# 1. Preface

## 1.1 Intended Audience

This document is intended for the following audience:

- Customers
- Partners

## 1.2 **Documentation Accessibility**

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <a href="http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc">http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc</a>.

## 1.3 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit

http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info or visit

http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs\_if you are hearing impaired.

## 1.4 Structure

This manual is organized into the following categories:

*Preface* gives information on the intended audience. It also describes the overall structure of the User Manual.

Introduction provides brief information on the overall functionality covered in the User Manual.

The subsequent chapters provide information on transactions covered in the User Manual.

Each transaction is explained in the following manner:

- Introduction to the transaction
- Screenshots of the transaction
- The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.
- Procedure containing steps to complete the transaction- The mandatory and conditional fields of the transaction are explained in the procedure. If a transaction contains multiple procedures, each procedure is explained. If some functionality is present in many transactions, this functionality is explained separately.

## 1.5 Related Information Sources

For more information on Oracle Banking Digital Experience Release 21.1.2.0.0, refer to the following documents:

- Oracle Banking Digital Experience Licensing Guide

## 3. Apply For New Facility

Using this option, corporate customers can apply for a new credit facility by providing the information about their funding requirement, collateral details and uploading the supporting documents. Credit Facility along with its multiple child lines can be applied in a single application.

Credit Facility application goes through various stages starting from applying for a facility till sanction of facility.

On submission of Credit Facility Application from OBDX side, the request is sent to the mid office/back office system for further processing. Bank staff can view and process the application using back office or mid office systems integrated with OBDX.

Corporates can track the status of the facility applications using Application Tracker available within OBDX.

#### Note:

1) Corporate Credit Facility Management module support is currently not supported for mobile and tablet devices.

2) A new Facility can be applied by only those Corporates who have an existing Liability ID (maintained in ELCM application).

#### Prerequisites:

- Party preference is maintained
- Corporate users are created
- Approval rule set up for corporate user to perform the actions

#### How to reach here:

Credit Facility Management – Overview > Quick Links > Apply for New Facility OR

Toggle Menu > Credit Facility Management > Apply for New Facility

### To apply for a new facility:

1. Navigate to the Facility Application screen. The Facility Application – Summary page appears.

### Facility Application – Summary Page

Credit Facility Application summary page displays the summary of all steps involved in applying a facility along with the completion status of each step.

Following are the steps that are involved for applying a credit facility:

- **Facility Requirements**: In this step, the user needs to enter the facility requirement like facility amount, duration for which the credit facility is needed, category of the facility etc.
- **Collaterals**: This section lists all the collaterals mapped to the party. The user can add a new collateral by entering the required information like collateral type, description, purpose etc. in the Add Collaterals form.
- **Upload Documents**: This section lists all the documents, which are required to be submitted as part of facility application and the option to upload the document.

Screen also shows the overall facility application completion status with a progress bar. User can start filling up the application in any sequence i.e. user can click on any step and fill in the details. Application can be submitted for processing, only after filling the mandatory information required as a part of each step.

23. Click **Continue** to go to the next step. The **Facility Application - Upload Documents** screen to upload the documents appears.

OR

Click <sup>8</sup> and then click **Edit** to edit the details of newly added collateral. The **Add Collateral** overlay screen appears in the editable form.

OR

Click <sup>8</sup> and then click **Remove** to remove the newly added collateral.

OR

Click Add Collaterals, if you want to add more collaterals.

OR

Click Load More Collaterals, to load more collaterals.

OR

Click **Save as Draft** to save the application as a draft. The application gets saved as a draft, prompting the user to save the application with the draft name. (For more information, refer <u>Save as Draft</u> section.)

OR

Click **Cancel** to cancel the transaction and navigate to the **Dashboard** Screen. OR

Click **Back** to navigate back to the previous screen.

### Facility Application - Upload Documents

Following screen is shown when user clicks on 'Upload Documents' step from the 'Facility Application Summary Page' or on accessing the step from breadcrumb option available as a part of each step details screen or by clicking on continue on the collateral details page.

As a part of this step, corporate user can see the list of documents that needs to be submitted for applying a facility. User can upload the documents and proceed with the facility application. The list of documents displayed here are fetched from integrated mid-office/back office application.

## 4. Amend Facility

This option enables the corporate user to request for changes in an existing credit facility. These amendments could be with respect to enhancement of the limits, extension of tenure, addition of new collateral or upload of new documents.

Similar to New Facility origination, Facility Amendment also has various stages, using the OBDX platform user can only request for modification in his/her existing facility

On submission of Amendment of Credit Facility Application from OBDX side, the request is sent to the bank for further processing. Bank staff can view and process the application using back office or mid office systems integrated with OBDX.

Corporates can track the status of the amendment applications using Application Tracker available within OBDX.

### **Prerequisites:**

- Party preference is maintained
- Corporate users are created
- Approval rule set up for corporate user to perform the actions

#### How to reach here:

Credit Facility Management – Overview > Quick Links > Amend Facility OR Toggle Menu > Credit Facility Management > Amend Facility

### OR

Toggle Menu > Credit Facility Management > Credit Facility > Facility Details > Amend Facility

To modify the details of an existing facility: (in case the user has not clicked on Amend Facility

from the Facility details screen)

1. Click the **Amend Facility** option (from toggle menu or from Quick links). A pop up having option to select the Facility ID appears.

### Amend Facility - Select Facility ID

Facility ID	List of all the Facility IDs mapped to the corporate.

- 2. From the Facility ID field, select the appropriate facility ID.
- Click Proceed. The Facility Application Amendment screen appears. OR

Click **Cancel** to cancel the transaction and navigate to the Dashboard Screen.

### Facility Application – Summary Page

Credit Facility Amendment Application summary page displays the summary of all steps involved in modification of a facility.

Following are the changes that the user can modify in an existing facility:

- Facility Amount
- Facility Tenure
- Addition of a New Sub-facility
- Addition of a new Collateral
- Upload of additional documents

User can select any of the step for modification from the home page, i.e. user can click on any step and modify the details.

#### **Field Description**

Field Name	Description				
------------	-------------	--	--	--	--

### Add Sub Facility Overlay

Facility Currency The currency in which sub facility is to be applied.

Facility Amount The amount for which the sub facility is to be applied.

**For how long do** The tenure for the sub facility in 'Year' and 'Months'. **you need this** facility?

Field Name	Description
In which category funds are required?	The facility category under which sub facility is to be applied.
What is the purpose of this fund?	The purpose for applying the sub facility.
Do you have any specific instructions for us?	The remarks/ instructions that needs to be communicated to the bank.

12. Enter the relevant information, as required.

- 13. Click **Add**. The sub facility Requirement details gets added in a card form.
- 14. Click **Continue** to go to the next step. Collaterals details page with all the collaterals mapped to the party appears.

OR

Click <sup>8</sup> and then click **Add Sub Facility** to add more sub facility details, if required. The **Add Sub Facility** overlay screen appears.

OR

Click <sup>6</sup> and then click **Edit Facility** to amend the facility, if required. The **Edit Facility Details** overlay screen appears.

OR

Click <sup>8</sup> and then click Remove Facility to remove the added sub facility.

OR

Click **Save as Draft** to save the application as a draft. The application gets saved as a draft prompting the user to save the application with the draft name. (For more information, refer <u>Save as Draft</u> section).

OR

Click **Cancel** to cancel the transaction and navigate to the **Dashboard** Screen. OR

Click **Back** to navigate back to the previous screen.

Note: The user can add sub facilities up to seven levels.

Field Name	Description
Navigating path to the step	Select the step from the drop- down list whose details needs to be filled for the facility modification. OR Click the Home link to navigate back to facility application summary page.
Party Name	Displays the party name for whom the facility is to be applied.
Collaterals	
	s linked to the party gets displayed on this screen. User can also request for collateral from this screen.
Collateral ID	Collateral ID of the facility.
Collateral Description	The description of the collateral.
Collateral Amount	The collateral amount evaluated against the pledged collateral.
Utilized Amoun	t The total utilized amount of the collateral.
Available Amount	The current available amount for collateral.
Revision Date	The revision date of the collateral.

15. Click **Add Collateral** to add the collateral details. The **Add Collateral** overlay screen appears.

OR

Click **Continue** to go to the next step.

OR

Click **Save as Draft** to save the application as a draft. The application gets saved as a draft prompting the user to save the application with the draft name. (For more information, click <u>Save as Draft</u>.)

OR

Click **Cancel** to cancel the transaction and navigate to the Dashboard Screen. OR

Click **Back** to navigate back to the previous screen.

### **Facility Application - Add Collaterals**

			Maker *	Add Collaterals	$\times$

Field Name	Description
Please specify collateral type	The collateral type like Plant & Machinery, Vehicle, Stocks etc.
What would you describe this collateral as	The description of the collateral.
What is the estimated value of this collateral?	The estimated value of the collateral with selection of currency.
What is the purpose of this collateral?	The purpose for the new collateral.
Any other comments?	The remarks/ instructions that needs to be communicated to the bank, if any.

- 16. From the **Collateral type** list, select the appropriate collateral type.
- 17. In the **Collateral description** field, enter the description of the collateral.
- 18. From the **Currency** list, select the appropriate currency.
- 19. In the Collateral estimated value field, enter the collateral amount.
- 20. In the **Purpose** field, enter the purpose for collateral.
- 21. In the **Comments** field, enter the specific instructions to be given to the bank, if any.
- 22. Click Add. The new collateral is added as a new card on the Collaterals Details screen.

our existing collaterals are listed below, you can add new collaterals if required 🕒 Add Collaterals	mend Facility

# 5. Apply For Sub Facility

Using this option, corporate users can apply for a new sub facility to an existing credit facility. The user selects the credit facility under which the new sub facility needs to be applied. Multiple Sub facilities can also be applied with this option.

### Prerequisites:

- Party preference is maintained
- Corporate users are created
- Approval rule set up for corporate user to perform the actions

### How to reach here:

Toggle Menu > Credit Facility Management > Credit Facility > Apply for Sub Facility

### To apply for a new sub facility:

1. Click the **Apply for Sub Facility** option (from toggle menu or from Quick links). A pop up having option to select the Facility ID appears.

### Sub Facility Application - Select Facility ID

# 6. Collateral Evaluation

Collateral Evaluation is a process in which the customer approaches the bank and requests the bank to evaluate his collateral. Bank assess the collateral and informs the customer about the value of the collateral that the Bank can offer, if the customer agrees to the value proposed by the bank and to the other Terms and Conditions, then the collateral gets pledged with the Bank.

Using this option, corporate customers can request for evaluation of a collateral by providing the required details like collateral type, its description, market value, its ownership information and the details of banks where the collateral is already pledged. Corporate user can also upload the required supporting documents using the OBDX platform.

Collateral evaluation process goes through various stages starting from providing the details of collateral that is to be evaluated, until the review and acceptance of collateral evaluation application.

Corporate user can track the status of the collateral evaluation applications using Application Tracker available within OBDX and can view, download and accept or reject the Collateral Evaluation offer generated by the mid office/back office.

#### Prerequisites:

- Party preference is maintained
- Corporate users are created
- Approval rule set up for corporate user to perform the actions

#### How to reach here:

Toggle Menu > Credit Facility Management > Collaterals > Collateral Evaluation

#### To request for Collateral evaluation:

1. Navigate to the **Collateral Evaluation** screen. The **Collateral Evaluation – Summary** page appears.

#### **Collateral Evaluation – Summary Page**

Collateral Evaluation summary page displays the summary of all steps involved in evaluation with the completion status of each step.

Following are the steps involved in the evaluation of a collateral:

- **Collateral Details**: In this section, user needs to provide the details of all the collateral, which needs to be evaluated. User needs to provide information like collateral type, estimated value of the collateral, description, purpose, insurance details if any etc.
- **Ownership Details**: In this section, user needs to provide the ownership details of the collateral for which the collateral evaluation request is being submitted. Ownership details like Name of the owner(s) with their Party ID and ownership percentage can be provided in this section.
- **Seniority Details**: In this section, user needs to enter the details of bank with which the collateral is already pledged.

• **Upload Documents**: This section lists all the documents, which are required to be submitted as part of collateral evaluation application and user will be required to upload all the mandatory documents.

The home screen also displays the collateral evaluation application completion status with a progress bar. User can start filling up the application in any sequence i.e. user can click on any step and fill in the details. Application can be submitted for processing, only after filling the mandatory information required as a part of each step.

# 7. Collateral Revaluation

Using Collateral revaluation function, corporate user can request for revaluation of an existing collateral. Generally a corporate would request for revaluation of a collateral if the market value of the pledged collateral has changed.

Corporate user needs to provide the reason for getting the collateral revaluated and the same gets submitted to mid office/back office user. Corporate user can also upload documents as part of collateral re-valuation application.

User can track the status of the collateral re-valuation application using Application Tracker available within OBDX and can also view, download and accept or reject the Collateral Revaluation offer generated by the mid office/back office.

#### **Prerequisites:**

- Party preference is maintained
- Corporate users are created
- Approval rule set up for corporate user to perform the actions

#### How to reach here:

Toggle Menu > Credit Facility Management > Collaterals > Collateral Revaluation

#### To request for re-evaluation of a collateral:

40. Navigate to the Collateral Revaluation Option. Choose Collateral pop-up appears.

#### **Choose Collateral**

# 8. Application Tracker- Credit Facility

The Application Tracker enables the corporate to view the current status of submitted applications and also to retrieve and resume applications that have been saved as draft. User can search for the required application using various search criteria.

Through the application tracker, Corporate can perform the following actions:

- Resume Draft Applications: While filling out an application form, user has the option to save the application as draft, and the saved application can be viewed and resumed via application tracker.
- **Submitted Application Details**: The application tracker enables the corporate user to track the current status of the application and to view the details of submitted applications which were entered by the user at the time of application submission.
- Offer Acceptance: Corporate user can view, download and accept or reject the Collateral Agreement offer received from mid office/back office.

#### How to reach here:

Dashboard > Toggle menu > Application Tracker > Credit Facility and Collaterals

#### To track an application:

54. Click on the **Credit Facilities and Collaterals** option in **Select Module** section. The **Application Tracker- Credit Facilities and Collaterals** screen appears.

#### **Application Tracker - Credit Facilities and Collaterals**

This screen lists down all the Credit Facility applications that are submitted or saved by the corporate user. All the submitted applications gets listed under different tabs (Submitted. Inprogress, Approved, Rejected) depending upon their current status at mid office/back office application. Applications which are saved by user are available under Draft tab from where the user can select an application and can resume it.

# 8.2 Offer Acceptance

Collateral Evaluation and Revaluation applications which are awaiting for customer's response are shown in 'Customer Awaiting Response' tab.

Bank assess the collateral and informs the customer about the value of the collateral that the Bank can offer, if the customer agrees to the value proposed by the bank and to the other Terms and Conditions, then the collateral gets pledged with the Bank.

User can view, download and accept or reject the Collateral Evaluation offer generated by the mid office/back office.

Note: Currently this feature is only supported for Collateral Evaluation and Revaluation applications

# 8.3 Save as Draft

User can save facility application as a Draft if he is unable to fill the complete application in one go. The draft application can be resumed anytime later by the user. Once the application is saved, it will appear in the application tracker under 'Drafts' tab. User can select the draft application he wants to resume and fill in all the required details and submit that application.
