

# Oracle® Retail Extract, Transform, and Load

Release Notes

Release 13.0.1.1

August 2008

---

This document contains supplemental documentation that applies to Oracle Retail Extract, Transform, and Load (RETL) Release 13.0.1.

## Documentation Release Only

---

---

**Note:** Oracle Retail Extract, Transform, and Load (RETL) Release 13.0.1.1 is a documentation-only release. There is no code associated with this release identifier.

---

---

This Release Notes document is the only component of the RIB 13.0.1.1 release. The purpose of this Release Notes document and this patch release is only to document a workaround for a problem that users may encounter when running RETL flows.

## Running RETL Flows on Systems with Both 32-Bit and 64-Bit Instances of Oracle Database

### Issue:

When attempting to run a RETL flow, you may receive an error message as follows:

```
FATAL - E135: Exception in operator [oraread:3]
E342: JDBC driver oracle.jdbc.driver.OracleDriver failed to load.
```

### Workaround:

This problem occurs on systems that are running both 32-bit and 64-bit instances of Oracle Database. The Java Virtual Machine (JVM) and the drivers loaded from the Oracle library must always be in sync. This error occurs when you are using the 32-bit JVM and RETL loads the drivers from the 64-bit Oracle library (\$ORACLE\_HOME/lib). This may also occur when you are using the 64-bit JVM and RETL loads the drivers from the 32-bit Oracle library (\$ORACLE\_HOME/lib32).

The following topics describe how to correct this problem, depending on your operating system.

## **AIX**

To use the 32-bit Oracle library, enter the following commands:

```
unset LIBPATH
export LIBPATH=$ORACLE_HOME/lib32
```

To use the 64-bit Oracle library, enter the following commands:

```
unset LIBPATH
export LIBPATH=$ORACLE_HOME/lib
```

## **HP-UX**

To use the 32-bit Oracle library, enter the following commands:

```
unset SHLIB_PATH
export SHLIB_PATH=$ORACLE_HOME/lib32
```

To use the 64-bit Oracle library, enter the following commands:

```
unset SHLIB_PATH
export SHLIB_PATH=$ORACLE_HOME/lib
```

## **Sun Solaris**

To use the 32-bit Oracle library, enter the following commands:

```
unset LD_LIBRARY_PATH
export LD_LIBRARY_PATH=$ORACLE_HOME/lib32
```

To use the 64-bit Oracle library, enter the following commands:

```
unset LD_LIBRARY_PATH
export LD_LIBRARY_PATH=$ORACLE_HOME/lib
```

The Programs (which include both the software and documentation) contain proprietary information; they are provided under a license agreement containing restrictions on use and disclosure and are also protected by copyright, patent, and other intellectual and industrial property laws. Reverse engineering, disassembly, or decompilation of the Programs, except to the extent required to obtain interoperability with other independently created software or as specified by law, is prohibited.

The information contained in this document is subject to change without notice. If you find any problems in the documentation, please report them to us in writing. This document is not warranted to be error-free. Except as may be expressly permitted in your license agreement for these Programs, no part of these Programs may be reproduced or transmitted in any form or by any means, electronic or mechanical, for any purpose.

If the Programs are delivered to the United States Government or anyone licensing or using the Programs on behalf of the United States Government, the following notice is applicable:

U.S. GOVERNMENT RIGHTS Programs, software, databases, and related documentation and technical data delivered to U.S. Government customers are "commercial computer software" or "commercial technical data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the Programs, including documentation and technical data, shall be subject to the licensing restrictions set forth in the applicable Oracle license agreement, and, to the extent applicable, the additional rights set forth in FAR 52.227-19, Commercial Computer Software--Restricted Rights (June 1987). Oracle USA, Inc., 500 Oracle Parkway, Redwood City, CA 94065.

The Programs are not intended for use in any nuclear, aviation, mass transit, medical, or other inherently dangerous applications. It shall be the licensee's responsibility to take all appropriate fail-safe, backup, redundancy and other measures to ensure the safe use of such applications if the Programs are used for such purposes, and we disclaim liability for any damages caused by such use of the Programs.

The Programs may provide links to Web sites and access to content, products, and services from third parties. Oracle is not responsible for the availability of, or any content provided on, third-party Web sites. You bear all risks associated with the use of such content. If you choose to purchase any products or services from a third party, the relationship is directly between you and the third party. Oracle is not responsible for: (a) the quality of third-party products or services; or (b) fulfilling any of the terms of the agreement with the third party, including delivery of products or services and warranty obligations related to purchased products or services. Oracle is not responsible for any loss or damage of any sort that you may incur from dealing with any third party.

#### **Value-Added Reseller (VAR) Language**

(i) the software component known as **ACUMATE** developed and licensed by Lucent Technologies Inc. of Murray Hill, New Jersey, to Oracle and imbedded in the Oracle Retail Predictive Application Server - Enterprise Engine, Oracle Retail Category Management, Oracle Retail Item Planning, Oracle Retail Merchandise Financial Planning, Oracle Retail Advanced Inventory Planning and Oracle Retail Demand Forecasting applications.

(ii) the **MicroStrategy** Components developed and licensed by MicroStrategy Services Corporation (MicroStrategy) of McLean, Virginia to Oracle and imbedded in the MicroStrategy for Oracle Retail Data Warehouse and MicroStrategy for Oracle Retail Planning & Optimization applications.

(iii) the **SeeBeyond** component developed and licensed by Sun Microsystems, Inc. (Sun) of Santa Clara, California, to Oracle and imbedded in the Oracle Retail Integration Bus application.

(iv) the **Wavelink** component developed and licensed by Wavelink Corporation (Wavelink) of Kirkland, Washington, to Oracle and imbedded in Oracle Retail Store Inventory Management.

(v) the software component known as **Crystal Enterprise Professional and/or Crystal Reports Professional** licensed by Business Objects Software Limited ("Business Objects") and imbedded in Oracle Retail Store Inventory Management.

(vi) the software component known as **Access Via™** licensed by Access Via of Seattle, Washington, and imbedded in Oracle Retail Signs and Oracle Retail Labels and Tags.

(vii) the software component known as **Adobe Flex™** licensed by Adobe Systems Incorporated of San Jose, California, and imbedded in Oracle Retail Promotion Planning & Optimization application.

(viii) the software component known as **Style Report™** developed and licensed by InetSoft Technology Corp. of Piscataway, New Jersey, to Oracle and imbedded in the Oracle Retail Value Chain Collaboration application.

(ix) the software component known as **WebLogic™** developed and licensed by BEA Systems, Inc. of San Jose, California, to Oracle and imbedded in the Oracle Retail Value Chain Collaboration application.

(x) the software component known as **DataBeacon™** developed and licensed by Cognos Incorporated of Ottawa, Ontario, Canada, to Oracle and imbedded in the Oracle Retail Value Chain Collaboration application.
