PEOPLESOFT 8.00.01 GLOBAL PAYROLL REPORTS PEOPLEBOOK

This book provides you with the information you will need for using the PeopleSoft 8.00.01 Global Payroll Reports PeopleBook. You can order the online version by requesting SKU HRB8SP1R0, or the hard-copy version by requesting SKU MAGPr8SP1R 1200.

This following section contains the information you need to begin working with PeopleSoft products and documentation, including PeopleSoft-specific documentation conventions, how to order additional copies of our documentation, and so on.

Related Documentation

To add to your knowledge of PeopleSoft applications and tools, you may want to refer to the documentation of other PeopleSoft applications. You can access additional documentation for this and previous releases online from PeopleSoft Customer Connection (www.peoplesoft.com).

Through the Documentation section of Customer Connection, you can download files to add to your PeopleBook library. You'll find a variety of useful and timely materials, including updates to the full PeopleSoft documentation delivered on your PeopleBooks CD.

Important! Before upgrading, it is *imperative* that you check PeopleSoft Customer Connection for updates to the upgrade instructions. We continually post updates as we refine the upgrade process.

Documentation on CD-ROM

Complete documentation for this release is provided on the CD-ROM PeopleSoft 8.00.01 HRMS and PeopleTools 8.12 PeopleBooks, SKU CD HRB8SP1R0.

Hardcopy Documentation

To order hard-copy of the PeopleSoft documentation delivered on your PeopleBooks CD-ROM, visit the PeopleSoft Press Web site from the Documentation section of PeopleSoft Customer Connection. The PeopleSoft Press Web site is a joint venture between PeopleSoft and CPI, our book print vendor.

We print documentation for each major release shortly after the software is shipped. Customers and partners can order printed PeopleSoft documentation using any of the following methods:

Internet	From the main PeopleSoft Internet site, go to the Documentation section of Customer Connection. You can find order information under the Ordering PeopleBooks topic. Use a Customer Connection ID, credit card, or purchase order to place your order. PeopleSoft Internet site: http://www.peoplesoft.com/
Telephone	Contact Consolidated Publishing Incorporated (CPI) at 800 888 3559.
Email	Email CPI at callcenter@conpub.com .

Hard-copy Visual Cues

To help you locate and interpret information, we use several visual cues for notes, more information, and warnings.

Text in this bar indicates information that you should pay particular attention to as you work with your PeopleSoft system. If the note is preceded by **Important!**, the note is crucial and includes information that concerns what you need to do for the system to function properly.

Text in this bar indicates For more information cross-references to related or additional information.

Text within this bar indicates a crucial configuration consideration. Pay very close attention to these warning messages.

Comments and Suggestions

Your comments are important to us. We encourage you to tell us what you like, or what you would like changed about our documentation, PeopleBooks, and other PeopleSoft reference and training materials. Please send your suggestions to:

PeopleSoft HRMS Product Documentation Manager
PeopleSoft, Inc.
4460 Hacienda Drive
Pleasanton, CA 94588

Or send comments by email to the authors of the PeopleSoft documentation at:

DOC@PEOPLESOFT.COM

While we cannot guarantee to answer every email message, we pay careful attention to your comments and suggestions. We are always improving our product communications for you.

CHAPTER 1

Overview of Global Payroll Reports

PeopleSoft applications offer a wide range of query and reporting possibilities—with the standard reports we deliver and with the reporting tools you can use to create new reports from scratch. When it comes to reporting, you couldn't ask for more versatility.

Your database contains a wealth of information that you've carefully entered, maintained, and secured for the ultimate purpose of generating timely, meaningful, presentation-quality reports. Our reporting capabilities enable you to access the data you need and present it in the form that is most useful for those who depend on you for financial and management information.

And the tools are easy to use. You no longer have to rely on technical support staff to create queries or reports for you. That means that you can get all the information you need, when you need it.

In this section, we'll provide you with:

- A brief discussion of PeopleSoft reporting tools.
- Names and descriptions of the reports that are provided with PeopleSoft Global Payroll.

For more information about how to run individual Global Payroll reports, see [Running Global Payroll Reports](#).

PeopleSoft Reporting Tools

We deliver PeopleSoft applications with a set of standard reports that provide the kind of business information many organizations need. Running a report is as easy as selecting it from a menu and entering any necessary parameters. But for those of you who want to modify our standard reports, create your own reports, or reformat report output, we offer a variety of reporting tools.

PeopleSoft Query

PeopleSoft Query helps you create and run database queries without having to write SQL statements. You can extract the precise data you want, using visual representations of your PeopleSoft database. The queries can be as simple or as complex as necessary, and they can be one-time, ad hoc queries or queries that you'll use repeatedly.

Query is more than just a reporting tool. You can use it to create queries for a variety of purposes:

- **To display data in a list box.** You can run queries within Query itself, displaying the result set in a list box for review. This option is useful as you are refining your queries.
- **To provide input to a spreadsheet or Crystal report.** Query can seamlessly pass data to Microsoft Excel, Lotus 1-2-3, or Crystal Reports Pro. From there, you can use the features of these products to create polished reports.
- **To search for records.** Many of the search dialog boxes in PeopleSoft applications enable you to select a predefined query or create a new one, rather than enter search criteria for the records you want to find.
- **To check the database for conditions that trigger workflow events.** Using PeopleSoft Workflow, you can specify that certain conditions—say, the presence of overdue receivables—cause the system to send an email to someone or put an entry on someone’s work list. You write queries to detect these conditions, and then you schedule database agents to run them periodically.

Structured Query Reports (SQRs)

One of the most versatile approaches to reporting is the MITI Structured Query Report Writer. This tool can extract data from any SQL-based relational database and print or display it in a prescribed format. We’ve created a variety of standard SQR reports that summarize table information and data. You can use these reports as is, modify them, or, if needed, create your own. You can create tabular, single- or multiple-page reports, and form letters. You can also use SQR to make global updates to your database, load and unload tables, and perform interactive queries.

Process Scheduler

The Process Scheduler is not a reporting tool, but it plays an important role in PeopleSoft reporting. It’s the part of the system that actually runs most of the reports. When you request one of the standard reports, you’re really asking the Process Scheduler to run it for you.

The Process Scheduler is a PeopleTool that performs tasks behind the scenes of your application. It can run several kinds of processes—COBOL programs, database queries, reports—on a regular schedule or at your request. Furthermore, it can run the processes at your workstation or on a server. The Process Scheduler handles reports because you’d typically like the system to generate the report while you continue to work on something else. The Process Scheduler also enables you to track the status of the report.

For more information about the PeopleSoft Process Scheduler, see Process Scheduler in your *PeopleSoft PeopleTools* PeopleBook.

Alphabetic List of Global Payroll Reports

<i>Report Name</i>	<i>Report ID</i>	<i>Description</i>	<i>Report Type</i>
Absence Result Register	GP000002	The Absence Result Register is a detail report, by payee, that displays the results of a payroll calculation—calculated or finalized—for absence data. Results are displayed by segment. A payroll status or Open or Closed will be displayed at the top of the report.	SQR
Payroll Result Register	GP000001	The Payroll Result Register is a detail report, by payee, that displays the results of a payroll calculation—calculated or finalized—for earnings, deductions, and/or accumulators. Results are displayed by segment. A payroll status or Open or Closed will be displayed at the top of the report.	SQR
Summary Result Register	GP000003	The Payroll Summary report summarizes earnings and deductions totals by Department.	SQR
