# 1. Preface

## 1.1 Intended Audience

This document is intended for the following audience:

- Customers
- Partners

## 1.2 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

## 1.3 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

## 1.4 Structure

This manual is organized into the following categories:

*Preface* gives information on the intended audience. It also describes the overall structure of the User Manual.

*Introduction* provides brief information on the overall functionality covered in the User Manual.

The subsequent chapters provide information on transactions covered in the User Manual.

Each transaction is explained in the following manner:

- Introduction to the transaction
- Screenshots of the transaction
- The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.
- Procedure containing steps to complete the transaction- The mandatory and conditional fields of the transaction are explained in the procedure. If a transaction contains multiple procedures, each procedure is explained. If some functionality is present in many transactions, this functionality is explained separately.

## 3. Term Deposits Application

A term deposit is a fixed term investment held at a bank or a financial institute. It involves the investment of an amount at an agreed rate of interest for a fixed amount of time.

The Term Deposit application has been built so as to capture the information that is essential to open a term deposit for the applicant. Additionally, the applicant is also required to provide basic personal, employment and financial information required for the processing of the term deposit application.

The application form is OCR (Optical Character Recognition) enabled so as to save the prospect applicant's time and effort in filling out the application form. The personal information section gets prefilled with information fetched through OCR based on the document uploaded in the Upload Documents section. If the Nominee Information section is enabled for the term deposit product category, this feature is also enabled to prefill nominee information by fetching information from the nominee's ID proof document.

Online KYC of the prospect can also be conducted by means of liveness check or through integration with third party identity verification service providers.

Liveness check can be available in two forms – assisted and unassisted.

If online KYC through assisted mode of liveness check is enabled for the product application, the applicant will be provided with the option to initiate a video call with a bank executive. The applicant will be required to first upload images of the identification document he/she wishes to submit for online KYC. The bank executive in turn, will verify, by means of the video call, that the photograph as per the ID provided is truly that of the applicant's.

If online KYC through unassisted mode of liveness check is enabled for the product application, the applicant will be prompted to first upload images of an identity proof document, after which, the system will automatically click a picture (selfie) of the applicant. The third party identity verification system will verify whether the selfie matches the photograph on the ID proof document, and will then issue a success/failure response as the case may be.

If online KYC through ID verification is enabled, the prospect will be required to define his/her Identification number along with other basic personal information such as name and date of birth so as to enable the bank to conduct online KYC of the applicant.

In all cases, once the applicant's identity is verified successfully, he/she will be able to proceed with the application form. The personal information section will also be prefilled with information as fetched on the basis of the identification provided.

Existing digital banking customers will be navigated to the **New Term Deposit** screen once they have specified their login credentials after having selected the **Login as a registered user** option provided on the Kickoff page.

Additional features that have been built into the application are enabling google map integration for capture of addresses, QR code scan enablement to continue applications on mobile devices, etc.

The application tracker has been built so as to enable tracking of the application once it has been submitted. The application tracker also enables the applicant to retrieve and complete an application that has been saved. Additionally, the applicant can view documents that have been uploaded as part of the application form and can also view details as defined in the application form in PDF format.

---

Note: OBDX is integrated with Oracle KYC to fetch the applicant's risk level (high risk or low risk) along with the reference number for the same as generated in the Oracle KYC system, at the time of application submission. OBDX will further send this information to the mid office system to be utilized as required.

---

Following are the steps involved in the application submission:

- **Product Selection:** All the products belonging to the selected product category will be listed here. Each product will be listed as a separate card which will display the name and image of the product along with a short description, features and the options to view further details, or to apply for the product. The additional option to select the product so as to compare it with others within the same category will also be provided on each card. You can select a maximum of three products for comparison.
- **Kick Off:** This page serves as an introduction to the application form. The various steps involved in an application are displayed on this page. You can also view the documents required to be uploaded as part of the application. As an applicant, you can identify how you are going to proceed with the application. If you are a new/unregistered user, you can continue as a guest, or if you are an existing online banking customer you can login with your online banking credentials.

---

**Note:** If you are an existing online banking customer, you will be navigated to the New Term Deposit screen once you have successfully logged in to the application after having selected the **Login as a registered user** option provided on the Kickoff page.

---

- **Mobile Verification:** This step is applicable if you are filling out the application as a new/unregistered user. You will be instructed to enter your mobile number, after which the system will identify whether your mobile number is already registered with the bank or not. You will then be required to enter the OTP sent to this mobile number in order to proceed with the application form.
- **Liveness Check:** This step will be enabled if it is configured for the product category you have applied for and is applicable only to new/unregistered users. The liveness check that is enabled for the product category can be either assisted or un-assisted. If the mode of liveness check is assisted, you will be provided with the option to initiate a video call with a bank executive who will verify your identity and will also undertake liveness checks. In order to enable the bank executive to verify your identity, you will be required to first upload images of an ID document that contains your most recent photograph. On completion of this step, if the bank executive has successfully verified your identity and conducted other checks, you will be able to proceed with the application form. Your personal information will be prepopulated on the basis of the information defined in your ID document. In the case of unassisted liveness check, you will be required to first upload images of an ID proof document, following which the system will guide you to centre your face so as to be able to click a selfie using the device's camera. The third party identity verifying system will verify, through the use of certain algorithms, whether the photograph on the ID document matches that of your selfie. A success/failure message will then be displayed depending on the outcome.
- **Upload Documents:** At this step, you will be required to upload the supporting documents that can serve as proof of identity, address proof, etc. If you are a new/unregistered user, you will be able to upload a document so as to have your personal information pre-populated on the basis of the information defined in this document.
- **ID Verification:** This section captures information pertaining to your personal information which will include your full name, date of birth, address details, etc. You can opt to upload an identity proof document to have the information on this section pre-populated or you can alternately enter the required information manually.

- **Personal Information:** This section captures information pertaining to your personal information which will include your full name, date of birth, address details, etc. You can opt to upload an identity proof document to have the information on this section pre-populated or you can alternately enter the required information manually.
- **Deposit Details:** In this section, you can specify details pertaining to the deposit which will include the deposit amount, tenure and maturity instructions.
- **Nominee Information:** If you wish to do so, you can specify details of your nominee in this section. Nominee details will include basic information such as name, date of birth, address etc. In case the nominee is a minor, you will have to mandatorily also specify information of the nominee's guardian.
- **Review and Submit:** Once you have filled out all the information required in the term deposit application form, you will be displayed this information on the review page. You can verify the details provided and if required, can edit the information in any sections by selecting the option provided against each section.
- **Terms of Service:** On having reviewed the application, you can then proceed to view the terms and conditions of the home loan you are applying for. You can also add a digital signature by means of uploading a document containing your signature or by physically signing the provided space if you are filling out the application from a touchscreen device.
- **Fund your account:** This step will be part of the application form if it has been configured for Term Deposit applications. Through this step you will be able to fund your new account if you wish to do so. If you opt to fund your account, you will be required to furnish information regarding mode of transfer from the payment gateway page.

---

**Note:** The applicant should be able to apply for the insta Term Deposit with hosts OBO as well as Third Party host.

---

- **Confirmation:** Once you have submitted your application after having reviewed it and having accepted the terms and conditions, a confirmation page will be displayed. This page will display a success message along with the term deposit account number, and application reference number. You can track your application on the basis of this reference number. Additionally, this page will also contain a button, by clicking on which you can navigate to the application tracker.

Apart from the **Review and Submit** and **Confirmation** steps, the sequence of the remaining steps may vary based on the configuration maintained for the product applications, by the bank.

#### **How to reach here:**

*Bank Portal page > Product Offerings > Term Deposits*

*OR*

*Bank Portal page > toggle menu > Menu > Our Products > Product Offerings > Term Deposits*

**To apply for term deposit:**

1. Click on **Term Deposits** under the product offerings section in the Bank Portal page.  
A screen containing the term deposits products available for online application will be displayed.

### 3.1 Term Deposits – Product Listing

This page is displayed once you select the Term Deposits category on the bank portal. All the term deposits products of the bank that are available for online application are displayed on this page as cards. Each card will display the product name, a short description of the product as well as the key features of each product. You can view all the products and select the best suitable one as per your needs. You can directly apply for a specific product on this page or can opt to view a detailed description of any product type by selecting the **Learn More** link provided on each product card. Alternately, you can also compare up to three products at a time so as ensure you are taking an informed decision while applying for a specific product.

This page also displays cross sell cards i.e. cards which enable the user to navigate to the other product offering pages of the bank.

## 3.6 Liveness Check

Liveness check can be available in two forms – assisted and unassisted.

If liveness check is enabled for the product application, you will be provided with the option to have your KYC verified through liveness check. If you opt to go through with liveness check, you will be required to first upload images of an ID proof document.

Depending on the mode i.e. assisted or unassisted, once you have uploaded the ID proof images, you will either be placed in a video call with a bank executive who will verify whether the identity proof you have provided is valid or not or be guided into centering your face in line with the device's camera so that the system can click your photograph (selfie).

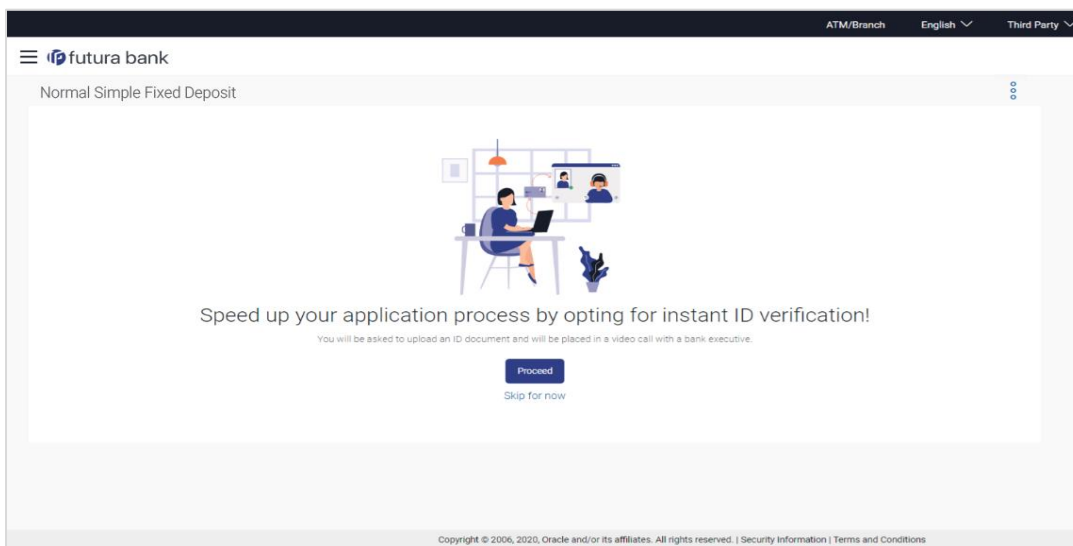

In case of assisted mode, the bank executive will also conduct other checks that comprise of liveness check and will proceed to provide either positive or negative feedback.

In case of unassisted mode, the third party ID verification system will complete the steps required to complete liveness check. If the system approves your liveness check, you will be able to proceed with the application form.

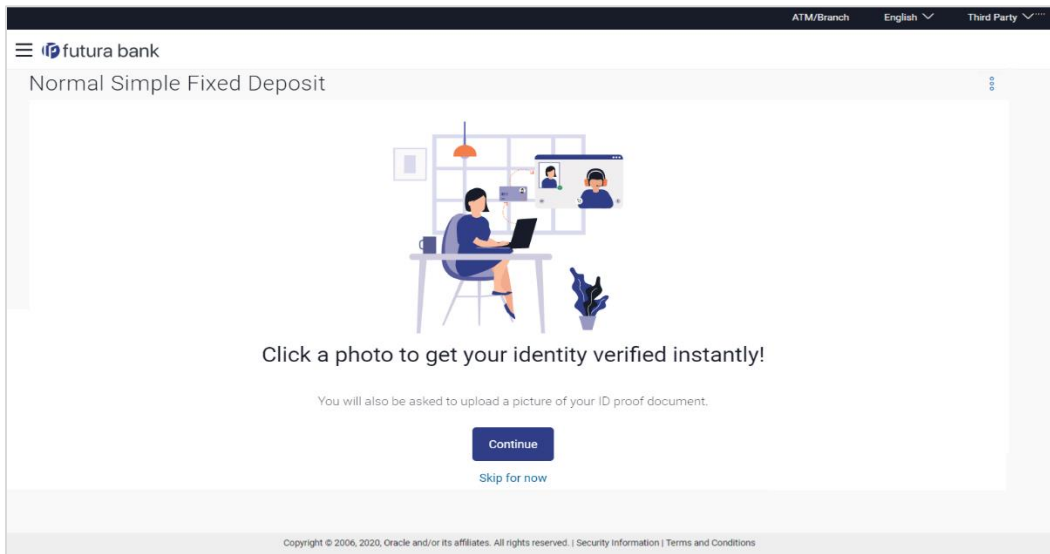

In both cases, upon a positive outcome, i.e. if liveness check is completed successfully, you will be able to proceed with the application form and your personal information section will be prefilled with data as fetched from the ID proof that you have provided as part of this step. However, if the feedback is negative, you will be informed of the same and the bank will conduct your KYC check manually. You will still be allowed to proceed with the application form. However, your personal information section will not be prefilled with information and you will be required to enter all information manually.

### Liveness Check – Introductory Page

#### Assisted Mode

## Unassisted Mode

1. Click **Continue** to proceed with Liveness Check. The first page of liveness check will be displayed.

OR

Click **Skip for now** if you do not wish to go through with liveness check. The **Upload Documents** page will be displayed.

OR

Under the kebab menu –

- Click the **Save and Continue Later** option to save the application.  
OR  
Click the **Continue on Mobile** option to continue the application on a mobile device.

## Liveness Check – Start Verification

2. Click **Start** to start with the liveness check flow.

## Liveness Check – Identity Proof Selection

In this step, you will be required to choose an identification document that you would like to provide for liveness check. Your liveness check and identity verification will be conducted on the basis of this document. In the next step you will be required to upload images of the identity proof you have selected.

The screenshot shows a mobile application interface for identity verification. At the top, it says 'Verification' with a back arrow and a 'Help' link. The main content area has two sections: 'Choose issuing country/region' with a dropdown menu currently showing 'India', and 'Select ID type' with the instruction 'Use a valid government-issued photo ID.' Below this are three selectable options: 'Passport', 'Driver's license', and 'Identity card'. At the bottom, there is a small footer that reads 'Powered by JUMBO Privacy policy • Legal • +41 22 0 8501150'.

3. From the **Choose issuing country/region** field, select the country that has issued the identity proof you wish to provide for liveness check.
4. From the **Select ID type** field, select the identification proof that you wish to provide. The next step of Liveness Check gets displayed.

## Liveness Check – Option for document upload

In this step, you can select the method through which you would like to upload images of the identity proof you have selected.

The screenshot shows the next step in the verification process. The title is 'Submit driver's license'. There are two main options presented as buttons: 'Upload file' (with a cloud icon) and 'Prefer to use your mobile?' (with a mobile phone icon). The footer at the bottom is identical to the previous screenshot: 'Powered by JUMBO Privacy policy • Legal • +41 22 0 8501150'.

5. Select the option of choice.
  - a. If you have selected the option **Upload file**, your device's browse file feature will get enabled and you will be able select images of the front and back of the document you wish to provide.

- b. If you selected the option **Prefer to use your mobile?** you will be displayed a screen containing a field in which you can enter your email address as well as a QR code you can scan. You will be able to enter your email address so as to have the link sent to your email address. In this case you can proceed to access your email on the device and select the link on which you wish to continue liveness check or you can scan the QR code on the device on which you wish to continue your liveness check.
- c. If you are applying from a mobile device or a device that has a camera, the option to **Take photo** will appear. If you select this option, your device's camera will get enabled and you will be able to click pictures of the front and back of the document you wish to provide.

### Liveness Check – Upload Identity Proof Images

In this step, you can upload images of the front and back of the identity proof document you wish to provide for liveness check. Once you have added images, the system will undertake a check to ensure the quality of the document images you have uploaded is good and readable.

6. Click **Choose file** to upload the front image of the identity proof document. The file browser window is opened through which you can browse your device and upload the image of choice.

Once you have uploaded the image, it is displayed on the page with the options to either **Choose another file** or **Complete** upload of the image.

- a. If you select **Choose another file**, the file browser window is opened and you can selected a different image to replace the one you had selected previously.
  - b. If you select **Complete**, the image gets uploaded and the page on which you can upload the back image of the identity proof document is displayed.
7. Click **Choose file** to upload the back image of the identity proof document. The file browser window is opened through which you can browse your device and upload the image of choice.

Once you have uploaded the image, it is displayed on the page with the options to either **Choose another file** or **Complete** upload of the image.

- a. If you select **Choose another file**, the file browser window is opened and you can selected a different image to replace the one you had selected previously.
- b. If you select **Complete**, the image gets uploaded and the next step of the liveness check flow gets displayed.

### 3.6.1 Liveness Check – Assisted Mode

The following steps are applicable when the assisted mode of liveness check is enabled for the product category.

#### Liveness Check – Video KYC Initiation

Once you have uploaded the images of your identity proof document, you will be requested to proceed onto a video call with a bank executive.

8. Click **Continue** if you agree to enter into a video call with a bank executive.  
A modal window is displayed informing you that the video call might be recorded.  
Click on **Yes** if you wish to continue with the video call.  
OR  
Click **Cancel** if you wish to cancel.

9. Click **Share** to share the images of the identity proof documents with a bank executive. You will be added into a video call with a bank executive.

OR

Click **Cancel** to cancel the process.

### Liveness Check – Video KYC

On clicking **Yes**, a video call will be initiated between a bank executive and you. The bank executive will ask you a series of question and will verify your identity and liveness. Once the bank executive has completed the verification checks, he/she will either approve or reject the liveness check and will end the video call.

10. If the bank executive has approved the liveness check, you will be displayed a success message.

OR

If the bank executive has rejected the liveness check, you will be displayed a failure message.

### 3.6.2 Liveness Check – Unassisted Mode

The following steps are applicable when the unassisted mode of liveness check is enabled for the product category.

#### Liveness Check – Selfie Capture

Once you have uploaded the images of your identity proof document, you will be guided to center your face so that it is within the frame of the device's camera. The system will then automatically click your photograph which will be used to complete your liveness check.

11. Click **Start** to begin face verification.

The device's camera will be switched on and the system will display commands guiding you to align your face to the device's camera.

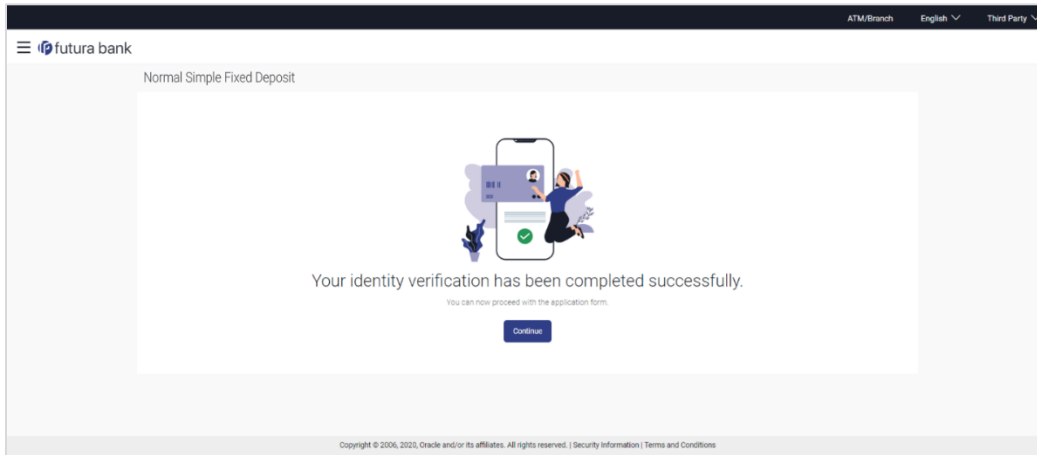

### Liveness Check – Image Quality Check Outcome

Once the selfie has been clicked and the system has successfully completed the image quality check, the following message will be displayed briefly to indicate the same, followed by the liveness check success message.

## Liveness Check Outcome – Success

In both modes (assisted and unassisted) of liveness check, once your identity verification has been completed successfully, the following message will be displayed.

12. Click **Continue** to continue with the application form. The next step in the application form will be displayed.

## Liveness Check Outcome - Failure

If the liveness check has failed (applicable to both modes – assisted and unassisted), you will be displayed the following failure message.

13. Click **Continue** to continue with the application form. The next step in the application form will be displayed.

## **FAQ**

- 1. Can I proceed with the application if I am an existing customer of the bank but do not have online banking access?**

You will need to first onboard yourself on the digital banking platform. You can do so by selecting the 'Register for online banking access' link on the kick off page or by selecting the 'Register Now' option provided on the login page. Once you have completed the registration process, you can login and proceed with application initiation.

- 2. Can I add a joint applicant while applying for any of the products?**

No, as of now you can apply only as a single applicant. Adding joint applicants is not supported currently.

- 3. I am applying for the product as a guest user. The address that is mentioned in the document that I have uploaded in support of the application is different from my current permanent address. Can I update that information in the application form?**

Yes, all the information that is fetched from your document is displayed in editable format in the Personal Information section. You can update the required details and submit your application. However, please note that once your mobile number, as provided in the Mobile Verification page, is verified, you will not be able to modify it in the Personal Information section.

- 4. How many products can I apply for as part of a bundled application?**

Out of the box, you can add a maximum of three products in a bundle. This number is configurable by the Bank and may change.

- 5. In case my application is saved as a draft, can I request a bank executive to complete this application on my behalf?**

Only you can resume and complete a draft application.

- 6. Can I cancel one of the product applications that has been submitted as part of a bundled application?**

No. Currently, it is not possible to cancel a specific product application that is part of a bundled application. You can however, cancel the entire bundled application, if you wish to do so.

- 7. If I am applying for a product as an existing user, can I update my personal information while initiating an application?**

No, you cannot update any personal details while applying as an existing online banking customer. You may contact the bank to update your personal information before applying for a new product.

**8. For how long I can access and resume my applications that are saved as drafts?**

This is based on the Bank's purging policy. The draft applications will be available for x days in the application tracker before they are purged by the bank.

**9. Can I apply for a product that I have already applied for and that the bank is currently processing?**

Yes, you can still submit an application for the same product. The decision to process or reject either of the two (or more) applications will rest on the bank.

**10. I have started my application on my laptop. However, I have realized that some of the documents that I need to upload are available on my tablet. Do I need to abandon the application that I started on my laptop to restart the entire process on my tablet?**

No, you can scan the QR code available on every step of the application form, post the Mobile Verification step, and resume the application from your tablet or mobile device.

**11. Can bank administrators define the sequence in the steps of the application forms?**

Yes, bank administrators can configure the sequence of steps in the application forms of all product categories supported for online application, through the Origination Workflow Maintenance feature available on the OBDX platform.

**12. How does National ID verification work?**

The bank can integrate with government or other third party systems (which store and maintain data of National ID holders), through available hook points. Online authentication will be performed to verify the identity claim of the ID holder and to fetch the required personal information.

**13. How does OCR work?**

The bank can integrate with the third party adapters that provide OCR services, through available hook points. The system will be able to prefill certain fields in the Personal Information section from data fetched from the applicant's uploaded documents.

Similarly, an out of box integration is available with the internal 'Document verification framework'.

Extensibility hooks can be used to support OCR for most identity and financial documents.
