

Oracle® Retail Merchandising System
Installation Guide
Release 9.0.21

November 2006

Copyright © 2006, Oracle. All rights reserved.

Primary Author: Paul Kehler

The Programs (which include both the software and documentation) contain proprietary information; they are provided under a license agreement containing restrictions on use and disclosure and are also protected by copyright, patent, and other intellectual and industrial property laws. Reverse engineering, disassembly, or decompilation of the Programs, except to the extent required to obtain interoperability with other independently created software or as specified by law, is prohibited.

The information contained in this document is subject to change without notice. If you find any problems in the documentation, please report them to us in writing. This document is not warranted to be error-free. Except as may be expressly permitted in your license agreement for these Programs, no part of these Programs may be reproduced or transmitted in any form or by any means, electronic or mechanical, for any purpose.

If the Programs are delivered to the United States Government or anyone licensing or using the Programs on behalf of the United States Government, the following notice is applicable:

U.S. GOVERNMENT RIGHTS Programs, software, databases, and related documentation and technical data delivered to U.S. Government customers are "commercial computer software" or "commercial technical data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the Programs, including documentation and technical data, shall be subject to the licensing restrictions set forth in the applicable Oracle license agreement, and, to the extent applicable, the additional rights set forth in FAR 52.227-19, Commercial Computer Software – Restricted Rights (June 1987). Oracle Corporation, 500 Oracle Parkway, Redwood City, CA 94065

The Programs are not intended for use in any nuclear, aviation, mass transit, medical, or other inherently dangerous applications. It shall be the licensee's responsibility to take all appropriate fail-safe, backup, redundancy and other measures to ensure the safe use of such applications if the Programs are used for such purposes, and we disclaim liability for any damages caused by such use of the Programs.

Oracle, JD Edwards, PeopleSoft, and Siebel are registered trademarks of Oracle Corporation and/or its affiliates. Other names may be trademarks of their respective owners.

The Programs may provide links to Web sites and access to content, products, and services from third parties. Oracle is not responsible for the availability of, or any content provided on, third-party Web sites. You bear all risks associated with the use of such content. If you choose to purchase any products or services from a third party, the relationship is directly between you and the third party. Oracle is not responsible for: (a) the quality of third-party products or services; or (b) fulfilling any of the terms of the agreement with the third party, including delivery of products or services and warranty obligations related to purchased products or services. Oracle is not responsible for any loss or damage of any sort that you may incur from dealing with any third party.

Preface

Oracle Retail Installation Guides contain the requirements and procedures that are necessary for the retailer to install Oracle Retail products.

Audience

This Installation Guide is written for the following audiences:

- Database administrators (DBA)
- System analysts and designers
- Integrators and implementation staff

Related Documents

For more information, see the following documents in the Oracle Retail Merchandising System Release 9.0.21 documentation set:

- Oracle Retail Merchandising System Release Notes

Customer Support

- <https://metalink.oracle.com>

When contacting Customer Support, please provide:

- Product version and program/module name.
- Functional and technical description of the problem (include business impact).
- Detailed step-by-step instructions to recreate.
- Exact error message received.
- Screen shots of each step you take.

Conventions

Navigate: This is a navigate statement. It tells you how to get to the start of the procedure and ends with a screen shot of the starting point and the statement “the Window Name window opens.”

Note: This is a note. It is used to call out information that is important, but not necessarily part of the procedure.

This is a code sample
It is used to display examples of code

A hyperlink appears like this.

Database Server Installation Instructions

Before you apply the RMS 9.0.21 patch:

- Make a backup of all your objects and database schema.
- Check that RMS 9.0.20 is installed.
- Review the enclosed RMS 9.0.21 Patch Release Notes (rms-9021-rn.pdf).
- Review each of the enclosed SIR documents.

Before copying over any files:

- Note whether customizations have been made to the module. If so, then the customizations must be reapplied over the new version of the module (or the fix may need to be applied to the custom version of the code).
- Copy the original files to a different directory before copying over them in case they need to be referred to at a later date.

Note: These instructions refer to rmsdev9 as the Oracle owning schema.

Mount CD-ROM on the Database Server

1. Mount the CD-ROM on your Database Server.
2. Copy the rms9021dbpatch.tar.Z file from the CD /dbserverunix directory to a newly created staging directory on your UNIX server.
3. Log in to UNIX.
4. Change directories to the staging directory.

Note: The tar file must have a .Z extension.

5. If the tar file has a "z" in lowercase, change it by typing:

```
mv rms9021dbpatch.tar.z rms9021dbpatch.tar.Z
```

6. Uncompress the tar file by entering:

```
uncompress rms9021dbpatch.tar.Z
```

7. Untar the tar file by entering:

```
tar xvf rms9021dbpatch.tar
```

Update DDL

1. On the server, change directories to <staging area>/dbcs.
2. Log in to SQLPLUS as rmsdev9.
3. Enter the following command to update control tables:
`SQL> @patch9021dbcs.sql`
4. View the spool file patch9021dbcs.log when finished to verify that no errors were found.

Update Data

1. On the server, change directories to <staging area>/sqlplus.
2. Log in to SQLPLUS as rmsdev9.
3. Enter the following command to update control tables:
`SQL> @patch9021ctl.sql`
4. View the spool file patch9021ctl.log when finished to verify that no errors were found.

Update Packages, Stored Procedures and Functions

1. On the server, change directories to <staging area>/db_objects.
2. Log in to SQLPLUS as rmsdev9.
3. Enter the following command to update packages, procedures, and functions:
`SQL> @patch9021rms.sql`
4. Exit SQLPlus.
5. View the spool file patch9021rms.log when finished to verify that no errors were found.
6. After you have compiled all these objects, validate any objects that may have become invalid. You can do this by using the script provided at <INSTALL_DIR>/utility. This script may need to be run more than once.

Recompile Libraries and Batch Programs

After the packages/procedures have been successfully compiled:

1. Copy the base RMS C programs from <staging area>/batch/lib/src into the appropriate directories.
2. Copy the base RMS C programs from <staging area>/batch/proc/src into the appropriate directories.
3. Compile the batch library and base RMS C programs as directed in the RMS 9.0 install guide.

Application Server Installation Instructions

Note: If you have modified any forms, reports, or toolset libraries, make a backup copy so that you can reapply any custom modifications.

Application Server Installation Instructions

1. Mount the CD-ROM on your UNIX Application Server.
2. Change directories to /appserverunix.
3. Copy the rms9021apppatch.tar.Z file from the CD /appserverunix directory to a newly created staging directory on your UNIX Application server.
4. Log in to UNIX.
5. Change directories to the staging directory.

Note: The tar file must have a .Z extension.

6. If the tar file has a Z in lowercase, change it by typing:

```
mv rms9021apppatch.tar.z rms9021apppatch.tar.Z
```
7. Uncompress the tar file by entering:

```
uncompress rms9021apppatch.tar.Z
```
8. Untar the tar file by entering:

```
tar xvf rms9021apppatch.tar
```
9. Make sure your UNIX environment is set up properly to compile Oracle Forms (see the RMS 9.0 installation guide for more information).
10. Copy the RMS forms source code (*.fmb) located on UNIX in the <staging area>/forms/src to your UNIX Web forms src directory.
11. In the Web forms src directory, compile the RMS forms (*.fmb) as outlined in the RMS 9.0 installation guide, Appendix B.
12. Move all compiled forms (*.fmx) in the Web forms src directory to the bin directory.
