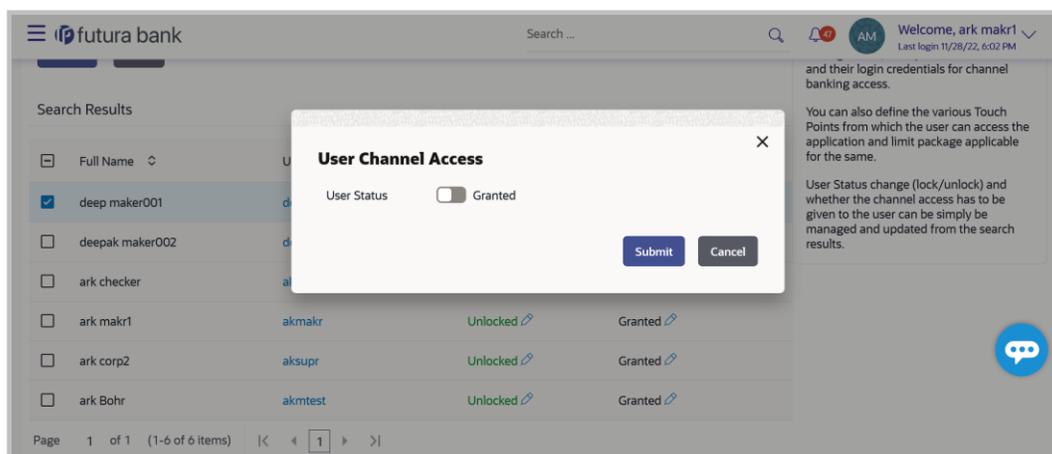

Channel Access

The screenshot displays the 'User Management' section of the Futura Bank application. At the top, there is a navigation bar with 'ATM & Branch Locator' and 'English'. Below this, the 'User Management' header is visible. The search criteria are set to 'Corporate User' and the search results are displayed in a table. A 'Note' box on the right provides additional information about the channel access feature.

User ID	Channel Access	Status	Channel Access
deep maker001	dcmaker001	Unlocked	Granted
deepak maker002	dcmaker002	Unlocked	Granted
ark checker	akcheckr	Unlocked	Granted
ark maker1	akmakr	Unlocked	Granted
ark corp2	aksupr	Unlocked	Granted
ark Bohr	akmtest	Unlocked	Granted

Note:
This function enables you to onboard and manage users, their personal information and their login credentials for channel banking access.
You can also define the various Touch Points from which the user can access the application and limit package applicable for the same.
User Status change (lock/unlock) and whether the channel access has to be given to the user can be simply be managed and updated from the search results.

- Click  in the **Channel Access** column to grant / revoke channel access to a user.
The **User Channel Access** screen appears.

3. In the **Channel Access** field move the slider to grant / revoke channel access rights for a user.
4. In the **Reason** field enter the appropriate description.
5. Click **Submit** to save.
OR
Click **Cancel** to close.

FAQ

8. Can I edit the party id mapped to the user?

No, party ID mapped to the user cannot be edited by the Corporate Administrator.

9. When does the system update a user status as 'locked'?

When administrator needs to temporarily block access for any user, 'Lock user' functionality can be used. Also if there are multiple unsuccessful login attempts, the user's status will get updated as 'Locked'.

10. Can one assign multiple Application roles to a user?

Yes, multiple Application roles can be assigned to the user. e.g. Corporate user is acting as maker of few transactions and approver of few other transactions. This can be done using Group Corporate Onboarding Menu

11. What are the different child roles available out of box?

Following are the child role associated with corporate user role out of box.

User Type	Application Roles
Corporate User	Maker

User Type	Application Roles
	Checker
	Viewer
	Corporate Admin Maker
	Corporate Admin Checker

12. Can a corporate administrator create a corporate user and assign multiple entities?

No, currently corporate administrator cannot create a corporate user with multiple entities.

13. If a user's User ID is locked and he/she has requested for a reset password, does the admin needs to unlock it separately ?

No, the user ID will automatically get unlocked at the time of resetting the password by Admin.

7. Limits Definition

Limits are defined by the bank to set up amount and duration based restrictions on the transactions that can be carried out by the user.

As part of limits definition maintenance, following limits can be defined:

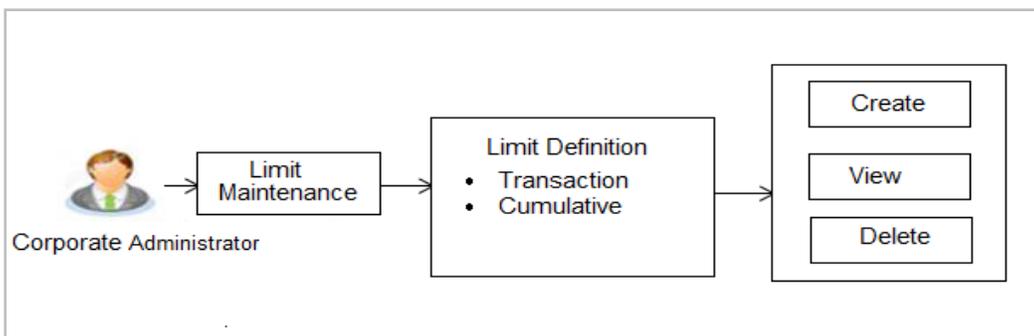

- Transaction: It is the initiation limit with minimum and maximum amount defined
- Cumulative: It is the collective transaction amount limit for all the transactions that can be performed during a day and maximum number of transaction in a day

Limit package maintenance allows the administrator to map these definitions to every transaction.

Pre-Requisites

- Transaction access is provided to Corporate Administrator.
- Approval rule set up for Corporate Administrator to perform the actions.

Workflow

Features supported in application

Using this option Corporate Administrator can perform the following actions:

- Search/ View Limits
- Create Limit
- Delete Limits

How to reach here:

Corporate Administrator Dashboard > Toggle menu > Menu > Limits > Limits Definition

7.1 Limits Definition - View

Using this option, Administrator can search for particular limit based on different search parameters. The search results displays a limit list based on different search filters selected.

To search and view limits:

1. In the **Limits Definition** screen, enter the search parameters and click **Search**. The **Limits Definition** screen with search results appears based on the searched criteria.
OR
Click **Cancel** to cancel the search process.
OR
Click **Clear** to reset the search parameters.

Limits Definition - Search

The screenshot shows the 'Limits Definition' search interface in the Futura Bank system. The interface includes search filters for Limit Code, Limit Description, Limit Type (Transaction, Cumulative, Cooling Period), and Updated On (From Date, To Date). A table displays search results with columns for Limit Code, Limit Description, Limit Type, and Updated On. A 'Create' button is visible on the right side of the interface.

Limit Code	Limit Description	Limit Type	Updated On
SGAJTL3	SGAJTL3	Transaction	08 Apr 2020
TLAJEURSz	TLAJEURSz	Transaction	08 Apr 2020
TransactionLimit2	Transaction Limit 2	Transaction	08 Apr 2020
TransactionLimit4	Transaction Limit 4	Transaction	08 Apr 2020
TLAJINRSz	TLAJINRSz	Transaction	08 Apr 2020
TransactionLimit1	Transaction Limit 1	Transaction	08 Apr 2020
TransactionLimit3	Transaction Limit 3	Transaction	08 Apr 2020
AJTLZ	AJTLZ	Transaction	08 Apr 2020
SGAJTL	SGAJTL	Transaction	08 Apr 2020
AJSGSRTL	AJSGSRTL	Transaction	08 Apr 2020

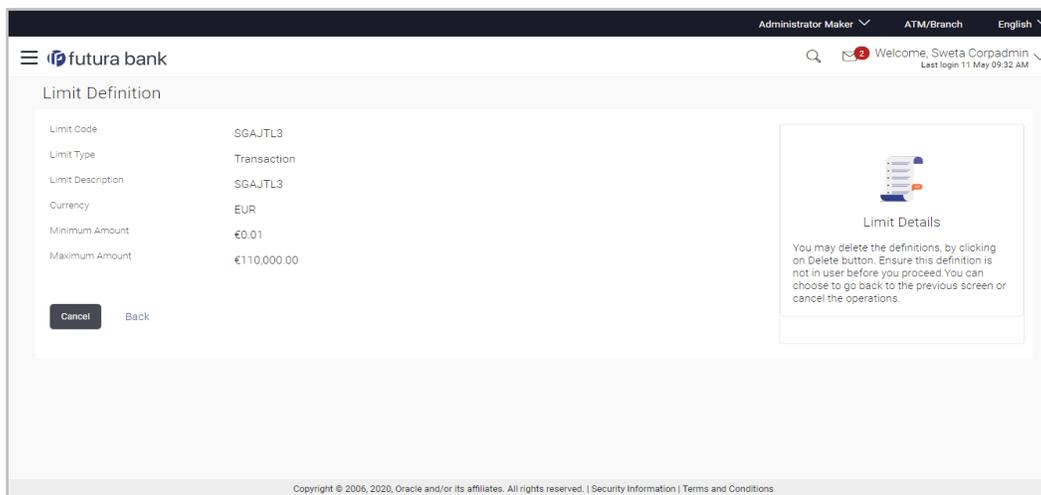

Field Description

Field Name	Description
Limit Code	Name/unique identifier of the limit.
Limit Description	Description of the limit.

Field Name	Description
Limit Type	Types of limits are: <ul style="list-style-type: none"> Transaction – It is the initiation limit with minimum and maximum amount Cumulative – It is a duration based limit with maximum amount and number of transactions for a day / month
Search Results	
Limit Code	Name/unique identifier of the limit.
Limit Description	Description of the limit.
Limit Type	The limit type are: <ul style="list-style-type: none"> Transaction – It is the initiation limit with minimum and maximum amount Cumulative – It is a duration based limit with max amount

- Click the **Limit Code** of the record for which you want to view the details. The **Limits Definition -View** screen appears.

Limits Definition - View

- Click **Delete** to delete the limit.
OR
Click **Cancel** to cancel the transaction and navigate back to dashboard.
OR
Click **Back** to navigate to the previous screen.

7.2 Limits Definition - Create

Using this option, Corporate Administrator can create a limit as required.

To create a transaction limit:

1. In the **Limits Definition** screen, click **Create**. The **Limits Definition - Create** screen with **Transaction** tab appears.

Limits Definition - Transaction - Create

The screenshot displays the 'Limits Definition' screen for a 'Transaction' limit. The form includes the following fields and values:

- Limit Type:** Transaction (selected), Cumulative, Cooling Period
- Limit Code:** Limit 001
- Limit Description:** Corporate Limit 10
- Currency:** GBP
- Minimum Amount:** £1.00
- Maximum Amount:** £10,000,000.00

Buttons: Save, Cancel, Back

Create Limit Definition

You can define following types of limits on the transactions

- Transaction – Minimum and maximum transaction initiation limit.
- Cumulative - Collective amount of a transaction and total number of transaction limit.
- Cooling Period – Limits for newly added payees

Map these limit definitions to a transaction as a part of limit package.

Field Description

Field Name	Description
Limit Type	The limit type for selection are: <ul style="list-style-type: none"> • Transaction – It is the initiation limit with minimum and maximum amount • Cumulative – It is a duration based limit with maximum amount and number of transactions for a day / month
Limit Code	Name/unique identifier of the limit.
Limit Description	Description of the limit.
Currency	The currency to be set for the limit.
Minimum Amount	The minimum amount for a transaction in local currency.
Maximum Amount	The maximum amount for a transaction in local currency.

2. In the **Transaction** tab screen, enter the code in the **Limit Code** field.

3. In the **Limit Description** field, enter the description of the limit.
4. From the **Currency** field, select the appropriate currency for the limits.
5. In the **Minimum Amount** and **Maximum Amount** field, enter the minimum and maximum amount for a transaction in local currency.
6. Click **Save** to save the created limit.
OR
Click **Cancel** to cancel the transaction and navigate back to dashboard.
OR
Click **Back** to navigate to previous screen.
7. The **Review** screen appears. Verify the details, and click **Confirm**.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate to previous screen.
8. The success message of transaction submission appears.
Click **OK** to complete the transaction.

Limits Definition - Cumulative - Create

The screenshot shows the 'Limit Definition' form in the Futura Bank system. The form is for creating a 'Cumulative' limit. The fields are as follows:

- Limit Type:** Transaction, Cumulative (selected), Cooling Period
- Limit Code:** Limit 002
- Limit Description:** Limit 02
- Frequency:** Daily, Monthly (selected)
- Currency:** GBP
- Cumulative Transaction Amount:** £100,000,000.00
- Maximum Transactions:** Per Month, 100

Buttons at the bottom include 'Save', 'Cancel', and 'Back'. A sidebar on the right titled 'Create Limit Definition' explains the types of limits: Transaction (minimum and maximum amount), Cumulative (collective amount and total number of transactions), and Cooling Period (limits for newly added payees).

Field Description

Field Name	Description
Limit Type	Limit type for selection are: <ul style="list-style-type: none"> • Transaction – It is the initiation limit with minimum and maximum amount • Cumulative – It is a duration based limit with maximum amount and number of transactions for a day / month
Limit Code	Name/unique identifier of the limit.

Field Name	Description
Limit Description	Description of the limit.
Frequency	The specific duration for which the limits can be utilized and available. The options are: <ul style="list-style-type: none"> • Daily • Monthly
Currency	The currency to be set for the limit.
Cumulative Transaction Amount	The collective amount in local currency for transactions that can be performed in a day.
Maximum Transactions	The maximum number of transactions that can be performed per day.

To create a cumulative limit:

1. Click the **Cumulative** tab. The **Limits Definition - Create** screen with **Cumulative** tab appears.
2. Enter the relevant information in **Limit Code** and **Limit Description** field.
3. From the **Frequency** field, select the appropriate duration for the limits.
4. From the **Currency** field, select the appropriate currency for the limits.
5. In the **Cumulative Transaction Amount** field, enter the collective amount of transaction in local currency.
6. In the **Maximum Transactions** field, enter the value for maximum number of transactions.
7. Click **Save** to save the created limit.
OR
Click **Cancel** to cancel the transaction and navigate back to dashboard.
OR
Click **Back** to navigate to previous screen.
8. The **Review** screen appears. Verify the details, and click **Confirm**.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate to previous screen.
9. The success message of transaction submission appears.
Click **OK** to complete the transaction.

7.3 Limits Definition - Delete Limit

Using this option, Corporate Administrator can delete a created limit. Limit definition can be deleted only if it is not in use (available as a part of any limit package).

To delete a limit:

1. In the **Limits Definition** screen, enter the search parameters and click **Search**. The **Limits Definition** screen with search results appears based on the searched criteria.
OR
Click **Cancel** to cancel the search process.
OR
Click **Clear** to reset the search parameters.

Limits Definition - Search

The screenshot displays the 'Limits Definition - Search' interface. At the top, there are navigation options for 'Administrator Maker', 'ATM/Branch', and 'English'. The main header shows 'futura bank' and a user welcome message: 'Welcome, Sweta Corpadmin' with the last login time '11 May 09:32 AM'. The search filters include:

- Limit Code: LIMIT 10
- Limit Description: (empty)
- Limit Type: Transaction (selected), Cumulative, Cooling Period
- Updated On: From Date, To Date

 Below the filters are 'Search' and 'Clear' buttons. The search results table has the following data:

Limit Code	Limit Description	Limit Type	Updated On
Limit 100	Limit 10	Transaction	11 May 2020

 The page indicates 'Page 1 of 1 (1 of 1 items)'. A 'Cancel' button is at the bottom left, and a 'Create' button is on the right side of the main content area. A sidebar on the right contains a 'Limit Definition' section with a brief description and a 'Create' button.

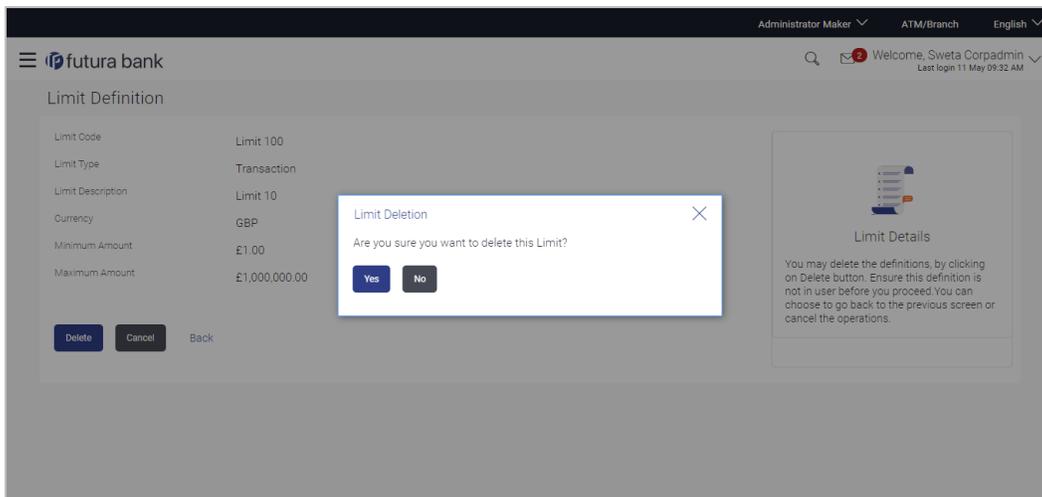

2. Click the **Limit Code** of the record for which you want to view the details. The **Limits Definition -View** screen appears.

Limits Definition - View

3. Click **Delete**. The **Delete Warning** message appears.
OR
Click **Cancel** to cancel the transaction and navigate back to dashboard.
OR
Click **Back** to navigate to the previous screen.

Delete Limit

4. Click **Yes** to confirm the deletion.
OR
Click **No** to cancel the deletion process.
5. The success message of transaction submission appears.
Click **OK** to complete the transaction.

8. Limits Package Management

Limit package is a group of transaction limits. As part of the limit package management, defined limits (created through 'Limit Definition') can be mapped to each transaction or to a transaction group (Created using Transaction Group Maintenance). Each package is associated with a specific channel/touch point or with a group of touch points.

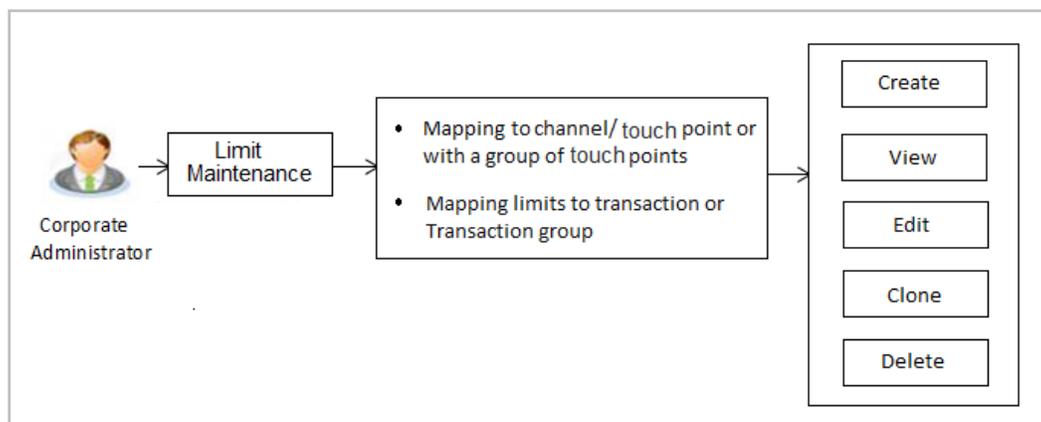

The limits packages once created can be mapped to

- User Type – using System Rules maintenance
- Party – using Party Preferences (Cumulative User Limits and Cumulative Customer limits)
- User – using User Management

Prerequisites:

Required Limits (i.e. Transaction/ Cumulative) should be defined for association to transactions in limits package

Workflow

Features supported in application

The administrator can perform the following actions:

- Search/ View Limit Package
- Create Limit Package
- Edit Limit Package
- Clone Limit Package
- Delete Limit Package

How to reach here:

Corporate Administrator Dashboard > Toggle Menu > Menu > Limit > Limit Package Management

8.1 Limit Package Management - View

Using this option, Corporate Administrator can search for particular limit package created for a specific channel/ touch point based on different search parameters. The search results displays a list or particular limit package based on different search filters selected.

If the search parameters are not specified, records of all the packages maintained in the application are displayed.

To search and view limit package:

1. In the **Limit Package Management** screen, click **Search**. The **Limit Package Management** screen with search results appears based on the searched criteria.
OR
Click **Clear** to reset the search parameters.
OR
Click **Cancel** to cancel the search process.

Limit Package Management - Search

The screenshot shows the 'Limit Package Management' search interface. At the top, there are user details: Administrator Approver, ATM/Branch, and English. The Futura Bank logo is on the left. The search area includes input fields for 'Package Code' and 'Package Description', a 'More Search Options' dropdown, and 'Search' and 'Clear' buttons. Below the search area is a table with the following data:

Package Code	Package Description	Touch Point	Currency	Updated On
Limit Pkg 01	Limit Packages 001	APINTERNET	GBP	11 May 2020

Below the table, it shows 'Page 1 of 1 (1 of 1 items)' with navigation arrows. A 'Cancel' button is at the bottom left. On the right side, there is a 'Limit Package' section with a 'Create' button and a descriptive text: 'You can now create a limit package for specific transaction and for group of transactions. Also you can define applicable Touch Point for a package. To speed up the process you can clone an existing limit package. If you want to create fresh package, ensure to maintain necessary transaction groups, Touch Point groups and required limit definitions before you proceed.'

Effective Date	The date from which the limit package is effective for the transaction.
Cumulative Limit Daily	Daily Cumulative Limit Definition set for the specific transaction. It displays the limit name and description.
Cumulative Limit Monthly	Monthly Cumulative Limit Definition set for the specific transaction. It displays the limit name and description.
Transaction Limit	Transaction Limit Definition set for the specific transaction. It displays the limit name and description.
Cooling Limit	The cooling limit set for the specific transaction.

3. Click **Clone** to make another copy of details.
OR
Click **Edit** to edit the limit package.
OR
Click **Delete** to delete the limit package.
OR
Click **Cancel** to cancel the transaction and go back to Dashboard.
OR
Click **Back** to navigate to the previous screen.

8.2 Limit Package Management - Create

Using this option, Corporate Administrator can create a limit package for a specific channel/ touch point based on the details given as per the fields.

To create a limit package:

1. In the **Limit Package Management** screen, click **Create**. The **Limit Package Management - Create** screen appears.

Limit Package Management - Create

The screenshot shows the 'Limit Package Management - Create' interface. At the top, there's a navigation bar with 'Administrator Maker', 'ATM/Branch', and 'English'. Below that, the 'futura bank' logo and a search bar are visible. The main content area is titled 'Limit Package Management' and contains a form with the following fields:

- Limit Package Code: Limit Pkg 02
- Limit Package Description: Limit Package 002
- Touch Point: Touch Point, Touch Point Group, Global
- Touch Point: Mobile Applica...
- Currency: GBP

Below these are two transaction entries, each with a 'Delete Transaction' button:

- Transaction Name: V2 Fund Transfer
- Effective Date: 11 May 2020
- Cumulative Limit Daily: CLDAJzGBP - CLDAJzGBP
- Cumulative Limit Monthly: bulkcumumonth - bulkcumumonth
- Transaction Limit: InvoiceTransaction - Invoice Transa...
- Cooling Limit: coolLimit - coolLimit

The second transaction entry has similar details:

- Transaction Name: Create Bill Payment
- Effective Date: 11 May 2020
- Cumulative Limit Daily: cumDlimit - cumulatibe daily limit
- Cumulative Limit Monthly: InvoiceMonthlyCum - Invoice Transa...
- Transaction Limit: TLAJzGBP - TLAJzGBP
- Cooling Limit: CPLAJzGBP - CPLAJzGBP

At the bottom, there are buttons for 'Add Transaction', 'Add Transaction Group', 'Save', 'Cancel', and 'Back'. A sidebar on the right contains 'Edit Package Details' and a note: 'You can remove the transaction from the limit package or can delete/modify the limit definitions mapped against each transaction. You can also add new transaction(s) as part of this limits package.'

Field Description

Field Name	Description
Limit Package Code	The unique code /name of the limit package.
Limit Package Description	Description of the limit package.

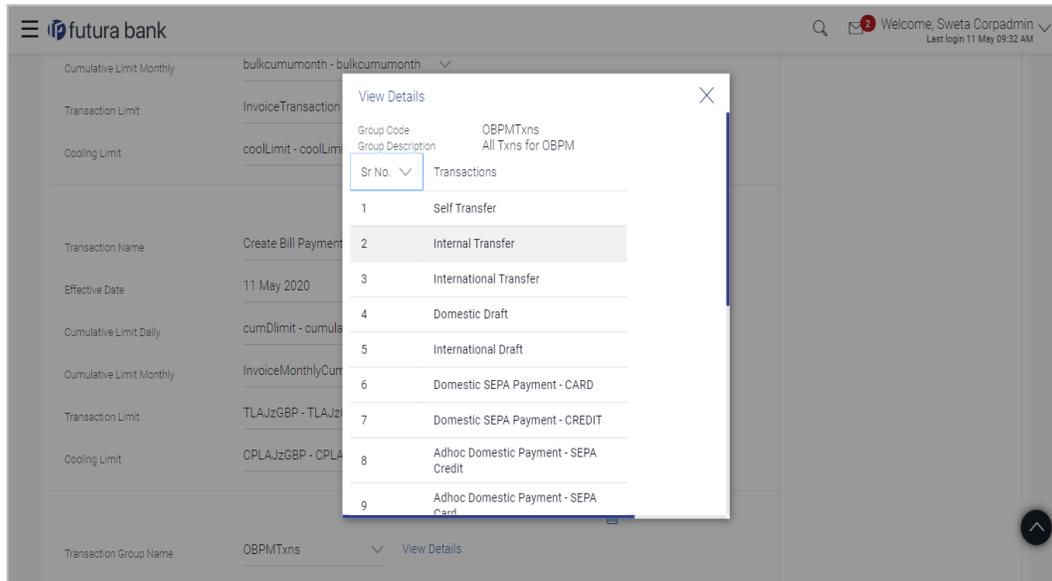

Field Name	Description
Touch Point	Touch points and the group of touch points mapped with the limit package. The options are: <ul style="list-style-type: none"> • Touch Point • Touch Point Group • Global: This a group of touch points created automatically (default touch point group has all internal and external touch points).
Touch Point	Touch points mapped to the limit package. This field is displayed and enabled if you select Touch Point option in the Touch Point field.
Touch Point Group	Touch point group mapped to the limit package. This field is displayed and enabled if you select Touch Point Group option in the Touch Point field.
Currency	The currency to be set for the limit package.
Transaction Name/ Transaction Group Name	Transaction or Transaction Group name, to which the limit has to be assigned.

Field Description

Field Name	Description
Limit Package Code	The unique code /name of the limit package.
Limit Package Description	Description of the limit package.
Currency	Currency in which the limit package is created.
Transaction Name/ Transaction Group Name	Name of the Transaction/ transaction group that is mapped to the limit package.
Effective Date	The date from which the limit package is effective for the transaction.
Expiry Date	Expiry date of a specific limit linked to a transaction. This field will be displayed only if expiry date is maintained for each transaction.
Cumulative Limit Daily	Daily Cumulative Limit definition set for the specific transaction. It displays the limit name and description.
Cumulative Limit Monthly	Monthly Cumulative Limit definition set for the specific transaction
Transaction Limit	Transaction Limit definition set for the specific transaction. It displays the limit name and description.

4. Edit the required details.

Note: Click **View Details** link to view transaction group details.

View Details -Transaction Group Details

Field Description

Field Name	Description
Group Code	Unique Code/Name of the Transaction Groups.
Group Description	Description of the transaction group.
List of Transactions	List of all the transaction names available under the transaction group.

5. Click **Add Transaction**, if you want to add a new transaction.
OR
Click **Add Transaction Group**, if you want to add a new transaction group.
OR
Click  to delete an existing transaction.
6. Click **Save** to save the changes made to the limit package.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to previous screen.
7. The **Review** screen appears. Verify the details, and click **Confirm**.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to previous screen.
8. The success message of transaction submission appears. Click **OK** to complete the transaction.

8.4 Limit Package Management - Clone

To speed up the process of creating new limit package, Corporate Administrator can clone/copy an existing limit package. Administrator is allowed to make changes in it and save with different name.

To clone a limit package:

1. In the **Limit Package Management** screen, click **Search**. The **Limits Package Management** screen with search results appears based on the searched criteria.
OR
Click **Clear** to reset the search parameters.
OR
Click **Cancel** to cancel the search process.

Limit Package Management - Search

2. Click the **Limit Package Code** of the record for which you want to clone the details. The **Limits Package Management-View** screen appears.

Limit Package Management - View

3. Click **Clone**. The **Limits Package Management-Create** screen appears with existing limit package details.

Limits Package Management - Create

4. Update limit package with required changes.
5. Click **Save** to save the limit package.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to previous screen.
6. The **Review** screen appears. Verify the details, and click **Confirm**.
The user will be navigated back to the create screen.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to previous screen.
7. The success message of transaction submission appears.
Click **OK** to complete the transaction.

8.5 Limit Package Management - Delete

Using this option, Corporate Administrator can delete a limit package created by corporate administrator mapped to the same GCIF. Corporate administrator is not allowed to delete the packages created by the Bank administrator.

To delete a limit package:

1. In the **Limit Package Management** screen, click Search. The **Limits Package Management** screen with search results appears based on the searched criteria.
OR

Click **Clear** to reset the search parameters.
OR
Click **Cancel** to cancel the search process.

Limit Package Management - Search

The screenshot shows the 'Limit Package Management' search interface. At the top, there are dropdown menus for 'Administrator Approver', 'ATM/Branch', and 'English'. The user is logged in as 'Sweta Corpadmin'. The search filters include 'Package Code' and 'Package Description'. A 'Search' button is present, along with a 'Clear' button. The search results table is as follows:

Package Code	Package Description	Touch Point	Currency	Updated On
Limit Pkg 01	Limit Packages 001	APIINTERNET	GBP	11 May 2020
Limit 003	Limit 03	APIINTERNET	GBP	11 May 2020

Below the table, there is a pagination control showing 'Page 1 of 1 (1-2 of 2 items)'. A 'Cancel' button is located at the bottom left. On the right side, there is a 'Limit Package' information box with a 'Create' button.

2. Click the **Limit Package Code** of the record for which you want to view the details. The **Limits Package Management-View** screen appears.

Limit Package Management - View

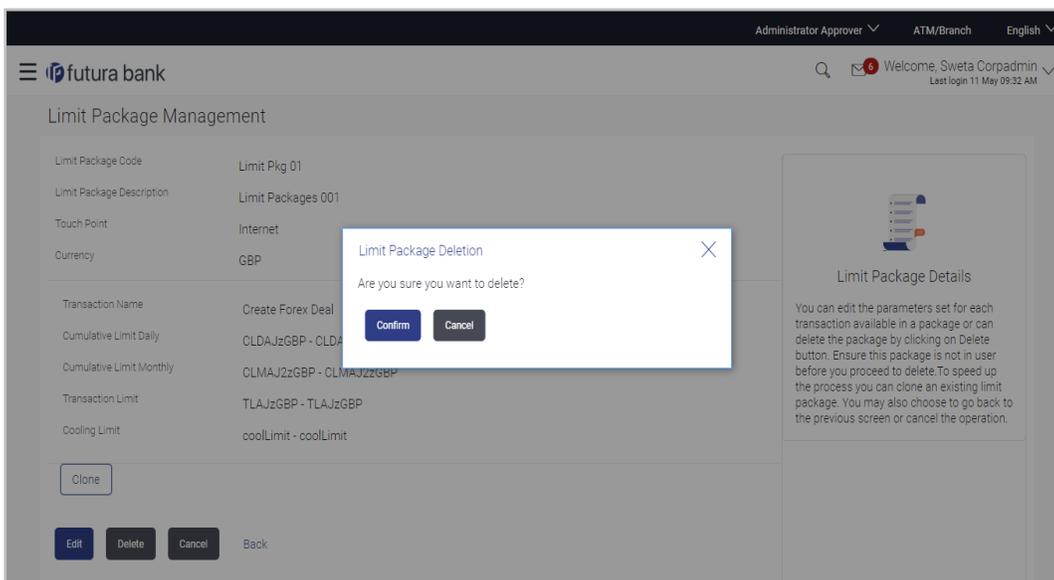

The screenshot shows the 'Limit Package Management - View' screen. The details for 'Limit Pkg 01' are as follows:

Limit Package Code	Limit Pkg 01
Limit Package Description	Limit Packages 001
Touch Point	Internet
Currency	GBP
Transaction Name	Create Forex Deal
Cumulative Limit Daily	CLDAJzGBP - CLDAJzGBP
Cumulative Limit Monthly	CLMAJ2zGBP - CLMAJ2zGBP
Transaction Limit	TLAJzGBP - TLAJzGBP
Cooling Limit	coolLimit - coolLimit

At the bottom, there are buttons for 'Clone', 'Edit', 'Delete', 'Cancel', and 'Back'. On the right side, there is a 'Limit Package Details' information box.

3. Click **Delete**. The **Delete Warning** message appears.

Delete Limit Package

4. Click **Confirm** to confirm the deletion.
OR
Click **Cancel** to cancel the deletion process.
5. The success message of transaction submission appears.
Click **OK** to complete the transaction.

FAQ

1. Can I delete transaction and/ or cumulative limits against a transaction in limit package?

No, existing limits against a transaction cannot be deleted; it can only be edited if effective date is starting from a future date.

2. Why am I unable to delete a limit through limit definition screen?

There is a possibility that the limit that you are trying to delete is associated in the limit package against a transaction(s) and therefore the system is not allowing you to delete the same.

3. Why am I unable to delete limits package through limit Package?

There is a possibility that the limit package that you are trying to delete is associated with a user.

4. As part of edit, what can I update in the limits package maintenance?

You can edit the transaction and/ or cumulative limits against the transaction. You can delete the transaction(s) from the limits package and/or you can also add new transaction(s) as part of the limits package?

5. Have created/ edited/ deleted Limits and/ or Limits package but it is not reflecting in the system even after a successful maintenance save message?

There is a possibility that the maintenance is saved but the status is 'Pending Approval'. For the maintenance, if there is an approval required then the changes will reflect only once the approver(s) approve the submitted request. If the setup does not require an approval workflow or is self / auto approved, then the same will reflect immediately.

9. File Upload Maintenance

File Uploads facilitates processing of multiple transactions through a single file. This is a faster way of processing transactions than entering transactions one after another. Salary payments, fund transfers, vendor payments are few examples of financial transactions that can be supported through file upload. A non-financial transaction to facilitate upload of multiple payee details, at a single instance, is also possible through file upload.

The File Upload functionality enables users to process:

- Internal payments (within the bank)
- Domestic payments (within the country)
- International payments (cross border)
- Mixed payments
- Create Payees / Beneficiaries
- Create Virtual Accounts, Structure & Identifiers

Oracle Banking Digital Experience File Upload module enables Corporates to process files of payments according to agreed operational and business rules and save time. File Uploads facility is simple to use, has daily transaction limits and comes with the security of dual / multi signatory approvals.

File Upload set up enables the corporate administrator to create file identifiers for its party, and map users to file identifiers.

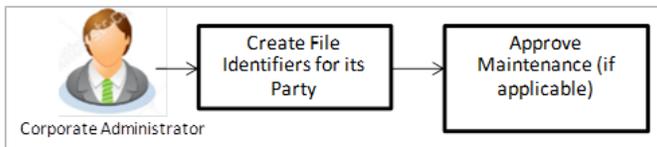

10. File Identifier Maintenance

Corporate Administrator can create file identifiers (FI) for his party. This enables the corporate to process file uploads. A File Identifier is always mapped to a specific single file template. It permits configuration of corporate preferences like approval type (file level/ record level) for a particular type of file.

Prerequisites

- Party Preferences is maintained for Corporate
- Party and Account access has been set for corporate and its users
- Approval Rules are setup for the corporate

Workflow

Features Supported In Application

- View File Identifier
- Create File Identifier
- Edit File Identifier

How to reach here:

Corporate Administrator Dashboard > Quick Links > File Upload > File Identifier Maintenance
 OR
Corporate Administrator Dashboard > Toggle Menu > Menu > File Upload > File Identifier Maintenance

10.1 File Identifier Maintenance - Summary

Once the logged in user navigates to File Identifier Maintenance screen, user will be able to view the File Identifiers already created for his party.

To view the file identifiers:

1. View **File Identifier Maintenance** screen with FI's mapped to the users.
 OR
 Click **Cancel** to cancel the transaction.

File Identifier Maintenance - Summary

File Identifier Maintenance

Group Corporate ID: 003356
Party ID: 004439 | reliance4 jio ltd

Search Cancel

File Identifiers

Sr. no.	File Identifier	Description	Transaction Type	Approval Type
1	Dhavns	Dhavns	Internal Funds Transfer	File
2	InternalFTDeSDMC	InternalFTDeSDMC	Internal Funds Transfer	File
3	InternalFTMDMC	InternalFTMDMC	Internal Funds Transfer	Record

Cancel

Note: Assignment of file identifiers to different parties can be done. Approval type needs to be set as whether it would be record level or file level. File template can be selected for the maintenance. Once created for a party, account level changes can be done from User File Identifier mapping screen.

If less than 60% of the records in a file clear the validation stage, then the file is rejected.</p> <p>This field will be displayed only when approval is Record Type and for certain file formats – namely when accounting type is a) Single Debit Single Credit or b) Multi Debit Multi Credit.</p>

Field Name	Description
Debit Account Number	Account number of the account to be debited. This field appears only for file templates having Account ID defined at FI level .
Transaction Type	Type of transaction: The transaction type can be: <ul style="list-style-type: none"> • Internal funds Transfer • Domestic Funds Transfer • International Funds Transfer • Mixed Transfer • Internal Payee • Domestic Payee • International Payee • Mixed Payee • Demand Draft Payee • Create Virtual Accounts • Create Virtual Account Structure • Create Virtual Identifiers • Delete Virtual Accounts • Mixed Payments • Create Invoices
File Type	The file type - delimited or fixed length.
Format Type	The format in which file is uploaded. The format could be CSV, XML, XLS, XLSX.
Approval Type	The approval type is at file level or record level. <ul style="list-style-type: none"> • File Level - The approver accepts or rejects the entire file, and all records are either processed or rejected en-masse • Record Level - The approver could approve some records, and rejects others. Payments are processed only for approved records

2. In the **File Identifier** field, enter the code of the file to be uploaded.
3. In the **Description** field, enter the file description corresponding to the file code.
4. From the **File Template** list, select the file template.
 - a. If you select a file templates having Account ID defined at FI level, enter the Debit Account Number.

5. Select the appropriate **Approval Type**.
6. Click **Save**.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate to the previous screen.
7. The **Review** screen appears. Verify the details and click **Confirm**.
OR
Click **Cancel** to cancel the operation and navigate back to 'Dashboard'.
OR
Click **Back** to navigate to the previous screen.
8. The success message appears along with the transaction reference number and status.
Click **OK** to complete the transaction and navigate back to 'Dashboard'.

10.3 File Identifier Maintenance - Edit

Using this option corporate administrator can edit and update a file identifier.

To edit file identifier:

1. In the **File Identifier Maintenance** screen, click the file identifier record, for which you want to view the details.
The **File Identifier Maintenance - View** screen appears.
2. Click **Edit** to edit the file identifier mapping.
The **File Identifier Maintenance - Edit** screen appears.

File Identifier Maintenance - Edit

The screenshot shows the 'File Identifier Maintenance - Edit' screen in the Futura Bank system. The interface includes a header with the bank logo, user information (Administrator Approver, ATM/Branch, English), and a welcome message for 'Mac's Admin'. The main content area is titled 'File Identifier Maintenance' and contains a 'Details' section with the following fields:

Party Id	***308
Party Name	Sunrise Coffee
File Identifier	InternalFTDelSDMC
Description	InternalFTDelSDMC
File Template	Internal Funds Transfer Delimited SDMC
Maximum No Of Records	1000
Transaction Type	Internal Funds Transfer
Accounting Type	Single Debit Multiple Credit
File Type	DELIMITED
Format Type	CSV,XML,XLS,XLSX
Approval Type	<input type="radio"/> Record Level <input checked="" type="radio"/> File Level

At the bottom of the form, there are three buttons: 'Save', 'Cancel', and 'Back'. The footer contains the copyright information: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. | Security Information | Terms and Conditions'.

Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate to previous screen
5. The **File Identifier Maintenance – Edit - Review** screen appears. Verify the details, and click **Confirm**.
OR
Click **Cancel** to cancel the operation and navigate back to 'Dashboard'.

OR
Click **Back** to navigate to previous screen

6. The success message of saving the file identifier modification appears along with the transaction reference number and status.
Click **OK** to complete the transaction and navigate back to 'Dashboard'.

FAQ

1. What are the different types of transaction types, accounting types, and file formats supported?

The following table details the different transaction types, accounting types, and file formats supported. A file template supports each of the combination.

Sr No.	Parameter	Types
1	Transaction Type	Internal funds Transfer Domestic Funds Transfer International Funds Transfer Mixed Transfer Payee Files Create Virtual Accounts, Structure, Identifier Create Invoices
2	Accounting Type	Single Debit, Single Credit (SDSC) Single Debit, Multi Credit (SDMC) Multi Debit, Multi Credit (MDMC)
3	Approval Type	File Level Record Level
4	Format Type	CSV, XML, XLS, XLSX

2. What is the business rationale of having different accounting types?

Find below the accounting types catered through file templates, and business examples:

Sr No.	Accounting Type	Business Example	Approval Type
1	Single Debit, Single Credit (SDSC)	A corporate may want to make monthly payments to its various vendors from one central account. So though the debit account is the same across all records, the credit accounts are different and the debit accounting entry is not consolidated.	Record Type or File Type
2	Single Debit, Multi Credit (SDMC)	A corporate may want to make monthly salary payments to all its employees. A single consolidated debit entry is passed, against multiple credits to different accounts.	File Type
3	Multi Debit, Multi Credit (MDMC)	This file format caters to a lot of one to one transfers between two parties for various payments. Organizations that are brokers or intermediaries in trade contracts, may find this format more suitable for their business needs.	Record Type

3. What is the business rationale of having different approval types?

A record type approval, gives more flexibility to the corporate user – in the sense, that even if some records are not validated, the file could still be processed (only those records that have passed validations) and file type approval, gives more control to the corporate user. Since all records in the file have to pass validations, before a file is processed.

4. What is the role of an administrator in file upload?

The administrator is from the corporate side, who creates file identifiers, for his party.

5. What is a 'File Upload Template'?

A template that is used to upload a file, distinguishes one file from another, depending on the transaction type of the payment, format of the file to be uploaded, approval type set-up for the file, and accounting type of a payment file is known as 'File Upload Template'.

Click **OK** to complete the transaction and navigate back to 'Dashboard'.

FAQ

1. **Can all users of a particular corporate access all file types, mapped to the corporate?**

No, only users who are mapped to particular File Identifier's can access those files. For example, only the Human Resource Department of a corporate may have access to upload / view and enquire status of salary files. Mapping File Identifier's to users thus enables access of certain types of file, to certain users.

2. **If a user is mapped to a File Identifier, and he has uploaded a file – but post this, he is no longer mapped to the File Identifier – can he view the status of the file?**

No the user will not be able to view the status of the file, if he is not mapped to it, at the point in time when he is checking for the status.

12. Reports

Using this option, Corporate Administrators can generate various adhoc and schedule banking reports. Application provides an option to generate and schedule reports using Oracle Analytics Publisher and also by using an internal application. The adoption of Oracle Analytics Publisher provides a simple and easy tool for the Operational and MIS reports

Prerequisites:

- Transaction access is provided to Corporate Administrator.
- Approval rule set up for Corporate Administrator to perform the actions.
- Oracle Analytics Publisher is configured.

Workflow

Features supported in application

Report module allows Corporate Administrator to:

- Generate and schedule Customer and Administrative Reports
- View/ Download generated Reports
- View User Report Mapping
- Create User Report Mapping
- Edit User Report Mapping
- View Scheduled Report

[Home](#)

13. Report Generation

Corporate Administrator logs into the system and navigates to Report Generation screen. On accessing 'Report Generation menu, Corporate Administrator has to select an option if an adhoc report is to be generated or report needs to be scheduled.

Reports generation is categorized as:

- Adhoc Reports: When a report needs to be generated immediately on a need basis.
- Schedule Reports: When report generation needs to be scheduled at fixed intervals e.g. daily, weekly, monthly etc.

After selecting the report generation category, user has to select a type of a report which needs to be generated. Other reports parameters with respect to each report are displayed on the screen as input fields so that report can be requested with specific data.

Note: If 2 factor authentication is enabled, the reports get generated only after successful authentication.

Corporate Administrator can also view all the reports that are scheduled and can view and edit the parameters of the scheduled reports, as per requirement. The changes made will be effective from next report generation cycle. Corporate Administrator approver can approve or reject the maintenance initiated for updating existing report schedule.

How to reach here:

Corporate Administrator Dashboard > Toggle menu > Menu > Reports > Report Generation

Report Generation

Field Description

Field Name	Description
Report Name	Select the type of report to be generated.

13.1 Adhoc Reports

Adhoc reports are generated on demand or on request. Reports can be requested from the 'Reports' screen. Generated adhoc reports can be viewed using 'My Reports' screen.

Adhoc Reports

The screenshot shows the 'Reports' section of the Futura Bank interface. The 'Adhoc' tab is selected. The 'Report Name' field is set to 'File Identifier wise Party User Ma...'. The 'Report Format' is set to 'PDF'. The 'Party ID' is '***308' and the 'Party Name' is 'Sunrise Coffee'. There are buttons for 'Generate Report', 'Cancel', and 'Clear'. A 'Tips' box on the right explains that adhoc reports can be generated for internal or customer-related reports, requiring selection of Report Name, Frequency, Duration, and Format. The footer contains copyright information for Oracle from 2006 to 2020.

Field Description

Field Name	Description
Report Name	Select the type of report to be generated.
Report Format	Select the format in which the report is to be generated. The options with Oracle Analytics Publisher are: <ul style="list-style-type: none"> • PDF • XLS The options with Internal Reporting Application are: <ul style="list-style-type: none"> • PDF • CSV

Note: Other reports parameters with respect to each report are displayed on the screen as input fields except party ID and party name (party ID and party name gets defaulted for the corporate) so that report can be requested with specific data. The input fields for each reports are mentioned under specific reports section.

13.2 Schedule Reports

The reports that are generated in specific time frame such as daily, weekly, monthly, quarterly, and annually are categorized under scheduled reports.

Schedule Reports

The screenshot shows the 'Schedule Reports' interface in the Futura Bank system. The user is logged in as 'Mac's Admin'. The interface includes a navigation menu, a search bar, and a 'Welcome' message. The main content area is titled 'Reports' and has two tabs: 'Adhoc' and 'Schedule'. The 'Schedule' tab is active, showing a form with the following fields:

- Report Name: File Identifier wise Party User Ma...
- Report Format: PDF
- Select Frequency: DAILY
- Start Generating: 05/13/20 10:25
- Stop Generating: 05/27/20 10:25
- Party ID: ***308
- Party Name: Sunrise Coffee

At the bottom of the form, there are three buttons: 'Schedule Report' (highlighted in blue), 'Cancel', and 'Clear'. Below the buttons is a link: 'View Scheduled Reports'. On the right side of the form, there is a 'Tips' box with a lightbulb icon and the following text:

Tips
With this option, you can schedule reports which are internal or related to customers. You need to select the Report Name, Frequency and Duration for which you want to generate it. Once submitted you can either go to My Reports option and can view or download reports from there or can simply click on View Scheduled Reports link provided on the same page.

The footer of the page contains the text: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. | Security Information | Terms and Conditions'.

Field Description

Field Name	Description
Report Name	Select the type of report to be generated.
Report Format	Select the format in which the report is to be generated. The options with Oracle Analytics Publisher are: <ul style="list-style-type: none"> • PDF • XLS The options with Internal Reporting Application are: <ul style="list-style-type: none"> • PDF • CSV
Select Frequency	Select the frequency at which the report is to be generated. The options are: <ul style="list-style-type: none"> • Once • Daily • Weekly • Monthly

Field Name	Description
Start Generating	Start date of the date range from which you want to generate the report.
Stop Generating	End date of the date range up-to which you want to generate the report.
View Scheduled Report	Link to view all the reports that are scheduled under a party mapped to the logged in user.

13.2.1 View Scheduled Reports

Using this option, Corporate Administrator can view all the reports and its details that are scheduled under a party mapped to the user.

To view the scheduled reports:

1. Click the **Scheduled** tab. The scheduled report generation screen appears.
2. Click the **View Scheduled Reports** link. The **Scheduled Reports** screen appears.

Scheduled Reports

The screenshot displays the 'Scheduled Reports' interface. At the top, there is a navigation bar with user information: 'System Administrator', 'ATM/Branch', 'English', and 'UBS 14.3 AT3 Branch'. Below this is the 'futura bank' logo and a search bar. The main content area is titled 'Scheduled Reports' and features a search filter for 'Report Name' with a 'Select' dropdown. Below the filter are 'Search', 'Cancel', and 'Clear' buttons. A table lists the scheduled reports with the following data:

Report Name	Report Id	Schedule Frequency	Start Date	End Date
Billar Registration Report	300424390012	DAILY	2020-04-30T19:25:00	2020-05-31T19:25:00

At the bottom of the table, there is a pagination control: 'Page 1 of 1 (1 of 1 items)' with navigation arrows.

Field Description

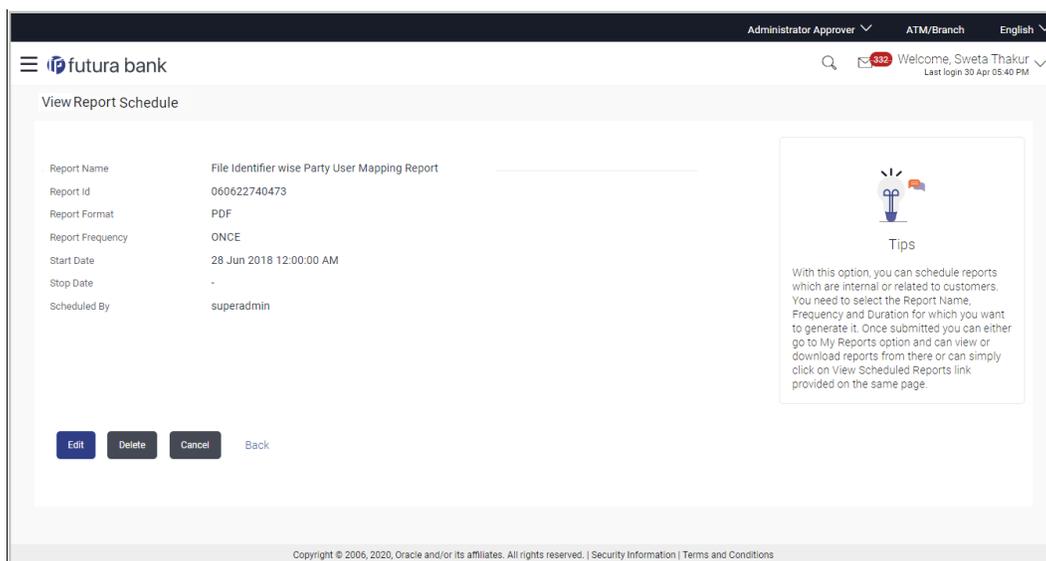

Field Name	Description
Search	

Field Name	Description
Report Name	Name of the scheduled reports.
Search Results	
Report Name	Name of the scheduled reports.
Report ID	IDs of the reports that are scheduled.
Schedule Frequency	The frequency at which the report is scheduled.
Start Date	Date from which the report will be generated as per the frequency defined.
End Date	Date till which the report will be generated as per the frequency defined.

3. Click on desired **Report ID** to view the details of the scheduled report. The **View Reports Schedule** screen appears.
OR

Click on the  icon against the Report ID, to select the **Report from the list**, which you want to view. The searched report appears in the search result section. Click the **Report ID** to view the details of the scheduled report.

View Reports Schedule

The screenshot shows the 'View Report Schedule' interface. At the top, there is a navigation bar with 'Administrator Approver', 'ATM/Branch', and 'English'. Below this, the 'futura bank' logo is visible. The main content area displays the following details:

- Report Name: File Identifier wise Party User Mapping Report
- Report Id: 060622740473
- Report Format: PDF
- Report Frequency: ONCE
- Start Date: 28 Jun 2018 12:00:00 AM
- Stop Date: -
- Scheduled By: superadmin

At the bottom left, there are buttons for 'Edit', 'Delete', 'Cancel', and 'Back'. On the right side, there is a 'Tips' section with a lightbulb icon and the following text:

Tips
With this option, you can schedule reports which are internal or related to customers. You need to select the Report Name, Frequency and Duration for which you want to generate it. Once submitted you can either go to My Reports option and can view or download reports from there or can simply click on View Scheduled Reports link provided on the same page.

At the bottom of the page, there is a copyright notice: Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. | Security Information | Terms and Conditions

Field Description

Field Name	Description
Report Name	Name of the scheduled report.
Report ID	ID of the scheduled report.
Report Format	The report format of the scheduled report.
Report Frequency	The frequency at which the reports are scheduled to run.
Start Date	Date from which the report will be generated as per the frequency defined.
Stop Date	Date till which the report will be generated as per the frequency defined.
Scheduled By	User ID of the user who scheduled the report generation.

13.2.2 Edit Scheduled Reports

Using this option, Corporate Administrator can edit the parameters defined for scheduled reports. These changes are applied to generate the reports of next scheduled cycle.

To edit the scheduled reports:

1. Click the **Schedule** tab. The scheduled report generation screen appears.
2. Click the **View Scheduled Reports** link.
The **Scheduled Reports** screen appears.
3. Click on desired **Report ID** to edit the details of the scheduled report. The **View Report Schedule** screen appears.
4. Click **Edit** to modify the report schedule. The **Edit Report Schedule** screen appears.
OR
Click **Delete** to delete the report schedule.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate to the previous screen.

Edit Reports Schedule

The screenshot displays the 'Edit Report Schedule' interface. The form contains the following data:

Report Name	File Identifier wise Party User Mapping Report
Report Id	060622740473
Report Format	PDF
Report Frequency	ONCE
Start Generating	06/28/18
Scheduled By	superadmin

At the bottom of the form are buttons for 'Save', 'Cancel', and 'Back'. A 'Tips' box on the right states: 'With this option, you can schedule reports which are internal or related to customers. You need to select the Report Name, Frequency and Duration for which you want to generate it. Once submitted you can either go to My Reports option and can view or download reports from there or can simply click on View Scheduled Reports link provided on the same page.'

Field Description

Field Name	Description
Report Name	Name of the scheduled reports. Name of the report will be displayed in non-editable form.

The respective report generation screen appears.

User List Report - Adhoc Report

The screenshot displays the 'Generate Report' interface. At the top, there's a navigation bar with 'futura bank' logo, a search bar, and user information: 'Welcome, deep corpuser' with a last login of '10/20/22, 4:56 PM'. Below the navigation, the 'Generate Report' section has two tabs: 'Adhoc' (selected) and 'Schedule'. The 'Adhoc' tab contains several form fields: 'Report Name' (User List Report), 'Report Format' (CSV), 'User Type' (Corporate User), 'Party ID' (000439), 'Start Date' (10/5/22), and 'End Date' (11/2/22). At the bottom of the form are three buttons: 'Generate Report', 'Cancel', and 'Clear'. On the right side, there is a 'Tips' box with a lightbulb icon and text: 'With this option, you can generate adhoc reports which are internal or related to customers. You need to select the Report Name, Frequency, Duration and Format in which you want to generate it. Once submitted you can view and download the generated reports from My Reports option.'

Field Description

Field Name	Description
Report Name	Select the type of report to be generated.
Report Format	Select the format in which the report is to be generated The options with Oracle Analytics Publisher are: <ul style="list-style-type: none"> • CSV
User Type	The user type for whom the report is to be generated.
Party ID	The party ID of the user for whom the report is to be generated.
Duration	The period for which the report is to be generated. Start date of the date range from which you want to generate the report. End date of the date range up-to which you want to generate the report

- From the **Report Format** list, select the appropriate report output format.
- In the **Party ID** field, enter the party ID.
- From the **Duration - From Date** and **Duration - To Date** list, select the appropriate duration.
- .
- Click **Generate Report** to view & generate the report.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Clear** to reset the search parameters.
- The success message along with the reference number, status and **Report Request Id** appears. Click **Ok** to close the screen and navigate to the dashboard.
OR
Click on the **View Reports** link to download the report. The user is directed to the **My Reports** screen. The list of reports appears.
OR
Click **Generate another Adhoc Report** to generate another report.
- In the **My Reports** screen, click on desired **Report Sub ID** to view and download the generated report. A report will be generated in the format specified at the time of scheduling or generating an adhoc report.

Note: You can also download the requested report from [Administrator Dashboard > Toggle Menu > Reports > My Reports](#).

For reference, a specimen of the report generated is given below:

Field Name	Description
Report Parameters	
User Type	The Type of the user for whom the report has been generated.
Party ID	The party ID of the user for whom the report has been generated.
Group Corporate ID	The Group Corporate ID of the user for whom report has been generated
Start Date	Date from which the report is generated.
End Date	Date till which the report is generated.
Group Corporate ID	The Group Corporate ID of the user for whom report has been generated
Group Corporate Name	The group corporate name of the user for whom report has been generated
User Name	The user name of the user for whom the report has been generated.
Title	Title of the user.
First Name	First name of the user.
Middle Name	Middle name of the user.
Last Name	Last name of the user.
Date of Birth	Date of birth of the user.
Email ID	Email ID of the user.
Contact Number	Contact number of the user.
Status	Status of the user.
Touchpoints	Name of the touch points.

Field Name	Description
Primary Entity	Name of the primary entity.
Primary Party	Name of the primary party.
Accessible Party	Name of the accessible party.
Accessible Entity	Name of the accessible entity.
Primary Party (Accessible Entity)	Name of the primary entity.
Accessible Party (Accessible Entity)	Name of the accessible party.
Roles	Details of user role.
User Creation Date/Time	Details of user creation date/time.
Created By	Name of the user who created report.

13.11 Approval Rule Report

Approval Rule Report provides the list of rules and workflows belonging to a group corporate. Administrator has to provide a party ID for which the Party wise Workflows Report is to be generated.

Corporate Administrator has to select a format in which the report needs to be generated. The report supports only Adhoc report generation. This report will not be available under 'Schedule' option.

How to reach here:

Corporate Administrator Dashboard > Toggle menu > Menu > Reports > Report Generation

13.11.1 Approval Rule Report - Adhoc Report

Approval Rule Adhoc reports are generated on demand or on request. Generated reports can be viewed using 'My Reports' screen.

To generate the Approval Rule adhoc report:

1. Click the **Adhoc** tab.
2. From the **Report Name** list, select the appropriate report to be generated. The receptive report generation screen appears.

To Amount	The maximum amount for the transactions allowed for the user.
Approval Required	Field displays whether approval is required or not for the set condition.
Workflow Preference	The preference of the approval workflow.
Workflow Code	Code of the approval workflow.
Workflow Description	The approval workflow description.
Levels in Workflow	Approval levels for a user / user group.

14. My Reports

This option enables the Corporate Administrator to download the generated reports.

Corporate Administrator logs into the system and navigates to My Reports screen. On accessing 'My Reports' menu, last 10 reports which generated for a party are listed with the respective report status. User can choose to search the specific report using the search criteria or can opt to view/download detailed report.

Reports are categorized as:

- Adhoc Reports
- Scheduled Reports

How to reach here:

Corporate Administrator Dashboard > Toggle menu > Menu > Reports > My Reports

14.1 My Reports - Adhoc

Adhoc reports are generated on demand or on request. Reports can be requested from the 'Reports' screen. Adhoc reports can be viewed using 'My Reports' screen.

To view and download the generated adhoc reports:

My Reports - Adhoc

The screenshot displays the 'My Reports' page for a user named Sweta Thakur. The page is divided into 'Adhoc' and 'Scheduled' tabs, with 'Adhoc' selected. A search bar and filters for 'Report Id', 'Report Name', and 'Generation Date' are present. Below the filters is a table of reports:

Report Name	Report Sub Id	Generation Date and Time	Status
File Identifier wise Party User Mapping Report	300468758042-001	2020-04-30T14:11:33	PROCESSED
Bill Payment Pay Later Report	300436553909-001	2020-04-30T13:54:10	PROCESSED
Date wise User creation Report	290447536562-001	2020-04-29T11:43:04	PROCESSED
API Consumption Report	290458144664-001	2020-04-29T11:36:53	PROCESSED
Date wise User creation Report	290499418217-001	2020-04-29T09:51:32	PROCESSED
Date wise User creation Report	290401411813-001	2020-04-29T09:28:33	PROCESSED
API Consumption Report	290448805028-001	2020-04-29T06:49:04	PROCESSED
API Consumption Report	290411792479-001	2020-04-29T06:49:04	PROCESSED
Date wise User creation Report	280451105013-001	2020-04-28T09:54:37	PROCESSED
API Consumption Report	280418710919-001	2020-04-28T09:53:09	PROCESSED

At the bottom of the table, it shows 'Page 1 of 5 (1-10 of 46 items)'. A 'Cancel' button is located at the bottom left of the report list area. A note on the right side of the page reads: 'You can view the list of all adhoc and scheduled reports from here which are already generated, failed or still under processing.'

Field Description

Field Name	Description
Search	
Report ID	Report ID to search specific report. All the report IDs will be listed.
Report Name	Report Name to search specific report. All the reports with the names will be listed.
Generation Date	To search generated reports between specific date ranges. <ul style="list-style-type: none"> • From date – to specify the date from which the generated reports to be searched. • To date – to specify the date till which the generated reports to be searched.
Report List	
Report Name	Report Name to search specific report. All the reports with the names will be listed.
Report Sub ID	Links of view the specific report.
Generation Date and Time	Report generation time and date.
Status	Status of generated reported. The status can be: <ul style="list-style-type: none"> • Processed • Pending • Error

1. Click search icon  to search the reports with given search criteria. The search results matching to the search criteria are shown on the same screen.
2. Click on **Report Sub ID** hyperlink to view the detailed report. (Refer specimen provided for each report)

14.2 My Reports - Scheduled

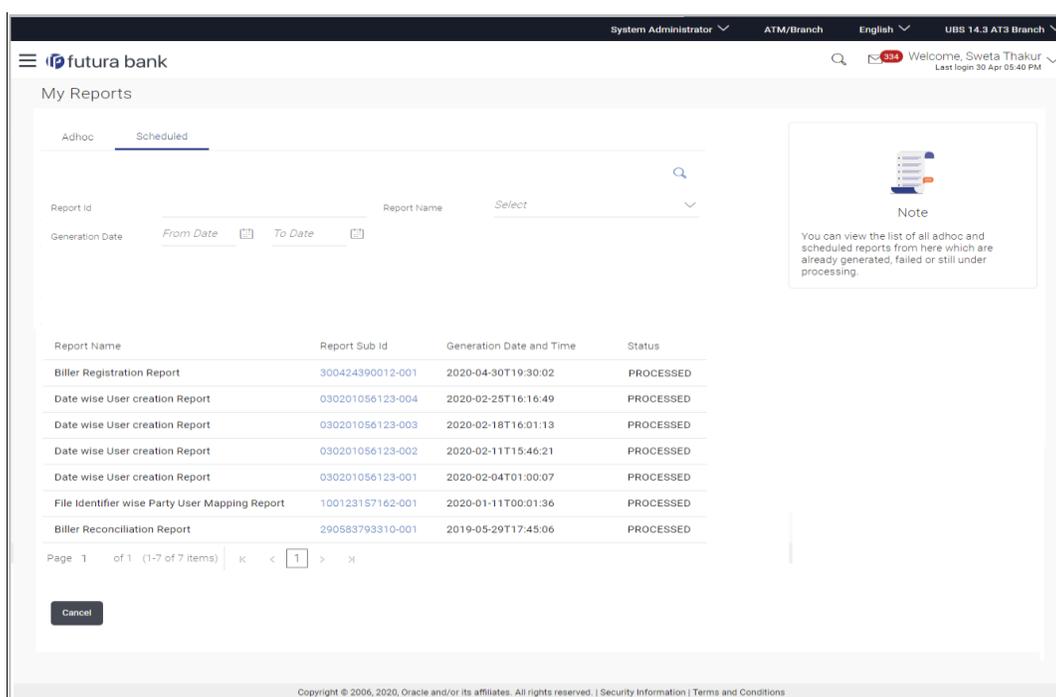

The reports that gets generated on a specific frequency such as daily, weekly, monthly, quarterly, and annually are categorized under scheduled reports.

To view and download the generated scheduled reports:

1. Click the **Scheduled** tab. The list of scheduled reports appears.
OR

Click search icon  to search the reports with given search criteria. The search results matching to the search criteria are shown on the same screen.

My Reports - Scheduled

The screenshot displays the 'My Reports - Scheduled' page. At the top, there are navigation tabs for 'Adhoc' and 'Scheduled', with 'Scheduled' being the active tab. Below the tabs is a search area with a magnifying glass icon. The search criteria include 'Report Id', 'Report Name' (with a dropdown arrow), and 'Generation Date' (with 'From Date' and 'To Date' fields). A table below the search area lists the following reports:

Report Name	Report Sub Id	Generation Date and Time	Status
Biller Registration Report	300424390012-001	2020-04-30T19:30:02	PROCESSED
Date wise User creation Report	030201056123-004	2020-02-25T16:16:49	PROCESSED

FAQ

1. Can I choose a format in which a report is to be downloaded from My Reports screen?

A report can be downloaded in a format selected while generating a report.

2. I can view and download a report which is generated by other administrator users?

Yes, you can view and download the reports which are generated by other administrator users of the same party using **My Reports** screen.

[Home](#)

15. User Alerts Subscription

Using this option Corporate Administrator can subscribe alerts for a user for selected events. The Corporate Administrator subscribes users to alerts, delivered through Email, SMS, through push notification or in their on-screen mailbox.

Note that this functionality is for non-mandatory alerts.

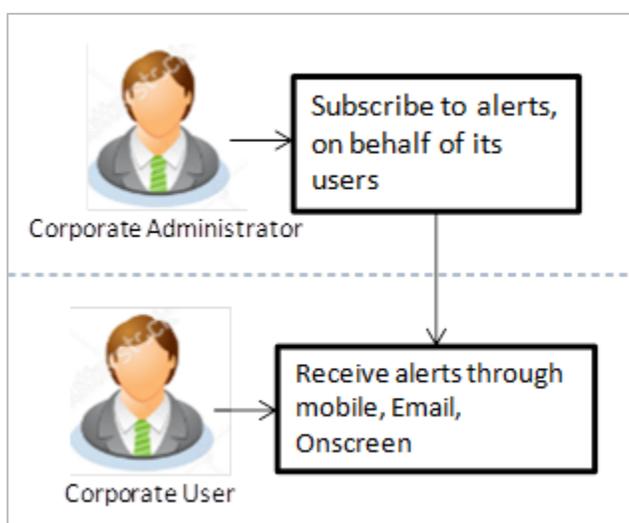

The subscribed alert types are:

- User Level Alerts
- Customer Level Alerts
- Account Level Alerts

Prerequisites

- Set-up Transaction access
- Set-up Approval Rules
- Maintain Alerts, so that these are available for subscription

Workflow

Features Supported In Application

- Search Subscribe Alerts
- Update Subscription

How to reach here:

Corporate Administrator Dashboard > Toggle menu > Menu > Others > User Alert Subscription

15.1 User Alerts Subscription - Search

Using this option, administrator can search and view the details of alerts subscribed. All the alerts subscribed for a party users will be displayed in the respective categories viz. Current and Savings, Term Deposits, Loans etc. in a table.

User Alert Subscription

To view subscribed alerts for a User:

1. From the **User Name** list, select the appropriate option whose alerts you wish to view.
2. In the **User Name** field, enter the user name.
3. Click **Search**.

The search result appears based on the search criteria.

OR

Click **Back** to go back to previous step.

Module Name	<p>Name of the module to which alerts is maintained.</p> <p>The options can be:</p> <ul style="list-style-type: none"> • CASA • Loan • TD • Profile • Payments
Account Number	<p>Account number for which the user is viewing/ updating the alert subscription.</p> <p>Note:</p> <ul style="list-style-type: none"> • Corporate Admin will be allowed to select and setup alert subscription for multiple or all accounts in single maintenance. • Once the subscription is done for an account that account will be shown with a 'Subscribed' tag. • Corporate admin will be able to quick search account number from search panel for the alert subscription
CASA /TD/ Loans/ Payments	
Subscribed alerts displayed in tabs for all modules that the user has access to with the respective account numbers.	
Alert Name	The alert type mostly in the form of an event for which an alert is to send to a user.

Field Name	Description
Send Alert Via	<p>The delivery mode through which the alert is to be sent.</p> <p>The options are:</p> <ul style="list-style-type: none"> • Email: alert is to be sent as an email • SMS : alert is to be sent as an SMS on the user's mobile number • On screen Mailbox: on screen, alert sent to as an email to user's mailbox • Push Notification: notifications are sent as a banner or pop-up message on the user's mobile number <hr/> <p>Note: The selected mode has  icon against it.</p> <p>Corporate Admin will be allowed to map all modes of alerts subscription for all the transactions in one go for the selected account</p>

6. Click against the particular account number to update the details.

a. Click  to send alert as an email.
OR

Click  to send alert as a mail to secure mailbox.
OR

Click  to send alert as SMS on the user's mobile number.
OR

Click  to send alert via push notifications. Push notification appears as a banner or pop-up message on the user's mobile number.

Note: The selected mode has  icon against it.

7. Click **Save** to save the Alert Subscription.

8. The **User Alert Subscription - Edit -Review** screen appears post necessary validations. Verify the details, and click **Confirm**.

OR
Click **Cancel** to cancel the transaction.

OR
Click **Back** to cancel the operation and to go back to the previous screen.

9. The success message of Alert Subscription appears along with the transaction reference number. Click **OK** to complete the transaction and navigate back to 'Dashboard'.

FAQ

- 1. Which alerts customer can subscribe or unsubscribe, for the retail or corporate user?**

The alerts which are not mandatory can be subscribed or unsubscribed, by the Corporate Administrator for the retail/corporate user.

[Home](#)

16. Mailbox

Corporate administrator can view all the alerts which are auto generated by the Bank on various events/transactions performed by logged in user. User can view the alert details but is not allowed reply to the alerts received in his mailbox –Alerts section. Count of unread alerts if any is displayed on the screen.

Pre-Requisites

- Alerts, notifications and the mails to be sent are configured by the bank on various events.

Features supported in Application:

- View summary of Alerts, Mails, Notifications triggered
- View specific Alerts, mails, notification details
- Delete Alerts, mails, notifications

How to reach here:

Corporate Administrator Dashboard > Toggle Menu > Menu > Mailbox > Mails
OR

Corporate Administrator Dashboard > Click 

16.1 Mails

The following features are available under Mails:

- **Inbox:** This folder displays all the mail messages received by the user.
- **Sent Mails:** This folder displays the list of mail messages sent by the user to the bank.
- **Deleted Mails:** This folder contains the list of mail messages deleted by the user from the inbox and the sent mail folders.

How to reach here:

Corporate Administrator Dashboard > Toggle Menu > Menu > Mailbox > Mails
OR

Corporate Administrator Dashboard > > Click  > Mails > View All

16.1.1 Inbox

Using this feature, the user can view the messages received in his Inbox. The user can view an individual message by clicking on the subject of the specific mail.

How to reach here:

Corporate Administrator Dashboard > Toggle Menu > Menu > Mailbox > Mails > Inbox
OR

Access through the kebab menu of any other screens available under Mailbox

To view received mails:

6. The list of received messages appears on the **Inbox** screen. Click on the subject link of an individual message to view the details of that message.

22. Forgot Password

The login password is the password using which the user can log into the internet banking platform. The user cannot access his bank accounts without this password. The Forgot Password feature enables users to reset their login password.

The user is required to enter his User ID and Date of Birth. Post successful validation of the user's details, user is asked to enter the second factor authentication details (as per the authentication mode maintained by the Bank).

Once the user is authenticated, user will receive a link to generate the new password, on his registered email ID.

Pre-requisites

- The user must have valid login credentials to access the digital banking platform.
- The system administrator must have setup 2 factor authentication for Forgot Password.

Features Supported In the Application

- User Verification
- New Password Creation

How to reach here:

Portal > Forgot Password

To reset the password:

1. In the **Login** page, click **Forgot Password**. The **Forgot Password** screen appears.
