

# Oracle® Content Integration Suite

Release Notes

10g Release 3 (10.1.3.3.3)

November 2008

---

These release notes describe new features and enhancements as well as any specific installation and implementation considerations for Oracle Content Integration Suite (CIS) version 10g Release 3 (10.1.3.3.3).

---

---

**Note:** This release does not support the Content Server FileStoreProvider component if Optimized File Transfer is enabled.

---

---

## 1 What's New

CIS includes the following new features and enhancements compared to earlier 10gR3 releases:

### Compared to CIS 10gR3 (10.1.3.3.2)

- This version of CIS deprecates the client-server architecture.

### Compared to Earlier CIS 10gR3 Releases (10.1.3.3.0 and 10.1.3.3.1)

- This version of CIS offers a localized CIS Administration Application interface and localized error messages. The following languages are supported: English, German, French, Spanish, Portuguese (Brazil), Italian, Dutch, Chinese (both traditional and simplified), Japanese, and Korean. Please note that the software help is in English, regardless of the selected interface language.

## 2 Installation Considerations

CIS enables communication with Oracle Content Server and is deployable on a number of J2EE application servers, in addition to working in non-J2EE environments. A supported version of Oracle Content Server is required:

- Oracle Content Server 7.5.2 or later. Version 10gR3 is recommended.

## 3 Implementation Considerations

The following implementation considerations should be taken into account when using this version of CIS:

### Administration Interface and Error Message Language

The CIS Administration Application interface language and the error message language is automatically set, depending on the locale of the operating system of

the client computer. For example, if you are running a German version of Microsoft Windows, then the CIS software will have a German interface.

#### **Software Help System in English**

The software help system of CIS is always in English, regardless of the interface language.

## **4 Documentation**

CIS comes with a comprehensive online Help system and a full set of PDF documentation. The Help system can be accessed from the CIS Administration Application. The PDF documentation is located in the /docs directory of the unbundled CIS distribution file.

#### **CIS Developer Guide**

The CIS Developer Guide contains information on command invocation and execution, and on extending commands.

#### **CIS Administration Guide**

The CIS Administration Guide contains information on the configuration of Content Integration Suite using the CIS Administration Application.

## **5 Documentation Accessibility**

Our goal is to make Oracle products, services, and supporting documentation accessible, with good usability, to the disabled community. To that end, our documentation includes features that make information available to users of assistive technology. This documentation is available in HTML format, and contains markup to facilitate access by the disabled community. Accessibility standards will continue to evolve over time, and Oracle is actively engaged with other market-leading technology vendors to address technical obstacles so that our documentation can be accessible to all of our customers. For more information, visit the Oracle Accessibility Program Web site at

<http://www.oracle.com/accessibility/>

#### **Accessibility of Code Examples in Documentation**

Screen readers may not always correctly read the code examples in this document. The conventions for writing code require that closing braces should appear on an otherwise empty line; however, some screen readers may not always read a line of text that consists solely of a bracket or brace.

#### **Accessibility of Links to External Web Sites in Documentation**

This documentation may contain links to Web sites of other companies or organizations that Oracle does not own or control. Oracle neither evaluates nor makes any representations regarding the accessibility of these Web sites.

#### **TTY Access to Oracle Support Services**

Oracle provides dedicated Text Telephone (TTY) access to Oracle Support Services within the United States of America 24 hours a day, seven days a week. For TTY support, call 800.446.2398.

The Programs (which include both the software and documentation) contain proprietary information; they are provided under a license agreement containing restrictions on use and disclosure and are also protected by copyright, patent, and other intellectual and industrial property laws. Reverse engineering, disassembly, or decompilation of the Programs, except to the extent required to obtain interoperability with other independently created software or as specified by law, is prohibited.

The information contained in this document is subject to change without notice. If you find any problems in the documentation, please report them to us in writing. This document is not warranted to be error-free. Except as may be expressly permitted in your license agreement for these Programs, no part of these Programs may be reproduced or transmitted in any form or by any means, electronic or mechanical, for any purpose.

If the Programs are delivered to the United States Government or anyone licensing or using the Programs on behalf of the United States Government, the following notice is applicable:

U.S. GOVERNMENT RIGHTS Programs, software, databases, and related documentation and technical data delivered to U.S. Government customers are "commercial computer software" or "commercial technical data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the Programs, including documentation and technical data, shall be subject to the licensing restrictions set forth in the applicable Oracle license agreement, and, to the extent applicable, the additional rights set forth in FAR 52.227-19, Commercial Computer Software--Restricted Rights (June 1987). Oracle USA, Inc., 500 Oracle Parkway, Redwood City, CA 94065.

The Programs are not intended for use in any nuclear, aviation, mass transit, medical, or other inherently dangerous applications. It shall be the licensee's responsibility to take all appropriate fail-safe, backup, redundancy and other measures to ensure the safe use of such applications if the Programs are used for such purposes, and we disclaim liability for any damages caused by such use of the Programs.
