Oracle® Content Portlet Suite

Release Notes

10*g* Release 3 (10.1.3.3.5)

June 2009

These release notes describe new features and enhancements as well as any specific installation and implementation considerations for Oracle Content Portlet Suite Release Notes (CPS) version 10*g* Release 3 (10.1.3.3.5).

1 What's New

CPS 10*g* Release 3 (10.1.3.3.5) includes the following new features and enhancements compared to earlier 10*g*R3 releases:

Additional WSRP Support

Oracle WebCenter 11*g* is now supported as a WSRP producer. Refer to *Deploying CPS as a WSRP Producer* in the CPS Installation Guide for more information.

Portlets for This Release

These are the available portlets for this release:

- Oracle Guest Library
- Oracle Guest Search
- Oracle Saved Search
- Oracle Contribution
- Oracle Workflow Queue
- Oracle Library
- Oracle Search
- Oracle Metadata Admin

Accessibility

Successful access to information by people with disabilities is known as *accessibility*. Accessibility is a significant issue for a growing user population and includes not only those born disabled, but those who have experienced incapacitation through accident, illness, or aging. Oracle's goal is to ensure that products and services are accessible to the disabled community with excellent usability. Industry standards will continue to evolve over time, and Oracle is actively engaged with other market leading technology vendors in addressing technical obstacles.

2 Supported Servers and Versions

CPS is deployed as a WSRP producer and can be consumed from other WSRP enabled consumers (portals). These are the supported WSRP producers and WSRP consumers for CPS:

Supported WSRP Producers

- **Oracle WebCenter 11g**

  Supported Consumers for WebCenter 11*g*:

  Oracle WebCenter Spaces

- **Oracle Application Server 10.1.3.4 (preconfigured with WebCenter 10.1.3.4)**

  Supported Consumers for WebCenter 10.1.3.4:

  Oracle WebCenter 10.1.3.4

  Oracle WebCenter Interaction 10.3

  Oracle WebLogic Portal 10.3

- **Oracle WebLogic Portal 10.3 (preconfigured with Oracle WebLogic Server 10.3)**

  Supported Consumers for WebLogic Portal 10.3:

  Oracle WebCenter Interaction 10.3

  Oracle WebLogic Portal 10.3

> **Note:** A Private Patch is required for WebLogic Portal as producer. See the installation considerations below for more information.

3 Installation Considerations

The following installation considerations should be taken into account when using this version of CPS:

Private Patch Required for WebLogic Portal as Producer

This release requires that you download and apply a Private Patch to use WebLogic Portal as producer. You can download this patch using WebLogic Smart Update (requires valid support ID and password). If you do not have a valid support ID and password or are unable to connect to the Smart Update download site, contact Oracle Customer Support.

Patch Identifier: **DZZQ**

Passcode: **GYSN412N**

Refer to *Installing Patches and Maintenance Packs* for additional details at `http://e-docs.bea.com/common/smartupdate/guide/index.html`

4 Implementation Considerations

The following implementation considerations should be taken into account when using this version of CPS:

Portlet Interface Language

The portlet interface language is automatically set, depending on the locale of the operating system of the client computer. For example, if you are running a German version of Microsoft Windows, then the CPS software will have a German interface.

5 Documentation

CPS comes with a full set of PDF documentation. This documentation is located in the /docs directory of the CPS distribution package.

CPS Installation Guide

The CPS Installation Guide contains information to assist administrators responsible for the installation of Content Portlet Suite.

CPS Developer Guide

The CPS Developer Guide contains information to assist administrators responsible for the configuration and operation of Content Portlet Suite.

6 Documentation Accessibility

Our goal is to make Oracle products, services, and supporting documentation accessible to all users, including users that are disabled. To that end, our documentation includes features that make information available to users of assistive technology. This documentation is available in HTML format, and contains markup to facilitate access by the disabled community. Accessibility standards will continue to evolve over time, and Oracle is actively engaged with other market-leading technology vendors to address technical obstacles so that our documentation can be accessible to all of our customers. For more information, visit the Oracle Accessibility Program Web site at http://www.oracle.com/accessibility/.

Accessibility of Code Examples in Documentation

Screen readers may not always correctly read the code examples in this document. The conventions for writing code require that closing braces should appear on an otherwise empty line; however, some screen readers may not always read a line of text that consists solely of a bracket or brace.

Accessibility of Links to External Web Sites in Documentation

This documentation may contain links to Web sites of other companies or organizations that Oracle does not own or control. Oracle neither evaluates nor makes any representations regarding the accessibility of these Web sites.

Deaf/Hard of Hearing Access to Oracle Support Services

To reach Oracle Support Services, use a telecommunications relay service (TRS) to call Oracle Support at 1.800.223.1711. An Oracle Support Services engineer will handle technical issues and provide customer support according to the Oracle service request process. Information about TRS is available at http://www.fcc.gov/cgb/consumerfacts/trs.html, and a list of phone numbers is available at http://www.fcc.gov/cgb/dro/trsphonebk.html.
