Oracle® Enterprise Manager

Management Agent List of Bugs Fixed for IBM zSeries Based Linux

10*g* Release 5 (10.2.0.5.0)

E14915-01

June 2009

The List of Bugs Fixed document is one of the documents that is bundled with 10.2.0.5.0 Grid Control Patch Set. The document provides a list of generic bugs that were fixed in Oracle Enterprise Manager Grid Control 10*g* Release 5 (10.2.0.5.0).

This document contains the following:

- Patch Set Documentation
- Bugs Addressed in this Patch Set
- Documentation Accessibility

1 Patch Set Documentation

There are two documents related to this release of Grid Control patch set:

- *Oracle Enterprise Manager Grid Control Release Notes, 10g* Release 5 (10.2.0.5.0)

  This document provides:

  - A list of new features included in this patch set
  - Information about how to install or de-install the patch set
  - A list of known issues relating to this release of Grid Control patch set

- *Oracle Enterprise Manager Grid Control List of Bugs Fixed, 10g* Release 5 (10.2.0.5.0) (this document)

  This document provides a list of all generic bugs related to Grid Control that have been fixed in this release.

Both of these documents are available on Oracle Technology Network (OTN) and My Oracle Support.

To find these documents on OTN, access the following URL. From the table, click View Library. On the Enterprise Manager documentation library page, click the Documentation tab, and from the Release Notes section, access the documents.

3 Documentation Accessibility

Our goal is to make Oracle products, services, and supporting documentation accessible, with good usability, to the disabled community. To that end, our documentation includes features that make information available to users of assistive technology. This documentation is available in HTML format, and contains markup to facilitate access by the disabled community. Accessibility standards will continue to evolve over time, and Oracle is actively engaged with other market-leading technology vendors to address technical obstacles so that our documentation can be accessible to all of our customers. For more information, visit the Oracle Accessibility Program Web site at http://www.oracle.com/accessibility/.

Accessibility of Code Examples in Documentation

Screen readers may not always correctly read the code examples in this document. The conventions for writing code require that closing braces should appear on an otherwise empty line; however, some screen readers may not always read a line of text that consists solely of a bracket or brace.

Accessibility of Links to External Web Sites in Documentation

This documentation may contain links to Web sites of other companies or organizations that Oracle does not own or control. Oracle neither evaluates nor makes any representations regarding the accessibility of these Web sites.

TTY Access to Oracle Support Services

To reach Oracle Support Services, use a telecommunications relay service (TRS) to call Oracle Support at 1.800.223.1711.
