PeopleSoft Flow Production Report Descriptions

PeopleSoft applications offer a wide range of query and reporting possibilities. In addition to the standard reports that we deliver, we also provide reporting tools that you can use to create new reports from scratch.

PeopleSoft Flow Production Reports: General Description

This table lists the Flow Production reports. All the reports that are listed are SQR reports. If you need more information about these reports, refer to the report details at the end of this appendix.

| Report ID and Report Name | Description | Navigation | Run Control Page |

| FPS1000 Replenishment Dispatch Report | Lists replenishment requests to be sent to a vendor. For each vendor, lists vendor address, ship to details, dispatch date, item, description, vendor item ID, and total item quantity. Also for each Kanban ID, lists quantity, unit of measure, creation date and time, and WIP location to be replenished. | <ul style="list-style-type: none">• Production Control, Process Production, Transact Kanbans, Dispatch Vendor Kanbans, Run Controls• Production Control, Process Production, Transact Kanbans, Dispatch Vendor Kanbans, Run Selection Criteria | SF_RUN_RPL_DSPTCH |
