Preface

About this Documentation

This document is a supplement to the PeopleSoft Enterprise PeopleTools 8.50 Hardware and Software Requirements guide. All new installs of HRCS 9.0 require PeopleTools 8.50.03 or higher. For upgrade customers, please check the Upgrade Home Page for the PeopleTools requirements for your specific upgrade path.

See Enterprise PeopleTools 8.50 Hardware and Software Requirements for your database platform, available on My Oracle Support.

CHAPTER 1

Defining Hardware and Software Requirements

This chapter discusses:

- Prerequisites
- Defining Required Database Size
- Defining Software Requirements and Options

Prerequisites

If you have licensed PeopleSoft Global Payroll Core or PeopleSoft Absence Management, you need an NT Process Scheduler to run the PeopleSoft Packager Utilities. Refer to *Installing Absence Management and/or Global Payroll Core in PeopleSoft Enterprise HRMS and Campus Solutions 9.0 Application Supplemental Installation* for information on how this Process Scheduler is to be used. Refer to the Enterprise PeopleTools installation guide on how to install a Process Scheduler.

See *PeopleSoft Enterprise HRMS and Campus Solutions 9.0 Application Supplemental Installation Guide*

Note. The Micro Focus COBOL compiler is required for customers using the PeopleSoft Enterprise HRMS suite; however, it is not required when using only the PeopleSoft Human Resources application without Base Benefits.

Note. COBOL is not needed for Enterprise PeopleTools or for applications that contain no COBOL programs. If your application contains COBOL programs, you need to purchase a Micro Focus COBOL compiler for non-mainframe platforms, or an IBM Enterprise COBOL for OS/390 and z/OS compiler for z/OS platforms.

Task 1-1: Defining Required Database Size

Size requirements for the PeopleSoft HRMS/CS demo database, HRDMO, vary by platform. Oracle lists the size requirements for each platform in the PeopleSoft Enterprise 9.0 HRMS and Campus Solutions Application Supplemental Installation guide that is available on My Oracle Support.

See *PeopleSoft Enterprise HRMS and Campus Solutions 9.0 Application Supplemental Installation on My Oracle Support*.

Task 1-2: Defining Software Requirements and Options

This section discusses:

- Required Software Packages for PeopleSoft HRMS and PeopleSoft Campus Solutions Applications
- Optional Software Packages for PeopleSoft HRMS and PeopleSoft Campus Solutions Applications

Task 1-2-1: Required Software Packages for PeopleSoft HRMS and PeopleSoft Campus Solutions Applications

The following table lists required software packages for the PeopleSoft HRMS and PeopleSoft Campus Solutions applications.

Note. In the Required Software Packages for the PeopleSoft HRMS and PeopleSoft Campus Solutions Applications tables, “R” indicates software required to use the corresponding PeopleSoft HRMS or PeopleSoft Campus Solutions application, and “O” indicates optional software packages supported by the corresponding PeopleSoft application. “N/A” indicates Not Applicable.
