Oracle Retail Merchandising System (RMS) Release 14.1.3 is a patch release for RMS 14.1. RMS 14.1.3 includes selected defect fixes and enhancements for RMS 14.1 code.

Oracle Customer Support investigates submitted issues assuming that all released updates have been applied. It is the customer’s decision when to apply a new release; however, delays in applying updates can complicate the support process.

This document contains the following topics:

- Overview
- About Patch Releases
- Hardware and Software Requirements
- Applying the Patch Release
- Running Scripts
- Defect Fixes and Documentation
- RMS Noteworthy Defect Fixes
- RMS Related Documentation
- Oracle Retail Sales Audit (ReSA)
- Documentation Accessibility

**Overview**

Oracle Retail Merchandising System (RMS) is used to execute core merchandising activities, including merchandise management, inventory replenishment, purchasing, vendor management, and financial tracking.

Oracle Retail Sales Audit (ReSA) provides the tools to evaluate point-of-sale data to ensure the accuracy and completeness of information exported to downstream systems used in optimization processes, financial reporting, and analysis.

**About Patch Releases**

Oracle Retail patch releases are periodic releases that can include the following:

- New defect fixes
- Product enhancements
- Technical upgrades
Documentation for patch releases includes the following:

- New and updated guides (for example, operations and user guides) that apply to the patch release level. See RMS Related Documentation for a list of the documents published for RMS 14.1.3.
- Defect reports for new fixes and enhancements for the patch release.

Note: Customers must apply the entire patch release to update their installation to the currently supported level.

See the Oracle Retail Merchandising System Installation Guide and Oracle Retail Sales Audit Installation Guide for Release 14.1.3 for instructions about how to apply the defect fixes and enhancements that you have not already applied.

**Hardware and Software Requirements**

See the Oracle Retail Merchandising Installation Guide and Oracle Retail Sales Audit Installation Guide for additional information about the following:

- Hardware and software requirements
- Oracle Retail application software compatibility

**Applying the Patch Release**

Before applying the RMS 14.1.3 patch release, be sure that:

- RMS 14.1.2 has been installed.
- ReSA 14.1.2 has been installed.

Before applying the new files over your code:

- Note whether any modules have been customized. If so, the customizations must be reapplied to the new version of the module, or the fix may need to be applied to the custom version of the code.
- Copy the original files to a different directory before you copy over them, in case you need to refer to them at a later date.

**Running Scripts**

Back up data before running any script, because the scripts provided do not preserve data. See defect reports for details.

Check with your database administrator to determine whether your database should be analyzed after a script is run. In many cases, an analysis of the database is necessary to take advantage of new or modified indexes intended to improve performance of the application.

**Defect Fixes and Documentation**

A defect fix is a modification to the base Oracle Retail code (for example, a bug fix, a performance enhancement, or a functional enhancement). Each defect fix that is included in this patch has a corresponding defect report titled `<defect-number>.PDF`
In the same folder, the file named **DEFECT MODULE XREF RMS 14.1.3.XLS** lists every defect number and the modules and scripts that are included in the patch. Review each defect report carefully before implementing the defect fixes. Note that scripts do not preserve data. Make sure that all data is backed up before you run any script.

**RMS Noteworthy Defect Fixes**

The following RMS noteworthy defects are fixed in this release:

<table>
<thead>
<tr>
<th>Defect</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>24010782</td>
<td>Replenishment does not consider allocation made from WH stock or from transfers.</td>
</tr>
<tr>
<td>24355521</td>
<td>Item induction - process_cascade_vi fails.</td>
</tr>
<tr>
<td>23506100</td>
<td>Store add async process with like store fails when new store ID exists in addr.</td>
</tr>
<tr>
<td>25223771</td>
<td>Dealfct does not update forecast ind to ‘a’ in the deal_actuals_forecast.</td>
</tr>
<tr>
<td>25221831</td>
<td>Inv adj for a simple pack when store/wh is not ranged to pack and comp items.</td>
</tr>
<tr>
<td>25133771</td>
<td>Source WH for virtual warehouse is not copied for pack item.</td>
</tr>
<tr>
<td>25116174</td>
<td>PO item pack component showing wrong received quantity.</td>
</tr>
<tr>
<td>22698372</td>
<td>Bulk processing of xorder messages is failing with the error ora-14450.</td>

Oracle Retail Sales Audit (ReSA)

Oracle Retail Sales Audit (ReSA) Release 14.1.3 is a patch release for ReSA 14.1 and includes selected defect fixes and enhancements for ReSA 14.1 code.

ReSA Noteworthy Defect Fixes

The following ReSA noteworthy defects are fixed in this release:

<table>
<thead>
<tr>
<th>Defect</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>24502966</td>
<td>The SIMT file does not accommodate the register ID.</td>
</tr>
<tr>
<td>25207833</td>
<td>ReSA store day does not close due to the mismatch of RTlog count with ORPOS.</td>
</tr>
<tr>
<td>24805068</td>
<td>ReSA transaction maintenance window throws an adf_faces-60096 error.</td>
</tr>
<tr>
<td>24450129</td>
<td>ReSA AM pool tuning 14.1.X environment.</td>
</tr>
<tr>
<td>23557629</td>
<td>Platform 3.0.5.4 uptake for ReSA Release 14.1.2.</td>
</tr>
<tr>
<td>24849867</td>
<td>Upgrade from FMW 11.1.1.7 to 11.1.1.9 for ReSA.</td>
</tr>
</tbody>
</table>

Value-Added Reseller (VAR) Language
Oracle Retail VAR Applications
The following restrictions and provisions only apply to the programs referred to in this section and licensed to you. You acknowledge that the programs may contain third party software (VAR applications) licensed to Oracle. Depending upon your product and its version number, the VAR applications may include:

(i) the MicroStrategy Components developed and licensed by MicroStrategy Services Corporation (MicroStrategy) of McLean, Virginia to Oracle and imbedded in the MicroStrategy for Oracle Retail Data Warehouse and MicroStrategy for Oracle Retail Planning & Optimization applications.
(ii) the Wavelink component developed and licensed by Wavelink Corporation (Wavelink) of Kirkland, Washington, to Oracle and imbedded in Oracle Retail Mobile Store Inventory Management.
(iii) the software component known as Access Via™ licensed by Access Via of Seattle, Washington, and imbedded in Oracle Retail Signs and Oracle Retail Labels and Tags.
(iv) the software component known as Adobe Flex™ licensed by Adobe Systems Incorporated of San Jose, California, and imbedded in Oracle Retail Promotion Planning & Optimization application.

You acknowledge and confirm that Oracle grants you use of only the object code of the VAR Applications. Oracle will not deliver source code to the VAR Applications to you. Notwithstanding any other term or condition of the agreement and this ordering document, you shall not cause or permit alteration of any VAR Applications. For purposes of this section, “alteration” refers to all alterations, translations, upgrades, enhancements, customizations or modifications of all or any portion of the VAR Applications including all reconfigurations, reassembly or reverse assembly, re-engineering or reverse engineering and recompilations or reverse compilations of the VAR Applications or any derivatives of the VAR Applications. You acknowledge that it shall be a breach of the agreement to utilize the relationship, and/or confidential information of the VAR Applications for purposes of competitive discovery.

The VAR Applications contain trade secrets of Oracle and Oracle’s licensors and Customer shall not attempt, cause, or permit the alteration, decompilation, reverse engineering, disassembly or other reduction of the VAR Applications to a human perceptible form. Oracle reserves the right to replace, with functional equivalent software, any of the VAR Applications in future releases of the applicable program.
