Integration Enhancement

The following integration enhancement is included in this release.

Integration with Oracle Retail Workspace

Oracle Retail Workspace is a supported configuration of Oracle WebCenter Spaces 11.1.1.5 for Oracle Retail. For the Oracle Retail 13.2.x enterprise, Oracle Retail Workspace 13.2.4 replaces previous versions of Oracle Retail Workspace. There is no more packaged Oracle Retail Workspace code, only configuration instructions for Oracle WebCenter Spaces 11.1.1.5.

The Oracle Retail Workspace configuration utilizes the external application functionality and the application navigator taskflow of the Oracle WebCenter Framework to configure the Oracle Retail Merchandising System application in Oracle WebCenter Spaces.

For information on how to integrate Oracle Retail Merchandising System with Oracle Retail Workspace, see the latest *Oracle Retail Workspace Implementation Guide*.
