2 Small and Medium Business (SMB) Onboarding

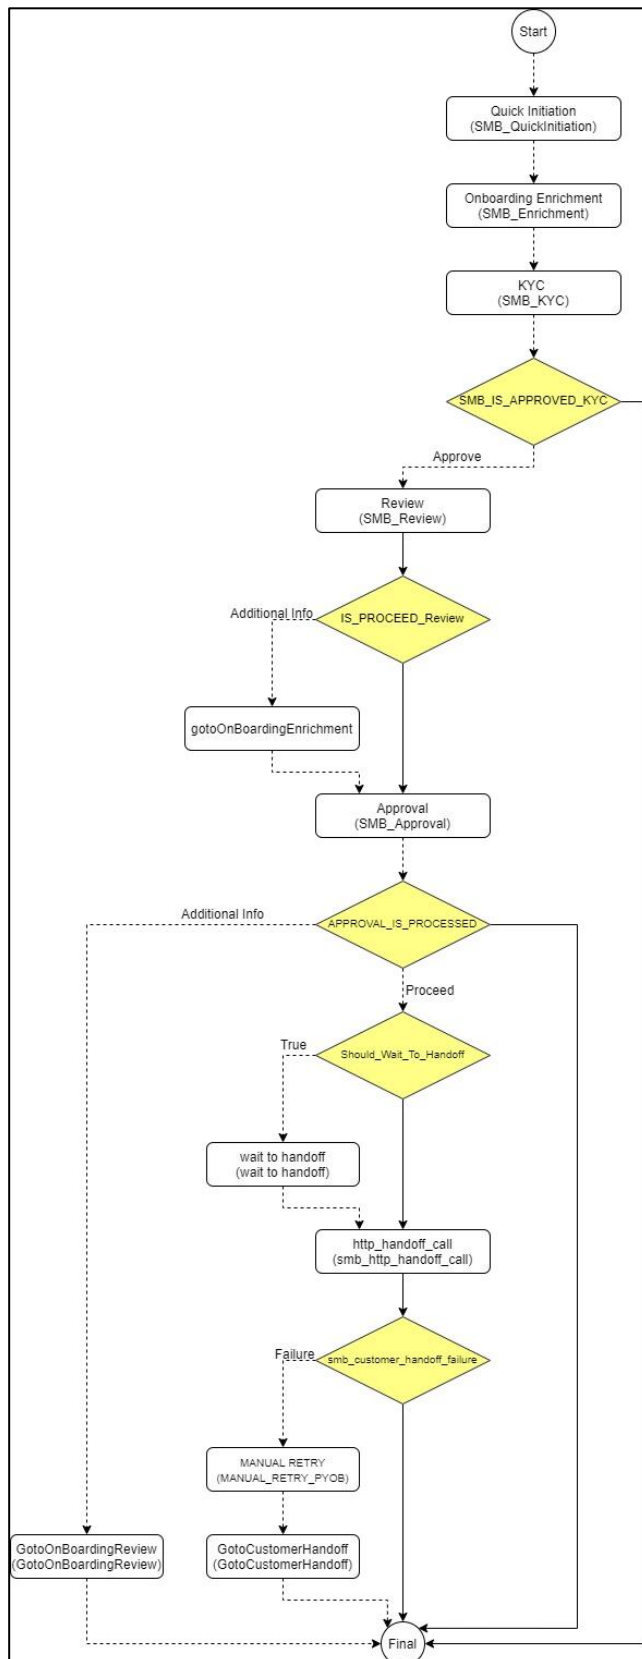

2.1 Overview

Small and Medium Business (SMB) Onboarding is the process of collecting, evaluating, and authorizing customer information for secured banking operations. The Relationship Managers can initiate this process when the customer shows interest in any of the bank's products or approaches the bank for an availing facility. The information collected throughout this process is stored in the bank's database for future reference.

2.1.1 Process Flow Diagram

The flow diagram illustrating the different stages in SMB Onboarding process is shown below for reference:

Figure 1: Process Flow

2.2 Onboarding Initiation

This section contains the following topics:

- [2.2.1 Basic Details](#)
- [2.2.2 Stakeholder Details](#)
- [2.2.3 Financial Information](#)
- [2.2.4 Interested Products](#)
- [2.2.5 Comments](#)
- [2.2.6 Review and Submit](#)

In this stage, the Relationship Manager can capture brief information about the SMB customer to be on-boarded using Oracle Banking Enterprise Party Management.

To initiate the Onboarding process:

1. From the home page, click **Party Services**. Under **Party Services**, click **Small Medium Business**.
2. Under **Small Medium Business**, click **Onboarding**.

→ The system displays the **Quick Initiation** screen.

Figure 2: Quick Initiation

10. Click **Next** to go to the **Initiation – Interested Products** segment.

2.2.4 Interested Products

All the bank products relevant to the customer are displayed in this data segment. Relationship Manager can select the products in which the customer has shown interest to associate the same with customer.

Figure 19: Initiation - Interested Products

Perform the following steps to update the details of interested products:

1. On **Interested Products** screen, select the products based on customer's interest, and specify the requested value for each product.
2. Click **Next** to move to the **Initiation – Comments** page.

2.2.5 Comments

The Relationship Managers can capture overall comments for the Initiation stage in this data segment. Capturing comments help the banker working with this task in next stage to better understand the task.

Figure 20: Initiation – Comments

The screenshot displays the 'Comments' interface. On the left, a sidebar lists navigation steps: Basic Details, Stakeholder Details, Financial Information, Interested Products, Comments (highlighted), and Review and Submit. The main workspace is titled 'Comments' and features a rich text editor with a comprehensive toolbar. The text area contains the placeholder 'Enter text here...'. A 'Post' button is located at the bottom right of the editor. Below the editor, a message states 'No items to display.' The bottom of the screen includes a navigation bar with buttons for 'Hold', 'Back', 'Next', 'Save & Close', and 'Cancel'. The top right corner shows 'Screen (5 / 6)'.

Perform the following steps:

1. On **Comments** screen, specify the overall comments for the **Onboarding Initiation** stage.
2. Click **Next** to move to the **Initiation – Review and Submit** page.

2.2.6 Review and Submit

This page provides a consolidated view of the information captured in all the data segments. The Relationship Managers can view the displayed information and take necessary action such as modifying the information or moving the task to the next stage.

2.7 Amendment

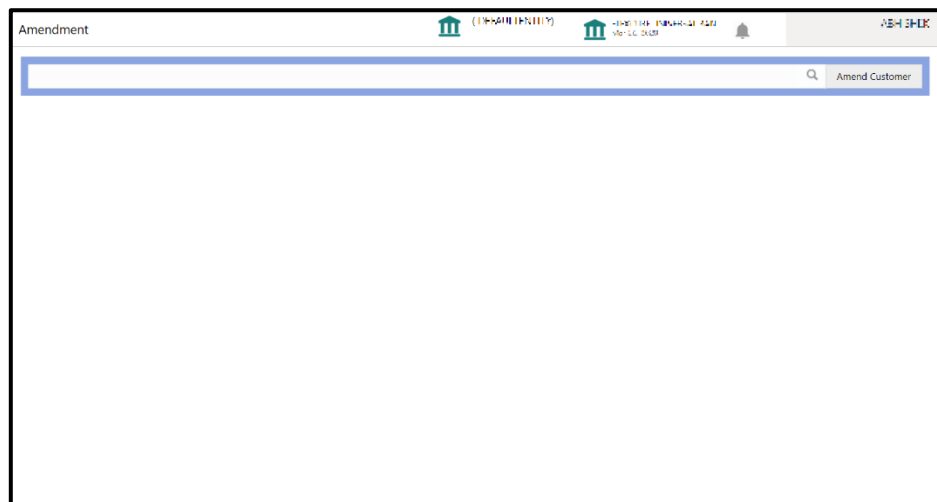

In this stage, the Relationship Manager can amend the information or can add additional information about a SMB customer using Oracle Banking Enterprise Party Management.

To initiate the Amendment process:

1. From the home page, click **Party Services**. Under **Party Services**, click **Small Medium Business**.
2. Under **Small Medium Business**, click **Amendment**.

→ The system displays the **Amendment** screen.

4. Specify the overall comments for the **Onboarding Initiation** stage, and click **Post**.

5. Click **Next**.

→ The system displays the **Initiation – Review and Submit** page.

NOTE: For information on reviewing and submitting the task to the next stage, refer to [2.2.6 Review and Submit](#) topic in the **Onboarding Initiation** section.

6. After reviewing the customer information, click **Submit**.

→ The system displays the **Checklist** window.

7. Select the **Outcome** as Proceed, and click **Submit**.

→ The system moves the task to the **Review** stage.

In **Review** stage, the final reviewer reviews the customer details and moves the task to Approval stage if the details are appropriate. If the details are inappropriate, the reviewer can send the task back to the previous stage. After submitting the details in Review stage, the system moves the task to **Approval** stage.

In **Approval** stage, the head of the division can view the customer information and decide to approve or reject the task based on comments from the Reviewer. If the outcome of this stage is Proceed, the task is automatically moved to the Host system. For more detail on review and Approval stage, refer to sections – [2.5 Review](#) and [2.6 Approval](#).

2.8 Straight Through Processing for onboarding requests received from Channels

For the onboarding requests received from Channels, there are configuration available to allow straight through processing of SMB onboarding and handoff to the core system without waiting for any manual intervention.

Refer below table for details of the configuration:

Table 19: Configurations

Configuration Parameter	Description	Default Value
STP_FLAG	This parameter indicates if straight through processing is allowed for SMB onboarding requests received from Channels subject to other mandatory information being available in the request. Accepted values are: TRUE - Straight through processing for SMB Onboarding shall be allowed subject to fulfillment of other mandatory details and business validation. FALSE - Straight through processing for SMB Onboarding shall not be allowed in any case, even if all mandatory and KYC details are sent from Channel.	True
CHANNEL_CONFIRMATION_REQUIRED	This parameter indicates if a confirmation from channel is required before handoff to the core system. Accepted values are: True – System will wait for a confirmation from Channels before triggering the handoff to the core system False – System will go ahead with the handoff to the core system without waiting for any confirmation from Channels	False

On receiving the SMB onboarding request from channels, the system will validate the configuration parameters as stated in the above table. If straight through processing is allowed i.e. STP_FLAG is set to True, the system validates if all the mandatory information including the KYC details are available in the request. Following cases are applicable:

1. Quick Onboarding - this will be quick onboarding with minimal attributes, equivalent to Quick Initiation. Further enrichment and KYC check for such requests can be done by a Bank user.
2. Detailed Onboarding without KYC Check - this will cover onboarding from channel with full customer details but without KYC Check. Such request shall fall under KYC stage. Bank users can pick such request and complete the remaining stages - KYC, review and Approval.
3. Detailed Onboarding with KYC Check (Straight **through processing**) - In this case, channel will capture and pass on all the mandatory information and KYC details. This shall be treated as straight through processing if STP_Flag is set to TRUE and the Party details shall be handed over to core system without need of any manual intervention.
