12.7 De-Reconciliation.....	12-94

1. Preface

1.1 Intended Audience

This document is intended for the following audience:

- Customers
- Partners

1.2 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

1.3 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

1.4 Structure

This manual is organized into the following categories:

Preface gives information on the intended audience. It also describes the overall structure of the User Manual.

Introduction provides brief information on the overall functionality covered in the User Manual.

The subsequent chapters provide information on transactions covered in the User Manual.

Each transaction is explained in the following manner:

- Introduction to the transaction
- Screenshots of the transaction
- The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.
- Procedure containing steps to complete the transaction- The mandatory and conditional fields of the transaction are explained in the procedure. If a transaction contains multiple procedures, each procedure is explained. If some functionality is present in many transactions, this functionality is explained separately.

1.5 Related Information Sources

For more information on Oracle Banking Digital Experience Release 21.1.0.0.0, refer to the following documents:

- Oracle Banking Digital Experience Licensing Guide

3. Associated Party Management

3.1 Introduction

The features built for the corporate user in Associated Party Management are as follows-

- On-board Associated Party
- View Associated Party

Note: The Associated Party Management module is only supported on **Desktops/Laptops** and on **Landscape** mode of **Tablet** devices.

3.2 Onboard Associated Party

On-boarding an Associated Party refers to introducing your trade partner to the Supply Chain Finance or Cash Management system. This is the first step in supply chain finance or cash management business. The Associated Party is the other party in the trade of the Corporate, who may or may not be a customer of the bank. The associated party could be a buyer or a supplier.

Using this option, you can on-board your associated party so that you can link your party to the program for Supply Chain Finance business or add your receivables or payables through Cash Management module against the Associated Party. The Associated Party that is on-boarded can be a customer of the bank or may not be the customer of the bank. This is identified by Back Office through a de-dupe check run on the party's details.

Pre-requisites

User must have valid corporate login credentials.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Associated Party Management > Onboard Associated Party

OR

*Dashboard > Toggle menu > Receivables/Payables > Associated Party Management > View Associated Parties > **Onboard new** link*

OR

Dashboard > Toggle menu > Supply Chain Finance > Overview > Quick Links > Onboard Associated Party

To on-board a new associated party:

Step1- Associated Party Details

1. The Step1 - **Associated Party Details** screen appears.

Onboard Associated Party- Associated Party Details

The screenshot shows the 'Onboard Associated Party' interface. At the top, there's a navigation bar with 'Viewer', 'ATM/Branch', and 'English' options. The user is logged in as 'Nehal Joshi'. The main heading is 'Onboard Associated Party' with a sub-heading 'ABZ Solutions | ***462'. A progress bar indicates two steps: 'Associated Party Details' (active) and 'Communication Details'. The form fields are as follows:

- Role of Associated Party:** Radio buttons for 'Buyer' and 'Supplier' (selected).
- Supplier Code:** Text field with value 'S9989'.
- Party Name:** Text field with value 'ABC Industries'.
- Short Name:** Text field with value 'ABCI'.
- Category Of Corporate:** Dropdown menu with 'Private Limited Company' selected.
- Corporate Registration Number:** Text field with value 'CRN9989'.
- Tax Registration Number:** Text field with value 'TRN9989'.
- Global Intermediary Identification Number:** Empty text field.
- Auto Accept Invoice:** Toggle switch set to 'Yes'.
- Number of days for auto acceptance:** Text field with value '0'.

At the bottom, there are 'Next', 'Cancel', and 'Back' buttons. A callout box on the right titled 'Onboarding Associated Party' contains the text: 'Associated Party is the other party in a commercial trade who need not be the customer of the bank. The Associated Party thus needs to be onboarded into the system so that their KVC is checked and complied by the bank.'

Field Description

Field Name	Description
Onboard Associated Party – Associated Party Details step	
Party Name and ID	Displays the name and ID of the logged-in corporate party.
Role of Associated Party	Specify the role of the associated party. The options are: <ul style="list-style-type: none"> • Buyer • Supplier

Confirm **Cancel** **Back**

Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. | Security Information | Terms and Conditions

- In the Review screen, verify the details, and click **Confirm**. A confirmation message of request initiation for on-boarding the associated party appears, along with the reference number and status of the transaction.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to the previous screen.

Onboard Associated Party – Confirmation

4. In the Confirmation screen, click the **View Associated Parties** link to view the details of existing associated parties.
OR
Click the **Onboard Another Associated party** link to on-board a new associated party.

Note: Once the **Onboard Associated Party** transaction is submitted by the Corporate Maker, it is sent for approval. It appears in the **Pending for Approval** list of the Corporate Approver. The Approver can approve, or reject, or send the transaction back to the Maker for modifications, with relevant comments. Relevant notifications are sent to the Maker.

The Maker can then view, claim, and edit the transaction. Upon modification, it can be submitted for approval again. The Approver again has the option to approve, reject or send the transaction back for modification. There is no limit to the number of times the transaction can be sent back for modification.

Once approved, the transaction appears in the Approver's **My Approved List**.

FAQ

1. Who is an Associated Party?

The Corporate party's customer with whom they trade is their associated party. In Supply Chain Finance parlance, the customer added in the Program by an Anchor (logged-in corporate party) is termed as Associated Party. This customer needs to be on-boarded as an associated party before linking to the Program.

1. What if the Associated Party is a customer of the Bank?

The Associated Party may or may not be a customer of the bank. If the Anchor wants to link an associated party to a program, then the associated party must first be on-boarded to the system.

2. If the Associated Party is an existing customer of the Bank, will the on-boarding of this party create a new party ID for them?

When the associated party is on-boarded and the details are submitted to the Bank's Supply Chain Finance system, a de-dupe check is performed. During this de-dupe check, if the Supply Chain Finance system identifies the associated party as an existing customer then the existing party ID itself is assigned, else a new party ID is assigned.

3. Can the Associated Party get portal access for Supply Chain Finance / Cash Management?

Yes, the associated party will get portal access for Supply Chain Finance / Cash Management.

4. How will the associated party get OBDX portal access, if they are not a customer of the Bank?

The associated party who is not a customer of the Bank, has a party ID assigned by the back office. This party ID resides in the Supply Chain Finance or Cash Management back office system. OBDX portal access can be given to a non customer party ID that is residing in the Supply Chain Finance or Cash Management back office system. Details are explained in the 'OBX Channel access to Associated Parties (Non Customer)' section of this document.

3.3 KYC Documents Upload

This feature allows the associated party corporate who is not a customer of the bank, to upload its KYC documents. The bank then can complete the KYC validity of the corporate using the documents.

The Associated Party who is non-customer, receives a link on its email id. The associated party then needs to access the link which will redirect the corporate to the browser where it will direct or guide the associated party to upload the documents. On submitting the documents, the same are stored in the document management system and the content id is conveyed to the Bank who can then access these documents using the content id.

To upload KYC documents:

1. On successful on-boarding of the associated party (who is not a customer of the Bank), the Bank sends a link to upload KYC documents on the associated party's email ID (which is captured during the on-boarding).
2. Click the link in the email. The screen to upload KYC documents appears.

Onboard Associated Party- Upload KYC Documents

The screenshot shows the Futura Bank onboarding interface. At the top, it says 'futura bank' and 'Onboard Associated Party'. A welcome message reads: 'Welcome buyer 1234. It gives us immense pleasure to have you on-boarded in our banks family. You have been on-boarded by ABZ Solutions'. Below this is a section 'Kindly Upload KYC documents' with two columns: 'Corporate Id Proof' and 'Corporate Address Proof'. The 'Corporate Id Proof' column lists: 'Pan Card in the name of the company' and 'Certificate of incorporation'. The 'Corporate Address Proof' column lists: 'Registered Leave and License Agreement / Ownership Shop /in the name of Director/s / Company where actual business is carried out should be considered as an address proof.', 'Utility bills such as electricity, water and landline telephone bills in the name of the company', and 'Address mentioned on certificate of registration.'. Below these is a dashed box with the text 'Drop Files here or click to upload'. Underneath, two files are listed: 'PAN Card.pdf' and 'ElectricityBill_03May.jpg', each with a trash icon. A blue 'Submit' button is at the bottom. A note states: 'Note: Each document should not be more than 2 MB. Supported file types: PNG, DOC, PDF, JPEG, JPG.' The footer contains copyright information: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. | Security Information | Terms and Conditions'.

Field Description

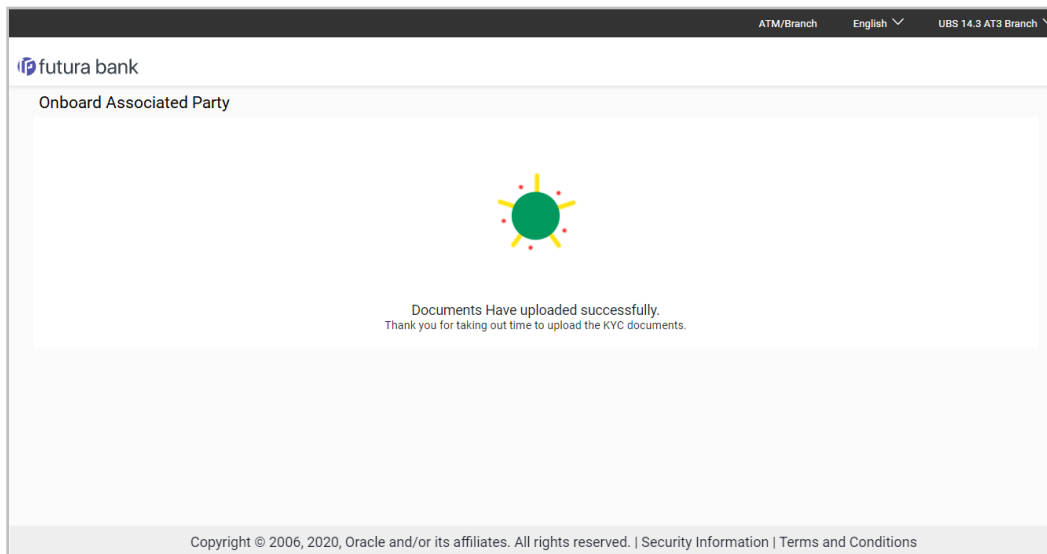

Field Name	Description
Onboarded Associated Party	
Drop Files here or click to upload	<p>Click  to browse and upload the ID proof or address proof documents or drag-and-drop the files to be uploaded.</p> <p>Note: File size should not be more than 2MB. Supported file types: .PNG, DOC, PDF, JPG, JPEG. Multiple documents can be uploaded at a time.</p>

- Once you upload the document, its name appears as a hyperlink. You can click this hyperlink to open the document.
OR

To delete the uploaded document, click  against it.

- Click **Submit** to complete the uploading process. A Confirmation message regarding the uploading appears.

Onboard Associated Party- Success screen

3.4 OBDX Channel access to Associated Parties (Non Customer)

The on-boarded associated parties are allowed to transact on the same portal for raising invoices, effecting and accepting payments, availing finances and performing other transactions. The associated parties that are customers of the Bank, are provided with channel access as per BAU and can have access to business transactions.

Parties that are NOT customers of the Bank are also provided channel access. A feature is built-in for the Bank Admin to provide the required access.

The workflow or steps to be followed to provide access to a Non Customer Party ID is the same as that of a Customer of the Bank. All the features of the OBDX framework namely, User Management, Limits and Approvals, corporate admin and Audit Log are applicable to this Party ID too. For more details, refer **User Manual Oracle Banking Digital Experience Core**. Pre-shipped roles such as Non Customer Maker, Non Customer Checker and Non Customer Viewer are available along with relevant dashboards. For more details, refer **User Manual Oracle Banking Digital Experience Corporate Customer Services**.

Mandatory Role Transaction Mapping (RTM) should be done by the admin for the pre-shipped roles.

Access to the following is recommended;

- Supply Chain Finance, Manage Invoices, Associated Party Management, Purchase Order Management, and Cash Management – All Transactions.
- Customer Servicing – Aggregator, Limits, User Limits.
- Essentials – Mails
- Widgets – Inside Corporate, Dashboard quick links, Finance Maturing, Invoice Time line, Overdue Finances, Overdue Invoices, Top Programs, Limits Widget.

If access to any other transactions is given to the non-customer user, then those transactions are reflected in the hamburger menu but since the customer does not have an account in the Bank the other screens will not have any data displayed.

The Bank Admin can define which transactions are to be accessible to a non-customer through RTM. Similarly, bank admin can either enable or disable the corporate admin feature for non-customers. Access of Create Program and On-board Associated Party are NOT given in the RTM if these functionalities are not supported by the host.

3.5 View Associated Parties

Corporate will get a view of all its associated parties through 'View Associated Parties' screen. All its customers on-boarded by the Corporate can be viewed on this screen. Corporate will also be able to view its Anchors here.

Illustration –

Parties Involved:

Explanation:

Corporate SunBrand Limited logs on to the Portal and navigates to 'View Associated Parties, then both the corporates 'Acer Works Limited' who is the associated party of 'SunBrand Limited' and 'Fancy Auto Parts Limited' who has on-boarded 'SunBrand Limited' will be displayed.

The details of each of the associated party are displayed on accessing the respective Party. Details of associated party like his address and contact number along with the associated programs and its invoices are displayed

If the party is a buyer and not a Supplier, then 'Payables' data is displayed on the page for Program widget, vice-versa for if party is Supplier the 'Receivables' data is displayed. If party is buyer as well as Supplier, then 'Receivables' data is displayed default on the screen and the Switcher is set to 'Receivables'.

Pre-requisites

User must be having a valid corporate login credentials.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Associated Party Management > View Associated Parties

OR

Dashboard > Toggle menu > Supply Chain Finance > Overview > Quick Links > View Associated Parties

To view associated parties:

1. In the **View Associated Parties** screen, a set of on-boarded party tiles appears. You can narrow down the set by using the filter options and the **Search** field.

View Associated Parties - Search Result

The screenshot displays the 'View Associated Parties' interface for 'ABZ Solutions | ***462'. The page title is 'View Associated Parties' and the subtitle is 'Associated Party List'. A search bar is located at the top right with the placeholder text 'Can't find what you are looking for? Onboard new'. Below the search bar, there are filter options: 'All' (selected) and a search input field. The main content area shows a grid of nine party tiles. Each tile contains a circular icon with a letter, a party name, a unique ID, an 'Active' status, and details for 'Party Relation' and 'Party Role'.

Party Name	Party ID	Party Relation	Party Role
001	***000185	Counterparty	Buyer
Vinayak Traders 3 LTD	***000195	Counterparty	Buyer
UltoolKitFeb13	***000195	Counterparty	Buyer
Party Name test1	***000107	Counterparty	Buyer
State bank of India	***000125	Counterparty	Buyer
bombayeee7	***000200	Counterparty	Buyer
Party Name test1193	***000109	Counterparty	Buyer
snehalshah	***000129	Counterparty	Buyer
Party Name test	***000107	Counterparty	Buyer

At the bottom of the screen, there is a pagination control showing 'Page 1 of 12 (1-9 of 102 items)' and navigation arrows.

View Associated Parties (on mobile device)

The **View Associated Parties** screen can also be viewed on a mobile device. The features and functionality available on the desktop computers, such as hyperlinks, search filters, the dropdown field to select Anchor party or Counterparty, are also available on the mobile device.

Field Description

Field Name	Description
View Associated Parties	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Associated Party List	
Can't find what you are looking for? Onboard new	Click the Onboard new link to on-board a new associated party.
Filter List	Select the required option to filter the associated parties. The options are: <ul style="list-style-type: none"> • All • Anchor • Counterparty

Field Name	Description
Search	Enter the corporate's name or ID to search for that party.
Note: Click  or  to view details in the card (tile) view or list view.	
Associated Party Tile	
A tile is displayed for each associated party, with the following fields.	
Associated Party Initials, Name, ID and Status	Displays the associated party's initials, name along with ID. The status of the party (Active / Inactive) is also displayed. Note: To view further details of the party, click the respective party tile / party name link.
Party Relation	Displays the relation of the associated party (Anchor or Counterparty).
Party Role	Displays the role of the associated party (Buyer or Supplier).

- In the **Associated Party List** section, click on an associated party tile (in case of card or tile view ) or associated party name link (in case of list view ) to view their details.

View Associated Parties (on mobile device)

The **View Associated Parties** screen can also be viewed on a mobile device. All details present in the desktop version, such as hyperlinks, graphs, invoice list, and so on, are also available on the mobile device.

Field Description

Field Name	Description
View Associated Parties	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Associated Party Name	Displays the name of the associated party.
Role of Counterparty	Displays the role of the associated party, whether Buyer or Supplier.
Onboarded On	Displays the date on which the party was on-boarded.
Status	Displays the status of the associated party, whether Active or Inactive.
Counterparty Details	

Field Name	Description
Buyer Code	Displays the buyer code. This field is displayed only if Role of Counterparty is Buyer .
Supplier Code	Displays the supplier code. This field is displayed only if Role of Counterparty is Supplier .
Short Name	Displays the short name of the associated party.
Category of Corporate	Displays the category that the associated party falls under.
Corporate Registration Number	Displays the corporate registration number of the associated party.
Global Intermediary Identification Number	Displays the GIIN assigned by the IRS to the associated party.
Tax Registration Number	Displays the tax registration number of the associated party.
Auto Accept Invoice	Displays Yes if the invoices are set to be auto accepted for the associated party, and No otherwise.
Number of days for auto acceptance	Displays the number of days after which the 'raised' invoices are deemed as 'accepted'. This field is displayed only if Auto Accept Invoice is set as Yes .
KYC Status	Displays the KYC status of the associated party.
Outstanding Invoices	Displays the total outstanding invoice amounts in the respective currencies along with the numbers. Click the 'numbers' link to visit the View Receivables/Payables screen. For more information, refer the View Receivables/Payables section in this document.
Contact Details	
Landline	Displays the landline number of the associated party.
Mobile	Displays the mobile number of the associated party.
Fax	Displays the fax number of the associated party.
Email	Displays the email address of the associated party.
Preferred Communication	Displays the preferred communication mode set for the associated party.
Registered Address	Displays the registered address of the associated party.
Communication Address	Displays the communication address of the associated party.

Field Name	Description
Top Associated Programs	
Displays the total value of receivables or payables with the name of the program in a donut chart. The top 4 performing programs are displayed on the basis of their receivables / payables. The amounts are specified in local currency equivalent and derived from Outstanding Invoices.	
Note: This widget will not appear if the associated party is not linked to any program.	
Associated Programs	
Displays a list of programs linked to the associated party under which invoices have been raised.	
Note: A program appears in this table only if one or more invoices have been linked to it.	
Program Name & Id	Displays the name and ID of the program. The name of the program is a hyperlink which when clicked displays the View Program screen. For more information, refer the View Programs section in User Manual Oracle Banking Digital Experience Corporate Supply Chain Finance .
Party Role	Displays the role of the associated party, in the program.
Outstanding Invoices (No.)	Displays the count of invoices outstanding between the two parties, under the program. This number is a hyperlink, which when clicked displays the View Receivables/Payables screen. For more information, refer the View Receivables/Payables section in this document.
Outstanding Invoices (Value)	Displays the value of invoices outstanding between the two parties, under the program.
Status	Displays the status of the program.

- Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to the previous screen.

4. Receivables/Payables Management

Receivables/Payables Management includes the following features:

- **Associated Party Management** - On-boarding, Viewing, KYC document uploading.
- **Receivables/Payables Management**
 - Invoices – Creation, Viewing, Editing, Accepting, Raising Dispute, Resolving Dispute, Assignment.
 - Debit Notes – Creation, Viewing.
 - Credit Notes – Creation, Viewing.
- **Purchase Order Management** - Creation, Viewing, Editing, Accepting.
- **Payments Management** – Bulk payments file uploading and viewing.
- **Reconciliation** - Rule creation, edit and inquiry of the reconciliation and allocation rules. Manual reconciliation, manual allocation, and de-reconciliation.

[Home](#)

5. Create Receivables/Payables

Financial instruments such as invoices and debit notes are categorized as Receivables or Payables. They are referred to as, 'Receivables' when the logged-in corporate party is the Supplier; and 'Payables' when the logged-in corporate party is the Buyer.

Note: Certain 'Receivables/Payables' transactions are only supported on **Desktops/Laptops** and on **Landscape** mode of **Tablet** devices.

The features built for the corporate user for managing receivables/payables are as follows:

- Online Creation
- Invoice Creation with Document Upload (applicable only for invoices)
- Creation through Bulk File Upload
- Edit
- Accept
- View
- Cancel – (prior to it being accepted)
- Save as Template
- Delete Template
- Raising Dispute
- Resolving Dispute
- Assignment

5.1 Invoices

An invoice is a bill sent from the seller to the buyer, documenting what has been purchased and what payment is owed. It is also known as a bill or contract of sale. An invoice allows the business owner or freelancer, to keep track of business transactions and make sure that they get paid.

An invoice is an important underlying instrument used in trade and Supply Chain and Cash Management. A commercial invoice is universally used in trade between a buyer and supplier. Financing of Supply Chain also takes place against such Invoices. In OBDX, we have built in the functionality to handle invoices as receivables and payables.

A corporate user (either buyer or supplier) can raise an invoice directly from the portal. Invoices can be created by manually entering the invoice details online, or using an existing template, or uploading the scanned copy of a physical invoice, or through file upload for bulk invoices creation. Based on the status of an invoice, a corporate user can edit, accept, partially accept, cancel, or request finance, directly from the portal.

Pre-requisites

User must have valid corporate login credentials.

5.1.1 Online Invoice Creation

Creation of invoices is an important transaction provided on the Portal. Using this option, corporate users can create single or multiple invoices online for the buyer in the Supply Chain Finance program. Post submission of the invoice, an option is provided to save the content as a Template. The template can be reused for creating invoices for the same corporate party.

Once the user creates invoices, they must be approved by an approver (if the approval flow has been set). The designated corporate approver is notified. The approver can either approve or reject the transaction. In case of rejection, the approver can send the transaction back to the corporate user (maker) to make the required modifications and re-submit it for approval.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Receivables/Payables Management > Create Receivables/Payables

OR

Create Receivable/Payable

The screenshot displays the 'Create Receivable/Payable' page on the Futura Bank portal. The page title is 'Create Receivable/Payable' with the party name 'ABZ Solutions | ***462'. The main content area features an illustration of a person with a large pencil and a checklist. Below the illustration, there are three options for creating invoices: 'Online Invoice Creation' (with a 'Create New Invoice' button), 'Invoice Creation with Document Upload' (with an 'Invoice Document Upload' button), and 'Bulk File Upload Creation' (with a 'Bulk File Upload' button). The page footer contains the copyright notice: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. | Security Information | Terms and Conditions'.

Field Description

Field Name	Description
Create Receivable/Payable	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Invoice/Debit Note	Select the Invoice option.
Online Invoice Creation	Indicates the option to create invoice records by manual entry of invoice details.

Field Name	Description
Invoice Creation with Document Upload	Indicates the option to create an invoice record by uploading the actual invoice document image.
Bulk File Upload Creation	Indicates the option to create bulk invoice records through file upload.

5.1.1.1 Online Invoice Creation (manual entry)

A corporate user, based on their role, can create one or more invoices in one single transaction.

To create invoice(s):

1. In the **Create Receivable/Payable** screen, select the **Invoice** option and then click the **Create New Invoice** button, to create invoice records manually.
The Create Receivables/Payables screen appears starting with the **New Invoice** tab.

Create Receivables/Payables - New Invoice

The screenshot displays the 'Create Receivables/Payables' interface for 'ABZ Solutions | ***462'. The 'New Invoice' tab is active. The main section is titled 'Multiple Online Invoice Creation' and includes a helpful message: 'Facing difficulty in entering data for multiple invoices? Use [Bulk Upload](#)'. The form contains several required fields: Customer Invoice No, Invoice Amount (set to LAK), Name of Program, Purchase Order Date, Invoice Due Date, Payment Terms, Associated Party, Pre-acceptance (set to No), Purchase Order No, Invoice Date, Shipment Date, and Funding Request Date. Each date field has a calendar icon, and the 'Pre-acceptance' field has a toggle switch.

Field Description

Field Name	Description
Create Receivables/Payables	
Party Name & ID	Displays the name and ID of the logged-in corporate party.

Field Name	Description
New Invoice	
Multiple Online Invoice Creation	
Facing difficulty in entering data for multiple invoices? Use Bulk Upload	Click the Bulk Upload link to navigate to the File Upload screen for creating invoices in bulk.
Customer Invoice No	Enter the customer's own reference number of the invoice.
Associated Party	Select the associated party to link the invoice to. A list of all on-boarded associated parties is available for selection. On selecting an associated party, the role of the party as Buyer or Supplier , appears below this field.
Invoice Amount	Enter the gross invoice amount. This amount is before tax and discount. It should be the gross amount of the commodities.
Pre-acceptance	This toggle is set to 'No' and is disabled if the logged-in party is the supplier. It is set to 'Yes' and is disabled if the logged-in party is the buyer.
Name of Program	Select the program to which the invoice should be linked. Programs linked to the selected associated party are listed.
Auto Accept	Displays whether the invoice will be auto accepted or not. If the invoice will be auto-accepted, then the number of days post creation to auto-acceptance, is displayed. This field appears on selecting a program. It is populated based on the auto acceptance setting in the program definition. For more information on programs, refer the Create Program section in User Manual Oracle Banking Digital Experience Corporate Supply Chain Finance .
Auto Finance	Displays whether the invoice will be auto financed or not. This field appears on selecting a program. It is populated based on the auto finance setting in the program definition. For more information on programs, refer the Create Program section in User Manual Oracle Banking Digital Experience Corporate Supply Chain Finance .
Purchase Order No	Enter the reference number of the purchase order placed by the buyer.
Purchase Order Date	Click the calendar icon and select the date of creation of the purchase order.
Invoice Date	Click the calendar icon and select the date of creation of the invoice. The Invoice Date should be greater than the Purchase Order Date . You cannot enter a future date.

Field Name	Description
Invoice Due Date	Click the calendar icon and select the date on which the invoice payment is due. The Invoice Due Date should be greater than or equal to the Invoice Date .
Shipment Date	Click the calendar icon and select the date when the shipment is expected to take place. The Shipment Date should be greater than the Purchase Order Date and greater than or equal to the Invoice Date .
Invoice Amount	Enter the gross invoice amount. This amount is before tax and discount. It should be the gross amount of the commodities.
Payment Terms	Enter the terms agreed for the payment of the invoice.
Funding Request Date	Enter the date when the invoice should be funded or financed.

2. Once you enter the above details, you can optionally add the commodity details.
3. To add a commodity, click **Add** in the **Commodity Details** section. The **Add Commodity Details** overlay window appears.

Add Commodity Details

This overlay window appears when you click **Add** in the **Commodity Details** section.

The screenshot displays the 'Add Commodity Details' overlay window. The background is the 'Create Receivables/Payables' form for 'ABZ Solutions | ***462'. The overlay window contains the following fields and values:

- Name: Fruits
- Code: Apples
- Quantity: 300
- Cost/Unit: USD20.00
- Gross Amount: USD6,000.00
- Discount: 5 USD300.00
- Tax: 1 USD5700
- Net Amount: USD5,757.00
- Create Copy
- Add** button

Field Description

Field Name	Description
Add Commodity Details	
Name	Enter the name of the commodity.
Code	Select the code of the commodity. This value should be selected from the commodity code list.
Quantity	Enter the quantity of the commodity being purchased.
Cost/Unit	Specify the cost per unit of the commodity.
Gross Amount	Enter the gross commodity amount. It also gets auto calculated if quantity and cost per unit are entered. It is the product of the entered quantity and cost per unit. Gross Amount = Cost/Unit * Quantity
Discount	Enter any discount being offered on the commodity. You can either enter the percentage of discount (in the first field) or the actual discount amount (in the second field). When you enter any one of these values, the other value is automatically calculated and displayed. Click  to reset the values.
Tax	Enter any tax being charged on the commodity. You can either enter the percentage of tax (in the first field) or the actual tax amount (in the second field). When you enter any one of these values, the other value is automatically calculated and displayed. Click  to reset the values.
Net Amount	Displays the net commodity amount. This is automatically calculated as follows: Net Amount = Gross Amount – Discount + Tax
Create Copy	Select this check box to create a copy of the commodity details entered.

On clicking the **Add** button, a commodity record is created in the **Commodity Details** section.

4. You can further add commodities by clicking **Add**, and filling out the required details.

Commodity Details

This section displays the commodity detail records, once you add them. Multiple commodities can be added.

Name	Displays the name of the commodity.
-------------	-------------------------------------

Field Name	Description
Code	Displays the code of the commodity.
Quantity	Displays the quantity of the commodity being purchased.
Cost per unit	Displays the cost per unit of the commodity.
Gross Amount	Displays the total gross amount of the commodity being purchased. It is the product of the entered quantity and cost per unit. Gross Amount = Cost per unit * Quantity
Discount	Displays the discount amount and percentage being offered on the commodity.
Tax	Displays the tax amount and percentage being charged on the commodity.
Net Amount	Displays the net amount of the commodity being purchased. It is automatically calculated as follows: Net Amount = Gross Amount – Discount + Tax
Actions	Indicates the actions that can be performed on the commodity record. <ul style="list-style-type: none"> Click  to edit the record. Click  to remove the record.

The following fields are present below the Commodity Details section, and are applicable at the invoice-level.

Gross Invoice Amount	Displays the total gross amount of all the added commodities.
Discount	Displays the total discount amount of all the commodities added. The average discount percentage of all added commodities is also displayed. Click  to reset the values. Total Discount % = (Total discount amount / Total invoice amount) *100

Note: When commodity records are added, the discount value of each commodity is aggregated and populated here. This value cannot then be modified. However, if commodity records are not added, then this field is editable and the discount value or percentage can be entered here.

Field Name	Description
Tax	<p>Displays the total tax amount of all the commodities added. The average tax percentage of all added commodities is also displayed.</p> <p>Click  to reset the values.</p> <p>Total Tax % = (Total tax amount / Total invoice amount) *100</p> <hr/> <p>Note: When commodity records are added, the tax value of each commodity is aggregated and populated here. This value cannot then be modified. However, if commodity records are not added, then this field is editable and the tax value or percentage can be entered here.</p>
Miscellaneous Charges	<p>Add the name and amount of any other miscellaneous charge applicable.</p> <p>Use  to add another charge. A maximum of 2 miscellaneous charges can be added.</p> <p>Click  to reset the values.</p>
Net Invoice Amount	<p>Displays the total invoice amount that the buyer must pay, after deducting the discount and then applying the tax.</p> <hr/> <p>Note: The Net Invoice Amount gets automatically calculated as follows: Net Invoice Amount = Gross Invoice Amount - Discount Value + Tax Amount</p>
	<p>Indicates an option to reset the fields. This icon is present on the top right corner of the screen.</p>
Duplicate Invoice	<p>Indicates an option to add another invoice with the same details.</p>
Add Invoice	<p>Indicates an option to add another blank invoice. You can create multiple invoices using this link.</p>

- Modify the amount in the **Invoice Amount** field above the Commodity Details section, to match the **Gross Invoice Amount** of all commodities.
- Click **Save** to save the invoice.
OR
Click **Save and Copy** to save the invoice details and create a copy.
OR
To clear the fields, click the  icon in the top right side of the screen.

Note: On clicking the **Save** button, the invoice being created appears in a panel with  in the top right corner. Click this icon to edit the invoice.

7. To create another new invoice in the transaction, click the **Add Invoice** link.
 - a. Add required details as mentioned in the steps above.
8. Click **Submit** to submit the transaction, once all required invoices have been added. The Review screen appears.
 OR
 Click **Cancel** to cancel the transaction.
 OR
 Click **Back** to navigate back to the previous screen.

Create Receivables/Payables - Review Screen

- In the Review screen, verify the details and click **Confirm**. A confirmation message of request initiation for the invoice(s) creation appears along with the reference number.
OR
Click **Back** to navigate back to the previous screen.
OR
Click **Cancel** to cancel the transaction.

Create Receivables/Payables - Confirmation

- Click the **Save as Template** link to save the details of the created invoice as a template.
OR
Click the **View Receivables/Payables** link to view the details of existing invoices. The **View Invoice** screen appears.
OR
Click the **Home** link to go to the main dashboard.

5.1.1.2 Create Invoice using Templates

You can save the data entered during invoice creation, as a template. This option is available upon successful creation of an invoice. You can use this template in the future to create invoices for the same party. This saves the efforts of re-entering the data.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Receivables/Payables Management > Create Receivables/Payables

To view and use templates for creation of invoices:

1. On navigating to the **Create Receivable/Payable** screen, select the **Invoice** option, and then click the **Create New Invoice** button.
2. Click the **Template** tab. A list of existing templates appears.

Create Receivables/Payables – Template tab

The screenshot shows the Oracle Fura Bank interface for creating receivables/payables. The 'Template' tab is active, displaying a table of invoice templates. The table has the following data:

Template Name	No. of Invoices Saved	Created By	Last Updated	Action
INV_TMPL_120221115233	4	nehcms10	12 Feb 2021	
INV_TMPL_120221073234	4	nehcms10	12 Feb 2021	
INV_TMPL_120221065734	1	nehcms10	12 Feb 2021	
INV_TMPL_120221060212	3	nehcms10	12 Feb 2021	
INV_TMPL_120221060141	3	nehcms10	12 Feb 2021	
INV_TMPL_120221055032	3	nehcms10	12 Feb 2021	
INV_TMPL_120221054743	3	nehcms10	12 Feb 2021	
INV_TMPL_120221054524	1	nehcms10	12 Feb 2021	
INV_TMPL_050221044738	1	ABZVAMMAK1	05 Feb 2021	
INV_TMPL_050221044628	1	ABZVAMMAK1	05 Feb 2021	

The 'Notes' box on the right states: "You can save the data entered while creating an invoice, in a template. This saves the effort of re-entering the data when an invoice is created for the same party in future. Simply select a template from the given list and the invoice will open in the 'Create Invoice' page for creating an invoice."

Field Description

Field Name	Description
Search	Enter the partial or full name of the template to search for specific templates. As you type the name, the relevant templates appear in the list.
Template Name	Displays the name of the invoice template, as a hyperlink. Click this hyperlink to open the New Invoice screen, with the template details populated in the respective fields.
No. of Invoices Saved	Displays the number of invoices saved under the template.
Created By	Displays the name of the corporate user who created the template.
Last Updated	Displays the last updated date of the invoice template.
Action	Click to delete the invoice template.

- Navigate through the pages to the required template, or use the **Search** field to find a specific template.
- Click the desired **Template Name** link. The template details are populated in the **Create Receivables/Payables – New Invoice** screen.
OR
Click against the template to delete the existing invoice template. A popup message appears to confirm the deletion.
 - Click **Yes** to delete the invoice template.
OR
Click **No** to cancel the deletion of the invoice template.
- Add or modify the required details.

6. Click **Save** to save the invoice.
OR
Click the **Save and Copy** to add a new invoice with same details entered in the current invoice.
OR
Click the **Add Invoice** link at the bottom of the screen, to add another invoice.
OR
Click  at the top right corner of an invoice, to clear the existing data.
7. Click **Submit** to submit the transaction. The Review screen appears.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to the previous screen.
8. In the Review screen, verify the details, and click **Confirm**. A confirmation message of request initiation for invoice(s) creation appears along with the reference number.
OR
Click **Back** to navigate back to the previous screen.
OR
Click **Cancel** to cancel the transaction.

5.1.2 Invoice Creation with Document Upload

Using this option, corporate users can create invoices online by uploading scanned copies of the physical invoice document.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Receivables/Payables Management > Create Receivables/Payables

OR

Dashboard > Toggle menu > Supply Chain Finance > Overview > Quick Links > Create Invoice

To create an invoice through document upload:

1. Scan the physical invoice and save it in one of the following formats: PDF, PNG, JPG, JPEG. Ensure that the file size does not exceed 2MB.

For more information, refer the Create Program section in User Manual Oracle Banking Digital Experience Corporate Supply Chain Finance .
Pre-acceptance	Enable this toggle if the invoice should be deemed as accepted by the buyer, on being raised. Note: If the logged-in party is the buyer and associated party is the supplier, then by default the Pre-acceptance toggle is switched to YES and is read-only. If the logged-in party is the supplier and the associated party is the buyer, then by default the Pre-acceptance toggle is switched to NO and is selective, i.e. the user can select either YES/NO.
Purchase Order No	Indicates the reference number of the purchase order placed by the buyer.
Purchase Order Date	Indicates the date of creation of the purchase order.
Invoice Date	Indicates the date of creation of the invoice. The Invoice Date should be greater than the Purchase Order Date .

Field Name	Description
Invoice Due Date	Indicates the date on which the invoice payment is due. The Invoice Due Date should be greater than or equal to the Invoice Date .
Shipment Date	Indicates the date when the shipment is expected to take place. The Shipment Date should be greater than the Purchase Order Date and greater than or equal to the Invoice Date .
Payment Terms	Indicates the terms agreed for the payment of the invoice.
Invoice Amount	Indicates the total invoice amount of all commodities being purchased, along with the currency.
Funding Request Date	Enter the date when the invoice should be funded.
Commodity Details	
Commodity details are not automatically extracted by the application. Click Add to add details of commodities being purchased.	
Name	Enter the name of the commodity.
Code	Select the code for the commodity.
Quantity	Specify the quantity of the commodity being purchased.
Cost Per Unit	Enter the cost per unit of the commodity.
Gross Amount	Displays the total amount of the commodity being purchased. It is the product of the entered quantity and cost per unit. Gross Amount = Cost Per Unit * Quantity
Actions	Indicates the actions that can be performed on the commodity record. <ul style="list-style-type: none"> Click  to make a duplicate record entry. Click  to remove the record.
Total Amount	Displays the total gross amount of the commodities being purchased.
Discount Percentage	Indicates the discount percentage being offered on the invoice.
Tax Percentage	Indicates the tax percentage being charged on the invoice.
Discount Value	Displays the total discount amount.
Tax Value	Displays the total tax amount.

Field Name	Description
Net Invoice Amount	Displays the overall invoice amount to be paid by the buyer. Note: The Net Invoice Amount gets automatically calculated as follows: Net Invoice Amount = Total (Invoice) Amount - Discount Value + Tax Value

5. Check all the extracted details and add or modify any value, if required.

Create Invoice – Post Adding Commodity Details

The screenshot displays the 'Create Receivables/Payables' interface. On the left, there are input fields for Customer Invoice No (99PL8317), Associated Party (P3AugT1), Role (Buyer), Program Name, Refinprogrname, Purchase Order No (BKL78023), Invoice Date (09 Feb 2020), Invoice Due Date (09 Mar 2020), and Payment Terms (transfer). A preview window shows a sample invoice from Soylent Ltd. with the following details:

Preview Invoice:

SELL TO: Buyer - 18102, Musart Corp Ltd, 4065 Teton Ct, Stroudsburg, PA 18360, Phone: 610-321-0765, Email: hnbrand@mus.com

SHIP TO: Amy Taylor, 4065 Teton Ct, Stroudsburg, PA 18360, hnbrand@mus.com, 434-321-0765, Fax: 12-4272961

ITEM#	DESCRIPTION	PRODUCT ID	UNIT COST	QUANTITY	AMOUNT
1.	Inkjet Printer	752K7F13	200.00	2	400.00
2.	PVC Cards	81250712	3.00	500	1500.00
Sub Total					1900.00
Discount @ 10.00 %					-190.00
Corporate Tax (TAX @ 10.00 %)					171.00
TOTAL					\$1881.00

Below the preview, the 'Commodity Details' table is shown:

Name	Code	Quantity	Cost Per Unit	Gross Amount	Actions
Prod1	Product1	200	2	400	[Edit] [Delete]
Prod2	Product2	3	500	1500	[Edit] [Delete]
Total Amount				USD1,900.00	
Discount Percentage	10.00	Discount Value (Percent %)		USD190.00	
Tax Percentage	10.00	Tax Value (Percent %)		USD171.00	
Net Invoice Amount				USD1,881.00	

Buttons for 'Submit', 'Cancel', and 'Back' are visible at the bottom of the form.

6. Click **Submit** to submit the invoice. The Review screen appears.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to go to the previous screen.
7. In the Review screen, verify the details and click **Confirm**. A confirmation message appears, with the reference number and status of the transaction.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to go to the previous screen.
8. Click **View Invoice** link to view a list of existing invoices.
OR
Click the **Supply Chain Overview** link to go to the supply chain dashboard.

5.1.3 **Bulk Invoice Creation**

Using this option, corporates can create invoices in bulk by uploading a file. The file must contain the invoice details and its commodity records in a specific format and sequence.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Receivables/Payables Management > Create Receivables/Payables

OR

Dashboard > Toggle menu > Supply Chain Finance > Overview > Quick Links > Create Invoice

To create invoices in bulk:

Create Receivable/Payable

The screenshot displays the 'Create Receivable/Payable' page on the Futura Bank portal. At the top, there's a navigation bar with 'futura bank' logo, a search bar, and user information: 'Welcome, nehal joshi' and 'Last login 17 Aug 05:26 PM'. Below the navigation, the page title is 'Create Receivable/Payable' with a sub-header 'ABZ Solutions | ***462'. The main content area features an illustration of a man in a suit holding a large pencil, standing next to a checklist. Below the illustration are two tabs: 'Invoice' (selected) and 'Debit Note'. A text block states: 'You can create single or multiple invoices online by selecting Online Invoice Creation or Invoice Document Upload. To upload invoices in bulk, select Bulk File Upload.' Below this, there are three columns of options:

Online Invoice Creation	Invoice Creation with Document Upload	Bulk File Upload Creation
Create Invoice on the go	Create invoice by uploading invoice document	Upload multiple invoices with a bulk upload facility
Create New Invoice	Invoice Document Upload	Bulk File Upload

At the bottom of the page, there is a copyright notice: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. | Security Information | Terms and Conditions'.

Field Description

Field Name	Description
Create Receivable/Payable	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Invoice/Debit Note	Select the Invoice option.
Online Invoice Creation	Indicates the option to create invoice records by manual entry of invoice details.
Invoice Creation with Document Upload	Indicates the option to create an invoice record by uploading the actual invoice document image.
Bulk File Upload Creation	Indicates the option to create bulk invoice records through file upload.

1. In the **Create Receivable/Payable** screen, select the Invoice option and then click the **Bulk File Upload** button. The **File Upload** screen appears.
2. For more information on the procedure of uploading the file, refer **User Manual Oracle Banking Digital Experience Corporate Bulk File Upload – Receivables Payables Management**. Use the file template detailed below for upload.

5.1.3.1 Bulk Invoice File Template

The file to be uploaded should have data in a specific sequence. For each invoice, there must be a top row with indicator 'I', which specifies invoice-level parameters. For each commodity under the invoice, there must be a row with indicator 'C', which specifies the commodity-level parameters.

Bulk-Invoices-Uplo
ad-Template.csv

Note: Refer this file for the sequence:

While uploading a .XLSX / .XLS file, if you do not have the required data for a particular cell, and need to leave it blank, then ensure that the particular empty cell has been formatted to the data type of the expected data of that cell. For example, a cell that is supposed to hold textual content, such as name or description, should be formatted to 'Text'. Similarly, a cell that is supposed to hold a number, should be formatted to 'Number'.

Field Description

Field Name	Description
The following fields are specific to the invoice as a whole. This row must be present for each invoice being added.	
Indicator	Specify the indicator. Enter 'I' for an invoice row.

Field Name	Description
Customer Invoice Number	Enter the customer's own invoice number.
Invoice Date	Enter the date of creation of the invoice. This should not be a future date.
Invoice Due Date	Enter the date when the invoice payment is due. This should be greater than the invoice date.
Currency	Enter the currency of the invoice amount.
Gross Invoice Amount	Enter the total invoice amount.
Buyer Id	Enter the ID associated with the buyer.
Supplier Id	Enter the ID associated with the supplier.
Buyer Name	Enter the name of the buyer.
Supplier Name	Enter the name of the supplier.
Program Code	Enter the program code associated with the invoice.
Discount Amount	Enter the total discount amount applicable for all commodities being purchased.
Tax Amount	Enter the total tax amount applicable, on all commodities being purchased.
Net Invoice Amount	Enter the net invoice amount. Net Invoice Amount = Gross Invoice Amount – Discount Amount + Tax Amount
Acceptance Amount	Enter the invoice amount that has been accepted.
Purchase Order Number	Enter the reference number of the purchase order corresponding to the invoice.
Pre-accepted	Enter Y if the invoice should be pre-accepted, and N , otherwise.
Funding Request Date	Enter the date when the invoice should be funded.
The following fields are specific to a commodity. You must add a row for each commodity being purchased, under the respective invoice row.	
Indicator	Specify the indicator. Enter C for a row at the commodity level.
Customer Invoice Number	Enter the customer's own invoice number.
Commodity Code	Enter the code associated with the commodity.
Commodity Name	Enter the name of the commodity.

Field Name	Description
Quantity	Enter the quantity of the commodity.
Cost Per Unit	Enter the cost per unit of the commodity.
Gross Amount	Enter the total cost of the commodity. Gross Amount = Cost Per Unit * Quantity
Discount Amount	Enter the discount amount applicable to the commodity.
Tax Amount	Enter the tax amount applicable to the commodity.
Net Amount	Enter the net amount of the commodity. Net Amount = Gross Amount – Discount Amount + Tax Amount

5.2 **Debit Notes**

A Debit Note can be interpreted as a request to increase the value agreed upon in the invoice. Debit notes may be raised under the following circumstances: the supplier has delivered goods in excess of those stated in the invoice, or an error in pricing.

A corporate user (either buyer or supplier) can raise a debit note directly from the portal. Debit notes can be created by manually entering the details online, or using an existing template, or through file upload for bulk debit notes creation.

Pre-requisites

User must have valid corporate login credentials.

Note: The Debit Notes Transactions are only supported on **Desktops/Laptops** and on **Landscape** mode of **Tablet** devices.

5.2.1 **Online Debit Note Creation**

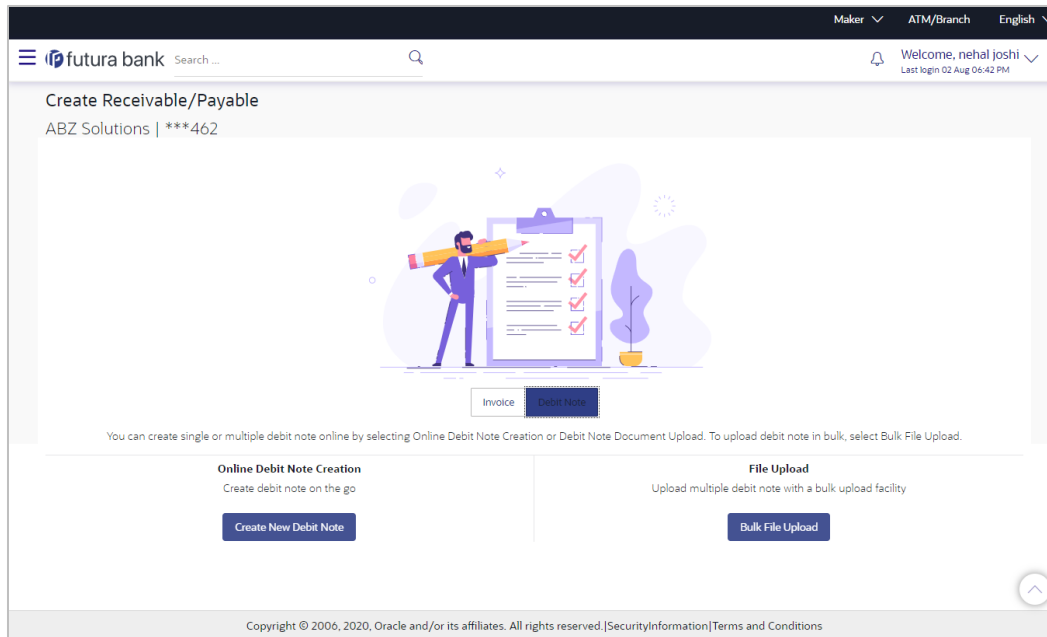

Using this option, corporate users can create single or multiple debit notes online for the buyer in the Supply Chain Finance program. Post submission of the debit note, an option is provided to save the content as a Template. The template can be reused for creating debit notes for the same program and associated corporate party.

Once the user creates debit notes, they must be approved by an approver (if the approval flow has been set). The designated corporate approver is notified. The approver can either approve or reject the transaction. In case of rejection, the approver can send the transaction back to the corporate user (maker) to make the required modifications and re-submit it for approval.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Receivables/Payables Management > Create Receivables/Payables

Create Receivable/Payable

Field Description

Field Name	Description
Create Receivable/Payable	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Invoice/Debit Note	Select the Debit Note option.
Online Debit Note Creation	Indicates the option to create debit note records by manual entry of the details.
File Upload	Indicates the option to create bulk debit note records through file upload.

5.2.1.1 Online Debit Note Creation (manual entry)

A corporate user, based on their role, can create one or more debit notes in one single transaction.

To create debit note(s):

1. In the **Create Receivable/Payable** screen, select the **Debit Note** option.
2. Click the **Create New Debit Note** button to create debit note records manually. The **New Debit Note** tab appears.

Field Description

Field Name	Description
Create Receivables/Payables	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
New Debit Note	
Multiple Online Debit Note Creation	
Facing difficulty in entering data for multiple Debit Note? Use Bulk Upload	Click the Bulk Upload link to navigate to the File Upload screen for creating debit notes in bulk.
Customer Debit Note Number	Enter the customer's own reference number for the debit note.
Associated Party	Select the associated party to link the debit note to. A list of all on-boarded associated parties is available for selection. On selecting an associated party, the role of the party as Buyer or Supplier , appears below this field.
Debit Note Amount	Select the debit note currency and enter the gross debit note amount (not including tax or discount).
Pre-acceptance	This toggle is set to 'No' and is disabled if the logged-in party is the supplier. It is set to 'Yes' and is disabled if the logged-in party is the buyer.
Program Name	Select the program to which the debit note should be linked. Programs linked to the selected associated party are listed.
Auto Accept	Displays the number of days post creation when the debit note will be deemed as accepted. This field appears on selecting a program. It is displayed only if auto-acceptance is enabled at the program-level. For more information on programs, refer the Create Program section in User Manual Oracle Banking Digital Experience Corporate Supply Chain Finance .
Auto Finance	Displays whether the debit note will be auto financed or not. This field appears on selecting a program. It is populated based on the auto finance setting in the program definition. For more information on programs, refer the Create Program section in User Manual Oracle Banking Digital Experience Corporate Supply Chain Finance .
Debit Note Date	Click the calendar icon and select the date of creation of the debit note. The selected date should be less than or equal to the current date. By default the current date is displayed.

Field Name	Description
Due Date	Click the calendar icon and select the date on which the debit note payment is due. The Due Date should be greater than or equal to the Debit Note Date .
Payment Terms	Enter the terms agreed for the payment of the debit note.
Terms of Sale	Enter the applicable 3-digit Incoterms code. The available values are: <ul style="list-style-type: none"> • EXW Ex Works • FAS Free Alongside Ship • FCA Free Carrier • FOB Free On Board • CPT Carriage Paid To • CFR Cost and Freight • CIP Carriage and Insurance Paid To • CIF Cost Insurance and Freight • DAP Delivered at Place • DPU Delivered at Place Unloaded • DDP Delivered Duty Paid
Linked Invoice Number	Select the invoice that should be linked to the debit note. Once you link invoice(s), the Populate Commodity Details from Invoice toggle is enabled, and the commodities from the invoice(s) appear in the Commodity Details grid of the debit note.
Adjustment Reason	Select the reason for adjusting the invoice amount.
Funding Request Date	Enter the date when the debit note should be funded.
Shipment Details	
Shipment Date	Click the calendar icon and select the date when the shipment is taking place.
Shipment Number	Enter the shipment number.
Shipment Address 1 - 3	Enter the shipment address in the fields provided.
Shipment City	Enter the city to ship the goods to.
Shipment Country	Select the country to ship the goods to.
Pin Code	Enter the pin code to ship the goods to.
Reason of Export	Enter the relevant reason of export.

Field Name	Description
Populate Commodity Details from Invoice	<p>This toggle is automatically enabled when you link invoices to the debit note in the Linked Invoice Number field. The Commodity Details section gets populated with the commodities from the linked invoice(s), when this toggle is enabled.</p> <p>Switch this toggle off in case you want to remove the commodities from the debit note.</p>

- Once you enter the above details, you can optionally add/modify the commodity details.
 - To add a commodity record, click **Add**. An overlay window appears, where you can add the commodity details.
 - To modify an existing commodity record, click .
 - To delete a commodity record, click .

Add Commodity Details

An overlay window appears when you click **Add** in the **Commodity Details** section.

Field Description

Field Name	Description
Name	Enter the name of the commodity for which the debit note is being raised.
Code	Enter the code of the commodity.
Quantity	Enter the quantity of the commodity for which the debit note is being raised.
Cost/Unit	Specify the cost per unit of the commodity.

Field Name	Description
Gross Amount	<p>Enter the gross commodity amount. It also gets auto calculated if quantity and cost per unit are entered. It is the product of the entered quantity and cost per unit.</p> <p>Gross Amount = Cost/Unit * Quantity</p>
Discount	<p>Enter any discount being offered on the commodity. You can either enter the percentage of discount (in the first field) or the actual discount amount (in the second field). When you enter any one of these values, the other value is automatically calculated and displayed.</p> <p>Click  to reset the values.</p>
Tax	<p>Enter any tax being charged on the commodity. You can either enter the percentage of tax (in the first field) or the actual tax amount (in the second field). When you enter any one of these values, the other value is automatically calculated and displayed.</p> <p>Click  to reset the values.</p>
Create Copy	<p>Select this check box to create a copy of the commodity details entered.</p>

On clicking the **Add** button, a commodity record is created in the **Commodity Details** section.

- You can further add commodities by clicking **Add**, and filling out the required details.

9. In the Review screen, verify the details and click **Confirm**. A confirmation message appears with the reference number and status of the transaction.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to the previous screen.

Create Debit Note - Confirmation

Note: You can view the details of the debit note just created, by clicking the '**Click here to view the Status of the Debit Note**' link.

10. Click the **Save as Template** link to save the details of the created debit note as a template.
OR
Click the **View Receivables/Payables** link to view the existing invoices and debit notes.
OR
Click the **Go To Dashboard** link to go to the main dashboard.

5.2.1.2 Create Debit Notes using Templates

You can save the data entered during debit note creation, as a template. This option is available upon successful creation of a debit note. You can use this template in the future to create debit notes for the same program and associated party. This saves the efforts of re-entering the data.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Receivables/Payables Management > Create Receivables/Payables

To view and use templates for creation of debit notes:

1. On navigating to the **Create Receivable/Payable** screen, select the **Debit Note** option and then click the **Create New Debit Note** button.
2. Click the **Template** tab. A list of existing templates appears.

Create Receivables/Payables – Template tab

Field Description

Field Name	Description
Search	Enter the partial or full name of the template to search for specific templates. As you type the name, the relevant templates appear in the list.
Template Name	Displays the name of the debit note template, as a hyperlink. Click this hyperlink to open the New Debit Note screen, with the template details populated in the respective fields.
No. of Debit Note Saved	Displays the number of debit notes saved under the template.
Created By	Displays the name of the corporate user who created the template.
Last Updated	Displays the last updated date of the debit note template.
Action	Click  to delete the debit note template.

3. Navigate through the pages to the required template, or use the **Search** field to find a specific template.
4. Click the desired **Template Name** link. The template details are populated in the **New Debit Note** tab.
OR
To delete an existing debit note template, click . A popup message appears to confirm the deletion.
 - a. Click **Yes** to delete the debit note template.
OR
Click **No** to cancel the deletion of the debit note template.
5. Add or modify the required details.
6. Click **Save** to save the debit note.
OR
Click the **Save and Copy** link to create a copy of the debit note in editable mode.
OR
Click the **Add Debit Note** link at the bottom of the screen, to add another debit note.
OR
Click  at the top right corner of a debit note, to delete it.
OR
Click  at the top right corner of a debit note, to clear the existing data.
7. Click **Submit** to submit the transaction. The Review screen appears.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to the previous screen.
8. In the Review screen, verify the details, and click **Confirm**. A confirmation message appears with the reference ID and status of the transaction.
OR
Click **Back** to navigate back to the previous screen.

OR
Click **Cancel** to cancel the transaction.

5.2.2 Bulk Debit Note Creation

Debit note records can be created in bulk through file upload.

How to reach here:

Dashboard > Toggle Menu > File Upload > File Upload

OR

Dashboard > Quick Links > File Upload

OR

Dashboard > Toggle menu > Receivables/Payables > Receivables/Payables Management > Create Receivables/Payables > Debit Note

To create debit notes in bulk:

Field Description

Field Name	Description
Create Receivable/Payable	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Invoice/Debit Note	Select the Debit Note option.
Online Debit Note Creation	Indicates the option to create debit note records by manual entry of the details.
File Upload	Indicates the option to create bulk debit note records through file upload.

1. In the **Create Receivable/Payable** screen, select the **Debit Note** option and then click the **Bulk File Upload** button. The **File Upload** screen appears.
2. For more information on the procedure of uploading the file, refer **User Manual Oracle Banking Digital Experience Corporate Bulk File Upload – Receivables Payables Management**. Use the file template detailed below for upload.

5.2.2.1 **Bulk Debit Note File Template**

The file to be uploaded should have data in a specific sequence. For each debit note, there must be a top row with indicator 'DN', which specifies debit-note-level parameters. For each commodity under the debit note, there must be a row with indicator 'C', which specifies the commodity-level parameters.

Bulk-Debit-Notes-Upload-Template.csv

Note: Refer this file for the upload file format:

While uploading a .XLSX / .XLS file, if you do not have the required data for a particular cell, and need to leave it blank, then ensure that the particular empty cell has been formatted to the data type of the expected data of that cell. For example, a cell that is supposed to hold textual content, such as name or description, should be formatted to 'Text'. Similarly, a cell that is supposed to hold a number, should be formatted to 'Number'.

Field Description

Field Name	Description
	The following fields are specific to a debit note. You must add a row for each debit note record.
Indicator	Enter DN in this field. This is a mandatory field.
Dr. Note Reference Number	Enter the customer's reference number for the debit note. This is a mandatory field.
Link Invoice Number	Enter the invoice reference numbers to be associated with the debit note. You can provide multiple invoice numbers using the pipe separator. Note: The invoice numbers provided here should belong to the same party ID for which the debit note is being uploaded. The invoice numbers provided here should also belong to the same buyer-supplier combination, as that of the debit note. The invoices specified in this field should not have been cancelled. Debit notes cannot be raised against cancelled invoices.
Dr Note Date	Enter the date of creation of the debit note. This date should not be greater than the current business date. It should also not be less than the invoice date. This is a mandatory field.
Dr Note Due Date	Enter the due date of the debit note.

Field Name	Description
Buyer Code**	Enter the code associated with the buyer.
Supplier Code**	Enter the code associated with the supplier.
Currency*	Enter the debit note currency. A 3-digit currency code as per ISO standards is acceptable. This is a mandatory field.
Base Dr Note Amount*	Enter the gross debit note amount.
Discount Amount	Enter the discount amount applicable on the base debit note amount.
Tax Amount	Enter the applicable tax amount.
Net Dr Note Amount*	Enter the net debit note amount, post application of discount and tax. This is a mandatory field. Net Dr Note Amount = Base Dr Note Amount – Discount Amount + Tax Amount
Buyer Division Code	Enter the division code of the buyer.
Supplier Division Code	Enter the division code of the supplier.
Disputed	Enter Y if the debit note is disputed by the buyer, and N , otherwise.
Buyer ID*	Enter the party ID of the buyer.
Supplier ID*	Enter the party ID of the supplier.
Buyer Name	Enter the name of the buyer.
Supplier Name	Enter the name of the supplier.
PreAccepted	Enter Y if the debit note should be deemed as accepted on upload of file, and N , otherwise.
Acceptance Amount	Enter the debit note amount that is accepted by the buyer. This amount should be less than or equal to the Net Dr Note Amount .
Program ID	Enter the ID of the program associated with the debit note. This ID should be the same as the program ID associated with the linked invoices.
Virtual A/c Flag*	Enter Y if the repayment is to be made to a virtual account number, and N if the repayment is to be made to a physical account number.
Repayment Account Number**	Enter the account number to which the repayment is to be made. This field is mandatory if the Virtual A/c Flag is set to Y .
Bank**	Enter the name of the bank linked to the repayment account.
Branch**	Enter the name of the branch linked to the repayment account.

Field Name	Description
BIC/Routing Code**	Enter the BIC/Routing code of the repayment account.
Funding Request Date	Enter the date when the debit note should be funded.
Funding Request Amount	Enter the amount for which funding is requested. This should be less than or equal to the Acceptance Amount .
Adjustment Reason	Enter the reason for adjustment. The available values are: <ul style="list-style-type: none"> • Pricing Error • Allowance/Charge Error • Extension Error • Quantity Contested • Pallet/Container Charge Error • Freight Deducted • Tax Deducted • Items not received
Remarks	Enter any remarks, if applicable.
Shipment Number	Enter the unique reference number of the shipment.
Shipment Date	Enter the date of the shipment.
Shipment Address	Enter the destination address of the shipment.
Shipment Country	Enter the destination country of the shipment.
Reason for Export	Enter the reason for export.
Terms of Sale(Incoterms)	Enter the applicable 3-digit Incoterms code. The available values are: <ul style="list-style-type: none"> • EXW Ex Works • FAS Free Alongside Ship • FCA Free Carrier • FOB Free On Board • CPT Carriage Paid To • CFR Cost and Freight • CIP Carriage and Insurance Paid To • CIF Cost Insurance and Freight • DAP Delivered at Place • DPU Delivered at Place Unloaded • DDP Delivered Duty Paid
Payment Terms	Enter the agreed payment terms.

Field Name	Description
Country of Origin	Enter the name of the country from where the shipment originated.
The following fields are specific to a commodity. You must add a row for each commodity in the debit note.	
Indicator**	Enter C for a commodity row.
Debit Note reference number	Enter the reference number of the debit note. This is a mandatory field.
Invoice Number**	Enter the invoice reference number of the commodity. This number should also be listed in the Linked Invoice Number field of the Debit Note. Note: Only one invoice number is allowed in this field. If the commodity is linked with multiple invoices, then a commodity row should be added for each invoice.
Commodity Code**	Enter the unique code of the commodity. This code should be the same as that present in the linked invoice in the debit note.
Commodity Name	Enter the name of the commodity. This name should be the same as that present in the linked invoice in the debit note.
Quantity**	Enter the quantity of the commodity.
Unit Cost	Enter the cost per unit of the commodity.
Gross Total of Commodity	Enter the total cost of the commodity. Gross Amount = Unit Cost * Quantity
Discount Amount	Enter the discount amount applicable to the commodity.
Tax Amount	Enter the tax amount applicable to the commodity.
Net Amount**	Enter the net amount of the commodity. Net Amount = Gross Total of Commodity – Discount Amount + Tax Amount

FAQ

1. Who can create invoices/debit notes?

Invoices/debit notes can be created into the banks system by a supplier or a buyer, with valid login credentials and access rights. If the invoice/debit note is being created by a buyer then the pre-acceptance flag gets defaulted as 'Yes' as it is implied that the buyer is accepting the invoice/debit note. If the invoice/debit note is being raised by a supplier, then the pre-acceptance flag can be set to yes or no based on the user's requirement.

2. Can I create multiple invoices/debit notes for different buyers?

Yes, a corporate can create multiple invoices/debit notes online, for different buyers.

3. How many invoices/debit note can I create at a time?

There is no upper limit for creation of multiple invoices/debit note at one time. The user can create as many invoices/debit note as required.

4. How many templates can I save in total?

There is no limit set for maximum number of templates that can be created.

[Home](#)

6. View/Edit Receivables/Payables

Using this option, you can view a list of receivables/payables (invoices and debit notes) based on the corporate party's role as a buyer or supplier.

On selection of Buyer view, you can view all the payables as of current date where the corporate party's role is that of a buyer in the program, and on selection of Supplier view, you can view all the receivables as of current date where the party's role is that of a supplier in the program.

Pre-requisites

- For viewing invoices/debit notes - User must have valid corporate login credentials.
- For editing invoices/debit notes - User must have valid corporate login credentials for creation of invoices/debit notes.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Receivables/Payables Management > View/Edit Receivables/Payables

OR

Dashboard > Toggle menu > Supply Chain Finance > Overview > Quick Links > View Invoice

To view receivables/payables:

1. In the **Select Role** pop-up window, select either the **Buyer** or the **Supplier** option to view your data in terms of Receivables or Payables.

Select Role pop-up

Field Description

Field Name	Description
Select Role	<p>Select the role of the corporate party to view data in terms of Receivables or Payables.</p> <p>The options are:</p> <ul style="list-style-type: none"> Buyer Supplier

- Click **Proceed**. The **View Receivables/Payables** screen appears.
OR
Click **Cancel** to cancel the transaction.

View Receivables/Payables screen (for Buyer Role)

The screenshot displays the 'View Receivables/Payables' interface for a Buyer role. The header shows the user is logged in as Nehal Joshi. The main content area includes a 'Switch View' section with 'Buyer' and 'Supplier' buttons, and a 'List of Payables' table. The table has the following data:

Field Description

Field Name	Description
View Receivables/Payables	This screen displays a list of invoices and debit notes based on the role of the logged-in party.
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Switch View	Indicates the option to view the receivables/payables based on the corporate party's role. The options are: <ul style="list-style-type: none"> • Buyer • Supplier

Field Name	Description
Search	Enter a partial or complete search string, such as reference number, or associated party name, or amount, to search for specific instruments.
Download	Indicates an option to download the list of receivables/payables as a CSV file.
	Click this icon to filter the instruments, based on certain criteria. For more information, refer the Search overlay window section below.
List of Receivables / List of Payables	
A list of receivables/payables is displayed in this section. If the 'Buyer' role is selected, then this section displays a list of payables. And if the 'Supplier' role is selected, then a list of receivables is displayed.	
Indicator	Displays 'I' for an invoice and 'D' for a debit note.
Customer Reference Number 	Indicates the unique reference number of the receivable/payable. This is a hyperlink which when clicked displays the details of the receivable/payable. Refer the View Invoice Details and the View Debit Note Details sections for more information. Click the calendar icon to view the Funding Request Date . This icon is present only if the Funding Request Date has been captured during receivable/payable creation.
Associated Party	Displays the name of the counter party linked with the receivable/payable.
Due Date	Displays when the receivable/payable is due.
Amount	Displays the total receivable/payable amount.
Status	Displays the status of the receivable/payable.
Receivable/Payable Amount	Displays the amount that is yet to be received/paid. The Offer Details () icon is displayed beside this amount, if any offer has been applied to the invoice or debit note. On clicking this icon, the Early Payment Discounts overlay window appears with the details of the offer. For more details, refer the Early Payment Discounts (from View Discount Offer Details) section below.
Finance Status	Displays the status of any finance availed against the instrument. This value can be one of the following: <ul style="list-style-type: none"> • Financed • Partially Financed If the instrument has not been financed, or if the finance is in progress, then this field remains blank.
Payment Status	Displays the status of payment of the receivable/payable.

Search (overlay window)

This overlay window appears when you click  in the **View Receivables/Payables** screen.

The screenshot shows the 'View Receivables/Payables' interface for 'ABZ Solutions | ***462'. The search overlay window is active, displaying various filters. The 'Select Receivable/Payable' filter has 'Both' selected. The 'Reference Number' field is empty. The 'Associated Party Name' field has a dropdown menu. The 'Status' field has a dropdown menu. The 'Program Name' field has a dropdown menu. The 'Due Date' field has 'From' and 'To' date pickers. The 'Amount Range' field has 'Select', 'From', and 'To' options. The 'Payment Status' field has a dropdown menu. The 'Finance Status' field has a dropdown menu. The 'Funding Request Date' field has 'From' and 'To' date pickers. The 'Apply' and 'Reset' buttons are at the bottom of the search overlay.

Finance Status	Indicates an option to search for receivables/payables based on their finance status, whether financed, or partially financed.
Funding Request Date From/To	Indicates the option to retrieve the receivables/payables with funding request dates in a specific time range.

3. To filter the list of receivables/payables, either use the **Search** field or the Filter () option.
4. To view the details of a specific receivable/payable, click the **Customer Reference Number** link. For an invoice, the **View Invoice Details** screen appears. For a debit note, the **View Debit Note Details** screen appears.

6.1 View Invoice Details

This screen appears if you click the **Customer Reference Number** link of a particular invoice in the **View Receivables/Payables** screen. It displays the detailed information of the invoice. You can view the following details:

- Itemized amount details
- Commodity details, if they have been added during creation.
- Reconciliation details, if the invoice has been partially or fully reconciled with payment(s).
- Finances details, if finance has been availed against the invoice.
- Offer details, if any discount offers have been applied to the invoice.

The party that has raised the invoice can edit, delete or cancel the invoice, from this screen, based on the status of the invoice. The party that is liable to make the payment can accept the invoice, or request finance from this screen.

View Invoice Details

The screenshot displays the 'View Invoice Details' interface for Futura Bank. At the top, there is a navigation bar with 'Viewer', 'ATM & Branch Locator', and 'English' options. The main header shows the bank logo and a search bar. Below this, the invoice title 'View Invoice Details' and reference 'AugSupp | ***715' are shown, along with a 'Preview and Download' link.

The invoice summary table is as follows:

Host Reference Number	Payment Status	Invoice Date	Finance Status
INV85886 Accepted	Unpaid	02 Jan 2020	-

Below the summary, there are tabs for 'Amount Details', 'Finances', and 'Offer Details'. The 'Amount Details' tab is active, showing the following table:

Payment Date	Displays the date of payment.
Status	Displays the colour-coded status of the offer.

The actions that can be performed from the **View Invoice Details** screen, depends on the status of the invoice and payment, and the role of the logged-in corporate party.

- **Accept** – Refer the [Accept Invoice](#) section under Manage Invoices in this document.
- **Edit** - Refer the [Edit Invoice](#) section under Manage Invoices in this document.
- **Cancel** - Refer the [Cancel Invoice](#) section under Manage Invoices in this document.
- **Raise Dispute** - Refer the [Raise Dispute](#) section under Manage Invoices in this document.
- **Resolve Dispute** - Refer the [Resolve Dispute](#) section under Manage Invoices in this document.
- **Assign** - Refer the [Assignment of Invoice](#) section under Manage Invoices in this document.
- **Request Finance** - From the View Invoice Details screen, the borrowing party can request for finance against an invoice that is ACCEPTED or PARTIALLY ACCEPTED, and with payment status being UNPAID or PARTIALLY PAID. The borrowing party can be either buyer or supplier, based on the attributes of the Program linking these parties. An invoice can be fully or partially financed based on the configuration set by the bank, and the configured borrowing limits of the corporate party. Based on whether the invoice is fully or partially financed, the status of the invoice changes to FINANCED or PARTIALLY FINANCED.

Net Invoice Amount	<p>Displays the calculated value on basis of discount and tax values entered.</p> <hr/> <p>Note: The Net Invoice Amount gets auto calculated as follows: Net Invoice Amount = Gross Invoice Amount - Total Discount Value + Total Tax Value</p> <hr/>

6.2 View Debit Note Details

This screen appears if you click the **Customer Reference Number** link of a particular debit note in the **View Receivables/Payables** screen. It displays the detailed information of the debit note. You can view the following details:

- Itemized amount details
- Commodity details, if they have been added during creation.
- Linked invoices
- Reconciliation details, if reconciled.
- Finances details, if finance has been availed against the debit note.

View Debit Note Details

The screenshot displays the 'View Debit Note Details' interface for 'ABZ Solutions | ***462'. At the top, there's a navigation bar with 'futura bank' logo, a search bar, and user information: 'Welcome, Nehal Joshi' and 'Last login 01 Feb 12:03 PM'. Below the header, the main content area shows the debit note details in a table:

Host Reference Number	Debit Note Date	Payment Status	Finance Status
DEB82769 Accepted	14 Jan 2020	Unpaid	-

Below this table, there are three tabs: 'Amount Details' (selected), 'Commodity Details', and 'Linked Invoices'. Under 'Amount Details', a table lists various amounts:

Particulars	Amount
Debit Note Amount	GBP800.00
Discount Amount	GBP0.00 (0%)
Tax Amount	GBP0.00 (0%)
Final Net Debit Note Amount	GBP800.00
Acceptance Amount	GBP800.00
Outstanding Amount	GBP800.00

At the bottom of the amount details table, there are 'Cancel' and 'Back' buttons. The footer of the page contains the text: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. [SecurityInformation]Terms and Conditions'.

Net Debit Note Amount	Displays the calculated value on basis of discount and tax values entered. Note: The Net Invoice Amount gets auto calculated as follows: Net Invoice Amount = Gross Invoice Amount - Total Discount Value + Total Tax Value

[Home](#)

7. Dynamic Discounting

Dynamic Discounting is a solution that provides suppliers with the option of receiving early payment in exchange for a discount on their invoice. Suppliers propose to offer discount if paid early where as buyers can also propose to pay early in exchange for a discount.

Dynamic discounting is typically applied on an invoice-by-invoice basis, with the discount generally expressed as a percentage of the face value of the invoice. Dynamic discounting is a true win-win solution that benefits both trading partners. Not only does this solution strengthen each party's financial health, it also improves relationships throughout the supply chain.

The “dynamic” component refers to the option of offering variable discounts based on the dates of payment to suppliers. In most cases, the earlier the payment is made, the greater the discount.

Note: The Dynamic Discounting feature is not displayed if the Supply Chain Finance Module is not implemented by the bank.

7.1 Create Discount Offer

Using this screen, you can create a discount offer.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Dynamic Discounting > Create Discount Offer

To create discount offer:

Create Discount Offers

The screenshot displays the 'Create Discount Offers' interface in the Futura Bank system. The page includes a header with the bank logo, search bar, and user information. The main content area is titled 'Create Discount Offers' and features a progress indicator with two steps: 'Create Discount Offers' (active) and 'Select Receivables/Payables'. The form contains the following fields and options:

- Discount Offer Name:** Early Payment Discount
- Effective Date:** 29 Apr 2022 (start) to 30 Apr 2031 (end)
- Associated Party:** FT CLBMB
- Role:** Buyer
- Discount Rate Type:** Fixed Discount (unselected), Tenor Based Discount (selected)
- Sliding Scale Applicable:** Unchecked
- Payment Period Table:**

Payment Period From	Payment Period To	Discount Rate	
1	10	10	+ -
11	20	5	+ -
21	30	2	+ -
- Payment Option:** Flexible Date (unselected), Fixed Date (unselected), Both (selected)

At the bottom, there are 'Next', 'Cancel', and 'Back' buttons. A 'Note' box on the right states: 'Create a discount Offer on single or multiple invoices or debit notes with simple two step process transaction. Allows corporates to provide a discount offer by themselves on the portal itself and saves time.'

Field Description

Field Name	Description
Create Discount Offers	
Discount Offer Name	Enter the name to be associated with the discount offer being created.
Effective Date	Click the calendar icons and set the start and end dates for the validity of the discount offer.
Associated Party	Select the counter party whose receivables/payables, the discount offer should be applied to. Once the counter party is selected, the role of the counter party, whether buyer or seller, appears below this field.
Discount Rate Type	Select whether the discount rate will be fixed or tenor based. For the Fixed option, a fixed discount rate will be applied to the receivable/payable outstanding amount. For the Tenor Based option, variable discount rates are applicable based on the number of days within which the receivable/payable is paid off.
Sliding Scale Applicable	Enable this switch if the discount rate to be applied should reduce as the payment day advances. When Sliding Scale Applicable is switched ON: <ul style="list-style-type: none"> • In case of Fixed discount rate, if the payment is made on the same day as invoice creation, then the entire discount is applied to the invoice amount. As each day advances, the discount rate slides down by the average discount per day from the invoice creation date till the invoice due date. • In case of Tenor Based discount type, two columns are added to the Tenor Based table, namely, Highest Possible Discount Rate and Lowest Possible Discount Rate. On the starting day of the tenor, the highest possible discount rate is offered on the invoice amount. The discount rate then gradually slides down by the average discount per day from the start day of the tenor to the final day of the tenor. On the final day of the tenor, the lowest possible discount rate is offered.

Field Name	Description
------------	-------------

The following scenarios are applicable if you select the **Fixed** option from the **Discount Rate Type** field.

Scenario 1: For Discount Rate Type - Fixed, Sliding Scale Applicable – OFF

The Discount Rate field appears. The discount entered in this field, is applied whenever the payment is made on any day from the invoice creation day to the invoice due day.

Scenario 2: For Discount Rate Type – Fixed, Sliding Scale Applicable – ON

The Discount Rate field appears. The discount entered in this field is offered on the day of invoice creation. Then, as each day advances, the discount rate reduces by the average discount value per day from invoice creation day to invoice due day. No discount is offered past the due day. For example, if the invoice creation day is Day 1 and invoice due day is Day 10, and the discount rate offered is 10%, then on Day 1, 10% discount is offered on the invoice amount. Then as each day advances, the discount is reduced by 1%, so on Day 2, the discount offered is 9%. On Day 5, the discount offered is 5%. And on Day 10, the discount offered is 1%.

Discount Rate	Enter the discount rate to be applied for the offer. This field appears if you select the Fixed option from the Discount Rate Type field.
----------------------	--

The following scenarios are applicable if you select the **Tenor Based** option from the **Discount Rate Type** field.

Scenario 1: For Discount Rate Type – Tenor Based, Sliding Scale Applicable – OFF

A tabular section appears, with Payment Period From, Payment Period To, and Discount Rate columns for entering the tenor and discount details. For each tenor entered, a fixed discount rate is offered. For example:

Payment Period From	Payment Period To	Discount
1	10	10
11	20	5

If invoice payment is made any day from the 1st to 10th day of invoice creation, a fixed discount of 10% is offered on the invoice amount. From the 11th to the 20th day of invoice creation, a discount of 5% is offered on the invoice amount.

Scenario 2: For Discount Rate Type – Tenor Based, Sliding Scale Applicable – ON

A tabular section appears, with Payment Period From, Payment Period To, Highest Possible Discount Rate, and Lowest Possible Discount Rate columns. The discount rate for each tenor, starts with the highest possible value on the Payment Period From day. It then slides down by the average discount rate per day from the Payment Period From day to the Payment Period To day, for each tenor. For example:

Payment Period From	Payment Period To	Highest Possible Discount Rate	Lowest Possible Discount Rate
1	5	20	15
6	10	14	10

If invoice payment is made on the 1st day, then a discount of 20% is offered on the invoice amount. As each day advances, the discount is reduced by 1%. So on the 2nd day, the discount offered is 19%. On the 5th day, discount offered is 15%, and so on.

Field Name	Description
Payment Period From	Enter the starting day of the tenor.
Payment Period To	Enter the final day of the tenor.
Discount Rate	Enter the discount percentage applicable for the tenor. This field is applicable only if Sliding Scale option is switched OFF.
	Click the add icon to add another tenor and applicable discount rate.
	Click the delete icon to delete a specific tenor.
Highest Possible Discount Rate	Enter the upper threshold of discount rate that should be offered on the first day of the tenor.
Lowest Possible Discount Rate	Enter the lower threshold of discount rate that should be offered on the final day of the tenor.
Payment Option	<p>Select the required payment option.</p> <p>If you select Flexible, then the applicable discount is offered on the day of the payment as per the offer maintenance.</p> <p>If you select Fixed, then a specific day must be selected during the acceptance of discount offer in Manage Receivables/Payables. Discount is offered only when the payment is made on that specific day.</p> <p>If you select Both, then an option to select between 'Flexible' and 'Fixed' payment options is provided during the acceptance of discount offer in Manage Receivables/Payables.</p>

1. In the **Create Discount Offer** stage, enter the details as mentioned above.
2. Click **Next** to go to the **Select Receivables/Payables** stage.
OR
Click **Back** to go to the previous screen.
OR
Click **Cancel** to cancel the creation of the discount offer.

Early Payment Discounts (from View Discount Offer Details)

Field Description

Field Name	Description
Early Payment Discounts	
Offer Name	Displays the name of the applied offer.
Discount Rate Type	The colour-coded discount rate type is also displayed below the offer name. This can be either Fixed or Tenor Based .
Associated Party	Displays the name of the associated party linked with the invoice record.
Amount	Displays the invoice amount.
Receivable Amount	Displays the outstanding invoice amount.
Select Payment day to avail best discounts	Move the slider along the date line to select a particular payment date to view the discount being offered on that date. The start date of the slider is always the current business date. The due date of the receivable/payable is the end date of the slider. The payment date and discount rate are displayed in the receivable/payable tile below.
Receivable/Payable tile	The applicable discount rate is displayed in the top right corner of this tile.
Reference Number	Displays the reference number of the receivable/payable.
Payment Date	Displays the payment date that is selected using the slider.
Discount Amount	Displays the discount amount applicable.
Amount After Discount	Displays the receivable/payable amount after application of discount.

Field Name	Description
Slide Scale	Displays Yes if the Sliding Scale Applicable switch has been enabled during discount offer creation, and No , otherwise.
Payment Option	Displays the payment option that has been selected during discount offer creation. This can be one of the following: <ul style="list-style-type: none"><li data-bbox="662 436 776 462">• Fixed<li data-bbox="662 478 800 504">• Flexible<li data-bbox="662 520 764 546">• Both
Payment Period and Discount Options	This section is displayed only for Tenor Based discount rate type. It displays a table with the Payment Period and the applicable Discount Rate . In case Slide Scale is 'Yes', then instead of Discount Rate, the Highest Possible Discount Rate and the Lowest Possible Discount Rate are displayed.

8. Manage Receivables/Payables

Using this screen, a corporate user can manage all receivables/payables associated with the corporate party. The portal provides a single screen to the corporate party, for all possible actions that can be taken on receivables/payables. At present, the following actions can be effected on relevant receivables/payables:

- Accept
- Accept/Reject Discount Offer
- Edit
- Cancel
- Raise Dispute
- Resolve Dispute
- Assignment

Note: These actions are not available on a mobile device at present.

Pre-requisites

User must have valid corporate login credentials.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Receivables/Payables Management > Manage Receivables/Payables

Manage Receivables/Payables

The screenshot displays the 'Manage Receivables/Payables' interface for 'ABZ Solutions | ***462'. It features a top navigation bar with 'futura bank' logo, a search bar, and user details: 'Welcome, Nehal Joshi' and 'Last login: 10 Feb 05:35 PM'. Below the header, there are four action buttons: 'Raise Dispute' (709 Receivables/Payables), 'Resolve Dispute', 'Assignment', and 'Edit'. A table lists the receivables/payables, with the following data visible:

Associated Party	Reference Number	Due Date	Amount	Disputed Amount	Dispute Reason	Comments	Upload Documents
NehNovCust1	InvOCRAug17	30 Aug 2032	GBP1,980.00	GBP1,980.00	Select	Type Comment	Upload Documents
AugBuyer	Inv24122020	06 Dec 2030	GBP6,500.00	GBP6,500.00	Select	Type Comment	Upload Documents
RyanB Bohr	DNTrunkNov16	30 Nov 2030	GBP10,000.00	GBP10,000.00	Select	Type Comment	Upload Documents
RyanB Bohr	InvTrunkNov24	30 Nov 2030	GBP12,000.00	GBP12,000.00	Select	Type Comment	Upload Documents
RyanB Bohr	InvTrunkNov27	30 Nov 2030	GBP12,000.00	GBP12,000.00	Select	Type Comment	Upload Documents
RyanB Bohr	InvTrunkNov25	30 Nov 2030	GBP12,000.00	GBP12,000.00	Select	Type Comment	Upload Documents

At the bottom of the table, there is a pagination control showing 'Page 1 of 119 (1-6 of 709 items)' and a 'Submit' button. The footer contains the copyright notice: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. | Security Information | Terms and Conditions'.

Field Description

Field Name	Description
Manage Receivables/Payables	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Action Tiles	<p>Select the required action to be effected on the relevant receivables/payables.</p> <p>On selecting an action tile, the number of receivables/payables that can be effected by that action, appears in the respective tile. The List of Receivables/Payables section is also updated with the relevant receivables/payables records.</p> <p>The options available are:</p> <ul style="list-style-type: none"> • Accept - For more information, refer the Accept section below. • Accept/Reject Discount Offer – For more information, refer the Accept/Reject Discount Offer section below. • Edit - For more information, refer the Edit section below. • Cancel - For more information, refer the Cancel section below. • Raise Dispute – For more information, refer the Raise Dispute section below. • Resolve Dispute – For more information, refer the Resolve Dispute section below. • Assignment – For more information, refer the Assignment section below.

8.1 Accept

Using this option, the corporate party with the role of 'Buyer' can accept receivables/payables to convey the agreement to pay the receivable/payable amount. You can partially accept the receivables/payables by entering a part of the total amount that you wish to accept. This resets the receivable/payable amount to the remaining value after partial acceptance.

Note: Only the corporate party with the role of **Buyer**, can accept receivables/payables. Also, only those receivables/payables with status as **Raised**, and payment status as **Unpaid**, can be accepted.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Receivables/Payables Management > Manage Receivables/Payables

OR

Dashboard > Toggle menu > Receivables/Payables > Receivables/Payables Management > View/Edit Receivables/Payables > Customer Reference Number link of RAISED invoice/debit note

To accept receivables/payables:

1. In the **Manage Receivables/Payables** screen, click the **Accept** tile. A list of receivables/payables that are in the Raised status, appears.

Manage Receivables/Payables – Accept action selected

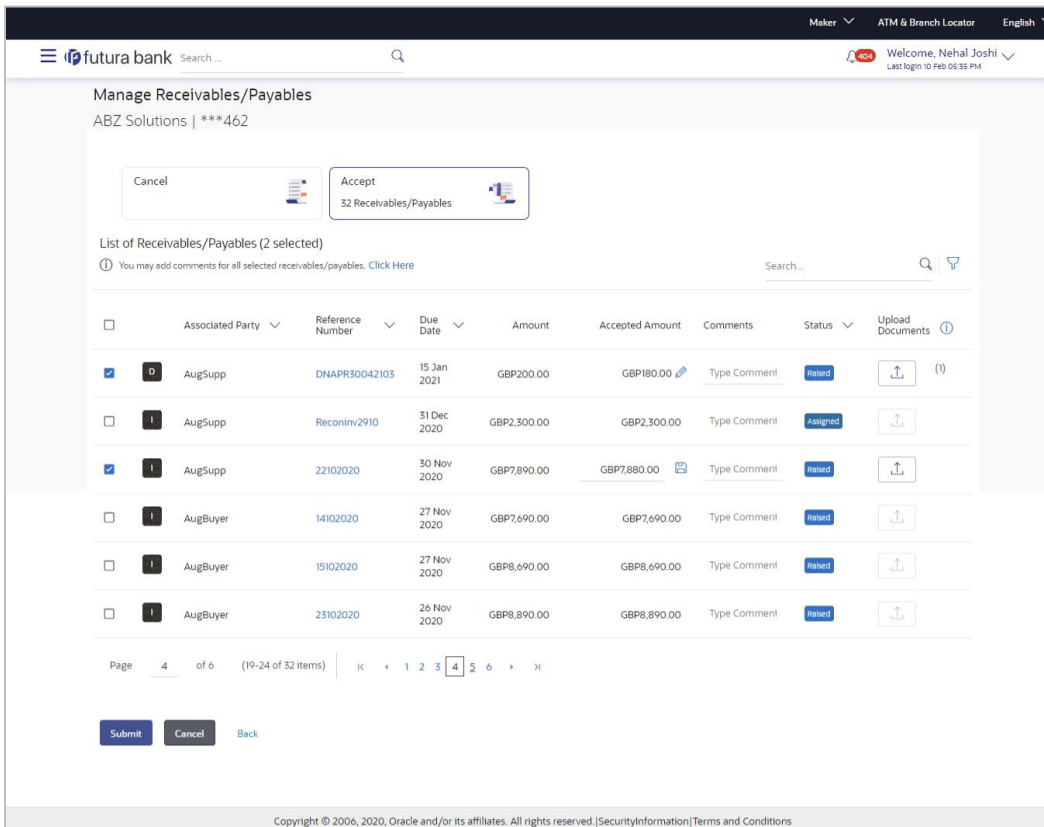

Field Description

Field Name	Description
Manage Receivables/Payables – Accept	
List of Receivables/Payables (number selected)	This section displays a list of receivables/payables against which the ‘Accept’ action can be effected. Once you select one or more receivables/payables to accept, the number of receivables/payables selected appears in brackets.
Search	Enter the partial or full receivable/payable reference number / associated party name / status to search for specific receivable/payable. The results appear as and when you enter the data.
	Click this icon to filter the receivables/payables, based on certain criteria. For more information, refer the Search (overlay window for Manage Receivables/Payables) section below.

Field Name	Description
Check Box	<p>To select all the receivables/payables in the list, select the main check box. To select specific receivables/payables, select the check boxes beside those receivables/payables. If you select more than one receivable/payable, the following message appears:</p> <p> You may add comments for all selected receivables/payables. Click Here.</p> <hr/> <p>Note: To add comments for all selected receivables/payables:</p> <ol style="list-style-type: none"> 1) Click the Click Here link. A pop-up window appears. 2) Add relevant comments. 3) Click Apply to apply the same. OR Click Cancel to cancel adding the comments. <hr/>
Indicator	Displays 'I' for invoice.
Associated Party	Displays the name of the associated party linked with the receivable/payable.
Reference Number	Displays the unique reference number of the receivable/payable. The reference number is a hyperlink, which when clicked, displays the receivable/payable details in an overlay window.
Due Date	Displays the date on which the receivable/payable must be fully paid.
Amount	Displays the total receivable/payable amount.
Accepted Amount	<p>Indicates the receivable/payable amount that is acceptable to the buyer. By default, the total receivable/payable amount is displayed in this field. Once you select a receivable/payable, this field becomes editable.</p> <hr/> <p>Note: The receivable/payable can be fully or partially accepted. To partially accept a receivable/payable:</p> <ol style="list-style-type: none"> 1) Select the check box beside the receivable/payable to be partially accepted. 2) Click  and enter the amount that you wish to accept. 3) Click  to save the entered amount. <hr/>
Comments	<p>Enter remarks if any, while accepting the receivable/payable. Once you select a receivable/payable, this field becomes editable.</p> <hr/> <p>Note: Remarks are mandatory in case of partially accepting the receivable/payable.</p> <hr/>
Status	Displays the status of the receivable/payable.

Field Name	Description
Upload Documents	<p>Click  to upload relevant documents. Once you select a receivable/payable, this icon becomes clickable.</p> <p>The following document formats are supported: JPEG, JPG, PNG, and PDF. A maximum of 5 documents can be uploaded.</p> <p>Once you upload documents, the number of documents uploaded appears as a hyperlink in brackets, beside this icon. On clicking this hyperlink, a pop-up window appears with the names of the documents uploaded. To delete an uploaded document, click  beside the document in the pop-up window.</p> <p>Note: These documents can also be viewed and downloaded by the approver/checker.</p>

The screenshot displays the 'Manage Receivables/Payables' screen for 'ABZ Solutions | ***462'. At the top, there are buttons for 'Cancel' and 'Accept 32 Receivables/Payables'. Below this, a 'List of Receivables/Payables (2 selected)' is shown with a search bar and a filter icon. The table below lists the items:

	Associated Party	Reference Number	Due Date	Amount	Accepted Amount	Comments	Status	Upload Documents
<input checked="" type="checkbox"/>	AugSupp	DNAPR30042103	15 Jan 2021	GBP200.00	GBP180.00	Type Comment	Accepted	 (1)

<input type="checkbox"/>	AugBuyer	15102020	27 Nov 2020	GBP8,690.00	GBP8,690.00	Type Comment	Accepted	
<input type="checkbox"/>	AugBuyer	25102020	26 Nov 2020	GBP8,890.00	GBP8,890.00	Type Comment	Accepted	

At the bottom of the table, there are pagination controls: 'Page 4 of 6 (19-24 of 32 items)' and navigation arrows. Below the table are buttons for 'Submit', 'Cancel', and 'Back'. The footer contains the copyright notice: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. | Security Information | Terms and Conditions'.

- Once you select the required receivables/payables, update the **Accepted Amount** field if required, and add relevant comments.
 - You can also click  and upload relevant documents, if required.
- Click **Submit**. The Review screen appears.
OR
Click **Cancel** to cancel the transaction.

OR
Click **Back** to go to the previous screen.

- Review the details and click **Confirm**. A confirmation message appears with the reference number and status of the transaction.

OR
Click **Cancel** to cancel the transaction.

OR
Click **Back** to go to the previous screen.

8.2 Accept/Reject Discount Offer

Using this option, the supplier can either accept or reject discount offers that have been linked to invoices.

Note: The Accept/Reject Discount Offer tile is not displayed if the Supply Chain Finance Module is not implemented by the bank.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Receivables/Payables Management > Manage Receivables/Payables

To accept/reject discount offers:

- In the **Manage Receivables/Payables** screen, click the **Accept/Reject Discount Offer** tile. A list of relevant receivables/payables appears on which a discount offer each has been raised.

Manage Receivables/Payables – Accept/Reject Discount Offer action selected

The screenshot shows the Oracle Manage Receivables/Payables interface. At the top, there are navigation options like 'Viewer', 'ATM & Branch Locator', and 'English'. The main header is 'Manage Receivables/Payables' with a search bar and a user profile 'Welcome, nehal joshi'. Below the header, there are four tiles: 'Raise Dispute', 'Accept/Reject Discount Offer' (which is selected and highlighted), 'Resolve Dispute', and 'Assignment'. The 'Accept/Reject Discount Offer' tile shows '25 Receivables/Payables'. Below the tiles, there is a section for 'List of Receivables/Payables (0 selected)' with a search bar and a filter 'Accept/Reject Discount Offer'. The main table has the following columns: Reference Number, Associated Party, Offer Name, Due Date, Outstanding Amount, Remarks, and Action. The table contains 7 rows of data, each with a 'D' icon in the first column and 'Accept/Reject' in the last column.

Reference Number	Associated Party	Offer Name	Due Date	Outstanding Amount	Remarks	Action

Field Description

Field Name	Description
Manage Receivables/Payables – Accept/Reject Discount Offer	
List of Receivables/Payables (number selected)	
This section displays a list of receivables/payables against which the 'Accept/Reject Discount Offer' action can be effected. Once you select one or more receivables/payables, the number of receivables/payables selected appears in brackets.	
Select Multiple	Enable this switch to select multiple receivables/payables for accepting/rejecting discount offers. Multiple discount offers can be accepted/rejected in the same transaction, only when the name of the discount offers, the date and the due date of the receivable/payable are the same. Once this switch is enabled, check boxes appear beside the receivables/payables, for selection.
Search	Enter the partial or full receivable/payable reference number / associated party name / status to search for specific receivables/payables. The results appear as and when you enter the data.
Accept/Reject Discount Offer	This hyperlink is enabled only when the Select Multiple switch is enabled and when you select one or more receivables/payables. It enables accepting/rejecting the offer applied to multiple receivables/payables in one click. Only those receivables/payables can be selected, whose date and due date are the same and where the same offer has been applied. On clicking this link, the Early Payment Discounts overlay window appears where you can view and accept/reject the linked discount offer. For more information, refer the Early Payment Discounts section below.
	Click this icon to filter the receivables/payables, based on certain criteria. For more information, refer the Search (overlay window for Manage Receivables/Payables) section below.
Check Box	To select all the receivables/payables in the list, select the main check box. To select specific receivables/payables, select the check boxes beside those receivables/payables. The check boxes appear only when the Select Multiple switch is enabled.
Indicator	Displays 'I' for invoice.
Reference Number Date	Displays the unique reference number of the receivable/payable. The reference number is a hyperlink, which when clicked, displays the receivable/payable details in an overlay window. The date of creation of the receivable/payable is also displayed.
Associated Party Role	Displays the name of the associated party linked to the receivable/payable. The role of the associated party is also displayed.

Field Name	Description
Offer Name	Displays the name of the offer linked to the receivable/payable.
Due Date	Displays the date when the receivable/payable must be fully paid off.
Outstanding Amount	Displays the receivable/payable amount that is yet to be received/paid. The discount offer icon is displayed beside this amount.
Remarks	Once you accept or reject a discount offer, this field displays relevant remarks (regarding the acceptance or rejection).
Action	Indicates an option to either accept or reject the discount offer. On clicking this link, the Early Payment Discounts overlay window appears where you can view and accept/reject the linked discount offer. For more information, refer the Early Payment Discounts section below.

Early Payment Discounts

Field Description

Field Name	Description
Offer Name	Displays the name of the applied offer.
Discount Rate Type	The colour-coded discount rate type is also displayed below the offer name. This can be either Fixed or Tenor Based .
Associated Party	Displays the name of the associated party linked with the receivable/payable record.

Field Name	Description
Amount	Displays the receivable/payable amount. If the Select Multiple Switch is enabled, then this field displays the total amount of all the selected receivables/payables.
Receivable Amount	Displays the outstanding receivable amount. If the Select Multiple Switch is enabled, then this field displays the total outstanding amount of all the selected receivables/payables.
Select Payment day to avail best discounts	Move the slider along the date line to select a particular payment date and to view the discount being offered on that date. The start date of the slider is always the current business date. The invoice due date is the end date of the slider. The payment date and discount rate are displayed in the receivable/payable tile below.
Receivable/Payable tile(s)	
If the Select Multiple switch is enabled, then a tile is displayed for each selected invoice. The applicable discount rate is displayed in the top right corner of each tile.	
Reference Number	Displays the reference number of the receivable/payable.
Payment Date	Displays the payment date that is selected using the slider.
Discount Amount	Displays the discount amount applicable.
Amount After Discount	Displays the receivable/payable amount after application of discount.
Slide Scale	Displays Yes if the Sliding Scale Applicable switch has been enabled during discount offer creation, and No , otherwise.
Payment Option	<p>Displays Flexible, in case this option has been selected during discount offer creation. This field is not editable in this case. You can use the date selection slider to view what discount is available on what date.</p> <p>Displays Fixed, in case this option has been selected during discount offer creation. This field is not editable in this case. Use the date selection slider above to set a fixed date for payment. The discount offer is applicable only when the payment is done on this particular date.</p> <p>Displays both 'Fixed' and 'Flexible' if Both option has been selected during discount offer creation. In this case, you can select either the Fixed Date or the Flexible Date option for payment. If you select the Fixed Date option, then use the date selection slider above to set a fixed date for payment. The discount offer is applicable only when the payment is done on this particular date.</p>
Payment Period and Discount Options	This section is displayed only for Tenor Based discount rate type. It displays a table with the Payment Period and the applicable Discount Rate . In case Slide Scale is 'Yes', then instead of Discount Rate, the Highest Possible Discount Rate and the Lowest Possible Discount Rate are displayed.

2. In the **Early Payment Discounts** overlay window:

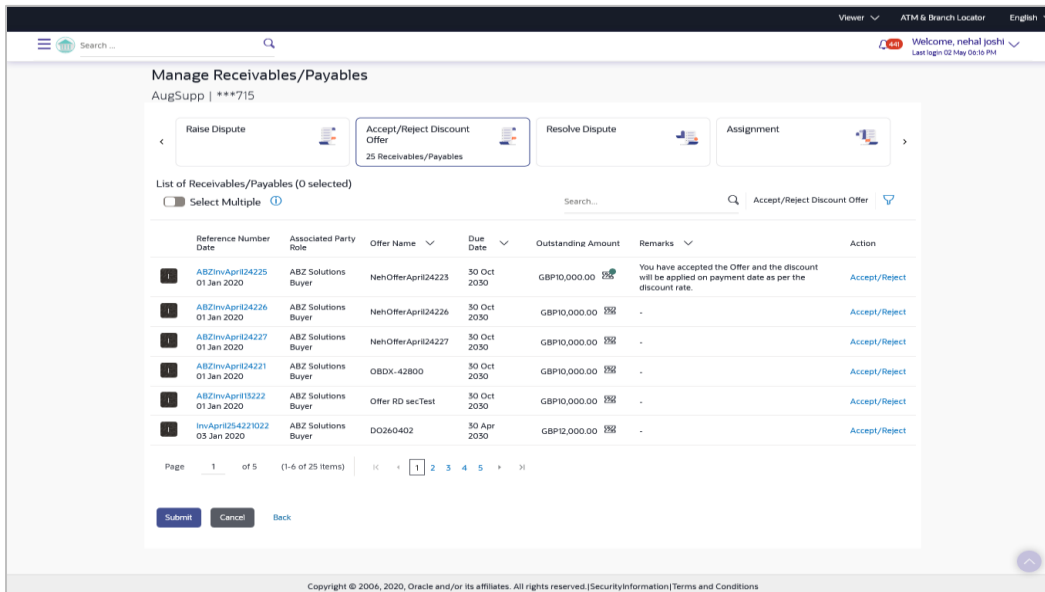

- If the **Payment Option** is **Fixed**, then set the payment date by using the slider under **Select Payment day to avail best discounts**.
- If the **Payment Option** is **Both**, then select either **Fixed Date** or **Flexible Date** for payment. If the **Fixed Date** option is selected, then set the payment date by using the slider under **Select Payment day to avail best discounts**.

3. Click **Accept** to accept the discount offer.

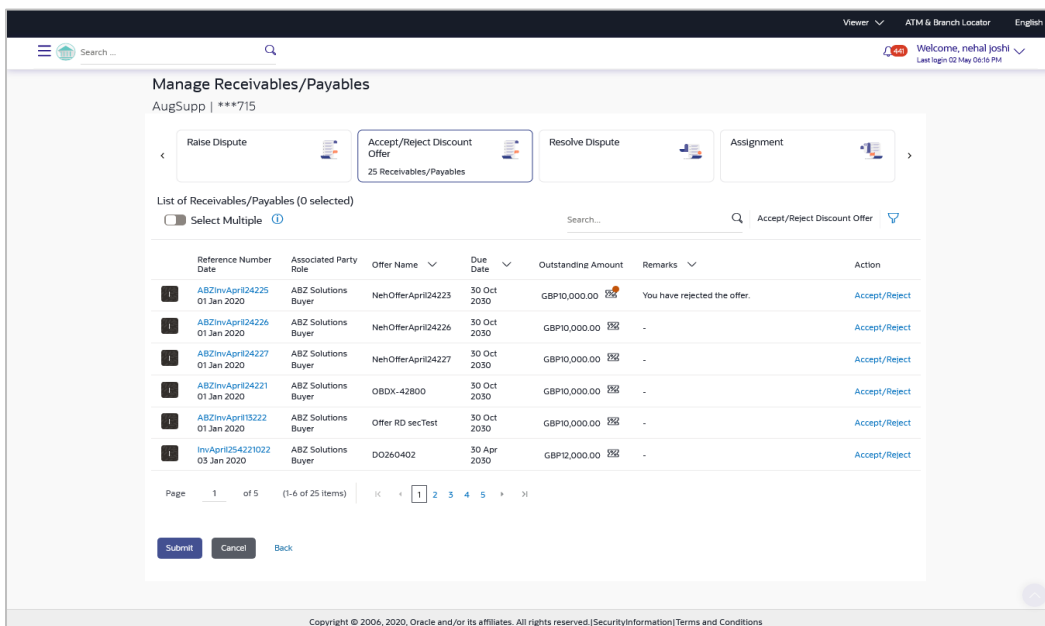

OR

Click **Reject** to reject the discount offer.

On Clicking Accept

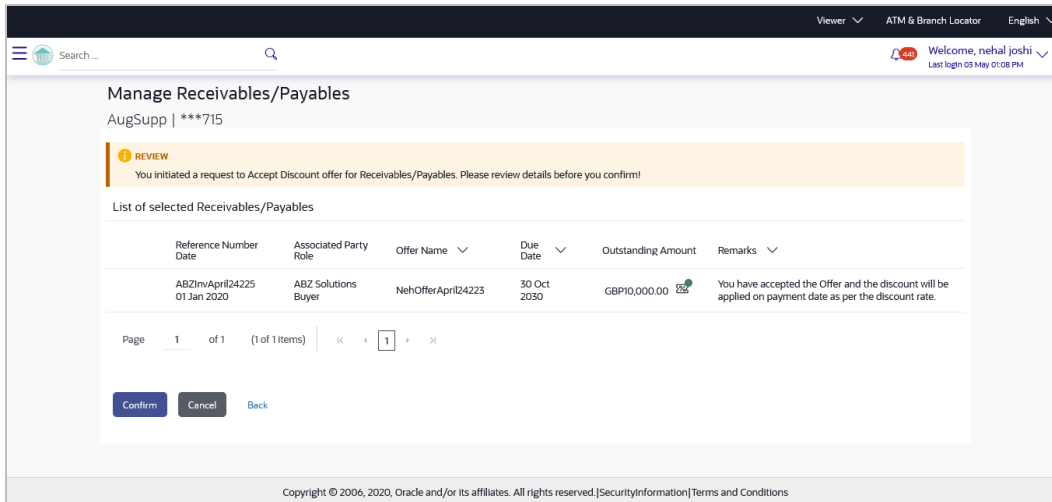

On Clicking Reject

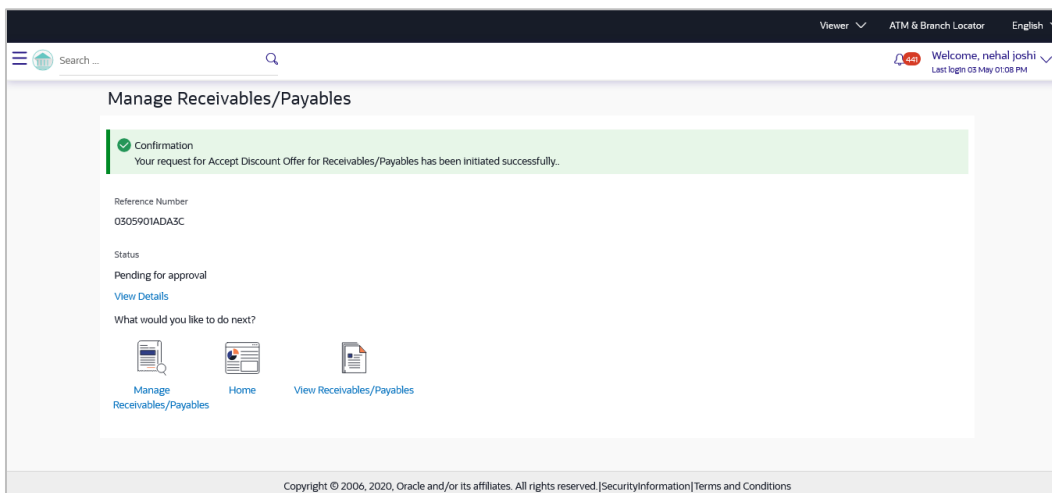

4. Click **Submit** to submit the accept/reject discount offer transaction. The Review screen appears.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to go to the previous screen.

Review Screen

5. Review the details and click **Confirm**. A confirmation message appears with the reference number and status of the transaction.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to go to the previous screen.

Confirmation Screen

8.3 Edit

Using this option, the supplier can modify the due date of a receivable/payable.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Receivables/Payables Management > Manage Receivables/Payables

OR

Dashboard > Toggle menu > Receivables/Payables > Receivables/Payables Management > View/Edit Receivables/Payables > Customer Reference Number link of RAISED invoice/debit note

To edit receivables/payables:

1. In the **Manage Receivables/Payables** screen, click the **Edit** tile. A list of relevant receivables/payables appears.

Manage Receivables/Payables – Edit action selected

The screenshot shows the 'Manage Receivables/Payables' interface with the 'Edit' action selected. The interface displays a list of 364 receivables/payables. The table below represents the data shown in the screenshot:

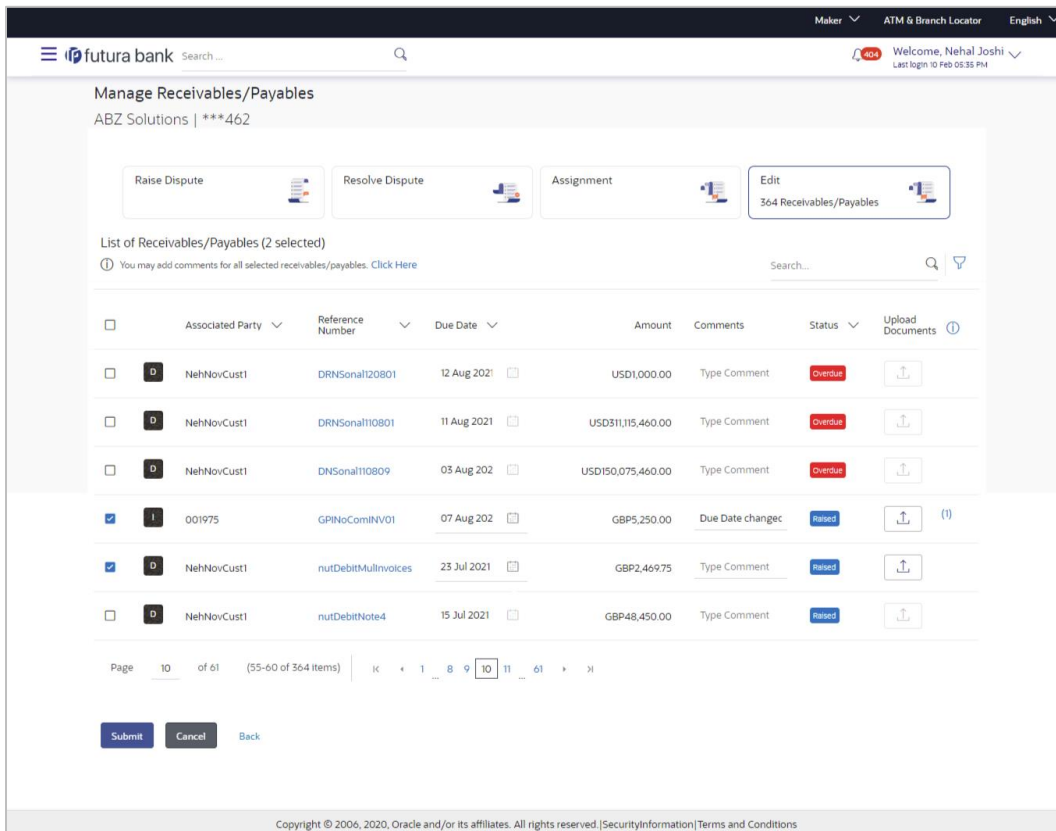

Associated Party	Reference Number	Due Date	Amount	Comments	Status	Upload Documents
NehNovCust1	nutDN0001	15 Jul 2021	GBP363,479.84	Type Comment	Raised	Download
NehNovCust1	nutDebitNote2	15 Jul 2021	GBP200,000.00	Type Comment	Raised	Download
NehNovCust1	nutDebitNote1	09 Jul 2021	GBP200.00	Type Comment	Raised	Download

Page 10 of 61 (55-60 of 364 items) | Submit | Cancel | Back

2. Once you select the required receivables/payables, update the **Due Date** field(s), and enter relevant comments.

- You can also click  and upload relevant documents, if required.

3. Click **Submit**. The Review screen appears.
OR

- Click **Cancel** to cancel the transaction.
 OR
 Click **Back** to go to the previous screen.
4. Review the details and click **Confirm**. A confirmation message appears with the reference number and status of the transaction.
 OR
 Click **Cancel** to cancel the transaction.
 OR
 Click **Back** to go to the previous screen.

8.4 Cancel

Using this option, the supplier can cancel a receivable/payable. This action can only be performed on receivables/payables in the RAISED and UNPAID status.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Receivables/Payables Management > Manage Receivables/Payables

OR

Dashboard > Toggle menu > Receivables/Payables > Receivables/Payables Management > View/Edit Receivables/Payables > Customer Reference Number link of RAISED invoice/debit note

To cancel receivables/payables:

1. In the **Manage Receivables/Payables** screen, click the **Cancel** tile. A list of receivables/payables that are in the Raised and Unpaid status, appears.

Manage Receivables/Payables – Cancel action selected

The screenshot displays the 'Manage Receivables/Payables' interface for 'ABZ Solutions | ***462'. At the top, there are two action tiles: 'Cancel' (32 Receivables/Payables) and 'Accept'. Below these is a table titled 'List of Receivables/Payables (0 selected)'. The table has the following columns: Associated Party, Reference Number, Due Date, Amount, Comments, Status, and Upload Documents. Two rows are visible:

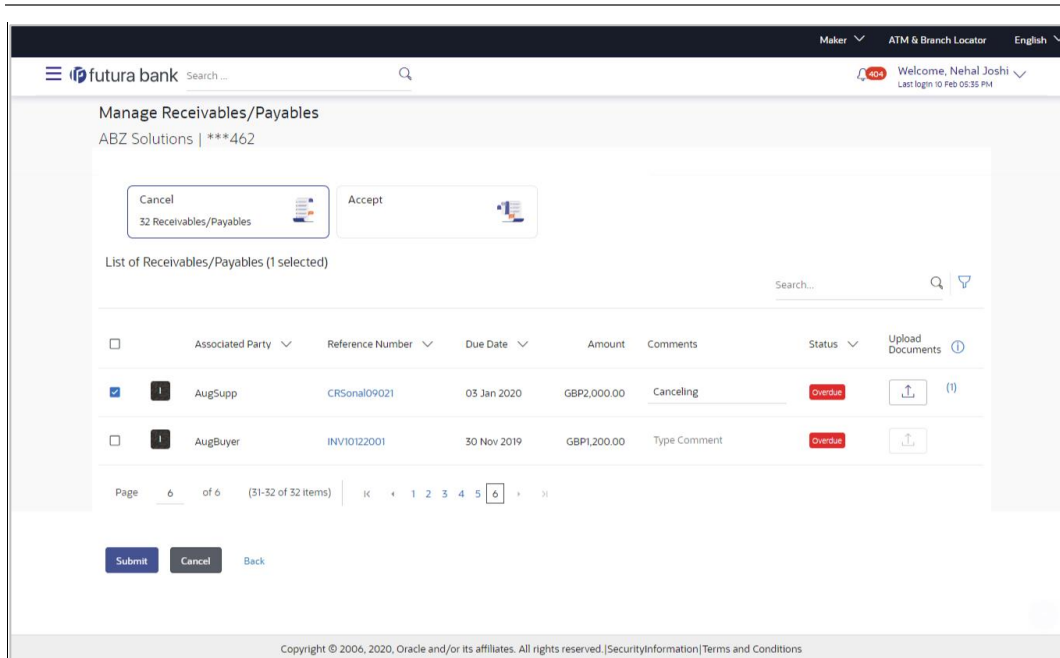

Associated Party	Reference Number	Due Date	Amount	Comments	Status	Upload Documents
AugSupp	CRSonal09021	03 Jan 2020	GBP2,000.00	Type Comment	Overdue	[Upload Icon]
AugBuyer	INV10122001	30 Nov 2019	GBP1,200.00	Type Comment	Overdue	[Upload Icon]

At the bottom of the table, there is a pagination bar showing 'Page 6 of 6 (31-32 of 32 items)'. Below the table are 'Submit', 'Cancel', and 'Back' buttons. The footer contains copyright information: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. [SecurityInformation] Terms and Conditions'.

OR

Click **Back** to go to the previous screen.

4. Review the details and click **Confirm**. A confirmation message appears with the reference number and status of the transaction.

OR

Click **Cancel** to cancel the transaction.

OR
Click **Back** to go to the previous screen.

8.5 Raise Dispute

If a corporate party (either Buyer or Supplier) does not agree with the details of a receivable/payable, they can raise a dispute against the receivable/payable.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Receivables/Payables Management > Manage Receivables/Payables

OR

Dashboard > Toggle menu > Receivables/Payables > Receivables/Payables Management > View/Edit Receivables/Payables > Customer Reference Number link of invoice/debit note

To raise dispute against a receivable/payable:

1. In the **Manage Receivables/Payables** screen that appears, either click the **Raise Dispute** link or the **Raise Dispute** tile. A list of receivables/payables on which dispute can be raised, appears.

Manage Receivables/Payables – Raise Dispute action selected

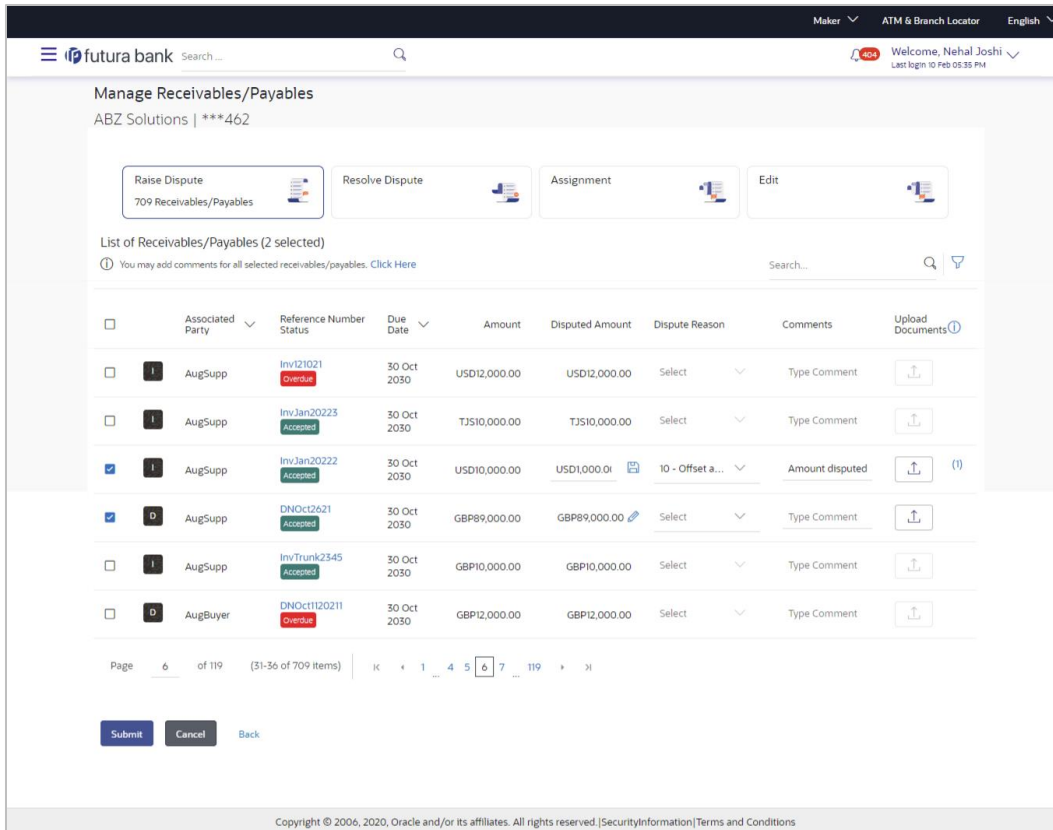

The screenshot displays the 'Manage Receivables/Payables' interface for 'ABZ Solutions | ***462'. It features a navigation bar with 'futura bank' logo and search bar. Below the header, there are action tiles for 'Raise Dispute' (709 Receivables/Payables), 'Resolve Dispute', 'Assignment', and 'Edit'. A table lists receivables/payables with columns for Associated Party, Reference Number Status, Due Date, Amount, Disputed Amount, Dispute Reason, Comments, and Upload Documents. The table contains 7 rows of data. At the bottom, there are 'Submit', 'Cancel', and 'Back' buttons.

Associated Party	Reference Number Status	Due Date	Amount	Disputed Amount	Dispute Reason	Comments	Upload Documents

4. Review the details and click **Confirm**. A confirmation message appears with the reference number and status of the transaction.
 - OR
 - Click **Cancel** to cancel the transaction.
 - OR
 - Click **Back** to go to the previous screen.

8.6 Resolve Dispute

A corporate user can use this option to resolve disputes that have been raised against receivables/payables.

Note: The **Resolve Dispute** action can be effected only on those receivables/payables that have disputes raised against them.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Receivables/Payables Management > Manage Receivables/Payables

OR

Dashboard > Toggle menu > Receivables/Payables > Receivables/Payables Management > View/Edit Receivables/Payables > Customer Reference Number link of invoice/debit note

To resolve a dispute raised against a receivable/payable:

1. In the **Manage Receivables/Payables** screen that appears, either click the **Resolve Dispute** link or the **Resolve Dispute** tile. A list of disputed receivables/payables, appears.

Manage Receivables/Payables – Resolve Dispute action selected

The screenshot shows the Oracle Futura Bank interface for managing receivables and payables. The user is logged in as Nehal Joshi. The main heading is "Manage Receivables/Payables" for "ABZ Solutions | ***462". There are four action tiles: "Raise Dispute", "Resolve Dispute" (which is selected and shows "42 Receivables/Payables"), "Assignment", and "Edit". Below the tiles is a table listing the disputed items.

	Associated Party	Reference Number Status	Due Date	Amount	Disputed Amount	Dispute Reason	Comments	Upload Documents

Dispute Reason	Displays the reason for the dispute.
-----------------------	--------------------------------------

Comments	Enter any relevant comments. Once you select a receivable/payable, this field becomes editable.
-----------------	---

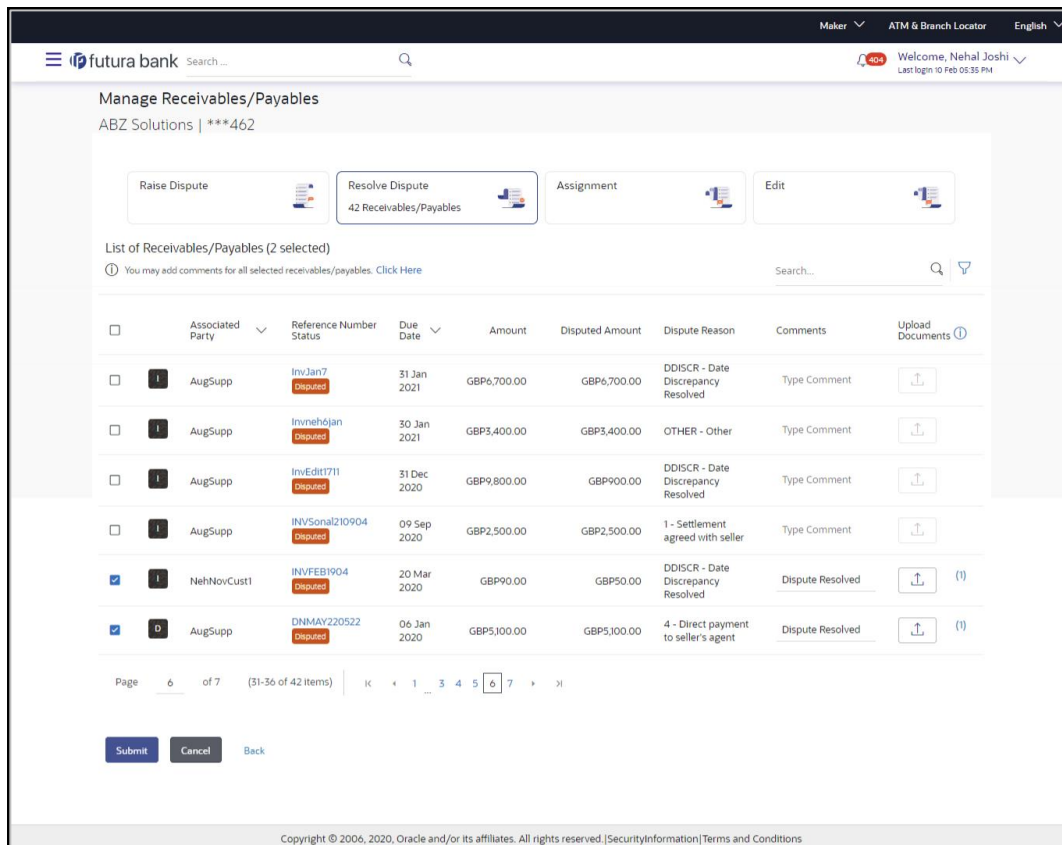

Upload Documents

Click  to upload relevant documents. Once you select a receivable/payable, this icon becomes clickable.

The following document formats are supported: JPEG, JPG, PNG, and PDF. A maximum of 5 documents can be uploaded.

Once you upload documents, the number of documents uploaded appears as a hyperlink in brackets, beside this icon. On clicking this hyperlink, a pop-up window appears with the names of the documents uploaded. To delete an uploaded document, click  beside the document in the pop-up window.

Note: These documents can also be viewed and downloaded by the approver/checker.

2. Once you select the required receivable/payable, enter relevant comments.

a. You can also click  and upload relevant documents, if required.

3. Click **Submit**. The Review screen appears.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to go to the previous screen.
4. Review the details and click **Confirm**. A confirmation message appears with the reference number and status of the transaction.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to go to the previous screen.

8.7 Assignment

A corporate party can assign the responsibility of handling their receivables/payables to a factor. This process is referred to as assignment. The responsibilities can include collecting, distributing, financing, repayment, and so on.

Note: The Assignment tile is not displayed if the Supply Chain Finance Module is not implemented by the bank.

If the 'Acceptance Applicable' flag is enabled for the program associated with the receivable/payable, then the receivable/payable is available for assignment only after it has been 'Accepted'. Else, the receivable/payable is available for assignment regardless of its status.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Receivables/Payables Management > Manage Receivables/Payables

OR

Dashboard > Toggle menu > Receivables/Payables > Receivables/Payables Management > View/Edit Receivables/Payables > Customer Reference Number link of invoice/debit note

To perform assignment of receivables/payables:

1. In the **Manage Receivables/Payables** screen that appears, click the **Assignment** tile. A list of receivables/payables on which the assignment action can be effected, appears.

This section displays a list of receivables/payables against which the ‘Assignment’ action can be effected. Once you select one or more receivables/payables to assign, the number of receivables/payables selected appears in brackets.

Search

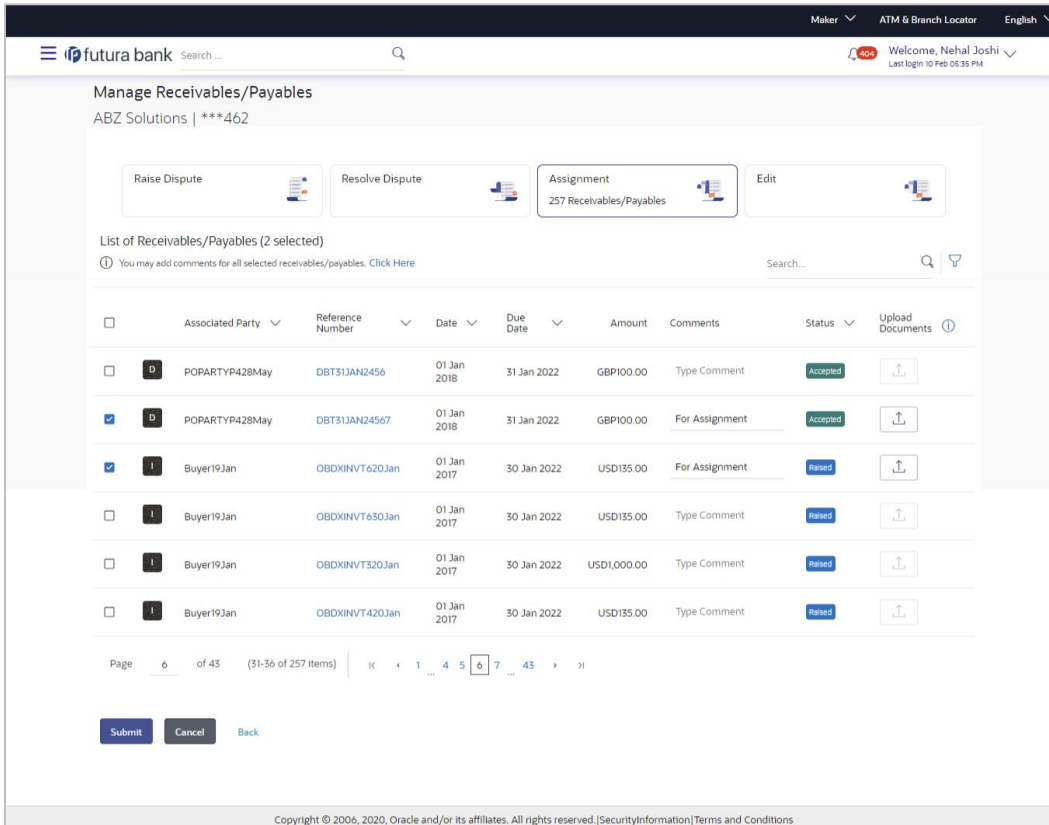

Enter the partial or full receivable/payable reference number / associated party name / status to search for specific receivables/payables. The results appear as and when you enter the data.

Click this icon to filter the receivables/payables, based on certain criteria. For more information, refer the [Search \(overlay window for Manage Receivables/Payables\)](#) section below.

Field Name	Description
Check Box	<p>To select all the receivables/payables in the list, select the main check box. To select specific receivables/payables, select the check boxes beside those receivables/payables. If you select more than one receivable/payable, the following message appears:</p> <p> You may add comments for all selected receivables/payables. Click Here.</p> <hr/> <p>Note: To add comments for all selected receivables/payables:</p> <ol style="list-style-type: none"> 1) Click the Click Here link. A pop-up window appears. 2) Add relevant comments. 3) Click Apply to apply the same. OR Click Cancel to cancel adding the comments. <hr/>
Indicator	Displays 'I' for an invoice and 'D' for a debit note.
Associated Party	Displays the name of the associated party linked with the receivable/payable.
Reference Number	Displays the unique reference number of the receivable/payable. This is a hyperlink, which when clicked, displays the receivable/payable details in an overlay window.
Date	Displays the date of creation of the receivable/payable.
Due Date	Displays the date on which the receivable/payable must be fully paid.
Amount	Displays the total receivable/payable amount.
Comments	Enter any relevant comments. Once you select a receivable/payable, this field becomes editable.
Status	Displays the status of the receivable/payable.

Field Name	Description
Upload Documents	<p>Click  to upload relevant documents. Once you select a receivable/payable, this icon becomes clickable.</p> <p>The following document formats are supported: JPEG, JPG, PNG, and PDF. A maximum of 5 documents can be uploaded.</p> <p>Once you upload documents, the number of documents uploaded appears as a hyperlink in brackets, beside this icon. On clicking this hyperlink, a pop-up window appears with the names of the documents uploaded. To delete an uploaded document, click  beside the document in the pop-up window.</p> <p>Note: These documents can also be viewed and downloaded by the approver/checker.</p>

The screenshot displays the 'Manage Receivables/Payables' interface for 'ABZ Solutions | ***462'. It features a top navigation bar with 'futura bank' and user information 'Welcome, Nehal Joshi'. Below the header, there are action buttons: 'Raise Dispute', 'Resolve Dispute', 'Assignment (257 Receivables/Payables)', and 'Edit'. A section titled 'List of Receivables/Payables (2 selected)' contains a table with the following data:

Associated Party	Reference Number	Date	Due Date	Amount	Comments	Status	Upload Documents
POPARTYP428May	DBT31JAN2456	01 Jan 2018	31 Jan 2022	GBP100.00	Type Comment	Accepted	
POPARTYP428May	DBT31JAN24567	01 Jan 2018	31 Jan 2022	GBP100.00	For Assignment	Accepted	
Buyer19Jan	OBDXINVT620Jan	01 Jan 2017	30 Jan 2022	USD135.00	For Assignment	Raised	
Buyer19Jan	OBDXINVT630Jan	01 Jan 2017	30 Jan 2022	USD135.00	Type Comment	Raised	
Buyer19Jan	OBDXINVT320Jan	01 Jan 2017	30 Jan 2022	USD1,000.00	Type Comment	Raised	
Buyer19Jan	OBDXINVT420Jan	01 Jan 2017	30 Jan 2022	USD135.00	Type Comment	Raised	

At the bottom of the table, there are pagination controls showing 'Page 6 of 43 (31-36 of 257 items)' and navigation buttons. Below the table are 'Submit', 'Cancel', and 'Back' buttons. The footer contains the text: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved | SecurityInformation | Terms and Conditions'.

2. Once you select the required receivables/payables, enter relevant comments.
 - a. You can also click  and upload relevant documents, if required.
3. Click **Submit**. The Review screen appears.

OR

Click **Cancel** to cancel the transaction.

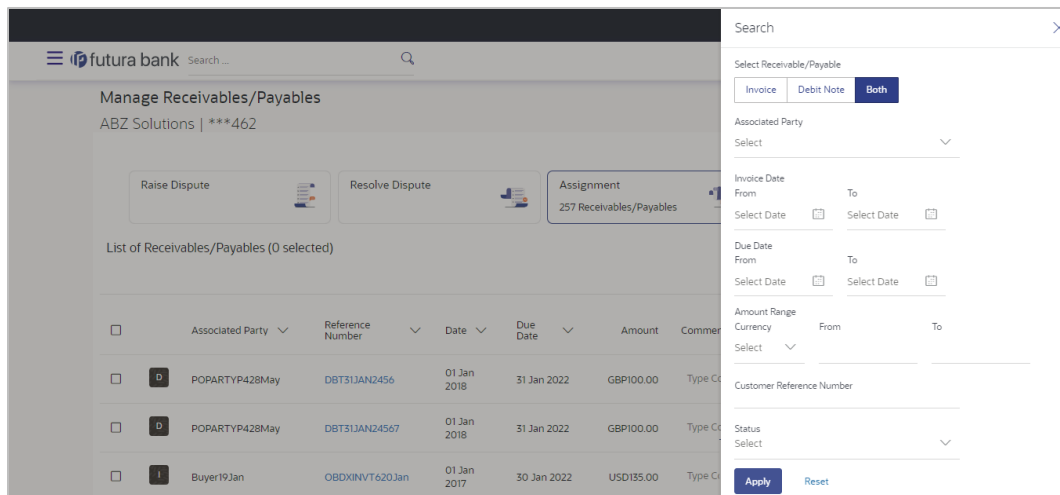

OR

Click **Back** to go to the previous screen.

4. Review the details and click **Confirm**. A confirmation message appears with the reference number and status of the transaction.
 OR
 Click **Cancel** to cancel the transaction.
 OR
 Click **Back** to go to the previous screen.

Search (overlay window for Manage Receivables/Payables)

This overlay window appears when you click the  icon in the **Manage Receivables/Payables** screen.

Field Description

Field Name	Description
------------	-------------

Search (overlay window)

Select Receivable/Payable	Select the type of receivable/payable to take action on. The options are: <ul style="list-style-type: none"> • Invoice • Debit Note • Both
----------------------------------	---

Associated Party	Indicates an option to search for receivables/payables based on the associated party linked with the receivables/payables.
-------------------------	--

Discount Offer	Indicates an option to search for receivables/payables based on the discount offer linked to them. This list displays all discount offers that have been created. You can select a specific discount offer to view specific receivables/payables, or the 'All Offers' option to view all receivables/payables. This field appears only for the Accept/Reject Discount Offer option.
-----------------------	---

Field Name	Description
Date From - To	Indicates an option to search for receivables/payables created within a specific date range. Click the calendar icon and select the From and To dates.
Due Date From - To	Indicates an option to search for receivables/payables that are due in a specific date range. Click the calendar icon and select the From and To dates.
Amount Range Currency From/To	Indicates an option to search for receivables/payables based on an amount range. Select the required currency from the Currency list, and enter the From and To amounts.
Customer Reference Number	Indicates an option to search for receivables/payables based on the reference number.
Status	Indicates an option to search for receivables/payables based on their status. <ul style="list-style-type: none"> • The status is set to Disputed by default, when filtering receivables/payables for Resolve Dispute. The status cannot be edited in this case. • The status is set to Raised, by default, when filtering receivables/payables for Cancel, or Accept. The status cannot be edited in these cases.

[Home](#)

9. Credit Notes

In general, a Credit Note can be interpreted as a receipt or an invoice given by a shop to a customer who has returned goods. This can then be offset against future purchases. It is essentially an instruction to debit the supplier and credit the buyer. Credit notes may be raised under the following circumstances:

- The supplier fails to deliver goods of the same value as the buyer's payment, assuming that the buyer has made an advance payment.
- The rate charged on an earlier invoice is higher than the actual rate.
- The buyer pays prior to the due date leading the supplier to provide a discount by way of a credit note.
- Items (commodities) raised in the invoice are returned by the buyer.

Pre-requisites

User must have valid corporate login credentials.

Note: The Credit Notes Transactions are only supported on **Desktops/Laptops** and on **Landscape** mode of **Tablet** devices.

9.1 Create Credit Note

Credit note records can be created by direct online entry or in bulk through file upload.

9.1.1 Online Credit Note Creation

Using this option, corporate users can create single or multiple credit notes online. Post submission of the credit note, an option is provided to save the content as a Template. The template can be reused for creating credit notes for the same program and associated corporate party.

Once the user creates credit notes, they must be approved by an approver (if the approval flow has been set). The designated corporate approver is notified. The approver can either approve or reject the transaction. In case of rejection, the approver can send the transaction back to the corporate user (maker) to make the required modifications and re-submit it for approval.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Receivables/Payables Management > Create Credit Note

Create Credit Note

Field Description

Field Name	Description
Create Credit Note	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Online Credit Note Creation	Indicates the option to create credit note records by manual entry of the details.
File Upload	Indicates the option to create bulk credit note records through file upload.

9.1.1.1 Online Credit Note Creation (manual entry)

A corporate user, based on their role, can create one or more credit notes in one single transaction.

To create credit note(s):

1. In the **Create Credit Note** screen, click **Create New Credit Note** to create credit note records manually. The **New Credit Note** tab appears.

New Credit Note

Field Description

Field Name	Description
Create Credit Note	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
New Credit Note	
Facing difficulty in entering data for multiple Credit Note? Use Bulk Upload	Click the Use Bulk Upload link to navigate to the File Upload screen for creating credit notes in bulk.
Customer Credit Note Number	Enter the customer's own reference number for the credit note.
Associated Party	Select the associated party to link the credit note to. A list of all on-boarded associated parties is available for selection. On selecting an associated party, the role of the party as Buyer or Supplier , appears below this field.
Program Name	Select the program to which the credit note should be linked. Programs linked to the selected associated party are listed.
Auto Accept	Displays the number of days post creation when the credit note will be deemed as accepted. This field appears on selecting a program. It is displayed only if auto-acceptance is enabled at the program-level. For more information on programs, refer the Create Program section in User Manual Oracle Banking Digital Experience Corporate Supply Chain Finance .

Field Name	Description
Auto Finance	Displays whether the credit note will be auto financed or not. This field appears on selecting a program. It is populated based on the auto finance setting in the program definition. For more information on programs, refer the Create Program section in User Manual Oracle Banking Digital Experience Corporate Supply Chain Finance .
Credit Note Amount	Select the credit note currency and enter the gross credit note amount (not including tax or discount).
Credit Note Date	Click the calendar icon and select the date of creation of the credit note.
Expiry Date	Click the calendar icon and select the date on which the credit note expires. The Expiry Date should be greater than or equal to the Credit Note Date .
Adjustment Reason	Select the reason for adjusting the invoice amount.
Linked Invoice Number	Select the invoice that should be linked to the credit note. Once you link invoice(s), the Populate Commodity Details from Invoice toggle is enabled, and the commodities from the invoice(s) appear in the Commodity Details grid of the credit note.
Populate Commodity Details from Invoice	This toggle is automatically enabled when you link invoices to the credit note in the Linked Invoice Number field. The Commodity Details section gets populated with the commodities from the linked invoice(s), when this toggle is enabled. Switch this toggle off in case you want to remove the commodities from the credit note.

2. Once you enter the above details, you can optionally add/modify the commodity details.
 - a. To add a commodity record, click **Add**. An overlay window appears, where you can capture the commodity details.
 - b. To modify an existing commodity record, click .
 - c. To delete a commodity record, click .

Add Commodity Details

The **Add Commodity Details** overlay window appears when you click **Add** in the **Commodity Details** section.

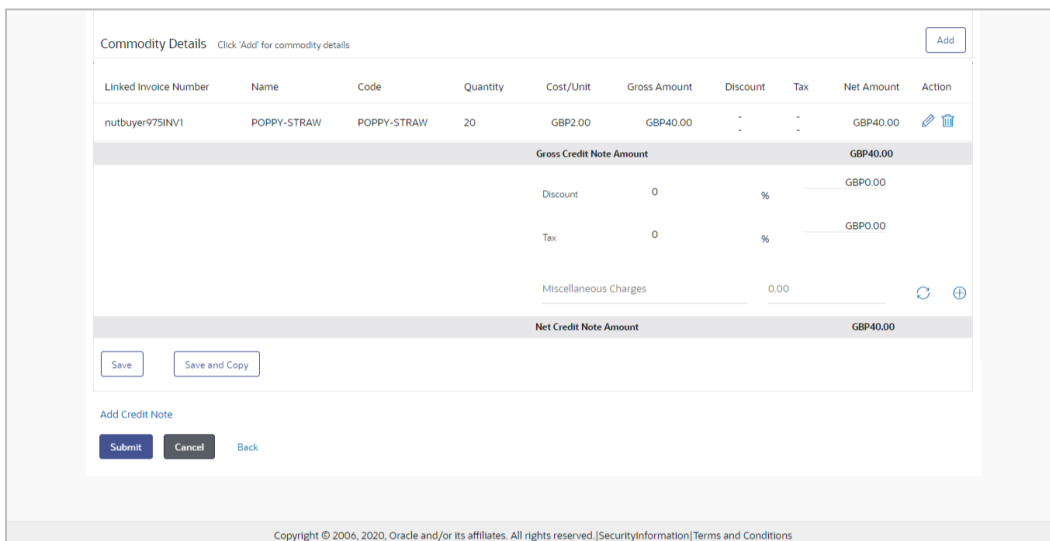

Field Description

Field Name	Description
Add Commodity Details	
Name	Enter the name of the commodity for which the credit note is being raised.
Code	Enter the code of the commodity.
Quantity	Enter the quantity of the commodity for which the credit note is being raised.
Cost/Unit	Specify the cost per unit of the commodity.
Gross Amount	Enter the gross commodity amount. It also gets auto calculated if quantity and cost per unit are entered. It is the product of the entered quantity and cost per unit. Gross Amount = Cost/Unit * Quantity
Discount	Enter any discount offered on the commodity. You can either enter the percentage of discount (in the first field) or the actual discount amount (in the second field). When you enter any one of these values, the other value is automatically calculated and displayed. Click  to reset the values.

Field Name	Description
Tax	Enter any tax charged on the commodity. You can either enter the percentage of tax (in the first field) or the actual tax amount (in the second field). When you enter any one of these values, the other value is automatically calculated and displayed. Click  to reset the values.
Net Amount	Displays the net amount of the commodity. It is automatically calculated as follows: Net Amount = Gross Amount – Discount + Tax
Create Copy	Select this check box to create a copy of the commodity details entered.

On clicking the **Add** button, a commodity record is created in the **Commodity Details** section.

3. You can further add commodities by clicking **Add**, and filling out the required details.

Field Description

Field Name	Description
Commodity Details	This section displays the commodity detail records, once you add them. Multiple commodities can be added.
Linked Invoice Number	Displays the invoice number of the commodity.
Name	Displays the name of the commodity.
Code	Displays the code of the commodity.

Field Name	Description
Quantity	Displays the quantity of the commodity.
Cost/Unit	Displays the cost per unit of the commodity.
Gross Amount	Displays the total gross amount of the commodity. It is the product of the entered quantity and cost per unit. Gross Amount = Cost per unit * Quantity
Discount	Displays the discount amount and percentage offered on the commodity.
Tax	Displays the tax amount and percentage charged on the commodity.
Net Amount	Displays the net amount of the commodity. It is automatically calculated as follows: Net Amount = Gross Amount – Discount + Tax
Actions	Indicates the actions that can be performed on the commodity record. <ul style="list-style-type: none"> • Click  to edit the record. • Click  to remove the record.

The following fields are present below the Commodity Details section, and are applicable at the invoice-level.

Gross Credit Note Amount	Displays the total gross amount of all the added commodities.
Discount	Displays the total discount amount of all the commodities added. The average discount percentage of all added commodities is also displayed. Click  to reset the values. Total Discount % = (Total discount amount / Total debit note amount) *100 Note: When commodity records are added, the discount value of each commodity is aggregated and populated here. This value cannot then be modified. However, if commodity records are not added, then this field is editable and the discount value or percentage can be entered here.

Field Name	Description
Tax	<p>Displays the total tax amount of all the commodities added. The average tax percentage of all added commodities is also displayed.</p> <p>Click  to reset the values.</p> <p>Total Tax % = (Total tax amount / Total debit note amount) *100</p> <p>Note: When commodity records are added, the tax value of each commodity is aggregated and populated here. This value cannot then be modified. However, if commodity records are not added, then this field is editable and the tax value or percentage can be entered here.</p>
Miscellaneous Charges	<p>Add the name and amount of any other miscellaneous charge applicable.</p> <p>Use  to add another charges. A maximum of 2 miscellaneous charges can be added.</p> <p>Click  to reset the values.</p>
Net Credit Note Amount	<p>Displays the overall credit note amount that is owed to the buyer.</p> <p>Note: The Net Credit Note Amount gets automatically calculated as follows: Net Credit Note Amount = Gross Credit Note Amount - Discount Value + Tax Amount</p>
	<p>Indicates an option to reset the fields. This icon is present on the top right corner of the screen.</p>

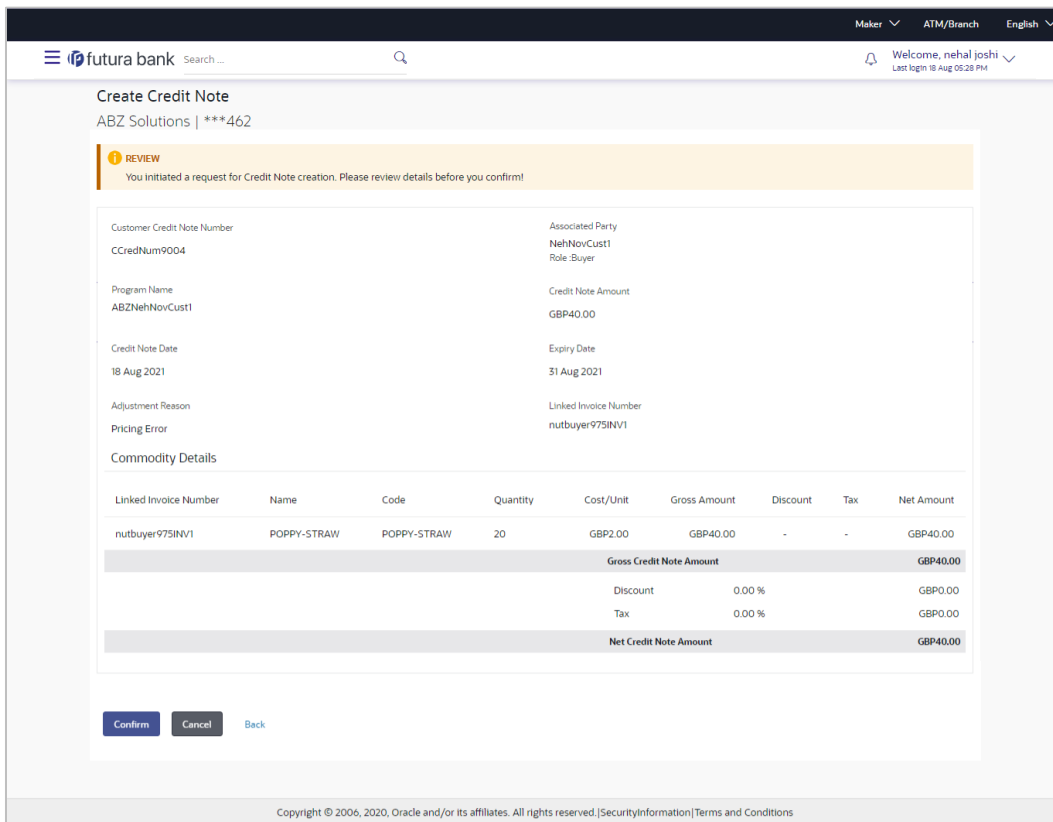

4. Modify the amount in the **Credit Note Amount** field above the Commodity Details section, to match the **Gross Credit Note Amount**, of all commodities.
5. Click **Save** to save the debit note.
OR
Click **Save and Copy** to save the credit note and to create an editable copy.
OR
To clear the fields, click the  icon in the top right side of the screen.

Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. [SecurityInformation] Terms and Conditions

Note: On clicking the **Save** button, the credit note being created appears in a panel with  in the top right corner. Click this icon to edit / copy / delete the credit note, if required.

6. To create another new credit note in the transaction, click the **Add Credit Note** link.
 - a. Add required details as mentioned in the steps above.
7. Click **Submit** to submit the transaction, once all required credit notes have been added. The Review screen appears.
 OR
 Click **Cancel** to cancel the transaction.
 OR
 Click **Back** to navigate back to the previous screen.

Create Credit Note – Review Screen

8. In the Review screen, verify the details and click **Confirm**. A confirmation message appears with the reference number and status of the transaction.
 OR
 Click **Cancel** to cancel the transaction.
 OR
 Click **Back** to navigate back to the previous screen.

Create Credit Note – Confirmation Screen

Note: You can view the details of the credit note just created, by clicking the '[Click here to view status of Credit Note](#)' link.

9. Click the **Save as Template** link to save the details of the created credit note as a template.
OR
Click the **View Credit Note** link to view the details of existing credit notes. The **View Credit Note** screen appears.
OR
Click the **Create Credit Note** link to create another credit note.
OR
Click the **Go To Dashboard** link to go to the main dashboard.

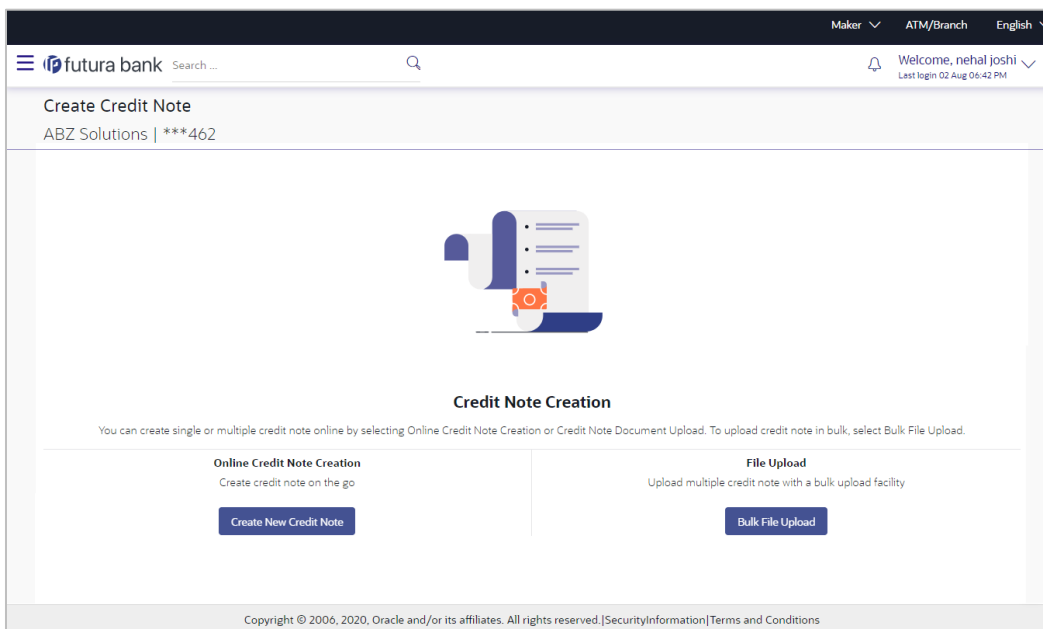

9.1.1.2 Create Credit Notes using Templates

You can save the data entered during credit note creation, as a template. This option is available upon successful creation of a credit note. You can use this template in the future to create credit notes for the same program and associated party. This saves the efforts of re-entering the data.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Receivables/Payables Management > Create Credit Note

To view and use templates for creation of credit notes:

1. On navigating to the **Create Credit Note** screen, click **Create New Credit Note**. The **Create Credit Note** screen appears.
2. Click the **Template** tab. A list of existing templates appear.

Create Credit Note – Template tab

The screenshot displays the 'Create Credit Note' interface with the 'Template' tab selected. At the top, there's a search bar and a user profile for 'nehal joshi'. Below the search bar, there are two tabs: 'New Credit Note' and 'Template'. The 'Template' tab contains a table with the following data:

Template Name	No of Credit Note Saved	created By	last Updated	Action
CRN_TMPL_030821013110	1	authninstaller2	03 Aug 2021	

Below the table is a pagination control showing 'Page 1 of 1 (1 of 1 items)'. To the right of the table is a 'Credit Note' information box with the following text:

Credit Note
 You can save the data entered while creating a Credit Note, in a template.
 This saves the effort of re-entering the data when a Credit Note is created for the same party in future.
 Simply select a template from the given list and the Credit Note will open in the "Create Credit Note" page for creating a Credit Note.

At the bottom of the page, there is a copyright notice: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. [SecurityInformation]Terms and Conditions'

Field Description

Field Name	Description
Search	Enter the partial or full name of the template to search for specific templates. As you type the name, the relevant templates appear in the list.
Template Name	Displays the name of the credit note template, as a hyperlink. Click this hyperlink to open the New Credit Note screen, with the template details populated in the respective fields.
No. of Credit Note Saved	Displays the number of credit notes saved under the template.
Created By	Displays the name of the corporate user who created the template.
Last Updated	Displays the last updated date of the credit note template.
Action	Click to delete the credit note template.

- Navigate through the pages to the required template, or use the **Search** field to find a specific template.
- Click the desired **Template Name** link. The template details are populated in the **New Credit Note** tab.
OR
Click against the template to delete the existing credit note template. A popup message appears to confirm the deletion.
 - Click **Yes** to delete the credit note template.
OR
Click **No** to cancel the deletion of the credit note template.
- Add or modify the required details.

6. Click **Save** to save the credit note.
OR
Click the **Save and Copy** link to create a copy of the credit note in editable mode.
OR
Click the **Add Credit Note** link at the bottom of the screen, to add another credit note.
OR
Click  at the top right corner of a credit note, to delete it.
OR
Click  at the top right corner of a credit note, to clear the existing data.
7. Click **Submit** to submit the transaction. The Review screen appears.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to the previous screen.
8. In the Review screen, verify the details, and click **Confirm**. A confirmation message appears with the reference ID and status of the transaction.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to the previous screen.

9.1.1.3 Bulk Credit Note Creation

Credit note records can be created in bulk through file upload.

How to reach here:

Dashboard > Toggle Menu > File Upload > File Upload

OR

Dashboard > Quick Links > File Upload

OR

Dashboard > Toggle menu > Receivables/Payables > Receivables/Payables Management > Create Credit Note

To create credit notes in bulk:

Field Description

Field Name	Description
Create Credit Note	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Online Debit Note Creation	Indicates the option to create credit note records by manual entry of the details.
File Upload	Indicates the option to create bulk credit note records through file upload.

1. In the **Create Credit Note** screen, click **Bulk File Upload**. The **File Upload** screen appears.

2. For more information on the procedure of uploading the file, refer **User Manual Oracle Banking Digital Experience Corporate Bulk File Upload – Receivables Payables Management**. Use the file template detailed below for upload.

Bulk Credit Note File Template

The file to be uploaded should have data in a specific sequence. For each credit note, there must be a top row with indicator 'CN', which specifies credit-note-level parameters. For each commodity under the credit note, there must be a row with indicator 'C', which specifies the commodity-level parameters.

BulkCreditNoteUploadTemplate.csv

Note: Refer this file for the upload file format:

While uploading a .XLSX / .XLS file, if you do not have the required data for a particular cell, and need to leave it blank, then ensure that the particular empty cell has been formatted to the data type of the expected data of that cell. For example, a cell that is supposed to hold textual content, such as name or description, should be formatted to 'Text'. Similarly, a cell that is supposed to hold a number, should be formatted to 'Number'.

Field Description

Field Name	Description
	The following fields are specific to a credit note. You must add a row for each credit note record.
Indicator	Enter CN in this field. This is a mandatory field.
Cr. Note Reference Number	Enter the customer's reference number for the credit note. This is a mandatory field.
Link Invoice Number	Enter the invoice reference numbers to be associated with the credit note. You can provide multiple invoice numbers using the pipe separator. Note: The invoice numbers provided here should belong to the same party ID for which the credit note is being uploaded. The invoice numbers provided here should also belong to the same buyer-supplier combination, as that of the credit note. The invoices specified in this field should not have been cancelled. Credit notes cannot be raised against cancelled invoices.
Cr Note Date	Enter the date of creation of the credit note. This date should not be greater than the current business date. It should also not be less than the invoice date. This is a mandatory field.
Cr Note Expiry Date	Enter the expiry date of the credit note.

Field Name	Description
Buyer Code**	Enter the code associated with the buyer.
Supplier Code**	Enter the code associated with the supplier.
Currency*	Enter the credit note currency. A 3-digit currency code as per ISO standards is acceptable. This is a mandatory field.
Base Cr Note Amount*	Enter the gross credit note amount.
Discount Amount	Enter the discount amount applicable on the base credit note amount.
Tax Amount	Enter the applicable tax amount.
Net Cr Note Amount*	Enter the net credit note amount, post application of discount and tax. This is a mandatory field. Net Cr Note Amount = Base Cr Note Amount – Discount Amount + Tax Amount
Buyer Division Code	Enter the division code of the buyer.
Supplier Division Code	Enter the division code of the supplier.
Buyer ID*	Enter the party ID of the buyer.
Supplier ID*	Enter the party ID of the supplier.
Buyer Name	Enter the name of the buyer.
Supplier Name	Enter the name of the supplier.
Program ID	Enter the ID of the program associated with the credit note. This ID should be the same as the program ID associated with the linked invoices.
Adjustment Reason	Enter the reason for adjustment. The available values are: <ul style="list-style-type: none"> • Pricing Error • Allowance/Charge Error • Extension Error • Quantity Contested • Pallet/Container Charge Error • Freight Deducted • Tax Deducted • Items not received
Remarks	Enter any remarks, if applicable.

The following fields are specific to a commodity. You must add a row for each commodity in the credit note.

Field Name	Description
Indicator**	Enter C for a commodity row.
Credit Note reference number	Enter the reference number of the credit note. This is a mandatory field.
Invoice Number**	Enter the invoice reference number of the commodity. This number should also be listed in the Linked Invoice Number field of the credit note. Note: Only one invoice number is allowed in this field. If the commodity is linked with multiple invoices, then a commodity row should be added for each invoice.
Commodity Code**	Enter the unique code of the commodity. This code should be the same as that present in the linked invoice in the credit note.
Commodity Name	Enter the name of the commodity. This name should be the same as that present in the linked invoice in the credit note.
Quantity**	Enter the quantity of the commodity.
Unit Cost	Enter the cost per unit of the commodity.
Gross Total of Commodity	Enter the total cost of the commodity. Gross Amount = Unit Cost * Quantity
Discount Amount	Enter the discount amount applicable to the commodity.
Tax Amount	Enter the tax amount applicable to the commodity.
Net Amount**	Enter the net amount of the commodity. Net Amount = Gross Total of Commodity – Discount Amount + Tax Amount

9.2 View Credit Note

Using this option, corporate users can view the credit notes, with respect to the corporate's role as buyer or supplier.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Receivables/Payables Management > View Credit Note

View Credit Note – for Buyer Role

The screenshot displays the 'View Credit Note' page for a Buyer role. At the top, there is a navigation bar with 'futura bank' and a search bar. Below this, the page title is 'View Credit Note' for 'ABZ Solutions | ***462'. A 'Switch View' section allows toggling between 'Buyer' (selected) and 'Supplier'. The main content is a 'List of Receivables' table with columns: Customer Reference Number, Associated Party, Expiry Date, Amount, Status, Receivable Amount, and Reconciliation Status. A single entry is shown with CRN02, AugSupp, 10 Jan 2020, GBP10.00, a 'Raised' status, and a 'Receivable Amount' of GBP10.00 with an 'Unreconciled' status. A 'Cancel' button is located at the bottom left of the table area. The footer contains copyright information for Oracle.

View Credit Note (on mobile device)

Credit notes can also be viewed on a mobile device. The features and functionality available on the desktop computers, such as hyperlinks, search filters, and the download option, are also available on the mobile device.

Field Description

Field Name	Description
View Credit Note	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Switch View	Indicates the option to view the credit notes based on the corporate party's role. The options are: <ul style="list-style-type: none"> • Buyer • Supplier

Field Name	Description
Search	Indicates an option to search for specific credit notes. As the partial or full reference number is entered, the relevant credit notes are displayed.
	Click this icon to filter the credit notes, based on certain criteria. For more information, refer the Search (overlay window for View Credit Note) section below.
List of Receivables/Payables	
Displays a list of credit notes based on the entered search criteria, for the party's role as supplier or buyer. The credit notes are displayed as:	
<ul style="list-style-type: none"> • Receivables, if the role of the logged-in party is selected as 'Buyer' in the Switch View field. • Payables, if the role of the logged-in party is selected as 'Supplier' in the Switch View field. 	
Customer Reference Number	Displays the customer's reference number for the credit note as fetched from the Host. This is a hyperlink which when clicked displays the details of the credit note. For more information, refer the View Credit Note Details section, in this document.
Associated Party	Displays the counter party name as fetched from the Host.
Expiry Date	Displays the expiry date of the credit note as fetched from the Host.
Amount	Displays the credit note amount along with the currency as fetched from the Host.
Status	Displays the status of the credit note.
Payable Amount / Receivable Amount	Displays the amount payable / receivable depending on the role selected. If the role is of a buyer, then it is the receivable amount, else it is the payable amount.
Reconciliation Status	Displays the payment status of the credit note.

You can perform the following actions in the **View Credit Note** screen:

- Click the **Customer Reference Number** link to view the details of the credit note.
- Click **Download** to download the credit notes list in CSV format.
- Click **Cancel** to go to the main dashboard.

Search (overlay window for View Credit Note)

This window appears when you click in the View Credit Notes screen.

Field Description

Field Name	Description
Search (overlay window)	
Customer Reference Number	Indicates an option to search for a credit note using the reference number.
Associated Party	Indicates an option to search for credit notes based on the associated party.
Amount Range Currency From-To	Indicates an option to search for credit notes based on a particular currency and amount range.
Expiry Date From-To	Indicates an option to search for credit notes that expire in a specific period.
Status	Indicates an option to search for credit notes based on the status.
Reconciliation Status	Indicates an option to search for credit notes based on the reconciliation status.

On clicking **Apply**, a list of relevant credit notes is displayed. On clicking **Reset**, the data entered in the **Search** overlay window is cleared.

9.2.1 View Credit Note Details

This screen appears if you click the **Customer Reference Number** link of a particular credit note in the **View Credit Note** screen. It displays the detailed information of the credit note. You can view the following details:

- Itemized amount details
- Commodity details, if they have been added during creation.
- Linked invoices
- Reconciliation details, if reconciled.

The screenshot displays the 'View Credit Note Details' interface for a credit note. The header includes the Futura Bank logo, a search bar, and user information: 'Welcome, nehal joshi' with a last login of '05 Aug 04:40 PM'. The main title is 'View Credit Note Details' for 'ABZ Solutions | ***462'. A 'Preview & Download' link is visible in the top right.

The details are organized into several sections:

- Host Reference Number:** CN1387 (with a 'Raised' status tag), Date: 01 Jan 2020, Program Name: NIKE Product 1.
- Customer Credit Note Number:** CRN02, Expiry Date: 10 Jan 2020.
- Payment Terms:** -, **Adjustment Reason:** Allowance/Charge Error.
- Remark:** -
- Supplier Details:**
 - Supplier Name: AugSupp, Supplier Id: 001715
 - Supplier Address: 202, Preston Road, London, GB, 2009, Supplier Code: -
- Less Information:** (Link to expand/collapse)
- Amount Details:**

Particulars	Amount
Credit Note Amount	GBP10.00
Discount Amount Percentage	0
Tax Amount Discount	0
Net Credit Note Amount	GBP10.00
Acceptance Amount	-
Outstanding Amount	GBP10.00

At the bottom of the details section, there are 'Cancel' and 'Back' buttons. The footer contains the copyright notice: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. | Security Information | Terms and Conditions'.

Net Credit Note Amount	Displays the calculated value on basis of discount and tax values entered. Note: The Net Credit Note Amount gets auto calculated as follows: Net Credit Note Amount = Gross Credit Note Amount - Discount + Tax

[Home](#)

10. Purchase Order Management

Purchase order is a formal document sent by the buyer to the supplier, for purchasing products/services. It essentially contains details of the commodities that the buyer wishes to purchase, the quantities required, the shipping address, and so on.

In OBDX, purchase orders can be created by a corporate, irrespective of their role as buyer or supplier. If the purchase order is created by the buyer, then the supplier can accept it, directly from the portal. The buyer can edit and modify the purchase order prior to it being accepted by the supplier. If the purchase order is created by the supplier, then it is automatically deemed as accepted. The purchase order cannot be edited, in this case.

Purchase orders with status as 'Accepted', can be financed, either by the buyer or the supplier, based on who is set as borrower in the linked program.

Pre-requisites

User must have valid corporate login credentials.

The features built for the corporate user in Purchase Order Management are as follows:

- Overview
- Online Purchase Order Creation
- Purchase Order Creation with Document Upload
- Bulk File Upload Purchase Order Creation
- Edit Purchase Order
- Accept/ Reject Purchase Order
- View Purchase Orders
- Cancel Purchase Orders
- Save Purchase Order as Template
- Delete Purchase Order Template
- Request Finance against Purchase Orders (through Supply Chain Finance module)

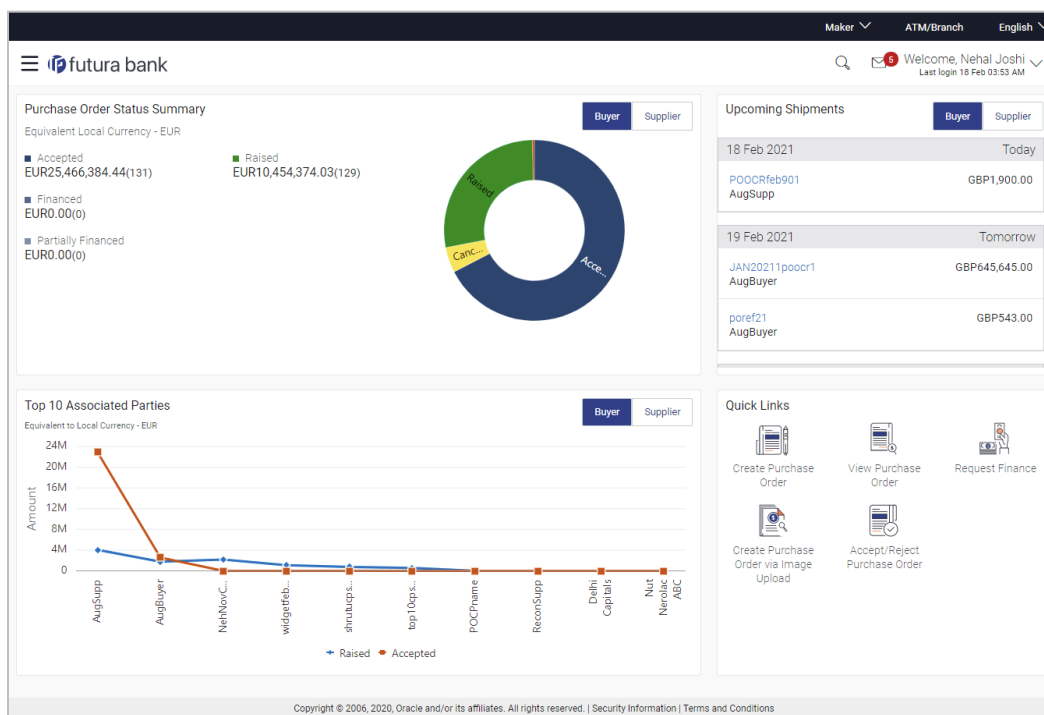

Note: The Purchase Order Management Transactions are only supported on **Desktops/Laptops** and on **Landscape** mode of **Tablet** devices.

10.1 Overview

The Purchase Order Overview screen consists of the following widgets:

- Purchase Order Status Summary
- Upcoming Shipments
- Top 10 Associated Parties
- Quick Links

Dashboard

Purchase Order Status Summary – This widget lists the total amount associated with purchase orders in each status. The amounts are specified in the equivalent local currency. A graphical representation of this data is presented by the donut graph. The percentage equivalents of the amounts can be seen by clicking or hovering the cursor over the respective sections in the graph. The data is available for both roles of the corporate party – Buyer and Supplier.

Upcoming Shipments – This widget displays details of the upcoming shipments of the corporate party. Separate views are available for the corporate party's role as Buyer and Supplier. The following details are displayed for each shipment: the purchase order reference number, the counter party name, and the purchase order amount. On clicking the purchase order reference number link, the View Purchase Order (details) screen appears. For more information on this screen, refer the [View Purchase Order Details](#) section in this document.

Top 10 Associated Parties – This widget displays a graphical representation of the top 10 counter parties linked with the logged-in corporate party, for each of their roles – Buyer and Supplier. This widget provides a quick view of the top 10 associated parties of the corporate based on the value of purchase orders in Raised and Accepted status.

Quick Links – The most commonly used transactions are provided as quick links for quick access. Following transactions are provided as quick links:

- Create Purchase Order
- View Purchase Order
- Request Finance
- Create Purchase Order via Image Upload
- Accept/Reject Purchase Order

10.2 Online Purchase Order Creation

Purchase orders can be created by manually entering the data, or by uploading a file with the bulk purchase-order entries. The data entered manually can be saved as a template for future use. Once the user creates purchase order(s), they must be approved by an approver (if the approval flow has been set). The designated corporate approver is notified. The approver can either approve or reject the transaction. In case of rejection, the approver can send the transaction back to the corporate user (maker) to make the required modifications and re-submit for approval.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Purchase Order Management > Create Purchase Order

Create Purchase Order

Field Description

Field Name	Description
Create Purchase Order	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Online Purchase Order Creation	Indicates the option to create purchase order records by manual entry of purchase order details.
Purchase Order Creation with Document Upload	Indicates the option to create a purchase order record by uploading the actual purchase order document.
Bulk File Upload	Indicates the option to create purchase order records in bulk, through file upload.

10.2.1 Online Purchase Order Creation (manual entry)

A corporate user, based on their role, can create one or more purchase orders in one single transaction.

To create a purchase order(s):

1. In the **Create Purchase Order** screen, click **Create New Purchase Order** to create purchase order records manually. The screen to create a new purchase order appears, starting with the **New Purchase Order** tab.

New Purchase Order

Field Name	Description
Facing difficulty in entering data for multiple Purchase Order? Use Bulk Upload	Click the Bulk Upload link to navigate to the File Upload screen for creating purchase orders in bulk.
Customer Purchase Order Number	Enter the corporate's own reference number associated with the purchase order.
Associated Party	Select the counter party in the business transaction. A list of all on-boarded associated parties is available for selection. On selecting an associated party, the role of the party as Buyer or Supplier , appears below this field.
Program Name	Select the program under which the purchase order is to be created. Once you select a program, the Auto Accept and Auto Finance fields appear with the values that have been set in the program.
Pre-acceptance	Enable this toggle if the purchase order should be deemed as accepted by the supplier, on being raised. Note: If the logged-in party is the supplier and the associated party is the buyer, then by default Pre-acceptance toggle is switched to YES (Read only). If logged-in party is the buyer and the associated party is the supplier, then by default Pre-acceptance toggle is switched to NO and it is selective, i.e. user can select either YES/NO.
Purchase Order Date	Click the calendar icon and select the date on which the purchase order is created.
Purchase Order Amount	Select the currency and enter the amount of the purchase order. This purchase order amount should match with the total gross amount of commodity grid.
Shipment Date	Click the calendar icon and select the date of shipment of the products being purchased.
Shipment Address	Indicates an option to record the shipment address. You can switch the toggle on, and enter the address in the Shipment Address pop-up window that appears. Once you save the address, it appears in this field. You can edit it by clicking  . For more information on the fields, refer the Shipment Address section below.
Payment Terms	Enter the agreed terms of the payment.

Shipment Address

The screenshot displays the 'Shipment Address' pop-up window in the Futura Bank system. The window is titled 'Shipment Address' and contains the following fields:

- Shipping Address to be changed to
- Address Line 1
- Address Line 2
- Address Line 3
- City
- Country (dropdown menu showing 'Andorra')
- Pin Code

At the bottom of the window are 'Save' and 'Cancel' buttons. The background interface shows a sidebar with program details (Program Name: Check1, Auto Accept/No, Auto Finance/No, Purchase Order Date: 28 Oct 2020, Shipment Date: 31 Oct 2020, Payment Terms) and a main table with commodity details.

Field Description

Field Name	Description
------------	-------------

Shipment Address

This pop-up window appears when you switch on the **Shipment Address** toggle, or click the  icon to edit an existing address.

Address Line 1 to 3	Enter lines 1 to 3 of the address for the shipment.
City	Enter the city for the shipment.
Country	Enter the country for the shipment.
Pin Code	Enter the pin code for the shipment.

- Once you enter the above details, click **Add** in the **Commodity Details** section, to add the commodities being purchased. The **Add Commodity Details** overlay window appears.

Add Commodity Details

This overlay window appears when you click **Add** in the **Commodity Details** section.

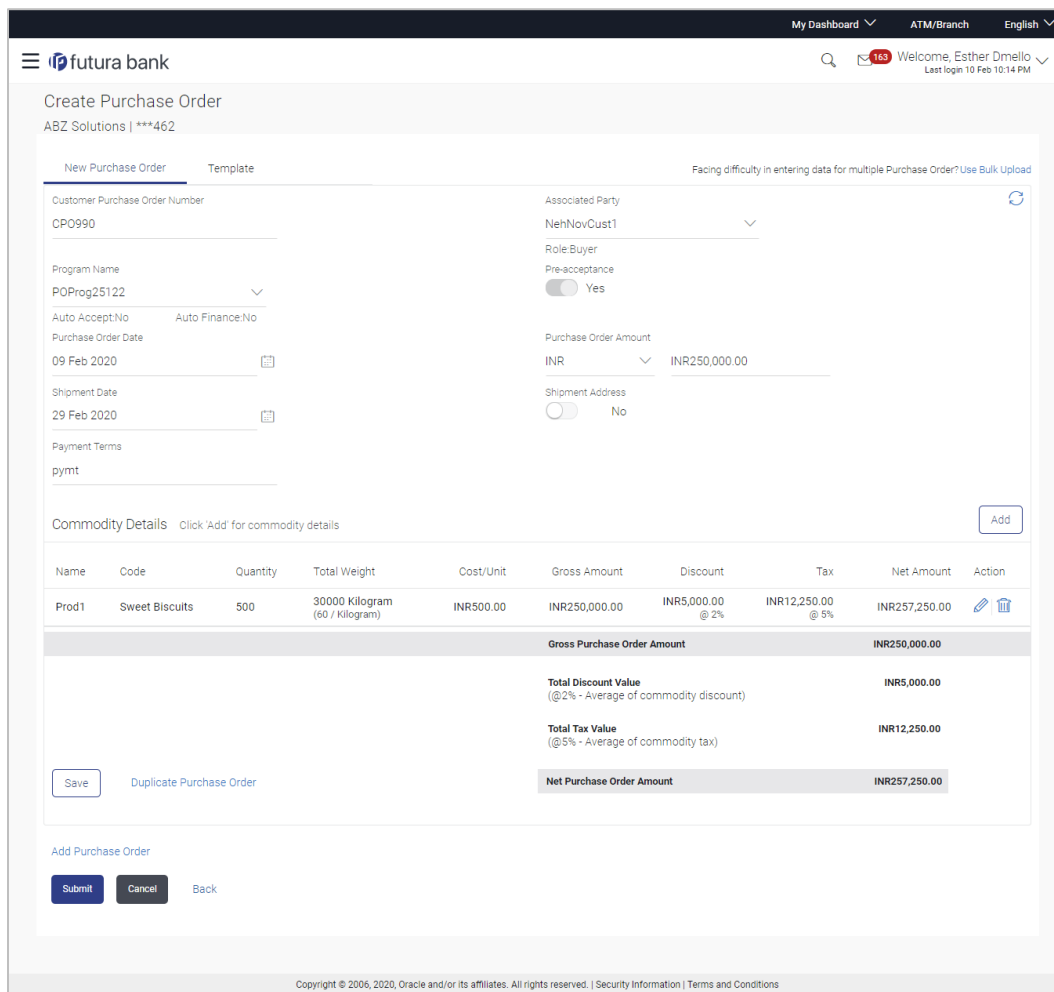

Field Description

Field Name	Description
Add Commodity Details overlay window	
Name	Enter the name of the commodity being purchased.
Code	Select the code of the commodity.
Quantity	Enter the commodity quantity required.
Weight/Unit	Enter the weight per unit of the commodity. Also select the unit of measurement to be used for weight.
Total Weight	Displays the total weight of the commodity. This value is automatically calculated and displayed. It is the product of the values in the Quantity and Weight/Unit fields.
Cost/Unit	Enter the cost per unit of the commodity.
Gross Amount	Displays the total cost of the commodity. This value is automatically calculated and displayed. It is the product of the values in the Quantity and Cost/Unit fields.
Discount	Enter any discount being offered on the purchase. You can either enter the percentage of discount (in the first field) or the actual discount amount (in the second field). When you enter any one of these values, the other value is automatically calculated and displayed. Click  to reset the values.

Field Name	Description
Tax	<p>Enter any tax being charged on the purchase. You can either enter the percentage of tax (in the first field) or the actual tax amount (in the second field). When you enter any one of these values, the other value is automatically calculated and displayed.</p> <p>Click  to reset the values.</p>
Net Amount	<p>Displays the net amount (after application of discount and tax) of the commodity being purchased.</p> <p>Note: The Net Amount gets auto calculated as follows: $\text{Net Amount} = \text{Gross Amount} - \text{Discount amount} + \text{Tax amount}$</p>
Create Copy	Select this check box, to make a copy of the commodity details entered.

- Once the commodity details are recorded in the overlay window, click **Add**. A record is created in the **Commodity Details** section.

9. In the Review screen that appears, verify the details, and click **Confirm**. A confirmation message of request submission for purchase order creation appears along with the reference number and status.

OR

Click **Cancel** to cancel the transaction.

OR

Click **Back** to navigate back to the previous screen.

Create Purchase Order – Confirmation Screen

10. Click **Save as Template** to save the purchase order details as a template for future use.
- OR
- Click the link provided to view the status of the purchase order along with other details.
- OR
- Click **Go To Dashboard** to go to the dashboard.
- OR
- Click **Create Purchase Order** to create further purchase orders.

10.2.2 Create Purchase Order using Template

You can save the data entered during purchase order creation, as a template. This option is available upon successful creation of a purchase order. You can use this template in the future to create purchase orders for the same party. This saves the efforts of re-entering the data.

To view and use templates for creation of purchase orders:

1. On navigating to the **Create Purchase Order** screen, click the **Template** tab. A list of existing templates appears.

Create Purchase Order - Template

The screenshot displays the 'Create Purchase Order - Template' page in the Oracle Futura Bank system. The page header includes the bank logo, user name 'Welcome, Nehal Joshi', and last login time. The main content area has a 'New Purchase Order' tab and a 'Template' tab. A search bar is located above the table. The table lists various templates with their names, the number of POs saved, the creator, the last update date, and a delete icon. A callout box titled 'Purchase Order' explains that templates save data entered during PO creation, saving effort and ensuring consistency.

Template Name	No of Purchase Order Saved	Created By	Last Updated	Action

Field Description

Field Name	Description
Search	Indicates an option to search for specific purchase orders.
Template Name	Displays the name of the purchase order template.
No. of Purchase Orders Saved	Displays the number of purchase orders saved under the template.
Created By	Displays the name of corporate user who created the template.
Last Updated	Displays the last updated date of the purchase order template.
Actions	Click the icon to delete the purchase order template.

- Navigate through the pages to the required template, or use the **Search** field to find a specific template.
- Click the desired **Template Name** link. The template details appear.
OR
Click against the template to delete the existing purchase order template. A popup message appears to confirm the deletion.
 - Click **Yes** to delete the template.
OR
Click **No** to cancel the deletion.
- Click and select the **Edit** option. The template details are populated in the **New Purchase Order** screen.

5. Add or modify the data as required.
6. Click **Save** to save the purchase order.
7. Click the **Duplicate Purchase Order** link to add another purchase order with same details entered in the current one.
OR
Click the **Add Purchase Order** link to club another purchase order in the transaction.
8. Click **Submit** to submit the transaction. The Review screen appears.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to the previous screen.
9. In the Review screen, verify the details and click **Confirm**. A confirmation message of request initiation for purchase order creation appears along with the reference number and status.
OR
Click **Back** to navigate back to the previous screen.
OR
Click **Cancel** to cancel the transaction.

10.3 **Purchase Order Creation with Document Upload**

Using this option, corporate users can create purchase orders online by uploading scanned copies of the physical purchase order document.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Purchase Order Management > Create Purchase Order

To create a purchase order through document upload:

1. Scan the physical purchase order and save it in one of the following formats: PDF, PNG, JPG, JPEG. Ensure that the file size does not exceed 2MB.

Create Purchase Order

Field Description

Field Name	Description
Create Purchase Order	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Online Purchase Order Creation	Indicates the option to create purchase order records by manual entry of purchase order details.
Purchase Order Creation with Document Upload	Indicates the option to create a purchase order record by uploading the actual purchase order document.
Bulk File Upload	Indicates the option to create purchase order records in bulk, through file upload.

- In the **Create Purchase Order** screen, click the **Purchase Order Document Upload** button. The **Automatic Purchase Order Creation** screen appears starting with the **Upload Purchase Order** step.

Field Description

Field Name	Description
Automatic Purchase Order Creation	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Create Purchase Order step	
The values that have been extracted from the invoice image (except for commodity details) are automatically populated in the respective fields. You can edit these values, if required.	
Customer Purchase Order Number	Indicates the customer's own reference number of the purchase order.
Associated Party	Indicates the associated party with whom the purchase order is to be linked. A list of all on-boarded associated parties is available for selection. On selecting an associated party, the role of the party as Buyer or Supplier , appears below this field.
Program Name	Indicates the program to which the purchase order needs to be linked. Programs linked to the selected associated party are listed.
Auto Accept	Displays whether the purchase order will be auto accepted or not. It is populated based on the auto acceptance setting in the program definition and is non-editable. For more information, refer the Create Program section in User Manual Oracle Banking Digital Experience Corporate Supply Chain Finance .
Auto Finance	Displays whether the purchase order will be auto financed or not. It is populated based on the auto finance setting in the program definition and is non-editable. For more information, refer the Create Program section in User Manual Oracle Banking Digital Experience Corporate Supply Chain Finance .
Pre-acceptance	Indicates whether the purchase order once raised will be deemed as accepted by the supplier. Note: If the logged-in party is the supplier and the associated party is the buyer, then by default Pre-acceptance toggle is switched to YES (Read only). If logged-in party is the buyer and the associated party is the supplier, then by default Pre-acceptance toggle is switched to NO and it is selective, i.e. user can select either YES/NO.
Purchase Order Date	Indicates the date of creation of the purchase order.
Purchase Order Amount	Indicates the total purchase order amount of all commodities being purchased, along with the currency.
Shipment Date	Indicates the date when the shipment is expected to take place. The Shipment Date should be greater than the Purchase Order Date .

Field Name	Description
Shipment Address	Indicates the address where the goods should be shipped to.
Payment Terms	Indicates the terms agreed for the payment of the purchase order.
Commodity Details	
Commodity details are not automatically extracted by the application. Click Add in this section to add these details. The Add Commodity Details overlay window appears, with the following fields.	
Name	Indicates the name of the commodity being purchased.
Code	Indicates the code of the commodity.
Quantity	Indicates the commodity quantity required.
Weight/Unit	Indicates the weight per unit of the commodity. Also indicates the unit of measurement to be used for weight.
Total Weight	Displays the total weight of the commodity. This value is automatically calculated and displayed. It is the product of the values in the Quantity and Weight/Unit fields.
Cost/Unit	Indicates the cost per unit of the commodity.
Gross Amount	Displays the total cost of the commodity. This value is automatically calculated and displayed. It is the product of the values in the Quantity and Cost/Unit fields.
Discount	Indicates any discount being offered on the purchase. You can either enter the percentage of discount (in the first field) or the actual discount amount (in the second field). When you enter any one of these values, the other value is automatically calculated and displayed. Click  to reset the values.
Tax	Indicates any tax being charged on the purchase. You can either enter the percentage of tax (in the first field) or the actual tax amount (in the second field). When you enter any one of these values, the other value is automatically calculated and displayed. Click  to reset the values.
Create Copy	Indicates whether a copy of the commodity details entered, must be made.
On clicking Add in the Add Commodity Details overlay window, an entry of the commodity appears in the Commodity Details section. In the Action column, click  to edit an entry, or  to delete it.	

Field Name	Description
Gross Purchase Order Amount	Displays the total gross amount of the purchase order. This is the sum of the gross amounts of all added commodities. This value should be equal to the value in the Purchase Order Amount field. If not, you must adjust the value in the Purchase Order Amount field accordingly.
Discount Value	Displays the total discount amount of all the commodities added. The average discount percentage of all added commodities is also displayed.
Tax Value	Displays the total tax amount of all the commodities added. The average tax percentage of all added commodities is also displayed.
Net Purchase Order Amount	Displays the total net amount, after considering the discount value and the tax value. Net Purchase Order Amount = Gross Purchase Order Amount – Total Discount amount + Total Tax amount

5. The data from the purchase order is automatically read and populated in the relevant fields. Check the details and add or modify any field, if required.
6. Click **Submit** to submit the purchase order. The Review screen appears.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to go to the previous screen.
7. In the Review screen, verify the details and click **Confirm**. A confirmation message appears, with the reference number and status of the transaction.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to go to the previous screen.

10.4 Bulk Purchase Order Creation

Using this option, corporates can create purchase orders in bulk by uploading a file. The file must contain the purchase order details in a specific format and sequence.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Purchase Order Management > Create Purchase Order

To create purchase orders in bulk:

Create Purchase Order

Field Description

Field Name	Description
Create Purchase Order	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Online Purchase Order Creation	Indicates the option to create purchase order records by manual entry of purchase order details.
Purchase Order Creation with Document Upload	Indicates the option to create a purchase order record by uploading the actual purchase order document.
Bulk File Upload	Indicates the option to create purchase order records in bulk, through file upload.

1. In the **Create Purchase Order** screen, click **Bulk File Upload**. The **File Upload** screen appears.

2. For more information on the procedure of uploading the file, refer **User Manual Oracle Banking Digital Experience Corporate Bulk File Upload – Receivables Payables Management**. Use the file template detailed below for upload.

10.4.1 Bulk Purchase Order File Template

For each purchase order, there must be a top row with indicator 'P' which specifies purchase order level parameters. For each commodity under the purchase order, there must be a row with indicator 'C' which specifies the commodity-level parameters.

BulkPurchaseOrder
UploadTemplate.csv

Note: Refer this file for the sequence:

While uploading a .XLSX / .XLS file, if you do not have the required data for a particular cell, and need to leave it blank, then ensure that the particular empty cell has been formatted to the data type of the expected data of that cell. For example, a cell that is supposed to hold textual content, such as name or description, should be formatted to 'Text'. Similarly, a cell that is supposed to hold a number, should be formatted to 'Number'.

Field Description

Field Name	Description
The following fields are specific to the purchase order as a whole. This row must be present for each purchase order being added.	
Indicator	Specify the indicator. Enter P for a row at the purchase order level.
Customer Purchase Order Number	Enter the customer's own purchase order number.
Purchase Order Date	Enter the date of creation of the purchase order.
Shipment Date	Enter the date of shipment. This should be greater than PO date.
Currency	Enter the currency of the purchase order amount.
Gross Purchase Order Amount	Enter the total purchase order amount.
Buyer Id	Enter the ID associated with the buyer.
Supplier Id	Enter the ID associated with the supplier.
Buyer Name	Enter the name of the buyer.
Supplier Name	Enter the name of the supplier.
Discount Amount	Enter the total discount amount applicable for all commodities being purchased.

Field Name	Description
Tax Amount	Enter the total tax amount applicable, on all commodities being purchased.
Net Purchase Order Amount	Enter the net purchase order amount. Net PO Amount = Gross Purchase Order Amount – Discount Amount + Tax Amount
Acceptance Amount	Enter the purchase order amount that has been accepted.
Buyer Division Code	Enter the division code associated with the buyer.
Supplier Division Code	Enter the division code associated with the supplier.
Pre-accepted	Enter Y if the purchase order should be pre-accepted, and N , otherwise.
Shipment Address	Enter address lines 1 to 3 of the shipment address.
City	Enter the city of the shipment address.
Country	Enter the country of the shipment address.
Zip	Enter the pin code of the shipment address.
The following fields are specific to a commodity. You must add a row for each commodity being purchased, under the respective purchase order.	
Indicator	Specify the indicator. Enter C for a row at the commodity level.
Customer Purchase Order Number	Enter the customer's own purchase order number.
Commodity Code	Enter the code associated with the commodity.
Commodity Name	Enter the name of the commodity.
Quantity	Enter the quantity of the commodity.
Cost Per Unit	Enter the cost per unit of the commodity.
Gross Amount	Enter the total cost of the commodity. Gross Amount = Cost Per Unit * Quantity
Discount Amount	Enter the discount amount applicable to the commodity.
Tax Amount	Enter the tax amount applicable to the commodity.
Net Amount	Enter the net amount of the commodity. Net Amount = Gross Amount – Discount Amount + Tax Amount

10.5 View / Edit Purchase Order

Pre-requisites

- For viewing purchase orders – User must have valid corporate login credentials.
- For editing purchase orders – User must have valid corporate login credentials and must be the buyer.

10.5.1 View Purchase Order

Using this option, you can view a list of purchase orders based on the corporate party's role as a buyer or supplier.

On selection of Buyer view, you can view all the purchase orders as of current date where the corporate party's role is that of a buyer in the program. On selection of Supplier view, you can view all the purchase orders as of current date where the party's role is that of a supplier in the program.

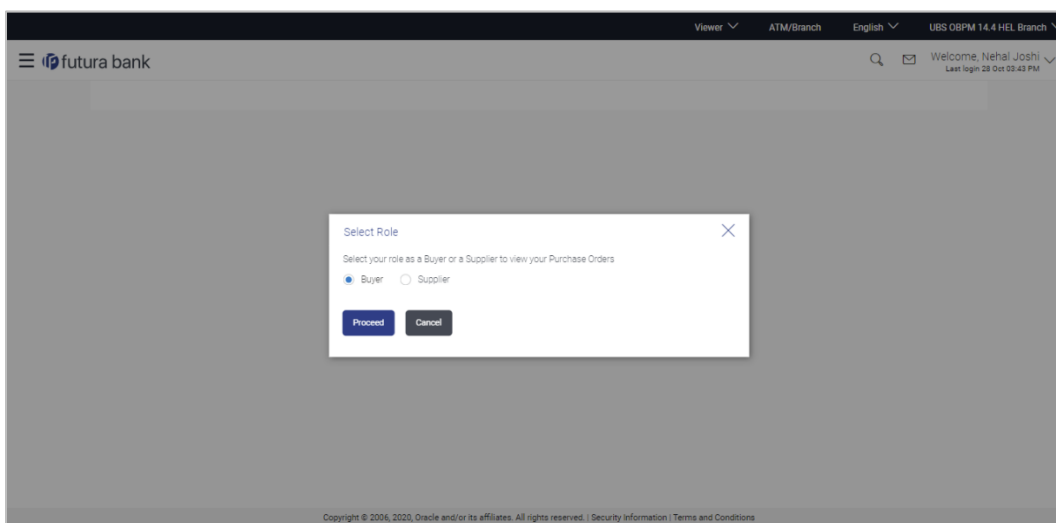

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Purchase Order Management > View/Edit Purchase Orders

To view purchase orders:

1. In the **Select Role** pop-up window, select either the **Buyer** or the **Supplier** option.

View Purchase Order - Select Role pop-up

Field Description

Field Name	Description
Select Role	Select the role of the corporate party to view the required purchase orders. The options are: <ul style="list-style-type: none"> • Buyer • Supplier

2. Click **Proceed** to view the existing purchase orders. The **View Purchase Order** screen appears.
OR
Click **Cancel** to cancel the transaction.

View Purchase Order Search Result- Buyer Role

The screenshot displays the 'View Purchase Order' interface for a user named Nehal Joshi. The page title is 'View Purchase Order' for 'ABZ Solutions | ***462'. The user is logged in as 'Buyer'. The search filters are as follows:

- Customer Purchase Order Number: (empty)
- Associated Party Name: Select
- Purchase Order Status: Select
- Purchase Order Amount Range: Select From To

Field Name	Description
Total Tax Value (@ %-Average of commodity tax)	Displays the sum of the taxes applicable on all the commodities being purchased. Also displays the average tax.
Net Purchase Order Amount	Displays the sum of the net amounts of all the commodities being purchased. This value is also calculated as follows:- Net Purchase Order Amount = Gross Purchase Order Amount - Total Discount Value + Total Tax Value

10.5.2 Edit Purchase Order

Using this option, the buyer can edit and modify the required details in the purchase order, and submit for approval, if the approval flow has been set. The designated corporate approver is notified, in this case. The approver can either approve or reject the transaction. In case of rejection, the approver can send the transaction back to the corporate user (maker), to make modifications as required, and re-submit for approval.

Note: 1) A supplier can only create purchase orders, but cannot edit them once created.

2) If a purchase order has been accepted by the supplier, then only the Shipment Date can be edited by the buyer.

If a purchase order is in the 'Raised' status, and yet to be accepted by the supplier, then all parameters can be modified, except for Customer Purchase Order Number, Associated Party, and Program.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Purchase Order Management > View/Edit Purchase Orders

To edit the purchase order details:

1. In the **Select Role** pop-up window that appears, select the **Buyer** option.
2. Click **Proceed**. The **View Purchase Order** screen appears.
OR
Click **Cancel** to cancel the transaction.
3. Enter the search criteria and click **Search**. The purchase orders list appears based on the entered search criteria.
OR
Click **Clear** to reset the search parameters.
4. Click the **Customer Purchase Order Number** of the purchase order record to be modified. The details of the specific purchase order appear in the **View Purchase Order** screen.

View Purchase Order Details – for Buyer role

The screenshot displays the 'View Purchase Order' interface for a buyer. At the top, the Futura Bank logo and user information (Welcome, Mayur Thakkar) are visible. The page title is 'View Purchase Order' with a sub-header 'ABZ Solutions | ***462'. Navigation links for 'Edit', 'Cancel Purchase Order', and 'Preview & Download Purchase Order' are present. The main content area is divided into several sections:

- Purchase Order Reference Number:** PO48427 (Status: Raised)

5. Click **Cancel Purchase Order** to cancel the purchase order and stop it from being accepted by the supplier. The **cancel purchase order** pop-up window appears.
OR
Click **Edit** to modify the purchase order. The **Edit Purchase Order** screen appears.
OR
Click **Preview & Download Purchase Order**, to view the purchase order details and download a copy.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to the previous screen.

Cancel Purchase Order

6. Click **Yes** to cancel the purchase order. A Confirmation message appears with the reference number and status of the transaction.
OR
Click **No** to stay on the **View Purchase Order** details screen.

10.6 Accept / Reject Purchase Order

Using this option, a supplier can accept or reject purchase orders to convey the agreement or disagreement to supply the required commodities. One or more purchase orders can either be accepted or rejected in a single transaction.

Once the transaction is complete, the designated corporate approver is notified, in case an approval flow is set. The approver can either approve or reject the transaction. In case of rejection, the approver can send the transaction back to the corporate user (maker), to make modifications as required, and re-submit for approval.

Note:

- 1) Only that corporate party with the role of **Supplier** can accept or reject purchase orders. In addition, only those purchase orders with status as **Raised** can be accepted or rejected.
- 2) If the supplier is creating the purchase orders, then they are pre-accepted by default, when raised.

Pre-requisites

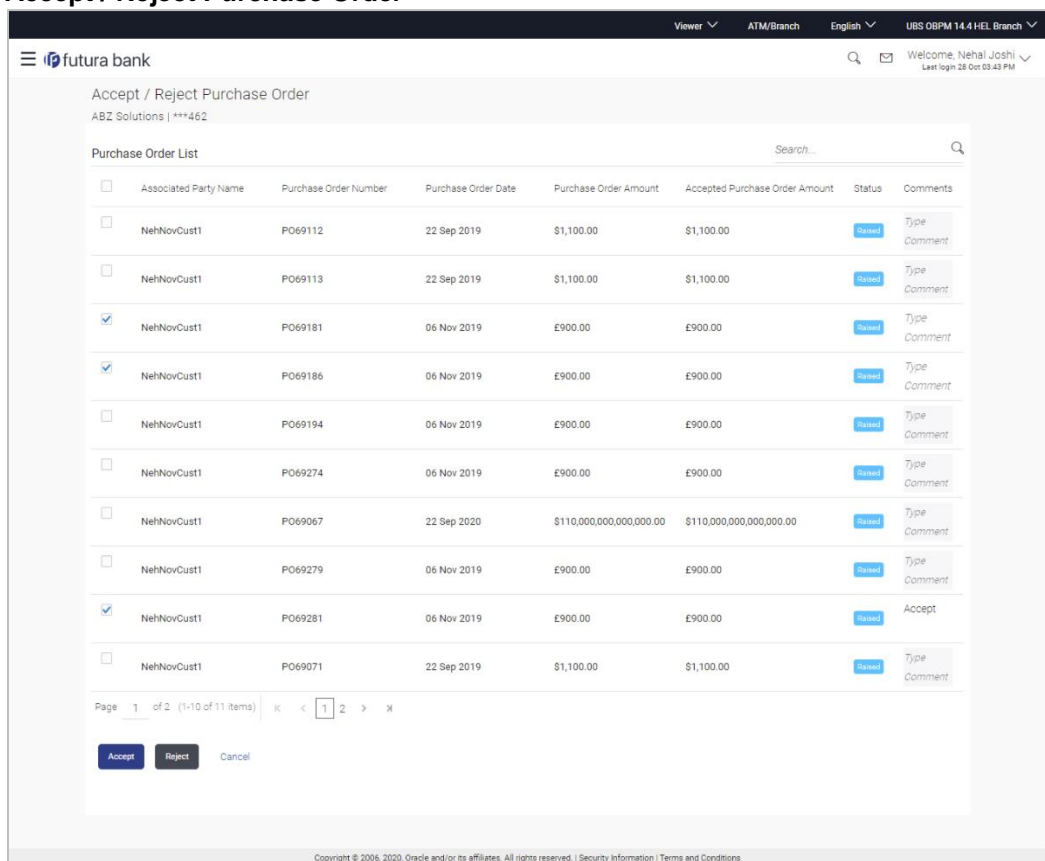

User must have valid corporate login credentials.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Purchase Order Management > Accept/Reject Purchase Order

To accept / reject purchase order(s):

1. In the **Accept/Reject Purchase Order** screen, a list of purchase orders with status as **Raised**, and where the logged-in party is the supplier, appears.
 - To search for a specific purchase order, enter either the associate party name, or purchase order number, or purchase order amount, or accepted purchase order amount, in the **Search** field.
 - Click . The relevant purchase orders appear.

FAQ

1. Who can create a purchase order?

A purchase order can be created by a supplier or a buyer, with valid login credentials. If the purchase order is being created by a supplier then the pre-acceptance flag gets defaulted as 'Yes' as it is implied that the supplier is accepting the purchase order. If the purchase order is being raised by a buyer, then the pre-acceptance flag can be set to yes or no based on the user's requirement.

2. Can I create multiple purchase orders for different suppliers?

Yes, a corporate can create multiple purchase orders online for different suppliers.

3. How many purchase orders can I create at a time?

There is no upper limit for creation of purchase orders at one time (in a single transaction). You can create as many purchase orders as required.

4. Can I create 2 purchase orders in one single transaction, such that one is a fresh purchase order and the other is from a template?

Yes. When you create a fresh purchase order, you must first save it. Then you can click on the Templates tab, and select the next purchase order template to be added.

Field Description

Field Name	Description
Payment Search	
Payment Type	Indicates the option to filter payments based on payment type. The payment types available are: <ul style="list-style-type: none"> • Incoming • Outgoing • Both
Payment Date From - To	Indicates the option to filter payments that occurred within a date range. You can select the dates by clicking the  icon in the From and To fields.
Payment Amount Range Currency From - To	Indicates the option to filter payments with amounts in a particular range. You can select the required currency from the Currency list, and enter the amount range in the From and To fields.
Payment Reference Number	Indicates an option to filter payments based on the customer's payment reference number.

Field Name	Description
Accounts	<p>Indicates the option to filter payments based on the type of account used for payment. The options available are:</p> <ul style="list-style-type: none"> • All Accounts • Real Account • Virtual Account • External Account <hr/> <p>Note: 'IBAN' can be listed instead of 'Real Account' and 'Virtual Account', if the configuration at the bank-level is set to display IBAN.</p>
Payment Status	<p>Indicates the option to filter payments based on payment status. The options are:</p> <ul style="list-style-type: none"> • Matched • Unmatched • Partially Matched • Not to be Matched • Reconciliation in Process
Allocation Status	<p>Indicates an option to filter payments based on their allocation status. The options are:</p> <ul style="list-style-type: none"> • Allocated • Allocation in Process • Failed • Partially Allocated • Unallocated
Beneficiary/Remitter Name	<p>Enter the name of the beneficiary or remitter of the payment. The application matches the exact name entered and fetches results accordingly.</p> <ul style="list-style-type: none"> • This field appears as Beneficiary/Remitter Name, if the Both option is selected from the Payment Type field. • This field appears as Beneficiary Name, if the Outgoing option is selected from the Payment Type field. • This field appears as Remitter Name, if the Incoming option is selected from the Payment Type field.

1. In the **View Payments** screen, search for the required payments using the **Search** field.
2. To narrow the search results, click the  icon. The **Payment Search** overlay window appears.
 - a. Enter the required details, and click **Apply**.
OR
Click **Reset** to reset the filter fields.

The payment records appear based on the search criteria.

3. To view the details of a specific payment record, click the **Payment Reference Number** link. The payment details screen appears.
 OR
 Click **Download** to download the search results.
 OR
 Click **Cancel** to go back to the main dashboard.

11.1.1 **View Payments (details)**

This screen appears when you click the Payment Reference Number of a particular payment record in the **View Payments** screen.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Payments Management > View Payments > Payment Reference Number link

Field Description

Field Name	Description
View Payments	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Payment Reference Number	Displays the unique reference number of the payment.
Payment Amount	Displays the payment amount.
Unreconciled Amount	Displays any amount that is not yet reconciled.
Account Number	Displays the account number involved in the payment. This can either be a real account number or an IBAN, based on the configuration set by the bank.
Payment Type	Displays the type of payment, whether incoming or outgoing.
Allocation Status	Displays the status of allocation of the payment.
Payment Date	Displays the date of the payment.
Customer Reference Number	Displays the customer's reference number for the payment.

Field Name	Description
Remitter Account Number / Beneficiary Account Number	<p>Displays the account number of the remitter / beneficiary. If the payment is of incoming type, then this field displays the remitter account number. If the payment is of outgoing type, then this field displays the beneficiary account number.</p> <hr/> <p>Note: The IBAN can be displayed instead of the real and virtual account numbers, if the configuration at the bank-level is set to display IBAN.</p>
Virtual Account	<p>Displays the remitter's virtual account number involved in the payment.</p> <hr/> <p>Note: The IBAN can be displayed instead of the real and virtual account numbers, if the configuration at the bank-level is set to display IBAN.</p>
Remark	Displays any remarks entered during the payment.

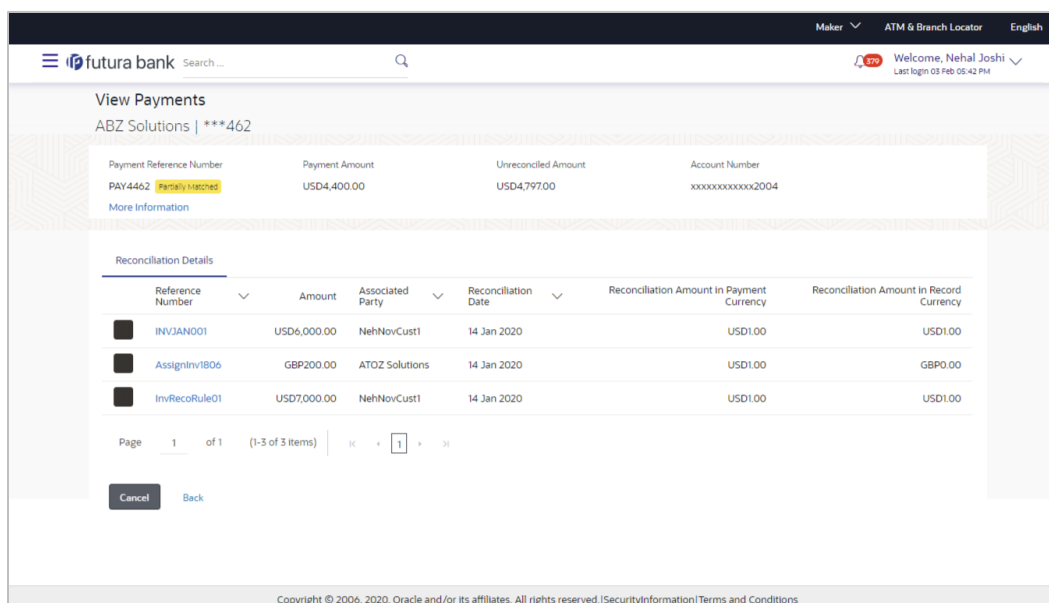

The **View Payments** screen consists of the following tabs:

- Reconciliation Details
- Allocation Details

Note: These tabs can also be viewed on a mobile device.

View Payments – Reconciliation Details tab

The Reconciliation Details tab appears only if the payment has been reconciled with invoices/debit notes/cash flows.

Field Description

Field Name	Description
------------	-------------

View Payments - Reconciliation Details tab

The Reconciliation Details tab appears only if the payment has been reconciled with invoices/debit notes/cash flows.

Indicator	Displays what instrument has been reconciled with the payment. Displays 'I' for invoice, 'D' for debit note, and 'C' for cash flow.
------------------	---

Reference Number	Displays the reference number of the cash flow / invoice /debit note that the payment has been reconciled with. This is a hyperlink which when clicked displays the details of the cash flow / invoice. For more information on the fields in the View Cash Flow Details screen, refer the View Cash Flow Details section in User Manual Oracle Banking Digital Experience Corporate Cash Management . For more information on the fields in the View Invoice screen, refer the View Invoice Details section in this user manual. For more information on the fields in the View Debit Note screen, refer the View Debit Note Details section in this user manual.
-------------------------	---

Amount	Displays the total cash flow / invoice / debit note amount.
---------------	---

Associated Party	Displays the name of the associated party of the payment.
-------------------------	---

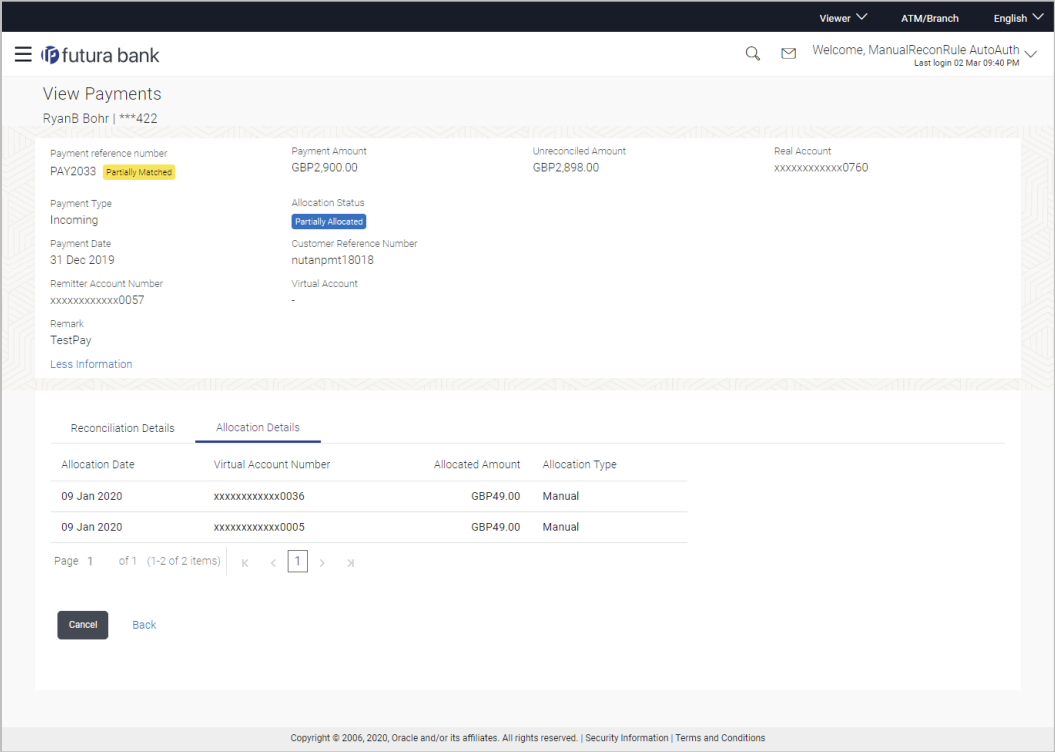

Reconciliation Date	Displays the date of reconciliation.
----------------------------	--------------------------------------

Field Name	Description
Reconciliation Amount in Payment Currency	Displays the amount that has been reconciled in the currency in which the payment has been made.
Reconciliation Amount in Record Currency	Displays the amount that has been reconciled in the cash flow / invoice / debit note currency.

- 4. Click the **Reference Number** link to view the details of the cash flow / invoice / debit note.
OR
Click **Back** to go to the previous screen.
OR
Click **Cancel** to go to the dashboard.

View Payments – Allocation Details tab

This tab appears only if the payment status is 'Allocated' or 'Partially Allocated', which means that the payment has been either fully or partially allocated to virtual account(s).

Field Description

Field Name	Description
View Payments – Allocation Details tab	
Allocation Date	Displays the date of payment allocation.
Virtual Account Number	Displays the virtual account number to which the payment has been allocated.
Allocated Amount	Displays the amount that has been allocated.
Allocation Type	Displays the type of allocation.

5. Click **Back** to go to the previous screen.
OR
Click **Cancel** to go to the dashboard.

11.2 Payment File Upload – File Template

Payment records can be created in bulk through file upload.

How to reach here:

Dashboard > Toggle Menu > File Upload > File Upload

OR

Dashboard > Quick Links > File Upload

BulkPaymentsUploadTemplate.xlsx

Note: Refer this file for the upload file format:

While uploading a .XLSX / .XLS file, if you do not have the required data for a particular cell, and need to leave it blank, then ensure that the particular empty cell has been formatted to the data type of the expected data of that cell. For example, a cell that is supposed to hold textual content, such as name or description, should be formatted to 'Text'. Similarly, a cell that is supposed to hold a number, should be formatted to 'Number'.

For more information on the procedure of uploading the file, refer **User Manual Oracle Banking Digital Experience Corporate Bulk File Upload – Receivables Payables Management**.

Field Description

Field Name	Description
The following fields should be entered in a row for a payment record.	

Field Name	Description
Payment Type	<p>Enter O for outgoing and I for incoming payment. This is a mandatory field.</p> <hr/> <p>Note: If the payment type is incoming, then the Beneficiary ID should be that of the logged-in party.</p> <p>If the payment type is outgoing, then the Payment Party ID should be that of the logged-in party.</p> <hr/>
Customer Payment Reference Number	Enter the customer's own unique reference number for the payment. This is a mandatory field.
Payment Currency	Enter the currency in which the payment is made. A 3-digit currency code as per ISO standards is acceptable. This is a mandatory field.
Payment Amount	Enter the amount paid. This is a mandatory field.
Finance Repayment Appropriation	Specify the sequence of repayment for principal, interest, and overdue amount. Example: OIP.
Finance Repayment Specific Appropriation	Specify the amounts paid for the repayment appropriation. For example: P:3000.00 I:500.00 O:900.00
Payment Mode	<p>Specify the mode of payment. This is a mandatory field. The acceptable values are:</p> <ul style="list-style-type: none"> • ACT_TRANSFER • NEFT • CASH • CHEQUE • RTGS
Payment Date	Enter the date of payment in the DD-MM-YYYY format. This is a mandatory field.
Payment Party Code	Enter the code of the party making the payment. You can either provide a value in this field, or in the Payment Party ID field.
Counter Party Code	Enter the code of the counter party, in the payment transaction. You can either provide a value in this field, or in the Counter Party ID field. A counter party in this context is generally a third party like a bank or any other medium to the transaction.
Payment to Virtual Account	Specify whether the payment is being made to a virtual account or not. Enter Y if the payment is to a virtual account, and N , otherwise. This is a mandatory field.
Credit Account Number	Enter the account number to which the payment is credited to. This field is mandatory if the Payment Type is incoming (I). This can be either the real account number, or the International Bank Account Number (IBAN) based on the configuration set by the bank.

Field Name	Description
Auto Reconciliation	Specify whether the payment should be auto reconciled, or not. If you enter Y , then the payment is auto reconciled on upload of file. If you enter N , the payment will have to be manually reconciled. This is a mandatory field.
Is Payment for Cashflow OR Invoice OR Finance	Enter E for expected cash flow payment, I for invoice payment, and F for finance payment.
Cash flow OR Invoice OR Finance Reference Number	Enter the reference number of the expected cash flow record / invoice / finance, as applicable. If multiple options are applicable, If the payment is made towards multiple options, then you can enter the reference numbers as follows: Invoice Ref No Finance Ref No Expected Dr/Cr Ref No
Remarks	Enter any remarks, if applicable. If specific values are not provided in the respective fields, then they can be provided in the Remarks field. Multiple references can be made using a pipe separator as given below: N:Narration E: Expected Dr/Cr Ref No I: Invoice Ref No F:Finance Ref No P:Program code R: Relationship Code PPC: Payment Party Code CPC: Counterparty Code
Payment Party ID	Enter the ID of the party making the payment. You can either provide a value in this field, or in the Payment Party Code field.
Payment Party Name	Enter the name of the party making the payment.
Counter Party ID	Enter the ID of the counter party. You can either provide a value in this field, or in the Counter Party Code field.
Counter Party Name	Enter the name of the counter party.
Beneficiary ID	Enter the ID of the beneficiary of the payment.
Beneficiary Name	Enter the name of the beneficiary of the payment.
Program Code	Enter the program code applicable for the payment.
Remitter Account Number	Enter the account number from which the payment is initiated. This field is mandatory if the Payment Type is outgoing (O). This can be either the real account number, or the International Bank Account Number (IBAN) based on the configuration set by the bank.
Fund Transfer or Cheque Reference Number	Enter the external reference number of the payment, in case of fund transfer or cheque payment.
Mandate Reference Number	Enter the reference number of the mandate.

Field Name	Description
Credit Note Reference Number	Enter the reference number of the credit note.
Allocation Required	Enter Y if allocation is required, and N , otherwise. This is a mandatory field.

FAQ

- 1. Does View Payments also display the payments that are domestic, internal and international in nature or any other payment from the party's corporate account?**

No, here payment records uploaded by corporate for reconciliation are reflected or those payment records received from the payments engine to the Supply Chain Finance / Cash Management system are reflected.

[Home](#)

12. Reconciliation

Reconciliation is the process where payments are reconciled or matched with invoices/cash flows. Invoice records or cash flow records are generally created in advance. However, the actual payment occurs at a later point of time. Using the Reconciliation feature, you can match the payments with invoices and cash flow records.

Reconciliation can either be automated or performed manually. Reconciliation rules are created for the automation. Rules are essentially conditions that are defined; invoice / cash flow records and payments that meet the specified conditions are matched together.

In case a reconciled record must be unmatched, you can use the De-reconciliation option.

Allocation is the process where payments are allocated to virtual accounts. This process can also be automated through rules, or can be performed manually.

Pre-requisites:

User must have valid corporate login credentials.

12.1 Overview

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Reconciliation > Overview

The Reconciliation Overview screen consists of the following widgets:

- Unmatched Payments
- Unreconciled Receivables/Payables
- Unreconciled Cash Flows
- Payment Status
- Payment Allocation
- Unallocated Payments
- Quick Links

Unmatched Payments – This widget gives the total incoming and outgoing payment amounts that have not been matched under a specific currency. Swipe across the widget to view the data for other supported currencies. The count of payments for both incoming and outgoing is also displayed for each currency. The count for each type (incoming and outgoing), is a hyperlink which when clicked, displays the **View Payments** screen with the list of unmatched payments of the respective type. On clicking the **Reconcile against Invoice** link, the **Manual Reconciliation** screen appears where the unreconciled invoices can be reconciled. For more information on this screen, refer the [Invoices/Debit Notes against Payments/Credit Notes](#) section under **Manual Reconciliation**, in this document. On clicking the **Reconcile against Cash Flow** link, the **Manual Reconciliation** screen appears where the unreconciled cash flow records can be reconciled. For more information on this screen, refer the [Cash Flow against Payment](#) section under **Manual Reconciliation**, in this document.

Unreconciled Receivables/Payables – This widget gives the unreconciled amount details for receivables and payables. The receivables/payables can include both invoices and debit notes. The counts of invoices and debit notes for each type (receivables and payables) are also displayed. Swipe across the widget to view the data for other supported currencies. On clicking the **View Details** link, the **View Receivables/Payables** screen appears. For more information on this screen, refer the [View/Edit Receivables/Payables](#) screen in this document. On clicking the **Reconcile Now** link, the **Manual Reconciliation** screen appears where the unreconciled receivables/payables can be reconciled. For more information on this screen, refer the [Invoices/Debit Notes against Payments/Credit Notes](#) section under **Manual Reconciliation**, in this document.

Unreconciled Cash Flows – This widget gives the total inflow and outflow cash flow amounts that are unreconciled. The number of cash flows for each type (inflow and outflow) is also displayed. Swipe across the widget to view the data for other supported currencies. On clicking the [View Details](#) link, the **View/Edit Expected Cash Flow Details** screen appears. For more information on this screen, refer the respective section in **User Manual Oracle Banking Digital Experience Corporate Cash Management**. On clicking the [Reconcile Now](#) link, the **Manual Reconciliation** screen appears where the unreconciled cash flow records can be reconciled. For more information on this screen, refer the [Cash Flow against Payment](#) section under **Manual Reconciliation**, in this document.

Payment Status – This widget displays a donut graph that depicts the percentage of payments in various status with respect to payments matching. This data can be viewed for both incoming and outgoing payments, as of current date, last month, last quarter, and a custom date range. On clicking the [View Payments](#) link, the **View Payments** screen appears. For more information on this screen, refer the [View Payments](#) section in this document.

Payment Allocation – This widget displays a donut graph that depicts the percentage of payments in various status with respect to payments allocation. This data can be viewed for both incoming and outgoing payments, as of current date, last month, last quarter, and a custom date range.

Unallocated Payments – This widget displays a donut graph that depicts the percentages of unallocated payments, for incoming and outgoing payments. The total payment amounts and the count of payments that are unallocated are also displayed for the incoming and outgoing payments. Swipe across the widget to view the data for other supported currencies. On clicking the [View Details](#) link, the **View Payments** screen appears with the list of unallocated payments. For more information on this screen, refer the [View Payments](#) section in this document. On clicking the [Allocate Now](#) link, the **Manual Allocation** screen appears. For more information on this screen, refer the [Manual Allocation](#) section in this document.

Quick Links – The most commonly used transactions are provided as quick links for quick access. Following transactions are provided as quick links:

- [Create Reconciliation Rules](#)
- [Create Allocation Rule](#)
- [View/Edit Reconciliation/Allocation Rules](#)
- [Manual Reconciliation](#)
- [Manual Allocation](#)
- [De-Reconciliation](#)

12.2 Create Reconciliation Rules

Corporates can create reconciliation or allocation rules from the portal using transactions 'Create Reconciliation Rule' and 'Create Allocation Rule' respectively. These transactions enable them to create rules to reconcile their cash flows/invoices against the payments or to allocate payments to virtual accounts. While defining reconciliation rules, user would also be able to specify allocation parameters required to allocate the matched payment to virtual account. Thus, the OBCM application can perform allocation post successful reconciliation of payment with expected cash flows/invoices or can perform stand-alone allocation on unreconciled payment records, provided the allocation rules are set up. Two types of reconciliation rules can be configured: Exact and Generic.

Generic Rules – These rules are applicable to all invoices/cash flows that are reconcilable. A corporate party can have only one generic rule per reconciliation-type (one rule for invoices and payments reconciliation, and one rule for expected cash flows and payments reconciliation). Generic rules are applied as per generic criteria such as, FIFO, LIFO, HAFO, and LAFO.

- FIFO – (first in, first out) Oldest invoice/cash-flow, will get reconciled first.
- LIFO – (last in, first out) Latest invoice/cash-flow, will get reconciled first.
- HAFO – (highest amount, first out) Invoice/Cash-flow with highest amount, will get reconciled first.
- LAFO – (lowest amount, first out) Invoice/Cash-flow with lowest amount, will get reconciled first.

Exact Rules – An Exact rule is a customized rule defined by the corporate to match cash-flow/invoice attributes and payment attributes for reconciliation. Both single sided and double sided conditions can be configured in an exact rule. A single sided condition includes defining a single attribute of either payment or expected-cash-flow/invoice entity along with the pattern explained below; whereas a double sided condition includes defining both cash-flow/invoice and payment attributes with operator conditions along with the specific patterns on their respective matching attributes.

Below patterns are provided to the corporate in order to define exact rules. They can be used in combination with the available operators:

For double-sided conditions:

- 'Text Between Two Positions' – where the text or string between defined signs/positions will be used for reconciliation.
- Exact Attribute – Where exact value of the attributes selected would be used for reconciliation.

Example of using exact attributes in a double-sided rule: Payment Ref No {operator such as =/</>} Cash Flow Ref No OR Payment Narration = Cash Flow Narration

For single-sided conditions:

- Using operators '<', '>', or '='. For example: Payment Ref No = ABC464664
- Starts with* – Where a value following the entered string will be used for reconciliation. For example, Cash flow narration starts with XYZ
- Ends with* – Where a value preceding the entered string will be used for reconciliation. For example, Cash flow narration ends with XYZ

An exact rule enables the corporate to add rule conditions with AND/OR operators based on attributes of a cash-flow/invoice record and/or a payment record. A facility to create groups of conditions with the AND/OR operators is also available.

The complete rule creation is a three-step process, where in the first step the corporate can create a generic or exact rule. The second step involves defining an allocation rule and the final step involves setting a priority for the rule.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Reconciliation > Create Reconciliation Rule OR

Dashboard > Toggle menu > Receivables/Payables > Reconciliation > Overview > Quick Links > Create Reconciliation Rules

To create a reconciliation rule:

1. In the **Rule Details** step of the **Create Reconciliation Rule** screen, enter the required details.

Rule Details

The screenshot displays the 'Create Reconciliation Rule' interface for 'futura bank'. At the top, it shows the user's name 'Welcome, Mayur Thakkar' and the last login time 'Last login 02 Feb 10:29 PM'. The main content area is titled 'Create Reconciliation Rule' and shows the user 'ABZ Solutions | ***462'. A progress indicator at the top shows three steps: 1. Rule Details (active), 2. Set Allocation, and 3. Prioritize Rule. The 'Rule Details' section includes the following fields:

- Reconciliation Type: Select (dropdown)
- Rule Type: Generic, Exact
- Rule Name: Text input field
- Reconciliation Method: Select (dropdown)
- Attribute: Select Attribute (dropdown)
- Rule Interpretation: Text input field

At the bottom of the form, there are four buttons: 'Continue' (blue), 'Cancel' (grey), 'Back' (grey), and 'Skip Allocation' (grey). The footer contains the copyright notice: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. | Security Information | Terms and Conditions'.

Field Description

Field Name	Description
Create Reconciliation Rule	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Rule Details	

Field Name	Description
Reconciliation Type	Select whether the reconciliation is for invoices and payments, or expected cash-flows and payments.
Rule Type	Select whether the rule being created is a generic one or an exact one. The options are: <ul style="list-style-type: none"> • Generic • Exact
Rule Name	Enter the name to be assigned to the rule being created.
Apply Generic Rule	This switch appears if you select the Exact option from the Rule Type field. Enable this switch to apply the corresponding generic rule on the remaining unreconciled records, post execution of the exact rule.

- Based on the option you select in the **Rule Type** field (**Generic** or **Exact**), enter further details as follows.

Field Description

Field Name	Description
These fields appear if you select the Generic option.	
Reconciliation Method	<p>Select how the rule is applied to the invoice/cash-flow records for reconciliation. This field appears if you select the Generic option in the Rule Type field. The options are:</p> <ul style="list-style-type: none"> • FIFO – Oldest invoice/cash-flow to be reconciled first • LIFO – Latest invoice/cash-flow to be reconciled first • HAFO – Invoice/Cash-flow with highest amount to be reconciled first • LAFO – Invoice/Cash-flow with lowest amount to be reconciled first
Attribute	<p>Select the attribute to be used for applying the reconciliation method. This field appears if you select the Generic option in the Rule Type field.</p> <p>For Invoice and Payments reconciliation:</p> <ul style="list-style-type: none"> • For FIFO and LIFO, the options are: Invoice Date; Invoice Due Date. • For HAFO and LAFO, the options are: Invoice Amount; Outstanding Invoice Amount. <p>For Cash Flow and Payments reconciliation:</p> <ul style="list-style-type: none"> • For FIFO and LIFO, the options are: Expected Date; Revised Expected Date. • For HAFO and LAFO, the option is: Amount.
Rule Interpretation	<p>Displays the rule that is set, based on the options you select in the Reconciliation Method and Attribute fields. This field appears if you select the Generic option in the Rule Type field.</p>

3. If you select the **Generic** option under **Rule Type**, enter the details as stated above.
4. Click **Continue** to go to the **Set Allocation** step.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to reset and start with the **Rule Details** step again.
OR
Click **Skip Allocation** to go to the **Prioritize Rule** step.

12.2.2 Exact Rule

For an exact rule, you must add either one double-sided condition involving an invoice / cash flow attribute and a payment attribute or two single sided conditions, one involving an invoice / cash flow attribute and the other involving a payment attribute.

Field Description

Field Name	Description
	These fields appear if you select the Exact option.
Reconciliation Rule	You should add either one double sided condition with invoice/cash flow and payment; or one or more single sided conditions along with a double sided condition, for invoice/cash flow and for payment.
Add Condition	Indicates an option to add a condition for Exact reconciliation.

Field Name	Description
Add Group	Indicates an option to add a group of conditions that are clubbed together by logical operator 'AND' or 'OR'.
AND / OR	Indicates the logical operator to be used for clubbing the conditions for creating the Exact reconciliation rule.
Single-Sided Condition	
You can create single-sided conditions by selecting a specific entity (Invoice/ Cash-Flow or Payment) and then comparing an attribute of this entity with a specific value. A single sided condition should always be created along with atleast one double sided condition. The following fields appear for a single sided condition.	
Select Entity	<p>Select the required entity for building the condition. The following options are available:</p> <p>For Invoice-Payment reconciliation:</p> <ul style="list-style-type: none"> • Invoice • Payment • Invoice and Payment <p>For Cash Flow-Payment reconciliation:</p> <ul style="list-style-type: none"> • Cash Flow • Payment • Cash Flow and Payment
Select Attribute	Select the attribute of the entity to be compared.
Select Pattern	<p>Select the relational operator or pattern to be used for comparison. The options available are:</p> <ul style="list-style-type: none"> • = • < • > • Starts with • Ends with
Value	Enter the value that the attribute is to be compared with.
Double-Sided Condition	
You can create double-sided conditions by comparing an attribute of one entity with a relevant attribute of the other entity. For example, for the Invoice and Payment double-sided condition, the Net Invoice Amount can be compared with the Payment Amount. The following fields appear for a double-sided condition.	
Entities	Select the entities combination for creating the double-sided condition.

Field Name	Description
Select Pattern	Select the pattern to be used for the attribute (of the first entity) to be compared. The options available are: <ul style="list-style-type: none"> • Exact Attribute • Text Between Two Positions – On selecting this option, two fields appear where you can enter the position (numerical values). The attribute text between these positions is used for comparison.
Select Attribute	Select the attribute of the first entity to be compared.
Relational Operator	Select the relational operator to be used for comparison. The options available are: <ul style="list-style-type: none"> • AND • OR
Select Pattern	Select the pattern to be used for the attribute (of the second entity) to be compared. The options available are: <ul style="list-style-type: none"> • Exact Attribute • Text Between Two Positions – On selecting this option, two fields appear where you can enter the position (numerical values). The attribute text between these positions is used for comparison.
Select Attribute	Select the attribute of the second entity to be compared.

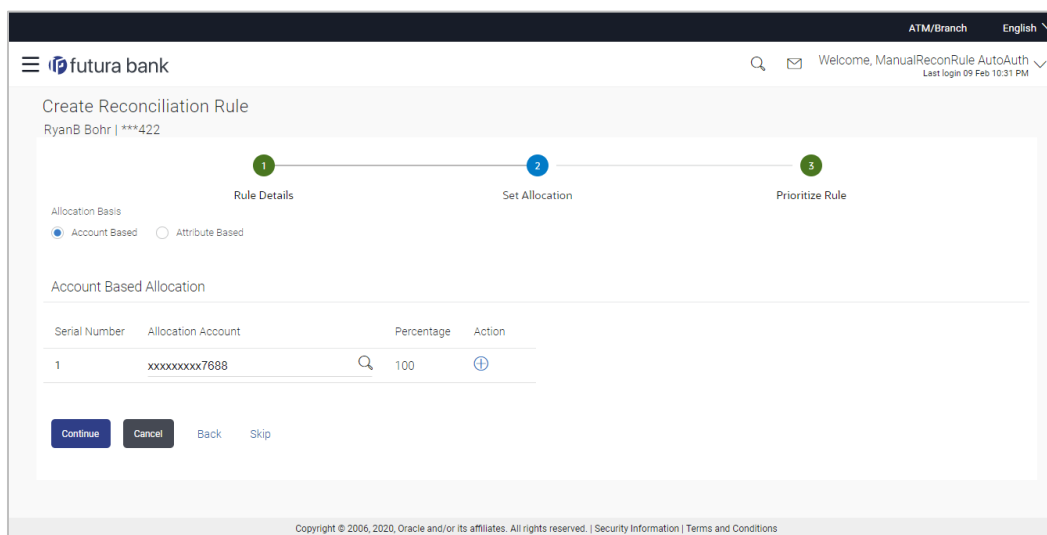

5. If you select the **Exact** option in the **Rule Type** field, then in the **Reconciliation Rule** section, build condition(s) as per requirement, as follows:
 - a. You can define either two or more single-sided condition or one more double-sided condition, or both. You can also define a group of conditions.
 - b. In the single-sided condition, you can select either Invoice/Cash-Flow or Payment.
 - i. Select the attribute to be used for comparing.
 - ii. Select the appropriate relational operator or pattern for comparing.
 - iii. Enter the value that must be used for comparing.
 - c. In the double-sided condition (Invoice/Cash-Flow and Payment), you can select an attribute of the Invoice/Cash-Flow and compare it with an attribute of the Payment.
 - i. Select the required pattern for the attribute of the first entity. If you select 'Text Between Sign' then enter the two signs in the attribute, in the fields that appear. If you select 'Text Between Two Positions' then enter the numerical positions in the attribute, in the fields that appear.
 - ii. Select the attribute of the first entity to be used for comparing.
 - iii. Select the appropriate relational operator.
 - iv. Select the required pattern for the attribute of the second entity.
 - v. Select the attribute of the second entity to be used for comparing.
 - d. Once a condition is defined, click  to save it.

- e. You can define similar individual conditions or a group of conditions by clicking **Add Condition** or **Add Group**, and bind them together using the 'AND' or 'OR' logical operator.
 - f. Once all conditions are defined, click **Save all and Preview** to save and preview all added conditions.
6. Click **Continue** to go to the **Set Allocation** step.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to reset the fields and start with the **Rule Details** step again.
OR
Click **Skip Allocation** to go to the **Prioritize Rule** step.

Note: 1) Once a condition is added and saved, click  to edit it, or click  to delete it.

- 2) If you skip the **Set Allocation** step during rule creation, then the matched and partially matched payments can be allocated to virtual accounts through Allocation Rule or Manual Allocation. For more information, refer the [Create Allocation Rule](#) and [Manual Allocation](#) sections in this document.

Field Description

Field Name	Description
Create Reconciliation Rule	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Set Allocation	
In this step, you can set the percentages to be allocated to specific virtual accounts. You must ensure that the sum of the allocated percentages should be 100.	
Allocation Basis	Select whether allocation should be virtual accounts-based or attributes-based. <ul style="list-style-type: none"> If you select the Account Based option, then you can directly set the virtual accounts for allocation. If you select the Attribute Based option, then you can set attributes for allocation. The virtual accounts that are mapped to these attributes will be used for allocation.
Account Based Allocation	
This section appears if you select the Account Based option in the Allocation Basis field.	
Serial Number	Displays the serial number of the allocation account.
Allocation Account	Select a virtual account to assign an allocation percentage.
Percentage	Enter the percentage of payment to be allocated to the virtual account.

Field Name	Description
Action	Click  to add further virtual accounts. Or click  to delete an added account.
Attribute Based Allocation	
This section appears if you select the Attribute Based option in the Allocation Basis field. This option can be used to allocate specific percentages of the payment towards specific attributes. The amount corresponding to the payment percentage set, is allocated to the virtual accounts mapped to these attributes.	
Serial Number	Displays the serial number of the attribute.
Allocation Entity	Select the entity whose attribute should be considered for setting an allocation percentage.
Allocation Attributes	Select the attribute for which the allocation percentage should be set.
Percentage	Enter the percentage of payment to be allocated to the attribute.
Action	Click  to add further attributes. Or click  to delete an added attribute.

7. Once the allocation details are set, click **Continue** to go to the **Prioritize Rule** step.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to go to the previous screen.
OR
Click **Skip** to skip the **Set Allocation** step.

Prioritize Rule

Field Description

Field Name	Description
------------	-------------

Create Reconciliation Rule

Party Name & ID Displays the name and ID of the logged-in corporate party.

Prioritize Rule

Reconciliation Rules

A list of existing rules is displayed. You can set the priority on the rule being created, and also modify the priority on an existing rule, if required. For the rule being created, the keyword **'Current'** is displayed beside it. For a rule whose priority is modified, the keyword **'Modified'** is displayed beside it.

Search Indicates an option to search for a specific reconciliation rule.

Rule Id Displays the unique rule ID that has automatically been assigned to the rule.

Rule Type Displays whether the rule is a generic or an exact one.

Rule Name Displays the name assigned to the rule.

Field Name	Description
Priority	<p>Indicates the priority assigned to the rule.</p> <p>Note: For the rule being created, the priority assigned by default is, one incremental to the highest priority assigned to the existing rules (highest priority + 1). You can change this priority, if required.</p> <p>For an existing rule, click  to edit and modify the priority, if required.</p>

- In the **Prioritize Rule** step, you can modify the priority assigned to the rule being created, under the **Priority** column, if required. You can also modify the priority on an existing rule, if required.
- Click **Submit** to submit the transaction. The Review screen appears.
 - OR
 - Click **Cancel** to cancel the transaction.
 - OR
 - Click **Back** to go to the previous screen.

Create Reconciliation Rule - Review Screen (Exact)

The screenshot displays the 'Review' screen for creating a reconciliation rule. At the top, it shows the user 'RyanB Bohr | ***422' and a 'Review' notification: 'You initiated a request for Create Reconciliation Rule. Please review details before you confirm!'. The rule details are as follows:

- Rule Type:** Exact
- Rule Name:** R9909
- Reconciliation Rule:** Exact Attribute of Invoice No of Invoice = Exact Attribute of Payment Reference No of Payment
- Allocation Details - Attribute Based:**

Serial Number	Allocation Entity and Attributes	Percentage
1	Invoice - Supplier Name,Buyer Name	60%
2	Payments - Remitter Account no,Payment Party Id	40%
- Prioritize Rules:**

Rule Id	Rule Type	Rule Name	Priority
-	Exact	R9909	6
RR00000911	Exact	SUSInvoiceExactRule Edit 56780120192	8

At the bottom, there are three buttons: 'Confirm', 'Cancel', and 'Back'. The footer contains the copyright notice: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. | Security Information | Terms and Conditions'.

10. In the Review screen, verify the details and click **Confirm**. A Confirmation message appears, with the reference number and status of the transaction.

OR

Click **Cancel** to cancel the transaction.

OR

Click **Back** to go to the previous screen.

Create Reconciliation Rule – Confirmation

11. In the Confirmation screen, click the **View Reconciliation Rules** link to view the existing reconciliation rules.

OR

Click the **Create Reconciliation Rule** link to create another rule.

12.3 Create Allocation Rule

Using this screen, the corporate user can create rules for automatic allocation of payments to specific virtual accounts. The allocation can be performed manually as well. For more information, refer the [Manual Allocation](#) section in this document.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Reconciliation > Create Allocation Rule

To create an allocation rule:

1. In the **Rule Details** step of the **Create Allocation Rule** screen, enter the required details.

Rule Details

Field Description

Field Name	Description
Create Allocation Rule	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Rule Details	

Field Name	Description
Rule Name	Enter the name to be assigned to the rule.
Reconciliation Rule	
Add Condition	Indicates an option to add a condition for allocation.
Add Group	Indicates an option to add a group of conditions that are clubbed together by logical operator 'AND' or 'OR'.
AND / OR	Indicates the logical operator to be used for clubbing the conditions for creating the allocation rule.
Select Attribute	Select the attribute of the payment to be compared.
Match the payment by	Select the relational operator or pattern to be used for matching the payment.
Value	Enter the value that the attribute is to be compared with.
Save all and Preview	Click this link to save and preview all added conditions.

2. In the **Rule Name** field, enter the name to be assigned to the rule.
3. In the **Reconciliation Rule** section, build the condition(s) as per requirement:
 - a. Select the attribute to be used for comparing.
 - b. Select the appropriate relational operator or pattern for comparing, from the **Match the payment by** list.
 - c. Enter the value to compare the attribute value with.
 - d. Once a condition is defined, click  to save it.
 - e. You can define similar individual conditions or a group of conditions by clicking **Add Condition** or **Add Group**, and binding them together using the 'AND' or 'OR' logical operator.
 - f. Once all conditions are defined, click **Save all and Preview** to save and preview all added conditions.
4. Click **Continue** to go to the **Set Allocation** step.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to reset the fields and start with the **Rule Details** step again.

Note: Once a condition is added and saved, click  to edit it, or click  to delete it.

Set Allocation – Account Based

Set Allocation – Attribute Based

Field Description

Field Name	Description
Create Allocation Rule	
Party Name & ID	Displays the name and ID of the logged-in corporate party.

Field Name	Description
Set Allocation	
In this step, you can set the percentages to be allocated either to specific virtual accounts, or towards specific payment attributes. You must ensure that the sum of the allocated percentages should be 100.	
Allocation Basis	Select whether allocation should be virtual accounts-based or attributes-based.
Account Based Allocation	
This section appears if you select the Account Based option in the Allocation Basis field.	
Serial Number	Displays the serial number of the allocation account.
Allocation Account	Select a virtual account to assign an allocation percentage.
Percentage	Enter the percentage of payment to be allocated to the virtual account.
Action	Click  to add further virtual accounts. Or click  to delete an added account.
Attribute Based Allocation	
This section appears if you select the Attribute Based option in the Allocation Basis field. This option can be used to allocate specific percentages of the payment towards specific payment attributes (such as credit account number, remitter account number, payment party ID, and so on), which are mapped to specific virtual accounts.	
Serial Number	Displays the serial number of the attribute.
Allocation Entity	Displays 'Payment' by default.
Allocation Attributes	Select the attribute for which the allocation percentage should be set.
Percentage	Select the percentage of payment to be allocated to the attribute.
Action	Click  to add further attributes. Or click  to delete an added attribute.

- Once the allocation details are set, click **Continue** to go to the **Prioritize Rule** step.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to go to the previous screen.

View Reconciliation Rule (on mobile device)

The **View Reconciliation Rule** screen can also be viewed on a mobile device. The features and functionality available on the desktop computers, such as hyperlinks, search filters, and the download option, are also available on the mobile device.

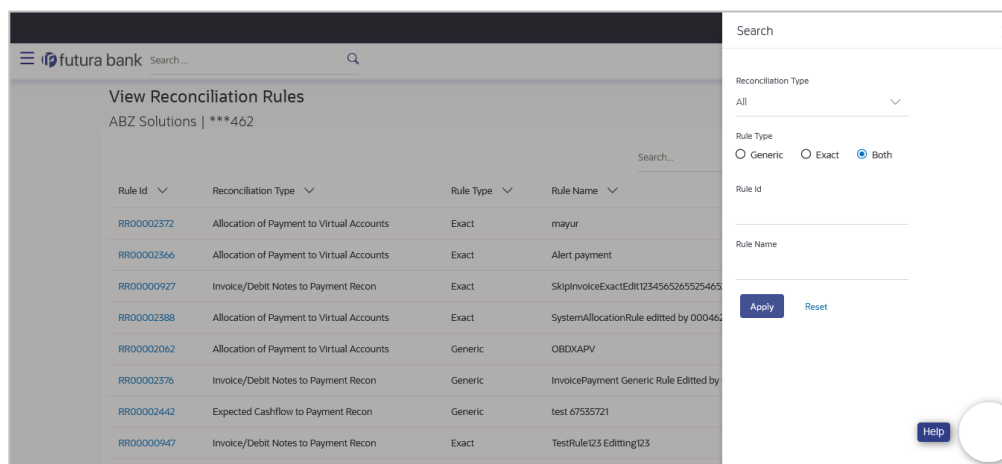

Field Description

Field Name	Description
View Reconciliation Rules	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Search	Indicates an option to search for specific reconciliation rule(s). As the partial or full name/ID/rule type/reconciliation type is entered, the relevant rules are displayed.
	Indicates a set of options to filter the reconciliation rule records. For more details, refer to the fields in Search (overlay window for View Reconciliation Rules) below.
Download	Indicates an option to download the reconciliation rules list in CSV format.
A list of reconciliation rules is displayed (based on search criteria) with the following fields.	
Rule Id	Displays the unique ID of the rule. This is a hyperlink which when clicked displays the details of the reconciliation rule. For more information on the fields, refer the View Reconciliation Rule (details) section in this document.

Field Name	Description
Reconciliation Type	Displays the type of payment the reconciliation rule has been created for.
Rule Type	Displays whether the rule is generic or exact.
Rule Name	Displays the name of the rule.
Priority	Displays the priority of the rule.

Search (overlay window for View Reconciliation Rules)

This window appears on clicking  in the View Reconciliation Rules screen.

Reconciliation Type Indicates an option to filter the rules by the type of reconciliation. The options are:

- Invoice/Debit Notes Payment Recon
- Finance Payment Recon
- Expected Cashflow to Payment Recon
- Allocation of Payment to Virtual Accounts

Rule Type Indicates an option to filter the rules based on rule type. The options are:

- Exact
- Generic
- Both - To view both exact and generic rules. This option appears selected by default.

Rule Id Indicates an option to filter the rules by ID.

Rule Name Indicates an option to filter the rules by name.

On clicking **Apply**, a list of relevant reconciliation rules is displayed. On clicking **Reset**, the data entered in the **Search** overlay window is cleared.

In the **View Reconciliation Rules** screen, the user can perform the following actions:

- Click **Download** and select the file format to download the reconciliation rules list. At present the CSV format is supported.
- Click the **Rule Id** of a particular rule record, to view its details. The **View Reconciliation Rule** screen appears. For more information, refer the [View Reconciliation Rule \(details\)](#) section below.
- Click **Cancel** to cancel the operation. A warning message appears inquiring whether or not to cancel the operation.
 - a. Click **Yes** to proceed with cancelling the operation. The main dashboard appears.
OR
Click **No** to remain on the **View Reconciliation Rules** screen.

12.4.1 View Reconciliation Rule (details)

This screen appears on clicking the rule ID link of a specific reconciliation rule from the **View Reconciliation Rules** screen. It displays the rule details.

View Reconciliation Rule – Exact

Priority	1
Apply Generic Rule	No

Field Description

Field Name	Description
View Reconciliation Rule	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Basic Details	
Rule Id	Displays the rule ID of the reconciliation rule.
Reconciliation Type	Displays the type of payment the reconciliation rule has been created for.
Rule Type	Displays whether the rule is generic or exact.
Rule Name	Displays the name of the rule.
Priority	Displays the priority of the rule. If a payment meets the criteria of more than one rule, then the rule with the higher priority (1 being highest) is applied.

Field Name	Description
Reconciliation Rule	<p>For an Exact rule, this section displays the rule that has been defined. The rule can be a combination of single sided conditions or double sided conditions or both. The conditions are clubbed together either by the AND or the OR relational operator. A single sided condition includes a single attribute of either payment or expected-cash-flow/invoice entity compared to a specific value using logical operators; whereas a double sided condition includes both cash-flow/invoice and payment attributes with operator conditions along with the specific patterns on their respective matching attributes.</p>
Reconciliation Rule	<p>For a Generic rule, the following fields appear.</p>
Reconciliation Method	<p>Displays the method employed for reconciliation.</p> <p>The options can be:</p> <ul style="list-style-type: none"> • LIFO – Latest invoice/cash flow to be reconciled first • FIFO – Oldest invoice/cash flow to be reconciled first • LAFO – Lowest amount to be reconciled first • HAFO – Highest amount to be reconciled first
Attributes	<p>Displays the attribute on which the reconciliation method will be applied.</p> <ul style="list-style-type: none"> • If the reconciliation criteria is either LIFO or FIFO, then a date-specific attribute is present in this field. • If the reconciliation criteria is either LAFO or HAFO, then an amount-specific attribute is present in this field.
Rule Interpretation	<p>Displays the interpretation of the reconciliation method applicable.</p>
Allocation Details - Account Based	
<p>This section appears if the Account Based option has been selected for allocation.</p>	
Serial Number	<p>Displays the serial number of the allocation account.</p>
Allocation Account	<p>Displays the virtual account that has been selected for allocation.</p>
Percentage	<p>Displays the percentage of payment allocated.</p>
Allocation Details - Attribute Based	
<p>This section appears if the Attribute Based option has been selected for allocation.</p>	
Serial Number	<p>Displays the serial number of the entity and attribute combination.</p>
Allocation Entity and Attributes	<p>Displays the entity and their respective attributes that have been selected for allocation.</p>
Percentage	<p>Displays the percentage of payment allocated.</p>

From the **View Reconciliation Rule** (details) screen, you can do the following:

- Edit the reconciliation rule, by clicking **Edit**.

- Go back to the **View Reconciliation Rules** screen, which displays a list of existing reconciliation rules, by clicking **Back**.

12.4.2 Edit Reconciliation Rule

Using this screen, the corporate user can edit a reconciliation / allocation rule.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Reconciliation > View/Edit Reconciliation/Allocation Rule

To edit a reconciliation rule:

- In the **View Reconciliation Rules** screen, search for the required reconciliation rule, using the Search field or the filter options.

View Reconciliation Rules

The screenshot displays the 'View Reconciliation Rules' interface. At the top, there is a navigation bar with 'futura bank' and a search bar. Below the navigation bar, the page title is 'View Reconciliation Rules' and the user information is 'ABZ Solutions | ***462'. The main content area contains a table with the following columns: Rule Id, Reconciliation Type, Rule Type, Rule Name, and Priority. The table lists 10 rules. At the top right of the table, there is a search bar and a 'Download' button. At the bottom left of the table, there is a 'Cancel' button. The footer of the page contains the copyright information: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved.[SecurityInformation]Terms and Conditions'.

2	Cash Flow - Corporate Id	33.56%

Back

Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. |SecurityInformation|Terms and Conditions

3. Click the **Edit** link to edit the reconciliation rule. For a system-defined rule, an alert message pops up. For a corporate-defined rule, the **Edit Reconciliation Rule** screen appears.
OR
Click **Back** to go to the previous screen.

On Clicking 'Edit' for a System Defined Rule

Note: For a system-defined rule, an alert message pops up on clicking **Edit**. It states that you are about to edit a system defined rule. Once you modify and submit the rule, it will be unmapped from your party ID. System defined reconciliation rules are applicable to all corporate customers of the bank. If a corporate party wishes to customize a particular system defined rule, they may do so. This unmaps the rule from the party ID. The corporate party can then customize and submit the rule. A new rule with the same rule ID is created which is applicable only to that specific corporate party.

4. Click **Ok**, to accept the warning message. The **Create Reconciliation Rule** screen appears. The fields are populated with the existing values.
OR
Click **Cancel** to cancel the transaction and remain on the **View Reconciliation Rule** (details) screen.

Rule Type	Displays whether the rule is a generic or an exact one. This field is not editable.
Rule Name	Indicates the name of the rule. This field is editable.
Reconciliation Method	Indicates how the rule is applied to the invoice/cash-flow records for reconciliation. This field is displayed only for Generic rule type. It is editable. The options are: <ul style="list-style-type: none"> • FIFO – Oldest invoice/cash-flow to be reconciled first • LIFO – Latest invoice/cash-flow to be reconciled first • HAFO – Invoice/Cash-flow with highest amount to be reconciled first • LAFO – Invoice/Cash-flow with lowest amount to be reconciled first
Attribute	Indicates the attribute used for applying the reconciliation method. This field is displayed only for Generic rule type. It is editable. For Invoice and Payments reconciliation: <ul style="list-style-type: none"> • For FIFO and LIFO, the options are: Invoice Date; Invoice Due Date. • For HAFO and LAFO, the options are: Invoice Amount; Outstanding Invoice Amount. For Cash Flow and Payments reconciliation: <ul style="list-style-type: none"> • For FIFO and LIFO, the options are: Expected Date; Revised Expected Date. • For HAFO and LAFO, the option is: Amount.
Rule Interpretation	Displays the rule that is set, based on the options you select in the Reconciliation Method and Attribute fields. This field is displayed only for Generic rule type.
Reconciliation Rule	
This section appears only for Exact rule type. It displays the conditions that have been set during creation. The entire section is editable.	
Add Condition	Indicates an option to add a condition for Exact reconciliation.

Field Name	Description
Add Group	Indicates an option to add a group of conditions that are clubbed together by logical operators 'AND' or 'OR'.
AND / OR	Indicates the logical operator to be used for clubbing the conditions for creating the Exact reconciliation rule.
Single-Sided Condition	
You can create single-sided conditions by selecting a specific entity (Invoice/ Cash-Flow or Payment) and then comparing an attribute of this entity with a specific value. The following fields appear for a single sided condition.	
Select Entity	Select the required entity for building the condition.
Select Attribute	Select the attribute of the entity to be compared.
Select Pattern	Select the relational operator or pattern to be used for comparison.
Value	Enter the value that the attribute is to be compared with.
Double-Sided Condition	
You can create double-sided conditions by comparing an attribute of one entity with a relevant attribute of the other entity. For example, for the Invoice and Payment double-sided condition, the Net Invoice Amount can be compared with the Payment Amount. The following fields appear for a double-sided condition.	
Entities	Select the entities combination for creating the double-sided condition.
Select Pattern	Select the pattern to be used for the attribute (of the first entity) to be compared. The options available are: <ul style="list-style-type: none"> • Exact Attribute • Text Between Two Positions – On selecting this option, two fields appear where you can enter the position (numerical values). The attribute text between these positions is used for comparison.
Select Attribute	Select the attribute of the first entity to be compared.
Relational Operator	Select the relational operator to be used for comparison.
Select Pattern	Select the pattern to be used for the attribute (of the second entity) to be compared. The options available are: <ul style="list-style-type: none"> • Exact Attribute • Text Between Two Positions – On selecting this option, two fields appear where you can enter the position (numerical values). The attribute text between these positions is used for comparison.
Select Attribute	Select the attribute of the second entity to be compared.

Field Name	Description
Save all and Preview	Click this link to save and preview all added conditions.

5. Modify the required details in the **Rule Details** step.
6. Click **Continue** to go to the **Set Allocation** step.
 OR
 Click **Cancel** to cancel the transaction.
 OR
 Click **Skip Allocation** to skip the **Set Allocation** train stop and move to the **Prioritize Rule** train stop.

Edit Reconciliation Rule – Set Allocation step – Attribute Based

Edit Reconciliation Rule – Set Allocation step – Account Based

Field Description

Field Name	Description
Edit Reconciliation Rule	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Set Allocation	
Allocation Basis	Select whether the allocation should be virtual accounts-based or attributes-based. <ul style="list-style-type: none"> • If you select the Account Based option, then you can directly set the virtual accounts for allocation. • If you select the Attribute Based option, then you can set attributes for allocation. The virtual accounts that are mapped to these attributes will be used for allocation.
Account Based Allocation	
This section appears if you select the Account Based option in the Allocation Basis field.	
Serial Number	Displays the serial number of the allocation account.
Allocation Account	Select a virtual account to assign an allocation percentage.
Percentage	Enter the percentage of payment to be allocated to the virtual account.
Action	Click to add further virtual accounts. Or click to delete an added account.

Field Name	Description
Attribute Based Allocation	
This section appears if you select the Attribute Based option in the Allocation Basis field. This option can be used to allocate specific percentages of the payment towards specific attributes. The amount corresponding to the payment percentage set, is allocated to the virtual accounts mapped to these attributes.	
Serial Number	Displays the serial number of the attribute.
Allocation Entity	Select the entity whose attribute should be considered for setting an allocation percentage.
Allocation Attributes	Select the attribute for which the allocation percentage should be set.
Percentage	Enter the percentage of payment to be allocated to the attribute.
Action	Click  to add further attributes. Or click  to delete an added attribute.

7. Modify the allocation details if required.
8. Click **Continue** to go to the **Prioritize Rule** step.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to go to the previous screen.
OR
Click **Skip** to skip modifying the allocation and to move to the **Prioritize Rule** train stop.

- Click **Edit**. For a system-defined rule, an alert message pops up. For a corporate-defined rule, the **Edit Allocation Rule** screen appears.
OR
Click **Back** to go to the previous screen.

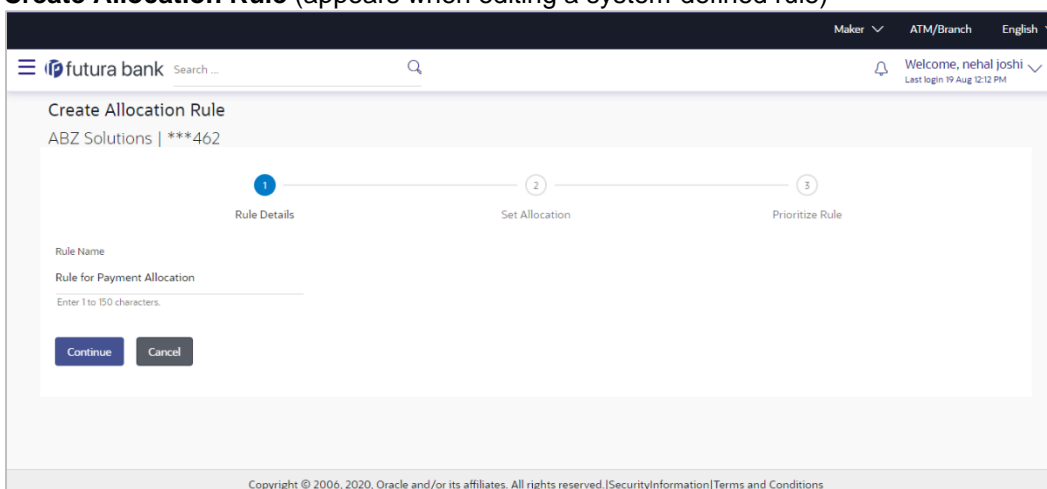

On Clicking 'Edit' for a System Defined Rule

Note: For a system-defined rule, an alert message pops up on clicking **Edit**. It states that you are about to edit a system defined rule. Once you modify and submit the rule, it will be unmapped from your party ID. System defined reconciliation rules are applicable to all corporate customers of the bank. If a corporate party wishes to customize a particular system defined rule, they may do so. This unmaps the rule from the party ID. The corporate party can then customize and submit the rule. A new rule with the same rule ID is created which is applicable only to that specific corporate party.

4. Click **Ok**, to accept the warning message. The **Create Allocation Rule** screen appears. The fields are populated with the existing values.
OR
Click **Cancel** to cancel the transaction and remain on the **View Reconciliation Rule** (details) screen.

Create Allocation Rule (appears when editing a system-defined rule)

Edit Allocation Rule (appears when editing a corporate-defined rule)

The screenshot shows the 'Edit Allocation Rule' page in the Futura Bank system. At the top, there's a navigation bar with 'futura bank' logo, a search bar, and user information: 'Welcome, nehal joshi' and 'Last login: 19 Aug 07:10 PM'. The main content area has a progress indicator with three steps: 1. Rule Details, 2. Set Allocation, and 3. Prioritize Rule. The 'Rule Details' section is currently active and contains the following fields: 'Rule Id' (RR00002366), 'Rule Name', and 'Alert payment'. Below this is the 'Reconciliation Rule' section, which features a dropdown menu for logical operators ('And' and 'Or') and a text input field containing the condition 'Payment Reference No of Payment equals to 123'. There are also buttons for 'Add Group' and 'Add Condition'. At the bottom of the form, there are buttons for 'Save all and Preview', 'Continue', and 'Cancel'. The footer of the page contains the text: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. |SecurityInformation|Terms and Conditions'.

Field Description

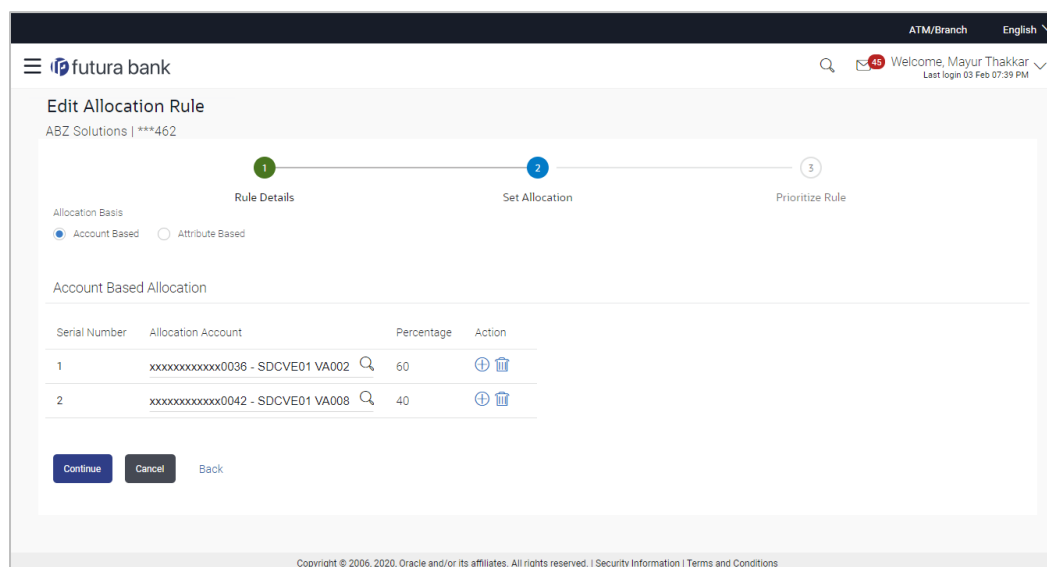

Field Name	Description
Edit Allocation Rule	
Party Name & ID	Displays the name and ID of the logged-in corporate party.

Set Allocation – Attribute Based

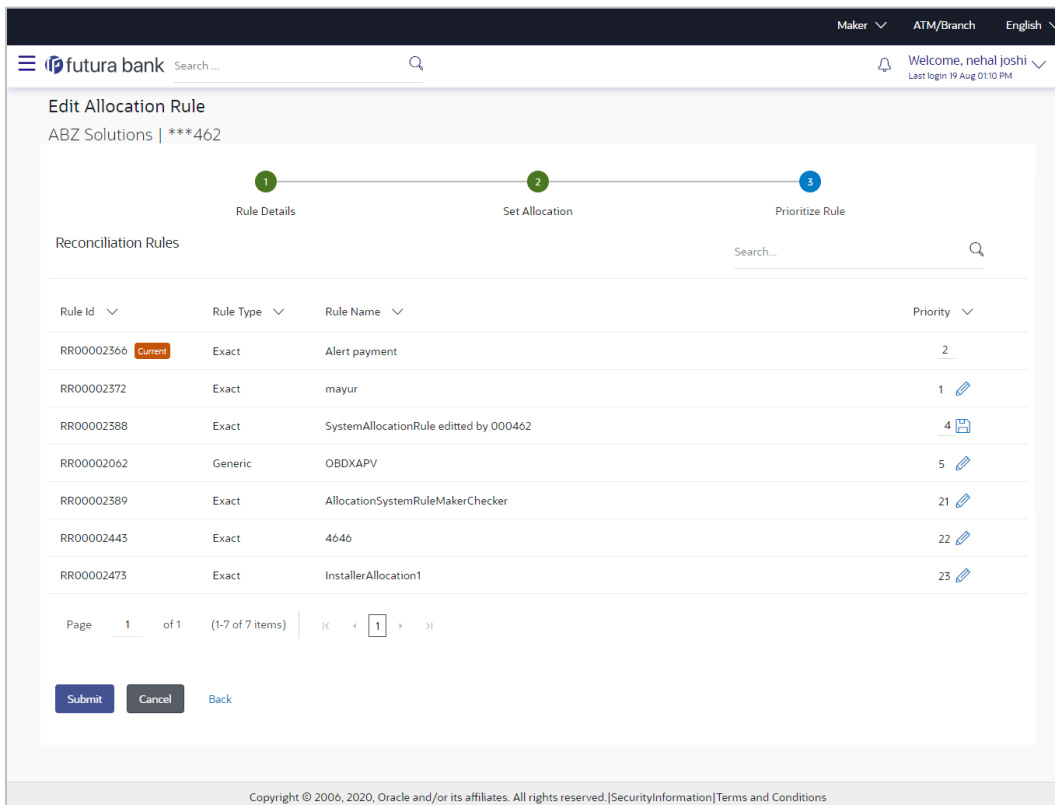

Field Description

Field Name	Description
Edit Allocation Rule	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Set Allocation	
In this step, you can modify the percentages that have been allocated either to specific virtual accounts, or towards specific payment attributes. You must ensure that the sum of the allocated percentages should be 100. This section is fully editable.	
Allocation Basis	Select whether allocation should be virtual accounts-based or attributes-based.
Account Based Allocation	
This section appears if you select the Account Based option in the Allocation Basis field.	
Serial Number	Displays the serial number of the allocation account.
Allocation Account	Select a virtual account to assign an allocation percentage.
Percentage	Enter the percentage of payment to be allocated to the virtual account.
Action	Click  to add further virtual accounts. Or click  to delete an added account.

Field Name	Description
Attribute Based Allocation	
This section appears if you select the Attribute Based option in the Allocation Basis field. This option can be used to allocate specific percentages of the payment towards specific payment attributes (such as credit account number, remitter account number, payment party ID, and so on), which are mapped to specific virtual accounts.	
Serial Number	Displays the serial number of the attribute.
Allocation Entity	Displays 'Payment' by default.
Allocation Attributes	Select the attribute for which the allocation percentage should be set.
Percentage	Select the percentage of payment to be allocated to the attribute.
Action	Click  to add further attributes. Or click  to delete an added attribute.

- Once the allocation details are set, click **Continue** to go to the **Prioritize Rule** step.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to go to the previous screen.

12.5 Manual Reconciliation

Payments and credit notes can be manually reconciled with invoices, debit notes, and cash-flows.

Pre-requisites:

User must have valid corporate login credentials to perform manual reconciliation.

12.5.1 Invoices/Debit Notes against Payments/Credit Notes

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Reconciliation > Manual Reconciliation > Receivables/Payables against Payment/Credit Note

To manually reconcile invoices or debit notes against payments or credit notes:

The screenshot displays the 'Manual Reconciliation' page for 'ABZ Solutions | ***462'. It features a navigation bar at the top with 'futura bank' and user information. The main content area includes a 'Reconciliation Type' section with radio buttons for 'Single Invoice/Debit Note to Multiple Payments/Credit Notes' (selected) and 'Single Payment/Credit Note to Multiple Invoices/Debit Notes'. Below this is a table of 'Invoices/Debit Notes (375)'. The table has columns for 'Date', 'Reference Number', 'Associated Party', 'Due Date', 'Amount', and 'Unreconciled Amount'. The first five rows of data are as follows:

Date	Reference Number	Associated Party	Due Date	Amount	Unreconciled Amount
16 Jan 2020	RaiseInvOct211	NehNovCust1	30 Oct 2030	GBP15,000.00	GBP14,210.00
16 Jan 2020	InvEditOct215	NehNovCust1	27 Oct 2030	GBP14,000.00	GBP10,084.00
16 Jan 2020	DN230922	NehNovCust1	30 Sep 2021	GBP24,000.00	GBP23,878.00
16 Jan 2020	CancelInvOct21	NehNovCust1	30 Oct 2030	GBP130,000.00	GBP129,210.00
16 Jan 2020	DoubleInvoiceUSDDEBIT01	NehNovCust1	30 Jan 2020	USD236,815.00	USD235,895.00

At the bottom of the table, there is a pagination control showing 'Page 1 of 75 (1-5 of 375 items)'. Below the table are 'Continue', 'Cancel', and 'Back' buttons. On the right side, there is a 'Reconciliation Details' sidebar with sections for 'Invoice/Debit Note to be reconciled' (0), 'Reconciled Amount' (0), and 'Pending for Reconciliation' (0). A 'View Selected Records' link is also present. The footer contains copyright information: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. [SecurityInformation] Terms and Conditions'.

Field Description

Field Name	Description
Manual Reconciliation	
Party Name & ID	Displays the name and ID of the logged-in corporate party.

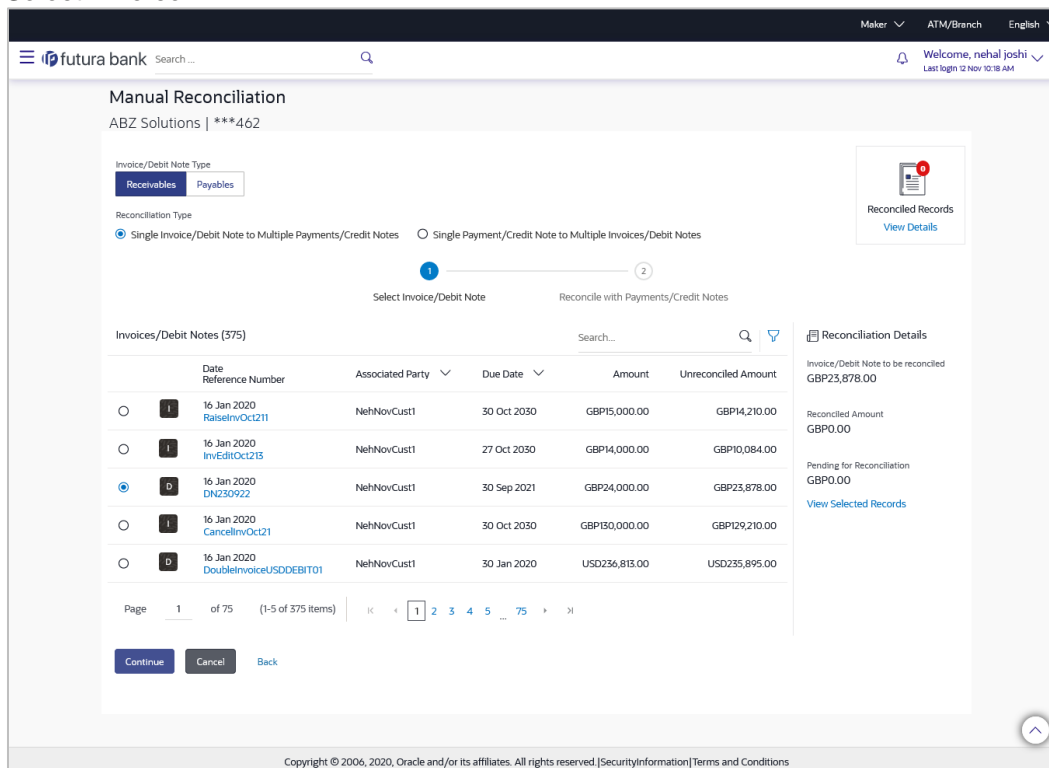

Field Name	Description
Invoice/Debit Note Type	<p>Select either the Receivables option or the Payables option, based on the corporate customer's role.</p> <ul style="list-style-type: none"> • If the corporate is a supplier, then select the Receivables option. • If the corporate is a buyer, then select the Payables option.
Reconciliation Type	<p>Select the type of reconciliation to be performed. The reconciliation procedure steps are populated based on the option you select. The options are:</p> <ul style="list-style-type: none"> • Single Invoice/Debit Note to Multiple Payments/Credit Notes: If you select this option, the application lets you select the required invoice or debit note in the 1st step, and the payments and/or credit notes in the 2nd step. For more information, refer the Single Invoice/Debit Note to Multiple Payments/Credit Notes section in this user manual. • Single Payment/Credit Note to Multiple Invoices/Debit Notes: If you select this option, the application lets you select the required payment or credit note in the 1st step, and the invoices and/or debit notes in the 2nd step. For more details, refer the Single Payment/Credit Note to Multiple Invoices/Debit Notes section in this user manual.

1. In the **Manual Reconciliation** screen, select the appropriate option from the **Invoice/Debit Note Type** field.
2. From the **Reconciliation Type** field, select either the **Single Invoice/Debit Note to Multiple Payments/Credit Notes** option or the **Single Payment/Credit Note to Multiple Invoices/Debit Notes** option.

12.5.1.1 Single Invoice/Debit Note to Multiple Payments/Credit Notes

If you select this option, then a list of invoices and debit notes appears. These invoices and debit notes are unreconciled or partially reconciled. You can select an invoice or a debit note and one or more payments/credit notes to reconcile with. Upon selection, you can save these details, and add another record to be reconciled in the same transaction.

Select Invoice

Field Description

Field Name	Description
------------	-------------

Select Invoice/Debit Note

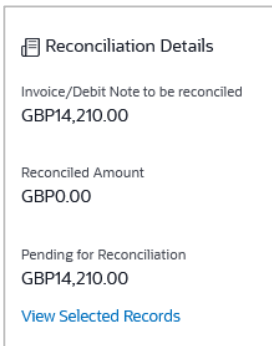

This step appears if you select the **Single Invoice/Debit Note to Multiple Payments/Credit Notes** option from the **Reconciliation Type** field. A list of unreconciled / partially-reconciled invoices and debit notes is displayed. You can select either an invoice or a debit note from the list.

Invoices/Debit Notes (number)	Displays the total number of invoices and debit notes available in the list.
--------------------------------------	--

Search	Indicates an option to search for specific invoices/debit notes.
---------------	--

Click this icon to filter the invoices/debit notes based on certain criteria. The **Invoice/Debit Note Search** overlay window appears. For more information on the fields in this window, refer the [Invoice/Debit Note Search](#) section in this document.

Field Name	Description
The following fields are present in the invoices/debit notes grid.	
Selector	Indicates the option to select the invoice/debit note.
Indicator	Displays 'I' for invoice and 'D' for debit note.
Date Reference Number	Displays the date of the invoice/debit note and its reference number as a hyperlink. You can click this link to view the invoice/debit note details in an overlay window. The fields displayed in the overlay window are the same as those present in the View Invoice Details screen / View Debit Note Details screen in this document.
Associated Party	Displays the name of the associated or counter party.
Due Date	Displays the due date of the invoice/debit note.
Amount	Displays the total invoice/debit note amount.
Unreconciled Amount	Displays the unreconciled invoice/debit note amount.
Reconciliation Details section	
This section, present on the right hand side of the Manual Reconciliation screen, is automatically updated when you select the invoice/debit note and payments/credit notes for reconciliation.	
	
Invoice/Debit Note to be reconciled	Displays the invoice/debit note amount to be reconciled, once you select an invoice/debit note in the 1 st step of manual reconciliation.
Reconciled Amount	Displays the total payments/credit notes amount. This field is updated once you select the payments and/or credit notes in the 2 nd step of manual reconciliation.
Pending for Reconciliation	Displays the difference between the amounts in the fields above.
View Selected Records	Click this link to view the details of the selected invoice/debit note and payments and/or credit notes. An overlay window appears with the details of the selected records.

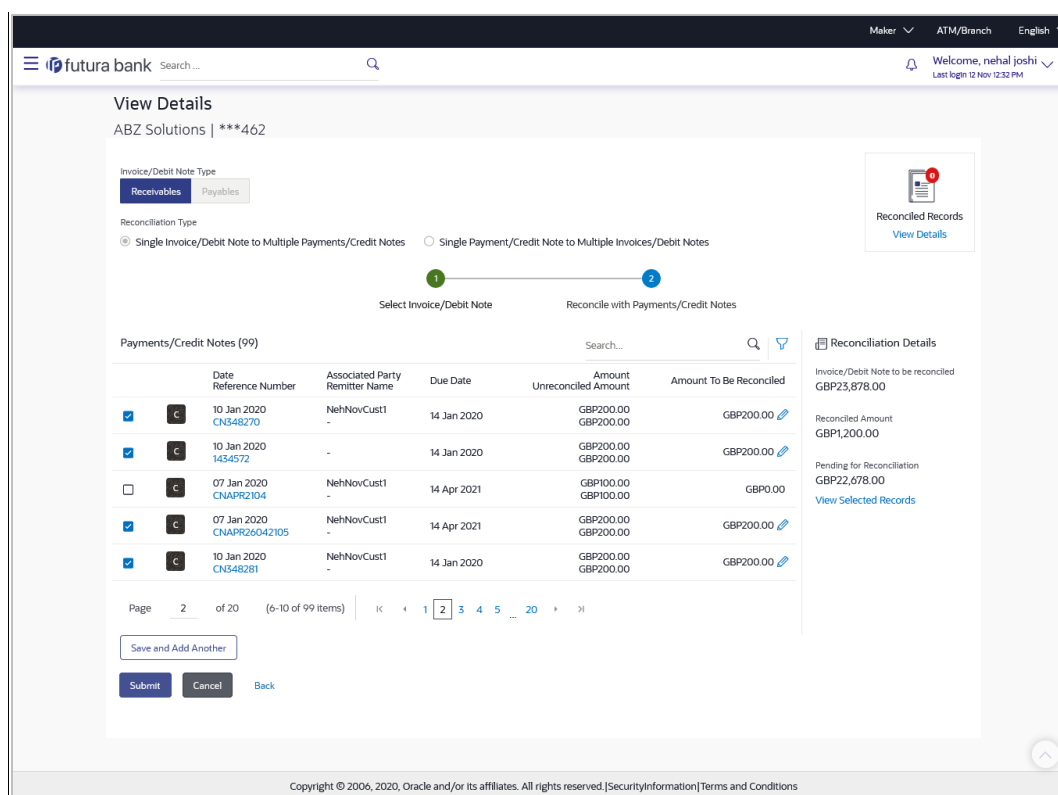

Field Name **Description**

Reconciled Records

This section (present on the top right side of the Manual Reconciliation screen) displays the number of records that you have saved for reconciliation by clicking **Save and Add Another**. You can click the **View Details** link to view the details of these saved records, which appear in an overlay window. To remove a saved record, click  beside it.

3. If you select the **Single Invoice/Debit Note to Multiple Payments/Credit Notes** option, then in the **Select Invoice/Debit Note** step, select the required invoice or debit note to reconcile. You can use the **Search** field and filter options to find the required record.
4. Click **Continue** to proceed to the **Reconcile with Payments/Credit Notes** step.
 OR
 Click **Cancel** to cancel the transaction.
 OR
 Click **Back** to go to the dashboard.

Reconcile with Payments/Credit Notes

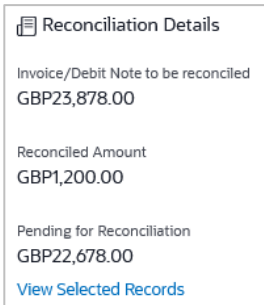

The screenshot displays the 'View Details' interface for reconciliation. At the top, it shows 'ABZ Solutions | ***462'. Below this, there are tabs for 'Receivables' and 'Payables', with 'Receivables' selected. The 'Reconciliation Type' section has two radio buttons: 'Single Invoice/Debit Note to Multiple Payments/Credit Notes' (selected) and 'Single Payment/Credit Note to Multiple Invoices/Debit Notes'. A progress bar shows two steps: 'Select Invoice/Debit Note' (completed) and 'Reconcile with Payments/Credit Notes' (current). Below the progress bar is a table of 'Payments/Credit Notes (99)'. The table has columns for 'Date Reference Number', 'Associated Party Remitter Name', 'Due Date', 'Amount Unreconciled Amount', and 'Amount To Be Reconciled'. The table contains five rows of data, with the first four rows having checkboxes in the left margin. At the bottom of the table, there is a pagination control showing 'Page 2 of 20 (6-10 of 99 items)'. Below the table are buttons for 'Save and Add Another', 'Submit', 'Cancel', and 'Back'. On the right side, there is a sidebar with 'Reconciled Records' (View Details) and 'Reconciliation Details' (Invoice/Debit Note to be reconciled: GBP23,878.00; Reconciled Amount: GBP1,200.00; Pending for Reconciliation: GBP22,678.00; View Selected Records).

Field Description

Field Name	Description
Reconcile with Payments/Credit Notes	
This step appears when you select an invoice/debit note and click Continue . You can select multiple payments/credit notes for reconciliation.	
Payments/Credit Notes (number)	Displays the total number of payment and credit note records available in the list.
Search	Indicates an option to search for specific payments/credit notes.
	Click this icon to filter the payments and credit notes based on certain criteria. The Payments/Credit Notes Search overlay window appears. For more information on the fields in this window, refer the Payments/Credit Notes Search section in this document.
The following fields are present in the payments/credit notes grid.	
Check box	Indicates the option to select the payment/credit note record.
Indicator	Displays 'P' for payment and 'C' for credit note.
Date Reference Number	Displays the date of the payment/credit note and its reference number as a hyperlink. You can click this link to view the payment/credit note details in an overlay window. The fields displayed in the overlay window are the same as those present in the View Payment (details) screen / View Credit Note Details screen in this document.
Associated Party Remitter Name	Displays the name of the associated party and the remitter.
Due Date	Displays the expiry date in case of a credit note record. For a payment record, this field is blank.
Amount Unreconciled Amount	Displays the total payment/credit note amount and the unreconciled amount.
Amount To Be Reconciled	Indicates the payment/credit note amount that is yet to be reconciled. Once you select a payment/credit note record, you can edit and modify the amount to be reconciled, if required.
<hr/> <p>Note: To edit this field:</p> <ol style="list-style-type: none"> 1) Select the required payment/credit note record. 2) Click  and modify the amount. 3) Click  to save the amount. <hr/>	

Field Name	Description
Reconciliation Details section	
This section, present on the right hand side of the Manual Reconciliation screen, is automatically updated when you select the invoice/debit note and payments/credit notes for reconciliation.	
	
Invoice/Debit Note to be reconciled	Displays the invoice/debit note amount to be reconciled, once you select an invoice/debit note in the 1 st step of manual reconciliation.
Reconciled Amount	Displays the total payments/credit notes amount. This field is updated once you select the payments and/or credit notes in the 2 nd step of manual reconciliation.
Pending for Reconciliation	Displays the difference between the amounts in the fields above.
View Selected Records	Click this link to view the details of the selected invoice/debit note and payments and/or credit notes. An overlay window appears with the details of the selected records.

5. In the **Reconcile with Payments/Credit Notes** step, select the required payments and/or credit notes to reconcile with.
6. In the **Amount To Be Reconciled** field, click  to edit the amount and then click  to save the changes, if required.
7. Click **Save and Add Another** to save the details and select another invoice/debit note to reconcile against payments/credit notes.
 - To view a list of records that you have already saved, click the **View Details** link in the **Reconciled Records** section, on the top right side of the Manual Reconciliation screen. An overlay window appears with the saved records. To delete a record, click .
8. Click **Submit** to submit the transaction. The Review screen appears.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to go to the previous screen.

9. In the Review screen, verify the selected details and click **Confirm**. A confirmation message appears, with the status and reference number of the transaction.
 OR
 Click **Cancel** to cancel the transaction.
 OR
 Click **Back** to go to the previous screen.

Once the transaction is submitted, the approver is notified. If any modifications are required, the approver can add relevant comments and send the transaction back to the maker, using the **Send to Modify** feature. Once the required modifications are made, the maker can re-submit the transaction.

12.5.1.2 Single Payment/Credit Note to Multiple Invoices/Debit Notes

If you select this option, then a list of unreconciled and partially-reconciled payments and credit notes appears. You can select a payment or a credit note and one or more invoices/debit notes to reconcile. Upon selection, you can save these details, and add another record to be reconciled in the same transaction.

Associated Party	Select the name of the associated party whose payments/credit notes are to be filtered.
Credit Note Amount Range Currency From/To	Select the currency and enter the credit note amount range to filter the required records.
On selecting/entering the required details, click Apply to apply the filter criteria, or, click Reset to reset the entered data.	

12.5.2 Cash Flow against Payment

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Reconciliation > Manual Reconciliation > Cash Flow against Payment

To manually reconcile cash flow against payment:

The screenshot displays the 'Manual Reconciliation' page for 'ABZ Solutions | ***462'. It features a 'Cash Flow Type' selector set to 'Inflow' and a 'Reconciliation Type' selector set to 'Single Cash Flow Multiple Payments'. A progress indicator shows two steps: 'Select Cash Flow' (active) and 'Reconcile with Payments'. Below this is a table of 114 cash flows, with the first five rows visible. The table has columns for Date Reference Number, Real Account Virtual Account, Counter Party Name, Amount, and Unreconciled Amount. The entries are for TAT MOTORS with amounts in GBP and USD. A 'Reconciliation Details' sidebar on the right shows 'Cash Flow to be reconciled' as 0, 'Reconciled Amount' as 0, and 'Pending for Reconciliation' as 0. At the bottom, there are 'Continue', 'Cancel', and 'Back' buttons.

Date Reference Number	Real Account Virtual Account	Counter Party Name	Amount	Unreconciled Amount
23 Nov 2021 4230175193	xxxxxxxxxxxx0024	TAT MOTORS	GBP444.00	GBP444.00
16 Nov 2021 4230175193	xxxxxxxxxxxx0024	TAT MOTORS	GBP444.00	GBP444.00
12 Nov 2021 4027489827	xxxxxxxxxxxx0024	TAT MOTORS	USD111.00	USD111.00
12 Nov 2021 7149146890	xxxxxxxxxxxx0024	TAT MOTORS	GBP333.00	GBP333.00
11 Nov 2021 4027489827	xxxxxxxxxxxx0024	TAT MOTORS	USD111.00	USD111.00

Field Description

Field Name	Description
Manual Reconciliation	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Cash Flow Type	Select the type of the cash flow, whether inflow or outflow.

Field Name	Description
Reconciliation Type	<p>Select the type of reconciliation to be performed. The reconciliation procedure steps are populated based on the option you select. The options are:</p> <ul style="list-style-type: none"> • Single Cash Flow Multiple Payments: If you select this option, the application lets you select the required cash flow in the 1st step, and reconcile with payments in the 2nd step. For more information, refer the Single Cash Flow Multiple Payments section in this user manual. • Single Payment Multiple Cash Flows: If you select this option, the application lets you select the required payment in the 1st step, and reconcile with cash flows in the 2nd step. For more details, refer the Single Payment Multiple Cash Flows section in this user manual.

1. In the **Manual Reconciliation** screen, select the appropriate option from the **Cash Flow Type** field.
2. From the **Reconciliation Type** field, select either the **Single Cash Flow Multiple Payments** option or the **Single Payment Multiple Cash Flows** option.

12.5.2.1 Single Cash Flow Multiple Payments

If you select this option, then a list of cash flow records appears. These cash flow records are unreconciled or partially reconciled. You can select a cash flow record and one or more payments to reconcile. Upon selection, you can save these details, and add another cash flow-payments record to be reconciled in the same transaction.

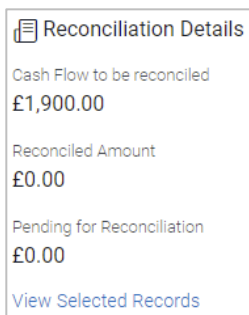

Select Cash Flow

The screenshot shows the 'Manual Reconciliation' interface for 'ABZ Solutions | ***462'. The 'Cash Flow Type' is set to 'Inflow' and the 'Reconciliation Type' is 'Single Cash Flow Multiple Payments'. A progress indicator shows step 1 of 2: 'Select Cash Flow'. A table of cash flows is shown with the following data:

Date	Reference Number	Real Account	Virtual Account	Counter Party Name	Amount	Unreconciled Amount
11 Aug 2020	00000001302	-	-	-	£100.00	£100.00
08 Sep 2020	00000000847	-	-	-	\$605,040.00	\$605,040.00
25 Aug 2020	00000001354	xxxxxxxxxxxx0035	-	-	€2,800.00	€2,800.00
27 Aug 2020	00000001359	-	xxxxxxxxxxxx0024	-	£1,900.00	£1,900.00
26 Aug 2020	00000001360	xxxxxxxxxxxx0013	-	-	£1,900.00	£1,900.00

The 'Reconciliation Details' sidebar on the right indicates: 'Cash Flow to be reconciled £1,900.00', 'Reconciled Amount £0.00', and 'Pending for Reconciliation £0.00'. The interface includes a search bar, pagination (Page 3 of 77), and navigation buttons (Continue, Cancel, Back, Skip).

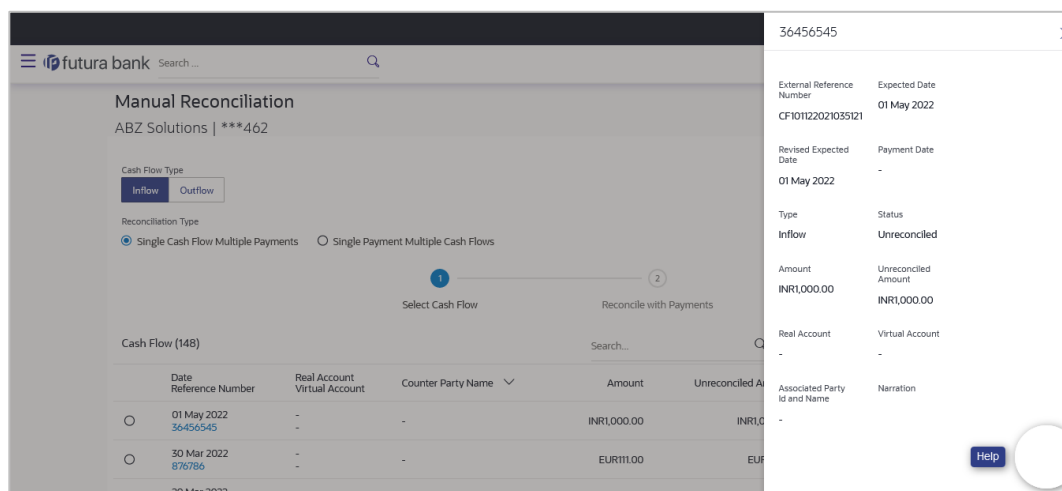

Field Description

Field Name	Description
Select Cash Flow	
This step appears if you select the Single Cash Flow Multiple Payments option from the Reconciliation Type field. A list of unreconciled / partially-reconciled cash flow records is displayed. You can select one cash flow record from the list.	
Cash Flow (number)	Displays the total number of cash flow records available in the list.
Search	Indicates an option to search for specific cash flow records.
	Click this icon to filter the cash flow records based on certain criteria. The Cash Flow Search overlay window appears. For more information on the fields in this window, refer the Cash Flow Search section in this document.

Field Description

Field Name	Description
------------	-------------

Select Payment

This step appears if you select the **Single Payment Multiple Cash Flows** option from the **Reconciliation Type** field. A list of unreconciled / partially-reconciled payments is displayed. You can select one payment from the list.

Payments (number) Displays the total number of payments available in the list.

Search Indicates an option to search for specific payments.

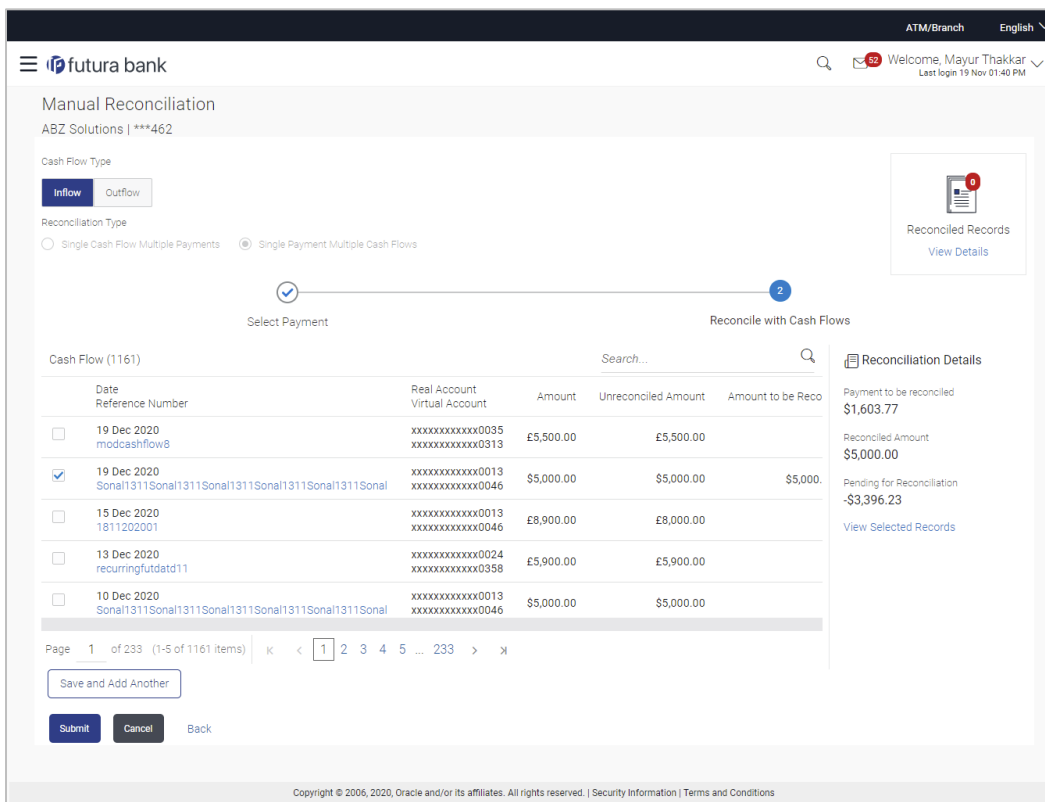

Click this icon to filter the payments based on certain criteria. The **Payment Search** overlay window appears. For more information on the fields in this window, refer the [Payment Search](#) section in this document.

Field Name	Description
Date Reference Number	Displays the date of the payment and its reference number as a hyperlink. You can click this link to view the payment details in an overlay window. For more information on the fields displayed, refer the Payment Details overlay window section below.
Real Account Virtual Account	Displays the real and virtual account numbers (in masked format), from which the payment was initiated.
Remitter Account Number / Beneficiary Account Number	Displays the default account number of the remitter / beneficiary, based on whether the payment is incoming or outgoing
Amount	Displays the total payment amount.
Unreconciled Amount	Displays the payment amount that has not yet been reconciled.
Reconciliation Details section	
This section, present on the right hand side of the Manual Reconciliation screen, is automatically updated when you select the payment and cash flow records for reconciliation.	
	
Payment to be reconciled	Displays the payment amount to be reconciled, once you select a payment in the 1 st step of manual reconciliation.
Reconciled Amount	Displays the total cash flow amount. This field is updated once you select the cash flow records in the 2 nd step of manual reconciliation.
Pending for Reconciliation	Displays the difference between the amounts in the fields above.
View Selected Records	Click this link to view the details of the selected payment and cash flow records. An overlay window appears with the details of the selected records.
Payment Details overlay window	
This window appears when you click the payment reference number hyperlink.	
Payment Reference Number	Displays the payment reference number assigned by the host.
External Reference Number	Displays the external payment reference number.

Field Name	Description
Payment Date	Displays the date of the payment.
Type	Displays the type of payment, whether incoming or outgoing.
Status	Displays the status of the payment.
Remitter Account Number / Beneficiary Account Number	Displays the remitter account number in case of an incoming payment, and beneficiary account number in case of an outgoing payment.
Amount	Displays the payment amount.
Unreconciled Amount	Displays the amount that is not yet reconciled.
Real Account	Displays the real account number involved in the payment.
Virtual Account	Displays the virtual account number involved in the payment.
Remark	Displays remarks, if any.

10. If you select the **Single Payment Multiple Cash Flows** option, then in the **Select Payment** step, select the required payment to reconcile.
11. Click **Continue** to proceed to the **Reconcile with Cash Flows** step.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to go back to selecting the **Reconciliation Type**.
OR
Click **Skip** to skip this step and move to the next.

Reconcile with Cash Flows

Field Description

Field Name	Description
------------	-------------

Reconcile with Cash Flows

This step appears when you select a payment and click **Continue**. You can select multiple cash flow records for reconciliation.

Cash Flow (number) Displays the total number of cash flow records available in the list.

Search Indicates an option to search for specific cash flow records.

Click this icon to filter the cash flow records based on certain criteria. The **Cash Flow Search** overlay window appears. For more information on the fields in this window, refer the [Cash Flow Search](#) section in this document.

Date Reference Number Displays the date of the cash flow and its reference number as a hyperlink. You can click this link to view the cash flow details in an overlay window. For more information on the fields displayed, refer the [Cash Flow Details overlay window](#) section below.

Associated Party Name Displays the name of the associated or counter party.

Field Name	Description
Amount	Displays the total cash flow amount.
Unreconciled Amount	Displays the unreconciled cash flow amount.
Amount to be Reconciled	Indicates the cash flow amount to be reconciled. You can click  to edit and modify the amount if required, and then click  to save it.

Reconciliation Details section

This section, present on the right hand side of the Manual Reconciliation screen, is automatically updated when you select the payment and cash flow records for reconciliation.

Reconciliation Details	
Payment to be reconciled	\$1,603.77
Reconciled Amount	\$5,000.00
Pending for Reconciliation	-\$3,396.23
View Selected Records	

Payment to be reconciled	Displays the payment amount to be reconciled, once you select a payment in the 1 st step of manual reconciliation.
Reconciled Amount	Displays the total cash flow amount. This field is updated once you select the cash flow records in the 2 nd step of manual reconciliation.
Pending for Reconciliation	Displays the difference between the amounts in the fields above.
View Selected Records	Click this link to view the details of the selected payment and cash flow records. An overlay window appears with the details of the selected records.

Selected Record

This overlay window appears when you click the **View Selected Records** link. It displays the details of the selected payment and cash flow records to be reconciled.

Reconciled Records

This section (present on the top right side of the Manual Reconciliation screen) displays the number of records that you have saved for reconciliation by clicking **Save and Add Another**. You can click the **View Details** link to view the details of these saved payment-cash flows records, which appear in an overlay window. To remove a saved record, click  beside it.

Cash Flow Details overlay window

This window appears when you click the cash flow reference number hyperlink.

Field Name	Description
Cash Flow Reference Number	Displays the cash flow reference number assigned by the host.
External Reference Number	Displays the external cash flow reference number.
Payment Date	Displays the date of the payment.
Type	Displays the type of cash flow, whether inflow or outflow.
Status	Displays the status of the cash flow.
Amount	Displays the cash flow amount.
Unreconciled Amount	Displays the amount that is not yet reconciled.
Real Account	Displays the real account number involved in the cash flow.
Virtual Account	Displays the virtual account number involved in the cash flow.
Associated Party ID and Name	Displays the name and ID of the counter party involved in the cash flow.
Linked Reference Number	Displays the linked reference number of the cash flow.
Narration	Displays any narration text/comments.

12. In the **Reconcile with Cash Flows** step, select the required cash flow records to reconcile.

13. In the **Amount To Be Reconciled** field, click  to edit the amount and then click  to save the changes, if required.

14. Click **Save and Add Another** to save the details and select another payment to reconcile against cash flow records.

- To view a list of records that you have already saved, click the **View Details** link in the **Reconciled Records** section, on the top right side of the Manual Reconciliation screen. An overlay window appears with the saved payment-cash flows records. To delete a record, click .

15. Click **Submit** to submit the transaction. The Review screen appears.

OR

Click **Cancel** to cancel the transaction.

OR

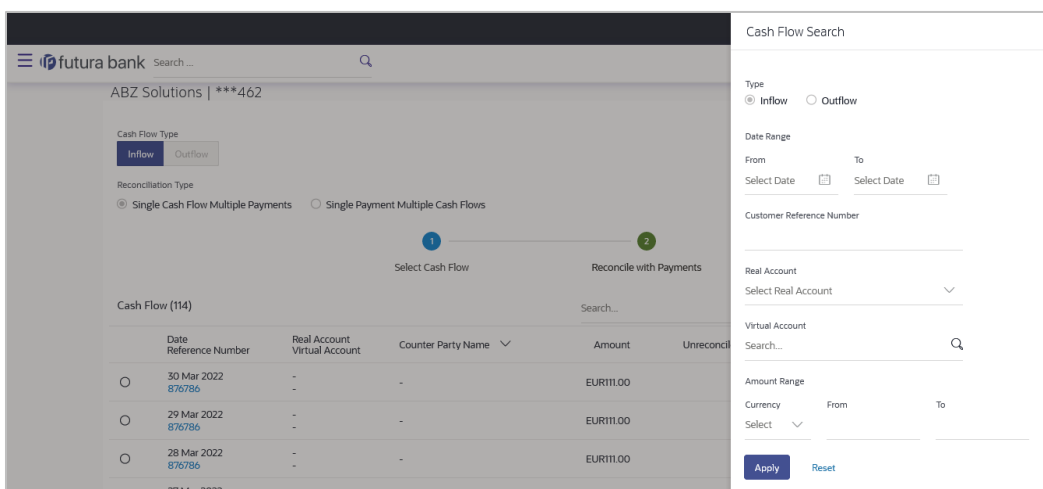

Click **Back** to go to the previous screen.

16. In the Review screen, verify the selected details and click **Confirm**. A confirmation message appears, with the status and reference number of the transaction.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to go to the previous screen.

Once the transaction is submitted, the approver is notified. If any modifications are required, the approver can add relevant comments and send the transaction back to the maker, using the **Send to Modify** feature. Once the required modifications are made, the maker can re-submit the transaction.

Cash Flow Search (overlay window)

---------------------------------	--

Real Account	Enter the real account number associated with the payment records to be filtered.
---------------------	---

Virtual Account	Enter the virtual account number associated with the payment records to be filtered.
------------------------	--

Field Name	Description
Amount Range Currency From/To	Select the currency and enter the payment amount range to filter the required payment records.

On selecting/entering the required details, click **Apply** to apply the filter criteria, or, click **Reset** to reset the entered data.

12.6 Manual Allocation

Using this screen, the corporate user can manually allocate payments to the required virtual accounts. The manual allocation transaction can be used by corporates to manually allocate payments to accounts, in cases where the execution of the allocation rule has failed or for payments that do not have rules set.

The screen, by default, displays all the matched or partially matched and unallocated or partially allocated payments for manual allocation.

The user can select a single payment and allocate it to a single or multiple virtual accounts and set the corresponding percentage(s) of allocation. The total percentage should always be 100.

Allocation of virtual account can also be based on payment attributes. Payments attributes are listed. The user can select a single or multiple attributes. The values of these attributes are used to make a call to the Virtual Accounts Management system, which in response, returns the associated virtual account. That virtual account is mapped to the payment. Multiple accounts can be mapped by setting the percentage for each. The total percentage should always be 100.

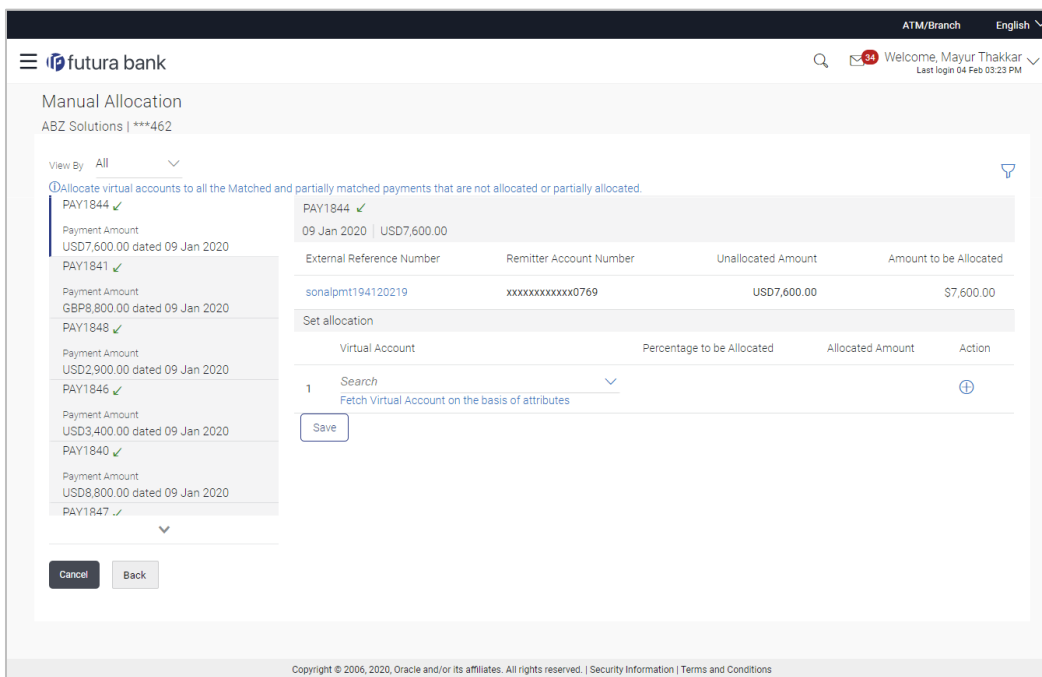

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Reconciliation > Manual Allocation

To perform manual allocation:

1. In the **Manual Allocation** screen, use the **View By** list and/or the filter options to get a list of required payment records.

Manual Allocation

Field Description

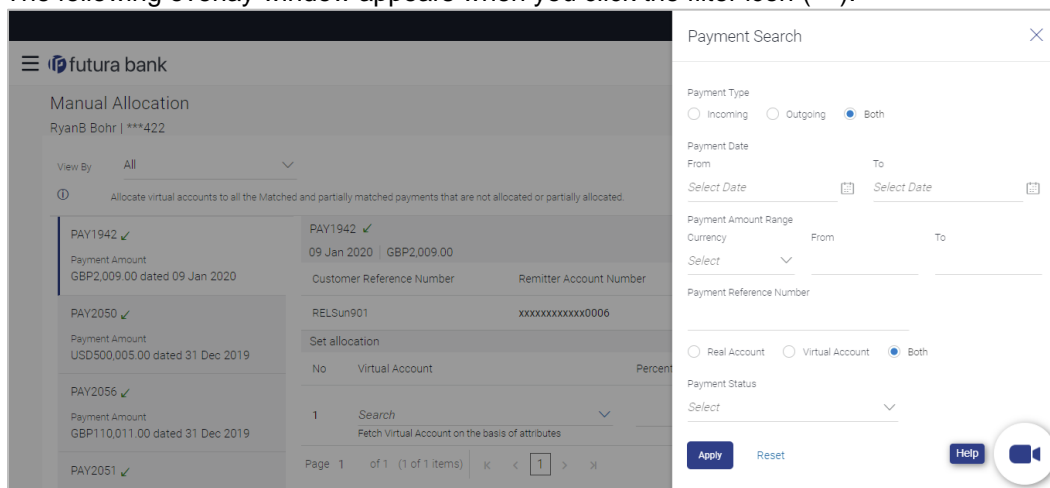

Field Name	Description
Manual Allocation	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
View By	Indicates an option to view the payment records based on the following criteria: <ul style="list-style-type: none"> • Saved for Allocation • Incoming Payments • Outgoing Payments
	Indicates an option to filter the payment records based on selected parameters. Refer the Payments Search overlay window section below, for more details.
Payments Panel	In the Manual Allocation screen, the panel on the left hand side displays a list of matched and partially matched payments that have not been allocated or are partially allocated. You can use the View By field and the filter option to narrow down this list.
Payment Reference Number	Displays the unique reference number of the payment. The  (incoming) or  (outgoing) indicator is also displayed.
Payment Amount	Displays the currency and amount of the payment.
Payment Date	Displays the date on which the payment occurred.

Field Name	Description
Selected Payment	By default, the first payment in the payments panel appears selected. You can select a different record for allocation, as required. The details of the selected payment record are displayed in the main section, with the following fields:
Payment Reference Number	Displays the unique reference number of the payment. The  (incoming) or  (outgoing) indicator is also displayed.
Payment Date	Displays the date on which the payment occurred.
Payment Amount	Displays the currency and amount of the payment.
External Reference Number	Displays the reference number of the payment assigned by the corporate party. This is a hyperlink which when clicked displays the details of the payment. For more information on the payment details, refer the View Payments (details) section in this document.
Remitter Account Number	Displays the account number from which the payment originated.
Unallocated Amount	Displays the amount that is yet to be allocated.
Amount to be Allocated	Enter the payment amount to be allocated in the current transaction. By default, the value in the Unallocated Amount field is displayed.
Set allocation	You can search and set the virtual accounts and their allocation percentages in this section. The sum of percentages of all added accounts should be 100.
Virtual Account	Set the virtual account to which the payment should be allocated. Click the Fetch Virtual Account on the basis of attributes link to search and find the required virtual account. The Set Virtual Account Attributes pop-up window appears. For more information on the fields in this window, refer the Set Virtual Account Attributes section below.
Percentage to be Allocated	Enter the percentage of the payment to be allocated to the selected virtual account. If you enter a percentage in this field, the Allocated Amount field gets updated automatically. Note: The total percentage allocated to all virtual accounts should be less than or equal to 100.
Allocated Amount	Enter the amount to be allocated to the selected virtual account. If you enter an amount in this field, the Percentage to be Allocated field gets updated automatically. Note: The total amount allocated to all the virtual accounts should be less than or equal to the Amount to be Allocated amount.

Field Name	Description
Action	Click  to add further virtual accounts. Or click  to delete an added account.

Payment Search overlay window

The following overlay window appears when you click the filter icon ()

Field Description

Field Name	Description
Payment Search	This overlay window appears when you click  . The following fields are available for filtering.
Payment Type	Indicates an option to filter the payment records based on payment type. The options available are: <ul style="list-style-type: none"> • Incoming • Outgoing • Both

12.7 De-Reconciliation

Payments that have been reconciled against invoices or cash flows can be de-reconciled. One or more records can be de-reconciled in a single transaction.

Pre-requisites

User must have valid corporate login credentials.

12.7.1 Invoice - Payment

How to reach here:

Dashboard > Toggle menu > Receivables/Payables > Reconciliation > De-Reconciliation > Invoice - Payment

To de-reconcile invoice and payment:

The screenshot displays the 'De-reconciliation' page for 'ABZ Solutions | ***462'. It features a navigation bar with 'futura bank' and user information 'Welcome, Mayur Thakkar'. The main content area is divided into a left sidebar and a main table. The sidebar shows a list of invoices with their reconciled amounts and addresses. The main table has two sections: 'Invoice' and 'Payments (2)'. The 'Invoice' section shows a single entry for 'ReconInv80' with a reconciled amount of £8,299.99. The 'Payments (2)' section shows two entries: 'PAY0731' with a reconciled amount of \$1,503.77 and 'PAY1235' with a reconciled amount of £6,796.23. At the bottom, there are 'Save' and 'Undo' buttons.

Customer Reference Number	Invoice Due Date	Amount	Reconciled Amount	Amount to be De-reconciled
ReconInv80	31 Dec 2020	£8,300.00	£8,299.99	£8,299.99

Reference Number	Reconciliation Date	Amount	Reconciled Amount	Amount to be De-reconciled in Invoice Currency
PAY0731	06 Nov 2019	\$1,000.00	\$1,503.77	£1,503.77 (Equivalent to \$1,503.77)
PAY1235	06 Nov 2019	£30,000.00	£6,796.23	£6,796.23
