

# Oracle® Content Portlet Suite

Release Notes

10g Release 3 (10.1.3.3.2)

October 2007

---

These release notes describe new features and enhancements as well as any specific installation and implementation considerations for Oracle Content Portlet Suite (CPS) version 10g Release 3 (10.1.3.3.2).

## 1 What's New

CPS includes the following new features and enhancements compared to earlier 10gR3 releases:

### Localized Portlet Interfaces

This version of CPS offers localized portlet interfaces. The following languages are supported: English, German, French, Spanish, Portuguese (Brazil), Italian, Dutch, Chinese (both traditional and simplified), Japanese, and Korean. Please note that the software help is in English, regardless of the selected interface language.

## 2 Installation Considerations

The following special considerations should be taken into account when installing this version of CPS:

- CPS requires that Content Integration Suite version 10gR3 be installed and available.
- Java Virtual Machine (JVM) J2SE 1.4 or later is required.
- If you are deploying CPS for Oracle Application Server Portal, you must ensure the portal server has been installed with all the languages you wish to use. By default, the installer for Oracle Application Server Portal installs in English and in the operating system language. If you need additional languages, you must perform an advanced installation. Refer to the Oracle Application Server Portal documentation for additional information.

## 3 Implementation Considerations

The following implementation considerations should be taken into account when using this version of CPS:

### Portlet Interface Language

The portlet interface language is automatically set, depending on the locale of the operating system of the client computer. For example, if you are running a

German version of Microsoft Windows, then the CPS software will have a German interface.

## 4 Documentation

CPS comes with a full set of PDF documentation. This documentation is located in the /docs directory of the unbundled CPS distribution file.

### CPS Installation Guide

The CPS Installation Guide contains information to assist administrators responsible for the installation of Content Portlet Suite. Each supported portal server has a dedicated installation guide:

- cps-oracle-install.pdf
- cps-plumtree-install.pdf
- cps-sunone-install.pdf
- cps-weblogic-install.pdf
- cps-websphere-install.pdf

### CPS Developer Guide

The CPS Developer Guide (cps-developer-guide.pdf) contains information to assist administrators responsible for the configuration and operation of Content Portlet Suite.

### Additional Documentation

Also refer to the Content Information Suite (CIS) documentation located in the /docs directory of the unbundled CIS distribution file:

- CIS Installation Guide (cis-installation-guide.pdf) for general information and installation instructions
- CIS Administration Guide (cis-administration-guide.pdf) for information on the configuration of Content Integration Suite using the CIS Administration Application.
- CIS Developer Guide (cis-developer-guide.pdf) for information on command invocation and execution, and on extending commands.

## 5 Documentation Accessibility

Our goal is to make Oracle products, services, and supporting documentation accessible, with good usability, to the disabled community. To that end, our documentation includes features that make information available to users of assistive technology. This documentation is available in HTML format, and contains markup to facilitate access by the disabled community. Accessibility standards will continue to evolve over time, and Oracle is actively engaged with other market-leading technology vendors to address technical obstacles so that our documentation can be accessible to all of our customers. For more information, visit the Oracle Accessibility Program Web site at

<http://www.oracle.com/accessibility/>

### **Accessibility of Code Examples in Documentation**

Screen readers may not always correctly read the code examples in this document. The conventions for writing code require that closing braces should appear on an otherwise empty line; however, some screen readers may not always read a line of text that consists solely of a bracket or brace.

### **Accessibility of Links to External Web Sites in Documentation**

This documentation may contain links to Web sites of other companies or organizations that Oracle does not own or control. Oracle neither evaluates nor makes any representations regarding the accessibility of these Web sites.

### **TTY Access to Oracle Support Services**

Oracle provides dedicated Text Telephone (TTY) access to Oracle Support Services within the United States of America 24 hours a day, seven days a week. For TTY support, call 800.446.2398.

The Programs (which include both the software and documentation) contain proprietary information; they are provided under a license agreement containing restrictions on use and disclosure and are also protected by copyright, patent, and other intellectual and industrial property laws. Reverse engineering, disassembly, or decompilation of the Programs, except to the extent required to obtain interoperability with other independently created software or as specified by law, is prohibited.

The information contained in this document is subject to change without notice. If you find any problems in the documentation, please report them to us in writing. This document is not warranted to be error-free. Except as may be expressly permitted in your license agreement for these Programs, no part of these Programs may be reproduced or transmitted in any form or by any means, electronic or mechanical, for any purpose.

If the Programs are delivered to the United States Government or anyone licensing or using the Programs on behalf of the United States Government, the following notice is applicable:

U.S. GOVERNMENT RIGHTS Programs, software, databases, and related documentation and technical data delivered to U.S. Government customers are "commercial computer software" or "commercial technical data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the Programs, including documentation and technical data, shall be subject to the licensing restrictions set forth in the applicable Oracle license agreement, and, to the extent applicable, the additional rights set forth in FAR 52.227-19, Commercial Computer Software--Restricted Rights (June 1987). Oracle USA, Inc., 500 Oracle Parkway, Redwood City, CA 94065.

The Programs are not intended for use in any nuclear, aviation, mass transit, medical, or other inherently dangerous applications. It shall be the licensee's responsibility to take all appropriate fail-safe, backup, redundancy and other measures to ensure the safe use of such applications if the Programs are used for such purposes, and we disclaim liability for any damages caused by such use of the Programs.

Oracle, JD Edwards, PeopleSoft, and Siebel are registered trademarks of Oracle Corporation and/or its affiliates. Other names may be trademarks of their respective owners.

The Programs may provide links to Web sites and access to content, products, and services from third parties. Oracle is not responsible for the availability of, or any content provided on, third-party Web sites. You bear all risks associated with the use of such content. If you choose to purchase any products or services from a third party, the relationship is directly between you and the third party. Oracle is not responsible for: (a) the quality of third-party products or services; or (b) fulfilling any of the terms of the agreement with the third party, including delivery of products or services and warranty obligations related to purchased products or services. Oracle is not responsible for any loss or damage of any sort that you may incur from dealing with any third party.
