

Oracle® Retail Merchandising System

Release Notes

Release 13.0.6

February 2013

Oracle Retail Merchandising System (RMS) Release 13.0.6 is a patch release. RMS 13.0.6 includes selected defect fixes and enhancements for RMS 13.0.5 code.

Oracle Customer Support investigates submitted issues assuming that all released updates have been applied. It is the customer's decision when to apply a new release; however, delays in applying updates can complicate the support process.

About Patch Releases

Oracle Retail patch releases are periodic releases that can include the following:

- New defect fixes
- Product enhancements
- Technology upgrades
- Performance fixes

Documentation for patch releases includes new and updated guides (for example, Operations Guides, User Guides, and so on) that apply to the patch release level. These documents include applicable updates made since the last patch release. Documents revised for this patch release supersede and replace all previous document versions. See "[Related Documentation](#)" for a list of the documents published for RMS 13.0.6.

Note: Customers must apply the entire patch release to update their installation to the currently supported level.

See the *Oracle Retail Merchandising System Installation Guide* for Release 13.0.6 for instructions about how to apply the defect fixes and enhancements that you have not already applied.

Hardware and Software Requirements

See the *Oracle Retail Merchandising System Installation Guide* for information about the following:

- Hardware and software requirements
- Oracle Retail application software compatibility

Applying the Patch Release

Before applying the RMS 13.0.6 patch release, be sure that:

- RMS 13.0.5 has been installed
- Patch releases RMS 13.0.5.1 through 13.0.5.5 have been applied

Before applying the new files over your code:

- Note whether any modules have been customized. If so, the customizations must be reapplied to the new version of the module, or the fix may need to be applied to the custom version of the code.
- Copy the original files to a different directory before you copy over them, in case you need to refer to them at a later date.

Running Scripts

Back up data before running any script, because the scripts provided *do not* preserve data. See defect reports for details.

Check with your database administrator to determine whether your database should be analyzed after a script is run. In many cases, analysis of the database is necessary to take advantage of new or modified indexes intended to improve performance of the application.

Technical Enhancements

The section addresses the technical enhancements included in Oracle Retail Merchandising System, Release 13.0.6.

Note: The list below announces the addition of Oracle Retail support for the technology described. See the Installation Guide requirements section for critical information, such as whether the enhancement below replaces previous versions or is supported in addition to already existing versions.

Browser Support

Oracle Retail Merchandising System 13.0.6 is now certified for use with the following browsers:

- Microsoft Internet Explorer 8
- Microsoft Internet Explorer 9
- Mozilla Firefox 10 System

Software Operating Environment Upgrades

The following are enhancements to the software operating environment options for Oracle Retail Merchandising System 13.0.6:

- Oracle Java Runtime Environment 6 (Client)
- Oracle Linux 5U8

- Oracle Database Enterprise Edition 11gR2 (11.2.0.3)

Noteworthy Defect Fixes

The following topics highlight:

- Noteworthy defect fixes and enhancements that are new for Release 13.0.6

The following is not a complete list. See **DEFECT MODULE XREF RMS 13.0.6.XLS** for a complete list of new defect fixes and enhancements for RMS 13.0.6.

Release 13.0.6

The following are noteworthy defect fixes.

Table 1 Noteworthy Defect in RMS Release 13.0.6

Defect Number	Summary
14712450	Incorrect turnover and deal income is calculated on the Root Cause Analysis (RCA).
13897690	Warehouse Management System (WMS) Inventory adjustment does not proceed in RMS and displays Quantity error.
13977668	EDIDLPRD takes a longer runtime and does not complete the transaction.
14258780	When a Purchase Order is created in Allocation, the earliest and the last shipping dates are incorrect.
14354873	After docclose batch run, the TSF_EXPECTED and TSF_RESERVED fields have negative values in ITEM_LOC_SOH table.
13929492	SOSTATUS messages from Store Inventory Management (SIM) fails in Integration Bus (RIB) and RMS hospital.
14495717	Chain level deals does not appear in the Warehouse.
14047365	Shipping an Return to Vendor (RTV) for an item updates the cancelled quantity for other RTVs of the same item.
13935154	Supplier and the Site created in the E-business Suite (EBS) does not mandate to create the address in RMS, where it is mandatory.
13902143	Orddivmgt form does not display quantities in the Truck splitting constraints for Stock Keeping Unit's (SKU) starting with zero.

Release 13.0.5.5

The following are noteworthy defect fixes and enhancements that were provided in the RMS 13.0.5.5 release. These are also included in the RMS 13.0.5 patch. See **DEFECT MODULE XREF RMS 13.0.5.5.XLS** for a complete list of RMS 13.0.5.5 defect fixes.

Table 2 Noteworthy Defect in RMS Release 13.0.5.5

Defect Number	Summary
13562868	RMS updates shipment with INVC_MATCH_STATUS='M'.
13572492	STOCKTAKE_BOOKSTK_COST in the MONTH_DATA table is calculated incorrectly.
13850509	ITEM_LOC_SOH.PRIMARY_SUPP and ITEM_LOC_SOH.PRIMARY_CNTRY are null in some cases.

Table 2 (Cont.) Noteworthy Defect in RMS Release 13.0.5.5

Defect Number	Summary
13858497	When there are no deals present in the system, the prepost vendinvc post batch results in an error: "ORA-24333: ZERO ITERATION COUNT~ERROR UPDATE: EST_NEXT_INVOICE_DATE TO NULL"
13863246	After an upgrade to RMS 13.0.5.4, direct store delivery (DSD) receipts are failing in RIB.

Release 13.0.5.4

The following are noteworthy defect fixes and enhancements that were provided in the RMS 13.0.5.4 release. These are also included in the RMS 13.0.5 patch. See **DEFECT MODULE XREF RMS 13.0.5.4.XLS** for a complete list of RMS 13.0.5.4 defect fixes.

Table 3 Noteworthy Defect in RMS Release 13.0.5.4

Defect Number	Summary
13147237	When ReIM is in use, the driving cursor in ORDPRG.PC performs poorly.
13345904	The location select box does not work in the Add Item/Location screen.
13406874	No entry is created in the SA_EXPORT_LOG table when errors are corrected or overridden.
13513435	No record was inserted into the ITEM_SUPP_COUNTRY_LOC table when an ITEM_SUPP_COUNTRY record was created for an item with locations already defined.

Release 13.0.5.3

The following are noteworthy defect fixes and enhancements that were provided in the RMS 13.0.5.3 release. These are also included in the RMS 13.0.5 patch. See **DEFECT MODULE XREF RMS 13.0.5.3.XLS** for a complete list of RMS 13.0.5.3 defect fixes.

Table 4 Noteworthy Defect in RMS Release 13.0.5.3

Defect Number	Summary
12717147	ORIG_ING is changed and the location column is blank after SIM activity.
12922328	Warehouse delivery shipments are received in SIM but not in RMS.
13002311	An unexplained discount is applied when an order is created.
13146195	RMS items are reclassified while an order is ongoing.

Release 13.0.5.2

The following are noteworthy defect fixes and enhancements that were provided in the RMS 13.0.5.2 release. These are also included in the RMS 13.0.5 patch. See **DEFECT MODULE XREF RMS 13.0.5.2.XLS** for a complete list of RMS 13.0.5.2 defect fixes.

Table 5 Noteworthy Defect in RMS Release 13.0.5.2

Defect Number	Summary
9699011	RMS is unable to finalize actual landed cost for updating the weighted average cost when a purchase order is being received and is not closed yet. This causes discrepancies in the weighted average cost, because inventories might have been sold out by the time an order is closed.
11929782	A shipment is closed the INVCLSHP is run, even if an invoice has not been created yet.
12388766	The SALDLY batch is not posting tran codes 3 and 5 to the daily_data table. Tran codes 3 and 5 are posted for non-inventory items.
12561921	There is an exchange rate issue when the location currency and expense/duty currency are the same and the exchange rate changes between shipping and receiving.

Release 13.0.5.1

The following are noteworthy defect fixes and enhancements that were provided in the RMS 13.0.5.1 release. These are also included in the RMS 13.0.5 patch. See **DEFECT MODULE XREF RMS 13.0.5.1.XLS** for a complete list of RMS 13.0.5.1 defect fixes.

Table 6 Noteworthy Defect in RMS Release 13.0.5.1

Defect Number	Summary
10356778	Constraints on ReSA form filters out the locations marked in RMS store foundation data as non-stockholding locations, so users cannot handle these locations within ReSA.
11718356	For child shipments in RMS, no details are shown.
11817749	There is an exchange rate issue when the location currency and order currency are the same and the exchange rate changes between shipping and receiving.
11836062	When there are multiple price changes for the same day, prcilddm loads records in random order.

Related Documentation

For more information, see the following documents in the Oracle Retail Merchandising System Release 13.0.6 documentation set:

Documentation Accessibility

Our goal is to make Oracle products, services, and supporting documentation accessible to all users, including users that are disabled. To that end, our documentation includes features that make information available to users of assistive technology. This documentation is available in HTML format, and contains markup to facilitate access by the disabled community. Accessibility standards will continue to evolve over time, and Oracle is actively engaged with other market-leading technology vendors to address technical obstacles so that our documentation can be

accessible to all of our customers. For more information, visit the Oracle Accessibility Program Web site at <http://www.oracle.com/accessibility/>.

Accessibility of Code Examples in Documentation

Screen readers may not always correctly read the code examples in this document. The conventions for writing code require that closing braces should appear on an otherwise empty line; however, some screen readers may not always read a line of text that consists solely of a bracket or brace.

Accessibility of Links to External Web Sites in Documentation

This documentation may contain links to Web sites of other companies or organizations that Oracle does not own or control. Oracle neither evaluates nor makes any representations regarding the accessibility of these Web sites.

Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/support/contact.html> or visit <http://www.oracle.com/accessibility/support.html> if you are hearing impaired.

Value-Added Reseller (VAR) Language

Oracle Retail VAR Applications

The following restrictions and provisions only apply to the programs referred to in this section and licensed to you. You acknowledge that the programs may contain third party software (VAR applications) licensed to Oracle. Depending upon your product and its version number, the VAR applications may include:

- (i) the **MicroStrategy** Components developed and licensed by MicroStrategy Services Corporation (MicroStrategy) of McLean, Virginia to Oracle and imbedded in the MicroStrategy for Oracle Retail Data Warehouse and MicroStrategy for Oracle Retail Planning & Optimization applications.
- (ii) the **Wavelink** component developed and licensed by Wavelink Corporation (Wavelink) of Kirkland, Washington, to Oracle and imbedded in Oracle Retail Mobile Store Inventory Management.
- (iii) the software component known as **Access Via™** licensed by Access Via of Seattle, Washington, and imbedded in Oracle Retail Signs and Oracle Retail Labels and Tags.
- (iv) the software component known as **Adobe Flex™** licensed by Adobe Systems Incorporated of San Jose, California, and imbedded in Oracle Retail Promotion Planning & Optimization application.

You acknowledge and confirm that Oracle grants you use of only the object code of the VAR Applications. Oracle will not deliver source code to the VAR Applications to you. Notwithstanding any other term or condition of the agreement and this ordering document, you shall not cause or permit alteration of any VAR Applications. For purposes of this section, "alteration" refers to all alterations, translations, upgrades, enhancements, customizations or modifications of all or any portion of the VAR Applications including all reconfigurations, reassembly or reverse assembly, re-engineering or reverse engineering and recompilations or reverse compilations of the VAR Applications or any derivatives of the VAR Applications. You acknowledge that it shall be a breach of the agreement to utilize the relationship, and/or confidential information of the VAR Applications for purposes of competitive discovery.

The VAR Applications contain trade secrets of Oracle and Oracle's licensors and Customer shall not attempt, cause, or permit the alteration, decompilation, reverse engineering, disassembly or other reduction of the VAR Applications to a human perceivable form. Oracle reserves the right to replace, with functional equivalent software, any of the VAR Applications in future releases of the applicable program.
