# CHAPTER 1

## Global Payroll for Australia Reports

This appendix provides an overview of Global Payroll for Australia reports and enables you to view summary tables of all reports.

---

**Note.** For samples of these reports, see the PDF files published on CD-ROM with your documentation.

---

### Global Payroll for Australia Reports: A to Z

These tables list the Global Payroll for Australia reports. There is additional information about report run control pages within the chapter for particular features. All reports are Structured Query Report (SQR) reports, although some obtain data from Application Engine programs.

---

**Note.** Reports that can be at detail or summary level include the suffix - *A* or - *B*, respectively, in the ID when printed. For example, the BAS report can be GPAUPY13 - A or GPAUPY13 - B.

An asterisk after the report name in the first column indicates that there is more information in this PeopleBook. For links to that information, use the cross-references following the table
