3. Pre-Approved Home Loans Application

As the name suggests, a pre-approved home loan is an in-principle approval for a home loan given on the basis of the applicant's income, financial position and credit worthiness. Pre-approved home loans are very often applied for before a property is finalised. Hence, when you apply for a pre-approved home loan, the financial institution or bank will decide whether to approve the home loan on the basis of your financial health. The bank will evaluate your credit-worthiness and will determine the value of the home loan that they are willing to approve in principle. There is no remittance of the actual loan that takes place when the financial institution or bank approves the pre-approved home loan. It is important to note that a pre-approval letter is not an offer of a loan.

A pre-approval letter is a guarantee that the bank will sanction the loan provided that the applicant's information and documents are verified successfully. An applicant is able to form an understanding of his/her budget to purchase a home on the basis of the pre-approval letter received by the bank. If the loan amount being offered by the bank is desirable, the applicant can go ahead and convert the pre-approved home loan application into an actual home loan application.

The pre-approved home loan application has been built so as to capture basic information pertaining to the property being purchased, loan requirements as well as basic personal, employment and financial information of the applicant. Generally, the applicant will not be required to upload any documents or to provide any form of identity proof while applying for a pre-approved home loan. However, if required by the bank, this step can be configured and will be part of the application form.

The application tracker has been built so as to enable tracking of the application once it has been submitted. The application tracker also enables the applicant to retrieve and complete an application that has been saved. Additionally, the applicant can view details as defined in the application form in PDF format. Once a pre-approval offer has been sanctioned by the bank, details of the same will appear under the actions section of the application tracker details page. The applicant can view details of pre-approval.

Note:
1) Incase the Upload Documents step is required by the bank to be part of the application form, the same can be configured from back end.
2) Pre-approved home loan offer details including offer letter document will not be available to view through online banking in this release.
Subsequently, the feature to convert a pre-approved home loan into an actual home loan from the online banking application, will not be supported in this release.
3) OBDX is integrated with Oracle KYC to fetch the applicant's risk level (high risk or low risk) along with the reference number for the same as generated in the Oracle KYC system, at the time of application submission. OBDX will further send this information to the mid office system to be utilized as required.

Following are the steps involved in the application submission:

• **Product Selection**: Pre-approved home loans are available for application under the Home Loans category. All home loans for which pre-approval are enabled, will have a link available on the product card along with the Apply option.

• **Kick Off**: This page serves as an introduction to the application form. The various steps involved in an application are displayed on this page. As an applicant, you can identify how you are going to proceed with the application. If you are a new/unregistered user, you can continue as a guest, or if you are an existing online banking customer you can login with your online banking credentials to have your information pre-populated in the application.

ORACLE®

- **Mobile Verification:** This step is applicable if you are filling out the application as a new/unregistered user. You will be instructed to enter your mobile number, after which the system will identify whether your mobile number is already registered with the bank or not. You will then be required to enter the OTP sent to this mobile number in order to proceed with the application form.

- **Upload Documents:** This step will be part of the application form, only if the bank wants to enable this feature in the pre-approved home loan application form. If configured, the applicant will be able to upload documents supporting the pre-approved home loan application.

- **Loan Requirements**: In this section, you are required to specify information related to the loan along with basic details of the property for which you wish to avail the loan.

- **Personal Information**: This section captures information pertaining to your personal information which will include your full name, date of birth, address details, etc.

- **Employment Information**: You can provide information pertaining to your employment, in this step. In addition to defining information of your primary employment, you can also furnish past employment details and/or other current employment details.

- **Financial Profile**: In this section, you can furnish details pertaining to your Income, Expense, Assets and Liabilities.

- **Review and Submit**: Once you have filled out all the information required in the application form, you will be displayed this information on the review page. You can verify the details provided and if required, can edit the information in any sections by selecting the option provided against each section.

- **Terms of Service**: On having reviewed the application, you can then proceed to view the terms and conditions of the pre-approved home loan you are applying for.

- **Confirmation**: Once you have submitted your application after having reviewed it and having accepted the terms and conditions, a confirmation page will be displayed. This page will display a success message along with the application reference number. You can track your application on the basis of this reference number. Additionally, this page will also contain a button, by clicking on which you can navigate to the application tracker.

Apart from the **Review and Submit** and **Confirmation** steps, the sequence of the remaining steps may vary based on the configuration maintained for the product applications, by the bank.

Pre-Approved Home Loan Applications in the Application Tracker

Applicants can utilize the application tracker to track applications that have been submitted and also to retrieve and complete incomplete applications. In the case of pre-approved home loans, once a pre-approval offer has been generated by the bank, the status of the application will be updated to display the same.

Note: As of this release, only the status of offer generation will be displayed in the application tracker. No offer document or details will be reflected in the application tracker.

ORACLE®

As is the case with all product applications, all submitted pre-approved home loan applications will be listed as cards under the **Your Submitted Applications** section of the application tracker listing page. Applications that are in incomplete state will be listed under the **Your In-Draft Applications** and any applications for which a pre-approval letter has been sanctioned and the same has been converted into an actual home loan, will be listed under the **Your Processed Applications** section. This section will also list down any pre-approved home loan applications of which sanctioned pre-approval offer has expired without the application being converted into an actual home loan application.

The details of a submitted pre-approved home loan application will be displayed on the application tracker details page which can be arrived at by selecting the specific card on the application tracker listing page. In case the bank has generated a pre-approval offer, the same will be available on this page under the **Actions** section.

Note: For more details on the application tracker please review the **User Manual Oracle Banking Digital Experience Retail Originations Application Tracker.**

3.14 <u>Existing User</u>

An application form being initiated by an existing online banking customer of the bank (registered user) will differ from that of one being initiated by a new/unregistered user.

You will be able to apply as an existing customer either by selecting the provided option on the kickoff page and proceeding to specify your login credentials (applicable if you have applied via the bank portal page) or by selecting the product of choice from the product showcase available to you post login via the hamburger menu. In either case, the application form will vary from that of a prospect customer's.

The pre-approved home loan application form for existing customers will comprise of the following sections:

1. **Upload Documents** – This section will be part of the application form only if it has been configured by the bank for pre-approved home loan applications and certain mandatory documents are not already available against your records in the bank's database.

2. **Employment Information** – This section will only be part of the application form if employment information is to be captured for the product you have selected and if your employment information is either not maintained with the bank at all or if the information is maintained but is not current.

3. **Financial Information** – Like employment information, the financial information section will also be part of the application form only if it is configured for the product you have selected as well as certain factors such as whether your financial information is already maintained with the bank or not and if maintained whether the information is current or not. Hence, the financial information section will only be part of the application form if your information is either not maintained with the bank at all or if the information is maintained but is not current.

4. **Loan Information** – This section will be part of the application form and you will be required to specify details pertaining to the loan i.e. the amount, tenure etc. along with property details.

5. **Terms of Service** – You will be required to read through and accept the terms and conditions related to the online application of the pre-approved home loan you have selected.

6. **Confirmation** – Once you have submitted your application, you will be displayed a confirmation page. This page will contain a success message along with the application reference number that you will be able to use to track your application in the application tracker.

FAQ

1. **Can I proceed with the application if I am an existing customer of the bank but do not have online banking access?**

You will need to first onboard yourself on the digital banking platform. You can do so by selecting the 'Register for online banking access' link on the kick off page or by selecting the 'Register Now' option provided on the login page. Once you have completed the registration process, you can login and proceed with application initiation.

2. **Can I add a joint applicant while applying for any of the products?**

No, as of now you can apply only as a single applicant. Adding joint applicants is not supported currently.

3. **In case my application is saved as a draft, can I request a bank executive to complete this application on my behalf?**

Only you can resume and complete a draft application.

4. **If I am applying for a product as an existing user, can I update my personal information while initiating an application?**

No, you cannot update any personal details while applying as an existing online banking customer. You may contact the bank to update your personal information before applying for a new product.

5. **For how long I can access and resume my applications that are saved as drafts?**

This is based on the Bank's purging policy. The draft applications will be available for x days in the application tracker before they are purged by the bank.

6. **Can I apply for a product that I have already applied for and that the bank is currently processing?**

Yes, you can still submit an application for the same product. The decision to process or reject either of the two (or more) applications will rest on the bank.

7. **How do I view the pre-approval offer once it has been generated by the bank?**

You can view the pre-approval offer in the application tracker details page under the Actions section.

8. **I have read the pre-approval offer details and now want to apply for a home loan. How do I proceed to convert the pre-approved loan application into an actual home loan application?**

Currently, this feature is not supported through online banking. You may visit any branch of the bank in order to convert the pre-approved home loan into an actual home loan application.

ORACLE

9. **I have started my application on my laptop. However, I have realized that some of the documents that I need to upload are available on my tablet. Do I need to abandon the application that I started on my laptop to restart the entire process on my tablet?**

No, you can scan the QR code available on every step of the application form, post the Mobile Verification step, and resume the application from your tablet or mobile device.

10. **Can bank administrators define the sequence in the steps of the application forms?**

No, as of now there is no front end to enable bank administrators to configure the origination workflow from the OBDX platform.

11. **How does OCR work?**

The bank can integrate with the third party adapters that provide OCR services, through available hook points. The system will be able to prefill certain fields in the Personal Information section from data fetched from the uploaded ID proof.

12. **For how long will a pre-approval offer be valid once it has been generated by the bank?**

Once generated, the pre-approval offer will be valid for a certain period of time. This will be defined by the bank and can vary for each pre-approved loan product. Once this period ends the pre-approval offer will expire.

You can, however, still apply for a home loan directly by selecting the home loan product category from the product showcase or can even apply for a pre-approved home loan again.
