

Oracle® Retail Service Layer

Release Notes

Release 13.2.5

October 2012

Oracle Retail Service Layer (RSL) Release 13.2.5 is a patch release for RSL 13.2.

Note: The Oracle Retail Service Layer 13.2.5 release is a repackaging of the previous release. There are no changes made to the code.

About Patch Releases

Oracle Retail patch releases are periodic releases that can include the following:

- New defect fixes
- Product enhancements
- Technology upgrades
- Performance fixes

Documentation for patch releases includes new and updated guides (for example, Operations Guides, User Guides, and so on) that apply to the patch release level. These documents include applicable updates made since the last patch release. Documents revised for this patch release supersede and replace all previous document versions. See "[Related Documentation](#)" for a list of the documents published for RSL Release 13.2.5.

Note: Customers must apply the entire patch release to update their installation to the currently supported level.

Hardware and Software Requirements

See the *Oracle Retail Service Layer Installation Guide* for information about the following:

- Hardware and software requirements
- Oracle Retail application software compatibility

Applying the Patch Release

RSL releases are full releases of the application code. Follow the instructions in the *Oracle Retail Service Layer Installation Guide* to install the full product, including all defect fixes to date.
