Customer Support

https://metalink.oracle.com

When contacting Customer Support, please provide the following:

- Product version and program/module name
- Functional and technical description of the problem (include business impact)
- Detailed step-by-step instructions to re-create
- Exact error message received
- Screen shots of each step you take

Review Patch Documentation

For a base release (".0" release, such as 13.0), Oracle Retail strongly recommends that you read all patch documentation before you begin installation procedures. Patch documentation can contain critical information related to the base release, based on new information and code changes that have been made since the base release.
Oracle Retail Documentation on the Oracle Technology Network

In addition to being packaged with each product release (on the base or patch level), all Oracle Retail documentation is available on the following Web site:

http://www.oracle.com/technology/documentation/oracle_retail.html

Documentation should be available on this Web site within a month after a product release. Note that documentation is always available with the packaged code on the release date.

Conventions

**Navigate:** This is a navigate statement. It tells you how to get to the start of the procedure and ends with a screen shot of the starting point and the statement “the Window Name window opens.”

**Note:** This is a note. It is used to call out information that is important, but not necessarily part of the procedure.

This is a code sample

- It is used to display examples of code

A hyperlink appears like this.
Navigate: From the main menu, select Action > View Reports. The Report Request window opens.

**Report Request Window**

1. In the Module field, click the LOV button and select the module. The List of Modules window opens. (You can also enter a module name.)

**List of Modules Window**

2. Select the module from the list.
3. Click OK.
4. In the Report field, click the LOV button and select the report. The List of Reports window opens. (You can also enter a report name.)

**List of Reports Window**

5. Select the report from the list.
6. Click **OK** in the List of Reports window.
7. Click **OK** in the Report Request window.
8. Oracle Business Intelligence (Oracle BI) Publisher Enterprise opens in your Web browser.

9. Depending on the report, you can use prompts to select report parameters.

   - Some prompts allow you to filter the report contents and limit the information in the report. For example, you can filter on Dept or Item to filter the content of the Pick List report.
   - Some reports require a parameter, such as a letter of credit ID.
   - Some reports require no parameters, and no prompts are displayed. Select values as needed from the drop-down lists for the prompts displayed.

10. Select the report output you want (not all output formats may be available):

    - HTML (default, Web page format)
    - PDF (Adobe Acrobat Portable Document Format)
    - RTF (Rich Text Format, used by Microsoft Word and other programs)
    - Excel (Microsoft Excel format)
    - PowerPoint (Microsoft PowerPoint format)
    - CSV (comma-separated values file)
    - Data (XML)

11. Click **View**. The report is displayed in Oracle BI Publisher.

    (If you selected another output format, you may have the option to save the report to disk, or open the report with another program, such as Microsoft Excel.)
Example Report in Oracle BI Publisher

12. Close the browser window when you are finished viewing, printing, or saving the report.

13. In the Report Request window:
   - If you want to view another report, repeat steps 4 through 10.
   - If you are finished viewing reports, click **Cancel** to close the Report Request window.
Report Descriptions

The following are descriptions of the RMS reports available through the Report Request window. The reports are organized according to module, as listed in the List of Modules window.

Order Redistribution

Module: Orders

Description: Sometimes orders are distributed to a dummy location (also referred to as a redistribution warehouse) because the order is placed before the buyer knows which locations need the ordered items. The Order Redistribution report lists those purchase orders that must be redistributed by a specified buyer. If a buyer is not specified, the report lists such orders for each buyer.

Parameter: Buyer
