# About the HRMS PeopleBooks

The HRMS PeopleBooks provide you with the information you will need for implementing and using PeopleSoft Human Resources Management System (HRMS) products.

This section describes information you should know before you begin working with PeopleSoft products and documentation, including PeopleSoft-specific documentation conventions, information specific to the PeopleSoft HRMS product line, how to order additional copies of our documentation, and so on.

## Before You Begin

To benefit fully from the information covered in these books, you need to have a basic understanding of how to use PeopleSoft applications. We recommend that you complete at least one PeopleSoft introductory training course.

You should be familiar with navigating around the system and adding, updating, and deleting information using PeopleSoft windows, menus, and pages. You should also be comfortable using the World Wide Web and the Microsoft® Windows or Windows NT graphical user interface.

Because we assume you already know how to navigate the PeopleSoft system, much of the information in these books is not procedural. That is, it does not typically provide step-by-step instructions on using tables, pages, and menus. Instead, we provide you with all the information you need to use the system most effectively and to implement your PeopleSoft application according to your organizational or departmental needs. These books expand on the material covered in PeopleSoft training classes.

## PeopleSoft Application Fundamentals for HRMS PeopleBook

The individual HRMS PeopleBooks provide you with implementation and processing information for the individual HRMS products. However, there is additional, essential information describing the setup and design of each HRMS product contained in the companion volume of documentation called *PeopleSoft Application Fundamentals for HRMS PeopleBook*.

The *PeopleSoft Application Fundamentals for HRMS PeopleBook* consists of important topics that apply to many or all PeopleSoft applications across the HRMS product line. Whether you are implementing a single HRMS product, some combination of products within the product line, or the entire PeopleSoft HRMS system, you should be familiar with the contents of this central PeopleBook. It is the starting point for fundamentals such as setting up control tables and administering security.

In the *PeopleSoft Applications Fundamentals for HRMS PeopleBook*, we've included common information pertinent to all applications in the HRMS product line, such as defining general options. If you're upgrading from a previous PeopleSoft release, you may notice that we've

removed some topics or topic headings from the individual application PeopleBooks and consolidated them in this single reference book. You'll now find only application-specific information in your individual application PeopleBooks. This makes the documentation as a whole less redundant. Throughout each PeopleBook, we provide cross-references to *PeopleSoft Application Fundamentals for HRMS* and other PeopleBooks.

## Related Documentation

To add to your knowledge of PeopleSoft applications and tools, you may want to refer to the documentation of other PeopleSoft applications. You can access additional documentation for this release from PeopleSoft Customer Connection ([www4.peoplesoft.com/cc](http://www4.peoplesoft.com/cc)). We post updates, troubleshooting documentation, and other items on Customer Connection, as well. In addition, documentation for this release is available on CD-ROM and in hard copy.

---

**Important!** Before upgrading, it is *imperative* that you check PeopleSoft Customer Connection for updates to the upgrade instructions. We continually post updates as we refine the upgrade process.

---

---

### Documentation on the Internet

You can order printed, bound versions of the complete PeopleSoft documentation delivered on your PeopleBooks CD-ROM. You can order additional copies of the PeopleBooks CDs through the Documentation section of the PeopleSoft Customer Connection Web site: <http://www4.peoplesoft.com/cc>

You'll also find updates to the documentation for this and previous releases on Customer Connection. Through the Documentation section of Customer Connection, you can download files to add to your PeopleBook library. You'll find a variety of useful and timely materials, including updates to the full PeopleSoft documentation delivered on your PeopleBooks CD.

---

### Documentation on CD-ROM

Complete documentation for this release is provided on the CD-ROM *PeopleSoft 8.3 HRMS PeopleBooks*, SKU HR83PBR0, and *PeopleTools 8.14 PeopleBooks*, SKU PTB814R0.

---

**Note.** Your access to PeopleSoft PeopleBooks depends on which PeopleSoft applications you've licensed. You may not have access to some of the PeopleBooks listed here.

---

---

### Hardcopy Documentation

To order printed, bound volumes of the complete PeopleSoft documentation delivered on your PeopleBooks CD-ROM, visit the PeopleSoft Press Web site from the Documentation section

of PeopleSoft Customer Connection. The PeopleSoft Press Web site is a joint venture between PeopleSoft and Consolidated Publications Incorporated (CPI), our book print vendor.

We make printed documentation for each major release available shortly after the software is first shipped. Customers and partners can order printed PeopleSoft documentation using any of the following methods:

<b>Internet</b>	From the main PeopleSoft Internet site, go to the Documentation section of Customer Connection. You can find order information under the Ordering PeopleBooks topic. Use a Customer Connection ID, credit card, or purchase order to place your order.  PeopleSoft Internet site: <a href="http://www.peoplesoft.com">http://www.peoplesoft.com</a> .
<b>Telephone</b>	Contact Consolidated Publishing Incorporated (CPI) at <b>800 888 3559</b> .
<b>Email</b>	Email CPI at <a href="mailto:callcenter@conpub.com">callcenter@conpub.com</a> .

## PeopleBooks Standard Page Element Definitions

Throughout our product documentation, you will encounter fields that are used on many application pages or panels. This section lists the most common fields and provides standard definitions.

<i>Field</i>	<i>Definition</i>
<b>Address 1, Address 2, Address 3</b>	Freeflow text entry fields that enable you to describe street, street number, apartment number, and other address information.
<b>As of Date</b>	The last date for which a report or process includes data.
<b>Block (Bloque)</b>	In Spanish addresses, a building or buildings that are close together may be called a Block (Bloque). Include the Block name in the address, if necessary.
<b>Business Unit</b>	An identification code that represents a high-level organization of business information. You can use a business unit to define regional or departmental units within a larger organization.
<b>City</b>	Name of city for address.
<b>Comment(s)</b>	Freeflow text entry that enables you to add comments.
<b>Company</b>	A business organization. For US companies using PeopleSoft Payroll for North America or PeopleSoft Pension Administration, a business unit that has a unique federal Employer Identification Number (EIN) for payroll reporting purposes.

<b>Field</b>	<b>Definition</b>
<b>Country</b>	Country for address. Other address fields will be adjusted to reflect Country choice.  Select a country from the list of valid values and press TAB to move through the field. The system automatically displays the appropriate address fields using the standardized address formats previously set up in the Country Table. Enter the appropriate address data in the fields that appear.
<b>County (also Prefecture and Parish)</b>	Name of county (prefecture/parish) for address, if applicable.
<b>Currency Code</b>	The 3-letter code in which the currency is specified.
<b>Description</b>	Freeflow text up to 36 characters that describes what you are defining.
<b>Department</b>	An identification code that represents an organization in a company.
<b>Door (Puerta)</b>	In Spanish addresses, identifies the door name or number.
<b>Effective Date</b>	Date on which a table row becomes effective; the date that an action begins. For example, if you want to close out a ledger on June 30, the effective date for the ledger closing would be July 1. This date also determines when you can view and change the information. Pages or panels and batch processes that use the information use the current row.
<b>Email</b>	The email address for a person or organization.
<b>EmplID (employee ID)</b>	Unique identification code for an individual associated with your organization.
<b>Empl Rcd# (Employee Record Number)</b>	A system-assigned number that indicate an employee has more than one record in the system.
<b>Fax (also Fax Number)</b>	The fax number for a person or organization.
<b>Floor (Piso)</b>	In Spanish addresses, identifies the floor name or number.
<b>House</b>	Identifies the type of house.
<b>Initials</b>	Initials of individual.
<b>Language</b>	Language spoken by employee/applicant/non-employee.
<b>Language or Language Code</b>	The language in which you want the field labels and report headings of your reports to print. The field values appear as you enter them.  Language also refers to the language spoken by an employee, applicant, or non-employee.
<b>Last Run On</b>	The date that a report or process was last run.
<b>Locality</b>	A tax location within an organization.
<b>Name</b>	Name of individual.

<b>Field</b>	<b>Definition</b>
<b>National ID</b>	Identification code used by countries to track information on their residents for payroll, identification, benefits, and other purposes. For example, for US residents this would be their Social Security Number; for German residents it would be their Social Insurance Number, and for UK residents it would be their National Insurance Code.
<b>Number</b>	The number related to a street, avenue, or other address field in Spanish addresses. When an address has no number, enter s/n (sin numero) to indicate that there is no number.
<b>Phone</b>	The phone number for a person or organization.
<b>Phone Extension</b>	The phone extension number for a person or organization.
<b>Phone Type</b>	Identifies the type of phone number entered in the Telephone field. Valid values are <b>Business, Campus, Cellular, Dormitory, FAX, Home, Other, Pager 1, Pager 2,</b> or <b>Telex.</b>
<b>Post Code (also Postal)</b>	Postal code for address.
<b>Prefix</b>	Prefix for individual (such as Mr., Ms., Mrs., Dr., and so on)
<b>Process Frequency group box</b>	Designates the appropriate frequency in the <b>Process Frequency</b> group box:  <b>Once</b> executes the request the next time the batch process runs. After the batch process runs, the process frequency is automatically set to <b>Don't Run</b> .  <b>Always</b> executes the request every time the batch process runs.  <b>Don't Run</b> ignores the request when the batch process runs.
<b>Process Monitor</b>	This button takes you to the Process List page, where you can view the status of submitted process requests.
<b>Regulatory Region</b>	A regulatory region can be any region where there are specific laws and regulations that are addressed by functionality in PeopleSoft Human Resources. Many country-specific transactions are driven by regulatory requirements where Regulatory Region is used for transaction processing.
<b>Report ID</b>	Identifies a report.
<b>Report Manager</b>	This button takes you to the Report List page, where you can view report content, check the status of a report, and see content detail messages (which show you a description of the report and the distribution list).
<b>Request ID</b>	A request identification that represents a set of selection criteria for a report or process.
<b>Run</b>	This button takes you to the Process Scheduler request page, where you can specify the location where a process or job runs and the process output format.

<b>Field</b>	<b>Definition</b>
<b>Run Control ID</b>	Identifies specific run control settings for a panel.
<b>Run Date</b>	The date that a process was run or a report was generated.
<b>Run Time</b>	The time that a process was run or a report was generated.
<b>SetID</b>	An identification code that represents a set of control table information. SetIDs enable the sharing of a set of control table information across two or more Business Units.
<b>Short Description</b>	Freeflow text up to 15 characters.
<b>Stair (Escalera)</b>	In Spanish addresses, identifies the stair name or number.
<b>State (also Province)</b>	State (Province) for address.
<b>Status</b>	Indicates whether a row in a table is <i>Active</i> or <i>Inactive</i> .
<b>Street Type</b>	Identifies whether an address is a place, street, avenue, road, or so on. Spanish law requires addresses in official documents to include the Street Type.
<b>Telephone (Phone)</b>	The telephone number for a person or organization.
<b>User ID</b>	The system identifier for the individual who generates a transaction.

## PeopleBook Standard Group Boxes

The following group boxes and field groupings appear throughout PeopleSoft HRMS. We have documented them once here.

---

### Entering Name Information

The following fields appear wherever you enter or display naming information:

**Format Using**

Select the country with name format appropriate for this employee. The system will display the appropriate fields for this format in the Person Name group box.

**Refresh the Name Field**

Click to refresh the Name field after you’ve edited any of the name fields. The system will refresh the name field when you save.

**Person Name or Current Name**

The following fields appear in the Person Name group box. You will not see all of the fields listed below at any one time. The system displays the fields necessary for the country you select in the Format Using field.

<b>Title</b>	Select a title. If you are reporting employee information under the German Duevo Directive, this field is required and must be completed according to the Duevo rules.
<b>Prefix and Name Prefix</b>	Select a Prefix or Name Prefix, if applicable.
<b>Royal Prefix</b>	Select a Royal Prefix, if applicable.
<b>First Name</b>	Enter the employee's official first name.
<b>Preferred First Name</b>	For The Netherlands, enter the employee's preferred first name, if different from the First Name. The system will use the preferred name when you generate form letters or mailing labels for this employee.
<b>Last Name Preference</b>	For the Netherlands, choose this link to provide additional name information for married employees. The Last Name Preference page contains three fields: Last Name Partner, Prefix Partner and Last Name Preference.
<b>Middle</b>	Enter the employee's middle name, if applicable.
<b>Last Name</b>	Enter the employee's official last name.
<b>Suffix</b>	Select a suffix, if applicable.
<b>Second Last Name</b>	For Spanish employees, enter the second surname (mother's surname).
<b>Alternate Character Name</b>	Use this field to enter the employee's name using alternate characters (such as Japanese phonetic characters).  <b>Note.</b> You can enter names using Japanese characters with or without a space between the surname and given name. Names using Roman alphanumeric characters require a comma delimiter.  <b>Warning!</b> Be sure to select the correct character set on the Installation Table – Alternate Characters page. Using the wrong character set generates an error message.
<b>Royal Suffix</b>	Select the appropriate royal suffix. If you are reporting employee information under the German Duevo Directive, this field is required and must be completed according to the Duevo rules.
<b>Name</b>	The system displays the employee's name as it will appear in the system.

### Displaying Japanese Names on Pages

Pages that display personal name fields usually display them in First Name, Last Name order. When the country is Japan, however (JPN in the Format Using field), those fields appear in the Last Name, First Name order.

Another difference is that the Name field displays “Last Name[space]First Name,” not “Last Name,First Name”; that is, a space separates the last and first names, not a comma.

Person Name	
Last:	津村
First:	友則
Alternate Character Name:	ツムラトモリ
Name:	津村 友則

Japanese name format on a page

---

## Entering Address Information

The following fields appear in address group boxes throughout PeopleSoft HRMS. You may not see all of the fields listed below as the system displays only the fields necessary for the country in use. Determine which address fields are required for each country on the Country Table – Address Format page.

<b>Country</b>	Select the country with address format appropriate for this address. The system will display the appropriate fields for this format in the address group box.
<b>Address 1, Address 2, Address 3, and Address 4</b>	Freeflow text entry fields that enable you to describe street, street number, apartment number, and other address information.
<b>City</b>	Enter the city.
<b>County</b>	Enter the county, if applicable.
<b>State (State, Province, or other)</b>	Enter the state or province.
<b>Postal</b>	Enter the postal, such as zip or postal code.
<b>Number 1, and Number 2</b>	Enter the number related to a street, avenue, or other address field in Spanish addresses. When an address has no number, enter s/n (sin numero) to indicate that there is no number.

<b>House Type</b>	Enter the house type, if applicable.
<b>Postal Search</b>	Click <b>Postal Search</b> to use international address formats.

---

## Entering or Viewing Pay Components

### Amounts Tab

### Pay Components - Amounts

<b>Rate Code</b>	Rate codes are IDs for pay components. The system inserts any compensation information associated with this rate code in the compensation grid.  <b>Note.</b> If a seniority rate code is inserted as a default value on the Job Data - Compensation page, the values for these rate codes are unavailable for entry.
<b>Seq (sequence)</b>	The sequence number of the rate code if it is used more than once.
<b>Details</b>	Click the <b>Details</b> button to open the Comp Rate Code Secondary Panel page.
<b>Comp Rate</b> , (compensation rate) <b>Currency</b> , and <b>Frequency</b>	The compensation rate, its currency, and the frequency (for example, annually, weekly, or hourly) the comp rate will be paid.
<b>Apply FTE</b>	If selected, the system multiplies the rate code value by the FTE factor for annualization and deannualization. FTE is the percent of full time the employee should normally work in the corresponding job. This field isn't available for <b>Percent</b> rate codes.
<b>Points</b>	The salary points associated with this rate code, if any.
<b>Percent</b>	If the rate code rate type is <b>Percent</b> , the system displays the percent to be applied to the job compensation rate or to a rate code group if you are using rate code groups.
<b>Rate Code Group</b>	A rate code group enables you to be more specific when calculating percentages based components as part of your employee compensation package.

**Comp Rate Code Secondary Panel**

**Comp Rate Code:** TSDFLT

**Description:** Salaried Default

**Base Pay**     **Use Highest Rate**

**Default Without Override**

**Rate Code Type:** Flat Amount

**Rate Code Class:**

**Comp Rate Code Secondary Panel**

Access this page by clicking the Details link on the Amounts page. Displays additional information about the rate code.

**See Also**

*PeopleSoft Application Fundamentals for HRMS PeopleBook*, “Working With Multiple Components of Pay,” **Defining Rate Codes**

**Changes Tab**

Pay Components							First	1 of 1	Last
Amounts		Changes		Conversion					
*Rate Code	Seq	Manually Updated	Change Amount	Change Points	Change Percent				
1	0	<input type="checkbox"/>	0.000000		0.000	<input type="button" value="+"/>	<input type="button" value="-"/>		

**Pay Components – Changes page**

This page displays the change in an employee’s salary.

- Manually Updated**                      The system selects this if you have manually updated the pay components.
- Change Amount**                        The overall change amount to this pay component rate.
- Change Points**                         The overall change amount (in points) to this pay component, if applicable.
- Change Percent**                        The overall percentage change to this pay component, if applicable.

Pay Components							First	1 of 1	Last
Amounts		Changes		Conversion					
*Rate Code	Seq	Source	Default Without Override	Apply FTE	Converted Comp Rate				
1		None	<input type="checkbox"/>	<input type="checkbox"/>					

### Pay Components – Conversion

This page displays the conversion rates in an employee's salary.

<b>Source</b>	The system displays the source of the rate code, such as <i>Absorbing Premium</i> , <i>Seniority Pay</i> , <i>Job Code</i> , or <i>Manual</i> .
<b>Default Without Override</b>	Selected if the worker's compensation package cannot be manually updated on the Job Data – Compensation page.
<b>Apply FTE</b>	Indicates if the converted rate code value will be multiplied by the FTE factor for annualization and deannualization.
<b>Converted Comp Rate</b>	Displays the converted compensation rate for this pay component. The system converts all base pay components to the Job currency and compensation frequency.

## Required Fields on Pages

When you see a field on a page with an asterisk ( \* ) preceding the field name, it means the field is required. You can not save a page without entering data into all of the required fields on a page.

<b>*Description:</b>	This is a required field
----------------------	--------------------------

Example of a required field label

In some unique instances a field may be required even though there is no asterisk preceding the field name. In such cases, you will be prompted to enter data in these fields before saving the page.

## Typographical Conventions and Visual Cues

To help you locate and interpret information, we use a number of standard conventions in our online documentation.

Please take a moment to review the following typographical cues:

monospace font

Indicates PeopleCode.

<b>Bold</b>	Indicates field names and other page elements, such as buttons and group box labels, when these elements are documented below the page on which they appear. When we refer to these elements elsewhere in the documentation, we set them in Normal style (not in bold).  We also use boldface when we refer to navigational paths, menu names, or process actions (such as <b>Save</b> and <b>Run</b> ).
<i>Italics</i>	Indicates a PeopleSoft or other book-length publication. We also use italics for <i>emphasis</i> and to indicate specific field values. When we cite a field value under the page on which it appears we use this style: <i>field value</i> .  We also use italics when we refer to words as words or letters as letters, as in the following: Enter the number <i>0</i> , not the letter <i>O</i> .
KEY+KEY	Indicates a key combination action. For example, a plus sign (+) between keys means that you must hold down the first key while you press the second key. For ALT+W, hold down the ALT key while you press W.
<b>See Also</b>	PeopleBooks provide cross-references under the heading “See Also.” Capitalized titles in italics indicate the title of a PeopleBook; titles in quotes indicate the title of a chapter; titles in normal font refer to sections within the PeopleBook. Here's an example:

**See Also**

*About These HRMS PeopleBooks, PeopleSoft 8.3 HRMS PeopleBooks Preface*

---

**Note.** Text in this bar indicates information that you should pay particular attention to as you work with your PeopleSoft system. If the note is preceded by **Important!**, the note is crucial and includes information that concerns what you need to do for the system to function properly.

**Warning!** Text within this bar indicates a crucial configuration consideration. Pay very close attention to these warning messages.

---

## Process Introductory Table

In the documentation, each business process in the application is accompanied by an introductory table with pertinent information about the pages used in the process.

<i>Page</i>	<i>System Name</i>	<i>Navigation</i>	<i>Usage</i>
Name of the page.	Gives the system name of the page as specified in the PeopleTools Application Designer. For example, the system name of the Detail Calendar panel is DETAIL_CALENDAR1.	Provides the path for accessing the page.	Describes how you would use the page.

## USF U.S. Federal Government Functionality

Any functionality that is specific to the U.S. Federal Government sector will be designated by a USF marker. Most often this will appear at the beginning of a section heading (such as with this section), but the USF designation might also appear in a note or within text, if appropriate.

## E&G Education and Government Functionality

Any functionality that is specific to the Education and Government sector will be designated by an E&G marker. Most often this will appear at the beginning of a section heading (such as with this section), but the E&G designation might also appear in a note or within text, if appropriate.

## Local Country Functionality

Any functionality that is specific to an individual country will be designated by the three-character ISO code for that country. For example, functionality specific to Germany would be indicated by a DEU designation at the beginning of a section heading. Most often this will appear at the beginning of a section heading (such as with this section), but the country designation might also appear in a Note or within text, if appropriate.

## Comments and Suggestions

Your comments are important to us. We encourage you to tell us what you like, or what you would like changed about our documentation, PeopleBooks, and other PeopleSoft reference and training materials. Please send your suggestions to:

PeopleSoft HRMS Product Documentation Manager  
 PeopleSoft, Inc.  
 4460 Hacienda Drive  
 Pleasanton, CA 94588

Or send comments by email to the authors of the PeopleSoft documentation at:

**DOC@PEOPLESOFT.COM**

While we cannot guarantee to answer every email message, we will pay careful attention to your comments and suggestions. We are always improving our product communications for you.

## CHAPTER 1

# About the PeopleSoft 8.3 HRMS Portal Pack PeopleBook

This book provides you with the information you will need for implementing and using PeopleSoft HRMS Portal Pack.

This preface explains how to use the documentation for PeopleSoft HRMS Portal Pack. General information you should know before you begin using PeopleSoft documentation is presented in **About the HRMS PeopleBooks**.

---

**Note.** We strongly recommend that you read About the HRMS PeopleBooks. In particular, the PeopleSoft Application Fundamentals section lists where you can find information about topics that apply to many PeopleSoft applications across the HRMS product line. For example, you can find information about setting up control tables, administering security, and setting language and currency preferences in the *PeopleSoft Application Fundamentals for HRMS PeopleBook*.

---

## CHAPTER 2

# PeopleSoft HRMS Portal Pack Pagelets

This chapter provides an overview of the PeopleSoft HRMS Portal Pack and discusses how to:

- Set up the HRMS Portal Pack.
- Use the HRMS Portal Pack pagelets.

## Overview of the HRMS Portal Pack

The PeopleSoft HRMS Portal Pack includes portal pagelets that provide access to key data from your PeopleSoft HRMS system. The portal pack is intended to supplement the portal applications with pagelets for the home page of your portal.

### *Pagelets in the PeopleSoft HRMS Portal Pack*

<b>Pagelet</b>	<b>Required Application</b>
Anniversary Alert	PeopleSoft eProfile Manager Desktop
Birthday Alert	PeopleSoft eProfile Manager Desktop
Direct Reports	PeopleSoft eProfile Manager Desktop
Company Directory	PeopleSoft HRMS
Employee Absence Summary	PeopleSoft Global Payroll PeopleSoft Payroll for North America
Job Requisitions	PeopleSoft eRecruit
Manager Absence Summary	PeopleSoft Global Payroll
Stock Options	PeopleSoft eEquity
View Payslip	PeopleSoft ePay

### **Activating Pagelets**

When you install the PeopleSoft HRMS Portal Pack, the pagelets appropriate for your role become available for adding to your portal home page. To add one or more, click the **Personalize Content** link from your home page and select the check box next to the pagelets you want from the HRMS section.

## Using HRMS Portal Pack Pagelets

The HRMS Portal Pack pagelets provide employees and managers easy access to information relevant to their position and role.

### Pagelets Used by the HRMS Portal Pack

<i>Pagelet Name</i>	<i>Object Name</i>	<i>Usage</i>
Anniversary Alert	CO_PE_MGR_HIRED	Managers use this pagelet to view the hire date for their direct reports. The employee's name provides a link to the Employee Information page in eProfile.
Birthday Alert	CO_PE_MGR_BIRTHDAY	Managers use this pagelet to view the birth date for their direct reports. The employee's name provides a link to the Employee Information page in eProfile.
Direct Reports	CO_PE_MGRRPTS_COMP	Managers use this pagelet to view a list of their direct reports. The name of the employee provides a link to the Employee Information page in eProfile
Company Directory	EO_PE_CDCOMPDIR	Employees use this pagelet to search for people or locations.
Employee Absence Summary	HR_PE_EMPL_LEAVE	<p><b>For Payroll for NA users:</b> Payees can view their leave balances.</p> <p><b>For Global Payroll users:</b> Payees can review absence history, review absence balances, enter requests for absences, and forecast absence balances as of a particular date.</p>
Job Requisitions	HR_PE_JOB_REQ_LST	Managers and recruiters use this pagelet to display a list of job requisitions that they created or for which they are the recruiter. The job requisition number provides a link to the Job Requisition page in eRecruit and the status provides a link to the Job Requisition Status History page in eRecruit.
Manager Absence Summary	HR_PE_MGR_LEAVE	Managers can review and approve requests for absences from their direct reports managed by Global Payroll.
Stock Options	ST_PE_OPTION	Employees use this pagelet to review detailed information about their stock options.
View Payslip	PY_PE_PAYCHECK	Employees use this pagelet to select a payslip from a list and view the detailed information of the payslip.
