Oracle® Content Folios

Release Notes

10*g* Release 3 (10.1.3.3.2)

October 2007

These release notes outline new and enhanced features for this release of Content Folios. These release notes also describe specific installation and implementation considerations for Content Folios version 10*g* Release 3 (10.1.3.3.2).

1 What's New

This release of Content Folios has the following new features and enhancements:

Compatibility with Content Server 10gR3

This version of Folios offers compatibility with Content Server 10gR3 version 10.1.3.3.2, and version 10.1.3.3.1 with the appropriate update patch installed (10gR3V1Update). It also features a localized user interface. The following languages are supported: English, German, French, Spanish, Portuguese (Brazil), Italian, Dutch, Chinese (both traditional and simplified), Japanese, and Korean. Please note that the software help is in English, regardless of the Content Folios user interface language.

Features

Content Folios provides a quick and effective way to assemble, track, and access logical groupings of multiple content items from within the secure environment of Content Server. With Content Folios you can do the following:

- create folios to assemble associated content in a hierarchical structure
- create folios from templates with structure pre-defined
- add, remove, or modify the structure of content associated in a folio
- route a folio structure through a workflow process
- create multiple unstructured content baskets to temporarily store content
- promote content baskets to a structured folio
- create simple flat folios of associated content for routing through a workflow process
- revision folios with snapshots of structure at any time
- archive folio content when revisioning
- lock folios to prevent editing

2 Installation Considerations

Refer to the *Content Folios Installation and Administration Guide* for system requirements and instructions on installing Content Folios.

3 User Documentation

Content Folios is shipped with a comprehensive online help system and a full set of PDF documentation. The Content Folios help files can be accessed from the Content Server application or the file system:

- To view the help system from the Content Server application, click any quick help link in the Folios user interface. The Welcome link in the administrator online help provides useful information on using the help system.
- To view the user help system from the file system, go to the <install_dir>/weblayout/help/user_help/folios_user/ directory and start the wh_start.htm file. This starts the Folios user help.
- To view the administrator help system from the file system, go to the <install_dir>/weblayout/help/admin/folios_admin/ directory and start the wh_start.htm file. This starts the Folios administrator help.

The Folios documentation is also available as PDF files, which can be accessed by clicking the PDF icon in the top-right corner of each page of the Folios help system. Alternately, the *Content Folios Installation and Administration Guide* PDF is located in the <install_dir>/weblayout/help/documentation/admin/ directory, and the *Content Folios User Guide* is located in the <install_dir>/weblayout/help/user_help/documentation/user/ directory.

Software Help System in English

The software help system of Content Folios is always in English, regardless of the user interface language.

4 Documentation Accessibility

Our goal is to make Oracle products, services, and supporting documentation accessible, with good usability, to the disabled community. To that end, our documentation includes features that make information available to users of assistive technology. This documentation is available in HTML format, and contains markup to facilitate access by the disabled community. Accessibility standards will continue to evolve over time, and Oracle is actively engaged with other market-leading technology vendors to address technical obstacles so that our documentation can be accessible to all of our customers. For more information, visit the Oracle Accessibility Program Web site at

http://www.oracle.com/accessibility/

Accessibility of Links to External Web Sites in Documentation

This documentation may contain links to Web sites of other companies or organizations that Oracle does not own or control. Oracle neither evaluates nor makes any representations regarding the accessibility of these Web sites.

TTY Access to Oracle Support Services

Oracle provides dedicated Text Telephone (TTY) access to Oracle Support Services within the United States of America 24 hours a day, seven days a week. For TTY support, call 800.446.2398.

Release Notes for Content Folios, 10*g* Release 3 (10.1.3.3.2) for Windows

The Programs (which include both the software and documentation) contain proprietary information; they are provided under a license agreement containing restrictions on use and disclosure and are also protected by copyright, patent, and other intellectual and industrial property laws. Reverse engineering, disassembly, or decompilation of the Programs, except to the extent required to obtain interoperability with other independently created software or as specified by law, is prohibited.

The information contained in this document is subject to change without notice. If you find any problems in the documentation, please report them to us in writing. This document is not warranted to be error-free. Except as may be expressly permitted in your license agreement for these Programs, no part of these Programs may be reproduced or transmitted in any form or by any means, electronic or mechanical, for any purpose.

If the Programs are delivered to the United States Government or anyone licensing or using the Programs on behalf of the United States Government, the following notice is applicable:

U.S. GOVERNMENT RIGHTS Programs, software, databases, and related documentation and technical data delivered to U.S. Government customers are "commercial computer software" or "commercial technical data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the Programs, including documentation and technical data, shall be subject to the licensing restrictions set forth in the applicable Oracle license agreement, and, to the extent applicable, the additional rights set forth in FAR 52.227-19, Commercial Computer Software--Restricted Rights (June 1987). Oracle USA, Inc., 500 Oracle Parkway, Redwood City, CA 94065.

The Programs are not intended for use in any nuclear, aviation, mass transit, medical, or other inherently dangerous applications. It shall be the licensee's responsibility to take all appropriate fail-safe, backup, redundancy and other measures to ensure the safe use of such applications if the Programs are used for such purposes, and we disclaim liability for any damages caused by such use of the Programs.
